NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(in thousands, except per share data)

(unaudited)

Organization, Consolidation, and Basis of Presentation

USANA Health Sciences, Inc. develops and manufactures high-quality nutritional and personal care products that are sold internationally through a network marketing system, which is a form of direct selling. The Consolidated Financial Statements include the accounts and operations of USANA Health Sciences, Inc. and its wholly-owned subsidiaries (collectively, the Company or USANA) in two geographic regions: North America and Asia Pacific, which is further divided into three sub-regions; Southeast Asia/Pacific, Greater China, and North Asia. North America includes the United States, Canada, Mexico, and direct sales from the United States to the United Kingdom and the Netherlands. Southeast Asia/Pacific includes Australia, New Zealand, Singapore, Malaysia, and the Philippines; Greater China includes Hong Kong, Taiwan and China; and North Asia includes Japan and South Korea. All significant inter-company accounts and transactions have been eliminated in this consolidation.

The condensed balance sheet as of January 1, 2011, derived from audited financial statements, and the unaudited interim consolidated financial information of the Company have been prepared in accordance with Article 10 of Regulation S-X promulgated by the Securities and Exchange Commission. Certain information and footnote disclosures that are normally included in financial statements that have been prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted pursuant to such rules and regulations. In the opinion of management, the accompanying interim consolidated financial information contains all adjustments, consisting of normal recurring adjustments that are necessary to present fairly the Company's financial position as of July 2, 2011 and results of operations for the quarters and six months ended July 3, 2010 and July 2, 2011. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto that are included in the Company's Annual Report on Form 10-K for the year ended January 1, 2011. The results of operations for the quarter and six months ended July 2, 2011, may not be indicative of the results that may be expected for the fiscal year 2011 ending December 31, 2011.

Recent Accounting Pronouncements

In May 2011, the FASB issued Accounting Standards Update No. 2011-04, Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs (ASU 2011-04). ASU 2011-04 updates existing guidance in Topic 820 to establish common requirements for measuring fair value and for disclosing information about fair value measurements in accordance with U.S. Generally Accepted Accounting Principles (U.S. GAAP) and International Financial Reporting Standards (IFRS). ASU 2011-04 is effective prospectively for fiscal years, and interim periods, beginning after December 15, 2011. Early adoption is not permitted. The Company does not expect adoption of this standard to have a material impact on its consolidated financial statements.

In June 2011, the FASB issued Accounting Standards Update No. 2011-05, Comprehensive Income (Topic 220): Presentation of Comprehensive Income (ASU 2011-05). The objective of ASU 2011-05 is to improve the comparability, consistency, and transparency of financial reporting

and to increase the prominence of items reported in other comprehensive income. To increase the prominence of items reported in other comprehensive income and to facilitate the convergence of U.S. GAAP and IFRS, ASU 2011-05 eliminates the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. Under the amendments in this update, an entity has the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Regardless of which option is chosen, items that are reclassified from other comprehensive income to net income must be presented on the face of the financial statements. These amendments do not change the items that must be reported in other comprehensive income or when an item of other comprehensive income must be reclassified to net income. Also, the amendments do not change the option for an entity to present components of other comprehensive income either net of related tax effects or before related tax effects, with one amount shown for the aggregate income tax expense or benefit related to the total of other comprehensive income items. ASU 2011-05 is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011. Early adoption is permitted. The Company does not expect adoption of this standard to have a material impact on its consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)

(in thousands, except per share data)

(unaudited)

NOTE A FAIR VALUE OF FINANCIAL INSTRUMENTS

The Company reports term deposits in accordance with established authoritative guidance, which requires a three-level valuation hierarchy for disclosure of fair value measurements. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date.

The three levels are defined as follows:

- Level 1 inputs are quoted market prices in active markets for identical assets or liabilities that are accessible at the measurement date.
- Level 2 inputs are from other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable and are used to measure fair value in situations where there is little, if any, market activity for the asset or liability at the measurement date.

The fair values of term deposits placed with banks are determined based on the pervasive interest rates in the market, which are also the interest rates as stated in the contracts with the banks. The Company classifies the valuation techniques that use the pervasive interest rates input as Level 2. The carrying values of these term deposits approximate their fair values due to their short-term maturities. As of July 2, 2011, the fair value of term deposits in the consolidated balance sheet totaled \$1,856, consisting of \$309, classified in cash and cash equivalents, and \$1,547 in prepaid expenses and other current assets.

NOTE B INVENTORIES

Inventories consist of the following:

(unaudited)

NOTE F EQUITY BASED COMPENSATION

Equity-based compensation expense for the quarters ended July 3, 2010, and July 2, 2011, was \$2,184 and \$1,567, respectively. The related tax benefit for these periods was \$787 and \$568, respectively. Expense for the six months ended July 3, 2010, and July 2, 2011, was \$4,140 and \$4,802, respectively. The related tax benefit for these periods was \$1,514 and \$1,751, respectively.

