# NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

#### 1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles" or "GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. The results of operations for interim periods are not necessarily indicative of actual results achieved for full fiscal years. The consolidated balance sheet as of December 31, 2013 has been derived from the audited financial statements at that date but does not include all the information and footnotes required by GAAP for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Annual Report on Form 10-K for the year ended December 31, 2013 for Credit Acceptance Corporation (the "Company", "Credit Acceptance", "we", "our" or "us").

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

We have evaluated events and transactions occurring subsequent to the consolidated balance sheet date of September 30, 2014 for items that could potentially be recognized or disclosed in these financial statements. For additional information regarding subsequent events, see Note 15 of these consolidated financial statements.

#### 2. DESCRIPTION OF BUSINESS

Since 1972, Credit Acceptance has offered automobile dealers financing programs that enable them to sell vehicles to consumers, regardless of their credit history. Our financing programs are offered through a nationwide network of automobile dealers who benefit from sales of vehicles to consumers who otherwise could not obtain financing; from repeat and referral sales generated by these same customers; and from sales to customers responding to advertisements for our product, but who actually end up qualifying for traditional financing.

We refer to automobile dealers who participate in our programs and who share our commitment to changing consumers' lives as "Dealers". Upon enrollment in our financing programs, the Dealer enters into a Dealer servicing agreement with us that defines the legal relationship between Credit Acceptance and the Dealer. The Dealer servicing agreement assigns the responsibilities for administering, servicing, and collecting the amounts due on retail installment contracts (referred to as "Consumer Loans") from the Dealers to us. We are an indirect lender from a legal perspective, meaning the Consumer Loan is originated by the Dealer and assigned to us.

We have two programs: the Portfolio Program and the Purchase Program. Under the Portfolio Program, we advance money to Dealers (referred to as a "Dealer Loan") in exchange for the right to service the underlying Consumer Loans. Under the Purchase Program, we buy the Consumer Loans from the Dealers (referred to as a "Purchased Loan") and keep all amounts collected from the consumer. Dealer Loans and Purchased Loans are collectively referred to as "Loans". The following table shows the percentage of Consumer Loans assigned to us based on unit volumes under each of the programs for each of the last seven quarters:

Quarter Ended

Edgar Filing: CREDIT ACCEPTANCE CORP - Form 10-Q

	Portfolio	Purchase	
	Program	Program	
March 31, 2013	94.4	% 5.6	%
June 30, 2013	93.9	% 6.1	%
September 30, 2013	92.9	% 7.1	%

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

#### Portfolio Program

As payment for the vehicle, the Dealer generally receives the following:

- a down payment from the consumer;
- a non-recourse cash payment ("advance") from us; and
- after the advance has been recovered by us, the cash from payments made on the Consumer Loan, net of certain collection costs and our servicing fee ("Dealer Holdback").

We record the amount advanced to the Dealer as a Dealer Loan, which is classified within Loans receivable in our consolidated balance sheets. Cash advanced to the Dealer is automatically assigned to the Dealer's open pool of advances. We generally require Dealers to group advances into pools of at least 100 Consumer Loans. At the Dealer's option, a pool containing at least 100 Consumer Loans can be closed and subsequent advances assigned to a new pool. All advances within a Dealer's pool are secured by the future collections on the related Consumer Loans assigned to the pool. For Dealers with more than one pool, the pools are cross-collateralized so the performance of other pools is considered in determining eligibility for Dealer Holdback. We perfect our security interest in the Dealer Loans by taking possession of the Consumer Loans, which list us as lien holder on the vehicle title.

The Dealer servicing agreement provides that collections received by us during a calendar month on Consumer Loans assigned by a Dealer are applied on a pool-by-pool basis as follows:

First, to reimburse us for certain collection costs;

Second, to pay us our servicing fee, which generally equals 20% of collections;

Third, to reduce the aggregate advance balance and to pay any other amounts due from the Dealer to us; and Fourth, to the Dealer as payment of Dealer Holdback.

If the collections on Consumer Loans from a Dealer's pool are not sufficient to repay the advance balance and any other amounts due to us, the Dealer will not receive Dealer Holdback.

Dealers have an opportunity to receive an accelerated Dealer Holdback payment each time 100 Consumer Loans have been assigned to us. The amount paid to the Dealer is calculated using a formula that considers the forecasted collections and the advance balance on the related Consumer Loans.

Since typically the combination of the advance and the consumer's down payment provides the Dealer with a cash profit at the time of sale, the Dealer's risk in the Consumer Loan is limited. We cannot demand repayment of the advance from the Dealer except in the event the Dealer is in default of the Dealer servicing agreement. Advances are made only after the consumer and Dealer have signed a Consumer Loan contract, we have received the original Consumer Loan contract and supporting documentation, and we have approved all of the related stipulations for funding. The Dealer can also opt to repurchase Consumer Loans that have been assigned to us under the Portfolio Program, at their discretion, for a fee.

For accounting purposes, the transactions described under the Portfolio Program are not considered to be loans to consumers. Instead, our accounting reflects that of a lender to the Dealer. The classification as a Dealer Loan for accounting purposes is primarily a result of (1) the Dealer's financial interest in the Consumer Loan and (2) certain elements of our legal relationship with the Dealer.

<u>Table of Contents</u>
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

#### Purchase Program

The Purchase Program differs from our Portfolio Program in that the Dealer receives a one-time payment from us at the time of assignment to purchase the Consumer Loan instead of a cash advance at the time of assignment and future Dealer Holdback payments. For accounting purposes, the transactions described under the Purchase Program are considered to be originated by the Dealer and then purchased by us.

### **Program Enrollment**

Dealers may enroll in our program by (1) paying an up-front, one-time fee of \$9,850, or (2) agreeing to allow us to retain 50% of their first accelerated Dealer Holdback payment. Dealers are granted access to the Portfolio Program upon enrollment. Access to the Purchase Program is limited and is typically only granted to Dealers that meet one of the following:

received their first accelerated Dealer Holdback payment under the Portfolio Program; franchise dealership; or independent dealership that meets certain criteria upon enrollment.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Business Segment Information**

We currently operate in one reportable segment which represents our core business of offering Dealers financing programs and related products and services that enable them to sell vehicles to consumers, regardless of their credit history. The consolidated financial statements reflect the financial results of our one reportable operating segment.

#### Cash and Cash Equivalents

Cash equivalents consist of readily marketable securities with original maturities at the date of acquisition of three months or less. As of September 30, 2014 and December 31, 2013, we had \$3.8 million and \$3.6 million, respectively, in cash and cash equivalents that were not insured by the Federal Deposit Insurance Corporation ("FDIC").

#### Restricted Cash and Cash Equivalents

Restricted cash and cash equivalents consist of cash pledged as collateral for secured financings and cash held in trusts for future vehicle service contract claims. As of September 30, 2014 and December 31, 2013, we had \$203.4 million and \$109.5 million, respectively, in restricted cash and cash equivalents that was not insured by the FDIC.

