POWER-ONE, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 BASIS OF PRESENTATION

The accompanying Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. In the opinion of management, adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the period ended March 31, 2001 are not necessarily indicative of the results that may be expected for the year ending December 31, 2001. For further information, refer to the consolidated financial statements and notes thereto for the year ended December 31, 2000, included in the Company's 2000 Annual Report on Form 10-K.

The Company's reporting period coincides with the 52- to 53-week period ending on the Sunday closest to December 31 and its fiscal quarters are the 13- to 14-week periods ending on the Sunday nearest to March 31, June 30, September 30 and December 31. For simplicity of presentation, the Company has described the three-month periods ended April 1, 2001 and April 2, 2000 as March 31, 2001 and March 31, 2000, respectively.

All share and per share amounts have been retroactively restated to give effect to the Company's three-for-two stock split that occurred on June 2, 2000 and the Company's two-for-one stock split that occurred on September 11, 2000.

In June 1998, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 133, "Accounting for Derivative Instruments and Hedging Activities," which establishes accounting and reporting standards for derivative instruments, including certain derivative instruments embedded in other contracts, and for hedging activities. It requires that an entity recognize all derivatives as either assets or liabilities in the statement of financial position and measure those instruments at fair value. In addition, this statement requires hedge accounting when certain conditions are met. This statement is effective for all fiscal quarters of fiscal years beginning after June 15, 2000. We did not hold any derivative financial instruments during 2000 or 2001. As a result, the adoption of SFAS No. 133 did not have a significant effect on the Company's financial position, operations or cash flows.

NOTE 2 INVENTORIES

Inventories consist of the following (in thousands):

	March 31, 2001	December 31, 2000
Raw materials	\$ 171,337	\$ 189,131
Subassemblies-in-process	19,059	19,845
Finished goods	31,421	16,145
	\$ 221,817	\$ 225,121

NOTE 3 EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average common shares outstanding for the period while diluted earnings per share also includes the dilutive

7

impact of stock options. Basic and diluted earnings (loss) per share for the three-month period ended March 31 are calculated as follows (in thousands, except per share data):

	Three Months Ended March 31, 2001			Three Months Ended March 31, 2000		
	Net Income	Average Shares	Per Share	Net (Loss)	Average Shares	Per Share
Net income (loss)	\$ 16,388			\$ (1,489)		
Basic EPS						
Share outstanding		78,549			72,324	
Basic EPS	16,388	78,549	\$.21	(1,489)	72,324	\$ (.02)
Dilutive securities						
Stock options		3,050				
Diluted EPS	\$ 16,388	81,599	\$.20	\$ (1,489)	72,324	\$ (.02)

The dilutive effect of options outstanding at March 31, 2000 was not included in the calculation of diluted loss per share for the three-month period ended March 31, 2000 because to do so would have had an anti-dilutive effect as the Company had a net loss for the period. The weighted average amount of such options excluded from the diluted loss per share computation was approximately 2,835,000.

At March 31, 2001 and 2000, the Company had approximately 576,000 and 262,000 potential anti-dilutive shares, respectively.

NOTE 4 ACQUISITIONS

On February 29, 2000, the Company acquired HC Power, Inc. ("HCP"); the former shareholders of HCP received a total of 6,363,621 shares of the Company's common stock for all shares of common stock of HCP outstanding on the effective date of the merger. Of the total shares issued, 636,351 shares were placed in an escrow to fund possible indemnification claims under the merger agreement. The Company authorized distribution of 436,349 shares from the escrow fund on March 30, 2001, reserving 200,002 shares in escrow for potential compensation of a pending claim for indemnification made by the Company on March 21, 2001. The merger has been accounted for as a pooling of interests.

Edgar Filing: POWER ONE INC - Form 10-Q

HCP is based in Irvine, CA and is a supplier of power systems for telecommunications and Internet service providers and OEM equipment manufacturers. HCP's major customers include AT&T Broadband and Teleglobe; service providers such as Williams Communications, CEA Telecom, Qwest and Nextel; and OEMs such as Coherent Laser Group, Motorola and Nokia.

