**PELICAN FINANCIAL, INC.**

Notes to the Consolidated Financial Statements (Unaudited)

**NOTE 1 PRINCIPLES OF CONSOLIDATION**

The unaudited consolidated financial statements as of and for the three month period ended March 31, 2002 and 2001, include the accounts of Pelican Financial Inc. ( Pelican Financial ) and its wholly owned subsidiaries Pelican National Bank ( Pelican National ) and Washtenaw Mortgage Company ( Washtenaw ) for all periods. All references herein to Pelican Financial include the consolidated results of its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation. Assets held in an agency or fiduciary capacity are not assets of Pelican Financial and, accordingly, are not included in the accompanying consolidated financial statements.

**NOTE 2 BASIS OF PRESENTATION**

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include information or footnotes necessary for a complete presentation of consolidated financial condition, results of operations, and cash flows in conformity with generally accepted accounting principles. However, all adjustments, consisting of normal recurring accruals, which, in the opinion of management, are necessary for fair presentation of the consolidated financial statements have been included. The results of operations for the period ended March 31, 2002, are not necessarily indicative of the results which may be expected for the entire fiscal year or for any other period. For further information, refer to the consolidated financial statements and footnotes thereto for the year ended December 31, 2001 included in Pelican Financial's Form 10-K.

Certain prior year amounts have been reclassified to conform to the current presentation.

**NOTE 3 LOANS RECEIVABLE**

Loans receivable consist of the following:

	March 31, 2002	December 31, 2001
Commercial, financial and agricultural	\$ 662,259	\$ 703,468

Diluted earnings (loss) per share	\$ 0.74	\$ (0.04)

**NOTE 5 SEGMENT INFORMATION**

Pelican Financial's operations include two primary segments: mortgage banking and retail banking. The mortgage banking segment involves the origination and purchase of single-family residential mortgage loans in approximately 41 states; the sale of such loans in the secondary market, generally on a pooled and securitized basis; and the servicing of mortgage loans for investors. The retail-banking segment involves attracting deposits from the general public and using such funds to originate and purchase existing consumer, commercial, commercial real estate, residential construction, and single-family residential mortgage loans, from its offices in Naples and Fort Myers, Florida.

Of the two segments, Pelican National comprises the retail-banking segment, with net interest income from loans, investments and deposits accounting for its primary revenues. Washtenaw comprises the mortgage-banking segment, with gains on sales of mortgage servicing rights (MSR) and loans, as well as loan servicing income accounting for its primary revenues.

The following segment financial information has been derived from the internal financial statements of Pelican National and Washtenaw, which are used by management to monitor and manage the financial performance of Pelican Financial. The accounting policies of the two segments are the same as those of Pelican Financial.

The evaluation process for segments does not include holding company income and expense. Holding company amounts are the primary difference between segment amounts and consolidated totals, and are reflected in the "Other" column below, along with minor amounts to

eliminate transactions between segments.

**NOTE 6 NEW ACCOUNTING PRONOUNCEMENT**

The Derivative Implementation Group (DIG) of the Financial Accounting Standards Board (FASB) issued guidance on mortgage loan rate lock commitments to borrowers. The guidance categorizes rate lock commitments intended for sale as derivatives and is effective July 1, 2002. Subsequent to adopting this guidance on July 1, the Company will record the fair value of rate lock commitments as derivatives, and, depending on the amount and attributes of derivatives held at the time, the resulting fair value adjustments would be expected to partially or largely, offset the fair value adjustments on forward sales commitments that are currently carried as derivatives.

Effective January 1, 2002, the Company is required to adopt a new accounting standard for goodwill and other intangible assets arising from prior and future business combinations. Since the Company currently has no goodwill or intangible assets, the effect of this new standard is not presently expected to be material to the financial statements.

Effective January 1, 2002, the Company adopted a new accounting standard on impairment and disposal of long-lived assets. The effect of this new standard is not presently expected to be material to the financial statements.

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

A new accounting standard regarding asset retirement obligations will apply for 2003. Management does not believe this standard will have a material effect on the Company's financial statements.

Item 2: Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward Looking Statements

Certain information in this Form 10-Q may constitute forward-looking information that involves risks and uncertainties that could cause actual results to differ materially from those estimated. Persons are cautioned that such forward-looking statements are not guarantees of future performance and are subject to various factors that could cause actual results to differ materially from those estimated. These factors include, but are not limited to, changes in general economic and market conditions, legislative and regulatory changes, monetary and fiscal policies of the federal government, demand for loan and deposit products and the development of an interest rate environment that adversely affects the interest rate spread or other income from Pelican Financial's investments and operations.