#### Loans Receivable and Allowance for Credit Losses

Consumer Loan Assignment. For accounting and financial reporting purposes, a Consumer Loan is considered to have been assigned to us after all of the following has occurred:

the consumer and Dealer have signed a Consumer Loan contract;

we have received the original Consumer Loan contract and supporting documentation;

we have approved all of the related stipulations for funding; and

we have provided funding to the Dealer in the form of either an advance under the Portfolio Program or one-time purchase payment under the Purchase Program.

Portfolio Segments and Classes. We are considered to be a lender to our Dealers for Consumer Loans assigned under our Portfolio Program and a purchaser of Consumer Loans assigned under our Purchase Program. As a result, our Loan portfolio consists of two portfolio segments: Dealer Loans and Purchased Loans. Each portfolio segment is comprised of one class of Consumer Loan assignments, which is Consumer Loans with deteriorated credit quality that were originated by Dealers to finance consumer purchases of vehicles and related ancillary products.

<u>Table of Contents</u>
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

Dealer Loans. Amounts advanced to Dealers for Consumer Loans assigned under the Portfolio Program are recorded as Dealer Loans and are aggregated by Dealer for purposes of recognizing revenue and evaluating impairment. We account for Dealer Loans in a manner consistent with loans acquired with deteriorated credit quality. The outstanding balance of each Dealer Loan included in Loans receivable is comprised of the following:

the aggregate amount of all cash advances paid; finance charges;
Dealer Holdback payments;
accelerated Dealer Holdback payments; and recoveries.

Less:

collections (net of certain collection costs); and write-offs.

An allowance for credit losses is maintained at an amount that reduces the net asset value (Dealer Loan balance less the allowance) to the value of forecasted future cash flows discounted at the yield established at the time of assignment. This allowance calculation is completed for each individual Dealer. The discounted value of future cash flows is comprised of estimated future collections on the Consumer Loans, less any estimated Dealer Holdback payments. We write off Dealer Loans once there are no forecasted future cash flows on any of the associated Consumer Loans, which generally occurs 120 months after the last Consumer Loan assignment.

Future collections on Dealer Loans are forecasted based on the historical performance of Consumer Loans with similar characteristics, adjusted for recent trends in payment patterns. Dealer Holdback is forecasted based on the expected future collections and current advance balance of each Dealer Loan. Cash flows from any individual Dealer Loan are often different than estimated cash flows at the time of assignment. If such difference is favorable, the difference is recognized prospectively into income over the remaining life of the Dealer Loan through a yield adjustment. If such difference is unfavorable, a provision for credit losses is recorded immediately as a current period expense and a corresponding allowance for credit losses is established. Because differences between estimated cash flows at the time of assignment and actual cash flows occur often, an allowance is required for a significant portion of our Dealer Loan portfolio. An allowance for credit losses does not necessarily indicate that a Dealer Loan is unprofitable, and seldom are cash flows from a Dealer Loan insufficient to repay the initial amounts advanced to the Dealer.

Purchased Loans. Amounts paid to Dealers for Consumer Loans assigned under the Purchase Program are recorded as Purchased Loans and are aggregated into pools based on the month of purchase for purposes of recognizing revenue and evaluating impairment. We account for Purchased Loans as loans acquired with deteriorated credit quality. The outstanding balance of each Purchased Loan pool included in Loans receivable is comprised of the following:

the aggregate amount of all amounts paid during the month of purchase to purchase Consumer Loans from Dealers; finance charges; and recoveries.

Less:

collections (net of certain collection costs); and write-offs.

<u>Table of Contents</u>
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

An allowance for credit losses is maintained at an amount that reduces the net asset value (Purchased Loan pool balance less the allowance) to the value of forecasted future cash flows discounted at the yield established at the time of assignment. This allowance calculation is completed for each individual monthly pool of Purchased Loans. The discounted value of future cash flows is comprised of estimated future collections on the pool of Purchased Loans. We write off pools of Purchased Loans once there are no forecasted future cash flows on any of the Purchased Loans included in the pool, which generally occurs 120 months after the month of purchase.

Future collections on Purchased Loans are forecasted based on the historical performance of Consumer Loans with similar characteristics, adjusted for recent trends in payment patterns. Cash flows from any individual pool of Purchased Loans are often different than estimated cash flows at the time of assignment. If such difference is favorable, the difference is recognized prospectively into income over the remaining life of the pool of Purchased Loans through a yield adjustment. If such difference is unfavorable, a provision for credit losses is recorded immediately as a current period expense and a corresponding allowance for credit losses is established.

Credit Quality. Substantially all of the Consumer Loans assigned to us are made to individuals with impaired or limited credit histories or higher debt-to-income ratios than are permitted by traditional lenders. Consumer Loans made to these individuals generally entail a higher risk of delinquency, default and repossession and higher losses than loans made to consumers with better credit. Since most of our revenue and cash flows are generated from these Consumer Loans, our ability to accurately forecast Consumer Loan performance is critical to our business and financial results. At the time the Consumer Loan is submitted to us for assignment, we forecast future expected cash flows from the Consumer Loan. Based on these forecasts, an advance or one-time purchase payment is made to the related Dealer at a price designed to achieve an acceptable return on capital.

We monitor and evaluate the credit quality of Consumer Loans on a monthly basis by comparing our current forecasted collection rates to our initial expectations. We use a statistical model that considers a number of credit quality indicators to estimate the expected collection rate for each Consumer Loan at the time of assignment. The credit quality indicators considered in our model include attributes contained in the consumer's credit bureau report, data contained in the consumer's credit application, the structure of the proposed transaction, vehicle information and other factors. We continue to evaluate the expected collection rate of each Consumer Loan subsequent to assignment primarily through the monitoring of consumer payment behavior. Our evaluation becomes more accurate as the Consumer Loans age, as we use actual performance data in our forecast. Since all known, significant credit quality indicators have already been factored into our forecasts and pricing, we are not able to use any specific credit quality indicators to predict or explain variances in actual performance from our initial expectations. Any variances in performance from our initial expectations are the result of Consumer Loans performing differently than historical Consumer Loans with similar characteristics. We periodically adjust our statistical pricing model for new trends that we identify though our evaluation of these forecasted collection rate variances.

When overall forecasted collection rates underperform our initial expectations, the decline in forecasted collections has a more adverse impact on the profitability of the Purchased Loans than on the profitability of the Dealer Loans. For Purchased Loans, the decline in forecasted collections is absorbed entirely by us. For Dealer Loans, the decline in the forecasted collections is substantially offset by a decline in forecasted payments of Dealer Holdback.

Methodology Changes. During the second quarter of 2013, we enhanced our methodology for forecasting future collections on Loans, which is described more fully in Note 5 to the consolidated financial statements. For the three and nine months ended September 30, 2014 and 2013, we did not make any other methodology changes for Loans that had a material impact on our financial results.