HCP provided for stock bonus incentives to certain key employees. The stock bonus agreements provided for the granting of HCP common stock to the employees over specified vesting periods, ranging from three to twelve years. All stock bonus agreements contained accelerated vesting provisions upon a change in control of HCP. The unvested shares were granted and became vested at the time of the merger with the Company. 812,928 shares of the Company's common stock were issued to the employees of HCP in exchange for the accelerated shares. The Company recorded compensation expense of \$13.3 million in the first quarter of 2000 which was based on \$16.38 per share, the fair value of the Company's common stock on February 29, 2000.

In connection with the HCP acquisition, the Company amended its credit agreement with lenders to waive certain requirements and amend certain provisions.

8

NOTE 5 INTANGIBLE ASSETS

Intangible assets include cost in excess of net assets acquired in connection with management's acquisition of the Company in 1995, and the acquisitions of Melcher Holding AG ("Melcher") in 1998, of International Power Devices, Inc. ("IPD") in 1999 and of Powec in 2000, which have been allocated among certain intangible items determined by management to have value, such as the company name, distribution network and product lines. Provision for amortization has been made based upon the estimated useful lives of the intangible asset categories, which range from three to 20 years, using the straight-line method.

Intangible assets consist of the following (in thousands):

	March 31, 2001	December 31, 2000
Goodwill and trade name	\$ 118,481	\$ 122,291
Distribution network	5,207	5,207
Sales force	627	675
Product technology	26,987	27,516
Assembled workforce	1,580	1,614
License agreement	5,324	5,020
Other	23,007	23,812
	181,213	186,135
Less accumulated amortization	26,548	23,336
	\$ 154,665	\$ 162,799

NOTE 6 CREDIT FACILITY

On May 10, 2000, the Company entered into a Revolving Loan Agreement with Union Bank of California, N.A. (the "Revolving Loan Agreement"), as administrative agent and lead arranger, which provides the Company with a revolving line of credit of \$200 million (the "Revolving Loan Facility"). The Revolving Loan Facility bears interest on amounts outstanding payable quarterly based on the Company's leverage ratio and one of the following rates as selected by the Company: LIBOR (5.0% at March 31, 2001) plus 1.25% to 2.25%, or the bank's base rate (8.0% at March 31, 2001) plus 0% to 1.00%. The Revolving Loan Agreement:

provides for restrictions on additional borrowings, leases and capital expenditures;

prohibits the Company from paying dividends, liquidating, merging, consolidating or selling its assets or business without the bank's prior approval;

requires the Company to maintain a specified net worth, maximum leverage ratio and minimum fixed charge coverage ratio;

prohibits the Company, in certain circumstances, from making strategic investments in excess of \$10 million without the bank's prior approval;

prohibits the Company, in certain circumstances, from paying \$30 million or more for acquisitions not previously approved by the bank; and

requires the Company to use the proceeds of any public offering of its stock to pay off any indebtedness then outstanding under the loan agreement evidenced by notes.

9

Borrowings under this line of credit are collateralized by the capital stock of each of the Company's significant domestic subsidiaries and 65% of the capital stock of each of the Company's directly-owned foreign subsidiaries. At March 31, 2001, amounts outstanding under the Revolving Loan Facility were \$7.0 million at a weighted average interest rate of 4.9%.

NOTE 7 CONTINGENCIES

The Company is involved in certain claims and legal proceedings, including one patent dispute, that arise in the normal course of business.

VLT Corporation and Vicor Corporation v. Power-One, Inc., United States District Court, District of Massachusetts, Civil Action No. 01-10207-PBS, was filed on February 5, 2001, and service of Summons and Complaint was made upon Power-One on March 1, 2001. The Complaint alleges infringement of Vicor's U.S. patent number Re. 36,098 by certain products of Power-One. The Complaint seeks certain injunctive relief and compensatory damages. Power-One has filed its Answer and Counterclaim in response to the Complaint. Power-One has denied all infringement and all claims by Vicor for entitlement to damages or other relief.

