incorporation or organization)

41-1883630
(I.R.S. Employer
Identification No.)

8100 Mitchell Road, Eden Prairie, Minnesota
(Address of principal executive offices)

55344-2248
(Zip Code)

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

(952) 937-8500

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act: Common Stock, par value \$.10 per share
Preferred Share Purchase Rights

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports) and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of accelerated filer and large accelerated filer in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of voting stock held by non-affiliates of the registrant as of June 30, 2006 (the last business day of the registrant's most recently completed second fiscal quarter) was approximately \$9,121,857,000 (based on the last sale price of such stock as quoted on The NASDAQ National Market (\$53.50) on such date).

As of February 26, 2007, the number of shares outstanding of the registrant's Common Stock, par value \$.10 per share, was 173,096,332.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Registrant's Annual Report to Stockholders for the year ended December 31, 2006 (the Annual Report), are incorporated by reference in Part II.

Portions of the Registrant's Proxy Statement relating to its Annual Meeting of Stockholders to be held May 17, 2007 (the Proxy Statement), are incorporated by reference in Part III.

PART I

ITEM 1. BUSINESS

Overview

C.H. Robinson Worldwide, Inc. (C.H. Robinson, the company, we, us, or our) is one of the largest third party logistics companies in the world with 2006 gross revenues of \$6.6 billion. We provide freight transportation services and logistics solutions to companies of all sizes, in a wide variety of industries. During 2006, we handled approximately 5.2 million shipments for more than 25,000 customers. We operate through a network of 214 offices, which we call branches, in North America, Europe, Asia, and South America. We have developed global multimodal transportation and distribution networks to provide seamless logistics services worldwide. As a result, we have the capability of managing most aspects of the supply chain on behalf of our customers.

We are a non-asset based transportation provider, meaning we do not own the transportation equipment that is used to transport our customers freight. Through our relationships with approximately 45,000 transportation companies, including motor carriers, railroads (primarily intermodal service providers), air freight and ocean carriers, we select and hire the appropriate transportation to manage our customers freight needs. Being non-asset based means we can be flexible and focus on seeking solutions that work for our customers, rather than focusing on asset utilization. As an integral part of our transportation services, we provide a wide range of value-added logistics services, such as supply chain analysis, freight consolidation, core carrier program management, and information reporting.

In addition to multimodal transportation services, we have two other logistics business lines: fresh produce sourcing and fee-based information services.

Sourcing (the buying, selling, and brokering of fresh produce) was our original business when we were founded in 1905. Much of our logistics expertise can be traced to our significant experience in handling perishable commodities. We purchase fresh produce through our network of produce suppliers. Our customers include large grocery retailers, produce wholesalers, restaurants, and foodservice distributors. In the majority of cases, we also arrange the transport of the fresh produce we sell through our relationships with owners of specialized transportation equipment. In response to demand and changing market conditions, we have developed our own brand of produce, The Fresh 1[®], and also have entered into licensing agreements to distribute produce under other national brand names. The produce for these brands is sourced through various relationships and packed to order through contract packing agreements. We have also instituted quality assurance and monitoring procedures as part of our national brand programs.

Information Services, our third business line, is comprised of a C.H. Robinson subsidiary, T-Chek Systems, Inc. T-Chek's customers are motor carriers, for which it provides a variety of management and information services such as fuel management services, funds transfer, fuel and use tax reporting, and driver funds transfer. For several companies and truck stop chains, T-Chek captures sales and fuel cost data, provides management information to the seller, transfers funds to the truck stop, and invoices the carrier for fuel, cash advances, and our fee.

Our business model has been the main driver of our strong historical results and has positioned us for continued growth. One of our competitive advantages is our large branch network of 214 offices, staffed by approximately 5,200 salespeople. These branch employees are in close proximity to both customers and transportation providers, which gives them broad knowledge of their local markets and enables them to respond quickly to customers and transportation providers' changing needs. Employees act as a team in their sales efforts, customer service, and operations. Over 30% of our transactions are shared transactions between branches. Our branches work together to complete transactions and collectively meet the needs of our customers. For large multi-location customers, we often coordinate our efforts in one branch and rely on multiple branch locations to deliver specific geographic or modal needs. Our methodology of providing services is very similar across all branches. Our North American branches have a common technology platform that they use to match customer needs with supplier capabilities, to collaborate with other branch locations, and to utilize centralized support resources to complete all facets of the transaction. A significant portion of our branch employees' compensation is performance-oriented, based on the profitability of their branch and their contributions to the success of the branch. We believe this makes our sales employees more service-oriented, focused, and creative.

Historically we have grown primarily through internal growth, by expanding current offices, opening new branch offices, and hiring additional salespeople. We have augmented our growth through selective acquisitions. In May, 2006, we acquired certain assets of Payne, Lynch & Associates, Inc. (Payne Lynch), a non-asset based third party logistics company that specializes in flatbed and over dimensional freight brokerage. Payne Lynch had annual gross revenues of approximately \$35 million in 2005. During the fourth quarter, we acquired certain assets of Triune Freight Private Ltd. and Triune Logistics Private Ltd., (collectively Triune), a third party logistics provider based in India. Triune has annual gross revenues of approximately \$11 million.

Multimodal Transportation Services

C.H. Robinson is a third party logistics company. We provide freight transportation and logistics services. We are a non-asset based provider, meaning we do not own the transportation equipment used to transport the freight. We make a profit or margin on the difference between what we charge to our customers for the totality of services provided to them, and what we pay to the transportation provider (also known as a carrier) to transport the freight.

We can arrange all of the following modes of transportation, on a worldwide basis:

Truck Through our contracts with motor carriers, we have access to dry vans, temperature-controlled units, and flatbeds. We also offer time-definite and expedited truck transportation. In many instances, we will consolidate partial shipments for several customers into full truckloads.

Less Than Truckload (LTL) LTL transportation involves the shipment of small packages and single or multiple pallets of freight, up to and including full trailer-load freight. We focus on shipments of a single pallet or larger, although we handle any size shipment. Through our contracts with motor carriers and our operating system, we consolidate freight and freight information to provide our customers with a single source of information on their freight.

Intermodal C.H. Robinson's intermodal transportation service is the shipment of freight in trailers or containers, by a combination of truck and rail. We have intermodal marketing contracts with railroads, and we arrange local pickup and delivery (known as drayage) through local motor carriers.

Ocean As a non-asset based ocean carrier and freight forwarder, we consolidate shipments, determine routing, select ocean carriers, contract for ocean shipments, provide for local pickup and delivery of shipments, and arrange for customs clearance of shipments, including the payment of duties.

Air We provide door-to-door service as a full-service air freight forwarder, primarily internationally. On a day-to-day basis, customers communicate their freight needs, typically on a shipment-by-shipment basis, to the branch salesperson responsible for their account. Customers communicate with us by means of telephone, fax, Internet, e-mail, or EDI (Electronic Data Interchange). The branch employee ensures that all appropriate information about each shipment is entered into our proprietary operating system. With the help of information provided by the operating system, the salesperson then determines the appropriate mode of transportation for the shipment and selects a carrier or carriers, based upon their knowledge of the carrier's service capability, equipment availability, freight

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

rates, and other relevant factors. Based on the information he or she has about the market and rates, the salesperson may either determine an appropriate price at that point, or wait to communicate with a carrier directly before setting a price. In many cases, employees from different branch offices collaborate to hire the appropriate carrier for our customer's freight, and the branch offices agree to an internal profit split.

Once the carrier is selected, the salesperson communicates with the carrier to agree on the price for the transportation and the carrier's commitment to provide the transportation. At this point, the salesperson provides the carrier information to the customer. We then remain in contact with the carrier, mainly by phone calls with the driver, and rely on them to provide us status updates of the shipment through delivery. Our branch employees price our services to provide a profit to us for the totality of services performed for the customer.

