ITEM 11. EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

General Philosophy/Objectives

The Company's overall philosophy with regards to executive compensation is to provide a compensation package that enables it to attract and retain highly qualified individuals whose abilities are critical to its long-term success, and to motivate these executives to achieve superior performance. The Company's compensation program for our Named Executive Officers (NEOs) is based upon the following underlying principles:

- The NEOs' total direct compensation (consisting of salary, bonus and long-term equity incentive opportunities) should be competitive;
- Each NEO's bonus should be tied to the Company's achievement of financial performance goals and the NEO's contribution to the achievement of those goals; and
- Our compensation program should align each NEO's interests with the interests of stockholders by providing executives with long-term equity incentive compensation opportunities and promoting stock ownership.

Role of the Compensation Committee

Our executive compensation program is administered by the Compensation Committee of the Board of Directors. During fiscal 2007 the members of the committee were Hilton Isaacman, James Myers, Larry Unruh and D. Ross Hamilton, each a non-employee director. Both Mr. Unruh and Mr. Hamilton, who served as Chairman, are independent directors. Mr. Isaacman and Mr. Myers resigned from the Board On October 10, 2007 and their positions on the Compensation Committee were not replaced.

Under the terms of its charter, the Compensation Committee is responsible for setting compensation policies applicable to the Company's executive officers. The Committee's fundamental policy is to offer the Company's executive officers competitive compensation opportunities based upon the overall performance of the Company, the individual contribution of such officers to the financial success of the Company and market rates of compensation of executive officers at similarly situated technology companies. It is the Committee's objective to have a substantial portion of each officer's total compensation potential contingent upon the Company's performance, as well as upon the officer's own level of performance. Accordingly, each executive officer's compensation package is generally comprised of three elements: (i) base salary, which is established primarily on the basis of individual qualifications, performance and market considerations, (ii) annual variable performance awards payable in cash and tied to the Company's achievement of financial performance goals and the executive's contribution to the achievement of those goals, and (iii) long-term stock-based incentive awards that are intended to strengthen the mutuality of interests between the executive officers and the shareholders.

In fulfilling its role, the Compensation Committee meets to review and approve corporate goals and objectives relevant to the compensation of the Company's CEO and other NEOs, evaluate the performance of the CEO and other NEOs in light of these goals and objectives, and determine and approve annual compensation both for the CEO and the other NEOs based on this evaluation. The CEO does not have a role in setting his own compensation.

The Compensation Committee reviews and determines the compensation of our CEO and our other NEOs based, in part, on its evaluation of a variety of criteria such as comparable and market compensation data, executive

performance and potential, and other information determined by the Compensation Committee to be important. The Compensation Committee also considers the recommendations of the CEO when determining annual compensation for our other NEOs. On at least an annual basis, the Compensation Committee or Board also approves stock option or other equity or cash incentive awards for all our NEOs. In addition, the Compensation Committee reviews and recommends to the Board of Directors severance arrangements for our NEOs.

The Compensation Committee has the authority to retain outside counsel, experts and other advisors and to obtain other data or resources as it determines appropriate. During fiscal 2007, the Compensation Committee did not elect to use its authority to utilize additional resources beyond those made available by the Company.

Compensation Program

In line with the principles noted above, our executive compensation program generally is comprised of three elements: (i) base salary, which is established primarily on the basis of individual qualifications, performance and market considerations, (ii) annual variable performance awards payable in cash and tied to the Company's achievement of financial performance goals and the executive's contribution to the achievement of those goals, and (iii) long-term stock-based incentive awards that are intended to strengthen the mutuality of interests between the executive officers and the stockholders.

Base Salary. Individual officer salaries are determined based on individual experience, performance and breadth of responsibility within the Company. The Compensation Committee reviews these factors for each executive officer each year. In addition, the Compensation Committee considers executive officers' salaries for relative competitiveness with similarly-situated companies.

Bonuses. Individual bonuses are determined at the discretion of the Compensation Committee based on its subjective assessment of the contribution of each officer to and the achievement of overall financial goals of the Company.

Equity Plans. The 2007 Stock Incentive Plan is a long-term incentive plan for the Company's employees, executive officers and directors. The plan is intended to align shareholder and employee interests by creating a direct link between long-term rewards and the value of the Company's common stock. The Compensation Committee believes that ownership of long-term stock options by executive officers and employees is an important factor in retaining valued personnel and in achieving growth in share value. The options awarded utilize vesting periods that encourage executive officers and employees to continue in the employ of the Company. Because the value of an option bears a direct relationship to the Company's stock price, the Compensation Committee believes that options motivate executive officers and employees to manage the Company in a manner which will benefit all shareholders.