#### Reinsurance

VSC Re Company ("VSC Re"), our wholly-owned subsidiary, is engaged in the business of reinsuring coverage under vehicle service contracts sold to consumers by Dealers on vehicles financed by us. VSC Re currently reinsures vehicle service contracts that are underwritten by one of our third party insurers. Vehicle service contract premiums, which represent the selling price of the vehicle service contract to the consumer, less fees and certain administrative costs, are contributed to trust accounts controlled by VSC Re. These premiums are used to fund claims covered under the vehicle service contracts. VSC Re is a bankruptcy remote entity. As such, our exposure to fund claims is limited to the trust assets controlled by VSC Re and our net investment in VSC Re.

# <u>Table of Contents</u> NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED) (UNAUDITED)

Premiums from the reinsurance of vehicle service contracts are recognized over the life of the policy in proportion to expected costs of servicing those contracts. Expected costs are determined based on our historical claims experience. Claims are expensed through a provision for claims in the period the claim was incurred. Capitalized acquisition costs are comprised of premium taxes and are amortized as general and administrative expense over the life of the contracts in proportion to premiums earned. A summary of reinsurance activity is as follows:

	For the Th	For the Nine Months Ended September 30,		
(In millions)	Ended			
	September 30,			
	2014	2013	2014	2013
Net assumed written premiums	\$10.7	\$13.7	\$36.3	\$44.1

	Balance Sheet location	September 30, 2014	December 31, 2013
Trust assets	Restricted cash and cash equivalents	\$1.5	\$1.2
Trust assets	Restricted securities available for sale	51.4	53.6
Unearned premium	Accounts payable and accrued liabilities	39.2	42.4
Claims reserve (1)	Accounts payable and accrued liabilities	1.6	1.7

(1) The claims reserve is estimated based on historical claims experience.

Our determination to consolidate the VSC Re trusts was based on the following:

First, we determined that the trusts qualified as variable interest entities. The trusts have insufficient equity at risk as no parties to the trusts were required to contribute assets that provide them with any ownership interest.

Next, we determined that we have variable interests in the trusts. We have a residual interest in the assets of the trusts, which is variable in nature, given that it increases or decreases based upon the actual loss experience of the related service contracts. In addition, VSC Re is required to absorb any losses in excess of the trusts' assets.

Next, we evaluated the purpose and design of the trusts. The primary purpose of the trusts is to provide third party providers ("TPPs") with funds to pay claims on vehicle service contracts and to accumulate and provide us with proceeds from investment income and residual funds.

Finally, we determined that we are the primary beneficiary of the trusts. We control the amount of premium written and placed in the trusts through Consumer Loan assignments under our Programs, which is the activity that most significantly impacts the economic performance of the trusts. We have the right to receive benefits from the trusts that could potentially be significant. In addition, VSC Re has the obligation to absorb losses of the trusts that could potentially be significant.

#### New Accounting Updates

Revenue from Contracts with Customers. In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09 which supersedes the revenue recognition requirements Topic 605 (Revenue Recognition), and most industry-specific guidance. ASU No. 2014-09 is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. ASU No. 2014-09 also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. ASU No. 2014-09 is effective for fiscal years, and interim periods, beginning after December 15, 2016, with early adoption not permitted. We have not yet determined the effect that ASU No. 2014-09 will have on our consolidated financial statements and related disclosures.

Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists. In July 2013, the FASB issued ASU No. 2013-11 which requires an entity to net its liability for unrecognized tax benefits against a net operating loss carryforward, a similar tax loss or a tax credit carryforward when settlement in this manner is available under the tax law. ASU No. 2013-11 is effective for fiscal years, and interim periods, beginning after December 15, 2013, with early adoption permitted. The adoption of ASU No. 2013-11 on January 1, 2014 did not have a material impact on our consolidated financial statements.

Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. In February 2013, the FASB issued ASU No. 2013-02 which requires an entity to provide information about the amounts reclassified out of accumulated other comprehensive income by component. The new guidance requires an entity to disaggregate the total change of each component of other comprehensive income either on the face of the income statement or as a separate disclosure in the notes to the financial statements. The amendments in ASU No. 2013-02 do not change the current requirements for reporting net income or other comprehensive income in financial statements. ASU No. 2013-02 is effective for fiscal years beginning after December 15, 2012. The adoption of ASU No. 2013-02 on January 1, 2013 did not have a material impact on our consolidated financial statements.

#### 4. RESTRICTED SECURITIES AVAILABLE FOR SALE

Restricted securities available for sale consist of amounts held in trusts related to VSC Re. We determine the appropriate classification of our investments in debt securities at the time of purchase and reevaluate such determinations at each balance sheet date. Debt securities for which we do not have the intent or ability to hold to maturity are classified as available for sale, and stated at fair value with unrealized gains and losses, net of income taxes included in the determination of comprehensive income and reported as a component of shareholders' equity.

Restricted securities available for sale consist of the following:

(In millions)	As of September 30, 2014				
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value	
U.S. Government and agency securities	\$31.6	\$	\$(0.1	) \$31.5

The Dealer Loans amount represents advances paid to Dealers on Consumer Loans assigned under our Portfolio ) Program. The Purchased Loans amount represents one-time payments made to Dealers to purchase Consumer

Contractual net cash flows are comprised of the contractual repayments of the underlying Consumer Loans for Dealer and Purchased Loans, less the related Dealer Holdback payments for Dealer Loans. The difference between the contractual net cash flows and the expected net cash flows is referred to as the nonaccretable difference. This difference is neither accreted into income nor recorded in our balance sheets. We do not believe that the contractual net cash flows of our Loan portfolio are relevant in assessing our financial position. We are contractually owed repayments on many Consumer Loans, primarily those older than 120 months, where we are not forecasting any future net cash flows.

<sup>(1)</sup> Program. The Purchased Loans amount represents one-time payments made to Dealers to purchase Consumer Loans assigned under our Purchase Program.

Under our Portfolio Program, certain events may result in Dealers forfeiting their rights to Dealer Holdback. We transfer the Dealer's outstanding Dealer Loan balance to Purchased Loans in the period this forfeiture occurs.

<sup>(3)</sup> Represents collections received on previously written off Loans.

