

SOUTHERN CONNECTICUT BANCORP INC
Form 10-K
March 28, 2011

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the Fiscal Year Ended December 31, 2010.

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 1-32219

SOUTHERN CONNECTICUT BANCORP, INC.
(Exact name of registrant as specified in its charter)

Connecticut
(State or other jurisdiction of incorporation or organization)

06-1609692
(I.R.S. Employer Identification Number)

215 Church Street
New Haven, Connecticut
(Address of Principal Executive Offices)

06510
(Zip Code)

Registrant's telephone number, including area code (203) 782-1100

Securities registered pursuant to Section 12(b) of the Act:

Common Stock, par value \$.01 per share
(Title of each class)

NYSE Amex
(Name of each exchange on which registered)

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input checked="" type="checkbox"/>

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates (assumes all directors, executive officers and 10% or greater holders are affiliates) of the registrant, computed by reference to the price at which the common equity was last sold as of June 30, 2010, the last business day of the registrant's most recently completed second fiscal quarter: \$15,670,056.

The number of shares outstanding of each of the registrant's classes of common equity: Common Stock, par value \$.01 per share, outstanding as of March 28, 2011: 2,696,902

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the registrant's definitive Proxy Statement for its 2011 Annual Meeting of Shareholders which is expected to be filed with the Securities and Exchange Commission within 120 days after the close of the fiscal year covered by this Form 10-K, are incorporated by reference into Part III of this report on Form 10-K.

PART I

Item 1. Business.

Background

Southern Connecticut Bancorp, Inc. (the “Company”) is a bank holding company headquartered in New Haven, Connecticut that was incorporated on November 8, 2000. The Company’s strategic objective is to serve as a bank holding company for a community-based commercial bank and a mortgage broker serving primarily New Haven County (the “Greater New Haven Market”). The Company owns 100% of the capital stock of The Bank of Southern Connecticut (the “Bank”), a Connecticut-chartered bank with its headquarters in New Haven, Connecticut, and 100% of the capital stock of SCB Capital, Inc. The Company and its subsidiaries focus on meeting the financial services needs of consumers and small to medium-sized businesses, professionals and professional corporations, and their owners and employees in the Greater New Haven Market.

The Bank operates branches at four locations, including downtown New Haven, the Amity/Westville section of New Haven, Branford and North Haven. The Bank’s branches have a consistent, attractive appearance. Each location has an open lobby, comfortable waiting area, offices for the branch manager and a loan officer, and a conference room. The design of the branches complements the business development strategy of the Bank, affording an appropriate space to deliver personalized banking services in professional, confidential surroundings.

The Bank focuses on serving the banking needs of small to medium-sized businesses, professionals and professional corporations, and their owners and employees in the Greater New Haven Market. The Bank’s target commercial customer has between \$1.0 and \$30.0 million in revenues, 15 to 150 employees, and borrowing needs of up to \$3.0 million. The primary focus on this commercial market makes the Bank uniquely qualified to move deftly in responding to the needs of its clients. The Bank has been successful in winning business by offering a combination of competitive pricing for its services, quick decision making processes and a high level of personalized, “high touch” customer service.

SCB Capital, Inc. operated under the name “Evergreen Financial Services” (“Evergreen”) as a licensed mortgage brokerage business through July 31, 2010. After reviewing the historical operations and results of Evergreen, and considering future prospects for the business, management determined that it was in the best interest of the Company to discontinue the mortgage brokerage operation of SCB Capital, Inc. however the Company expects to continue mortgage brokerage activities.

On February 22, 2010, the Company entered into an Agreement and Plan of Merger with Naugatuck Valley Financial Corporation (“NVSL”) and Newco, a corporation to be formed by NVSL to be the holding company for Naugatuck Valley Savings and Loan (“NVSL Bank”), pursuant to which the Company will merge with and into Newco, with Newco being the surviving corporation. The Agreement and Plan of Merger was subsequently amended on September 17, 2010 to amend the consideration to be paid in the merger, extend the deadline for closing the merger and amend the conditions under which NVSL would be obligated to pay a termination fee to the Company.