We are a principal in the transaction. By accepting the customer's order, we accept certain responsibilities for transportation of the shipment from origin to destination. The carrier's contract is with us, not the customer, and we are responsible for prompt payment of carrier charges. In the cases where we have agreed to pay for claims for damage to freight while in transit, we pursue reimbursement from the carrier for the claims.

As a result of our logistics capabilities, some of our customers have us handle all, or a substantial portion, of their freight transportation requirements to or from a particular manufacturing facility or distribution center. In a number of instances, we have contracts with the customer in which we agree to handle an estimated, approximate number of shipments usually to specified destinations, such as from the customer's plant to a distribution center. Our commitment to handle the shipments is usually at specific rates, subject to seasonal variation. Most of our rate commitments are for one year or less. As is typical in the transportation industry, most of these contracts do not include specific volume commitments or "must haul" requirements.

The majority of our truckload freight is priced to our carriers on a spot market, or transactional, basis, even when we are working with the customer on a contractual basis. In a small number of cases, we may get advance commitments from one or more carriers to transport contracted shipments, for the length of our customer contract.

In the course of providing day-to-day transportation services, our branch employees often identify opportunities for additional logistics services as they become more familiar with our customer's daily operations and the nuances of its supply chain. We offer a wide range of logistics services on a worldwide basis that reduce or eliminate supply chain inefficiencies. We will analyze the customer's current transportation rate structures, modes of shipping, and carrier selection. We can evaluate a customer's core carrier program by establishing a program to measure and monitor key quality standards for those core carriers. We can identify opportunities to consolidate shipments for cost savings. We will suggest ways to improve operating and shipping procedures, and manage claims. We can help customers minimize storage through cross-docking and other flow-through operations. We may also examine the customer's warehousing and dock procedures. Many of these services are bundled with underlying transportation services and are not typically priced separately. They are usually included as a part of the cost of transportation services provided by us, based on the nature of the customer relationship. In addition to these transportation services, we may supply sourcing, contract warehousing, consulting, and other services, for which we are usually paid separately.

As we have emphasized integrated logistics solutions, our relationships with many customers have broadened and we have become key providers to our customers, responsible for a greater portion of their supply chain management. We may serve our customers through specially created teams and through several branches. Our multimodal transportation services are provided to numerous international customers through our worldwide branch network. See Note 1 in the "Notes to Consolidated Financial Statements" included as part of our audited consolidated financial statements for an allocation of our gross revenues from domestic and foreign customers for the years ended December 31, 2006, 2005, and 2004 and our long-lived assets as of December 31, 2006 and 2005, in the United States and in foreign locations.

The table below shows our gross profits by transportation mode for the periods indicated:

Transportation Gross Profits

(in thousands)

| | Year Ended December 31, | | | | |
|------------------|-------------------------|------------|------------|------------|------------|
| | 2006 | 2005 | 2004 | 2003 | 2002 |
| Truck(1) | \$ 822,954 | \$ 666,605 | \$ 501,940 | \$ 401,709 | \$ 361,353 |
| Intermodal | 36,176 | 31,392 | 29,960 | 28,103 | 21,111 |
| Ocean | 37,150 | 29,182 | 20,558 | 19,027 | 17,007 |
| Air | 21,533 | 13,321 | 8,570 | 4,891 | 3,068 |
| Miscellaneous(2) | 28,152 | 19,824 | 14,709 | 10,973 | 8,772 |
| Total | \$ 945,965 | \$ 760,324 | \$ 575,737 | \$ 464,703 | \$ 411,311 |

(1) Includes LTL gross profits.

(2) Consists of fee-based transportation management services, customs clearance (Automated Brokerage Interface (ABI) and Automated Clearing House (ACH) capabilities with the Bureau of U.S. Customs and Border Protection), warehousing, and other miscellaneous services.

Transportation services accounted for approximately 87% of our gross profits in 2006, 2005, and 2004.

Sourcing

Throughout our 101-year history, we have been in the business of sourcing fresh produce. Much of our logistics expertise can be traced to our significant experience in handling perishable commodities. Because of its perishable nature, produce must be rapidly packaged, carefully transported within tight timetables in temperature controlled equipment, and quickly distributed to replenish high-turnover inventories maintained by retailers, wholesalers, foodservice companies, and restaurants. In most instances, we consolidate individual customers' produce orders into truckload quantities at the point of origin and arrange for transportation of the truckloads, often to multiple destinations.

For several years, we have actively sought to expand our Sourcing customer base by focusing on large multistore grocery retailers, restaurant chains and foodservice providers. Traditionally, grocery retailers have relied mainly on regional or even local purchases from food wholesalers for produce sourcing and store-level distribution. As these retailers have expanded through store openings and industry consolidation, these methods have become inefficient. Our logistics and perishable commodities sourcing expertise can improve the retailers' produce purchasing, and provide uniform quality from region to region and store to store.

Our Sourcing services have expanded to include just-in-time replenishment, commodity management and business analysis. In response to demand and changing market conditions, we have a proprietary brand of produce, The Fresh 1[®], which includes a wide range of fruits and vegetables that are uniform in quality and top grade, and branded produce programs, including licensing agreements to distribute produce under major national brands. These brands have expanded our market presence and relationships with some of our retail customers. We have also instituted quality assurance and monitoring programs as part of our branded and preferred supplier programs. Our acquisitions of the FoodSource entities in 2005 further expanded our service capabilities in sourcing.

Sourcing accounted for approximately 9% of our gross profits in 2006 and 2005, and approximately 8% of our gross profits in 2004.

Information Services

Information Services is comprised of a subsidiary of C.H. Robinson, T-Chek Systems, Inc. T-Chek's customers are motor carriers and truck stop chains. T-Chek provides its motor carrier customers with fuel management services, funds transfer, fuel and use tax reporting, driver payroll services, permits, and on-line access to custom-tailored information management reports, all through the use of its proprietary automated systems. These systems enable motor carriers to track equipment, manage fleets, and dictate where and when their drivers purchase fuel. For several companies and truck stop chains, T-Chek captures sales and fuel cost data, provides management information to the seller, and invoices the carrier for fuel, cash advances, and our fee.

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

Information Services accounted for approximately 4% of our gross profits in 2006 and 2005 and 5% of our gross profits in 2004.

Organization

To keep us close to our customers and markets, we operate through a network of offices, which we call branches. We currently have 214 offices, up from 196 in 2005. Our branches are supported by executives and other centralized, shared services. Approximately 11% of our employees are corporate employees who provide these centralized, shared services. Over one-third of the corporate employees are information technology personnel who develop and maintain our proprietary operating system software and our wide area network.

Branch Network

Each branch office is responsible for its own growth and profitability. Our branch salespeople are responsible for developing new business, negotiating and pricing services, receiving and processing service requests from customers, and contracting with carriers to provide the transportation requested. In addition to routine transportation, salespeople are often called upon to handle customers' unusual, seasonal, and emergency needs. Shipments to be transported by truck are priced at the branch level, and branches cooperate with each other to hire carriers to provide transportation. Branches may rely on expertise in other branches when contracting LTL, intermodal, international ocean and air shipments. Multiple branches may also work together to service larger, national accounts where the expertise and resources of more than one branch are required to meet the customer's needs. Their efforts are usually coordinated by one lead branch on the account.

Salespeople in the branches both sell to and service their customers. Sales opportunities are identified through our database, referrals from current customers, leads generated by branch office personnel through knowledge of their local and regional markets, and third party sources such as industry directories. Salespeople are also responsible for recruiting new carriers, who are qualified by our centralized carrier services group to make sure they are properly licensed and insured, and have the resources to provide the necessary level of service on a dependable basis.