Stock options may be awarded to executive officers and employees at any time. The exercise price per share of each stock option is generally equal to the prevailing market price of a share of the Company's common stock on the date the option is granted. The size of stock option grants is determined by a number of factors, including comparable grants to executive officers and employees of similarly situated companies, as well as the executive officer's relative position and responsibilities with the Company, the individual performance of the executive officer over the previous fiscal year, the anticipated contribution of the executive officer to the attainment of the Company's long-term strategic performance goals, and the dilutive effect of the option grant. The Committee views stock option grants as an important component of its long-term, performance-based compensation philosophy.

POTENTIAL PAYMENTS UPON TERMINATION OR CHANGE IN CONTROL

AND EMPLOYMENT CONTRACTS

The information below describes certain arrangements to which the Company is party that provide for payments to Named Executive Officers in connection with termination of employment or a change in control of the Company. The Company has not entered into any employment contracts with its Named Executive Officers other than the retention agreements described below.

Based on the recommendation of the Compensation Committee, on November 14, 2002 the Board of Directors approved severance arrangement whereby, upon termination by the Company without cause, the Company's Chief Executive Officer would receive severance payments equal to six months of base salary, the Company's Chief Financial Officer would receive severance payments equal to three months of base salary, and each other executive officer would receive severance payments equal to one month of base salary.

On May 15, 2006, the Company entered into retention agreements with Alan Kiraly, Glenn Cox, John W. Low and Pierre de Wet, each of which contains the following terms and conditions: If, at the time of a change in control of the Company, the executive officer party to the agreement has not voluntarily terminated his employment or been terminated by the Company for cause, the officer shall be entitled to a retention bonus, payable in cash and/or securities of the entity acquiring the Company (the "Acquiror"), allocated to him from a bonus pool with the approval of the Compensation Committee. The bonus pool shall be equal to seven percent of the net acquisition proceeds received by the Company in connection with the change in control, provided that the minimum amount of such pool shall be \$450,000 and the maximum amount shall be \$675,000. The officer shall be entitled to receive at least 50% of the retention bonus in cash. If the officer is not employed by the Company or the Acquirer after the change in control, the Company agrees to, within 12 months after the change in control, redeem, or cause the redemption of, for cash any non-marketable securities of the Acquirer that were paid as part of the retention bonus. The redemption shall be at fair market value, as determined by the Acquirer. In addition to the retention bonus, the Company agrees, subject to the officer's execution of a release and separation agreement, to pay the officer severance benefits equal to his base salary for a certain period, which in each case is six or nine months, and a portion of the COBRA premiums under the Company's or the Acquirer's health plan for the same period, when (i) the officer does not remain employed with the

Company or the Acquirer immediately following the change in control and certain other conditions are satisfied (which conditions are identified in note (1) to the table immediately below) or (ii) the officer accepts employment with the Company or the Acquirer following the change in control and is terminated without cause within 12 months.

Spescom Ltd's sale of all its interest in the Company to ERP2 Holdings, LLC on October 10, 2007 constituted a change in control under the retention agreements and triggered the retention bonuses for the Named Executive Officers. On January 28, 2008, the Board of Directors, on the recommendation of the Compensation Committee, approved bonuses to the Named Executive Officers pursuant to the retention agreements in the aggregate amount of \$232,000, of which \$85,000 is payable to Mr. Kiraly, \$67,000 is payable to Mr. Low, \$35,000 is payable to Mr. Cox, and \$45,000 is payable to Mr. De Wet.

8

Based on the recommendation of the Compensation Committee, on January 28, 2008 the Board of Directors approved certain severance arrangements, effective October 10, 2008. Upon termination by the Company without cause, the Company's Chief Executive Officer and Chief Financial Officer would receive severance payments equal to six months of base salary and, if such termination is in connection with a change in control, such payments would increase to twelve months of base salary. For other Named Executive Officers, upon termination by the Company without cause, the Named Executive Officer would be entitled to severance payments equal to three months of base salary, which payments would increase to six months of base salary if in connection with a change in control.