**EARNINGS PERFORMANCE**

Pelican Financial reported net income of \$3.3 million for the quarter ended March 31, 2002 compared to a net loss of \$195,000, including a \$420,000 after tax charge as the result of a cumulative effect of a change in accounting principle, for the quarter ended March 31, 2001. Diluted earnings per share was \$0.74 per share compared to a loss of \$0.04, per share for the three months ended March 31, 2002 and 2001 respectively.

The cumulative effect of a change in accounting principle was the result of the adoption of a new accounting standard (SFAS No. 133) that requires all derivatives to be recorded at fair value. Unless designated as hedges, changes in these fair values will be recorded in the income statement. Fair value changes involving hedges will generally be recorded by offsetting gains and losses on the hedge and on the hedged item, even if the fair value of the hedged item is not otherwise recorded. Forward contracts and Treasury options are used to manage interest rate risk on loans held for sale and the pipeline of loans in-process. Under SFAS 133, forward contracts and Treasury options will be carried at fair value, while the change in fair value of loans held for sale will be recorded to offset the value of forward contracts designated as a hedge. The effect of SFAS 133 at January 1, 2001 was a pre-tax expense of \$635,495, consisting of \$689,152 of expense to record the loss on the forward contracts offset by income of \$53,657 on hedged loans held for sale.

For further explanation of the earnings performance, please see the discussion on the retail and mortgage banking segments to follow.

**RESULTS OF OPERATIONS**

**Retail Banking**

The following discussion provides information that relates specifically to Pelican Financial's retail banking line of business.

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

For the three months ended March 31, 2002, Pelican Financial's net income from retail banking activities primarily conducted by Pelican National totaled \$402,000. For the three months ended March 31, 2001 Pelican National's comparable net income was \$218,000. The increase in net income for the period was primarily attributable to an increase in net interest income and the increase in gain on sale of loans.

### Net Interest Income

Net Interest Income was \$1.5 million and \$1.3 million for the three months ended March 31, 2002 and 2001, respectively. Net interest income increased as a result of the decrease in the cost of funds. This was due to the numerous interest rate reductions by the Federal Reserve during 2001 and the increase in custodial accounts held by Pelican National related to Washtenaw's mortgage servicing portfolio.

Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

Average Balance Sheet

The following tables summarizes the average yields earned on interest-earning assets and the average rates paid on interest-bearing liabilities for Pelican Financial. With the exception of loans held for sale and other borrowings, the interest earning-assets and interest-bearing liabilities are attributable to Pelican National.

	Three months ended March 31,					
	2002			2001		
	Average Volume	Interest	Yield/Cost	Average Volume	Interest	Yield/Cost
<b>ASSETS</b>						
Interest-earning assets:						
Federal funds sold	\$ 9,911	\$ 41	1.65%	\$ 6,882	\$ 100	5.81%
Securities	9,526	112	4.70	6,368	98	6.16
Loans held for sale	218,226	3,762	6.90	134,141	2,738	8.16
Loans receivable, net	105,804	2,240	8.47	91,494	2,336	10.21
Total interest-earning assets	343,467	6,155	7.17	238,885	5,272	8.83
Non-earning assets	28,989			21,695		
Total assets	\$ 372,456			\$ 260,580		
<b>LIABILITIES AND STOCKHOLDERS EQUITY</b>						
Interest-bearing liabilities:						
NOW accounts	\$ 871	2	0.92	\$ 1,988	11	2.21
Money market accounts	6,370	40	2.51	3,455	41	4.75
Savings deposits	10,937	88	3.22	14,468	161	4.45
Time deposits	59,757	762	5.10	52,200	859	6.58
Other borrowings	194,157	1,662	3.42	124,688	2,168	6.95
Total interest-bearing liabilities	272,092	2,554	3.75	196,799	3,240	6.59
Noninterest-bearing liabilities	69,535			43,130		
Stockholders equity	30,829			20,651		
Total liabilities and stockholders equity	\$ 372,456			\$ 260,580		
Interest rate spread			3.42%			2.24%
Net interest income and net interest margin		\$ 3,601	4.19%		\$ 2,032	3.40%

Net interest income represents the excess of income on interest-earning assets over interest expense on interest bearing liabilities. The principal interest-earning assets are federal funds sold, investment securities and loans receivable. Interest-bearing liabilities primarily consist of notes payable, repurchase agreements, time deposits, interest-bearing checking accounts (NOW accounts), savings, deposits and money market accounts. Funds attracted by these interest-bearing liabilities are invested in interest-earning assets. Accordingly, net interest income depends upon the volume of average interest-earning assets and average interest bearing liabilities and the interest rates earned or paid on them.

