FRANCHISE CAPITAL CORPORATION

NOTES TO FINANCIAL STATEMENTS

FOR THE PERIOD ENDED MARCH 31, 2007

NOTE 1 - ORGANIZATION AND BASIS OF PRESENTATION

Franchise Capital Corporation (the "Company") a Nevada corporation, was incorporated on July 6, 2001. The Company was formerly named Cortex Systems, Inc. In December of 2004 the Company changed its name to Franchise Capital Corporation, to more accurately reflect its business of developing and franchising casual dining restaurants. The Company acquired the rights to four franchise concepts. Effective December 24, 2004, the Company became an internally managed, closed end investment company electing to be treated as a business development company under the Investment Company Act of 1940, as amended.

In August 2006, the Company abandoned its business model and liquidated all of its investment holdings. On March 13, 2007, the Company held a shareholder meeting at which the Company's shareholders voted to withdraw the Company's election to be a business development company as defined by the 1940 Act. On March 13, 2007, the Company filed for N-54C to formally withdraw the Company's BDC status.

On January 12, 2007 the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the shareholders of Aero will become the majority shareholders of the Company. The share exchange is expected to be consummated at the end of the second quarter of 2007.

Following the share exchange, the Company's business will be that of Aero Exhaust. Aero designs and manufactures performance exhaust systems for both street and race applications. Aero Exhaust has been issued U.S. and Australian patents on its innovations and development in the exhaust industry, and its mufflers are available worldwide through major retailers, mass merchant centers, automotive aftermarket supply stores and wholesalers. Aero Exhaust mufflers are an exclusive National Association for Stock Car Auto Racing (NASCAR) Performance product and carry the NASCAR brand on product, packaging and related media.

Withdrawal as a Business Development Company

On December 23, 2006, the Company filed an election with the U.S. Securities and Exchange Commission to become a business development company pursuant to Section 54 of the Investment Company Act of 1940. On August 26, 2005, the Board of Directors unanimously approved the proposal to withdraw the Company's election to be treated as a business development company ("BDC") as soon as practicable so that it could begin conducting business as an

operating company rather than as a business development company subject to the Investment Company Act. On March 13, 2007, the holders of a majority of the outstanding shares of the Company's common stock approved the proposal to withdraw the Company's election to be treated as a BDC, and on March 13, 2007, a Notification of Withdrawal was filed with the Securities and Exchange Commission. The change in the Company's status eliminates the Company's ability to utilize the fair value method of accounting for subsidiaries that is required of investment companies (see below). In addition, certain financial statement disclosures such as the Statement of Changes in Net Assets and the Schedule of Investments are no longer required or applicable.

Significant change in method of accounting

The election to withdraw the Company's election as a BDC under the Investment Company Act has resulted in a significant change in the Company's required method of accounting. Investment company financial statement presentation and accounting utilizes the fair value method of accounting for recording ownership in portfolio or subsidiary companies. This treatment requires that BDCs value their investments at market value as opposed to historical cost. With the Company's withdrawal from the Investment Company Act, the required financial statement presentation and accounting for securities held will be either the equity method or consolidation of accounting depending on the classification of the investment and the Company's ownership percentage.

Effect

As an operating company, the Company must consolidate its financial statements with subsidiaries, thus eliminating the fair value reporting required by BDC's. As a result, in accordance with FAS 154, the accompanying financial statements have been presented on an operating and consolidated basis for all periods presented on a retrospective basis. The effect on the March 31, 2007 financial statements was negligible since all material investment holdings were either liquidated in prior periods or written off.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred material operating losses, has continued operating cash flow deficiencies and has working capital deficit at March 31, 2007. These factors raise substantial doubt about the Company's ability to continue as a going concern. The Company believes that the share exchange with Aero Exhaust will be successful and result in the Company's achieving profitability in the short term; however, the Company has not consummated this transaction and there is no guarantee that Aero's operations will prove profitable. The accompanying financial statements do not include any adjustments that might result from this uncertainty. These financial statements should be read in conjunction with the Company's annual report for the year ended June 30, 2006 as filed on Form 10-K.

NOTE 2 COMMON STOCK

Between February and April 2007, the Company converted 100% of the Series C Preferred Stock into shares of common stock. This conversion resulted in the issuance of 1,232,500 shares of restricted common stock. As of March 31, 2007, there were 139,875 shares of preferred stock outstanding, which were converted into 139,875 shares of common stock in April 2007.