Branch Expansion. We expect to continue to open new branch offices. New branch offices are viewed as a long-term contributor to overall company growth. In addition to market opportunity, a major consideration in opening a new branch is whether we have branch salespeople that are ready to manage a new branch. Additional branches are often opened within a territory previously served by another branch, such as within major cities, as the volume of business in a particular area warrants opening a separate branch. A modest amount of capital is required to open a new branch, usually involving a lease for a small amount of office space, communications and hardware, and often employee compensation guarantees for a short time. We have also augmented our growth through selective acquisitions.

Branch Employees. Because the quality of our employees is essential to our success, we are highly selective in our hiring. We recruit applicants from across North America, Europe, Asia, and South America. Our applicants typically have college degrees, and some have business experience, although not necessarily within the transportation industry.

Newly hired branch employees go through on-the-job training at the branch level that emphasizes development of the necessary skills and customer service philosophy to become productive members of a branch team. We expect most new salespeople to start contributing to the success of the branch in a matter of weeks. In addition, each new salesperson attends a national training meeting to further their skills and have the opportunity to develop relationships with employees of other branches.

Employees at the branch level form a team. The team structure is motivated by our performance-based compensation system, in which a significant portion of the cash compensation of most branch managers and salespeople is dependent on the profitability of their particular branch or business unit. Branch managers and salespeople who have been employed for at least one complete year are paid a portion of the branch's earnings for that calendar year, based on a system of points awarded to the employees on the basis of their productivity and contributions. Employees can also receive profit sharing contributions that depend on our overall profitability and other factors in our 401(k) plan. In some special circumstances, such as opening new branches, we may guarantee a level of compensation to the branch manager and key salespersons for a short period of time.

All of our managers and certain other employees who have significant responsibilities are eligible to participate in our amended 1997 Omnibus Stock Plan. Within that plan, in 2003 we began regularly issuing restricted stock and restricted stock units as our primary equity awards because we believe these awards are an effective tool for creating long term ownership and alignment between employees and our shareholders. For most restricted stock awards, restricted shares and units are available to vest over five calendar years, based on company performance.

Individual salespeople benefit both through the growth and profitability of individual branches and by achieving individual goals. They are motivated by the opportunity to advance in a variety of career paths, including branch management, national sales, and national account management. We have a promote from within philosophy, and fill nearly all branch management positions with current employees.

Executive Officers

Under our decentralized business structure, branch managers, while retaining autonomy for their branch performance, receive guidance and support from the executive officers at our central corporate office. Customers, carriers, managers, and employees have direct access to our chief executive officer, John Wiehoff, and all other executive officers. These executives provide training and education, develop new services and applications to be offered to customers, share operations and management guidance, and provide broad market analysis.

The executives are designated annually by the Board of Directors. Below are the names, ages, and positions of the executive officers:

| Name | Age | Position |
|--------------------|------------|---|
| John P. Wiehoff | 45 | chief executive officer and chairman of the board |
| James E. Butts | 51 | vice president |
| Linda U. Feuss | 50 | vice president, general counsel and secretary |
| James P. Lemke | 39 | vice president, produce |
| Chad M. Lindbloom | 42 | vice president and chief financial officer |
| Thomas K. Mahlke | 35 | corporate controller |
| Scott A. Satterlee | 38 | vice president |
| Mark A. Walker | 49 | vice president |

John P. Wiehoff has been chief executive officer since May 2002, following a three-year succession process during which he was named president in December 1999. He has been a director of C.H. Robinson since December 2001 and was elected chairman of the board effective December 31, 2006. He was vice president and chief financial officer from June 1998 to December 1999. Previous positions with the company include treasurer and corporate controller. Prior to joining the company in 1992, he was employed by Arthur Andersen LLP. John also serves on the Board of Directors of Donaldson Company, Inc., a leading worldwide provider of filtration systems and replacement parts. He holds a Bachelor of Science degree from St. John's University.

James E. Butts has been a vice president and officer of C.H. Robinson since April 2002. Previous positions with the company include transportation manager at the Chicago South and Detroit branches. Jim has been with C.H. Robinson since 1978, and holds a Bachelor of Arts degree from Wayne State University and a Masters of Business Administration from Phoenix University.

Linda U. Feuss joined C.H. Robinson in October 2003 as vice president, general counsel and secretary. Before joining the company, she was executive vice president, legal and human resources, for PEMSTAR Inc. Prior to that, she had served as vice president and general counsel at The Pillsbury Company, and associate general counsel of Siemens Corporation. Linda holds a Bachelor of Arts degree from Colgate University and a Juris Doctor from Emory University.

James P. Lemke has been a vice president, produce since January 2003. Prior to that, he served as the vice president and manager of C.H. Robinson's Corporate Procurement and Distribution Services division. Jim joined the company in 1989. Jim holds a Bachelors of Arts degree in International Relations from the University of Minnesota.

Chad M. Lindbloom has been vice president and chief financial officer since December 1999. From June 1998 until December 1999, he served as corporate controller. Chad joined the company in 1990. Chad holds a Bachelor of Science degree and a Masters of Business Administration from the Carlson School of Management at the University of Minnesota.

Thomas K. Mahlke has been corporate controller of C.H. Robinson since December 1999. Tom joined the company in November 1997 as accounting manager. Prior to that, he was employed as a supervisory senior accountant by Arthur Andersen LLP. Tom holds a Bachelor of Accountancy degree from the University of North Dakota.

Scott A. Satterlee has been a vice president since February 2002. Additional positions with C.H. Robinson include director of operations and manager of the Salt Lake City branch office. Scott joined the company in 1991. Scott holds a Bachelor of Arts degree from the University of St. Thomas.

Mark A. Walker has been a vice president since December 1999. Additional positions with C.H. Robinson include chief information officer from December 1999 to October 2001 and president of T-Chek Systems LLC. Mark joined the company in 1980. Mark holds a Bachelor of Science degree from Iowa State University and a Masters of Business Administration from the University of St. Thomas.

Employees

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

As of December 31, 2006, we had a total of 6,768 employees, of whom approximately 6,000 were located in our branch offices. Services such as accounting, information technology, legal, marketing communications, human resource support, credit and claims management, and carrier services are supported centrally.

Customers and Marketing

We seek to establish long-term relationships with our customers and to increase the amount of business done with each customer by providing them with a full range of logistics services. During 2006, we served over 25,000 customers worldwide, ranging from Fortune 100 companies to small businesses in a wide variety of industries. During 2006, no customer accounted for more than 7% of gross revenues or 3% of gross profits. In recent years, we have grown by adding new customers and by increasing our volumes with, and providing more services to, our existing customers.

We believe that our decentralized structure enables our salespeople to better serve our customers by developing a broad knowledge of logistics and local and regional market conditions, as well as the specific logistics issues facing individual customers. With the guidance of experienced branch managers (who have an average tenure of 11 years with us), branches are given significant latitude to pursue opportunities and to commit our resources to serve our customers.

Branches seek additional business from existing customers and pursue new customers based on their knowledge of local markets and the range and value of logistics services that we can provide. We have also expanded our national sales and marketing support to enhance branch sales capabilities. Increasingly, branches call on our executives, our global sales staff and a central logistics group to support them in the pursuit of multinational corporations and other companies with more complex logistics requirements.

Relationships with Transportation Providers

We continually work on establishing relationships with good transportation providers to assure dependable services, favorable pricing, and carrier availability during peak shipping periods and periods when demand for transportation equipment is greater than the supply. Because we don't own any transportation equipment or employ the people directly involved with the delivery of our customers' freight, these relationships are critical to our success. We rely on them to provide us with information regarding the status of shipments during transit and upon delivery.