Each stock option agreement applicable to grants of stock options to Named Executive Officers under our 1996 Stock Incentive Plan and 2007 Stock Incentive Plan provides that, in the event of the termination of the option holder's employment for any reason within one year after a change in control (i) any portion of an option that has not vested on or prior to the date of such termination will be fully vested and exercisable on such date and (ii) the option will terminate upon the earlier of its expiration date and the first anniversary of the date of such termination. In addition, pursuant to the terms of our 2007 Stock Incentive Plan, in the event that a change in control occurs and the surviving or acquiring entity declines to assume any stock awards outstanding under the plan or to substitute similar stock awards for them, then, with respect to stock awards held by persons whose continuous service to the Company has not terminated, the Board of Directors may (i) provide for the payment of a cash amount in exchange for the cancellation of any such stock award equal to its fair value, which, in the case of stock options, equals the excess, if any, of the market value of the Company's common stock over the exercise price of the option, multiplied by the number of shares then subject to the option, (ii) continue any such stock award, or (iii) notify the holders of certain stock awards that such stock awards will terminate if not exercised or redeemed upon or prior to consummation of the change in control transaction.

The table below sets forth the estimated value of the potential payments to each Named Executive Officers, in each of the following circumstances: (i) the officer's employment is terminated by the Company without cause on September 30, 2007 other than in connection with a change in control, and (ii) a change in control occurs on September 30, 2007 and (A) the officer's employment is not terminated within the following 12 months, (B) the officer's employment is terminated concurrently with the change in control and any of certain conditions (set forth in note (1) to the table) are satisfied, (C) the officer's employment is terminated concurrently with the change in control and none of such conditions are satisfied, (D) the officer's employment is not terminated concurrently with the change in control but is terminated by the Company or the acquiring entity without cause within the following 12 months, or (E) the officer's employment is not terminated concurrently with the change in control but is terminated within the following 12 months other than by the Company or the acquiring entity without cause.

The interest rate for the extended Old Notes and the New Notes will be 10% per annum (provided that, upon an event of default, the interest rate will increase to 13% per annum). The Old Notes and New Notes will be subject to customary events of default, including any failure of the Company to complete the Borrower Actions by April 30, 2008. In addition, the Term Sheet provides for customary affirmative and negative covenants, including a quarterly EBITDA covenant.

Under the Term Sheet, so long as the New Notes or the Old Notes are outstanding, the Company will procure management consulting, strategic and financial advisory services from ERP2, the aggregate cost of which will not exceed \$60,000 in any quarter. The Term Sheet provides for the payment by the Company to ERP2 of all reasonable fees and expenses of ERP2 in connection with the provision of the New Note and the extension of the Old Notes, in addition to a \$75,000 closing fee. Such closing fee includes up to \$25,000 of fees and expenses that the Company is required to reimburse to ERP2 pursuant to the letter agreement between the Company and ERP2 dated October 22, 2007.

Upon execution of the Term Sheet, the Company declared a dividend payable to ERP2 in the amount of 20,832,498 shares of common stock, in satisfaction of the entire amount of accrued and unpaid dividends (together with interest through January 21, 2008) on the shares of the Company's Series F Convertible Preferred Stock held by ERP2, which shares of common stock were issued to ERP2 on January 21, 2008.

The Series F Preferred Shares are entitled to receive dividends of 5% of the stated value of \$1,000.00 per share per annum, payable on a quarterly basis in cash or common stock (valued on the basis of the average per share market value on the 30 trading days immediately prior to the date on which such dividend is declared by the Board of Directors). Unpaid dividends accrue interest at the rate of 8% per annum compounded annually from the date of accrual. The Series F Preferred Shares are also entitled to a liquidation preference equal to \$1,000.00 per share, plus accrued but unpaid dividends per share and interest on all accrued but unpaid dividends. The holder of each Series F Preferred Share is entitled to a number of votes equal to the number of shares of common stock into which such share would be converted on all matters submitted to the vote of the holders of common stock and to vote as a class with the holders of

common stock. In connection with the issuance of the Series F Preferred Shares, Spescom received certain demand and piggyback registration rights with respect to the common stock underlying such shares.

As of September 30, 2007, the Series F Preferred Shares were convertible at the adjusted conversion price of \$0.39 then in effect into (i) 13,566,667 shares of the Company's common stock based on the stated value of the Series F Preferred Stock and (ii) 3,160,926 shares of the Company's common stock based on the \$1,233,000 of unpaid accrued dividends and interest thereon related to the Series F Preferred Stock as of such date. As described under "Transactions Involving ERP2 Holdings, LLC" above, however, all accrued dividends and interest thereon related to the Series F Preferred Shares were satisfied as of January 21, 2008 by the issuance of certain shares of the Company's common stock to ERP2 Holdings, LLC, the holder of the Series F Preferred Shares as of such date.