On November 12, 2010, the Company, NVSL and Newco entered into a Mutual Termination Agreement pursuant to which the parties mutually agreed to terminate the Agreement and Plan of Merger due to an inability to obtain regulatory approval of the proposed merger. In accordance with the terms and conditions of the Mutual Termination Agreement and the Agreement and Plan of Merger, as amended, NVSL paid a \$350,000 termination fee to the Company on November 12, 2010, as partial reimbursement for the Company's transaction expenses.

The Greater New Haven Market

The Company serves the Greater New Haven Market, which is comprised of the communities located in and around New Haven County in Southern Central Connecticut. The Greater New Haven Market is located in the center of, and is a critical component of, the commercial activity of the northeast corridor in New England. The market focus resides in the busy transportation and commercial area between New York City to the south, Hartford to the north, Providence to the east, and Boston to the northeast. The diversified economic base of this market region includes educational, pharmaceutical, advanced manufacturing, healthcare, defense, technology, service and energy companies. The region is also one of New England's most popular tourist destinations, featuring popular shoreline and heritage sites. In addition, the Company's headquarters is located in downtown New Haven, in the area of Yale University's campus.

Bank Growth and Operating Strategy

The Bank seeks to differentiate itself by offering prompt, personal "high touch" service and quality banking products. The Bank's target customers are small to medium-sized businesses, professionals and professional corporations, and their owners and employees. The Bank emphasizes personal relationships with customers, community involvement by employees and the board of directors, and responsive lending decisions by an accessible and experienced local management team.

The key elements of the Bank's business strategy include:

- Provision of individualized attention with local underwriting and credit decision-making authority. As the only commercial bank based in and wholly focused on the greater New Haven area, the Bank is better able to provide the individualized customer service, combined with prompt local underwriting and credit decision-making authority that management believes small to medium-sized businesses desire.
- Employing qualified and experienced banking professionals. The Company and the Bank seek to continue to hire and retain highly experienced and qualified local commercial lenders and other banking professionals with successful track records and established relationships with small to medium-sized businesses in targeted market areas. The experience and expertise of these individuals serves to enhance the Bank's image within the communities it serves, thereby increasing the Bank's business.

- Leveraging personal relationships and community involvement. The directors, officers and senior employees of the Company and the Bank have extensive personal contacts, business relationships and involvement in communities in which they live and work and which the Bank serves. By building on and leveraging these relationships and community involvement, management believes that the Bank has generated and will continue to generate enthusiasm and interest from small to medium-sized businesses and professionals in the targeted market areas.
- Offering a suite of products attractive to our core customer base. The Bank seeks to offer competitive basic, popular products to its commercial and consumer customer base. The Bank offers internet-banking services to its customers through a partnership with Digital Insight, a subsidiary of Intel. The Bank offers remote deposit capture, a system that allows our customers to deposit checks from their places of business, rather than having to make a trip to the Bank. The Bank offers a full complement of banking services utilized by small business customers.
- Maintaining high credit quality. The success of the Bank's business plan depends to a significant extent on the quality of the Bank's assets, particularly loans. The Bank has built a strong internal emphasis on credit quality and has established stringent underwriting standards and loan approval processes. The Bank actively manages past due and non-performing loans in an effort to minimize credit loss and related expenses and to ensure that the allowance for loan losses is adequate.
- Taking market share from large, non-local competitors. The Greater New Haven Market is dominated by large, non-locally owned financial institutions with headquarters typically located outside of Connecticut. Management believes that the Bank has attracted and can continue to attract small to medium-sized businesses and professionals that prefer local decision-making authority and interaction with banking professionals who can provide prompt personalized and knowledgeable service.
- Optimizing net interest margin. The Bank's focus on commercial customers helps to support a strong net interest margin. The high percentage of assets concentrated in loans to commercial entities that typically provide higher yield than consumer loans, particularly residential mortgages and home equity related loans. The Bank maintains a high percentage of commercial transaction accounts and money market deposit accounts to fund its operations. These deposits typically have a lower interest rate expense than certificates of deposits. The combination of the higher yielding assets and lower expense deposits produces a strong margin for the Company.