As of December 31, 2006, we had qualified approximately 45,000 transportation providers worldwide, of which the vast majority are motor carriers. To strengthen and maintain our relationships with motor carriers, our salespeople regularly communicate with carriers serving their region and try to assist them by increasing their equipment utilization, reducing their empty miles, and repositioning their equipment. To make it easier for carriers to work with us, we have a policy of prompt payment and offer payment within 48 hours in exchange for a discount, along with offering in-trip advances through our T-Chek subsidiary.

These motor carriers provide access to temperature controlled vans, dry vans and flatbeds. These carriers are of all sizes, including owner-operators of a single truck, small and mid-size fleets, private fleets and the largest national trucking companies. Consequently, we are not dependent on any one carrier. Our largest truckload carrier was less than 1% of our total cost of transportation in 2006. Approximately 75% of our shipments in 2006 were transported by motor carriers that had less than 100 tractors. We qualify each carrier to make sure it is properly licensed and insured, has an adequate safety rating, and that it has the resources to provide the necessary level of service on a dependable basis. Our motor carrier contracts require that the carrier issue invoices only to and accept payment solely from us, and allow us to withhold payment to satisfy previous claims or shortages. To fulfill regulatory requirements, our motor carrier contracts commit to a series of three shipments and an initial transportation rate. Our standard contracts do not include volume commitments, and the initial contract rate is modified each time we confirm an individual shipment with a carrier.

We also have intermodal marketing contracts with railroads, including all of the major North American railroads, giving us access to additional trailers and containers. Our contracts with railroads specify the transportation services and payment terms by which our intermodal shipments are transported by rail. Intermodal transportation rates are typically negotiated between us and the railroad on a customer-specific basis.

In our non-asset based ocean transportation (NVOCC) and freight forwarding business, we have contracts with most of the major ocean carriers which support a variety of service and rate needs for our customers. We negotiate annual contracts that establish the predetermined rates we agree to pay our ocean carriers. The rates are negotiated based on expected volumes from our customers, specific trade lane requirements, and anticipated growth in the international shipping marketplace. These contracts are often amended throughout the year to reflect changes in market conditions for our business, such as additional trade lanes.

In our international air freight forwarding business, we purchase transportation services from approximately 200 air carriers through charter services, block space agreements, and transactional spot market negotiations. Through charter services we contract part or all of an airplane to meet customer requirements. Our block space agreements are annual contracts that include fixed allocations for predetermined flights at agreed upon rates that are reviewed annually or throughout the year. The transactional negotiations afford us the ability to capture excess capacity at prevailing market rates for a specific shipment.

Competition

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

The transportation services industry is highly competitive and fragmented. We compete against a large number of other non-asset based logistics companies, asset-based logistics companies, third party freight brokers, carriers offering logistics services, and freight forwarders. We also compete against carriers' internal sales forces and shippers' own transportation departments. We also buy and sell transportation services from and to companies that compete with us.

We often compete with respect to price, scope of services, or a combination thereof, but believe that our most significant competitive advantages are:

our branch network, which enables our salespersons to gain broad knowledge about individual customers, carriers and the local and regional markets they serve, and to provide superior customer service based on that knowledge. This network also offers customers higher service as responsibility for shipments is commonly shared across branches, to provide nationwide coverage and local market knowledge,

our 45,000 carrier relationships,

our size, relative to other providers. Because of the large number of transactions we do annually, 5.2 million in 2006, we have greater opportunity to efficiently match available capacity with customer needs. Our scale is an advantage in attracting more carriers, which in turn enables us to service our customers more efficiently and earn more business,

our non-asset based model, which enables us to remain flexible in our service offerings to our customers,

our dedicated employees and entrepreneurial culture, which are supported by our performance-based compensation system,

our proprietary information systems,

our ability to provide a broad range of logistics services, and

our ability to provide door-to-door services on a worldwide basis.

Communications and Information Systems

Our information systems are essential to our ability to efficiently communicate, service our customers and carriers, and manage our business. Our proprietary information systems help our employees efficiently manage more than 5.2 million shipments annually, 25,000 customer relationships, and 45,000 carrier relationships. Our employees are linked with each other and with our customers and our carriers by telephone, fax, Internet, e-mail, and/or EDI to communicate shipment requirements and availability, and to confirm and bill orders. Through our Internet sites CHRWonline.com and CHRWtrucks.com, customers and carriers can contract for shipments or equipment as well as track and trace shipments, including delivery confirmation. Customers and carriers also have access to other information in our operating systems through the Internet.

Our branch employees use our information systems to identify freight matching opportunities, communicate and coordinate activity with other branches, and cross-cover or find equipment for other branches' freight. Our systems help our salespeople service customer orders, select the optimal modes of transportation, build and consolidate shipments, and select routes, all based on customer-specific service parameters. Our systems also make shipment data visible to the entire sales team as well as customers and carriers, enabling our salespeople to select carriers and track shipments in progress. Our systems automatically provide alerts to arising problems. Our systems use data captured from daily transactions to generate various management reports that are available to our customers. These reports provide them with information on traffic patterns, product mix, and production schedules, and support analysis of their own customer base, transportation expenditure trends, and the impact on out-of-route costs.

Government Regulation

We are subject to licensing and regulation as a transportation broker and are licensed by the U.S. Department of Transportation (DOT) to arrange for the transportation of property by motor vehicle. The DOT prescribes qualifications for acting in this capacity, including certain surety bonding requirements. Under certain circumstances, one of our subsidiary companies provides limited motor carrier transportation

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

services that require registration with the DOT and compliance with certain economic regulations administered by the DOT, including a requirement to maintain insurance coverage in minimum prescribed amounts. We are also subject to regulation by the Federal Maritime Commission as an ocean freight forwarder and a non-vessel operating common carrier for which we maintain separate bonds and licenses for each. We operate as an indirect air cargo carrier subject to economic regulation by the DOT and provide customs brokerage services as a customs broker under a license issued by the Bureau of U.S Customs and Border Protection.

We source fresh produce under a license issued by the U.S. Department of Agriculture as required by the Perishable Agricultural Commodities Act (PACA). Other sourcing and distribution activities may be subject to various federal and state food and drug statutes and regulations. Our T-Chek operations are subject to federal and state money transfer regulations under the USA Patriot Act of 2001.

Although Congress enacted legislation in 1994 that substantially preempts the authority of states to exercise economic regulation of motor carriers and brokers of freight, some shipments for which we arrange transportation may be subject to licensing, registration or permit requirements. We generally rely on the carrier transporting the shipment to ensure compliance

with these types of requirements. We, along with the carriers that we rely on in arranging transportation services for our customers, are also subject to a variety of federal and state safety and environmental regulations. Although compliance with the regulations governing licensees in these areas has not had a materially adverse effect on our operations or financial condition in the past, there can be no assurance that such regulations or changes thereto will not adversely impact our operations in the future. Violation of these regulations could also subject us to fines as well as increased claims liability.

Risk Management and Insurance

We require all motor carriers we work with to carry at least \$750,000 in auto and general liability insurance and \$25,000 in cargo insurance. Many carriers have insurance exceeding these minimum requirements. Railroads, which are generally self-insured, provide limited common carrier liability protection, generally up to \$250,000 per shipment.

We do not assume cargo liability to our customers above minimum industry standards in our international freight forwarding, ocean transportation, and air freight businesses. We offer our customers the option to purchase ocean marine cargo coverage to insure goods in transit. When we agree to store goods for our customers for longer terms, we provide limited warehouseman's coverage to our customers and contract for warehousing services from companies that provide us the same degree of coverage.