During the quarter ended July 2, 2011, certain executives left the Company, which resulted in the cancellation of these executives' equity awards. The recapture of equity compensation expense related to the cancellation of unvested equity awards reduced equity-based compensation expense for the quarter and six months ended July 2, 2011 by \$1,230. The related tax impact for these cancellations was \$424.

The following table shows the remaining unrecognized compensation expense on a pre-tax basis for all types of equity awards that were outstanding as of July 2, 2011. This table does not include an estimate for future grants that may be issued.

Remainder of 2011	\$	5,480
2012		9,083
2013		5,457
2014		3,419
2015 and beyond		1,611
	\$	25,050

The cost above is expected to be recognized over a weighted-average period of 2.1 years.

During the quarter ended July 2, 2011, the Company's shareholders approved a 5,000 increase in the number of new shares authorized for issuance under the Company's 2006 Equity Incentive Award Plan (the "2006 Plan"). This increase brings the total shares authorized under the 2006 Plan to 10,000. The 2006 Plan is currently the only plan utilized by the Company for the issuance of equity awards. As of July 2, 2011, a total of 4,971 units had been issued under this plan, comprising 4,849 stock-settled stock appreciation rights, 114 deferred stock units, and 8 stock options. Also, as of July 2, 2011, 761 units had been cancelled and added back to the number of units available for issuance under the 2006 Plan.

Table of Contents**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS** (continued)

(in thousands, except per share data)

(unaudited)

NOTE F EQUITY BASED COMPENSATION CONTINUED

A summary of the Company's stock option and stock-settled stock appreciation right activity for the six months ended July 2, 2011 is as follows:

	Shares	Weighted- average grant price	Weighted- average remaining contractual term	Aggregate intrinsic value*
Outstanding at January 1, 2011	4,047	\$ 32.46	3.5	\$ 45,263
Granted	25	39.31		
Exercised	(57)	28.66		
Canceled or expired	(558)	31.74		
Outstanding at July 2, 2011	3,457	\$ 32.69	3.1	\$ 13,672
Exercisable at July 2, 2011	1,209	\$ 33.37	2.7	\$ 4,385

* Aggregate intrinsic value is defined as the difference between the current market value at the reporting date (the closing price of the Company's common stock on the last trading day of the period) and the exercise price of awards that were in-the-money. The closing price of the Company's common stock at January 1, 2011 and July 2, 2011, was \$43.45 and \$33.54, respectively.

The weighted-average fair value of stock-settled stock appreciation rights that were granted during the six-month periods ended July 3, 2010, and July 2, 2011 was \$15.50 and \$17.47, respectively. The total intrinsic value of awards that were exercised during the six-month periods ended July 3, 2010, and July 2, 2011 was \$246 and \$555, respectively.

The following table includes weighted-average assumptions that the Company has used to calculate the fair value of equity awards that were granted during the periods indicated. Deferred stock units are full-value shares at the date of grant and have been excluded from the table below:

	Quarter Ended		Six Months Ended	
	July 3, 2010	July 2, 2011	July 3, 2010	July 2, 2011
Expected volatility	54.8%	*	54.9%	54.8%

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

Risk-free interest rate	2.0%	*	2.0%	1.5%
Expected life	4.2 yrs.	*	4.2 yrs.	4.2 yrs.
Expected dividend yield		*		
Weighted-average grant price	\$35.47	*	\$34.46	\$39.31

* No equity awards were issued during the quarter ended July 2, 2011.

(in thousands, except per share data)

(unaudited)

NOTE G COMMON STOCK AND EARNINGS PER SHARE

Basic earnings per share are based on the weighted-average number of shares outstanding for each period. Shares that have been repurchased and retired during the periods specified below have been included in the calculation of the number of weighted-average shares that are outstanding for the calculation of basic earnings per share. Diluted earnings per common share are based on shares that are outstanding (computed under basic EPS) and on potentially dilutive shares. Shares that are included in the diluted earnings per share calculations under the treasury stock method include equity awards that are in-the-money but have not yet been exercised.

	Quarters Ended	
	July 3, 2010	July 2, 2011
Net earnings available to common shareholders	\$ 10,770	\$ 13,856
<u>Basic EPS</u>		
Shares		
Common shares outstanding entire period	15,309	15,985
Weighted average common shares:		
Issued during period	9	13
Canceled during period		(468)
Weighted average common shares outstanding during period	15,318	15,530
Earnings per common share from net earnings - basic	\$ 0.70	\$ 0.89
<u>Diluted EPS</u>		
Shares		
Weighted average common shares outstanding during period - basic	15,318	15,530
Dilutive effect of in-the-money equity awards	379	222
Weighted average common shares outstanding during period - diluted	15,697	15,752
Earnings per common share from net earnings - diluted	\$ 0.69	\$ 0.88

Equity awards for 1,256 and 1,620 shares of stock were not included in the computation of diluted EPS for the quarters ended July 3, 2010, and July 2, 2011, respectively, due to the fact that their exercise prices were greater than the average market price of the shares.

