CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING STATEMENTS

This quarterly report on Form 10-Q contains certain forward-looking statements within the meaning of section 27A of the Securities Act of 1933, as amended, and section 21E of the Securities Exchange Act of 1934, as amended. These statements relate to, among other things:

our future investments in subscription acquisition activities, offers of bundled hardware and service subscriptions, future advertising expenditures, future use of consumer rebates, hardware cost and associated subsidies, and other marketing activities and their impact on our total acquisition costs as well sales and marketing, subscription acquisition costs;

our future earnings including expected future service and technology revenues and future TiVo-Owned and multiple system operators (MSOs)/Broadcasters average revenue per subscription;

our expectations of the growth in the future digital video recorder (DVR) market generally, and the high definition market specifically, including our expectations regarding competition and consumer acceptance of alternatives to the company's products, including cable video on demand, streaming video on demand, and network DVRs;

our expectations regarding installation and operational issues surrounding cable-operator provided Cable Cards and switched digital devices essential for TiVo consumer devices in cable homes;

our expectations that in the future we may also offer services for non-DVR products such as our recently announced development of a broadband connected television incorporating the TiVo user interface and non-DVR software with Best Buy's Insignia brand television sets;

our expectations of the growth of the TiVo service and technology outside the United States;

our financial results, expectations of future revenues and profitability, and expectations for the future use of advertising trade credits;

our expectations with respect to the possible future outcomes and the possible receipt of additional damages in our on-going litigation with EchoStar as well as expectations for increased legal expenses in the future;

our expectations with respect to the timing of future development and deployment with our distribution partners including the ongoing development and further deployment of the TiVo service on Comcast, the continued progress of development and future deployment of the TiVo service on Cox, the ongoing development and future launch of the High Definition (HD) DIRECTV DVR with TiVo service; and the future development and deployment of the TiVo service and technology with Virgin Media Limited in the United Kingdom (U.K.) and the on-going development and integration of TiVo service and technology with conditional access security provider Conax in connection with future international distribution opportunities;

future increases in our general and administrative expenses, including expenditures related to lawsuits involving us;

future increases in our operating expenses, including increases in research and development expenses, sales and marketing and subscription acquisition costs, including our ability to retain and hire key management employees and software engineers;

Edgar Filing: TIVO INC - Form 10-Q

future subscription growth or attrition of both TiVo-Owned and MSOs/Broadcasters (such as Comcast, DIRECTV, Seven/Hybrid TV (Australia), Television New Zealand (TVNZ) (New Zealand), and Cablevision (Mexico), and in the future Virgin Media (U.K.), Cox, and RCN) and deployment of the service by them;

expectation of future technology and service revenues from MSOs/Broadcasters, such as Comcast, Cox, DIRECTV, RCN, Seven/Hybrid TV (Australia), Television New Zealand (TVNZ) (New Zealand), Virgin Media (U.K.), and Cablevision (Mexico) and deployment of the TiVo service by them now or in the future;

our estimates of the useful life of TiVo-enabled DVRs in connection with the recognition of revenue received from product lifetime subscriptions and the expected future increase in the number of fully-amortized TiVo-Owned product lifetime subscriptions;

expectations regarding the seasonality of our business and subscription additions to the TiVo service;

our intentions to continue to grow the number of TiVo-Owned subscriptions through our relationships with major retailers and our expectations for further net declines in our TiVo-Owned as well as MSOs/Broadcasters' subscriptions in the fiscal year ending January 31, 2011;

our expectations related to future increases in advertising and audience research measurement revenues;

our expectations related to changes in the cost of our hardware revenues and the reasons for changes in the volume of DVRs sold to retailers;

our ability to fund operations, capital expenditures, and working capital needs during the next year;

Table of Contents

our ability to raise additional capital through the financial markets in the future;

our ability to perform or comply with laws, regulations, and requirements different than those in the United States;

our estimates and expectations related to long-term investments and their associated carrying value;

our ability to oversee our outsourcing of manufacturing processes and engineering work, and management of our inventory; and

the impact of transition to digital distribution technologies by both broadcasters and cable operators.

Forward-looking statements generally can be identified by the use of forward-looking terminology such as believe, expect, may, will, intend, estimate, continue, ongoing, predict, potential, and anticipate or similar expressions or the negative of those terms or expressions. These statements involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance or achievements to differ materially from those expressed or implied by such forward-looking statements. Such factors include, among others, the information contained under the caption Part I, Item 1A, Risk Factors in our most recent annual report on Form 10-K. The reader is cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date of this quarterly report and we undertake no obligation to publicly update or revise any forward-looking statements in this quarterly report. The reader is strongly urged to read the information set forth under the caption Part I, Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, and Part II, Item 1A, Risk Factors for a more detailed description of these significant risks and uncertainties.

The accompanying notes are an integral part of these condensed consolidated financial statements.

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS****(unaudited)****1. BASIS OF PRESENTATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

TiVo Inc. (together with its subsidiaries the Company or TiVo) was incorporated in August 1997 as a Delaware corporation and is located in Alviso, California. The condensed consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All inter-company accounts and transactions have been eliminated in consolidation. The Company conducts its operations through one reportable segment.

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with: generally accepted accounting principles (GAAP) for interim financial information, the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, the unaudited interim condensed consolidated financial statements do not contain all of the information and footnotes required by generally accepted accounting principles for complete audited annual financial statements. In the opinion of management, the accompanying unaudited condensed consolidated financial statements include all adjustments necessary for the fair presentation of the Company's financial position as of April 30, 2010 and January 31, 2010 and the results of operations for the three month periods ended April 30, 2010 and 2009 and condensed consolidated statements of cash flows for the three month periods ended April 30, 2010 and 2009 consisting of normal recurring adjustments. These unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements, including the notes thereto, included in the Company's annual report on Form 10-K for the fiscal year ended January 31, 2010. Operating results for the three month period ended April 30, 2010 are not necessarily indicative of results that may be expected for this fiscal year ending January 31, 2011.

In connection with the preparation of its Quarterly Report on Form 10-Q for the quarter ended April 30, 2010, the Company determined that it had been overpaying revenue share to its partners in fiscal years 2009 and 2010 as a result of an error identified in reports used to calculate the revenue share amounts. The impact of the adjustment in the previous periods has resulted in an increase in hardware revenue with a corresponding increase in prepaid expenses for estimated amounts that the Company ultimately expects to be able to recover from its partners. As future events and their effects cannot be determined with precision, actual recoveries could differ from this estimate.

The Company has also corrected an immaterial error in its statement of cash flows for the quarter ended April 30, 2009 whereby the change in accounts payable related to acquisition of property and equipment was incorrectly classified in the cash flows from operating activities and investing activities for each of the quarters in the year ended January 31, 2010.

Management concluded that these errors were immaterial to the fiscal years 2009 and 2010 consolidated financial statements, but that its correction in the current year would be significant. Accordingly, pursuant to Staff Accounting Bulletin No. 108 (SAB 108), "Considering the Effects of Prior Year Misstatements when Quantifying Misstatements in Current Year Financial Statements," the consolidated balance sheet as of January 31, 2010 has been revised to reflect the increase of \$1.4 million in prepaid expenses with a corresponding decrease in accumulated deficit.

Correction of statements of operations and statements of cash flows for fiscal years 2009 and 2010 will be made the next time the Company files comparative financial statement information. The impact on individual quarters in years ended January 31, 2010 and 2009 is as follows (in thousands):

	Three Months Ended				Year ended
	Jan 31, 2010	Oct 31, 2009	July 31, 2009	April 30, 2009	Jan 31, 2010
Net income (loss), as previously reported	\$ (10,181)	\$ (6,669)	\$ (2,937)	\$ (4,129)	\$ (23,916)
Adjustment	\$ 199	\$ 222	\$ 229	\$ 230	\$ 880
Net income (loss), as adjusted	\$ (9,982)	\$ (6,447)	\$ (2,708)	\$ (3,899)	\$ (23,036)

Edgar Filing: TIVO INC - Form 10-Q

	Three Months Ended				Year
	Jan 31, 2009	Oct 31, 2008	July 31, 2008	April 30, 2008	ended Jan 31, 2009
Net income (loss), as previously reported	\$ (3,567)	\$ 100,626	\$ 2,917	\$ 3,616	\$ 103,592
Adjustment	\$ 169	\$ 199	\$ 151	\$ 0	\$ 519
Net income (loss), as adjusted	\$ (3,398)	\$ 100,825	\$ 3,068	\$ 3,616	\$ 104,111

Edgar Filing: TIVO INC - Form 10-Q

	Three months ended April 30, 2009	Six months ended July 31, 2009	Nine months ended Oct 31, 2009	Year ended Jan 31, 2010
Net cash provided by (used in) operating activities, as previously reported	\$ 4,240	\$ 8,742	\$ 10,994	\$ 8,408
Adjustment	\$ 1,222	\$ 1,132	\$ 1,282	\$ 1,172
Net cash provided by (used in) operating activities, as adjusted	\$ 5,462	\$ 9,874	\$ 12,276	\$ 9,580

	Three months ended April 30, 2009	Six months ended July 31, 2009	Nine months ended Oct 31, 2009	Year ended Jan 31, 2010
Net cash provided by (used in) investing activities, as previously reported	\$ (22,341)	\$ (53,721)	\$ (125,200)	\$ (139,214)
Adjustment	\$ (1,222)	\$ (1,132)	\$ (1,282)	\$ (1,172)
Net cash provided by (used in) investing activities, as adjusted	\$ (23,563)	\$ (54,853)	\$ (126,482)	\$ (140,386)

There have been no material changes in the Company's significant accounting policies as compared to the significant accounting policies described in the Company's Annual Report on Form 10-K for the year ended January 31, 2010.

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)****Recent Accounting Pronouncements**

There have been no recent accounting pronouncements or changes in accounting pronouncements during the three months ended April 30, 2010, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K, that are of significance, or potential significance to the Company. The Company is still evaluating the impact of the adoption of new accounting standards which provide guidance for arrangements with multiple deliverables and revenue recognition for tangible products containing software and hardware elements on its consolidated financial statements. Both standards will be effective for TiVo in the first quarter of fiscal year 2012.

