Item 8.01 Other Events

On October 13, 2004 we exercised our option to redeem all of our outstanding 12-3/8% senior subordinated notes due 2009 in the aggregate principal amount of approximately \$50.9 million. We will fund this redemption, which will occur in November 2004, by drawing on our revolving credit facility. By the terms of the governing trust indenture, the redemption price will be 106.1875% of the principal amount of the notes redeemed plus accrued interest. We will thus incur a cash redemption premium expense of approximately \$3.2 million in connection with the redemption, in addition to payment of accrued interest of approximately \$3.2 million. We will also incur approximately \$1.1 million in non-cash accelerated amortization of financing fees associated with our senior subordinated notes. A copy of the press release that we issued on October 18, 2004 in connection with the exercise of our option is filed with this Report as Exhibit 99.1.