In the opinion of the Company, the outcome of this matter will not have a material adverse effect on the Company's consolidated financial position, but could be material to its results of operations in any one accounting period.

NOTE 8 SUBSEQUENT EVENTS

In April 2001, the Company announced a restructuring plan aimed at achieving cost reductions through the consolidation of its facilities and a reduction in headcount. In connection with this restructuring plan, the Company plans to record a one-time charge of approximately \$10 million in the second quarter of 2001.

10

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

General. In February 2000, the Company acquired HCP, in a stock-for-stock transaction in which the former shareholders of HCP received a total of 6,363,621 shares of the Company's common stock for all shares of common stock of HCP outstanding on the effective date of the merger. HCP is based in Irvine, CA and is a leading supplier of power systems for telecommunications and Internet service providers and OEM equipment manufacturers. The acquisition of HCP was accounted for as a pooling of interests, and all prior periods have been restated to give retroactive effect to the acquisition of HCP. In May 2000, the Company further increased its presence in the telecommunications industry by acquiring Norwegian-based Powec AS and its subsidiaries, collectively referred to as Powec, for approximately \$74.5 million cash, including \$2.5 million in acquisition costs, 428,070 shares of the Company's common stock, and assumption of \$12.0 million of Powec's debt. Powec is a leading supplier of power systems for major service providers and equipment manufacturers in the telecommunications industry. The acquisition of Powec was accounted for using the purchase method of accounting, and its results of operations have been included in the Company's consolidated results of operations since its date of acquisition. As such, Powec's results are not included in the results for the three months ended March 31, 2000.

Edgar Filing: POWER ONE INC - Form 10-Q

Net Sales. Net sales increased \$92.9 million, or 120.6%, to \$169.9 million for the three months ended March 31, 2001 from \$77.0 million for the three months ended March 31, 2000. The increase in net sales was attributable to strong growth in shipments across all major product lines, with the exception of ATE/semiconductor test equipment. The primary contributors to the \$92.9 million increase in net sales were DC/DC power supplies, which resulted primarily from strong growth in unit shipments of our advanced line of high-density board-mounted DC/DC converters ("Bricks") to the communications market, and telecom power systems, of which Powec contributed \$19.2 million in net sales. The high-power AC/DC market for semiconductor test equipment was weaker during the first quarter of 2001, as overall shipments declined \$3.4 million year-over-year.

Net sales to OEMs in the first three months of 2001 were \$115.7 million, or 68.1% of net sales, up from \$59.6 million, or 77.4% of net sales, for the comparable period in 2000. Cisco was the only customer to exceed 10% of net sales in the first quarter of 2001. Net sales to service providers were \$18.2 million, or 10.7% of net sales, in the first three months of 2001, compared with \$4.8 million, or 6.2% of net sales in the comparable period in 2000. Net sales through distributors were \$36.0 million, or 21.2% of net sales, in the first three months of 2001, compared with \$17.4 million, or 22.6% of net sales, in the first quarter of 2000. This is attributable to HCP and Powec, which each make a larger proportion of its sales to service providers.

Net sales by markets for the three months ended March 31, 2001 and March 31, 2000 were as follows:

	Three Months Ended March 31,	
	2001	2000
Communications	79.8%	55.3%
Industrial	8.0%	16.3%
ATE/Semiconductor test equipment	3.2%	11.4%
Other	9.0%	17.0%
	100.0%	100.0%
Total	100.0%	100.0%

The Company's combined backlog on March 31, 2001 was \$112.4 million, a decrease of 55.9% compared to backlog of \$255.0 million on December 31, 2000. The Company's backlog increased 3.8% from \$108.3 million at March 31, 2000. Powec contributed approximately \$5.5 million to our first quarter backlog. The significant decrease in first quarter 2001 backlog from December 31, 2000 was driven primarily by order cancellations from significant communications industry customers, as well as rescheduling of previous orders from delivery in the second quarter to delivery at the end of the year.