In November 2006, the Company agreed to settle litigation with Golden Gate Investors on the past-due convertible debenture which had a principle balance due of \$220,927. Under the terms of the settlement, the Company placed 850,000,000 shares of its restricted common stock into an escrow account for satisfaction of the debenture. Golden Gate is allowed to withdraw the shares from escrow provided that their overall holdings in the Company do not exceed 4.9% of all issued and outstanding common stock. The debenture obligation is reduced by 80% of the average of the five lowest closing bid prices of the Company's common stock over a 90-day period prior to the share withdrawal multiplied by the number of shares being withdrawn. The difference between the value of the shares issued into escrow and the value of the debenture payable was \$2,578,766 and has been recorded as settlement costs in the accompanying financial statements. Under the terms of this settlement, as of March 31, 2007, 699,282,442 shares have been released from escrow and the debenture balance has been reduced to \$155,096.

In connection with the debenture settlement with Golden Gate, Golden Gate entered into a stock purchase agreement which required Golden Gate to purchase \$100,000 of the Company's restricted common stock for every \$10,000 in debenture redeemed through the escrow. As of March 31, 2007, the Company sold 387,238 shares of restricted common stock under the agreement for proceeds of \$287,238. The Company also received \$1,680,669 from Golden

Gate as an advance on future stock purchases under the agreement.

NOTE 3 - SUBSEQUENT EVENTS

In November 2006, the Company agreed to settle litigation with Golden Gate Investors on the past-due convertible debenture which had a principle balance due of \$220,927. Under the terms of the settlement, the Company placed 850,000,000 shares of its restricted common stock into an escrow account for satisfaction of the debenture. Golden Gate is allowed to withdraw the shares from escrow provided that their overall holdings in the Company do not exceed 4.9% of all issued and outstanding common stock. Subsequent to March 31, 2007, the Company released an additional 87,274,720 shares from escrow, leaving a total of 616,551,055 remaining in escrow and an unconverted debenture balance of \$92,854 as of May 23, 2007.

In connection with the debenture settlement with Golden Gate, Golden Gate entered into a stock purchase agreement which required Golden Gate to purchase \$100,000 of the Company's restricted common stock for every \$10,000 in debenture redeemed through the escrow. Subsequent to the quarter ended March 31, 2007, the Company received an additional \$300,000 from Golden Gate as an advance on future stock purchases under the agreement, of which 1,290,769 shares of restricted common stock were subsequently purchased for \$1,290,769, leaving a total stock payable as of May 23, 2007 of \$689,900.

FORWARD-LOOKING STATEMENTS

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact are forward-looking statements for purposes of federal and state securities laws, including, but not limited to, any projections of earnings, revenue or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new services or developments; any statements regarding future economic conditions or performance; any statements or belief; and any statements of assumptions underlying any of the foregoing.

Forward-looking statements may include the words may, could, estimate, intend, continue, believe, anticipate or other similar words. These forward-looking statements present our estimates and assumptions only as of the date of this report. Accordingly, readers are cautioned not to place undue reliance on forward-looking statements, which speak only as of the dates on which they are made. We do not undertake to update forward-looking statements to reflect the impact of circumstances or events that arise after the dates they are made. You should, however, consult further disclosures we make in future filings of our Annual Report on Form 10-KSB, Quarterly Reports on Form 10-QSB and Current Reports on Form 8-K.

Item 2. Management's Discussion and Analysis or Plan of Operation

General

Franchise Capital Corporation (the Company) was formed as a Nevada corporation on July 6, 2001 under the name Cortex Systems, Inc. They were originally a development stage company that intended to establish memory clinics in several different locations in North America. Unfortunately, the Company was unable to successfully execute its business plan. In July of 2003, the Company changed its name to BGR Corporation. Along with the name change came a new management and ownership team. The intention of management is to acquire new innovative fast-casual restaurant concepts, develop them into a profitable working design, and franchise them across the country. The Corporation's partner, American Restaurant Development Company, is a professional restaurant designer, franchiser, and restaurant management company where principles have extensive experience in the industry. In December of 2004 the Company changed its name to Franchise Capital Corporation. The names Franchise Capital Corporation, "we", "our" and "us" used in this report refer to Franchise Capital Corporation.

On December 23, 2004, the company elected to be regulated as a Business Development Company (BDC) as outlined in the Investment Company Act of 1940 by filing a Form N-54A. As a BDC, the Company focused on investing and developing restaurant franchise companies and made several investments (discussed below). During the fourth quarter of 2006, the Company abandoned its business model and liquidated all of its investment holdings. On March 13, 2007, the Company held a shareholder meeting at which the Company's shareholders voted to withdraw the Company's election to be a business development company as defined by the 1940 Act. On March 13, 2007, the Company filed for N-54C to formally withdraw the Company's BDC status.