2. CASH AND INVESTMENTS

Cash, cash equivalents, short-term investments, and long-term investments consisted of the following:

	As of April 30, 2010	As of January 31, 2010
	(in thousands)	
Cash and cash equivalents:		
Cash	\$ 4,621	\$ 4,111
Cash equivalents:		
Commercial paper	21,493	14,994
Money market funds	42,007	51,786

Total marketable securities	191,503	177,803
Other investment securities:		
Other investment securities - cost method	3,400	3,400
Total other investment securities (1)	3,400	3,400

Total cash, cash equivalents, marketable securities and other investment securities	\$ 263,024	\$ 252,094
---	------------	------------

(1) Auction rate securities and other investment securities are included in Long-term investments on the Company's condensed consolidated balance sheets.

Marketable Securities

The Company's investment securities portfolio consists of various debt instruments, including corporate and government bonds, and foreign corporate and government securities, all of which are classified as available-for-sale.

Approximately \$4.0 million of the corporate bonds are guaranteed by the full faith and credit of the United States government under the Federal Deposit Insurance Corporation's Temporary Liquidity Guarantee program (TLGP).

Other Investment Securities

TiVo has an investment in a private company where the Company's ownership is less than 20% and TiVo does not have significant influence. The investment is accounted for under the cost method.

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)***Contractual Maturity Date*

The following table summarized the estimated fair value of the Company's debt investments, designated as available-for-sale classified by the contractual maturity date of the security:

	April 30, 2010 (in thousands)	January 31, 2010 (in thousands)
Due within 1 year	\$ 153,404	\$ 141,857

	\$ 173,691	\$ (51)	\$ 4,112	\$ (888)	\$ 177,803	\$ (939)

As of April 30, 2010, the unrealized losses on the Company's available-for-sale investments were insignificant in relation to its total available-for-sale portfolio. Substantially all of its unrealized losses on our available-for-sale marketable debt instruments can be attributed to fair value fluctuations in an unstable credit environment that resulted in a decrease in the market liquidity for these debt instruments. The Company is not aware of any specific factors indicating that the underlying issuers of these investments would not be able to pay interest as it becomes due or repay the principal at maturity. Therefore, the Company believes that these changes in the estimated fair values of these marketable investments securities are related to temporary market fluctuations. As of April 30, 2010, the estimated fair value of the Company's ARS was \$852,000 lower than their cost. The Company has no intent to sell and it is more-likely-than not that the Company will not be required to sell these ARS prior to recovery. Further, the total unrealized loss is primarily due to a liquidity discount resulting from the failed auctions. Therefore, the Company will continue to treat the decline in fair values as temporary and recorded the unrealized loss to accumulated other comprehensive income on the accompanying condensed consolidated balance sheet as of April 30, 2010.

3. FAIR VALUE

Fair value is defined as the exit price, representing the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. As such, fair value is a market-based measurement that should be determined based on assumptions that market participants would use in pricing an asset or a liability. The Company's financial instruments are measured and recorded at fair value, except for its cost method investment.

The three-tier fair value hierarchy, which prioritizes the inputs used in the valuation methodologies in measuring fair value is:

Level 1 - Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 - Include other inputs that are directly or indirectly observable in the marketplace.

Level 3 - Unobservable inputs which are supported by little or no market activity.

Edgar Filing: TIVO INC - Form 10-Q

The fair value hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The Company's cash equivalents and marketable securities are classified

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)**

within Level 1 or Level 2, with the exception of the investments in auction rate securities. Some of the Company's cash equivalents and marketable securities are classified as Level 2 because these securities are valued using a standard pricing methodology that utilizes observable market data for all inputs. The Company's investments in auction rate securities are classified within Level 3 because they are valued using a discounted cash flow model. Some of the inputs to this model are unobservable in the market and are significant.

	Assets and Liabilities Measured at Fair Value on a Recurring Basis			
	Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
	(in thousands)			
Assets:				
Cash equivalents:				
Commercial paper	\$ 21,493	\$ 0	\$ 21,493	\$ 0
Money market funds	42,007	42,007	0	0
Short-term investments:				
Certificate of deposit	11,400	11,400	0	0
Commercial paper	32,946	0	32,946	0
Corporate debt securities	63,400	0	63,400	0
US agency securities	33,976	0	33,976	0
US Treasury securities	20,100	20,100	0	0
Foreign government securities	25,533	0	25,533	0
Long-term investments:				
Auction rate securities	4,148	0	0	4,148
	\$ 255,003	\$ 73,507	\$ 177,348	\$ 4,148

The following table is a reconciliation of financial assets measured at fair value using significant unobservable inputs (Level 3) during the three months ended April 30, 2010 (in thousands):

	Auction Rate Securities (Three Months April 30, 2010)
Balance, January 31, 2010	\$ 4,112
Transfer into Level 3	0
Total unrealized gains included in accumulated other comprehensive loss	36
Balance, April 30, 2010	\$ 4,148

Marketable securities measured at fair value using Level 3 inputs are comprised of auction rate securities. Although auction rate securities would typically be measured using Level 2 inputs, the failure of auctions and the lack of market activity and liquidity required that these securities be measured using Level 3 inputs. The underlying assets of the Company's auction rate securities are collateralized primarily by student loans guaranteed by the U.S. government. The fair value of its auction rate securities was determined using a pricing model that market participants

Edgar Filing: TIVO INC - Form 10-Q

would use that considered projected cash flows for the issuing trusts, underlying collateral and expected yields. Projected cash flows were estimated based on the underlying loan principal, bonds outstanding, and payout formulas. The weighted-average life over which cash flows were projected considered the collateral composition of the securities and related historical and projected prepayments. The discount rates that were applied to the pricing model were based on market conditions and rates for comparable or similar term asset-backed securities as well as other fixed income securities.

TiVo also has a direct investment in a privately-held company accounted for under the cost method, which is periodically assessed for other-than-temporary impairment. If the Company determines that an other-than-temporary impairment has occurred, TiVo will write-down the investment to its fair value. The fair value of a cost method investment is not evaluated if there are no identified events or changes in circumstances that may have a significant adverse effect on the fair value of the investment. However, if such significant adverse events were identified, the Company would estimate the fair value of its cost method investment considering available information at the time of the event, such as pricing in recent rounds of financing, current cash position, earnings and cash flow forecasts, recent operational performance and any other readily available data. The carrying amount of the Company's cost method investments was \$3.4 million as of April 30, 2010 and January 31, 2010.

Table of Contents

TIVO INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

(unaudited)

Cash equivalents and available-for-sale marketable securities (including auction rate securities) are reported at their fair value. Additionally, carrying amounts of certain of the Company's financial instruments including accounts receivable, accounts payable, and accrued expenses approximate their fair value because of their short maturities.

4. INDEMNIFICATION ARRANGEMENTS AND GUARANTEES

Product Warranties

The Company's standard manufacturer's warranty period to consumers for TiVo-enabled DVRs is 90 days for parts and labor from the date of consumer purchase, and from 91-365 days for parts only, also known as the Limited Warranty. Within the limited warranty period, consumers are offered a no-charge exchange for TiVo-enabled DVRs returned due to product defect, within 90 days from the date of consumer purchase. Thereafter, consumers may exchange a TiVo-enabled DVR with a product defect for a charge. As of April 30, 2010 and January 31, 2010, the accrued warranty reserve was \$328,000 and \$233,000, respectively. The Company's accrued warranty reserve is included in accrued liabilities in the accompanying condensed consolidated balance sheets.

The Company also offers customers separately priced optional 2-year and 3-year extended warranties. The Company defers and amortizes cost and revenue associated with the sales of the extended warranties over the warranty period or until a warranty is redeemed. As of April 30, 2010, the extended warranty deferred revenue and cost was \$451,000 and \$135,000, respectively. As of January 31, 2010, the extended warranty deferred revenue and cost was \$234,000 and \$70,000, respectively.

Indemnification Arrangements

The Company undertakes indemnification obligations in its ordinary course of business. For instance, the Company has undertaken to indemnify its underwriters and certain investors in connection with the issuance and sale of its securities. The Company has also undertaken to indemnify certain customers and business partners for, among other things, the licensing of its products, the sale of its DVRs, and the provision of engineering and consulting services. Pursuant to these agreements, the Company may indemnify the other party for certain losses suffered or incurred by the indemnified party in connection with various types of claims, which may include, without limitation, intellectual property infringement, advertising and consumer disclosure laws, certain tax liabilities, negligence and intentional acts in the performance of services and violations of laws, including certain violations of securities laws with respect to underwriters and investors. The term of these indemnification obligations is generally perpetual. The Company's obligation to provide indemnification would arise in the event that a third-party filed a claim against one of the parties that was covered by the Company's indemnification obligation. As an example, if a third-party sued a customer for intellectual property infringement and the Company agreed to indemnify that customer against such claims, its obligation would be triggered.

The Company is unable to estimate with any reasonable accuracy the liability that may be incurred pursuant to its indemnification obligations, if any. A few of the variables affecting any such assessment include but are not limited to: the nature of the claim asserted; the relative merits of the claim; the financial ability of the party suing the indemnified party to engage in protracted litigation; the number of parties seeking indemnification; the nature and amount of damages claimed by the party suing the indemnified party; and the willingness of such party to engage in settlement negotiations. Due to the nature of the Company's potential indemnity liability, its indemnification obligations could range from immaterial to having a material adverse impact on its financial position and its ability to continue operation in the ordinary course of business.

Under certain circumstances, the Company may have recourse through its insurance policies that would enable it to recover from its insurance company some or all amounts paid pursuant to its indemnification obligations. The Company does not have any assets held either as collateral or by third parties that, upon the occurrence of an event requiring it to indemnify a customer, the Company could obtain and liquidate to recover all or a portion of the amounts paid pursuant to its indemnification obligations.

5. NET INCOME (LOSS) PER COMMON SHARE

Edgar Filing: TIVO INC - Form 10-Q

Basic net income (loss) per common share is computed by dividing net income (loss) by the weighted average number of common shares outstanding, excluding unvested restricted stock.