# <u>Table of Contents</u> NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED) (UNAUDITED)

The excess of expected net cash flows over the carrying value of the Loans is referred to as the accretable yield and is recognized on a level-yield basis as finance charge income over the remaining lives of the Loans. A summary of changes in the accretable yield is as follows:

(In millions)	For the Three N	Months Ended Septe	ember 30, 2014

## Credit Quality

We monitor and evaluate the credit quality of Consumer Loans assigned under our Portfolio and Purchase Programs on a monthly basis by comparing our current forecasted collection rates to our initial expectations. For additional information regarding credit quality, see Note 3 to the consolidated financial statements. The following table compares our forecast of Consumer Loan collection rates as of September 30, 2014, with the forecasts as of June 30, 2014, as of December 31, 2013, and at the time of assignment, segmented by year of assignment:

	Forecasted Collection Percentage as of (1)							Variance in Forecasted Collection Percentage from

Represents the total forecasted collections we expect to collect on the Consumer Loans as a percentage of the

The forecasted collection rate for 2014 Consumer Loans as of September 30, 2014 includes both Consumer Loans

<sup>(2)</sup> that were in our portfolio as of June 30, 2014 and Consumer Loans assigned during the most recent quarter. The following table provides forecasted collection rates for each of these segments:

	Forecasted Colle as of					
2014 Consumer Loan Assignment Period	September 30, 2014		June 30, 2014		Variance	
January 1, 2014 through June 30, 2014	73.3	%	72.8	%	0.5	%
July 1, 2014 through September 30, 2014	71.8	%	_		_	

<sup>(1)</sup> repayments that we were contractually owed on the Consumer Loans at the time of assignment. Contractual repayments include both principal and interest.

# <u>Table of Contents</u> NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED) (UNAUDITED)

Advances paid to Dealers on Consumer Loans assigned under our Portfolio Program and one-time payments made to Dealers to purchase Consumer Loans assigned under our Purchase Program are aggregated into pools for purposes of recognizing revenue and evaluating impairment. As a result of this aggregation, we are not able to segment the carrying value of the majority of our Loan portfolio by year of assignment. We are able to segment our Loan portfolio by the performance of the Loan pools. Performance considers both the amount and timing of expected net cash flows and is measured by comparing the balance of the Loan pool to the discounted value of the expected future net cash flows of each Loan pool using the yield established at the time of assignment. The following table segments our Loan portfolio by the performance of the Loan pools:

<sup>(1)</sup> Represents collections received on previously written off Loans.

During the second quarter of 2013, we enhanced our methodology for forecasting future collections on Loans through the utilization of more recent data, different segmentations and new forecast variables. Implementation of the enhanced forecasting methodology increased the provision for credit losses by \$3.0 million for the second quarter of 2013, of which \$1.2 million related to Dealer Loans and \$1.8 million related to Purchased Loans.

<u>Table of Contents</u>
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

Revolving Secured Line of Credit Facility

We have a \$235.0 million revolving secured line of credit facility with a commercial bank syndicate.

During the second quarter of 2014, we extended the maturity of our revolving secured line of credit facility from June 23, 2016 to June 23, 2017. There were no other material changes to the terms of the facility.

Borrowings under the revolving secured line of credit facility, including any letters of credit issued under the facility, are subject to a borrowing-base limitation. This limitation equals 80% of the net book value of Loans, less a hedging reserve (not exceeding \$1.0 million), and the amount of other debt secured by the collateral which secures the revolving secured line of credit facility. Borrowings under the revolving secured line of credit facility agreement are secured by a lien on most of our assets.

#### Warehouse Facilities

We have three Warehouse facilities with total borrowing capacity of \$475.0 million. Each of the facilities are with different institutional investors, and the facility limit is \$325.0 million for Warehouse Facility II and \$75.0 million for both Warehouse Facility IV and V.

On July 18, 2014, we extended the date on which Warehouse Facility II, our \$325.0 million revolving secured warehouse facility, will cease to revolve from December 27, 2015 to July 18, 2017. There were no other material changes to the terms of the facility.

On September 15, 2014, we extended the date on which one of our \$75.0 million revolving secured warehouse facilities will cease to revolve from September 10, 2015 to September 10, 2017. In connection with the extension, we formed a new wholly owned subsidiary, CAC Warehouse Funding LLC V, which replaced CAC Warehouse Funding III, LLC. The maturity of the facility was also extended from September 10, 2017 to September 10, 2019. There were no other material changes to the terms of the facility.

Under each Warehouse facility, we can contribute Loans to our wholly-owned subsidiaries in return for cash and equity in each subsidiary. In turn, each subsidiary pledges the Loans as collateral to institutional investors to secure financing that will fund the cash portion of the purchase price of the Loans. The financing provided to each subsidiary under the applicable facility is limited to the lesser of 80% of the net book value of the contributed Loans plus the restricted cash and cash equivalents pledged as collateral on such Loans or the facility limit.

The financings create indebtedness for which the subsidiaries are liable and which is secured by all the assets of each subsidiary. Such indebtedness is non-recourse to us, even though we are consolidated for financial reporting purposes with the subsidiaries. Because the subsidiaries are organized as legal entities separate from us, their assets (including the contributed Loans) are not available to our creditors.

The subsidiaries pay us a monthly servicing fee equal to 6% of the collections received with respect to the contributed Loans. The fee is paid out of the collections. Except for the servicing fee and holdback payments due to Dealers, if a facility is amortizing, we do not have any rights in any portion of such collections until all outstanding principal, accrued and unpaid interest, fees and other related costs have been paid in full. If a facility is not amortizing, the applicable subsidiary may be entitled to retain a portion of such collections provided that the borrowing base requirements of the facility are satisfied.

<u>Table of Contents</u>
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

#### Term ABS Financings

Our wholly-owned subsidiaries (the "Funding LLCs"), have completed secured financing transactions with qualified institutional investors. In connection with these transactions, we contributed Loans on an arms-length basis to each Funding LLC for cash and the sole membership interest in that Funding LLC. In turn, each Funding LLC contributed the Loans to a respective trust that issued notes to qualified institutional investors. The Term ABS 2012-1, 2012-2, 2013-1, 2013-2, 2014-1 and 2014-2 transactions each consist of three classes of notes. The Class A and Class B Notes for each Term ABS financing bear interest. The Class C Notes for each Term ABS financing do not bear interest and have been retained by us.

Each financing at the time of issuance has a specified revolving period during which we may be required, and are likely, to contribute additional Loans to each Funding LLC. Each Funding LLC will then contribute the Loans to their respective trust. At the end of the revolving period, the debt outstanding under each financing will begin to amortize.

The financings create indebtedness for which the trusts are liable and which is secured by all the assets of each trust. Such indebtedness is non-recourse to us, even though we are consolidated for financial reporting purposes with the trusts and the Funding LLCs. Because the Funding LLCs are organized as legal entities separate from us, their assets (including the contributed Loans) are not available to our creditors. We receive a monthly servicing fee on each financing equal to 6% of the collections received with respect to the contributed Loans. The fee is paid out of the collections. Except for the servicing fee and Dealer Holdback payments due to Dealers, if a facility is amortizing, we do not have any rights in any portion of such collections until all outstanding principal, accrued and unpaid interest, fees and other related costs have been paid in full. If a facility is not amortizing, the applicable subsidiary may be entitled to retain a portion of such collections provided that the borrowing base requirements of the facility are satisfied. However, in our capacity as servicer of the Loans, we do have a limited right to exercise a "clean-up call" option to purchase Loans from the Funding LLCs and/or the trusts under certain specified circumstances. Alternatively, when a trust's underlying indebtedness is paid in full, either through collections or through a prepayment of the indebtedness, the trust is to pay any remaining collections over to its Funding LLC as the sole beneficiary of the trust. The collections will then be available to be distributed to us as the sole member of the respective Funding LLC.