Edgar Filing: Franchise Capital CORP - Form 10QSB

On January 12, 2007, the Company executed a definitive share exchange agreement with TTR HP, Inc. (dba Aero Exhaust, Inc.) pursuant to which the Company agreed to exchange shares of its common stock to acquire 100% of the total issued and outstanding stock of Aero. Once the share exchange is complete, the Company anticipates that the shareholders of Aero will become the majority shareholders of the Company. The share exchange is expected to be consummated at the end of the second quarter of 2007.

Following the share exchange, the Company's business will be that of Aero Exhaust. Aero designs and manufactures performance exhaust systems for both street and race applications. Aero Exhaust has been issued U.S. and Australian patents on its innovations and development in the exhaust industry, and its mufflers are available worldwide through major retailers, mass merchant centers, automotive aftermarket supply stores and wholesalers. Aero Exhaust mufflers are an exclusive National Association for Stock Car Auto Racing (NASCAR) Performance product and carry the NASCAR brand on product, packaging and related media.

RESULTS OF OPERATIONS

Edgar Filing: Franchise Capital CORP - Form 10QSB

Three months ended March 31, 2007 compared to three months ended March 31, 2006

During the quarter ended March 31, 2007, the Company experienced a net loss of \$88,280 compared to a net loss of \$59,285 for the same period in 2006. The Company attributes the \$28,995 decrease in net loss primarily to a \$23,751 gain from discontinued operations reported in the same period in 2006.

The Company generated no revenues for the three month period ended March 31, 2007 and March 31, 2006.

Nine months ended March 31, 2007 compared to nine months ended March 31, 2006

During the nine months ended March 31, 2007, the Company experienced a net loss of \$3,157,113 compared to a net loss of \$884,827 for the same period in 2006. The current loss is primarily due to settlement costs of \$2,578,766 related to debt reduction of \$220,927.

For the nine months ended March 31, 2007, the Company reported no revenue compared to \$1,750 for the same period in 2006. The prior period revenues were generated from consulting income.

Liquidity and Capital Resources

The Company's financial statements present an impairment in terms of liquidity. As of March 31, 2007 the Company had \$173,535 in current liabilities and \$30,740 in current assets. The Company has accumulated \$10,345,237 of net operating losses through March 31, 2007 which may be used to reduce taxes in future years through 2027. The use of these losses to reduce future income taxes will depend on the generation of sufficient taxable income prior to the expiration of the net operating loss carry forwards. The potential tax benefit of the net operating loss carry forwards have been offset by a valuation allowance of the same amount. The Company has not yet established revenues to cover its operating costs. Management believes that the share exchange with Aero Exhaust will be successful and result in the Company's achieving profitability in the short term; however, the Company has consummated this transaction and there is no guarantee that Aero's operations will prove profitable. In the event the Company is unable to generate profits and if suitable financing is unavailable, there is substantial doubt about the Company's ability to continue as a going concern.

RISKS RELATED TO OUR BUSINESS

We Have Historically Lost Money and Losses May Continue in the Future

We have historically lost money. The loss for the 2006 fiscal year was \$933,602 and future losses are likely to occur. Accordingly, we may experience significant liquidity and cash flow problems if we are not able to raise additional capital as needed and on acceptable terms. No assurances can be given we will be successful in reaching or maintaining profitable operations.

We Will Need to Raise Additional Capital to Finance Operations

Our operations have relied almost entirely on external financing to fund our operations. Such financing has historically come from a combination of borrowings and from the sale of common stock and assets to third parties. We will need to raise additional capital to fund our anticipated operating expenses and future expansion. Among other things, external financing will be required to cover our operating costs. We cannot assure you that financing whether from external sources or related parties will be available if needed or on favorable terms. The sale of our common stock to raise capital may cause dilution to our existing shareholders. Our inability to obtain adequate financing will result in the need to curtail business operations. Any of these events would be materially harmful to our business and may result in a lower stock price.

There is Substantial Doubt About Our Ability to Continue as a Going Concern Due to Recurring Losses and Working Capital Shortages, Which Means that We May Not Be Able to Continue Operations Unless We Obtain Additional Funding

The report of our independent accountants on our June 30, 2006 financial statements include an explanatory paragraph indicating that there is substantial doubt about our ability to continue as a going concern due to recurring losses and working capital shortages. Our ability to continue as a going concern will be determined by our ability to obtain additional funding. Our financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Our Common Stock May Be Affected By Limited Trading Volume and May Fluctuate Significantly

Prior to this offering, there has been a limited public market for our common stock and there can be no assurance that an active trading market for our common stock will develop. As a result, this could adversely affect our shareholders' ability to sell our common stock in short time periods, or possibly at all. Our common stock has experienced, and is likely to experience in the future, significant price and volume fluctuations that could adversely affect the market price of our common stock without regard to our operating performance. In addition, we believe that factors such as quarterly fluctuations in our financial results and changes in the overall economy or the condition of the financial markets could cause the price of our common stock to fluctuate substantially. Substantial fluctuations in our stock price could significantly reduce the price of our stock.

