Item 2.02 Results of Operations and Financial Condition.

On February 21, 2019, we issued a press release announcing our financial results for the quarter and year ended December 31, 2018. A copy of the press release is attached as Exhibit 99.1.

The information in this Form 8-K and the attached exhibit shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that section, nor shall it be deemed incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

Item 8.01 Other Events

EBITDA and Adjusted EBITDA are non-GAAP measures as defined under the rules of the SEC. We define EBITDA as net income (loss) before interest expense, income taxes, depreciation and amortization. We define Adjusted EBITDA for the periods presented as EBITDA adjusted for the following: (1) merger costs, net of merger breakup fee proceeds; and (2) the loss from early extinguishment of debt.

We use EBITDA and Adjusted EBITDA in our business operations to, among other things, evaluate the performance of our business, develop budgets and measure our performance against those budgets. We also believe that analysts and investors use EBITDA and Adjusted EBITDA as supplemental measures to evaluate a company's overall operating performance. However, EBITDA and Adjusted EBITDA have material limitations as analytical tools and you should not consider them in isolation, or as substitutes for analysis of our results as reported under GAAP. We consider them useful tools to assist us in evaluating performance because they eliminate items related to capital structure, taxes and non-cash charges. The items that we have eliminated in determining EBITDA for the periods presented are interest expense, income taxes, depreciation of fixed assets (which includes rental equipment and property and equipment) and amortization of intangible assets and, in the case of Adjusted EBITDA, any other non-recurring items described above applicable to the particular period. However, some of these eliminated items are significant to our business. For example, (i) interest expense is a necessary element of our costs and ability to generate revenue because we incur a significant amount of interest expense related to our outstanding indebtedness; (ii) payment of income taxes is a necessary element of our costs; and (iii) depreciation is a necessary element of our costs and ability to generate revenue because rental equipment is the single largest component of our total assets and we recognize a significant amount of depreciation expense over the estimated useful life of this equipment. Any measure that eliminates components of our capital structure and costs associated with carrying significant amounts of fixed assets on our consolidated balance sheet has material limitations as a performance measure. In light of the foregoing limitations, we do not rely solely on EBITDA and Adjusted EBITDA as performance measures and also consider our GAAP results. EBITDA and Adjusted EBITDA are not measurements of our financial performance under GAAP and should not be considered alternatives to net income, operating income or any other measures derived in accordance with GAAP. Because EBITDA and Adjusted EBITDA may not be calculated in the same manner by all companies, these measures may not be comparable to other similarly titled measures by other companies.