NOTE I SEGMENT INFORMATION

USANA operates in a single operating segment as a direct selling company that develops, manufactures, and distributes high-quality nutritional and personal care products that are sold through a global network marketing system of independent distributors (Associates). As such, management has determined that the Company operates in one reportable business segment. Performance for a region or market is primarily evaluated based on sales. The Company does not use profitability reports on a regional or market basis for making business decisions. No single Associate accounted for 10% or more of net sales for the periods presented. The table below summarizes the approximate percentage of total product revenue that has been contributed by the Company's nutritional and personal care products for the periods indicated.

Product Line	Quarters Ended		Six Months Ended	
	July 3, 2010	July 2, 2011	July 3, 2010	July 2, 2011
USANA® Nutritionals	76%	78%	76%	78%
USANA Foods	13%	12%	13%	12%
Sensé beautiful science®	8%	7%	8%	7%

Selected financial information for the Company is presented for two geographic regions: North America and Asia Pacific, with three sub-regions under Asia Pacific. Individual markets are categorized into these regions as follows:

- North America
- United States (including direct sales from the United States to the United Kingdom and the Netherlands)
- Canada
- Mexico

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

- Asia Pacific
- Southeast Asia/Pacific Australia, New Zealand, Singapore, Malaysia, and the Philippines
- Greater China Hong Kong, Taiwan, and China*
- North Asia Japan and South Korea

* Our business in China is that of BabyCare, our wholly-owned subsidiary.

NOTE J LONG-TERM DEBT AND LINE OF CREDIT

During the quarter ended July 2, 2011, the Company entered into an Amended and Restated Credit Agreement with Bank of America. This agreement, among other things, extends the term of the Company's line of credit through May 2016 and increases the amount that may be borrowed under the credit facility from \$40,000 to \$60,000. The agreement for this line of credit contains restrictive covenants based on adjusted EBITDA and a debt coverage ratio. The interest rate on funds drawn from this line is computed at the bank's Prime Rate or LIBOR, adjusted by features specified in the Credit Agreement. The Company did not draw on this line of credit during the quarter, and, as of July 2, 2011 there was no outstanding balance on this line of credit.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of USANA's financial condition and results of operations is presented in six sections:

- Overview
- Customers
- Current Focus
- Results of Operations
- Liquidity and Capital Resources
- Forward-Looking Statements and Certain Risks

This discussion and analysis should be read in conjunction with the Unaudited Consolidated Financial Statements and Notes thereto that are contained in this quarterly report, as well as Management's Discussion and Analysis of Financial Condition and Results of Operations that are included in our Annual Report on Form 10-K for the year ended January 1, 2011, and our other filings, including Current Reports on Form 8-K, that have been filed with the Securities and Exchange Commission (SEC) through the date of this report.

Overview

We develop and manufacture high-quality, science-based nutritional and personal care products that are distributed internationally through a network marketing system, which is a form of direct selling. Our customer base comprises two types of customers: Associates and Preferred Customers. Associates are independent distributors of our products who also purchase our products for their personal use. Preferred Customers purchase our products strictly for their personal use and are not permitted to resell or to distribute the products. As of July 2, 2011, we had approximately 222,000 active Associates and approximately 68,000 active Preferred Customers worldwide. For purposes of this report, we only count as active customers those Associates and Preferred Customers who have purchased product from USANA at any time during the most recent three-month period, either for personal use or for resale.

We have ongoing operations in the following markets, which are grouped and presented as follows:

- North America

- United States
- Canada
- Mexico
- Asia Pacific
- Southeast Asia/Pacific Australia, New Zealand, Singapore, Malaysia, and the Philippines
- Greater China Hong Kong, Taiwan, and China*
- North Asia Japan and South Korea

* Our business in China is that of BabyCare, our wholly-owned subsidiary.

Table of Contents

Our primary product lines consist of USANA® Nutritionals, USANA Foods, and Sensé beautiful science® (Sensé), which is our line of personal care products. The USANA Nutritionals product line is further categorized into two separate classifications: Essentials and Optimizers. The following tables summarize the approximate percentage of total product revenue that has been contributed by our major product lines and our top-selling products for the current and prior-year periods indicated:

Product Line	Six Months Ended	
	July 3, 2010	July 2, 2011
USANA® Nutritionals		
Essentials	30%	29%
Optimizers	46%	49%
USANA Foods	13%	12%

	July 3, 2010	July 2, 2011
USANA® Essentials	18%	18%
Proflavanol®	11%	12%
HealthPak 100	10%	9%

We believe that our ability to attract and retain Associates and Preferred Customers to sell and consume our products is positively influenced by a number of factors. Some of these factors include: the general public's heightened awareness and understanding of the connection between diet and long-term health, the aging of the worldwide population as older people generally tend to consume more nutritional supplements, and the growing desire for a secondary source of income and small business ownership.