The table below sets forth certain additional details regarding the outstanding Term ABS Financings: (Dollars in millions)

		Net Book Value of Loans			
Term ABS Financings	Close Date	Contributed at	24-month Revolving Period

Term ABS 2014-2	September 25, 2014	\$437.6	Through September 15, 2016		

<u>Table of Contents</u>
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED)
(UNAUDITED)

#### Senior Notes

On January 22, 2014, we issued \$300.0 million aggregate principal amount of 6.125% senior notes due 2021 (the "2021 senior notes"). The 2021 senior notes were issued pursuant to an indenture, dated as of January 22, 2014 (the "Indenture"), among the Company; the Company's subsidiaries Buyers Vehicle Protection Plan, Inc. and Vehicle Remarketing Services, Inc. (collectively, the "Guarantors"); and U.S. Bank National Association, as trustee.

The 2021 senior notes mature on February 15, 2021 and bear interest at a rate of 6.125% per annum, computed on the basis of a 360-day year composed of twelve 30-day months and payable semi-annually on February 15 and August 15 of each year, beginning on August 15, 2014.

The 2021 senior notes are guaranteed on a senior basis by the Guarantors, which are also guarantors of obligations under our revolving secured line of credit facility. Other existing and future subsidiaries of ours may become guarantors of the 2021 senior notes in the future. The Indenture provides for a guarantor of the 2021 senior notes to be released from its obligations under its guarantee of the 2021 senior notes under specified circumstances.

We used the net proceeds from the 2021 senior notes, together with borrowings under our revolving credit facilities, to redeem in full the \$350.0 million aggregate principal amount of our 9.125% first priority senior secured notes due 2017 (the "2017 senior notes") on February 21, 2014 (the "Redemption Date"), at a redemption price equal to 104.563% of the principal amount thereof, plus accrued and unpaid interest to but excluding the Redemption Date. During the first quarter of 2014, we recognized a pre-tax loss on extinguishment of debt of \$21.8 million related to the redemption of the 2017 senior notes.

#### Mortgage Note

On June 23, 2014, we repaid in full the \$3.6 million mortgage note with borrowings under our revolving credit facilities.

#### **Debt Covenants**

As of September 30, 2014, we were in compliance with all our debt covenants relating to the revolving secured line of credit facility, including those that require the maintenance of certain financial ratios and other financial conditions. These covenants require a minimum ratio of our earnings before interest, taxes and non-cash expenses to fixed charges. These covenants also limit the maximum ratio of our funded debt to tangible net worth. Additionally, we must maintain consolidated net income of not less than \$1 for the two most recently ended fiscal quarters. Some of these debt covenants may indirectly limit the repurchase of common stock or payment of dividends on common stock.

Our Warehouse facilities and Term ABS financings also contain covenants that measure the performance of the contributed assets. As of September 30, 2014, we were in compliance with all such covenants. As of the end of the quarter, we were also in compliance with our covenants under the Indenture.

75.0	Warehouse Facility III (2)	Cap Floating Rate	06/2012	07/2015	56.3	5.00	%

<sup>(1)</sup> Rate excludes the spread over the LIBOR rate or the commercial paper rate, as applicable.

Cap Floating Rate

08/2011

The interest rate caps have not been designated as hedging instruments. As of September 30, 2014 and December 31, 2013, the interest rate caps had a fair value of less than \$0.1 million as the capped rates were significantly above market rates.

#### 8. FAIR VALUE OF FINANCIAL INSTRUMENTS

Warehouse Facility IV

75.0

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate their value.

Cash and Cash Equivalents and Restricted Cash and Cash Equivalents. The carrying amount of cash and cash equivalents and restricted cash and cash equivalents approximate their fair value due to the short maturity of these instruments.

Restricted Securities Available for Sale. Restricted securities consist of amounts held in trusts by TPPs to pay claims on vehicle service contracts. Securities for which we do not have the intent or ability to hold to maturity are classified as available for sale and stated at fair value. The fair value of restricted securities are generally based on quoted market values in active markets. For commercial paper, we use model-based valuation techniques for which all

5.50

%

75.0

09/2015

The interest rate caps associated with this facility were assigned from Warehouse Facility III to Warehouse Facility V in connection with the renewal of the facility during the third quarter of 2014.

significant assumptions are observable in the market.

Net Investment in Loans Receivable. Loans receivable, net represents our net investment in Loans. The fair value is determined by calculating the present value of future Loan payment inflows and Dealer Holdback outflows estimated by us utilizing a discount rate comparable with the rate used to calculate our allowance for credit losses.

Liabilities. The fair value of our senior notes is determined using quoted market prices in an active market. The fair value of our Term ABS financings is also determined using quoted market prices, however, these instruments trade in a market with much lower trading volume. For our revolving secured line of credit, our Warehouse facilities and our mortgage note, the fair values are calculated using the estimated value of each debt instrument based on current rates for debt with similar risk profiles and maturities.

# <u>Table of Contents</u> NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED) (UNAUDITED)

A comparison of the carrying value and estimated fair value of these financial instruments is as follows: (In millions)

	As of September 30, 2014		As of December 31, 20	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value

Senior notes	300.0	307.9	350.2	367.1

Fair value is an exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or liability. We group assets and liabilities at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

Level 1	Valuation is based upon quoted prices for identical instruments traded in active markets.
	Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for
Level 2	identical or similar instruments in markets that are not active, and model-based valuation techniques
	for which all significant assumptions are observable in the market.
	Valuation is generated from model-based techniques that use at least one significant assumption not
Level 3	observable in the market. These unobservable assumptions reflect estimates or assumptions that
	market participants would use in pricing the asset or liability.

The following table provides the level of measurement used to determine the fair value for each of our financial instruments on a recurring basis, as of September 30, 2014 and December 31, 2013: (In millions)

#### 9. RELATED PARTY TRANSACTIONS

In the normal course of our business, affiliated Dealers assign Consumer Loans to us under the Portfolio and Purchase Programs. Dealer Loans and Purchased Loans with affiliated Dealers are on the same terms as those with non-affiliated Dealers. Affiliated Dealers are comprised of Dealers owned or controlled by: (1) our Chairman and significant shareholder; and (2) a member of the Chairman's immediate family.