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)**

The following table sets forth the computation of basic and diluted earnings per common share:

	Three Months Ended April 30,	
	2010	2009
	(In thousands, except per share amounts)	
Numerator:		
Net income (loss)	\$ (14,200)	\$ (3,899)
Denominator:		
Weighted average shares outstanding, excluding unvested restricted stock	111,490	102,279
Weighted average effect of dilutive securities:		
Stock options and restricted stock	0	0
Denominator for diluted net income (loss) per common share	111,490	102,279
Basic net income (loss) per common share	\$ (0.13)	\$ (0.04)
Diluted net income (loss) per common share	\$ (0.13)	\$ (0.04)

The weighted average number of shares outstanding used in the computation of basic and diluted net loss per share does not include the effect of the following potentially outstanding common stock. The effects of these potentially outstanding shares were not included in the calculation of diluted net loss per share because the effect would have been anti-dilutive:

	As of April 30,	
	2010	2009
Unvested restricted stock	4,900,518	4,327,653
Options to purchase common stock	10,978,706	19,627,872
Potential shares to be issued from ESPP	3,425,866	4,088,993
Total	19,305,090	28,044,518

6. COMMITMENT AND CONTINGENCIES**Legal Matters**

Intellectual Property Litigation. On January 5, 2004, TiVo filed a complaint against EchoStar Communications Corporation and EchoStar DBS Corporation in the U.S. District Court for the Eastern District of Texas alleging willful and deliberate infringement of U.S. Patent No. 6,233,389, entitled Multimedia Time Warping System. The Company subsequently amended its complaint to add related entities (collectively EchoStar). The Company alleges that it is the owner of this patent, and further alleges that the defendants have willfully and deliberately infringed this patent by making, selling, offering to sell and/or selling digital video recording devices, digital video recording device software, and/or personal television services in the United States. On April 13, 2006, the jury rendered a verdict in favor of the Company in the amount of approximately \$74.0 million dollars. The jury ruled that the Company's patent is valid and that all nine of the asserted claims in the

Edgar Filing: TIVO INC - Form 10-Q

Company's patent are infringed by each of the accused EchoStar products. The jury also ruled that the defendants willfully infringed the patent. On September 8, 2006 the district court issued an Amended Final and Permanent injunction that prohibited the defendants from making, using, offering for sale or selling in the United States the following EchoStar DVRs: DP-501, DP-508, DP-510, DP-721, DP-921, DP-522, DP-625, DP-942, and all EchoStar Communications Corporation DVRs that are not more than colorably different from any of these products. On October 3, 2006, the United States Court of Appeals for Federal Circuit stayed the district court's injunction pending appeal. On January 31, 2008, the U.S. Court of Appeals for the Federal Circuit in Washington, D.C. unanimously ruled in favor of the Company in connection with EchoStar's appeal of the district court judgment of patent infringement against EchoStar with respect to Claims 31 and 61 of the patent (the so called software claims) of the patent, upholding the full award of damages from the district court, and ordering that the stay of the district court's injunction against EchoStar's infringing digital video recorders that was issued pending appeal will dissolve when the appeal becomes final. The district court's judgment of infringement by EchoStar of certain other claims of the patent (the so called hardware claims) were reversed and remanded for further proceedings. On October 6, 2008, the Supreme Court denied EchoStar's writ of certiorari. On October 8, 2008, the Company received \$104.6 million from EchoStar of which approximately \$87.8 million represents damages through September 8, 2006 and was recorded as litigation proceeds within the operating expense section of TiVo's statement of operations. The remaining approximately \$16.8 million was recorded as interest income and represented pre- and post-judgment interest through October 8, 2008. With respect to the district court's injunction and damages after September 8, 2006, the district court held a hearing on EchoStar's alleged work around of the Company's patent on February 17, 2009. On June 2, 2009, the district court found EchoStar in contempt of its permanent injunction regarding EchoStar's on-going infringement of TiVo's U.S. Patent No. 6,233,389. The Court also awarded TiVo an approximately \$103 million plus interest for EchoStar's continued infringement for the period from September 8, 2006 to April 18, 2008. The Court deferred ruling on the issue of monetary sanctions for contempt of the permanent injunction as well as certain other damages.

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)**

On July 1, 2009, the United States Court of Appeals for the Federal Circuit stayed the district court's ruling pending EchoStar's appeal of the district court's decision finding EchoStar in contempt of the permanent injunction. On September 4, 2009, the United States District Court for the Eastern District of Texas awarded TiVo contempt damages in connection with its permanent injunction regarding EchoStar's on-going infringement of TiVo's U.S. Patent No. 6,233,389 in the form of an on-going royalty of \$2.25 per subscriber per month during the contempt period of April 18, 2008 to July 1, 2009, which amounts to almost \$200 million. The Court also awarded TiVo its attorney's fees and costs incurred during the contempt proceedings. Additionally, on September 4, 2009, the Court awarded TiVo an additional \$10.6 million in prejudgment interest in connection with the stay period damages from September 8, 2006 to April 18, 2008 which was previously awarded to TiVo. Enforcement of these awards is stayed pending resolution of EchoStar's appeal of the district court's decision finding EchoStar in contempt of the permanent injunction. On February 8, 2010, the Court entered an Order quantifying the attorney's fees and costs incurred during the contempt proceedings to be \$5.8 million. On March 4, 2010, the United States Court of Appeals for the Federal Circuit in Washington, D.C. fully affirmed the United States District Court for the Eastern District of Texas's finding of contempt of its permanent injunction against EchoStar, including both the disablement and infringement provisions, regarding EchoStar's on-going infringement of TiVo's U.S. Patent No. 6,233,389. On March 9, 2010, EchoStar filed a motion with the District Court seeking pre-approval of a new alleged design-around for its Broadcom DVR receivers (rework2) as well as an emergency motion for expedited resolution of its pre-approval motion. On March 25, 2010, the United States District Court for the Eastern District of Texas entered an order staying the injunction until midnight April 30, 2010. On May 10, 2010, the district court extended the stay until June 4, 2010. On May 14, 2010, the United States Court of Appeals for the Federal Circuit in Washington, D.C. granted EchoStar's request for a rehearing en banc. This order vacated the March 4, 2010 decision by the Court of Appeals to affirm the District Court's finding of contempt against EchoStar.

On June 4, 2010, the United States Patent and Trademark Office (the PTO) issued a final office action in a second reexamination filed by EchoStar preliminarily rejecting Claims 31 and 61 of the Time Warp patent as obvious in light of two references previously considered by the PTO in the first reexamination. The Company intends to defend this action and the validity of the rejected claims in the PTO reexamination vigorously; in the event there is an adverse outcome, the Company's business could be harmed. At this time, the Company is unable to estimate the likelihood of an adverse outcome or the extent to which the Company's business would be harmed by an adverse outcome.

On May 30, 2008, Dish Network Corporation and its related entities filed a complaint against TiVo in the U.S. District Court for the District of Delaware for declaratory relief that Dish's unspecified digital video recorders do not infringe TiVo's 389 patent. On July 7, 2008, TiVo filed a motion to dismiss Dish's complaint against TiVo for declaratory relief that Dish's unspecified DVRs do not infringe TiVo's 389 patent. On March 31, 2009, the court denied TiVo's motion to dismiss. On May 28, 2009, the court ordered the action transferred to the Eastern District of Texas which stayed the action on June 19, 2009. The Company intends to defend this action vigorously; however, the Company may incur material expenses in connection with this lawsuit and in the event there is an adverse outcome, the Company's business could be harmed. No loss is considered probable or estimable at this time.

On April 29, 2005, EchoStar Technologies Corporation filed a complaint against TiVo and Humax USA, Inc. in the U.S. District Court for the Eastern District of Texas alleging infringement of U.S. Patent Nos. 5,774,186 (Interruption Tolerant Video Program Viewing), 6,529,685 B2 (Multimedia Direct Access Storage Device and Formatting Method), 6,208,804 B1 (Multimedia Direct Access Storage Device and Formatting Method) and 6,173,112 B1 (Method and System for Recording In-Progress Broadcast Programs). The complaint alleges that EchoStar Technologies Corporation is the owner by assignment of the patents allegedly infringed. The complaint further alleges that TiVo and Humax have infringed, contributorily infringed and/or actively induced infringement of the patents by making, using, selling or importing digital video recording devices, digital video recording device software and/or personal television services in the United States that allegedly infringe the patents, and that such infringement is willful and ongoing. Under the terms of the Company's agreement with Humax governing the distribution of certain DVRs that enable the TiVo service, the Company is required to indemnify Humax against any claims, damages, liabilities, costs, and expenses relating to claims that the Company's technology infringes upon intellectual property rights owned by third parties. On May 10, 2005, Humax formally notified TiVo of the claims against it in this lawsuit as required by Humax's agreement with TiVo. On July 1, 2005, the defendants filed their answer and counterclaims. On May 10, 2006, the district court dismissed with prejudice, EchoStar's claim of infringement against TiVo and Humax relating to patent 112 (Method and System for Recording In-Progress Broadcast Programs) and claims 21-30 and 32 relating to patent 186 (Interruption Tolerant Video Program Viewing). A claim construction hearing was held on May 11, 2006. On July 14, 2006, the magistrate judge for the U.S. District Court for the Eastern District of Texas, issued a stay of the case pending the USPTO completion of proceedings with respect to TiVo's request for reexamination of the 186, 685, and 804 patents. The Company intends to defend this action

Edgar Filing: TIVO INC - Form 10-Q

vigorously; however, the Company is incurring expenses in connection with this lawsuit, which could become material in the future and in the event there is an adverse outcome, the Company's business could be harmed. No loss is considered probable or estimable at this time.