Gross Profit. Gross profit increased \$30.5 million, or 95.0%, to \$62.6 million for the three months ended March 31, 2001 from \$32.1 million for the three months ended March 31, 2000. As a percentage of net sales, gross profit decreased to 36.9% for the first three months of 2001 from 41.6% for the same period in 2000. The 4.7% profit margin decline in the first three months of 2001 compared with the same period last year was primarily due to significantly higher material costs, as well as lower gross margins experienced by our Powec division. The increase in material costs is primarily the result of component shortages that affected our industry in 2000 with much of these components still in our inventory.

Selling, General and Administrative Expense. Selling, general and administrative expense decreased \$2.8 million, or 11.7%, to \$21.1 million for the three months ended March 31, 2001 from \$23.9 million for the same period in 2000. As a percentage of net sales, selling, general and administrative expense decreased to 12.4% for the first three months of 2001 from 31.0% for the same period in 2000.

Selling expense increased \$3.9 million, or 59.1%, to \$10.5 million for the three months ended March 31, 2001 from \$6.6 million in the same period in 2000. This increase was primarily due to higher employee costs and an increase in sales commissions due to the increase in net sales, as well as approximately \$1.7 million in selling expense contributed by Powec.

Administrative expense decreased \$6.7 million, or 38.7%, to \$10.6 million for the three months ended March 31, 2001 from \$17.3 million in the same period in 2000. This was primarily due to an \$8.7 million stock compensation charge related to HCP bonus agreements that vested on the date of acquisition, as well as \$2.4 million of HCP acquisition costs, that were incurred in the three months ended March 31, 2000. This decrease was partially offset in the three months ended March 31, 2001 by Powec, which contributed \$1.4 million in administrative expense.

Excluding non-recurring items, selling, general and administrative expense increased \$8.4 million, or 66.1%, to \$21.1 million, or 12.4% of net sales for the three months ended March 31, 2001 from \$12.7 million, or 16.5% of net sales for the same period in 2000. This increase was

primarily due to increased headcount and related employee costs.

Engineering and Quality Assurance Expense. Engineering and quality assurance expense decreased \$200,000, or 1.9%, to \$10.4 million for the three months ended March 31, 2001 from \$10.6 million for the three months ended March 31, 2000. As a percentage of net sales, engineering and quality assurance expense decreased to 6.1% for the first three months of 2001 from 13.8% for the comparable period in 2000. The decrease was due to a \$4.6 million stock compensation charge related to HCP stock bonus agreements that vested on the date of acquisition and was recognized during the three months ended March 31, 2000. This decrease was partially offset by higher employee costs and \$900,000 in engineering and quality assurance expenses contributed by Powec during the first quarter of 2001.

Excluding non-recurring items, engineering and quality assurance expense increased \$4.5 million, or 76.3%, to \$10.4 million, or 6.1% of net sales, for the three months ended March 31, 2001 from \$5.9 million, or 7.7% of net sales, for the three months ended March 31, 2000.

Amortization of Intangibles. Amortization of intangibles increased \$2.4 million, or 184.6%, to \$3.7 million for the three months ended March 31, 2001 from \$1.3 million for the three months ended March 31, 2000. The \$2.4 million increase in amortization expense was primarily attributable to \$1.8 million of amortization expense related to the intangibles recorded for the acquisition of Powec, \$251,000 of amortization expense for technology licenses acquired in 2000, and \$235,000 of amortization expense related to the additional \$13.0 million of goodwill recorded in 2000 due to IPD performance payouts.

12

Income (Loss) from Operations. As a result of the items above, income from operations increased \$31.2 million to \$27.4 million, or 16.1% of net sales, for the three months ended March 31, 2001 from a loss of \$3.8 million for the three months ended March 31, 2000. Excluding non-recurring items totaling approximately \$15.9 million in the first quarter of 2000 related to the HCP acquisition, income from operations would have been \$12.1 million, or 15.8% of net sales, for the first three months of 2000.