As of September 30, 2007, Spescom, by virtue of its ownership of shares of the common stock and Series F Convertible Preferred Stock of the Company, (i) was entitled to vote 32,379,064 or 59.7% of the total number of votes eligible to be cast on all matters submitted to the vote of the holders of common stock and, consequently, was entitled to elect a majority of the board of directors of the Company, and (ii) was the beneficial owner of the same number of shares and percentage of the common stock of the Company.

On October 10, 2007, Spescom sold all of its interest in the Company to ERP2 Holdings, LLC., including the Series F Preferred Shares, certain shares of common stock of the Company, certain secured demand notes, and certain associated contract rights, as further described under "Transactions Involving ERP2 Holdings, LLC" above.

Transactions Involving M.A.G. Capital, LLC and Certain of Its Affiliates

As of January 25, 2008 M.A.G. Capital, LLC ("MAG") and its affiliates Monarch Pointe Fund, Ltd. ("Monarch") and Mercator Momentum Fund III, L.P. ("MMF") owned approximately 39.2% of the outstanding common shares of the Company assuming the conversion of all shares of the Company's preferred stock held by those three entities and the exercise of all warrants for the purchase of the Company's common stock held by them. Under the applicable Certificate of Determination of Preferred Stock and the terms of the warrants, however, none of MAG, Monarch and MMF may convert any shares of preferred stock or exercise any warrant if doing so would cause those three entities' aggregate beneficial ownership of the Company's common stock to exceed 9.99% of the Company's common stock then outstanding.

During fiscal 2005 and fiscal 2006, the Company issued in three private placements certain shares of its preferred stock and certain warrants for the purchase of shares of its common stock to MAG, Monarch and MMF. As part of each private placement, the Company undertook certain obligations to register the common stock underlying the preferred stock and warrants issued therein. These three private placements are described in greater detail in the paragraphs that follow.

On November 5, 2004, the Company issued (1) to Monarch 2,200 shares of Series G Convertible Preferred Stock ("Series G Preferred Stock") and (2) to Monarch and MAG (which was then named Mercator Advisory Group, LLC) warrants, which expire November 5, 2007, to purchase, subject to certain adjustments, an aggregate of 2.75 million shares of common stock at \$0.44 per share. The aggregate consideration received by the Company for the Series G Preferred Stock and warrants was \$2.2 million. During fiscal 2005, 750 shares of this preferred stock was converted into 2,428,000 shares of common stock.

On October 25, 2005, the Company entered into a definitive agreement relating to a private placement with Monarch and MAG. Pursuant to the agreement, on October 25, 2005, the Company issued (1) to Monarch 1,950 shares of Series H Convertible Preferred Stock ("Series H Preferred Stock") and (2) to Monarch and MAG warrants, which expire October 25, 2008, to purchase, subject to certain adjustments, an aggregate of 925,926 shares of common stock at \$0.27 per share. The aggregate consideration received by the Company for the Series H Preferred Stock and warrants consisted of \$500,000 and the remaining 1,450 shares of the Series G Preferred Stock, which were cancelled by the Company. The agreement contemplated the issuance by the Company at a second closing of 500 shares of Series H Preferred Stock and warrants, expiring on the third anniversary of the second closing, to purchase 925,926 shares of common stock at \$0.27 per share, in exchange for aggregate consideration of \$500,000. The obligations of the investors to consummate that second closing were subject to certain conditions, including that the closing price of the Company's common stock would be \$0.16 or greater for 20 consecutive trading days. This stock price condition was not satisfied and the second closing was not completed.

On March 10, 2006, the Company completed a private placement with MAG, Monarch and MMF. Under the terms of the financing, the Company issued (i) to Monarch and MMF an aggregate of 2,450 shares of Series I Convertible

Preferred Stock (“Series I Preferred Stock”) and (ii) to MAG, Monarch and MMF warrants, expiring March 10, 2009, to purchase, subject to certain adjustments, an aggregate of 925,926 shares of common stock at \$0.27 per share. The Company received aggregate consideration for the Series I Preferred Stock and warrants issued in the private placement consisting of \$500,000 and the 1,950 shares of Series H Preferred Stock issued by the Company in October 2005, which have been cancelled.

