ITEM 7.01 Regulation FD Disclosure

On November 27, 2012, Pentair Ltd. issued a press release re-affirming fourth quarter and full year 2012 earnings per share (EPS) guidance and providing 2013 EPS guidance. A copy of the release is furnished herewith as Exhibit 99.1 and incorporated herein by reference.

This press release refers to certain non-GAAP financial measures (expected adjusted earnings per share) and a reconciliation of those non-GAAP financial measures to the corresponding financial measures contained in the Company's financial statements prepared in accordance with generally accepted accounting principles. The expected fourth quarter and full year 2012 adjusted earnings per share eliminate certain deal related costs and inventory step-up and customer backlog amortization related to the recent merger (the Merger) with Tyco International's Flow Control business and certain targeted restructuring activities. The expected 2013 adjusted earnings per share eliminate inventory step-up and backlog amortization related to the Merger. Management utilizes these adjusted financial measures to assess the run-rate of its continuing operations against those of prior periods without the distortion of these factors. The Company believes that these non-GAAP financial measures will be useful to investors as well to assess the continuing strength of the Company's underlying operations.

The information contained in Item 7.01 of this Current Report shall not be deemed to be filed for purposes of Section 18 of the Securities Exchange Act of 1934 (the Exchange Act) or otherwise subject to the liabilities of that section, nor shall it be incorporated by reference into a filing under the Securities Act of 1933, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