On August 26, 2009, TiVo Inc. filed separate complaints against AT&T Inc. and Verizon Communications, Inc. in the United States District Court for the Eastern District of Texas for infringement of the following three TiVo patents U.S. Patent Nos. 6,233,389 B1 (Multimedia Time Warping System), 7,529,465 B2 (System for Time Shifting Multimedia Content Streams), and 7,493,015 B1 (Automatic Playback Overshoot Correction System). The complaints seek, among other things, damages for past infringement and a permanent injunction, similar to that issued by the United States District Court, Eastern District of Texas against EchoStar. On January 15, 2010, Microsoft Corporation moved to intervene in the action filed against

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)**

AT&T Inc., and on March 31, 2010 the district court granted Microsoft's motion. On March 28, 2010, AT&T Operations filed a motion to intervene in the action filed against AT&T; AT&T Operations and Microsoft filed a motion to transfer the proceedings to the United States District Court for the Northern District of California; and AT&T Inc., AT&T Operations, and Microsoft filed a motion to sever the claims involving Microsoft and AT&T Operations and stay the remaining proceeding involving AT&T. The Company is incurring material expenses in connection with this litigation.

On February 24, 2010, Verizon answered TiVo's August 26, 2009 complaint and Verizon asserted counterclaims. The counterclaims seek declaratory judgment of non-infringement and invalidity of the patents TiVo asserted against Verizon in the August 26th complaint. Additionally, Verizon alleged infringement of U.S. Patents: 5,410,344 (Apparatus and Method of Selecting Video Programs Based on Viewers Preferences), 5,635,979 (Dynamically Programmable Digital Entertainment Terminal Using Downloaded Software to Control Broadband Data Operations), 5,973,684 (Digital Entertainment Terminal Providing Dynamic Execution in Video Dial Tone Networks), 7,561,214 (Two-dimensional Navigation of Multiplexed Channels in a Digital Video Distribution System), 6,367,078 (Electronic Program-Guide System with Sideways-Surfing Capability). On March 15, 2010, Verizon filed an amended answer further alleging infringement of U.S. Patent No. 6,381,748 (Apparatus And Methods For Network Access Using A Set Top Box And Television). Verizon seeks, among other things, damages and a permanent injunction. On March 17, 2010, Verizon filed a motion to transfer the proceedings to the United States District Court for the District of New Jersey. The Company is incurring material expenses in connection with this litigation. No loss is considered probable or estimable at this time.

On January 19, 2010, Microsoft Corporation filed a complaint against TiVo in the United States District Court for the Northern District of California for alleged infringement of the following two patents: U.S. Patent Nos. 6,008,803 (System for Displaying Programming Information) and 6,055,314 (System and Method for Secure Purchase and Delivery of Video Content Programs). The complaint seeks, among other things, damages and a permanent injunction. On April 19, 2010, TiVo served its answer to the complaint, and counterclaimed seeking a declaration that TiVo does not infringe and the patents are invalid. The Company is incurring material expenses in connection with this litigation. No loss is considered probable or estimable at this time.

On March 12, 2010, AT&T Intellectual Property I, L.P., and AT&T Intellectual Property II, L.P. (AT&T) filed a complaint against TiVo Inc. in the United States District Court for the Northern District of California for infringement of the following four patents U.S. Pat Nos. 5,809,492 (Apparatus and Method for Defining Rules for Personal Agents), 5,922,045 (Method and Apparatus for Providing Bookmarks when Listening to Previously Recorded Audio Programs), 6,118,976 (Asymmetric Data Communications System), and 6,983,478 (Method and System for Tracking Network Use). The complaint seeks, among other things, damages for past infringement and a permanent injunction. On May 31, 2010, Microsoft filed an amended complaint alleging infringement of the following additional five patents: U.S. Patent Nos. 5,654,748 (Interactive Program Identification System), 5,677,708 (System for Displaying a List on a Display Screen), 5,896,444 (Method and Apparatus for Managing Communications Between a Client and a Server in a Network), 6,725,281 (Synchronization of Controlled Device State Using State Table and Eventing in Data-Driven Remote Device Control Model), and 5,648,824 (Video Control User Interface for Controlling Display of a Video). The amended complaint seeks, among other things, damages and a permanent injunction. The Company is incurring material expenses in connection with this litigation. No loss is considered probable or estimable at this time.

Securities Litigation. The Company and certain of its officers and directors (TiVo defendants) were originally named as defendants in a consolidated securities class action lawsuit filed in the United States District Court for the Southern District of New York. This action, which is captioned Werberger v. TiVo et al., also names several of the underwriters involved in the Company's initial public offering (IPO) as defendants. This class action is brought on behalf of a purported class of purchasers of the Company's common stock from the time of the Company's IPO (October 31, 1999) through December 6, 2000. The central allegation in this action is that the underwriters in the Company's IPO solicited and received undisclosed commissions from, and entered into undisclosed arrangements with, certain investors who purchased the Company's stock in the IPO and the after-market, and that the TiVo defendants violated the federal securities laws by failing to disclose in the IPO prospectus that the underwriters had engaged in these allegedly undisclosed arrangements. More than 300 issuers have been named in similar lawsuits. In February 2003, after the issuer defendants (including the TiVo defendants) filed an omnibus motion to dismiss, the Court dismissed the Section 10(b) claim as to the Company, but denied the motion to dismiss the Section 11 claim as to the Company and virtually all of the other issuer-defendants. On October 8, 2002, the Company's executive officers who were named as defendants in this action were dismissed without prejudice.

Edgar Filing: TIVO INC - Form 10-Q

On June 26, 2003, the plaintiffs in the suit announced a proposed settlement with the Company and the other issuer defendants. This proposed settlement was terminated on June 25, 2007, following the ruling by the United States Court of Appeals for the Second Circuit on December 5, 2006, reversing the District Court's granting of class certification in the six focus cases currently being litigated in this proceeding. The proposed settlement had provided that the insurers of all settling issuers would guarantee that the plaintiffs recover \$1 billion from non-settling defendants, including the investment banks who acted as underwriters in those offerings. The maximum amount that could be charged to the Company's insurance policy under the proposed settlement in the event that the plaintiffs recovered nothing from the investment banks would have been approximately \$3.9 million.

On August 14, 2007, the plaintiffs filed Amended Master Allegations. On September 27, 2007, the Plaintiffs filed a Motion for Class Certification, which was subsequently withdrawn without prejudice by the plaintiffs. Defendants filed a Motion to Dismiss the focus cases on November 9, 2007. On March 26, 2008, the Court ruled on the Motion to Dismiss, holding that the plaintiffs had adequately pleaded their Section 10(b) claims against the Issuer Defendants and the Underwriter Defendants in the focus cases. As to the Section 11 claim, the Court dismissed the claims brought by those plaintiffs who sold their

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)**

securities for a price in excess of the initial offering price, on the grounds that they could not show cognizable damages, and by those who purchased outside the previously certified class period, on the grounds that those claims were time barred. This ruling, while not binding on the Company's case, provides guidance to all of the parties involved in this litigation. On April 2, 2009, the parties lodged with the Court a motion for preliminary approval of a proposed settlement between all parties to the consolidated action, including the Company and its former officers and directors, as well as numerous other companies and their officers and directors. The proposed settlement provides the plaintiffs with \$586 million in recoveries from all defendants, with \$100 million being paid on behalf of the Issuer Defendants and their officers and directors by the Issuers' insurers. Accordingly, any direct financial impact of the proposed settlement is expected to be borne by the Company's insurers. The proposed settlement also provides for full releases for the defendants, including the Company and its former officers and directors. On June 12, 2009, the Federal District Court granted preliminary approval of the proposed settlement. On September 10, 2009, the Federal District Court held the fairness hearing for final approval of the settlement. On October 6, 2009, the District Court issued an order granting class certification and final approval of the settlement. Several individuals or groups of individuals have filed petitions to appeal and/or notices of appeal with the United States Court of Appeals for the Second Circuit. The Second Circuit Court of Appeals has not yet addressed any of the pending petitions to appeal or notices of appeal. Therefore, the District Court's order granting class certification and final approval of the settlement may still be subject to appellate review by the Second Circuit Court of Appeals. There can be no assurance that the District Court's approval will not be overturned by the Second Circuit Court of Appeals. The Company may incur expenses in connection with this litigation that may become material in the future. No loss is considered probable or estimable at this time.

On October 3, 2007, Vanessa Simmonds filed a complaint against the Company's former lead underwriters Credit Suisse Group and Bank of America (Lead Underwriters), with the Company named as a nominal defendant, in the U.S. District Court for the Western District of Washington alleging violations of Section 16(b) in connection with the Company's initial public offering and associated transactions in the Company's stock in the six month period following the Company's initial public offering by the Company's Lead Underwriters. On or about December 3, 2007, Ms. Simmonds delivered a copy of the complaint to the Company. The complaint itself is directed solely at the initial public offering underwriters, not at the Company itself, and does not seek any damages or recovery from the Company itself. On February 25, 2008, the plaintiff filed an amended complaint which is substantially similar to the initial complaint, but which also names Credit Suisse Securities (USA), Bank of America Corporation, and Robertson Stephens, Inc. as defendants in the amended complaint that continues to name the Company only as a nominal defendant. Ms. Simmonds filed similar actions in the same Court against various underwriters with respect to the initial public offerings of fifty-three other issuers. The fifty-four actions were coordinated by the Court. On July 25, 2008, thirty of the issuers, including the Company (collectively, the Moving Issuers), in the coordinated proceeding filed a Joint Motion to Dismiss. Also on July 25, 2008, all of the underwriter defendants in the coordinated proceeding filed an Omnibus Motion to Dismiss. The hearing on the motions to dismiss was held on January 16, 2009. On March 12, 2009, the Court granted both the Issuers' Joint Motion to Dismiss and the Underwriters' Omnibus Motion to Dismiss. The Court held that the plaintiff's demand letters to the Moving Issuers were legally insufficient and therefore the plaintiff lacked standing to maintain the thirty Section 16(b) suits relating to the Moving Issuers. Accordingly, the Court granted without prejudice the Moving Issuers' Joint Motion to Dismiss, and further held that it would not permit the plaintiff to amend her demand letters. In regard to the Underwriters' Omnibus Motion to Dismiss, the Court held that the remaining twenty-four Section 16(b) suits were barred by the statute of limitations, and accordingly granted with prejudice the Omnibus Motion to Dismiss as to those suits. On March 31, 2009, plaintiff filed a notice of appeal to the United States Court of Appeals for the Ninth Circuit of the District Court's dismissal of these fifty-four actions. On April 14, 2009, the underwriter defendants filed a notice of cross-appeal of that portion of the District Court's order dismissing without prejudice the thirty Section 16(b) suits relating to the Moving Issuers, on the grounds that such dismissal should be with prejudice. The appeal and cross appeal remain pending. The Company may incur expenses in connection with this litigation that may become material in the future. No loss is considered probable or estimable at this time.