Each share of Series I Preferred Stock is convertible into a number of shares of common stock determined by dividing \$1,000 by the conversion price per share in effect at the time of conversion, provided that a holder of Series I Preferred Stock may at any given time convert only that number of shares of Series I Preferred Stock so that, upon conversion, the aggregate beneficial ownership of the Company's common stock of such holder and all persons affiliated with such holder is not more than 9.99% of the Company's common stock then outstanding. The conversion price per share, which is subject to certain adjustments, is equal to 85% of the market price (the volume-weighted average price of the Company's common stock during the 5 immediately preceding trading days, subject to adjustment), provided that in no event shall the conversion price exceed a ceiling price of \$0.21 per share, or be less than a floor price of \$0.0725 per share. Consequently, the Series I Preferred Stock is convertible into no fewer than 11,666,667 shares of common stock and into no more than 33,793,104 shares of common stock. Each holder of Series I Preferred Stock is entitled to a liquidation preference equal to the greater of (i) \$1,000 per share plus declared but unpaid dividends per share and (ii) the amount such holder would be entitled to receive had such holder's shares been converted into shares of common stock immediately prior to the distribution in accordance with the terms of the Series I Preferred Stock. The Series I Preferred Stock accrued dividends of 6.75% of the stated value of \$1,000 per share per annum between the date of issuance and July 10, 2006, the date on which the registration statement for the common stock underlying the Series I Preferred Stock was declared effective by the Securities and Exchange Commission. On October 26, 2007, the Company issued 358,809 shares of common stock to the holders of the Series I Preferred Stock in payment of \$55,000 in accrued dividends, thereby satisfying all accrued dividends on the Series I Preferred Stock.

Review and Approval of Transactions with Related Persons

The board of directors of the Company adopted, as of January 28, 2008, a written policy for approval of transactions between the Company and its directors, director nominees, executive officers, greater-than-5% beneficial owners, and their respective immediate family members, where the amount involved in the transaction exceeds or is expected to exceed \$100,000 since the beginning of the Company's last completed fiscal year. The policy provides that the Audit Committee reviews certain transactions subject to the policy and determines whether or not to approve or ratify those transactions. In doing so, the Audit Committee takes into account, among other factors it deems appropriate, whether the transaction is on terms that are no less favorable to the Company than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the interests of the related person or persons in the transaction.

Although the above-referenced written policy had not been adopted at the time of any of the transactions described in this Item 13, (i) the transactions described under the heading "Transactions Involving ERP2 Holdings, LLC" and the subheading "Execution of Term Sheet with ERP2 Holdings, LLC, and Associated Issuance of Common Stock Warrant and Issuance of Common Stock in Payment of Series F Convertible Preferred Stock Dividend" were reviewed and approved in advance by a committee of independent directors (the "Independent Committee") appointed by the Board of Directors comprised of Messrs. Silverman, Hamilton and Unruh (who are also the directors comprising the Audit Committee), and (ii) the transactions described under the heading "Transactions Involving ERP2 Holdings, LLC" and the subheading "Extension of Demand Notes Held by ERP2 Holdings, LLC", the heading "Transactions Involving Spescom Limited and Its United Kingdom Subsidiary", and the heading "Transactions Involving M.A.G. Capital, LLC and Certain of Its Affiliates" were reviewed and approved in advance by the Board of Directors. In each case, the Independent Committee or the Board of Directors, as applicable, took into account, among other factors it deemed appropriate, whether the transaction was on terms no less favorable to the Company than terms generally available to an unaffiliated third-party under the same or similar circumstances and the extent of the interests of the related person or persons in the transaction. The transactions described under the heading "Transactions Involving ERP2 Holdings, LLC" and the subheading "Acquisition by ERP2 Holdings, LLC of the Interests in the Company of Spescom Limited" were not subject to the review or approval of the board of directors of the Company or of any committee thereof because the Company was not party to the transfer to ERP2 Holdings, LLC of the interests in the Company of Spescom Limited and its United Kingdom subsidiary.

Director Independence

The Board of Directors has determined that Messrs. Silverman, Hamilton and Unruh are independent under the definition of independence set forth in the NASDAQ listing standards. In making such determination, the Board of Directors considered all relevant facts and circumstances in accordance with such definition and did not consider any transactions, relationships or arrangements.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Pursuant to the Audit Committee charter, the Audit Committee must approve in advance all audit and permissible non-audit services provided by the Company's independent auditors. Accordingly, all of the services described in the table immediately above were approved in advance by the Audit Committee. As the Audit Committee has not delegated any pre-approval authority, the Audit Committee has not adopted any specific pre-approval policies and procedures for delegates relating to the engagement of its independent auditors. None of the services described in the table immediately above were approved by the Audit Committee pursuant to Rule 2-01(c)(7)(i)(C) of Regulation S-X.