Affiliated Dealer Loan balances were \$8.0 million and \$7.5 million as of September 30, 2014 and December 31, 2013, respectively. Affiliated Dealer Loan balances were 0.3% of total consolidated Dealer Loan balances as of both September 30, 2014 and December 31, 2013. A summary of related party Loan activity is as follows:

(Dollars in millions)

For the Three Months Ended September 30

(Donars in millions)	ror the Thre	For the Three Months Ended September 50,					
	2014	2014			2013		
	Affiliated	% of		Affiliated	% of		
	Dealer activity	consoli	dated	Dealer activity	consoli	dated	
Dealer Loan revenue	\$0.4	0.3	%	\$0.4	0.3	%

<sup>(1)</sup> Represents advances paid to Dealers on Consumer Loans assigned under our Portfolio Program and one-time payments made to Dealers to purchase Consumer Loans assigned under our Purchase Program.

Our Chairman and significant shareholder has indirect control over entities that, in the past, offered secured lines of credit to automobile dealers, and has the right or obligation to reacquire these entities under certain circumstances until December 31, 2014 or the repayment of the related purchase money note.

# <u>Table of Contents</u> NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONTINUED) (UNAUDITED)

#### 10. INCOME TAXES

A reconciliation of the U.S. federal statutory rate to our effective tax rate is as follows:

	For the '	Three Months End	ed For	the Nine Months E	nded	
	Septem	ber 30,	Sep	September 30,		
	2014	2013	201	4 2013		
U.S. federal statutory rate	35.0	% 35.0	% 35.0	% 35.0	%	
State income taxes	1.3	% 1.4	% 1.9	% 1.6	%	
Changes in reserve for uncertain tax positions as a						
result of settlements and lapsed statutes and related	-0.4	% -0.3	% -0.4	% -0.3	%	
interest						
Other	-0.1	% 0.2	% 0.1	% 0.2	%	
Effective tax rate	35.8	% 36.3	% 36.6	% 36.5	%	

The differences between the U.S. federal statutory rate and our effective tax rate are primarily due to state income taxes and reserves for uncertain tax positions and related interest that are included in the provision for income taxes.

#### 11. NET INCOME PER SHARE

Basic net income per share has been computed by dividing net income by the basic number of weighted average shares outstanding. Diluted net income per share has been computed by dividing net income by the diluted number of weighted average shares outstanding using the treasury stock method. The share effect is as follows:

	For the Thre	e Months	For the Nine Months	
	Ended		Ended	
	September 3	30,	September 30,	
	2014	2013	2014	2013
Weighted average shares outstanding:				
Common shares	21,402,969	22,991,709	21,978,263	23,323,319
Vested restricted stock units	485,622	680,926	772,605	666,526
Basic number of weighted average shares outstanding	21,888,591	23,672,635	22,750,868	23,989,845
Dilutive effect of stock options	_	27,852	4,393	34,940
Dilutive effect of restricted stock and restricted stock units	6,631	7,556	20,936	22,658
Dilutive number of weighted average shares outstanding	21,895,222	23,708,043	22,776,197	24,047,443

For the three and nine months ended September 30, 2014 and 2013, there were no stock options, restricted stock or restricted stock units that would have been anti-dilutive.

#### 12. STOCK REPURCHASES

Our board of directors approved a stock repurchase program which authorizes us to repurchase common shares in the open market or in privately negotiated transactions at price levels we deem attractive. On March 7, 2013, the board of directors authorized the repurchase of up to one million shares of our common stock in addition to the board's prior authorizations. As of September 30, 2014, we had authorization to repurchase 324,456 shares of our common stock. In addition, on September 18, 2014, our board approved a tender offer to purchase up to 995,698 shares of the Company's outstanding common stock.

The following table summarizes our stock repurchases for the three and nine months ended September 30, 2014 and 2013:

(Dollars in millions)	For the Three Months Ended September 30,				
	2014	-	2013		
	Number of		Number of		
Stock Repurchases	Shares	Cost	Shares	Cost	
	Repurchased		Repurchased		
Open Market	_	<b>\$</b> —	282,018	\$31.3	
Total	_	<b>\$</b> —	282,018	\$31.3	
(Dollars in millions)	For the Nine Months Ended September 30,				
	2014	•	2013		
	Number of		Number of		
Stock Repurchases	Shares	Cost	Shares	Cost	
-	Repurchased		Repurchased		
Open Market	_	<b>\$</b> —	1,139,442	\$126.5	
Tender Offer (1)	1,553,170	200.3	_		
Other (2)	137,876	18.4	6,259	0.7	
Total	1,691,046	\$218.7	1,145,701	\$127.2	

<sup>(1)</sup> Tender Offer Cost amount includes offering costs of \$0.3 million for the nine months ended September 30, 2014.

#### STOCK-BASED COMPENSATION PLANS 13.

Stock-based compensation expense consists of the following:

(In millions)	For the Three M	For the Nine Months Ended			
(III IIIIIIIOIIS)	September 30,		September 30,		
	2014	2013	2014	2013	
Restricted stock	\$0.6	\$0.6	\$2.2	\$2.2	
Restricted stock units	1.2	0.7	7.4	3.8	
Total	\$1.8	\$1.3	\$9.6	\$6.0	

A summary of the restricted stock unit activity is presented below:

Number of Weighted Restricted Stock Average

Represents shares of common stock released to us as payment of tax withholdings due to us upon the vesting of restricted stock and restricted stock units.

	Units	Grant-Date Fair Value Per Share
Outstanding as of January 1, 2014	1,099,157	\$48.23
Granted	71,900	130.16
Converted	(300,875	) 26.53
Forfeited	(7,500	) 130.16
Outstanding as of September 30, 2014	862,682	61.91

During the third quarter of 2014, there were no restricted stock units granted, converted or forfeited.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS – (CONCLUDED) (UNAUDITED)

#### 14. LITIGATION AND CONTINGENT LIABILITIES

In the normal course of business and as a result of the customer-oriented nature of the industry in which we operate, industry participants are frequently subject to various customer claims and litigation seeking damages and statutory penalties. The claims allege, among other theories of liability, violations of state, federal and foreign truth-in-lending, credit availability, credit reporting, customer protection, warranty, debt collection, insurance and other customer-oriented laws and regulations, including claims seeking damages for physical and mental damages relating to our repossession and sale of the customer's vehicle and other debt collection activities. As the assignee of Consumer Loans originated by Dealers, we may also be named as a co-defendant in lawsuits filed by customers principally against Dealers. We may also have disputes and litigation with Dealers. The claims may allege, among other theories of liability, that we breached our Dealer servicing agreement. Many of these cases are filed as purported class actions and seek damages in large dollar amounts. The following matters include current actions to which we are a party and updates to matters that were disclosed in our Annual Report on Form 10-K for the year ended December 31, 2013.

On June 6, 2014, we received a civil investigative demand from the Federal Trade Commission relating to our various practices regarding consumers. We are cooperating with the inquiry.

On February 1, 2013, six Dealers, who had previously commenced a putative consolidated arbitration proceeding against the Company before the American Arbitration Association ("AAA") that was deemed not properly filed by the AAA on October 9, 2012, filed individual arbitrations against the Company before the AAA in Southfield, Michigan. These arbitration demands seek unspecified money damages for claims relating to the Dealer servicing agreements of these Dealers. The Company intends to vigorously defend itself against these arbitrations.

