Regis Corporation
Current Report on Form 8-K

ITEM 2.06. MATERIAL IMPAIRMENTS.

On January 4, 2013, Regis Corporation ("Regis") concluded that an other than temporary impairment charge ranging between \$15.0 million and \$20.0 million for the excess of carrying value over fair value of its investment in Empire Education Group, Inc. ("EEG") will be recorded in Regis second fiscal quarter ended December 31, 2012. The proprietary school industry continues to experience declining enrollment, revenue and profitability which led EEG to reduce its budgeted financial projections for future periods. These factors have also led to a significant and further decline in the market values for the industry which also contributed to Regis' impairment since a portion of Regis' estimate of fair value is based on the market approach. Prior to the impairment charge, the carrying value of Regis' investment in EEG was approximately \$60 million. Regis will not receive a tax benefit on the impairment charge.
