CONTANGO OIL & GAS COMPANY

NEWS RELEASE

Contango Announces Exploration Discovery

AUGUST 22, 2013 HOUSTON, TX Contango Oil & Gas Company (NYSE MKT:MCF) today announced an exploration discovery at its South Timbalier 17 prospect, located in State of Louisiana waters and operated by Contango Operators, Inc. (COI), a wholly-owned subsidiary of the Company.

The well was drilled to a total measured depth of approximately 11,400 feet and the wireline logs of the well indicate the presence of hydrocarbons. Estimated reserves and production rates will be dependent upon the liquids content of the formation, which will be better defined once we complete and test the well. We are proceeding with development, including securing production facilities. Estimated costs net to Contango to drill, complete and bring this well to full production status are \$12.5 million.

Contango has a 75% working interest (53.25% net revenue interest) before payout of all costs, and a 59.3% working interest (42.1% net revenue interest) after payout.

Joseph J. Romano, Contango's Chairman and Chief Executive Officer, said, "We are pleased to have our first offshore discovery this year and are eager to drill additional offshore wells in our inventory. Our exploration permits have been approved on three of our prospects, and we hope to spud our next well, Ship Shoal 255, before the end of the year.

Our merger with Crimson Exploration, Inc. is on schedule, and we expect to complete and begin mailing our proxy material for the merger next week.

Contango is a Houston-based, independent natural gas and oil company. The Company's business is to explore, develop, produce and acquire natural gas and oil properties onshore and offshore in the shallow waters of the Gulf of Mexico.