An adverse ultimate disposition in any action to which we are a party or otherwise subject could have a material adverse impact on our financial position, liquidity and results of operations.

#### 15. SUBSEQUENT EVENTS

On September 19, 2014 we commenced a tender offer to repurchase 995,698 shares of the Company's outstanding common stock at a price of \$125.54 per share. Upon expiration of the tender offer on October 20, 2014, we repurchased the 995,698 shares of common stock at a cost of approximately \$125.0 million. We funded the purchase of our securities in the tender offer with available cash and by borrowing under our revolving secured line of credit facility and warehouse facilities.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with the consolidated financial statements and related notes included in Item 8 - Financial Statements and Supplementary Data, of our 2013 Annual Report on Form 10-K, as well as Item 1- Consolidated Financial Statements, of this Form 10-Q, which is incorporated herein by reference.

#### Overview

We offer automobile dealers financing programs that enable them to sell vehicles to consumers regardless of their credit history. Our financing programs are offered through a nationwide network of automobile dealers who benefit from sales of vehicles to consumers who otherwise could not obtain financing; from repeat and referral sales generated by these same customers; and from sales to customers responding to advertisements for our product, but who actually end up qualifying for traditional financing.

For the three months ended September 30, 2014, consolidated net income was \$74.0 million, or \$3.38 per diluted share, compared to \$65.1 million, or \$2.75 per diluted share, for the same period in 2013. The increase in consolidated net income for the three months ended September 30, 2014 was primarily due an increase in the average balance of our Loan portfolio. For the nine months ended September 30, 2014, consolidated net income was \$193.2 million, or \$8.48 per diluted share, compared to \$187.2 million, or \$7.78 per diluted share, for the same period in 2013. The increase in consolidated net income for the nine months ended September 30, 2014 was primarily due to an increase in the average balance of our Loan portfolio, partially offset by a \$21.8 million loss on extinguishment of debt related to the redemption of senior notes during the first quarter of 2014.

#### Critical Success Factors

Critical success factors include our ability to accurately forecast Consumer Loan performance, access capital on acceptable terms, and maintain or grow Consumer Loan volume at the level and on the terms that we anticipate, with an objective to maximize economic profit. Economic profit is a financial metric we use to evaluate our financial results and determine incentive compensation. Economic profit measures how efficiently we utilize our total capital, both debt and equity, and is a function of the return on capital in excess of the cost of capital and the amount of capital invested in the business.

#### Consumer Loan Performance

At the time a Consumer Loan is submitted to us for assignment, we forecast future expected cash flows from the Consumer Loan. Based on the amount and timing of these forecasts and expected expense levels, an advance or one-time purchase payment is made to the related Dealer at a price designed to achieve an acceptable return on capital. If Consumer Loan performance equals or exceeds our initial expectation, it is likely our target return on capital will be achieved.

We use a statistical model to estimate the expected collection rate for each Consumer Loan at the time of assignment. We continue to evaluate the expected collection rate of each Consumer Loan subsequent to assignment. Our evaluation becomes more accurate as the Consumer Loans age, as we use actual performance data in our forecast. By comparing our current expected collection rate for each Consumer Loan with the rate we projected at the time of assignment, we are able to assess the accuracy of our initial forecast. The following table compares our forecast of Consumer Loan collection rates as of September 30, 2014, with the forecasts as of June 30, 2014, as of December 31, 2013, and at the time of assignment, segmented by year of assignment:

Forecasted Collection Percentage as of (1)							Variance in Forecasted Collection Percentage from

December   31, 2013   Forecast   2014   70.0

Represents the total forecasted collections we expect to collect on the Consumer Loans as a percentage of the (1) repayments that we were contractually owed on the Consumer Loans at the time of assignment. Contractual repayments include both principal and interest.

The forecasted collection rate for 2014 Consumer Loans as of September 30, 2014 includes both Consumer Loans (2) that were in our portfolio as of June 30, 2014 and Consumer Loans assigned during the most recent quarter. The following table provides forecasted collection rates for each of these segments:

	Forecasted Collection Percentage								
	as of								
2014 Consumer Loan Assignment Period	September 30, 2014	June 30, 2014	Variance						
January 1, 2014 through June 30, 2014	73.3 %	72.8	% 0.5	%					
July 1, 2014 through September 30, 2014	71.8	· —							

Consumer Loans assigned in 2009 through 2013 have yielded forecasted collection results materially better than our initial estimates, while Consumer Loans assigned in 2006 and 2007 have yielded forecasted collection results materially worse than our initial estimates. For all other assignment years presented, actual results have been very close to our initial estimates. For the three months ended September 30, 2014, forecasted collection rates improved for Consumer Loans assigned in 2013 and 2014 and were generally consistent with expectations at the start of the period for all other assignment years presented. For the nine months ended September 30, 2014, forecasted collection rates improved for Consumer Loans assigned in 2008 through 2010, 2013 and 2014 and were generally consistent with expectations at the start of the period for all other assignment years presented.

Forecasting collection rates accurately at Loan inception is difficult. With this in mind, we establish advance rates that are intended to allow us to achieve acceptable levels of profitability, even if collection rates are less than we currently forecast.

The following table presents forecasted Consumer Loan collection rates, advance rates, the spread (the forecasted collection rate less the advance rate), and the percentage of the forecasted collections that had been realized as of September 30, 2014. All amounts, unless otherwise noted, are presented as a percentage of the initial balance of the Consumer Loan (principal + interest). The table includes both Dealer Loans and Purchased Loans.

	As of September 30, 2014								
Consumer Loan Assignment Year	Forecasted Collection		Advance % (1)	Spread %		% of Forecast Realized (2)			
2005	73.7	%	46.9	% 26.8	%	99.8	%		
2006	70.0	%	46.6	% 23.4	%	99.5	%		
2007	68.0	%	46.5	% 21.5	%	99.2	%		
2008	70.3	%	44.6	% 25.7	%	98.7	%		
2009	79.4	%	43.9	% 35.5	%	98.8	%		
2010	77.2	%	44.7	% 32.5	%	97.1	%		
2011	74.0	%	45.5	% 28.5	%	88.6	%		
2012	73.4	%	46.3	% 27.1	%	70.9	%		
2013	73.5	%	47.6	% 25.9	%	43.3	%		
2014	72.9	%	48.1	% 24.8	%	13.0	%		

Represents advances paid to Dealers on Consumer Loans assigned under our Portfolio Program and one-time payments made to Dealers to purchase Consumer Loans assigned under our Purchase Program as a percentage of the initial balance of the Consumer Loans. Payments of Dealer Holdback and accelerated Dealer Holdback are not included.

(2) Presented as a percentage of total forecasted collections.