We maintain a broad cargo liability insurance policy to protect us against catastrophic losses that may not be recovered from the responsible carrier. We also carry various liability insurance policies, including auto and general liability, with a \$100 million umbrella. Our contingent auto liability coverage has a retention of \$5 million per incident for the years 2004 through 2006 and a retention of \$3 million per incident for 2007.

Agricultural chemicals used on agricultural commodities intended for human consumption are subject to various approvals, and the commodities themselves are subject to regulations on cleanliness and contamination. Concern about particular chemicals and alleged contamination can lead to product recalls, and tort claims may be brought by consumers of allegedly affected produce. As a seller of produce, we may, under certain circumstances, have legal responsibility arising from produce sales. We carry product liability coverage under our general liability and umbrella policies to cover this type of risk. In addition, in the event of a recall, we may be required to bear the cost of repurchasing, transporting, and destroying any allegedly contaminated product, which is generally not insured. Any recall or allegation of contamination could affect our reputation, particularly of our The Fresh 1[®] and other licensed brands. Loss due to spoilage (including the need for disposal) is also a routine part of the sourcing business.

Cautionary Statement Relevant to Forward-Looking Information

This Annual Report on Form 10-K and our financial statements, Management's Discussion and Analysis of Financial Condition and Results of Operations in Item 7 of this report and other documents incorporated by reference contain certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These forward-looking statements represent our expectations, beliefs, intentions or strategies concerning future events, including, but not limited to, any statements regarding our current assumptions about future financial performance; the continuation of historical trends; the sufficiency of our cash balances and cash generated from operating activities for future liquidity and capital resource needs; the effects, benefits or other aspects of current or future acquisitions or dispositions; the expected impact of changes in accounting policies on our results of operations, financial condition or cash flows; the results, timing, outcome or effect of litigation and our intentions or expectations of prevailing with respect thereto; anticipated problems and our plans for future operations; and the economy in general or the future of the third party logistics industry, all of which are subject to various risks and uncertainties.

When used in this Form 10-K and in our other filings with the Securities and Exchange Commission, in our press releases, presentations to securities analysts or investors, in oral statements made by or with the approval of any of our executive officers, the words or phrases believes, may, could, will, expects, should, continue, anticipates, intends, will likely result, estimates, projects or similar expressions thereof are intended to identify such forward-looking statements. However, any statements contained in this Form 10-K that are not statements of historical fact may be deemed to be forward-looking statements.

We caution that these statements by their nature involve risks and uncertainties, certain of which are beyond our control, and actual results may differ materially depending on a variety of important factors, including, but not limited to such factors as market demand and pressures on the pricing for our services; changing market conditions, competition and growth rates within the third party logistics industry; availability of truck capacity or alternative means of transporting freight, and changes in relationships with existing truck, rail, ocean and air carriers; changes in our customer base due to possible consolidation among our customers; our ability to integrate the operations of acquired companies with our historic operations successfully; changes in accounting policies; risks associated with litigation and insurance coverage; risks associated with operations outside of the United States; risks associated with the produce industry including food safety and contamination use; changing economic conditions such as general economic slowdown, decreased consumer confidence, fuel shortages and the impact of war on the economy; and other risks and uncertainties, including those described below.

You should consider carefully the following cautionary statements if you own our common stock or are planning to buy our common stock. We intend to take advantage of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995 (the PSLRA) by providing this discussion. We are not undertaking to address or update each factor in future filings or communications regarding our business or results except to the extent required by law.

ITEM 1A. Risk Factors

Demand for our services may decrease during an economic recession. The transportation industry historically has experienced cyclical fluctuations in financial results due to economic recession, downturns in business cycles of our customers, fuel shortages, price increases by carriers, interest rate fluctuations, and other economic factors beyond our control. Carriers can be expected to charge higher prices to cover higher operating expenses, and our gross profits and income from operations may decrease if we are unable to pass through to our customers the full amount of higher transportation costs. If economic recession or a downturn in our customers' business cycles causes a reduction in the volume of freight shipped by those customers, particularly among certain national retailers or in the food, beverage, paper, or printing industries, our operating results could also be adversely affected.

We depend upon others to provide equipment and services. We do not own or control the transportation assets that deliver our customers freight and we do not employ the people directly involved in delivering the freight. We are dependent on independent third parties to provide truck, rail, ocean and air services and to report certain events to us including delivery information and freight claims. This reliance could cause delays in reporting certain events, including recognizing revenue and claims. If we are unable to secure sufficient equipment or other transportation services to meet our commitments to our customers, our operating results could be materially and adversely affected, and our customers could switch to our competitors temporarily or permanently. Many of these risks are beyond our control including:

equipment shortages in the transportation industry, particularly among truckload carriers,

interruptions in service or stoppages in transportation as a result of labor disputes,

changes in regulations impacting transportation, and

unanticipated changes in transportation rates.

Our international business raises additional difficulties. We provide services within and between continents on an increasing basis. Our business outside of the United States is subject to various risks, including:

changes in economic and political conditions and in governmental policies,

changes in compliance with international and domestic laws and regulations,

wars, civil unrest, acts of terrorism and other conflicts,

natural disasters,

changes in tariffs, trade restrictions, trade agreements and taxations,

difficulties in managing or overseeing foreign operations,

limitations on the repatriation of funds because of foreign exchange controls,

different liability standards, and

intellectual property laws of countries which do not protect our intellectual property rights to the same extent as the laws of the United States.

The occurrence or consequences of any of these factors may restrict our ability to operate in the affected region and/or decrease the profitability of our operations in that region.

As we expand our business in foreign countries we will expose the Company to increased risk of loss from foreign currency fluctuations and exchange controls as well as longer accounts receivable payment cycles. We have limited control over these risks, and if we do not correctly anticipate changes in international economic and political conditions, we may not alter our business practices in time to avoid adverse effects.

Our ability to hire additional people is important to the continued growth of our business. Our continued success depends upon our ability to attract and retain a large group of motivated salespersons and other logistics professionals. Our growth may be limited if we cannot recruit and retain a sufficient number of people. We cannot guarantee that we will be able to continue to hire and retain a sufficient number of qualified personnel. Because of our comprehensive employee training program, our employees are attractive targets for new and existing competitors. Our rapid expansion of operations has placed added demands on our management. Continued expansion depends in large part on our ability to develop successful employees into managers.

We face substantial industry competition. Competition in the transportation services industry is intense and broad based. We compete against other non-asset based logistics companies as well as logistics companies that own their own equipment, third party freight brokers, Internet matching services and Internet freight brokers, and carriers offering logistics services. We also compete against carriers' internal sales forces and shippers' transportation departments. We often buy and sell transportation services from and to many of our competitors. Increased competition could create downward pressure on freight rates, and continued rate pressure may adversely affect our gross profit and income from operations.

We are reliant on technology to operate our business. We have internally developed the majority of our operating systems. Our continued success is dependent on our systems continuing to operate and to meet the changing needs of our customers. We are reliant on our technology staff to successfully implement changes to our operating systems in an efficient manner. Computer viruses could cause an interruption to the availability of our systems. Unauthorized access to our systems with malicious intent could result in the theft of proprietary information and in systems outages. An unplanned systems outage or unauthorized access to our systems could materially and adversely affect our business.

