Notes to unaudited financial statements:**1. General Information**

The foregoing interim financial statements are unaudited but, in the opinion of management, reflect all adjustments necessary for a fair presentation of the results of operations for the interim periods presented. All adjustments are of a normal recurring nature.

Pittsburgh & West Virginia Railroad ("Registrant" or "Trust") has elected to be treated for tax purposes as a real estate investment trust (REIT). It is the Trust's policy to distribute at least 90% of its ordinary taxable income to its shareholders to maintain its REIT corporate status. Furthermore, in accordance with the terms of the lease, Norfolk Southern Corporation will reimburse the lessor, in the form of additional rent, for all taxes and governmental charges imposed upon the leased assets of the lessor except for taxes relating to base cash rent payments made by the lessee. Due to the treatment of the lease as a direct financing lease for GAAP purposes, the tax basis of the leased property is higher than the GAAP basis in the leased property.

Under the provisions of the lease, the Trust may not issue, without the prior written consent of Norfolk Southern, any shares or options to purchase shares or declare any dividends on its shares of beneficial interest in an amount exceeding the value of the assets not covered by the lease plus the annual cash rent of \$915,000 to be received under the lease, less any expenses incurred for the benefit of shareholders. At June 30, 2011, all net assets, other than \$959,000 of cash, are covered by the lease. The Trust may not borrow any money or assume any guarantees except with the prior written consent of Norfolk Southern.

2. Summary of Significant Accounting Policies

Under the terms of the lease, Norfolk Southern Corporation has leased all of Pittsburgh & West Virginia Railroad's real properties, including its railroad lines, for a term of 99 years, renewable by the lessee upon the same terms for additional 99-year terms in perpetuity. The lease provides for a base cash rental of \$915,000 per year for the current lease period and all renewal periods. The net investment in capital lease, recognizing renewal options in perpetuity, was estimated to have a current value of \$9,150,000 assuming an implicit interest rate of 10%.

For interim financial reporting purposes, the accounting policy has changed to record a prepaid expense for certain annual expenses and to allocate these expenses to interim periods based on the benefit received in each interim period. Previously, these amounts were expensed in the interim period in which they were paid. The effect of this change is to reduce expenses by \$21,000 in the quarter ended March 31, 2011.

3. Equity Issuance

With the approval of Norfolk Southern Corporation, on March 16, 2011, the Trust completed a rights offering, pursuant to which the Trust issued 113,250 common shares of beneficial interest, no par value, raising gross proceeds of \$1,019,000.

MANAGEMENT DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION

All of the Registrant's railroad properties are leased to Norfolk and Western Railway Company, now known as Norfolk Southern Corporation (NSC), for 99 years, with unlimited renewals on the same terms. Cash rental is a fixed amount of \$915,000 per year, with no provision for change during the term of the lease and any renewal periods. This cash rental is the only current source of funds. Although the lease provides for additional rentals to be recorded, these amounts do not increase cash flow or net income as they are charged to NSC's settlement account with no requirement for payment, except at termination or non renewal of the lease. Due to the indeterminate settlement date, these additional rental amounts are not recorded for financial reporting purposes.

In comparing the second quarter of 2011 with the preceding first quarter of 2011 and the second quarter of 2010, revenues totaled \$229,000, \$229,000, and \$229,000, respectively. Net income and income available for distribution was \$127,000, \$169,000 and \$190,000 respectively.

Registrant's cash outlays, other than dividend payments, are for general and administrative (G&A) expenses, which include professional fees, consultants, office rental and director's fees. The existing leased properties are maintained entirely at NSC's expense.

Due to substantial constraints on the Trust's income and increasing costs related to complying with the laws and regulations related to its public companies, the Registrant is seeking to broaden its business to include new investments in transportation and energy infrastructure assets, consistent with its status as an infrastructure-focused real-estate investment trust. The Trust raised approximately \$1,019,000 of gross proceeds in connection with a rights offering that closed on March 16, 2011 and plans to use the proceeds to provide working capital for its business expansion. The Trust expects that G&A expenses will increase in 2011 as it commences activities to further its business expansion and position the Trust for future growth.

There can be no assurance that the Registrant will be successful in broadening its business. See Note Regarding Forward-Looking Statements and additional risk factors that are more fully disclosed in Registrant's Form S-3/A filed with the SEC on February 25, 2011.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

As a smaller reporting company, we are not required to provide the information required by this Item.

Based on that evaluation, the Chief Executive Officer and Secretary-Treasurer have concluded that the Registrant's disclosure controls and procedures are adequate and effective to ensure that information required to be disclosed in the Registrant's required SEC filings is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

There have been no significant changes in the Registrant's internal controls or in other factors that that could significantly affect internal controls subsequent to the date the Registrant carried out its evaluation.

We maintain a system of internal control over financial reporting that is designed to provide reasonable assurance that our books and records accurately reflect the transactions of the Registrant and that our policies and procedures are followed. There have been no changes in our internal control over financial reporting during the period covered by this report that have materially affected, or are reasonable likely to materially affect such controls.