Interest Income (Expense), Net. Net interest expense increased \$561,000, or 128.7%, to \$997,000 for the three months ended March 31, 2001 from \$436,000 for the three months ended March 31, 2000. The increase in net interest expense for the first three months of 2001 was due to the increase in long-term debt balances, which increased \$5.0 million, or 87.7%, to \$10.7 million at March 31, 2001, from \$5.7 million at March 31, 2000. The increase in long-term debt balances was primarily due to the acquisition of Powec.

Other Income (Expense), Net. Other income (expense), net, decreased \$623,000 to a \$488,000 expense for the three months ended March 31, 2001 from \$135,000 income for the three months ended March 31, 2000. The increased expense for the three-month period is primarily attributable to losses on foreign currency exchange at our international locations.

Income Taxes. The provision for income taxes was \$11.5 million for the three months ended March 31, 2001 compared to a tax benefit of \$1.7 million for the three months ended March 31, 2000. The income tax benefit for the first three months of 2000 included a non-recurring benefit related to net deferred tax assets recorded upon HCP's conversion from an S-corporation to a C-corporation. The effective tax rate was approximately 41.3% for the three months ended March 31, 2001 compared to 32.6% for the comparable period in 2000 adjusted for non-recurring items. The higher effective tax rate for the three months ended March 31, 2001, compared to the same period in 2000, excluding non-recurring items, was primarily the result of a change in our earnings mix, which resulted in a relatively greater proportion of taxable income earned in jurisdictions with higher tax rates.

Liquidity and Capital Resources

Our cash and cash equivalents balance decreased \$32.9 million, or 24.0%, to \$104.2 million at March 31, 2001 from \$137.1 million at December 31, 2000. Our primary source of cash in the first three months of 2001 consisted of cash earnings from operations (defined as net income plus depreciation, amortization, and stock compensation) of \$24.2 million and a bank overdraft of \$4.3 million. The primary uses of cash in the first three months of 2001 consisted of \$20.5 million for the acquisition of property and equipment, \$2.5 million for the repayment of borrowings on our debt and bank credit facilities and \$16.3 million for operating activities.

Cash used in operating activities in the first three months of 2001 was primarily attributable to cash earnings from operations of \$24.2 million offset by \$40.4 million used for working capital. The \$40.4 million used for working capital was primarily due to an increase in accounts receivable of \$21.8 million and a net decrease in accounts payable of \$27.2 million, offset by an increase of \$12.7 million for income taxes payable and smaller decreases in inventory and increases in accrued expenses.

The \$20.5 million to acquire property and equipment included approximately \$5 million to acquire surface-mount technology (SMT) equipment, \$5 million for other manufacturing equipment, \$3 million for leasehold improvements, \$2 million for IT infrastructure costs, and the balance for additional property, plant and capital equipment expenditures consistent with supporting our growth plans.

Edgar Filing: POWER ONE INC - Form 10-Q

On May 10, 2000, we entered into a Revolving Loan Agreement with Union Bank of California, N.A., as administrative agent and lead arranger, which provides us with a revolving line of credit of \$200 million. The line of credit bears interest on amounts outstanding payable quarterly based on our

13

leverage ratio and one of the following rates as selected by us: LIBOR (5.0% at March 31, 2001) plus 1.25% to 2.25%, or the bank's base rate (8.0% at March 31, 2001) plus 0% to 1.00%. The credit agreement contains the following provisions:

provides for restrictions on additional borrowings, leases and capital expenditures;

prohibits the Company from paying dividends, liquidating, merging, consolidating or selling its assets or business without the bank's prior approval;

requires the Company to maintain a specified net worth, maximum leverage ratio and minimum fixed charge coverage ratio;

prohibits the Company, in certain circumstances, from making strategic investments in excess of \$10 million without the bank's prior approval;

prohibits the Company, in certain circumstances, from paying \$30 million or more for acquisitions not previously approved by the bank; and

requires the Company to use the proceeds of any public offering of its stock to pay off any indebtedness then outstanding under the loan agreement evidenced by notes.