Because we manage our business on a decentralized basis, our operations may be materially adversely affected by inconsistent management practices. We manage our business on a decentralized basis through a network of branch offices throughout North America, South America, Europe and Asia, supported by executives and services in a central corporate office, with branch management retaining responsibility for day-to-day operations, profitability, personnel decisions and the growth of the business in their branch. Our decentralized operating strategy can make it difficult for us to implement strategic decisions and coordinated procedures throughout our global operations. In addition, certain of our branches operate with management, sales and support personnel that may be insufficient to support growth in their respective branch without significant central oversight and coordination. Our decentralized operating strategy could result in inconsistent management practices and materially and adversely affect our overall profitability and expose us to litigation.

Our earnings may be affected by seasonal changes in the transportation industry. Results of operations for our industry generally show a seasonal pattern as customers reduce shipments during and after the winter holiday season. In recent years, our operating income and earnings have been lower in the first quarter than in the other three quarters. Although seasonal changes in the transportation industry have not had a significant impact on our cash flow or results of operations, we expect this trend to continue and we cannot guarantee that it will not adversely impact us in the future.

We are subject to claims arising from our transportation operations. We use the services of thousands of transportation companies and their drivers in connection with our transportation operations. From time to time, these drivers are involved in accidents and the carrier may not have adequate insurance coverage. Although these drivers are not our employees and all of these drivers are employees, owner operators or independent contractors working for carriers, from time to time, claims may be asserted against us for their actions, or for our actions in retaining them. Claims against us may exceed the amount of our insurance coverage, or may not be covered by insurance at all. In addition, our auto liability policy has a retention of \$5 million per incident for years 2004 through 2006 and a retention of \$3 million per incident for 2007. A material increase in the frequency or severity of accidents, liability claims or workers' compensation claims, or unfavorable resolutions of claims, could materially and adversely affect our operating results. In addition, significant increases in insurance costs or the inability to purchase insurance as a result of these claims could reduce our profitability.

Our Sourcing business is dependent upon the supply and price of fresh produce. The supply and price of fresh produce is affected by government food safety regulation, growing conditions (such as drought, insects and disease), and other conditions over which we have no control. Commodity prices can be affected by shortages or overproduction and are often highly volatile. If we are unable to secure fresh produce to meet our commitments to our customers, our operating results could be materially and adversely affected, and our customers could switch to our competitors temporarily or permanently.

Sourcing and reselling fresh produce exposes us to possible product liability. Agricultural chemicals used on fresh produce are subject to various approvals, and the commodities themselves are subject to regulations on cleanliness and contamination. Product recalls in the produce industry have been caused by concern about particular chemicals and alleged contamination, often leading to lawsuits brought by consumers of allegedly affected produce. Because we sell produce, we may have legal responsibility arising from the sale. While we are insured for up to \$100 million for product liability claims, settlement of class action claims is often costly, and we cannot guarantee that our liability coverage will be adequate and will continue to be available. If we have to recall produce, we may be required to bear the cost of repurchasing, transporting and destroying any allegedly contaminated product, which our insurance does not cover. Any recall or allegation of contamination could affect our reputation, particularly of our produce brand: The Fresh 1[®] or one of our other licensed branded products. Loss due to spoilage (including the need for disposal) is also a routine part of the sourcing business.

Our business depends upon compliance with numerous government regulations. We are licensed by the U.S. Department of Transportation as a broker authorized to arrange for the transportation of general commodities by motor vehicle. We must comply with certain insurance and surety bond requirements to act in this capacity. We are also licensed by the Federal Maritime Commission as an ocean freight forwarder, which requires us to maintain a non-vessel operating common carrier bond.

We are also licensed by the Bureau of U.S. Customs and Border Protection. We source fresh produce under a license issued by the U.S. Department of Agriculture. Our failure to comply with the laws and regulations applicable to entities holding these licenses could materially and adversely affect our results of operations or financial condition.

Legislative or regulatory changes can affect the economics of the transportation industry by requiring changes in operating practices or influencing the demand for, and the cost of providing, transportation services. As part of our logistics services, we operate leased warehouse facilities. Our operations at these facilities include both warehousing and distribution services, and we are subject to various federal and state environmental, work safety and hazardous materials regulations. We may experience an increase in operating costs, such as costs for security, as a result of governmental regulations that have been and will be adopted in response to terrorist activities and potential terrorist activities. No assurances can be given that we will be able to pass these increased costs on to our customers in the form of rate increases or surcharges.

We cannot predict what impact future regulations may have on our business. Our failure to maintain required permits or licenses, or to comply with applicable regulations, could result in substantial fines or revocation of our operating permits and licenses.

We derive a significant portion of our gross revenues and gross profit from our largest clients. Our top 100 customers comprise approximately one-third of consolidated gross profits with none of them individually exceeding 3 percent. The sudden loss of many of our major clients could materially and adversely affect our operating results.

We may be unable to identify or complete suitable acquisitions and investments. We may acquire or make investments in complementary businesses, products, services or technologies. We cannot guarantee that we will be able to identify suitable acquisitions or investment candidates. Even if we identify suitable candidates, we cannot guarantee that we will make acquisitions or investments on commercially acceptable terms, if at all. If we acquire a company, we may have difficulty integrating its businesses, products, services, technologies and personnel into our operations. Acquired companies or operations may have unexpected liabilities, and we may face challenges in retaining significant customers of acquired companies. These difficulties could disrupt our ongoing business, distract our management and workforce, increase our expenses and adversely affect our results of operations. In addition, we may incur debt or be required to issue equity securities to pay for future acquisitions or investments. The issuance of any equity securities could be dilutive to our stockholders.

Our growth and profitability may not continue, which may result in a decrease in our stock price. Historically, our long-term growth objective has been 15% for gross profits, operating income, and earnings per share. There can be no assurance that our long-term growth objective will be achieved or that we will be able to effectively adapt our management, administrative and operational systems to respond to any future growth. Our operating margins could be adversely affected by future changes in and expansion of our business or by changes in economic or political conditions. Slower or less profitable growth or losses could adversely affect our stock price.

Investor Information

We were reincorporated in Delaware in 1997 as the successor to a business existing, in various legal forms, since 1905. Our corporate office is located at 8100 Mitchell Road, Eden Prairie, Minnesota 55344-2248, and our telephone number is (952) 937-8500. Copies of our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K, and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 are available free of charge through our website (www.chrobinson.com) as soon as reasonably practicable after we electronically file the material with the Securities and Exchange Commission.

ITEM 2. PROPERTIES

We lease approximately 67,000 square feet of office space in Eden Prairie, Minnesota as our corporate headquarters. Our corporate headquarters lease expires in 2014. We have begun construction of an additional 105,000 square feet of office space in Eden Prairie, Minnesota for expansion of our corporate headquarters.

All but one of our branch offices are leased from third parties under leases with initial terms ranging from three to ten years. However, we do own the largest location in Chicago listed below. Our branch offices range in space from 1,000 to 153,000 square feet. The following table lists our largest U.S. locations:

| City/State | Approximate Square Feet |
|------------------|-------------------------|
| Eden Prairie, MN | 153,000 |
| Chicago, IL | 80,000 |

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

Atlanta, GA
Chicago, IL
Coralville, IA

27,350
20,847
19,182

| | |
|-----------------------|--------|
| Southfield, MI | 18,464 |
| Woodridge, IL | 16,914 |
| Elizabeth, NJ | 16,500 |
| Elk Grove Village, IL | 13,163 |
| Monterrey, CA | 12,712 |
| Cordova, TN | 11,617 |
| Lisle, IL | 11,613 |
| Los Angeles, CA | 10,695 |
| Tampa, FL | 10,641 |
| Phoenix, AZ | 10,294 |
| Paulsboro, NJ | 10,046 |

We also lease approximately 287,000 square feet of warehouse space throughout the United States. The following table lists our largest warehouses:

| City/State | Approximate Square Feet |
|-----------------------|-------------------------|
| Rochester, NY | 54,000 |
| Medley, FL | 53,500 |
| Edinburg, TX | 48,000 |
| Vancouver, WA | 42,700 |
| Bolingbrook, IL | 36,000 |
| Elk Grove Village, IL | 30,200 |

We consider our current office spaces and warehouse facilities adequate for our current level of operations. We have not had difficulty in obtaining sufficient office space and believe we can renew existing leases or relocate branches to new offices as leases expire.

