THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements include the accounts of The Estée Lauder Companies Inc. and its subsidiaries (collectively, the Company). All significant intercompany balances and transactions have been eliminated.

The unaudited interim consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments of a normal recurring nature considered necessary for a fair presentation have been included. The results of operations of any interim period are not necessarily indicative of the results of operations to be expected for the full fiscal year. For further information, refer to the consolidated financial statements and accompanying footnotes included in the Company's Annual Report on Form 10-K for the year ended June 30, 2009.

In accordance with recently adopted accounting guidance, net earnings attributable to The Estée Lauder Companies Inc. and net earnings attributable to noncontrolling interests are disclosed separately on the face of the accompanying consolidated statements of earnings. In addition, noncontrolling interests are reported as a separate component of equity in the consolidated balance sheets. Accordingly, certain amounts in the consolidated financial statements of prior periods have been reclassified to conform to current period presentation.

Management Estimates

The preparation of financial statements and related disclosures in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses reported in those financial statements. Certain significant accounting policies that contain subjective management estimates and assumptions include those related to revenue recognition, inventory, pension and other post-retirement benefit costs, goodwill, intangible assets and other long-lived assets, income taxes and derivatives. Descriptions of these policies are discussed in the Company's Annual Report on Form 10-K for the year ended June 30, 2009. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, and makes adjustments when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ significantly from those estimates and assumptions. Significant changes, if any, in those estimates resulting from continuing changes in the economic environment will be reflected in the consolidated financial statements in future periods.

Currency Translation and Transactions

All assets and liabilities of foreign subsidiaries and affiliates are generally translated at period-end rates of exchange, while revenue and expenses are translated at weighted average rates of exchange for the period. Translation gains or losses are reported as cumulative translation adjustments through other comprehensive income (loss). Such adjustments amounted to \$45.8 million and \$38.5 million of unrealized translation losses, net of tax, during the three months ended March 31, 2010 and 2009, respectively, and \$12.1 million and \$247.2 million of unrealized translation losses, net of tax, during the nine months ended March 31, 2010 and 2009, respectively. For the Company's subsidiary operating in a highly inflationary economy, the U.S. dollar is the functional currency. Remeasurement adjustments in financial statements in a highly inflationary economy and other transactional gains and losses are reflected in earnings. The accompanying consolidated statements of earnings include net exchange losses on foreign currency transactions of \$8.5 million and \$5.2 million during the three months ended March 31,

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

2010 and 2009, respectively, and \$22.0 million and \$31.3 million during the nine months ended March 31, 2010 and 2009, respectively.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS***Accounts Receivable*

Accounts receivable is stated net of the allowance for doubtful accounts and customer deductions totaling \$39.7 million and \$41.4 million as of March 31, 2010 and June 30, 2009, respectively.

Concentration of Credit Risk

The Company is a worldwide manufacturer, marketer and distributor of skin care, makeup, fragrance and hair care products. Domestic and international sales are made primarily to department stores, perfumeries and specialty retailers. The Company grants credit to all qualified customers and does not believe it is exposed significantly to any undue concentration of credit risk.

The Company's largest customer sells products primarily within the United States and accounted for \$215.0 million, or 12%, and \$213.6 million, or 13%, of the Company's consolidated net sales for the three months ended March 31, 2010 and 2009, respectively, and \$686.5 million, or 12%, and \$716.5 million, or 13%, of the Company's consolidated net sales for the nine months ended March 31, 2010 and 2009, respectively. This customer accounted for \$128.8 million, or 13%, and \$97.1 million, or 11%, of the Company's accounts receivable at March 31, 2010 and June 30, 2009, respectively.

Inventory and Promotional Merchandise

	March 31 2010		June 30 2009
	(In millions)		
Inventory and promotional merchandise, net consists of:			
Raw materials	\$ 209.3	\$	188.5
Work in process	35.6		43.8
Finished goods	387.0		375.6
Promotional merchandise	152.6		187.1
	\$ 784.5	\$	795.0

Property, Plant and Equipment

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Property, plant and equipment consists of:

	March 31 2010	(In millions)		June 30 2009
Assets (Useful Life)				
Land	\$	14.4	\$	14.5
Buildings and improvements (10 to 40 years)		184.2		183.2
Machinery and equipment (3 to 10 years)		1,159.6		1,080.2
Furniture and fixtures (5 to 10 years)		89.4		86.1
Leasehold improvements		1,101.3		1,112.8
		2,548.9		2,476.8
Less accumulated depreciation and amortization		1,536.4		1,450.1
	\$	1,012.5	\$	1,026.7

The cost of assets related to projects in progress of \$153.4 million and \$144.9 million as of March 31, 2010 and June 30, 2009, respectively, is included in their respective asset categories in the table above. Depreciation and amortization of property, plant and equipment was \$66.3 million and \$61.7 million during the three months ended March 31, 2010 and 2009, respectively, and \$187.5 million and \$181.0 million during the nine months ended March 31, 2010 and 2009, respectively. Depreciation and amortization related to the Company's manufacturing process is included in cost of sales and all other depreciation and amortization is included in selling, general and administrative expenses in the accompanying consolidated statements of earnings.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Income Taxes

The effective rate for income taxes was 46.4% and 43.1% for the three months ended March 31, 2010 and 2009, respectively, and 33.6% and 36.7% for the nine months ended March 31, 2010 and 2009, respectively. The changes in the effective income tax rate for both periods were primarily attributable to the impact relating to the Company's foreign operations.