Borrowings under this line of credit are collateralized by the capital stock of each of our domestic subsidiaries and 65% of the capital stock of each of our foreign subsidiaries. At March 31, 2001, amounts outstanding under this line of credit were \$7.0 million at a weighted average interest rate of 4.9%.

As a result of the Melcher acquisition, we have various credit facilities with banks in Switzerland and Germany which can be drawn upon in the form of term loans. The aggregate credit limit for all such credit facilities is approximately \$6.9 million. Melcher's credit facilities in Switzerland bear interest on amounts outstanding payable at various time intervals and market rates based on Swiss LIBOR plus a margin ranging from 1.25% to 2.00%. Some of Melcher's credit agreements require Melcher to maintain certain financial covenants and to provide certain financial reports to the lenders, none of which materially restricts Melcher. At March 31, 2001, short-term, including current portion of long-term debt, and long-term amounts outstanding under Melcher's credit facilities were \$1.7 million and \$0.9 million, respectively, at a weighted average interest rate of 4.0%.

As a result of the Powec acquisition, we have credit facilities with banks in various European and Asian countries, as well as Australia. The aggregate credit limit for all such credit facilities is approximately \$5.6 million. The largest of these is a \$4.4 million facility with a Norwegian bank that bears interest of 8.5% at March 31, 2001. At March 31, 2001, amounts outstanding under all of Powec's credit facilities were \$0.7 million at a weighted average interest rate of 9.1%.

In addition, Powec has a long-term property loan with a bank in Norway totaling approximately \$8.1 million. The loan was for the purchase of Powec's primary office and manufacturing facility in Norway and is collateralized by the building. The loan bears an interest rate based on the bank's rate, 9.1% at March 31, 2001, and is payable in semiannual installments until its maturity date in July 2019. At March 31, 2001, the current and long-term amounts outstanding under this loan were \$0.2 million and \$7.9 million, respectively.

At March 31, 2001, short-term, including current portion of long-term debt, and long-term amounts outstanding under all credit agreements with banks were \$9.8 million and \$8.5 million, respectively.

The Company currently anticipates that its total capital expenditures for 2001 will be approximately \$48 million, of which approximately \$5 million represents investments in surface-mount technology automation. The balance of anticipated capital expenditures relates to manufacturing equipment and process improvements, as well as additions and upgrades related to the Company's

facilities, information technology infrastructure, and other administrative requirements consistent with the Company's growth plans. The amount of these anticipated capital expenditures will frequently change during the year based on changes in expected revenues, the Company's financial condition and general economic conditions.

Based on current plans and business conditions, we believe our existing working capital and borrowing capacity, coupled with the funds generated from our operations, will be sufficient to fund our anticipated working capital, capital expenditures and debt payment requirements for the next twelve months. However, if we make a large acquisition, it may be necessary to raise debt or equity in the private or public securities markets.

Recent Events. Since the fourth quarter of 2000, much of the U.S. economy, and particularly the communications infrastructure industry, has experienced a rapid slowdown in its growth. It is not certain whether the economy or various sectors will experience negative growth. Several of our customers, including our largest customers, have cancelled or rescheduled significant orders, which has caused a substantial decline in our backlog. We expect that our rate of growth in 2001 will be significantly less than it has been in the prior two years. Moreover, we significantly increased our production capacity in 2000 and early 2001 in anticipation of continued rapid growth. Thus, we expect to have substantial excess production capacity in 2001. As a result, we anticipate that our gross margin in 2001 will be less than we have experienced in recent years.