We believe that our high-quality products and our financially rewarding Associate Compensation Plan are the key components to attracting and retaining Associates. We strive to ensure that our products are up-to-date with the latest science in nutrition research and to keep our product lines relatively compact, which we believe simplifies the selling and buying process for our Associates and Preferred Customers. We also periodically make changes to our Compensation Plan in an effort to ensure that our plan is among the most rewarding in the industry and to encourage behavior that we believe leads to a more successful business for our Associates. There is a risk, however, that such changes may cause an unanticipated shift in Associate behavior, thus harming our business.

To further support our Associates in building their businesses, we sponsor meetings and events throughout the year, which offer information about our products and our network marketing system. These meetings are designed to assist Associates in their business development and to provide a forum for interaction with some of our Associate leaders and members of our management team. We also provide low cost sales tools, including online sales, business management, and training tools, which we believe are an integral part of building and maintaining a successful home-based business for our Associates. Although we provide training and sales tools, we ultimately rely on our Associates to (i) sell our products, (ii) attract new customers to purchase our products; and (iii) educate and train new Associates.

Because we have operations in multiple markets, with sales and expenses being generated and incurred in multiple currencies, our reported U.S. dollar sales and earnings can be significantly affected by fluctuations in currency exchange rates. In general, our reported sales and earnings are affected positively by a weakening of the U.S. dollar and negatively by a strengthening of the U.S. dollar. In our net sales discussions that

follow, we approximate the impact of currency fluctuations on net sales by translating current year sales at the average exchange rates in effect during the comparable periods of the prior year.

Table of Contents**Customers**

Because we utilize a direct selling model for the distribution of our products, the success and growth of our business is primarily based on our ability to attract new Associates and retain existing Associates to sell and consume our products. Notably, sales to Associates account for the majority of our product sales, representing 90% of product sales during the six months ended July 2, 2011. Additionally, it is important to attract and retain Preferred Customers as consumers of our products. Increases or decreases in product sales are typically the result of variations in product sales volumes relating to fluctuations in the number of active Associates and Preferred Customers purchasing our products. The number of active Associates and Preferred Customers is, therefore, used by management as a key non-financial measure.

The tables below summarize the changes in our active customer base by geographic region. These numbers have been rounded to the nearest thousand as of the dates indicated.

Active Associates By Region						
	As of July 3, 2010		As of July 2, 2011		Change from Prior Year	Percent Change

Table of Contents

Current Focus

We are currently focusing our efforts on: (i) the development of China through BabyCare, (ii) growing our North American markets during a difficult economic environment, and (iii) more aggressive international expansion. Additionally, in light of certain management and strategy changes that took place during the second quarter, as well as increased competition, our management team has been devoting the majority of their time in meeting with our Associate sales force. These meetings have helped assure our Associates of our commitment to supporting them and have also provided us with more opportunity to get their input on strategies for the business.

Over the past several years, we have experienced significant growth in our Asia Pacific region, particularly in our Hong Kong market. In light of this growth and our acquisition of BabyCare in China, we believe that we are well-positioned long-term for growth in China. During 2011 our efforts in Asia Pacific are focused on integrating BabyCare into our business and motivating our successful Asian Associate base to grow BabyCare in China. This includes working with the Chinese government to assist BabyCare in obtaining direct selling licenses in additional Chinese provinces and introducing additional USANA products for sale by BabyCare in China as we complete the registration process. During the first quarter of 2011 we began re-designing some of the BabyCare product packaging to include USANA branding and in the second quarter we introduced five of our Sensé products. In the fourth quarter, we anticipate introducing four of our key nutritional products for sale through BabyCare.

Difficult economic conditions continue to present a challenge for our overall business, especially in our North American markets. Additionally, during the third quarter of 2010 we made a modest change to the commission qualification requirements for our Associates. We believe that the difficult economic conditions coupled with this change may have added pressure on our ability to attract more Associates to the business in the near term. We are developing both short and long-term plans to grow sales in North America. In the short-term, we plan to offer promotions and incentives for our customers to generate excitement and regain momentum. We have been working closely with our Associate leaders to develop these initiatives. We will also continue our efforts to increase our global brand recognition. In the long-term, we are evaluating strategies around product innovation and customization as well as longer-term incentives that will reward our top performing Associates.

Finally, during the second quarter we announced our plans to expand into Thailand by the end of 2011. Thailand is one of the top Direct Selling markets in the world and we are encouraged about the growth opportunity that this market provides. We expect to be more aggressive in our international expansion in the near-term.