The Company is involved in numerous lawsuits and receives numerous threats of litigation in the ordinary course of its business. The Company assesses potential liabilities in connection with these lawsuits and threatened lawsuits and accrues an estimated loss for these loss contingencies if both of the following conditions are met: information available prior to issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of loss can be reasonably estimated. As of January 31, 2010, the Company has not accrued any liability for any lawsuits filed against the Company, as the conditions for accrual have not been met. The Company expenses legal costs as they are incurred.

7. COMCAST AGREEMENT

Edgar Filing: TIVO INC - Form 10-Q

On March 15, 2005, the Company entered into a non-exclusive licensing and marketing agreement with Comcast STB Software DVR, LLC (Comcast STB), a wholly-owned subsidiary of Comcast Corporation, and Comcast Corporation, as guarantor of Comcast STB's obligations under the agreement. The agreement was subsequently amended several times, most recently on March 27, 2008. The Company agreed to develop a TiVo service software solution for deployment on Comcast's DVR platforms. In addition, the Company agreed to develop a TiVo Interactive Advertising Management System for deployment on Comcast platforms to enable the provision of local and national advertising to Comcast subscribers.

Acceptance of the delivery of the TiVo service software solution by Comcast occurred on June 27, 2007 and the TiVo service has launched in its initial market. Comcast accepted the TiVo advertising management system on March 31, 2008. Our statements of work with Comcast provide for continued funding for engineering services for the development of additional releases of the TiVo-branded, TiVo-service enabling software for the Comcast DVR platforms and to enable such software on other Comcast DVR platforms. Revenue from this additional engineering work is recognized using the percentage-of-completion method.

Table of Contents**TIVO INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Continued)****(unaudited)**

During the three months ended April 30, 2010 and 2009, the Company recognized \$3.3 million and \$4.8 million, respectively in technology revenues and \$1.7 million and \$3.3 million, respectively in cost of technology revenues.

8. DEVELOPMENT AGREEMENT AND SERVICES AGREEMENT WITH DIRECTV, INC.

On September 3, 2008, the Company extended its current agreement with DIRECTV for the development, marketing, and distribution of a new HD DIRECTV DVR featuring the TiVo[®] service. Under the terms of this non-exclusive arrangement, TiVo is developing a version of the TiVo service for DIRECTV's broadband-enabled HD DVR. TiVo is working with DIRECTV with the intention to deploy this product to consumers later this year. DIRECTV also has certain additional annual obligations to market and promote the new HD DIRECTV DVR featuring the TiVo Service once it has launched. DIRECTV, upon the deployment of high definition DIRECTV DVRs with TiVo service, is entitled to recoup, over time, a portion of certain development fees through a reduction in certain subscription fees. The new agreement also extends the mutual covenant not to sue with respect to each company's products and services throughout the term of the new agreement.

Under this new agreement, DIRECTV will pay a substantially higher monthly fee for households using the new high definition DIRECTV DVRs with TiVo (when and if the new version of the TiVo service is deployed) than the fees for previously deployed DIRECTV DVRs with TiVo service. DIRECTV will continue to pay the current monthly fee for all households using only the previously deployed DIRECTV DVRs with TiVo service. The fees paid by DIRECTV are subject to monthly minimum payments that escalate during the term of the agreement starting in 2010 and those minimum payments are substantially higher than in the prior agreement.

Due to uncertainties over the ultimate profit margin on the development work, the Company recognizes revenues and costs for the development of the TiVo service for DIRECTV's broadband-enabled HD DVR based on a zero profit model, which results in the recognition of equal amounts of revenues and costs. During the three months ended April 30, 2010 and 2009, the Company recognized \$2.5 million and \$1.0 million in technology revenues and \$2.5 million and \$1.0 million in cost of technology revenues, respectively related to the development of the TiVo service for DIRECTV's broadband-enabled HD DVR.

9. COMPREHENSIVE INCOME (LOSS)

The components of comprehensive income (loss) are as follows:

	Three Months Ended April 30,	
	2010	2009
	(In thousands)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis in conjunction with the condensed consolidated financial statements and the accompanying notes included in this report and our most recent annual report on Form 10-K filed on March 31, 2010, the sections entitled "Risk Factors" in Item 1A of our most recent annual report on Form 10-K and Part II, Item 1A of this quarterly report, as well as other cautionary statements and risks described elsewhere in this report and our most recent annual report on Form 10-K filed on March 31, 2010, before deciding to purchase, sell, or hold our common stock.

Company Overview

We are a leading provider of technology and services for advanced television solutions, including digital video recorders. The subscription-based TiVo service redefines home entertainment by providing consumers with an easy intuitive way to record, watch, and control television and receive videos, pictures, and movies from cable, broadcast, and broadband sources. We offer features such as Season Pass recordings, integrated search (including content from both traditional linear television, VOD, and broadband sources in one user interface), WishList[®] searches, TiVoToGo transfers, access to broadband video content (including premium content delivered from Amazon's Video On Demand service, Netflix, and Blockbuster), TiVo KidZone, and TiVo Online Scheduling. As of April 30, 2010, there were approximately 2.5 million subscriptions to the TiVo service. We distribute the TiVo DVR through consumer electronics retailers and through our on-line store at TiVo.com. Additionally, we provide the TiVo service through agreements with leading satellite and cable television service providers such as DIRECTV, Comcast, RCN, Cablevision Mexico, and in the future Cox and Virgin Media (UK), as well as broadcasters such as Seven/Hybrid TV (Australia) and Television New Zealand (TVNZ) (New Zealand). We also provide innovative marketing solutions for the television industry, including a unique platform for advertising and audience research measurement services and recently announced the commencement of development of a broadband connected television incorporating TiVo user interface and non-DVR software with Best Buy's Insignia brand television sets.

Executive Overview

Fiscal year 2011

In the fiscal year ending January 31, 2011 we will continue to be focused on our efforts to build leading advanced television products, entering into new distribution agreements, engage in development work for existing distribution agreements, and commence and continue deployment activities for those distribution agreements. Additionally, we will continue to actively protect our intellectual property. In our efforts to accomplish these strategies, we expect to continue to have a net loss for the fiscal year ending January 31, 2011 as we focus on the following priorities:

We expect to continue our efforts to increase our subscription base by adding new subscriptions through our TiVo-Owned direct and retail sales with the rollout of our new products and through our expanded agreement with Best Buy, as well as our mass distribution partnerships both in the U.S. and globally. However, we still expect our overall subscription base to decrease from the prior year due to continued competition resulting in losses in our installed base of MSOs/Broadcasters subscriptions as DIRECTV will not deploy new TiVo boxes prior to the launch of the new HD DIRECTV DVRs with TiVo service in the future and our distribution deals such as Comcast, Virgin, and Cox are still in development and/or the early phases of deployment.

We believe that investments in research and development are critical to remaining competitive and being a leader in advanced television solutions that go beyond the DVR. Therefore, we plan to increase our research and development spending from the prior year to engage in these new technological and product developments.

During the first quarter of fiscal year ending January 31, 2011, we launched our next generation TiVo Premiere and TiVo Premiere XL boxes which go beyond traditional DVR functionality by merging linear television and broadband delivered content together. The cost to produce these new boxes is lower than our previous HD DVR offering and we expect this to improve not only our cost of hardware but also positively benefit subscription acquisition costs. However, we still anticipate near-term increases in our sales and marketing, subscription acquisition costs as we begin marketing these new products in an effort to ensure that consumers understand the unique qualities and benefits provided by the TiVo service and our next generation TiVo Premiere boxes.

Edgar Filing: TIVO INC - Form 10-Q

In fiscal year ending January 31, 2011, we will continue our efforts to protect our technological innovations and intellectual property. As a result, we expect our litigation expenses for our ongoing patent infringement lawsuits, which include our ongoing litigation with Dish (EchoStar) as well as recently commenced lawsuits involving AT&T, Verizon and Microsoft, to increase significantly from our most recent fiscal year ended January 31, 2010.

Key Business Metrics

Management periodically reviews certain key business metrics in order to evaluate our operations, allocate resources, and drive financial performance in our business. Management monitors these metrics together and not individually as it does not make business decisions based upon any single metric.

Subscriptions. Management reviews this metric, and believes it may be useful to investors, in order to evaluate our relative position in the marketplace and to forecast future potential service revenues. Below is a table that details the change in our subscription base during the last eight quarters. The TiVo-Owned lines refer to subscriptions sold directly or indirectly by TiVo to consumers who have TiVo-enabled DVRs and for which TiVo incurs acquisition costs. The MSOs/Broadcasters lines refer to subscriptions sold to consumers by MSOs/Broadcasters such as DIRECTV, Cablevision Mexico, Seven/Hybrid TV (Australia), Television New Zealand (TVNZ) (New Zealand), and Comcast and for which TiVo expects to incur little or no acquisition costs. Additionally, we provide a breakdown of the percent of TiVo-Owned subscriptions for which consumers pay recurring fees, including on a monthly and a prepaid one, two, or three year basis, as opposed to a one-time prepaid product lifetime fee.