Management has initiated various cost containment measures to mitigate the negative effect of these trends, and has announced that the company will take a restructuring charge of approximately \$10 million in the second quarter of 2001 related to these cost saving measures. The cost savings will be realized through consolidation of facilities and a reduction in headcount. Management anticipates that the bulk of the cost savings will be realized by the fourth quarter of 2001. However, there can be no assurance that these measures will be successful.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risks relating to our operations result primarily from changes in interest rates and changes in foreign currency exchange rates. Our exposure to interest rate risk results from the financial debt instruments which arise from transactions entered into during the normal course of business. We may enter into derivative financial instrument transactions, such as swaps, in order to manage or reduce our exposure to interest rate changes related to our portfolio of borrowings. Under no circumstances do we enter into derivative or other financial instrument transactions for speculative purposes.

Debt. We are exposed to cash flow risk due to changes in market interest rates related to our outstanding debt. For example, in Europe some of our credit facilities bear interest on borrowings outstanding at various time intervals and market rates based on Swiss LIBOR, 3.3% at March 31, 2001, an offshore rate that is similar to the London Interbank Offered Rate ("LIBOR"), plus a margin ranging from 1.25% to 2.00%. Our principal risk with respect to our long-term debt is to changes in these market rates.

The table below presents principal cash flows and related weighted average interest rates for our credit facilities and long-term debt obligations at March 31, 2001 by expected maturity dates. The information is presented in U.S. dollar equivalents, our reporting currency, and parenthetically in Swiss francs, Norwegian Kroner or Australian dollars, where applicable. Additionally, the U.S. dollar equivalent carrying value of Swiss franc and Norwegian Kroner denominated debt is sensitive to foreign currency exchange rates. However, a 10% change in the U.S. dollar exchange rate against these currencies would not have a significant effect on our future earnings.

	Expected Maturity Date					There- after	Total	Fair Value
	2001	2002	2003	2004	2005			
(Amounts in thousands except for percentages)								
Credit Facilities:								
Variable Rate (CHF 12,037)	\$	6,952					\$ 6,952	\$ 6,952
Average Interest Rate		4.9%					4.9%	
Variable Rate (NOK 6,521)	\$	712					\$ 712	\$ 712
Average Interest Rate		9.1%					9.1%	

Expected Maturity Date

Long-term Debt:

Fixed Rate (CHF 4,500)	\$	1,733	\$	867					\$	2,600	\$	2,600				
Average Interest Rate		3.7%		4.4%						4.0%						
Variable Rate (NOK 73,874)	\$	218	\$	435	\$	435	\$	435	\$	435	\$	6,108	\$	8,066	\$	8,066
Average Interest Rate		9.1%		9.1%		9.1%		9.1%		9.1%		9.1%		9.1%		

Foreign Currency. A significant portion of our business operations are conducted in various countries in Europe. As a result, we have a certain degree of market risk with respect to our cash flows due to changes in foreign currency exchange rates when transactions are denominated in currencies other than our functional currency. Historically, we have not actively engaged in substantial exchange rate hedging activities, and at March 31, 2001, we had not entered into any significant foreign exchange contracts.

FORWARD-LOOKING STATEMENTS

This Form 10-Q contains certain statements which constitute "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934. The words "expect," "anticipate" and similar expressions are intended to identify forward-looking statements. Such forward-looking information involves important risks and uncertainties that could materially alter results in the future from those expressed in any forward-looking statements made by, or on behalf of, the Company. These risks and uncertainties include, but are not limited to the Company's ability to meet expected revenues and maintain its financial condition which could be affected by any of the following: general domestic and international economic conditions including interest rate and currency exchange rate fluctuations, communications infrastructure and electronics industries market conditions and growth rates, acquisitions, the cyclical nature of the Company's business, government and regulatory policies, technological developments and changes in the competitive environment in which the Company operates. Persons reading this Form 10-Q are cautioned that such forward-looking statements are only predictions and that actual events or results may differ materially. In evaluating such statements, readers should specifically consider the various factors which could cause actual events or results to differ materially from those indicated by such forward-looking statements. For a detailed description of such factors, see Risk Factors in the Company's Form 10-K for the year ended December 31, 2000.