Lending, Depository and Other Products

Lending Products. The Bank offers a broad range of loans to businesses and individuals in its service area, including commercial and business loans, industrial loans, personal loans, commercial and home mortgage loans, home equity loans and automobile loans. The Bank has received lending approval status from the Small Business Administration ("SBA") to enable it to make SBA loans in communities located throughout the State of Connecticut. The Bank holds certified lending status ("CLP") from the SBA.

Loans are made on a variable or fixed rate basis, with fixed rate loans typically limited to three to five year terms. All loans are approved pursuant to lending policies and procedures authorized by the Bank's board of directors. The Bank, at times, participates in multi-bank loans to companies in its market area. Commercial loans and commercial real estate loans may be written for maturities of up to twenty years. Loans to purchase or refinance commercial real estate are typically supported by personal guarantees of the principal owners and related parties, and are collateralized by the subject real estate, which may in certain cases be supplemented by additional collateral in the form of liquid assets. Loans to local businesses are generally supported by the personal guarantees of the principal owners and are carefully underwritten to determine appropriate collateral and covenant requirements.

Depository Products. The Bank has attracted a base of core deposits, including interest bearing and non-interest bearing checking accounts, money market accounts, savings accounts, sweep accounts, NOW accounts, repurchase agreements, and a variety of certificates of deposits and IRA accounts. To continue to attract deposits, the Bank employs an aggressive marketing plan in its service area and features a broad product line and rates and services competitive with those offered in the Greater New Haven Market. The primary sources of deposits have been and are expected to continue to be small to medium-sized businesses, professionals (lawyers, doctors, accountants, etc.) and professional corporations, and their owners and employees. The Bank obtains these deposits through personal solicitation by its officers and directors, outside programs and advertisements published and/or broadcasted in the local media. The Bank offers internet-banking services to its customers, including commercial cash management services and personal banking services. The Bank offers remote deposit capture, which offers check deposit capabilities for customers from their place of business. The Bank also offers drive-in teller services, automated teller services, wire transfer, lock box and safe deposit services.

Other Services. The Bank provides a broad range of other services and products, including cashier's checks, money orders, travelers' checks, bank-by-mail, direct deposit and U.S. Savings Bonds. The Bank is associated with a shared network of automated teller machines that its customers are able to use throughout Connecticut and other regions. The Bank does not expect to offer trust services directly in the near future, but may offer trust services in the future independently or possibly through a joint venture with a third party. To directly offer trust services, the Bank would need the approval of the Connecticut Banking Commissioner and the FDIC.

Investment Services

The Company does not engage in investment services.

Investment Securities

Investment securities are held by the Company and the Bank with the objective of maximizing the long-term rate of return for shareholders. Investments are overseen by the Board of Directors and a committee of officers who take into account returns, liquidity needs, and the overall asset/liability management of the Company and the Bank. Permissible investments include debt securities such as U.S. Government securities, government-sponsored agency securities, municipal bonds, domestic certificates of deposit that are insured by the FDIC, mortgage-backed securities and collateralized mortgage obligations. The Bank's current investment portfolio is limited to U.S. Treasury bills, which have been classified as available for sale. Accordingly, the principal risk associated with the Bank's current investing activities is market risk (variations in value resulting from general changes in interest rates) rather than credit risk. The Bank does not take credit risk for the purposes of increasing interest income. Management continually reviews its portfolio and prevailing market conditions, and under certain market conditions, the Company's strategy may be reviewed and revised by management and the board of directors.