Noninterest Income

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

Noninterest income for the three months ended March 31, 2002 was \$176,000 compared to \$42,000 for the same period in 2001, an increase of \$134,000 or 319%. This increase was primarily due to the sale of approximately \$2.5 million in marine loans and the increase in the number of accounts at Pelican National that are eligible for service charges. The number of accounts has grown due to normal growth and a second full service bank branch in Fort Myers, Florida being opened during 2000.

### Noninterest Expense

Total noninterest expense for the three months ended March 31, 2002 was \$936,000, compared to \$923,000 for the same period in 2001, an increase of \$13,000 or 1%. Pelican National was able to keep its noninterest expenses relatively stable while growing in size by carefully monitoring expenditures.

### **Mortgage Banking**

The following discussion provides information that relates specifically to Pelican Financial's mortgage banking line of business.

For the three months ended March 31, 2002, Pelican Financial's net income from mortgage banking activities primarily conducted by Washtenaw totaled \$3.0 million. For the three months ended March 31, 2001 Washtenaw's net loss was \$320,000 including the cumulative effect of a change in accounting principle. The increase in the operating income was primarily attributable to an increase in mortgage loan production as a result of the decrease in mortgage interest rates.

The volume of loans produced for the three months ended March 31, 2002 totaled \$715 million as compared to \$586 million for the three months ended March 31, 2001, an increase of \$129 million or 22%. The decrease in mortgage interest rates during 2001 increased the amount of loan refinancing that occurred in the first three months of 2002. This was the result of many of the loans in the pipeline closing.

### **Noninterest Income**

Total noninterest income for the three months ended March 31, 2002 was \$10.1 million, compared to \$4.0 million for the three months ended March 31, 2001, an increase of \$6.1 million or 153%. This increase was primarily due to a 184% increase in the gain on sales of mortgage servicing rights and loans of \$5.6 million.

The increase in gain on sale of mortgage servicing rights and loans was primarily due to an increase in the overall new loan origination volume in the first three months of 2002. In addition, the gains on sale of mortgage servicing rights and loans was affected by the improved profit margins on each new loan origination as a result of the current interest rate environment. The increase in new loan originations are the result of the decrease in mortgage interest rates and increased market share by Washtenaw primarily in the western part of the United States.

### **Loan Servicing**

At March 31, 2002, Washtenaw serviced \$2.2 billion of loans compared to \$920.0 million at March 31, 2001, a 139% increase. The increase in the servicing portfolio is the result of Management's decision to increase the size of its servicing portfolio during the fourth quarter of 2001 and the first quarter of 2002. This is due to a sharp reduction in the price potential buyers of servicing are currently paying. During the second quarter of 2002, Management intends to begin selling mortgage loan servicing rights both on a monthly basis as well as in a bulk sale. This is intended to generate cash for Washtenaw's operations and to limit the size, and therefore risk, in the mortgage loan servicing portfolio.

At March 31, 2002 and 2001, with the exception of servicing related to loans held for sale in Washtenaw's loan portfolio and servicing sold but not yet delivered, all loan servicing was serviced for others. Service fee income, net of amortization was \$341,000 and \$212,000 for the three months ended March 31, 2002 and 2001 respectively.

### **Noninterest Expense**

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

Total noninterest expense for the three months ended March 31, 2002 was \$7.5 million, compared to \$4.6 million for the same period in 2001, an increase of \$2.9 million or 63%. This increase was primarily due to the increase in employee compensation and benefits expenses of approximately \$2.1 million, an increase in the amortization of mortgage servicing rights of \$569,000 and an increase in other noninterest expense of \$799,000. The increase in employee compensation and benefits was primarily the result of an increase in performance bonuses to be paid to management that are the result of the increase in net income at Washtenaw. The increase in amortization of mortgage servicing rights is the result of the increase in mortgage loan servicing portfolio. The largest of component of other noninterest is the expense for foreclosure and loan repurchases. As mortgage loan origination volume has increased during the past year, Washtenaw has seen an increase in the amount of repurchase requests and foreclosures.