Results of Operations

Summary of Financial Results

Net sales for the second quarter of 2011 increased 18.2%, or \$22.9 million, to \$148.9 million when compared with the second quarter in 2010. The increase in net sales is largely due to higher product sales in several markets in our Asia Pacific region including \$5.6 million from the addition of BabyCare. Net sales in North America, however, decreased slightly in the second quarter of 2011 compared with the second quarter of 2010. The overall change in net sales during the second quarter also includes a benefit of approximately \$5.8 million from favorable changes in currency exchange rates.

Net earnings for the second quarter of 2011 increased 28.7%, or \$3.1 million, to \$13.9 million when compared with the second quarter in 2010. This increase was primarily the result of improved gross profit margin and lower relative selling, general and administrative expense on increased net sales. These improvements were partially offset by a relative increase in Associate incentives.

Table of Contents**Quarters Ended July 3, 2010 and July 2, 2011***Net Sales*

The following table summarizes the changes in our net sales by geographic region for the quarters ended as of the dates indicated:

	Net Sales by Region (in thousands) Quarter Ended		July 2, 2011		Change from prior year	Percent change	Approximate impact of currency exchange	Change excluding the impact of currency	
	July 3, 2010								
North America:									
United States	\$	37,992	30.1%	\$	37,121	25.0%	\$	N/A	(2.3)%
Canada		18,373	14.6%		17,462	11.7%		1,000	(10.4)%
Mexico		5,748	4.6%		5,684	3.8%		400	(8.1)%
North America Total		62,113	49.3%		60,267	40.5%		1,400	(5.2)%
Asia Pacific:									
Southeast Asia/Pacific		23,968	19.0%		27,225	18.3%		3,100	0.7%
Greater China		34,437	27.3%		53,678	36.0%		600	54.1%
North Asia		5,493	4.4%		7,755	5.2%		700	28.4%
Asia Pacific Total		63,898	50.7%		88,658	59.5%		4,400	31.9%
	\$	126,011	100.0%	\$	148,925	100.0%	\$	5,800	13.6%

North America: The decrease in local currency net sales in this region was the result of lower product sales volume due to a decrease in the number of active Associates and Preferred Customers in this region. We continue to believe that the lingering difficult economic conditions, particularly in the consumer products segment of the economy, is the most significant cause of the decrease in active Associates and Preferred Customers in this region.

The decrease in active Associates was partially offset by an increase in average customer spending on a year-over-year basis. This increase in customer spending was primarily due to changes that we made to our compensation, recognition, and rewards programs in the third quarter of 2010.

Asia Pacific: The increase in net sales in this region was the result of higher product sales volume due primarily to an increase in the number of active Associates. This increase came predominantly from Greater China, where growth was led by Hong Kong. The number of active Associates in Hong Kong increased 21.2% year-over-year, and net sales increased 44.8%, or \$12.9 million. Notably, the second quarter year-over-year comparable in Hong Kong includes \$2.8 million in net sales from our Asia Pacific Convention held during the second quarter in 2010 (the same event in 2011 was held during the first quarter).

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

BabyCare also added \$5.6 million in net sales, 14,000 active Associates, and 5,000 active Preferred Customers to this region during the second quarter of 2011. Excluding BabyCare, local currency net sales in this region increased 23.1%, the number of active Associates increased 8.7%, and the number of Preferred Customers increased 11.1%.

Similar to North America, we have also seen an increase in average customer spending in Asia Pacific. This increase in spending has initially helped offset an anticipated slowing in the growth rate of active Associates in Hong Kong. In the second quarter, we announced to our Associates certain strategic changes in Hong Kong, which were intended to promote growth in BabyCare. Sales increased in the weeks following this announcement as Associates purchased in anticipation of these changes. We

Table of Contents

estimate that this added approximately \$4 million to net sales in Hong Kong during the second quarter. After further considering input from our Associate leaders, however, management in Asia Pacific revised the approach to better drive long-term growth in this region. As a result of this new approach, we now anticipate more gradual and organic sales growth in China.

We also experienced double-digit local currency sales growth in the Philippines and South Korea. This growth is primarily due to higher product sales volume from an increase in the number of active Associates in these markets.

Gross Profit

Gross profit increased to 82.4% of net sales for the second quarter of 2011 from 82.0% for the second quarter of 2010. This increase in gross profit can primarily be attributed to currency benefits received from our international subsidiaries sourcing the majority of their products from our corporate headquarters in the United States. The improvement in gross profit was partially offset by higher net freight costs on shipments to our customers. The increase in net freight costs was largely due to the strike of Canada Post during June that was resolved by the end of the second quarter.

Associate Incentives

Associate incentives increased to 45.5% of net sales during the second quarter of 2011, compared with 45.3% for the second quarter of 2010. This increase on a year-over-year basis was primarily a function of a higher utilization of our Matching Bonus program and the negative effect of currency fluctuations. This increase was partially offset by the addition of BabyCare to our operating results, which has a lower relative payout than the USANA compensation plan, and certain initiatives that management put in place to help control Associate Incentives as a percent of sales.