Asset and Liability Management

Interest rate risk measures the impact that changing interest rates have on current and future earnings. The Company's goal is to optimize long-term profitability while minimizing exposure to interest rate fluctuations. Interest rate risk exposure, including, among other things, the Company's exposure to changes in interest income and equity value based on fluctuations in interest rates, is monitored by senior management and reported to the Bank's Asset Liability Committee (ALCO) and the board of directors on a quarterly basis. The Bank employs the services of a national service provider for monitoring, analyzing and managing interest rate risk.

Regulatory Compliance

The Company operates in a heavily regulated industry and is subject to increasing regulatory review and scrutiny from the Federal Reserve Board, the Connecticut Banking Commissioner, and the FDIC. The Company and the Bank have invested and continue to invest significant time and resources to ensure compliance and conformity with applicable regulations (see "REGULATION AND SUPERVISION" below). The Bank is committed to meeting its obligations under the Bank Secrecy Act, the Gramm-Leach-Bliley Act and the USA PATRIOT Act, as well as various other regulations. Management meets and reports to the board of directors on a regular basis regarding new developments in compliance and the Bank's efforts to comply therewith.

Competition

There are numerous banks and other financial institutions serving the Greater New Haven Market posing significant competition to attract deposits and loans. The Bank competes for loans and deposits with other commercial banks, savings and loan associations, finance companies, money market funds, insurance companies, credit unions and other financial institutions, a number of which are much larger and have substantially greater resources. To increase its business, the Bank will have to win existing customers away from existing banks and financial institutions as well as successfully compete for new customers from growth in the target markets.

New Haven county is currently served by approximately 271 offices of 26 commercial and savings banks. The majority of these banks are substantially larger than the Bank expects to be in the near future, and are able to offer products and services which may be impractical for the Bank to provide at this time. There are numerous banks and other financial institutions serving the communities surrounding New Haven, which also draw customers from New Haven, posing significant competition for the Bank to attract deposits and loans. The Bank also experiences competition from out-of-state financial institutions with little or no traditional bank branches in New Haven. Many of these banks and financial institutions are well established and better capitalized than the Bank, allowing them to provide a greater range of services.

Intense market demands, economic pressures, and significant legislative and regulatory actions have eroded traditional banking industry classifications and have increased competition among banks and other financial institutions. Market dynamics as well as legislative and regulatory changes have resulted in a number of new competitors offering services historically offered only by commercial banks. Increased customer awareness of product and service differences among competitors has also increased competition among banks.

Employees

As of December 31, 2010, the Bank had 33 full-time employees. Relationships with all employees are believed to be excellent.

REGULATION AND SUPERVISION

Banks and bank holding companies are extensively regulated under both federal and state law. The Company and the Bank have set forth below brief summaries of various aspects of supervision and regulation to which they are subject. These summaries do not purport to be complete and are qualified in their entirety by reference to applicable laws, rules and regulations.

Laws and Regulations to which The Company is Subject

General. As a bank holding company registered in accordance with the Bank Holding Company Act of 1956 (the “BHC Act”), the Company is regulated by and subject to the supervision of the Federal Reserve Board and is required to file with the Federal Reserve Board an annual report and such other information as may be required. The Federal Reserve Board has the authority to conduct examinations of the Company as well. The Federal Reserve Board has the authority to issue orders to bank holding companies to cease and desist from unsound banking practices and violations of conditions imposed by, or violations of agreements with, the Federal Reserve Board. The Federal Reserve Board is also empowered to assess civil money penalties against companies or individuals who violate the BHC Act or orders or regulations thereunder, to order termination of non-banking activities of non-banking subsidiaries of bank holding companies, and to order termination of ownership and control of a non-banking subsidiary by a bank holding company.