ITEM 3. LEGAL PROCEEDINGS

As we previously disclosed, during 2002 we were named as a defendant in two lawsuits brought by a number of present and former employees. The first lawsuit alleged a hostile working environment, unequal pay, promotions, and opportunities for women, and failure to pay overtime (FLSA). The second lawsuit alleges a failure to pay overtime. The plaintiffs in both lawsuits sought unspecified monetary and non-monetary damages and class action certification.

On March 31, 2005, the judge issued an order denying class certification for the hostile working environment claims, and allowing class certification for certain claims of gender discrimination in pay and promotion. The judge also granted our motions for summary judgment as to the hostile working environment claims of ten of the named plaintiffs, and dismissed those claims.

The gender discrimination class claims and the remaining two hostile work environment claims were settled in principle on April 11, 2006 and received final approval by the Court on September 18, 2006. The settlement consists of \$15 million for all damages, costs, and attorneys' fees, to be allocated as determined by the Court. The proposed settlement also includes programmatic relief offered by us. As a condition of the settlement, we made no admission of liability. The \$15 million is within our insurance coverage limits, and has been fully funded by the insurance carriers. Although it has been fully funded by the insurance carriers, those carriers reserved the right to seek a court ruling that a portion of the settlement was not covered under their policies, and also to dispute payment of certain defense costs incurred in that litigation. These insurance issues are discussed below as Class Coverage Issues.

The settlement of the gender discrimination class claims did not include the overtime pay lawsuits, or the claims of putative class members who subsequently filed individual EEOC charges after the denial of class status on March 31, 2005. Currently, fifty-two of those claimants have filed lawsuits. Of those, one was tried to a jury and resulted in a defense verdict, one was voluntarily dismissed, and one was dismissed on our Motion for Summary Judgment. An appeal of that dismissal is pending. We are vigorously defending the remaining charges and lawsuits, and have been advised by plaintiffs' counsel that no further lawsuits are expected to be filed.

Insurance coverage litigation has been commenced between us and one of our insurance carriers concerning the above-referenced Class Coverage Issues and also concerning insurance coverage for the individual lawsuits. Countersuits seeking a declaratory judgment on these insurance issues are currently pending in Minnesota State Court. We are vigorously asserting its claims for maximum insurance coverage both for the Class Coverage Issues and for the defense and indemnity of the individual suits.

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

With respect to the FLSA overtime claims, the judge issued an order granting in full our Motion to Decertify the FLSA collective action on September 26, 2006. The judge retained jurisdiction over the named plaintiffs' FLSA overtime claims and

dismissed the claims of the opt-in plaintiffs, without prejudice to their right to bring their own claims in separate lawsuits in appropriate venues. Approximately 525 of the dismissed opt-in plaintiffs either filed or joined in lawsuits asserting individual FLSA claims for failure to pay overtime. Approximately five of those individuals have filed voluntary dismissals of their claims. We are vigorously defending the remaining lawsuits in various federal courts.

Currently, the amount of any loss from the individual gender or FLSA claims is not expected to be material to us; however, unfavorable developments could have a material adverse effect on our consolidated financial statements. We are not subject to any other pending or threatened litigation other than routine litigation arising in the ordinary course of our business operations, none of which is expected to have a material adverse effect on our financial condition, results of operations, or cash flows.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

Our Common Stock began trading on The NASDAQ National Market under the symbol **CHRW** on October 15, 1997. On October 14, 2005, our shareholders approved a two-for-one stock split, effective at the end of the business the same day. All share and per share amounts in this Form 10-K have been restated to reflect our stock split.

The following table sets forth, for the periods indicated, the high and low sales prices of our Common Stock, as quoted on the NASDAQ National Market.

| 2006 | High | Low |
|----------------|-------------|------------|
| Fourth Quarter | \$ 45.67 | \$ 39.44 |
| Third Quarter | 55.18 | 41.75 |
| Second Quarter | 53.56 | 42.06 |
| First Quarter | 50.44 | 35.55 |
| 2005 | High | Low |
| Fourth Quarter | \$ 41.70 | \$ 30.15 |
| Third Quarter | 32.17 | 28.38 |
| Second Quarter | 29.81 | 23.60 |
| First Quarter | 28.05 | 25.21 |

On February 26, 2007, the closing sales price per share of our Common Stock as quoted on the NASDAQ National Market was \$52.40 per share. On February 26, 2007, there were approximately 250 holders of record and approximately 55,000 beneficial owners of our Common Stock.

During 1999, our Board of Directors authorized a stock repurchase plan, allowing for the repurchase of 8,000,000 shares. We purchased approximately 1,926,500 shares of our Common Stock in 2006 under this plan. There are approximately 3,220,000 shares remaining for purchase under this plan. We intend to fund any future repurchases with internally generated funds.

We declared quarterly dividends during 2005 for an aggregate of \$.355 per share and quarterly dividends during 2006 of \$.57 per share. We have declared a quarterly dividend of \$.18 per share payable to shareholders of record as of March 9, 2007, payable on April 2, 2007. Our declaration of dividends is subject to the discretion of the Board of Directors. Any determination as to the payment of dividends will depend upon our results of operations, capital requirements and financial condition, and such other factors as the Board of Directors may deem relevant. Accordingly, there can be no assurance that the Board of Directors will declare or continue to pay dividends on the shares of Common Stock in the future.

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

Participants in the Robinson Companies Retirement Plan may, among other investment options, elect to invest their contributions and all company matching contributions in shares of our Common Stock. When plan participants elect to invest plan contributions in shares of our Common Stock, the plan trustee, Wachovia, purchases shares of our Common Stock on the open market and holds those shares beneficially for plan participants. During the quarter ended December 31, 2006, plan participants elected to invest plan contributions in a total of approximately 18,536 shares of our Common Stock having an approximate aggregate purchase price of \$820,000. Because participants may elect to invest plan contributions in shares of our Common Stock, the plan is required to be registered under the Securities Act of 1933. There is no exemption from registration under the Securities Act available for the plan. On November 12, 2003, we registered the plan pursuant to a Form S-8 filed with the Securities and Exchange Commission.

The following table provides information about purchases by the company during the quarter ended December 31, 2006 of equity securities that are registered by the company pursuant to Section 12 of the Exchange Act:

| Period | Total Number of Shares (or Units) Purchased (1) | Average Price Paid per Share (or Unit) | Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs (2) | (Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs |
|--------------------|---|--|---|--|
| | | | | |
| 10/01/06-10/31/06 | | \$ | | 3,817,000 |
| 11/01/06- 11/30/06 | 277,500 | 42.87 | 277,500 | 3,539,500 |
| 12/01/06- 12/31/06 | 320,000 | 42.06 | 320,000 | 3,219,500 |
| Total: | 597,500 | \$ 42.45 | 597,500 | 3,219,500 |

- (1) We repurchased an aggregate of 597,500 shares of our common stock pursuant to the repurchase program that was approved by our Board of Directors in February 1999 (the Program).
- (2) Our board of directors approved the repurchase by us of up to an aggregate of 8,000,000 shares of our common stock pursuant to the Program. Unless terminated earlier by resolution of our board of directors, the Program will expire when we have repurchased all shares authorized for repurchase thereunder.