Table of Contents

(Subscriptions in thousands)	Three Months Ended							
	April 30, 2010	Jan 31, 2010	Oct 31, 2009	July 31, 2009	April 30, 2009	Jan 31, 2009	Oct 31, 2008	July 31, 2008
TiVo-Owned Subscription Gross Additions:	33	46	34	31	37	59	44	36
Subscription Net Additions/(Losses):								
TiVo-Owned	(51)	(72)	(45)	(42)	(30)	(4)	(28)	(42)
*MSOs/Broadcasters	(45)	(59)	(269)	(104)	(109)	(121)	(135)	(136)
Total Subscription Net Additions/(Losses)	(96)	(131)	(314)	(146)	(139)	(125)	(163)	(178)
Cumulative Subscriptions:								
TiVo-Owned	1,414	1,465	1,537	1,582	1,624	1,654	1,658	1,686
MSOs/Broadcasters	1,095	1,140	1,199	1,468	1,572	1,681	1,802	1,937
Total Cumulative Subscriptions	2,509	2,605	2,736	3,050	3,196	3,335	3,460	3,623
Fully Amortized Active Lifetime Subscriptions	282	279	237	219	215	225	236	194
% of TiVo-Owned Cumulative Subscriptions paying recurring fees	57%	58%	58%	59%	59%	59%	60%	60%

* MSOs/Broadcasters Subscription Net Additions/(Losses) in the third quarter ended October 31, 2009 would have been a loss of (123,000) subscriptions, excluding a one time reduction of (146,000) subscriptions associated with a subscription over-reporting error by DIRECTV. We define a subscription as a contract referencing a TiVo-enabled DVR for which (i) a consumer has committed to pay for the TiVo service and (ii) service is not canceled. We count product lifetime subscriptions in our subscription base until both of the following conditions are met: (i) the period we use to recognize product lifetime subscription revenues ends; and (ii) the related DVR has not made contact to the TiVo service within the prior six month period. Product lifetime subscriptions past this period which have not called into the TiVo service for six months are not counted in this total. Effective November 1, 2008, we extended the period we use to recognize product lifetime subscription revenues from 54 months to 60 months for all product lifetime subscriptions acquired on or before October 31, 2007. We now amortize all product lifetime subscriptions over a 60 month period. We are not aware of any uniform standards for defining subscriptions and caution that our presentation may not be consistent with that of other companies. Additionally, the subscription fees that some of our MSOs/Broadcasters pay us may be based upon a specific contractual definition of a subscriber or subscription which may not be consistent with how we define a subscription for our reporting purposes.

TiVo-Owned subscriptions declined by 51,000 subscriptions decreasing the TiVo-Owned installed subscription base to approximately 1.4 million subscriptions as of April 30, 2010 as compared to the fiscal year ended January 31, 2010. We believe this decrease in total TiVo-Owned subscriptions was largely due to the continued decrease in subscription gross additions resulting from increased competition from DVRs distributed by cable and satellite. As a result of this competition and current economic conditions, we may experience further net losses in our TiVo-Owned subscription base in the fiscal year ending January 31, 2011 despite the introduction of our new TiVo Premiere box.

MSOs/Broadcasters installed subscription base decreased by 45,000 subscriptions to 1.1 million subscriptions as of April 30, 2010 as compared to the fiscal year ended January 31, 2010. The decrease in subscriptions is due to DIRECTV's promotion of a competing DVR while concurrently not marketing any DVR with TiVo service, as well as the fact that our other mass distribution deals are still in the early phases of development and/or deployment. We have agreed to work with DIRECTV to develop a version of the TiVo service for DIRECTV's broadband-enabled HD DVR platform. TiVo is working with DIRECTV with the intention to deploy this product to consumers later this year. We expect current MSOs/Broadcasters trends to continue until more of our deployments commence such as DIRECTV, Virgin, and others occur and Comcast moves into additional markets.

TiVo-Owned Churn Rate per Month. Management reviews this metric, and believes it may be useful to investors, in order to evaluate our ability to retain existing TiVo-Owned subscriptions (including both monthly and product lifetime subscriptions) by providing services that are competitive in the market. Management believes factors such as service enhancements, service commitments, higher customer satisfaction, and improved customer support may improve this metric. Conversely, management believes factors such as increased competition, lack of competitive service features such as high definition television recording capabilities in our older model DVRs or access to certain digital television channels or MSO Video on Demand services, as well as, increased price sensitivity may cause our TiVo-Owned Churn Rate per month to increase.

Edgar Filing: TIVO INC - Form 10-Q

We define the TiVo-Owned Churn Rate per month as the total TiVo-Owned subscription cancellations in the period divided by the Average TiVo-Owned subscriptions for the period (including both monthly and product lifetime subscriptions), which then is divided by the number of months in the period. We calculate Average TiVo-Owned subscriptions for the period by adding the average TiVo-Owned subscriptions for each month and dividing by the number of months in the period. We calculate the average TiVo-Owned subscriptions for each month by adding the beginning and ending subscriptions for the month and dividing by two. We are not aware of any uniform standards for calculating churn and caution that our presentation may not be consistent with that of other companies.

Table of Contents

The following table presents our TiVo-Owned Churn Rate per month information:

(Subscriptions in thousands)	April 30, 2010	Jan 31, 2010	Oct 31, 2009	Three Months Ended		Jan 31, 2009	Oct 31, 2008	July 31, 2008
				July 31, 2009	April 30, 2009			
Average TiVo-Owned subscriptions	1,437	1,506	1,560	1,604	1,639	1,656	1,675	1,712
TiVo-Owned subscription cancellations	(84)	(118)	(79)	(73)	(67)	(63)	(72)	(78)
TiVo-Owned churn rate per month	-2.0%	-2.6%	-1.7%	-1.5%	-1.4%	-1.3%	-1.4%	-1.5%

Included in our TiVo-Owned Churn Rate per month are those product lifetime subscriptions that have both reached the end of the revenue recognition period and whose DVRs have not contacted the TiVo service within the prior six months. Conversely, we do not count as churn product lifetime subscriptions that have not reached the end of the revenue recognition period, regardless of whether such subscriptions continue to contact the TiVo service. TiVo-Owned Churn Rate per month was 2.0% for the quarter ended April 30, 2010, as compared to 1.4% for the same prior year period resulting from an increase in churn among our subscribers with older single and dual tuner model DVRs. We expect churn to increase further in the fiscal year ending January 31, 2011 as compared to the fiscal year ended January 31, 2010 as a result of a continued increase in inactive product lifetime subscriptions, competition from other providers, and the growing importance of encrypted digital and high definition television recording capabilities which can only be accessed through either a cable or satellite provided set top box or through a box which incorporates CableCARD technology (which is only available through cable and some telecommunications providers) and a switched digital adapter if necessary.

Subscription Acquisition Cost or SAC. Management reviews this metric, and believes it may be useful to investors, in order to evaluate trends in the efficiency of our marketing programs and subscription acquisition strategies. We define SAC as our total TiVo-Owned acquisition costs for a given period divided by TiVo-Owned subscription gross additions for the same period. We define total acquisition costs as sales and marketing, subscription acquisition costs less net TiVo-Owned related hardware revenues (defined as TiVo-Owned related gross hardware revenues less rebates, revenue share and market development funds paid to retailers) plus TiVo-Owned related cost of hardware revenues. The sales and marketing, subscription acquisition costs line item includes advertising expenses and promotion-related expenses directly related to subscription acquisition activities, but does not include expenses related to advertising sales. We do not include third parties' subscription gross additions, such as MSOs/Broadcasters' gross additions with TiVo subscriptions, in our calculation of SAC because we typically incur limited or no acquisition costs for these new subscriptions, and so we also do not include MSOs/Broadcasters' sales and marketing, subscription acquisition costs, hardware revenues, or cost of hardware revenues in our calculation of TiVo-Owned SAC. We are not aware of any uniform standards for calculating total acquisition costs or SAC and caution that our presentation may not be consistent with that of other companies.

Total Acquisition Costs	23,562	22,961	22,162	22,466	22,094	22,871	31,379	46,430
TiVo-Owned Subscription Gross Additions								
Subscription Acquisition Costs (SAC)	\$ 144	\$ 148	\$ 161	\$ 171	\$ 176	\$ 187	\$ 237	\$ 262
Subscription Acquisition Costs (SAC)	\$ 164	\$ 155	\$ 138	\$ 131	\$ 126	\$ 122	\$ 132	\$ 177

As a result of the seasonal nature of our subscription growth, total acquisition costs vary significantly during the year. Management primarily reviews the SAC metric on an annual basis due to the timing difference between our recognition of promotional program expense and the subsequent addition of the related subscriptions. For example, we have historically experienced increased TiVo-Owned subscription gross additions during the fourth quarter, however, sales and marketing, subscription acquisition activities occur throughout the year.

During the three months ended April 30, 2010, our total acquisition costs were \$5.5 million, an increase of \$601,000 from the same prior year period. This increase in total acquisition costs was related to our increased sales and marketing subscription acquisition spending of \$2.2 million which was due to the launch of our new TiVo Premiere boxes, which we rolled out during the quarter ended April 30, 2010. This increased spending was offset by improved TiVo-Owned hardware gross margin loss which decreased by \$1.6 million. This improvement in hardware gross margin loss is related to our new TiVo Premiere boxes which we rolled out during the quarter ended April 30, 2010.

During the twelve months ended April 30, 2010 our total acquisition costs were \$23.6 million, a 7% increase when compared to the \$22.1 million in total acquisition costs from the same prior year period. This increase in total acquisition costs was largely related to our increased sales and marketing subscription acquisition spending of \$1.4 million which was due to the launch of our new TiVo Premiere boxes, which we rolled out during the quarter ended April 30, 2010.

The increase in SAC of \$34 and \$38, for the three and twelve months ended April 30, 2010, respectively as compared to the same prior year periods, was largely related to the increase total acquisition costs combined with fewer subscription gross additions during the three and twelve month periods as compared to the same prior year periods.

Average Revenue Per Subscription or ARPU. Management reviews this metric, and believes it may be useful to investors, in order to evaluate the potential of our subscription base to generate revenues from a variety of sources, including subscription fees, advertising, and audience research measurement. ARPU does not include rebates, revenue share, and other payments to channel that reduce our GAAP revenues. As a result, you should not use ARPU as a substitute for measures of financial performance calculated in accordance with GAAP. Management believes it is useful to consider this metric excluding the costs associated with rebates, revenue share, and other payments to channel because of the discretionary and varying nature of these expenses and because management believes these expenses, which are included in hardware revenues, net, are more appropriately monitored as part of SAC. We are not aware of any uniform standards for calculating ARPU and caution that our presentation may not be consistent with that of other companies.