Our Common Stock is Traded on the "Pink Sheets," Which May Make it More Difficult For Investors to Resell Their Shares Due to Suitability Requirements

Our common stock is currently traded on the Pink Sheets where we expect it to remain for the foreseeable future. Broker-dealers often decline to trade in Pink Sheet stocks given that the market for such securities is often limited, the stocks are more volatile, and the risks to investors are greater. These factors may reduce the potential market for our common stock by reducing the number of potential investors. This may make it more difficult for investors in our common stock to sell shares to third parties or to otherwise dispose of them. This could cause our stock price to decline.

We Could Fail to Retain or Attract Key Personnel

Our future success depends in significant part on the continued services of Steven Peacock, our Chief Executive. We cannot assure you we would be able to find an appropriate replacement for key personnel. Any loss or interruption of our key personnel's services could adversely affect our ability to develop our business plan. We have no employment agreements or life insurance on Mr. Peacock.

Nevada Law and Our Charter May Inhibit a Takeover of Our Company That Stockholders May Consider Favorable

Provisions of Nevada law, such as its business combination statute, may have the effect of delaying, deferring or preventing a change in control of our company. As a result, these provisions could limit the price some investors might be willing to pay in the future for shares of our common stock.

Our Officers and Directors Have the Ability to Exercise Significant Influence Over Matters Submitted for Stockholder Approval and Their Interests May Differ From Other Stockholders

Our Chairman of the Board of Directors has the ability to vote a majority of the Company's issued and outstanding common shares by virtue of the stock power contained within the escrow agreement with Golden Gate Investors. Accordingly, he may have significant influence in determining the outcome of any corporate transaction or other matter submitted to our shareholders for approval, including issuing common and preferred stock, electing directors and appointing officers, and effecting recapitalizations of our equity, which could have a material impact on mergers, acquisitions, consolidations and the sale of all or substantially all of our assets, and also the power to prevent or cause a change in control. The interests of our Chairman may differ from the interests of the other stockholders.

Item 3. Controls and Procedures

We maintain disclosure controls and procedures designed to ensure that information required to be disclosed in reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the specified time periods. As of the end of the period covered by this report, Steven Peacock, our chief executive officer/chief financial officer evaluated the effectiveness of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15. Mr. Peacock concluded that our disclosure controls and procedures are effective in timely alerting them to material information required to be included in our periodic SEC filings. There were no changes in our internal control over financial reporting that occurred during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

It should be noted, however, that no matter how well designed and operated, a control system can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems (including faulty judgments in decision making or breakdowns resulting from simple errors or mistakes), there can be no assurance that any design will succeed in achieving its stated goals under all potential conditions. Additionally, controls can be circumvented by individual acts, collusion or by management override of the controls in place.

Item 2. Changes in Securities

Between February and April 2007, the Company converted 100% of the Series C Preferred Stock into shares of common stock. This conversion resulted in the issuance of 1,232,500 shares of restricted common stock. As of March 31, 2007, there were 139,875 shares of preferred stock outstanding, which were converted into 139,875 shares of common stock in April 2007.

In November 2006, the Company agreed to settle litigation with Golden Gate Investors on the past-due convertible debenture which had a principle balance due of \$220,927. Under the terms of the settlement, the Company placed 850,000,000 shares of its restricted common stock into an escrow account for satisfaction of the debenture. Golden Gate is allowed to withdraw the shares from escrow provided that their overall holdings in the Company do not exceed 4.9% of all issued and outstanding common stock. The debenture obligation is reduced by 80% of the average of the five lowest closing bid prices of the Company's common stock over a 90-day period prior to the share withdrawal multiplied by the number of shares being withdrawn. The difference between the value of the shares issued into escrow and the value of the debenture payable was \$2,578,766 and has been recorded as settlement costs in the accompanying financial statements. Under the terms of this settlement, as of March 31, 2007, 699,282,442 shares have been released from escrow and the debenture balance has been reduced to \$155,096.

In connection with the debenture settlement with Golden Gate, Golden Gate entered into a stock purchase agreement which required Golden Gate to purchase \$100,000 of the Company's restricted common stock for every \$10,000 in debenture redeemed through the escrow. As of March 31, 2007, the Company sold 387,238 shares of restricted common stock under the agreement for proceeds of \$287,238. SECTION 302

CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Steven Peacock, certify that:

1. I have reviewed this quarterly report on Form 10-QSB of Franchise Capital Corporation;

(2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

(3) Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

(4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

Edgar Filing: Franchise Capital CORP - Form 10QSB

(d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

(5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):

(a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