**BALANCE SHEET ANALYSIS**

The following is a discussion of the consolidated balance sheet of Pelican Financial.

**ASSETS**

At March 31, 2002, total assets of Pelican Financial equaled \$293.4 million as compared to \$374.6 million at December 31, 2001, a decrease of \$81.2 million or 22%. This decrease is primarily due to the decrease in loans held for sale partially offset by increases in cash and cash equivalents, loans receivable and mortgage servicing rights.

**Cash and Cash Equivalents**

Cash and cash equivalents were \$22.6 million at March 31, 2002 compared to \$16.9 million at December 31, 2001. The increase of \$5.7 million or 34% was primarily the result of an increase in federal funds sold of \$5.2 million. Pelican National had excess liquidity that will be used to fund loan originations in the future. The excess liquidity was caused by increased payoffs of outstanding loans and the increase of outstanding deposit balances of Washtenaw's custodial accounts at Pelican National.

**Investment Securities**

Pelican National primarily utilizes investments in securities for liquidity management and as a method of deploying excess funding not utilized for investment in loans. Pelican National has invested primarily in U. S. government and agency securities, federal funds, and U. S. government sponsored agency issued mortgage-backed securities. As required by SFAS No. 115, Pelican National classifies securities as held-to-maturity, available-for-sale, or trading. At March 31, 2002 and at December 31, 2001, all of the investment securities held in Pelican National's investment portfolio were classified as available for sale. During the quarter, Pelican National purchased \$5.0 million in securities.

The following table contains information on the carrying value of Pelican National's investment portfolio at the dates indicated. At March 31, 2002, the market value of Pelican National's investment portfolio totaled \$10.9 million. During the periods indicated and except as otherwise noted, Pelican National had no securities of a single issuer that exceeded 10% of stockholders' equity.

	At March 31, 2002	At December 31, 2001
	(Dollars in thousands)	
U. S. Government agency (1)	\$ 4,823	\$ 3,570
Mortgage-backed securities	4,851	1,515
Federal Reserve Bank and Federal Home		
Loan Bank Stock	1,270	1,070
Total investment securities	\$ 10,944	\$ 6,155

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

### Loans Held for Sale

Loans held for sale were \$118.4 million at March 31, 2002 compared to \$231.5 million at December 31, 2001. This decrease of \$113.1 million or 49% was caused by the decreased refinance activity at Washtenaw in the first quarter of 2002 compared to the fourth quarter of 2001. Washtenaw sold more loans than it originated in the three months ended March 31, 2002.

### Loans Receivable

Total loans receivable were \$106.2 million at March 31, 2002, an increase of \$11.7 million or 12% from \$94.5 at December 31, 2001. This increase resulted primarily from the purchase of approximately \$17.0 million of multi-family loans by Pelican National. This was offset by a higher level of loans that paid in full due to the declining interest rate environment.

Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

The following table contains selected data relating to the composition of Pelican Financial's loan portfolio by type of loan at the dates indicated. This table includes mortgage loans available for sale and mortgage loans held for investment. Pelican Financial had no concentration of loans exceeding 10% of total loans that are not otherwise disclosed below.

	March 31, 2002		December 31, 2001	
	Amount	Percent	Amount	Percent
<b>Real estate loans:</b>

Asset Quality

Pelican Financial is exposed to certain credit risks related to the value of the collateral that secures loans held in its portfolio and the ability of borrowers to repay their loans during the term thereof. Pelican Financial's senior officers closely monitor the loan and real estate owned portfolios for potential problems on a continuing basis and report to the Board of Directors of Pelican Financial at regularly scheduled meetings. These officers regularly review the classification of loans and the allowance for losses. Pelican Financial also has a quality control department, the function of which is to provide the Board of Directors with an independent ongoing review and evaluation of the quality of the process by which lending assets are generated.

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

The following table sets forth certain information on nonperforming loans and other real estate owned, the ratio of such loans and other real estate owned to total loans and total assets as of the dates indicated.