We calculate ARPU per month for TiVo-Owned subscriptions by subtracting MSOs/Broadcaster-related service revenues (which includes MSOs/Broadcasters' subscription service revenues and MSOs/Broadcasters' -related advertising revenues) from our total reported net service revenues and dividing the result by the number of months in the period. We then divide by Average TiVo-Owned subscriptions for the period, calculated as described above for churn rate. The following table shows this calculation:

Edgar Filing: TIVO INC - Form 10-Q

TiVo-Owned Average Revenue per Subscription	April 30, 2010	Jan 31, 2010	Oct 31, 2009	Three Months Ended			Oct 31, 2008	July 31, 2008
				July 31, 2009	April 30, 2009	Jan 31, 2009		
(In thousands, except ARPU)								
Total service revenues	36,244	38,442	37,701	41,500	42,129	44,115	47,676	48,174
Less: MSOs/Broadcasters -related service revenues	(3,760)	(4,190)	(1,893)	(4,315)	(4,522)	(5,137)	(5,772)	(5,781)
TiVo-Owned-related service revenues	32,484	34,252	35,808	37,185	37,607	38,978	41,904	42,393
Average TiVo-Owned revenues per month	10,828	11,417	11,936	12,395	12,536	12,993	13,968	14,131
Average TiVo-Owned per month subscriptions	1,437	1,506	1,560	1,604	1,639	1,656	1,675	1,712
TiVo-Owned ARPU per month	\$ 7.54	\$ 7.58	\$ 7.65	\$ 7.73	\$ 7.65	\$ 7.85	\$ 8.34	\$ 8.25

Table of Contents

The decrease in TiVo-Owned ARPU per month for the quarter ended April 30, 2010 was largely due to a higher number of product lifetime subscriptions that are fully amortized, as compared to the same prior year period. In the fiscal year ending January 31, 2011, we expect TiVo-Owned ARPU per month to be relatively flat as compared to the fiscal year ended January 31, 2010.

We calculate ARPU per month for MSOs/Broadcasters' subscriptions by first subtracting TiVo-Owned-related service revenues (which includes TiVo-Owned subscription service revenues and TiVo-Owned related advertising revenues) from our total reported service revenues. Then we divide average revenues per month for MSOs/Broadcasters' -related service revenues by the average MSOs/Broadcasters' subscriptions for the period. The following table shows this calculation:

MSOs/Broadcasters' Average Revenue per Subscription	April 30,	Jan 31,	Oct 31,	Three Months Ended			Oct 31,	July 31,
	2010	2010	2009	July 31,	April 30,	Jan 31,	2008	2008
	(In thousands, except ARPU)							
Total service revenues	36,244	38,442	37,701	41,500	42,129	44,115	47,676	48,174
Less: TiVo-Owned-related service revenues	(32,484)	(34,252)	(35,808)	(37,185)	(37,607)	(38,978)	(41,904)	(42,393)
*MSOs/Broadcasters' -related service revenues	3,760	4,190	1,893	4,315	4,522	5,137	5,772	5,781
Average MSOs/Broadcasters' revenues per month	1,253	1,397	631	1,438	1,507	1,712	1,924	1,927
Average MSOs/Broadcasters' per month subscriptions	1,120	1,165	1,378	1,521	1,625	1,743	1,868	2,009
*MSOs/Broadcasters' ARPU per month	\$ 1.12	\$ 1.20	\$ 0.46	\$ 0.95	\$ 0.93	\$ 0.98	\$ 1.03	\$ 0.96

* MSOs/Broadcasters-related ARPU in the third quarter ending October 31, 2009 would have been approximately \$0.88, excluding the one time reduction of \$1.8 million in MSOs/Broadcasters-related service revenues related to the one time reduction of 146,000 subscriptions associated with the correction of subscription over-reporting error by DIRECTV previously disclosed.

The MSOs/Broadcasters' related service revenues for the quarter ended April 30, 2010 increased \$0.19 per subscription to \$1.12 per subscription, as compared \$0.93 for the same prior year period. This fluctuation in average revenue per subscription is largely due to increased minimum commitments associated with our distribution agreement with DIRECTV. In the fiscal year ending January 31, 2011, we expect MSOs/Broadcasters' revenue to be higher, as compared to the fiscal year ended January 31, 2010 due to these increased minimum commitments.

Critical Accounting Estimates

In preparing our Condensed Consolidated Financial Statements, we make assumptions, judgments and estimates that can have a significant impact on our revenue, operating income (loss) and net income (loss), as well as on the value of certain assets and liabilities on our Condensed Consolidated Balance Sheets. We base our assumptions, judgments and estimates on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions. At least quarterly, we evaluate our assumptions, judgments and estimates and make changes accordingly. Historically, our assumptions, judgments and estimates relative to our critical accounting estimates have not differed materially from actual results. For further information about our critical accounting estimates, see the discussion under the heading "Critical Accounting Estimates" in our Annual Report on Form 10-K for the fiscal year ended January 31, 2010.

Recent Accounting Pronouncements

There have been no recent accounting pronouncements or changes in accounting pronouncements during the three months ended April 30, 2010, as compared to the recent accounting pronouncements described in the Company's Annual Report on Form 10-K, that are of significance, or potential significance to the Company. The Company is still evaluating the impact of the adoption of new accounting standards which provide guidance for arrangements with multiple deliverables and revenue recognition for tangible products containing software and hardware elements on its consolidated financial statements. Both standards will be effective for TiVo in the first quarter of fiscal year 2012.

Table of Contents**Results of Operations**

Net Revenues. Our net revenues for the three months ended April 30, 2010 and 2009 as a percentage of total net revenues were as follows:

	Three Months Ended April 30,			
	2010		2009	
	(In thousands, except percentages)			
Service revenues	\$ 36,244	59%	\$ 42,129	76%
Technology revenues	\$ 6,973	11%	\$ 6,386	12%
Hardware revenues	\$ 18,169	30%	\$ 6,606	12%
Net revenues	\$ 61,386	100%	\$ 55,121	100%
Change from same prior year period		11%		-10%

Service Revenues. The decrease in TiVo-Owned service revenues of \$5.9 million in the three months ended April 30, 2010 as compared to the same prior year period was due to a lower cumulative subscription base and an increased number of fully-amortized product lifetime subscriptions which no longer generated subscription revenues.

Technology Revenues. Technology revenues for the three months ended April 30, 2010 increased by 9% or \$587,000 as compared to the prior fiscal year primarily due to our continued development work with DIRECTV and Comcast combined with newer development projects for our new distribution channels such as non-DVR devices such as Best Buy's Insignia branded televisions and our development deal with Conax which is a conditional access security provider.

Hardware Revenues. Hardware revenues, net of allowance for sales returns and net of revenue share and marketing development fund payments for the three months ended April 30, 2010, increased by \$11.6 million as compared to the same prior year period. The increase in net hardware revenues for the three months ended April 30, 2010 is related to the increase in the number of units sold during the period as compared to the same prior year period, as our sales volume increased due to the launch of our new TiVo Premiere boxes.

Cost of service revenues.

	Three Months Ended April 30,	
	2010	
	2009	
	(In thousands, except percentages)	
Cost of service revenues	\$ 10,403	\$ 10,150
Change from same prior year period	2%	-9%
Percentage of service revenues	29%	24%
Service gross margin	\$ 25,841	\$ 31,979
Service gross margin as a percentage of service revenues	71%	76%

Cost of service revenues consist primarily of telecommunication and network expenses, employee salaries, service center, credit card processing fees, and other expenses related to providing the TiVo service. Cost of service revenues remained relatively flat, as compared to the same prior year period.

Cost of technology revenues.

	Three Months Ended April 30,	
	2010	
	2009	
	(In thousands, except percentages)	
Cost of technology revenues	\$ 5,021	\$ 4,483
Change from same prior year period	12%	14%
Percentage of technology revenues	72%	70%

Edgar Filing: TIVO INC - Form 10-Q

Technology gross margin	\$ 1,952	\$ 1,903
Technology gross margin as a percentage of technology revenues	28%	30%

Table of Contents

Cost of technology revenues includes costs associated with our development work primarily for Comcast, DIRECTV, and our other international and domestic projects. The 12% increase in cost of technology revenues as compared to the same prior year period is largely due to the increase in technology revenues for the same period.

Cost of hardware revenues.

	Three Months Ended April 30,	
	2010	2009
	(In thousands, except percentages)	
Cost of hardware revenues	\$ 19,219	\$ 10,576
Change from same prior year period	82%	2%
Percentage of hardware revenues	106%	160%
Hardware gross margin	\$ (1,050)	\$ (3,970)
Hardware gross margin as a percentage of hardware revenue	-6%	-60%

Cost of hardware revenues include all product costs associated with the TiVo-enabled DVRs we distribute and sell, including manufacturing-related overhead and personnel, warranty, certain licensing, order fulfillment, and freight costs. We sell this hardware primarily as a means to grow our service revenues and, as a result, do not intend to generate positive gross margins from these hardware sales. Our costs of hardware sales for the three months ended April 30, 2010 increased primarily because we sold significantly more TiVo units as compared to the same prior year periods due to the launch of our new TiVo Premiere boxes.

Hardware gross margin loss for the three months ended April 30, 2010 decreased by \$2.9 million as compared to the same prior year period largely due to the launch and sales of our new TiVo Premiere boxes which cost less to produce than our previous HD DVR offerings which were among the products sold during the same prior year period.

Research and development expenses.

	Three Months Ended April 30,	
	2010	2009
	(In thousands, except percentages)	
Research and development expenses	\$ 18,628	\$ 15,066
Change from same prior year period	24%	2%
Percentage of net revenues	30%	27%

Our research and development expenses consist primarily of employee salaries, related expenses, and consulting expenses. The increase in research and development expenses of \$3.6 million for the three months ended April 30, 2010 was largely related to increased headcount and headcount related costs of \$5.1 million offset by an increased allocation to cost of technology revenues of \$1.3 million for utilization of our engineering staff on development projects generating technology revenues. For the fiscal year ending January 31, 2011 we expect to increase our research and development spending as we believe that investments in research and development are critical to remaining competitive and being a leader in advanced television solutions beyond the DVR.