The risk of a material change in our forecasted collection rate declines as the Consumer Loans age. For 2010 and prior Consumer Loan assignments, the risk of a material forecast variance is modest, as we have currently realized in excess of 90% of the expected collections. Conversely, the forecasted collection rates for more recent Consumer Loan assignments are less certain as a significant portion of our forecast has not been realized.

The spread between the forecasted collection rate and the advance rate declined during the 2005 through 2007 period as we increased advance rates during this period in response to a more difficult competitive environment. During 2008 and 2009, the spread increased as the competitive environment improved and we reduced advance rates. In addition, during 2009, the spread was positively impacted by better than expected Consumer Loan performance. During the 2010 through 2013 period, the spread decreased as we again increased advance rates in response to the competitive environment. The decline in the spread from 2013 to 2014 is primarily the result of the performance of 2013 Consumer Loans, which has exceeded our initial expectations by a greater margin than 2014 Consumer Loans.

The following table presents forecasted Consumer Loan collection rates, advance rates, and the spread (the forecasted collection rate less the advance rate) as of September 30, 2014 for Dealer Loans and Purchased Loans separately. All amounts are presented as a percentage of the initial balance of the Consumer Loan (principal + interest).

	Consumer Loan Assignment Year	Forecasted Collection % (1)	Advance % (1)(2)		Spread %		
Dealer Loans	2007	67.9	%	45.8	%	22.1	%
	2008	70.7	%	43.3	%	27.4	%
	2009	79.3	%	43.4	%	35.9	%
	2010	77.2	%	44.4	%	32.8	%
	2011	74.0	%	45.2	%	28.8	%
	2012	73.3	%	46.1	%	27.2	%
	2013	73.4	%	47.1	%	26.3	%
	2014	72.8	%	47.6	%	25.2	%
Purchased Loans	2007	68.3	%	49.1	%	19.2	%
	2008	69.6	%	46.7	%	22.9	%
	2009	79.4	%	45.3	%	34.1	%
	2010	77.1	%	46.3	%	30.8	%
	2011	74.3	%	47.7	%	26.6	%
	2012	73.8	%	48.2	%	25.6	%
	2013	74.1	%	50.7	%	23.4	%
	2014	73.3	%	52.0	%	21.3	%

The forecasted collection rates and advance rates presented for each Consumer Loan assignment year change over time due to the impact of transfers between Dealer and Purchased Loans. Under our Portfolio Program, certain events may result in Dealers forfeiting their rights to Dealer Holdback. We transfer the Dealer's Consumer Loans from the Dealer Loan portfolio to the Purchased Loan portfolio in the period this forfeiture occurs. Represents advances paid to Dealers on Consumer Loans assigned under our Portfolio Program and one-time payments made to Dealers to purchase Consumer Loans assigned under our Purchase Program as a percentage of the initial balance of the Consumer Loans. Payments of Dealer Holdback and accelerated Dealer Holdback are not included.

Although the advance rate on Purchased Loans is higher as compared to the advance rate on Dealer Loans, Purchased Loans do not require us to pay Dealer Holdback.

#### Access to Capital

Our strategy for accessing capital on acceptable terms needed to maintain and grow the business is to: (1) maintain consistent financial performance; (2) maintain modest financial leverage; and (3) maintain multiple funding sources. Our funded debt to equity ratio was 2.2:1 as of September 30, 2014. We currently utilize the following primary forms of debt financing: (1) a revolving secured line of credit; (2) Warehouse facilities; (3) Term ABS financings; and (4) senior notes.

#### Consumer Loan Volume

The following table summarizes changes in Consumer Loan assignment volume in each of the last seven quarters as compared to the same period in the previous year:

	Year over Year	ar Percent Change					
Three Months Ended	Unit Volume	Dollar '(1)	Volume				
March 31, 2013	-2.9	<i>‰</i> −0.4	%				
June 30, 2013	8.4	% 10.5	%				
September 30, 2013	11.0	% 15.9	%				
December 31, 2013	12.6	% 11.3	%				
March 31, 2014	14.3	% 16.2	%				
June 30, 2014	4.5	% 5.7	%				
September 30, 2014	4.7	% 6.1	%				

Represents advances paid to Dealers on Consumer Loans assigned under our Portfolio Program and one-time (1) payments made to Dealers to purchase Consumer Loans assigned under our Purchase Program. Payments of Dealer Holdback and accelerated Dealer Holdback are not included.

Consumer Loan assignment volumes depend on a number of factors including (1) the overall demand for our product, (2) the amount of capital available to fund new Loans, and (3) our assessment of the volume that our infrastructure can support. Our pricing strategy is intended to maximize the amount of economic profit we generate, within the confines of capital and infrastructure constraints.

Unit and dollar volumes grew 4.7% and 6.1%, respectively, during the third quarter of 2014 as the number of active Dealers grew 9.8% while average volume per active Dealer declined 4.6%. We believe the decline in volume per Dealer is the result of increased competition.

The following table summarizes the changes in Consumer Loan unit volume and active Dealers:

	For the Three Months Ended September 30,				For the Nine Months Ended September					
					30,					
	2014	2013	% Change		2014 2013		% Chan	ige		
Consumer Loan unit volume	52,086	49,762	4.7	%	168,282	155,573	8.2	%		
Active Dealers (1)	5,023	4,573	9.8	%	6,556	5,836	12.3	%		
Average volume per active Dealer	10.4	10.9	-4.6	%	25.7	26.7	-3.7	%		

(1) Active Dealers are Dealers who have received funding for at least one Loan during the period.

The following table provides additional information on the changes in Consumer Loan unit volume and active Dealers:

	For the Three Months Ended September 30,					For the Nine Months Ended September 30						
	2014		2013		% Chang	ge	2014		2013		% Chan	ge
Consumer Loan unit volume												
from Dealers active both	39,662		41,800		-5.1	%	141,400		142,335		-0.7	%
periods												
Dealers active both periods	3,098		3,098		-		4,262		4,262		-	
Average volume per Dealers active both periods	12.8		13.5		-5.1	%	33.2		33.4		-0.7	%
Consumer Loan unit volume from new Dealers	2,594		2,672		-2.9	%	17,180		20,117		-14.6	%
New active Dealers (1)	628		571		10.0	%	1,774		1,864		-4.8	%
Average volume per new activ Dealers	e 4.1		4.7		-12.8	%	9.7		10.8		-10.2	%
Attrition (2)	-16.0	%	-13.4	%			-8.5	%	-8.4	%		

New active Dealers are Dealers who enrolled in our program and have received funding for their first Loan from us during the period.

Consumer Loans are assigned to us as either Dealer Loans through our Portfolio Program or Purchased Loans through our Purchase Program. The following table summarizes the portion of our Consumer Loan volume that was assigned to us as Dealer Loans:

Attrition is measured according to the following formula: decrease in Consumer Loan unit volume from Dealers who have received funding for at least one Loan during the comparable period of the prior year but did not receive funding for any Loans during the current period divided by prior year comparable period Consumer Loan unit volume.