	At March 31,		At December 31,	
	2002	2001	2001	2001

Nonperforming loans to total assets	1.47%	0.86%	1.03	

### Provision and Allowance for Loan Losses

Pelican National establishes an allowance for loan losses based upon a quarterly or more frequent evaluation by management of various factors inherent in the loan portfolio. These factors include the estimated market value of the underlying collateral, the composition of the portfolio, current delinquency trends and prevailing economic conditions, including property values, employment and occupancy rates, interest rates, and other conditions that may affect the borrowers' ability to comply with repayment terms. If actual losses exceed the amount of the allowance for loan losses, earnings could be adversely affected. As Pelican National's provision for loan losses is based on management's assessment of the probable incurred losses inherent in the loan portfolio based on all relevant factors and conditions, the allowance for loan losses represents both general and specific reserves. The provision for loan losses for the three months ended March 31, 2002 was \$150,000. The provision for loan losses for the three months ended March 31, 2001 was \$120,000. The increase is due to the increase in the size of the loan portfolio and the increase in total nonperforming loans.

The allowance for loan losses represented .91% of the loans receivable outstanding as of March 31, 2002 compared with .90% of the loans receivable outstanding as of December 31, 2001. The amount of the provision for loan losses charged to expense in each of these periods represents management's best estimate during those periods of the addition necessary to establish appropriate allowances for estimated, incurred credit losses. Such estimates were based on management's assessment of the current general economic conditions in Pelican National's market areas, the risk levels associated with the particular composition of the loan portfolio during such periods, and Pelican National's past collection experience.

### LIABILITIES

At March 31, 2002, the total liabilities of Pelican Financial were \$262.0 million as compared to \$346.4 million at December 31, 2001, a decrease of \$84.4 million or 24%. This decrease was primarily due to decreases in notes payable and repurchase agreements partially offset by an increase in deposits.

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

### Deposits

Total deposits were \$127.0 million at March 31, 2002 compared to \$103.5 million at December 31, 2001 an increase of \$23.5 million or 23%. The primary cause of the increase was due to increased balances in the custodial accounts at Pelican National for Washtenaw's various investors. These accounts are for the principal, interest, taxes and insurance collected from the loans currently being serviced by Washtenaw. The balance in these accounts typically increases as the servicing portfolio balance increases.

### Due to Bank

Due to bank was \$21.1 million at March 31, 2002 compared to \$32.6 at December 31, 2001. The decrease of \$11.5 million or 35% was due to the decrease of mortgage loan production at Washtenaw compared to the fourth quarter in

2001. Due to Bank represents the drafts provided to fund the loans purchased by Washtenaw that have not yet been presented and cleared by the bank.

#### Notes Payable

Notes payable was \$39.3 million at March 31, 2002 compared to \$72.0 million at December 31, 2001. This decrease of \$32.7 million or 45% was primarily caused by a decrease in the loans held for sale balance. Since the notes payable represent the warehouse line of credit that Washtenaw uses to fund its loan production until such time that the loans are sold to the secondary market, the balance will generally move in direct correlation with the loans held for sale balance.

#### Repurchase Agreements

Repurchase agreements were \$46.3 million at March 31, 2002 compared to \$109.6 million at March 31, 2001. This decrease of \$63.3 million or 58% in the repurchase agreements was primarily the result of a decrease in the balance of loans held for sale. Washtenaw uses repurchase agreements, in addition to its warehouse line of credit, as a means to fund the loans that it purchases. Therefore, much like the notes payable balance, the repurchase agreements balance will move in direct correlation to the loans held for sale balance.

### LIQUIDITY AND CAPITAL RESOURCES

#### Liquidity Management

The objective of liquidity management is to ensure the availability of sufficient resources to meet all financial commitments and to capitalize on opportunities for business expansion. Liquidity management addresses the ability to meet deposit withdrawals either on demand or by contractual maturity, to repay other borrowings as they mature and to make new loans and investments as opportunities arise.

To date Pelican Financial has conducted no business other than managing its investments in Pelican National and Washtenaw. Pelican Financial's source of funds is dividends paid by Washtenaw and Pelican National. Washtenaw's sources of funds include cash from gains on sales of mortgage loans and servicing, net interest income, servicing fees and borrowings. Washtenaw sells its mortgage loans generally on a monthly basis to generate cash for operations. Washtenaw's uses of cash in the short-term include the funding of mortgage loan purchases and originations and purchases of mortgage servicing rights, payment of interest, repayment of amounts borrowed pursuant to warehouse lines of credit, operating and administrative expenses, income taxes and capital expenditures. Long-term uses of cash may also include the funding of securitization activities or portfolios of loan or servicing assets.