Sales and marketing expenses.

	Three Months Ended April 30,	
	2010	2009
	(In thousands, except percentages)	
Sales and marketing expenses	\$ 7,760	\$ 5,695
Change from same prior year period	36%	-4%
Percentage of net revenues	13%	10%

Sales and marketing expenses consist primarily of employee salaries and related expenses. The increase for the quarter ended April 30, 2010, as compared to the same prior year period in sales and marketing expenses of \$2.1 million was primarily related to increased headcount and headcount related costs of \$846,000. Additionally we incurred approximately \$1.0 million in increased channel support and other related expenses associated with the launch of our new TiVo Premiere boxes.

Table of Contents**Sales and marketing, subscription acquisition costs.**

	Three Months Ended April 30,	
	2010	2009
	(In thousands, except percentages)	
Sales and marketing, subscription acquisition costs	\$ 3,191	\$ 982
Change from same prior year period	225%	-15%
Percentage of net revenues	5%	2%

Sales and marketing, subscription acquisition costs include advertising expenses and promotional expenses directly related to our efforts to acquire new TiVo-Owned subscriptions to the TiVo service. The increase for the three months ended April 30, 2010, as compared to the same prior year period was largely related to the launch of our next generation TiVo Premiere and TiVo Premiere XL boxes in the retail channel.

General and administrative expenses.

	Three Months Ended April 30,	
	2010	2009
	(In thousands, except percentages)	
General and administrative	\$ 11,697	\$ 12,242
Change from same prior year period	-4%	18%
Percentage of net revenues	19%	22%

General and administrative expenses consist primarily of employee salaries and related expenses for executive, administrative, accounting, information technology systems, facility costs, and legal and professional fees. During the three months ended April 30, 2010, general and administrative expenses decreased by \$545,000 as compared to the same prior year period. The decrease is largely related to lower non cash stock compensation expenses of \$707,000. For the fiscal year ending January 31, 2011 we anticipate higher general and administrative spending due to increased legal activities related to our litigations.

Interest income. Interest income resulting from cash and cash equivalents held in interest bearing accounts and short-term investments for the three months ended April 30, 2010 was \$369,000 or approximately a 94% increase compared to the \$190,000 from the same prior year period. The increase was a result of an increase in the average interest rate earned for the quarter ended April 30, 2010 to approximately 0.58% from 0.33% in the same prior year period as we changed our investment mix, combined with an increased cash balance in the quarter ended April 30, 2010 as compared to the same prior year period.

Liquidity and Capital Resources

We have financed our operations and met our capital expenditure requirements primarily from the proceeds from the sale of equity securities. Our cash resources are subject, in part, to the amount and timing of cash received from our subscriptions, licensing and engineering services customers, and hardware customers. As of April 30, 2010, we had \$255.5 million of cash, cash equivalents, and short-term investments. We believe our cash, cash equivalents and short-term investments, provide sufficient resources to fund operations, capital expenditures, and working capital needs through the next twelve months and beyond.

Our primary sources of liquidity are cash flows provided by operations, investing, and financing activities. Although we currently anticipate these sources of liquidity, together with cash and cash equivalents and short-term investments will be sufficient to meet our cash needs through the next twelve months and beyond, we may require or choose to obtain additional financing. Our ability to obtain financing will depend, among other things, on our development efforts, business plans, operating performance, and the condition of the capital markets at the time we seek financing. We cannot assure you that additional financing will be available to us on favorable terms when required, or at all. If we raise additional funds through the issuance of equity, equity-linked or debt securities, those securities may have rights, preferences or privileges senior to the rights of our common stock, and our stockholders may experience dilution. If we need to raise additional funds in the future and are unable to do so or obtain additional financing on acceptable terms in the future, it is possible we would have to limit certain planned activities including sales and marketing and research and development activities. Please refer to Part II, Item 1A, Risk Factors for further discussion.

Table of Contents**Statement of Cash Flows Discussion**

The following table summarizes our cash flow activities:

	Three Months Ended April 30,	
	2010	2009
	(in thousands)	
Net cash provided by (used in) operating activities	\$ (12,672)	\$ 5,462
Net cash used in investing activities	\$ (14,957)	\$ (23,563)
Net cash provided by financing activities	\$ 24,859	\$ 5,931

Net Cash Provided by (Used in) Operating Activities

During the three months ended April 30, 2010 our net cash used by operating activities was \$12.7 million as compared to net cash provided by operating activities of \$5.5 million during the same prior year period. This change in operating cash flow was largely attributed to our increased net loss of \$10.3 million.

Net Cash Used in Investing Activities

The net cash used in investing activities for the three months ended April 30, 2010 was approximately \$15.0 million compared to \$23.6 million for the same prior year period. The net cash used in investing activities for the fiscal year ended April 30, 2010 was largely related to TiVo's cash management process, and the purchase and sales of short-term investments resulting in a net expenditure of cash and cash equivalents of \$13.8 million (which resulted in a corresponding increase in short-term investments of \$13.8 million). Additionally, during the three months ended April 30 2010, we acquired property and equipment of \$1.2 million which is used to support our business.

Net Cash Provided by Financing Activities

For the three months ended April 30, 2010, the principal sources of cash generated from financing activities was related to the issuance of common stock upon exercise of stock options which generated \$28.7 million which was partially offset by the repurchase of \$3.8 million in restricted stock to satisfy employee tax withholdings.

Financing Agreements

Universal Shelf Registration Statement. We have an effective universal shelf registration statement on Form S-3 (No. 333-146156) on file with the Securities and Exchange Commission under which we may issue up to \$100,000,000 of securities, including debt securities, common stock, preferred stock, and warrants. Depending on market conditions, we may issue securities under this or future registration statements or in private offerings exempt from registration requirements.

Contractual Obligations

Contractual Obligations	Total	Payments due by Period			
		Less than 1 year	1-3 years	3-5 years	Over 5 years
	(In thousands)				
Operating leases	\$ 13,529	\$ 2,146	\$ 3,775	\$ 3,928	\$ 3,680
Purchase obligations	8,996	8,996	0	0	0
Total contractual cash obligations	\$ 22,525	\$ 11,142	\$ 3,775	\$ 3,928	\$ 3,680

Purchase Commitments with Contract Manufacturers and Suppliers. We purchase components from a variety of suppliers and use several contract manufacturers to provide manufacturing services for our products. During the normal course of business, in order to manage manufacturing lead times and help assure adequate component supply, we enter into agreements with contract manufacturers and suppliers that

Edgar Filing: TIVO INC - Form 10-Q

either allow them to procure inventory based upon criteria as defined by us or that establish the parameters defining our requirements. In certain instances, these agreements allow us the option to cancel, reschedule, and adjust our requirements based on our business needs prior to firm orders being placed. The table above displays that portion of our purchase commitments arising from these agreements that is firm, non-cancelable, and unconditional. If there are unexpected changes to anticipated demand for our products or in the sales mix of our products, some of the firm, non-cancelable, and unconditional purchase commitments may result in TiVo being committed to purchase excess inventory.

As of April 30, 2010, gross unrecognized tax benefits, which if recognized would affect the effective tax rate, were approximately \$231,000, which are classified as long-term liabilities in the condensed consolidated balance sheet. At this time, we are unable to make a reasonably reliable estimate of the timing of payments in individual years due to uncertainties in the timing of tax audit outcomes; therefore, such amounts are not included in the above contractual obligation table.

Table of Contents***Off-Balance Sheet Arrangements***

As part of our ongoing business, we generally do not engage in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities. Accordingly, our operating results, financial condition, and cash flows are not generally subject to off-balance sheet risks associated with these types of arrangements. We did not have any material off-balance sheet arrangements as of April 30, 2010.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market risk for changes in interest rates relates primarily to our investment portfolio. We do not use derivative financial instruments in our investment portfolio and we conduct transactions in U.S. dollars. We currently invest the majority of our cash in money market funds, high-grade government and corporate debt, and high-grade foreign corporate and government securities. We maintain our investments with three financial institutions with high credit ratings. We also hold investments in auction rate securities. As part of our cash management process, we perform periodic evaluations of the relative credit ratings of issuers of these securities. We have not experienced any credit losses on our cash, cash equivalents, or short and long-term investments. Our investment portfolio only includes instruments with original maturities of less than two years (with the exception of auction rate securities as discussed below) held for investment purposes, not trading purposes. Due to the short-term nature of our cash equivalents and short-term investments we do not anticipate any material effect on our portfolio due to fluctuations in interest rates.

As of April 30, 2010, we held approximately \$5.0 million principal amount of investments with an auction reset feature (auction-rate securities), with a fair value of \$4.1 million that are classified as a long-term assets. We have recorded an unrealized loss on these auction rate securities of \$852,000. We have no intent to sell these securities and it is more-likely-than not that we will not be required to sell these ARS prior to recovery. Based on our expected operating cash flows, and our other sources of cash, we do not anticipate the potential lack of liquidity on these investments will materially affect our ability to execute our current business plan.

ITEM 4. CONTROLS AND PROCEDURES

We are committed to maintaining disclosure controls and procedures designed to ensure that information required to be disclosed in our periodic reports filed under the Securities Exchange Act of 1934, as amended (the Exchange Act), is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures and implementing controls and procedures based on the application of management's judgment.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures, as defined above, were effective in reaching a reasonable level of assurance as of April 30, 2010 (the end of the period covered by this Report).

There have been no changes in our internal control over financial reporting during the three months ended April 30, 2010 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Inherent Limitations of Disclosure Controls and Procedures and Internal Control over Financial Reporting

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, have been detected. These inherent limitations include the realities that judgments in decision making can be faulty, and that breakdowns can occur because of simple errors or mistakes. Additionally, controls can be circumvented or over-ridden by the individual acts of some persons, by the collusion of two or more people, or by management. The design of any system of controls is also based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future

conditions. Because of the inherent limitations in a cost-effective control system, misstatements or omissions due to error or fraud may occur and not be detected.