The BHC Act—Acquisitions and Permissible Activities. The BHC Act requires the prior approval of the Federal Reserve Board for a bank holding company to acquire substantially all the assets of a bank or acquire direct or indirect ownership or control of more than 5% of any class of the voting shares of any bank, bank holding company or savings association, or increase any such non-majority ownership or control of any bank, bank holding company or savings association, or merge or consolidate with any bank holding company. Federal law generally authorizes bank holding companies to acquire banks located in any state, subject to certain state-imposed age and deposit concentration limits, and also generally authorizes interstate bank holding company and bank mergers and to a lesser extent, interstate branching.

Unless a bank holding company becomes a financial holding company under the Gramm-Leach-Bliley Act of 1999 (“GLBA”) (as discussed below), the BHC Act prohibits a bank holding company from acquiring a direct or indirect interest in or control of more than 5% of any class of the voting shares of a company that is not a bank or a bank holding company and from engaging directly or indirectly in activities other than those of banking, managing or controlling banks or furnishing services to its subsidiary banks, except that it may engage in and may own shares of companies engaged in certain activities the Federal Reserve Board has determined to be so closely related to banking or managing or controlling banks as to be a proper incident thereto.

The GLBA permits a qualifying bank holding company to become a “financial holding company” and thereby engage in a broader range of activities than is permissible for a traditional bank holding company. In order to qualify for this election, all of the depository institution subsidiaries of the bank holding company must be well capitalized and well managed, as defined under Federal Reserve Board regulations, and all such subsidiaries must have achieved a rating of “satisfactory” or better with respect to meeting community credit needs. Pursuant to the GLBA, financial holding companies are permitted to engage in activities that are “financial in nature” or incidental or complementary thereto, as determined by the Federal Reserve Board. The GLBA identifies several activities as “financial in nature,” including, among others, insurance underwriting and agency activities, investment advisory services, merchant banking and underwriting, and dealing in or making a market in securities. At this time, the Company has not elected to become a financial holding company and has no immediate plans to do so.

Capital Requirements. The Federal Reserve Board has adopted capital adequacy guidelines pursuant to which it assesses the adequacy of capital in examining and supervising a bank holding company and in analyzing applications submitted to it under the BHC Act. These capital adequacy guidelines generally require bank holding companies to maintain total capital equal to at least 8% of total risk-adjusted assets and off-balance sheet items (the “Total Risk-Based Capital Ratio”), with at least one-half of that amount consisting of Tier I or core capital and the remaining amount consisting of Tier II or supplementary capital. Tier I capital for bank holding companies generally consists of the sum of common shareholders’ equity and perpetual preferred stock (subject in the case of the latter to limitations on the kind and amount of such stocks which may be included as Tier I capital), less goodwill and other non-qualifying intangible assets. Tier II capital generally consists of: hybrid capital instruments; perpetual preferred stock, which is not eligible to be included as Tier I capital; term subordinated debt and intermediate-term preferred stock; and, subject to limitations, general allowances for loan losses. Assets are adjusted under the risk-based guidelines to take into account different risk characteristics.

In addition to the risk-based capital requirements, the Federal Reserve Board requires bank holding companies to maintain a minimum leverage capital ratio of Tier I capital (defined by reference to the risk-based capital guidelines) to total average assets (the “Leverage Ratio”) of 3.0%. Total average assets for this purpose do not include goodwill and any other intangible assets and investments that the Federal Reserve Board determines should be deducted from Tier I capital. The Federal Reserve Board has announced that the 3.0% Leverage Ratio requirement is the minimum for the top-rated bank holding companies without any supervisory, financial or operational weaknesses, deficiencies, or those that are not experiencing or anticipating significant growth. For all other bank holding companies, the minimum leverage ratio is 4%, and bank holding companies with supervisory, financial, managerial or operational weaknesses or organizations expecting significant growth are expected to maintain capital ratios well above minimum levels.