Selling, General and Administrative Expenses

Selling, general and administrative expenses decreased to 22.7% of net sales for the second quarter of 2011, compared with 23.1% for the second quarter of 2010. This relative decrease can be attributed to costs related to our Asia Pacific Convention which was held during the first quarter of 2011, compared with the second quarter in 2010, and the recapture of equity compensation expense related to unvested equity awards of certain executives who left the Company during the second quarter. These benefits were largely offset by the addition of BabyCare expenses, which currently carry a significantly higher relative selling, general and administrative expense as a percent of net sales.

In absolute terms, our selling, general and administrative expenses increased by \$4.7 million for the second quarter of 2011, compared with the second quarter of 2010. The most significant components of this increase in absolute terms were as follows:

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

- Added costs from BabyCare's operation of approximately \$3.1 million;
- An increase in wage-related expenses of approximately \$1.4 million; and
- An increase related to our corporate branding efforts of approximately \$1.2 million.

Although reflected in some of the above items, changes in currency added approximately \$0.9 million to overall selling, general and administrative expense. These expenses were partially offset by (i) a decrease in Associate event costs of approximately \$1.6 million due to timing of our Asia Pacific convention, which was held during the first quarter in 2011 and during the second quarter in 2010, and (ii) a decrease in equity compensation expense of approximately \$0.6 million.

Other income (expense), net

We experienced a \$0.6 million improvement to other expense in the second quarter of 2011, when compared with the second quarter of 2010, as a result of currency exchange losses recognized in the prior year quarter.

Table of Contents**Six Months Ended July 3, 2010 and July 2, 2011***Net Sales*

The following table summarizes the changes in our net sales by geographic region for the periods ended as of the dates indicated:

	Net Sales by Region (in thousands) Six Months Ended		Change from prior year	Percent change	Approximate impact of currency exchange	Change excluding the impact of currency		
	July 3, 2010	July 2, 2011						
North America:								
United States	\$ 75,598	30.8%	\$ 74,157	25.3%	\$ (1,441)	(1.9)%	\$ N/A	(1.9)%
Canada	35,933	14.7%	34,789	11.9%	(1,144)	(3.2)%	2,000	(8.7)%
Mexico	11,102	4.5%	11,342	3.9%	240	2.2%	700	(4.1)%
North America Total	122,633	50.0%	120,288	41.1%	(2,345)	(1.9)%	2,700	(4.1)%
Asia Pacific:								
Southeast Asia/Pacific	48,501	19.8%	51,919	17.7%	3,418	7.0%	5,300	(3.9)%
Greater China	62,700	25.6%	105,789	36.2%	43,089	68.7%	1,000	67.1%
North Asia	11,264	4.6%	14,495	5.0%	3,231	28.7%	1,000	19.8%
Asia Pacific Total	122,465	50.0%	172,203	58.9%	49,738	40.6%	7,300	34.7%
	\$ 245,098	100.0%	\$ 292,491	100.0%	\$ 47,393	19.3%	\$ 10,000	15.3%

North America: The decrease in local currency net sales in this region was the result of lower product sales volume due to a decrease in the average number of active Associates and Preferred Customers in this region during the first six months of 2011 compared with the same period in 2010. The decrease in active Associates was partially offset by an increase in average customer spending on a year-over-year basis.

Asia Pacific: The increase in net sales in this region was the result of higher product sales volume due primarily to an increase in the average number of active Associates during the first six months of 2011 compared with the same period in 2010. This increase came predominantly from Greater China, where growth was led by Hong Kong with a 61.2% increase in net sales. BabyCare also added \$11.3 million in net sales. Excluding BabyCare, local currency net sales in this region would have increased 25.4% for the first six months of 2011, compared with the first six months of 2010. Similar to North America, we also have seen an increase in average customer spending in this region.

We also experienced double-digit local currency sales growth in the Philippines and South Korea. This growth is also primarily due to higher product sales volume from an increase in the average number of active Associates in these markets during the first six months of 2011.

Gross Profit

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

Gross profit increased to 82.3% of net sales for the first six months of 2011 from 81.3% for the first six months of 2010. This increase in gross profit can primarily be attributed to currency benefits received from our international subsidiaries sourcing the majority of their products from our corporate headquarters in the United States coupled with a weaker U.S. dollar. The improvement in gross profit was partially offset by higher net freight costs on shipments to our customers.