Washtenaw funds its business through the use of a warehouse line of credit and the use of agreements to repurchase. The agreements to repurchase typically have terms of less than 90 days and are treated as a source of financing. The warehouse line of credit has a limit of \$90 million, of which \$13.5 million represents a sublimit for servicing under contract for sale, and \$7.2 million represents a working capital sublimit. Borrowing pursuant to the warehouse line of credit totaled \$38.1 million at March 31, 2002 and \$70.7 million at December 31, 2001. The interest rate on the warehouse line of credit is the Federal Funds Rate plus 1.50% resulting in an effective rate of 3.25% at March 31, 2002 and December 31, 2001. The effective interest rate on the agreements to repurchase was 2.65% at March 31, 2002 and December 31, 2001.

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

Washtenaw purchases its loans either by wiring funds to the closing agent or sending a draft. The decision is based on the requirements of the state where the loan is being purchased. When a draft is used, Washtenaw begins earning interest on the day the draft is issued but does not incur any cost of funds until the draft is presented to bank. When the draft clears the bank, Washtenaw will either borrow money on its warehouse line of credit or through its agreements to repurchase depending on the type of loan. Outstanding drafts totaled \$21.1 million at March 31, 2002 and \$32.6 million at December 31, 2001. The decrease is the result of the decrease in mortgage lending activity during the quarter.

Pelican National's sources of funds include net increases in deposits, principal and interest payments on loans, proceeds from sales of loans held for sale, proceeds from maturities and sales and calls of available for sale securities.

The liquidity reserve may consist of cash on hand, cash on demand deposits with other correspondent banks, and other investments and short-term marketable securities as determined by the rules of the Office of the Comptroller of the

## Edgar Filing: PELICAN FINANCIAL INC - Form 10-Q

Currency( OCC ), such as federal funds sold and United States securities and securities guaranteed by the United States. At March 31, 2002, Pelican National had a liquidity ratio of 21.47%. Liquidity, as measured in the form of cash and cash equivalents totaled \$22.6 million at March 31, 2002, an increase of \$5.7 million from December 31, 2001 to March 31, 2002. The increase is primarily the result of a \$5.2 million increase in the outstanding federal funds sold at March 31, 2002.

Pelican Financial's ability to continue to purchase loans and mortgage servicing rights and to originate new loans is dependent in large part upon its ability to sell the mortgage loans at par or for a premium or to sell the mortgage servicing rights in the secondary market in order to generate cash proceeds to repay borrowings pursuant to the warehouse facility, thereby creating borrowing capacity to fund new purchases and originations. The value of and market for Pelican Financial's loans and mortgage servicing rights are dependent upon a number of factors, including the borrower credit risk classification, loan-to-value ratios and interest rates, general economic conditions, warehouse facility interest rates and governmental regulations

Washtenaw generally grants commitments to fund mortgage loans for up to 30 days at a specified term and interest rate. The commitments are commonly known as rate-lock commitments. At March 31, 2002, Washtenaw had outstanding rate-lock commitments to lend \$159.9 million for mortgage loans. Because these commitments may expire without being drawn upon, they do not necessarily represent future cash commitments. Also, as of March 31, 2002, Washtenaw had outstanding commitments to sell \$166.5 million of mortgage loans. These commitments usually are funded within 90 days.

### Capital Resources

The Board of Governors of the Federal Reserve System's (FRB) capital adequacy guidelines mandate that minimum ratios be maintained by bank holding companies such as Pelican Financial. Pelican National is governed by capital adequacy guidelines mandated by the OCC.

Based upon their respective regulatory capital ratios at March 31, 2002 Pelican Financial and Pelican National are both well capitalized, based upon the definitions in the regulations issued by the FRB and the OCC setting forth the general capital requirements mandated by the Federal Deposit Insurance Corporation Improvement Act of 1991.

The table below indicates the regulatory capital ratios of Pelican Financial and Pelican National and the regulatory categories for a well capitalized and adequately capitalized bank under the regulatory framework for prompt corrective action (all three capital ratios) at March 31, 2002 and December 31, 2001, respectively:

	Actual		Actual		Required to be	
	March 31, 2002	Pelican Financial	December 31, 2001	Pelican Financial	Adequately Capitalized	Well Capitalized
Total Equity Capital to risk-weighted assets	13.00%	15.77%	14.29%	12.15%	8.00%	10.00%
	12.11%	15.25%	13.40%	11.77%	4.00%	6.00%