The Company is currently in compliance with the Total Risk-Based Capital Ratio, Tier I Capital and the Leverage Ratio requirements. As of December 31, 2010, the Company had a Tier I Risk-Based Capital Ratio and a Total Risk-Based Capital Ratio equal to 10.65% and 11.91%, respectively, and a Leverage Ratio equal to 9.00%. For further discussion on capital requirements, please review the subsection titled “Capital Requirements” under the section titled “Significant Laws and Regulations to which the Bank is Subject.”

Limitations on Acquisitions of Common Stock. The federal Change in Bank Control Act prohibits a person or group of persons from acquiring “control” of a depository institution or a depository institution holding company unless the appropriate federal banking agency has been given at least 60 days to review the proposal and public notice has been provided. “Control” is generally defined under this act as ownership of 25% or more of any class of voting stock. In addition, under a rebuttable presumption established by the Federal Reserve Board, the acquisition of 10% or more of a class of voting stock of a depository institution or a depository institution holding company with a class of securities registered under Section 12 of the Exchange Act would, under the circumstances set forth in the presumption, constitute the acquisition of control. Furthermore, any company, as that term is broadly defined in the BHC Act, would be required to obtain the approval of the Federal Reserve Board under BHC Act before acquiring 25% (5% in the case of an acquirer that is a bank holding company) or more of any class of voting securities of a depository institution or a depository institution holding company, or such lesser percentage as the Federal Reserve Board deems to constitute a “controlling influence.”

Bank Holding Company Dividends. The Federal Reserve Board has authority to prohibit bank holding companies from paying cash dividends if such payment is deemed to be an unsafe or unsound practice. The Federal Reserve Board has indicated generally that it may be an unsafe or unsound practice for bank holding companies to pay dividends unless the bank holding company’s net income over the preceding year is sufficient to fund the dividends and the expected rate of earnings retention is consistent with the organization’s capital needs, asset quality, and overall financial condition. The Company’s ability to pay dividends is also subject to laws and regulations of the Connecticut Department of Banking.

Bank Holding Company Support of Subsidiary Banks. Under Federal Reserve Board policy, a bank holding company is expected to act as a source of financial and managerial strength to each of its subsidiary banks and to commit resources to their support. This support may be required at times when the bank holding company may not have the resources to provide it. Similarly, under the cross-guarantee provisions of the Federal Deposit Insurance Act (“FDIA”), the FDIC can hold any FDIC-insured depository institution liable for any loss suffered or anticipated by the FDIC in connection with (1) the “default” of a commonly controlled FDIC-insured depository institution; or (2) any assistance provided by the FDIC to a commonly controlled FDIC-insured depository institution “in danger of default.”

Dodd-Frank Wall Street Reform And Consumer Protection Act Of 2010. On July 21, 2010, President Obama signed into law the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”). The Dodd-Frank Act will have a broad impact on the financial services industry, including significant regulatory and compliance changes including, among other things, (i) enhanced resolution authority of troubled and failing banks and their holding companies; (ii) increased capital and liquidity requirements; (iii) increased regulatory examination fees; (iv) changes to assessments to be paid to the FDIC for federal deposit insurance; and (v) numerous other provisions designed to improve supervision and oversight of, and strengthening safety and soundness for, the financial services sector. Additionally, the Dodd-Frank Act establishes a new framework for systemic risk oversight within the financial system to be distributed among new and existing federal regulatory agencies, including the Financial Stability Oversight Council, the Federal Reserve, the Office of the Comptroller of the Currency, and the FDIC.

Effective one year after the date of enactment, the Dodd-Frank Act provides for the elimination of the federal prohibitions on paying interest on demand deposits, thus allowing businesses to have interest bearing checking accounts. Depending on competitive responses, this significant change to existing law could have an adverse impact on our net interest margin by potentially increasing our interest expense.