Table of Contents

Associate Incentives

Associate incentives as a percent of net sales were 45.3% during the first six months of 2011, compared with 45.4% in the first six months of 2010. This decrease on a year-over-year basis was primarily a function of certain initiatives that management put in place to help control Associate Incentives as a percent of sales. The addition of BabyCare to our operating results also contributed to the year-over-year decrease as the relative payout under their compensation plan is lower than payout under the USANA compensation plan. These benefits were mostly offset by a higher utilization of our Matching Bonus program and the negative effect of currency fluctuations.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased to 23.8% of net sales for the first six months of 2011, compared with 23.1% for the first six months of 2010. This relative increase can primarily be attributed to the addition of BabyCare expenses, which currently carry a significantly higher relative selling, general and administrative expense as a percent of net sales than USANA.

In absolute terms, our selling, general and administrative expenses increased by \$13.1 million for the first six months of 2011, compared with the first six months of 2010. The most significant components of this increase in absolute terms were as follows:

- Added costs from BabyCare's operation of approximately \$5.9 million;
- An increase in wage-related expenses of approximately \$2.0 million;
- An increase related to our corporate branding efforts of approximately \$2.0 million;
- An increase in credit card and bank fees of approximately \$1.0 million; and
- An increase in equity compensation expense of approximately \$0.6 million.

Additionally, although reflected in some of the above items, changes in currency added approximately \$1.6 million overall

Diluted Earnings Per Share

Diluted earnings per share increased \$0.27, or 20.6%, to \$1.58 for the first six months of 2011, compared with the first six months of 2010. This increase was due to improved gross profit margins on higher net sales and was partially offset by an increase in selling, general and administrative expenses and a higher average number of diluted shares outstanding.

Liquidity and Capital Resources

We have historically met our working capital and capital expenditure requirements by using both net cash flow from operations and by drawing on our line of credit. Our principal source of liquidity is our operating cash flow. There are currently no material restrictions on our ability to transfer and remit available funds among our international markets. Repatriation of funds that are related to earnings considered permanently reinvested in certain of our markets would not result in a tax liability that would have a material impact on our liquidity.

Operating cash flow

We typically generate positive cash flow due to our strong operating margins. During the first six months of 2011, we had a net cash flow from operating activities of \$31.4 million, compared with \$25.3 million in the same period of 2010. The most significant factor of this change was an increase in net sales.

Table of Contents

Line of credit

We have a long-standing relationship with Bank of America. For the last few years, we have maintained a \$40.0 million credit facility pursuant to a credit agreement with Bank of America. During the second quarter of 2011 we entered into an Amended and Restated Credit Agreement with Bank of America, which, among other things, extends the term of our credit facility through May 2016 and increases the amount that we may borrow under the credit facility to \$60.0 million. We did not draw on this line of credit during the quarter, and, as of July 2, 2011 there was no outstanding balance on this line of credit.

The agreement for this new credit facility contains restrictive covenants, which require us to maintain a consolidated rolling four-quarter adjusted earnings before interest, taxes, depreciation and amortization (adjusted EBITDA) equal to or greater than \$60.0 million, and a ratio of consolidated funded debt to adjusted EBITDA of 2.0 to 1.0 at the end of each quarter. The adjusted EBITDA under this agreement is modified for certain non-cash expenses. As of July 2, 2011, we were in compliance with these covenants. Management is not aware of any issues currently impacting Bank of America's ability to honor their commitment to extend credit under this facility.

Working capital

Cash and cash equivalents at July 2, 2011 was \$24.9 million, compared with \$24.2 million at January 1, 2011. Of the \$24.9 million held at July 2, 2011, \$8.0 million was held in the United States, and \$16.9 million was held by foreign subsidiaries. Of the \$24.2 million held at January 1, 2011, \$1.9 million was held in the United States, and \$22.3 was held by foreign subsidiaries. There are no material restrictions on our ability to repatriate cash held by our foreign subsidiaries.

Net working capital increased to \$24.8 million at July 2, 2011, from \$22.6 million at January 1, 2011. This increase in net working capital was due mostly to net cash provided by operating activities, which was offset in large part by share repurchases discussed below.

Share repurchase

We have a share repurchase plan that has been ongoing since the fourth quarter of 2000. Our Board of Directors has periodically approved additional dollar amounts for share repurchases under that plan. Share repurchases are made from time-to-time, in the open market, through block trades or otherwise, and are based on market conditions, the level of our cash balances, general business opportunities, and other factors. During the first six months of 2011, we repurchased and retired 827 thousand shares of common stock for a total of \$25.3 million, at an average market price of \$30.64 per share. There currently is no expiration date on the remaining approved repurchase amount of \$6.4 million and no requirement for future share repurchases.

Summary

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

We believe that current cash balances, future cash provided by operations, and amounts available under our line of credit will be sufficient to cover our operating and capital needs in the ordinary course of business for the foreseeable future. If we experience an adverse operating environment or unusual capital expenditure requirements, additional financing may be required. No assurance can be given, however, that additional financing, if required, would be available or on favorable terms. We might also require or seek additional financing for the purpose of expanding into new markets, growing our existing markets, or for other reasons. Such financing may include the use of additional debt or the sale of additional equity securities. Any financing which involves the sale of equity securities or instruments that are convertible into equity securities could result in immediate and possibly significant dilution to our existing shareholders.