The graph below compares the cumulative 5-year total return of holders of C.H. Robinson Worldwide, Inc.'s common stock with the cumulative total returns of the S & P 500 index and the S & P Midcap 400 index. The graph assumes that the value of the investment in the company's common stock and in each of the indexes (including reinvestment of dividends) was \$100 on 12/31/2001 and tracks it through 12/31/2006.

| | 12/01 | 12/02 | 12/03 | 12/04 | 12/05 | 12/06 |
|--------------------------------------|------------------|------------------|------------------|------------------|------------------|------------------|

ITEM 6. SELECTED FINANCIAL DATA

Selected consolidated financial and operating data on page 17 of the Annual Report is incorporated in this Form 10-K by reference. This information is also included in Exhibit 13 to this Form 10-K, as filed with the SEC.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Management's Discussion and Analysis on pages 18 through 27 of the Annual Report is incorporated in this Form 10-K by reference. This section is also included in Exhibit 13 to this Form 10-K, as filed with the SEC.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Disclosure about Market Risk on page 27 of the Annual Report is incorporated in this Form 10-K by reference. This section is also included in Exhibit 13 to this Form 10-K, as filed with the SEC.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our consolidated financial statements and notes thereto on pages 28 through 46 of the Annual Report are incorporated in this Form 10-K by reference. These financial statements are also included in Exhibit 13 to this Form 10-K, as filed with the SEC.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

During 2005 and 2006, and through the date of this report, there were no disagreements with the independent public accountants on accounting principles or practices, financial statement disclosures, or auditing scope or procedures.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")). Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the end of the period covered by this report, our disclosure controls and procedures were effective.

(b) Internal Controls Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rules 13a-15(f). All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in Internal Control - Integrated Framework, our management concluded that our internal control over financial reporting was effective as of December 31, 2006.

During the fourth quarter, we acquired freight forwarding businesses, Triune Freight Private Ltd. and Triune Logistics Private Ltd. (collectively "Triune"), which are not included in our assessment of the effectiveness of our internal control over financial reporting. As a result, management's conclusion regarding the effectiveness of our internal control over financial reporting does not extend to these companies.

Our management's assessment of the effectiveness of our internal control over financial reporting as of December 31, 2006 has been audited by Deloitte & Touche LLP, an independent registered public accounting firm, as stated in their report which is included herein.

(c) Changes in Internal Controls Over Financial Reporting

There have not been any changes to the company's internal control over financial reporting during the fiscal year, to which this report relates, that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT

Edgar Filing: C H ROBINSON WORLDWIDE INC - Form 10-K

Information with respect to our Board of Directors contained under the heading Election of Directors, and information contained under the heading Section 16(a) Beneficial Ownership Reporting Compliance in the Proxy Statement are incorporated in this Form 10-K by reference. Information with respect to our executive officers is provided in Part I, Item 1.

We have adopted a code of ethics that applies to our principal executive officer, principal financial officer, principal accounting officer, directors, and all other company employees performing similar functions. This code of ethics, which is one of several policies within our Corporate Compliance Program, is posted on the Investors page of our website at www.chrobinson.com under the caption Corporate Compliance Program Reference Tool .

We intend to satisfy the disclosure requirement under Item 10 of Form 8-K regarding an amendment to, or waiver from, a provision of this code of ethics by posting such information on our website, at the web address specified above.

ITEM 11. EXECUTIVE COMPENSATION

The information contained under the heading "Executive Compensation" in the Proxy Statement (except for the information set forth under the subcaption "Compensation Committee Report on Executive Compensation") is incorporated in this Form 10-K by reference.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

(a) Equity Compensation Plans

The following table summarizes share and exercise price information about our equity compensation plans as of December 31, 2006:

| Plan Category | Number of securities to be issued upon exercise of outstanding options, warrants and rights | Weighted average exercise price of outstanding options, warrants and rights | Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in the first column) |
|---|---|---|---|
| Equity compensation plans approved by security holders ¹ | 5,360,758 | \$ 13.62 | 17,741,867 |
| Equity compensation plans not approved by security holders | | | |
| Total | 5,360,758 | \$ 13.62 | 17,741,867 |

¹ Includes stock available for issuance under our Directors' Stock Plan and our Employee Stock Purchase Plan, as well as options and restricted stock granted and shares that may become subject of future awards under our 1997 Omnibus Stock Plan. Specifically, 46,258 shares remain available under our Directors' Stock Plan and 5,729,134 shares remain available under our Employee Stock Purchase Plan. Under our 1997 Omnibus Stock Plan, 11,966,475 shares may become subject of future awards in the form of stock option grants or the issuance of restricted stock.

(b) Security Ownership

The information contained under the heading "Security Ownership of Certain Beneficial Owners and Management" in the Proxy Statement is incorporated in this Form 10-K by reference.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

None.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information contained under the heading "Proposal Two: Selection of Independent Auditors" in the Proxy Statement is incorporated in this Form 10-K by reference.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES, AND REPORTS ON FORM 8-K

(a) (1) Financial Statements.

Our consolidated financial statements listed below on pages 28 through 43 of the Annual Report are incorporated in this Form 10-K by reference. These financial statements are included in Exhibit 13 to this Form 10-K, as filed with the SEC.

Consolidated Balance Sheets as of December 31, 2006 and 2005

Consolidated Statements of Operations for the years ended December 31, 2006, 2005, and 2004

Consolidated Statements of Stockholders Investment for the years ended December 31, 2006, 2005, and 2004

Consolidated Statements of Cash Flows for the years ended December 31, 2006, 2005, and 2004

Notes to Consolidated Financial Statements

(2) Financial Statement Schedules.

Schedule II. Valuation and Qualifying Accounts is included at the end of this Form 10-K. All schedules, other than Schedule II, are omitted because of the absence of the conditions under which they are required or because the information required is shown in the consolidated financial statements or the notes thereto.

(3) Index to Exhibits

See Exhibit Index on page 24 for a description of the documents that are filed as Exhibits to this report on Form 10-K or incorporated by reference herein. Any document incorporated by reference is identified by a parenthetical referencing the SEC filing which included the document. We will furnish to a security holder upon request a copy of any Exhibit at cost.

(b) Reports on Form 8-K

The following reports on Form 8-K were filed during the last quarter of the period covered by this report:

Report on Form 8-K, dated October 24, 2006, filed in connection with our release of earnings for the three months ended September 30, 2006.

Report on Form 8-K, dated November 16, 2006, announced that its Board of Directors today declared an increase to the regular quarterly cash dividend from 13 cents (\$0.13) per share to 18 cents (\$0.18) per share, payable on January 2, 2007, to shareholders of record on December 8, 2006

Report on Form 8-K, dated December 1, 2006, filed in connection with our acquisition of certain assets of Triune Freight Private Ltd. and Triune Logistics Private Ltd., collectively (Triune), a third party logistics provider based in India.

(c) See Item 15(a)(3) above.

(d) See Item 15(a)(2) above.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of

C.H. Robinson Worldwide, Inc.

Eden Prairie, Minnesota

We have audited the consolidated financial statements of C.H. Robinson Worldwide, Inc. and subsidiaries (the Company) as of December 31, 2006 and 2005, and for each of the three years in the period ended December 31, 2006, management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, and the effectiveness of the Company's internal control over financial reporting as of December 31, 2006, and have issued our reports thereon dated March 1, 2007; such consolidated financial statements and reports are included in your 2006 Annual Report to Stockholders and are incorporated herein by reference. Our audits also included the consolidated financial statement schedule of the Company listed in Item 15. This consolidated financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion based on our audits. In our opinion, such consolidated financial statement schedule, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.

Minneapolis, Minnesota

March 1, 2007

Schedule II. Valuation and Qualifying Accounts