The Dodd-Frank Act also changes the base for FDIC deposit insurance assessments. Assessments will now be based on the average consolidated total assets less tangible equity capital of a financial institution, rather than on deposits. The Dodd-Frank Act also permanently increases the maximum amount of deposit insurance for banks, savings institutions and credit unions to \$250,000 per account, retroactive to January 1, 2008, and non-interest bearing transaction accounts have unlimited deposit insurance through December 31, 2013. The legislation also increases the required minimum reserve ratio for the Deposit Insurance Fund, from 1.15% to 1.35% of insured deposits, and directs the FDIC to offset the effects of increased assessments on depository institutions with less than \$10 billion in assets.

The Dodd-Frank Act will require publicly traded companies, like the Company, to give their stockholders a non-binding vote on executive compensation and so-called “golden parachute” payments, and authorizes the Securities and Exchange Commission to promulgate rules that would allow stockholders to nominate their own candidates using a company’s proxy materials. It also provides that the listing standards of the national securities exchanges shall require listed companies to implement and disclose “clawback” policies mandating the recovery of incentive compensation paid to executive officers in connection with accounting restatements. The legislation also directs the Federal Reserve Board to promulgate rules prohibiting excessive compensation paid to bank holding company executives, regardless of whether the company is publicly traded or not.

The Dodd-Frank Act creates a new Consumer Financial Protection Bureau with broad powers to supervise and enforce consumer protection laws. The Consumer Financial Protection Bureau has broad rule-making authority for a wide range of consumer protection laws that apply to all banks and savings institutions, including the authority to prohibit “unfair, deceptive or abusive” acts and practices. The Dodd-Frank Act also weakens the federal preemption rules that have been applicable for national banks and federal savings associations, and gives state attorneys general the ability to enforce federal consumer protection laws. The Dodd-Frank Act requires minimum leverage (Tier 1) and risk based capital requirements for bank and savings and loan holding companies that are no less than those applicable to banks.

It is difficult to predict at this time what specific impact the Dodd-Frank Act and the yet to be written implementing rules and regulations will have on community banks. However, it is expected that at a minimum they will increase our operating and compliance costs and could increase our interest expense.

The Sarbanes-Oxley Act. The Sarbanes-Oxley Act of 2002 (“Sarbanes-Oxley”) implements a broad range of corporate governance and accounting measures for public companies (including publicly-held bank holding companies such as the Company) designed to promote honesty and transparency in corporate America. Sarbanes-Oxley’s principal provisions, many of which have been interpreted through regulations of the Securities and Exchange Commission, provide for and include, among other things: (i) the creation of an independent accounting oversight board; (ii) auditor independence provisions that restrict non-audit services that accountants may provide to their audit clients; (iii) additional corporate governance and responsibility measures, including the requirement that the chief executive officer and chief financial officer of a public company certify financial statements; (iv) internal control reporting requirements by management pursuant to Section 404 of Sarbanes-Oxley; (v) the forfeiture of bonuses or other incentive-based compensation and profits from the sale of an issuer’s securities by directors and senior officers in the twelve month period following initial publication of any financial statements that later require restatement; (vi) an increase in the oversight of, and enhancement of certain requirements relating to, audit committees of public companies and how they interact with the company’s independent auditors; (vii) requirements that audit committee members must be independent and are barred from accepting consulting, advisory or other compensatory fees from the issuer; (viii) requirements that companies disclose whether at least one member of the audit committee is a “financial expert” (as such term is defined by the SEC); (ix) expanded disclosure requirements for corporate insiders, including accelerated reporting of stock transactions by insiders and a prohibition on insider trading during pension blackout periods; (x) a prohibition on personal loans to directors and officers, except certain loans made by insured financial institutions on non-preferential terms and in compliance with other bank regulatory requirements; (xi) disclosure of a code of ethics and filing a Form 8-K for a change or waiver of such code; and (xii) a range of enhanced penalties for fraud and other violations. As a result of a provision of the Dodd-Frank Act, which, among other things, permanently exempted non-accelerated filers, such as the Company, from complying with the requirements of Section 404(b) of Sarbanes-Oxley, which requires an issuer to include an attestation report from an issuer’s independent registered public acco