Forward-Looking Statements and Certain Risks

The statements contained in this report that are not purely historical are considered to be forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 and Section 21E of the Securities Exchange Act of 1934. These statements represent our expectations, hopes, beliefs, anticipations, commitments, intentions, and strategies regarding the future. They may be identified by the use of words or phrases such as believes, expects, anticipates, should, plans,

Table of Contents

estimates, and potential, among others. Forward-looking statements include, but are not limited to, statements contained in Management's Discussion and Analysis of Financial Condition and Results of Operations regarding our financial performance, revenue, and expense levels in the future and the sufficiency of our existing assets to fund our future operations and capital spending needs. Readers are cautioned that actual results could differ materially from the anticipated results or other expectations that are expressed in these forward-looking statements for the reasons that are detailed in our most recent Annual Report on Form 10-K. The fact that some of these risk factors may be the same or similar to those in our past SEC reports means only that the risks are present in multiple periods. We believe that many of the risks detailed here and in our other SEC filings are part of doing business in the industry in which we operate and will likely be present in all periods reported. The fact that certain risks are common in the industry does not lessen their significance. The forward-looking statements contained in this report are made as of the date of this report, and we assume no obligation to update them or to update the reasons why our actual results could differ from those that we have projected. Among others, risks and uncertainties that may affect our business, financial condition, performance, development, and results of operations include:

- Our ability to attract and maintain a sufficient number of Associates;
- Our dependence upon a network marketing system to distribute our products and the activities of our independent Associates;
- The integration of BabyCare's operations and expansion of our business in China through BabyCare;
- Unanticipated effects of changes to our Compensation Plan;
- Our planned expansion into international markets, including delays in commencement of sales or product offerings in any new market, delays in compliance with local marketing or other regulatory requirements, or changes in target markets;
- General economic conditions, both domestically and internationally;
- Potential political events, natural disasters, or other events that may negatively affect economic conditions;
- Potential effects of adverse publicity regarding the Company, nutritional supplements, or the network marketing industry;
- Reliance on key management personnel;

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

- Extensive government regulation of the Company's products, manufacturing, and network marketing system;
- Potential inability to sustain or manage growth, including the failure to continue to develop new products;
- An increase in the amount of Associate incentives;
- Our reliance on the use of information technology;
- The effects of competition from new and established network and direct selling organizations in our key markets;
- The adverse effect of the loss of a high-level sponsoring Associate, together with a group of leading Associates, in that person's downline;
- The loss of product market share or Associates to competitors;
- Potential adverse effects of customs, duties, taxation, and transfer pricing regulations, including regulations governing distinctions between and Company responsibilities to employees and independent contractors;
- The fluctuation in the value of foreign currencies against the U.S. dollar;
- Our reliance on outside suppliers for raw materials and certain manufactured items;
- Shortages of raw materials that we use in certain of our products;
- Significant price increases of our key raw materials;
- Product liability claims and other risks that may arise with our manufacturing activity;

- Intellectual property risks;
- Liability claims that may arise with our Athlete Guarantee program;

Table of Contents

- Continued compliance with debt covenants;
- Disruptions to shipping channels that are used to distribute our products to international warehouses;
- The introduction of new laws or changes to existing laws, both domestically and internationally; or
- The outcome of regulatory and litigation matters.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes to information presented from that presented for the year ended January 2, 2011.

Item 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information that is required to be disclosed in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods that are specified in the SEC's rules and forms and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding any required disclosure. In designing and evaluating these disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives.

As of the end of the period covered by this report, our Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act). Based on this evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of July 2, 2011.

Changes in Internal Control Over Financial Reporting

Edgar Filing: USANA HEALTH SCIENCES INC - Form 10-Q

There were no changes in our internal control over financial reporting that occurred during the quarter ended July 2, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

(c) Repurchases

The following table presents information with respect to purchases of USANA common stock made by the Company during the three months ended July 2, 2011:

Issuer Purchases of Equity Securities

(amounts in thousands, except per share data)

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs *
Fiscal April (Apr. 3, 2011 through May 7, 2011)	0	\$ 0.00	0	\$ 23,183
Fiscal May (May 8, 2011 through Jun. 4, 2011)	457	\$ 29.46	457	\$ 9,728
Fiscal June (Jun. 5, 2011 through Jul. 2, 2011)	119	\$ 28.15	119	\$ 6,366
	576	\$ 29.18	576	

* The Company's share repurchase plan has been ongoing since the fourth quarter of 2000, with the Company's Board of Directors periodically approving additional dollar amounts for share repurchases under the plan. There currently is no expiration date on the approved repurchase amount.