As of March 31, 2010 and June 30, 2009, the gross amount of unrecognized tax benefits, exclusive of interest and penalties, totaled \$249.7 million and \$259.1 million, respectively. The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$131.6 million. The total gross interest and penalties accrued related to unrecognized tax benefits during the three and nine months ended March 31, 2010 in the accompanying consolidated statements of earnings was \$3.5 million and \$6.8 million, respectively. The total gross accrued interest and penalties in the accompanying consolidated balance sheets at March 31, 2010 and June 30, 2009 was \$74.9 million and \$67.9 million, respectively. On the basis of the information available as of March 31, 2010, it is reasonably possible that the total amount of unrecognized tax benefits could decrease in a range of \$50 million to \$80 million within 12 months as a result of projected resolutions of global tax examinations and controversies and a potential lapse of the applicable statutes of limitations.

Recently Adopted Accounting Standards

In February 2010, the Financial Accounting Standards Board (FASB) amended its authoritative guidance related to subsequent events to alleviate potential conflicts with current United States Securities and Exchange Commission (SEC) guidance. Effective immediately, these amendments remove the requirement that an SEC filer disclose the date through which it has evaluated subsequent events. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In January 2010, the FASB issued authoritative guidance that will require entities to make new disclosures about recurring or nonrecurring fair-value measurements of assets and liabilities, including 1) the amounts of significant transfers between Level 1 and Level 2 fair-value measurements and the reasons for the transfers, 2) the reasons for any transfers in or out of Level 3, and 3) information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of recurring Level 3 fair value measurements. The FASB also clarified existing fair-value measurement disclosure guidance about the level of disaggregation of assets and liabilities, and information about the valuation techniques and inputs used in estimating Level 2 and Level 3 fair-value measurements. Except for certain detailed Level 3 disclosures, which are effective for fiscal years beginning after December 15, 2010 and interim periods within those years, the new guidance became effective for the Company's fiscal 2010 third quarter. The Company did not have transfers of assets and liabilities in or out of Level 1 and Level 2 fair-value measurements and does not have assets and liabilities requiring Level 3 fair-value measurements. The adoption of this disclosure-only guidance is included in Note 5 Fair Value Measurements and did not have an impact on the Company's consolidated financial results.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

In August 2009, the FASB issued authoritative guidance to provide clarification on measuring liabilities at fair value when a quoted price in an active market is not available. In these circumstances, a valuation technique should be applied that uses either the quote of the liability when traded as an asset, the quoted prices for similar liabilities or similar liabilities when traded as assets, or another valuation technique consistent with existing fair value measurement guidance, such as an income approach or a market approach. The new guidance also clarifies that when estimating the fair value of a liability, a reporting entity is not required to include a separate input or adjustment to other inputs relating to the existence of a restriction that prevents the transfer of the liability. This guidance became effective for the Company's fiscal 2010 second quarter and did not have an impact on the Company's consolidated financial statements.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In June 2009, the FASB established the FASB Accounting Standards Codification™ (the Codification) as the single source of authoritative U.S. generally accepted accounting principles (U.S. GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative U.S. GAAP for SEC registrants. The Codification did not have a material impact on the Company's consolidated financial statements upon adoption. Accordingly, the Company's notes to consolidated financial statements will explain accounting concepts rather than cite the topics of specific U.S. GAAP.

In April 2009, the FASB issued authoritative guidance that principally requires publicly traded companies to provide disclosures about fair value of financial instruments in interim financial information. The adoption of this disclosure-only guidance in the Company's fiscal 2010 first quarter is included in Note 5 Fair Value Measurements and did not have an impact on the Company's consolidated financial results.

In April 2009, the FASB issued authoritative guidance to require that assets acquired and liabilities assumed in a business combination that arise from contingencies be recognized at fair value if fair value can be reasonably determined. If the fair value of such assets or liabilities cannot be reasonably determined, then they would generally be recognized in accordance with certain other pre-existing accounting standards. This guidance also amends the subsequent accounting for assets and liabilities arising from contingencies in a business combination and certain other disclosure requirements. This guidance became effective for assets or liabilities arising from contingencies in business combinations that are consummated on or after the beginning of the Company's fiscal 2010 and did not have an impact on the Company's consolidated financial statements.

In November 2008, the FASB issued authoritative guidance regarding the accounting for defensive intangible assets. Defensive intangible assets are assets acquired in a business combination that the acquirer (a) does not intend to use or (b) intends to use in a way other than the assets highest and best use as determined by an evaluation of market participant assumptions. While defensive intangible assets are not being actively used, they are likely contributing to an increase in the value of other assets owned by the acquiring entity. This guidance will require defensive intangible assets to be accounted for as separate units of accounting at the time of acquisition and the useful life of such assets would be based on the period over which the assets will directly or indirectly affect the entity's cash flows. This guidance is to be applied prospectively for defensive intangible assets acquired on or after the beginning of the Company's fiscal 2010 and did not have an impact on the Company's consolidated financial statements.

In November 2008, the FASB issued authoritative guidance to address questions about equity-method accounting. The primary issues include how the initial carrying value of an equity method investment should be determined, how to account for any subsequent purchases and sales of additional ownership interests, and whether the investor must separately assess its underlying share of the investee's indefinite-lived intangible assets for impairment. This guidance became effective beginning in the Company's fiscal 2010 and did not have an impact on the Company's consolidated financial statements.

In April 2008, the FASB issued authoritative guidance to amend the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset and to require additional disclosures. The guidance for

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

determining useful lives must be applied prospectively to intangible assets acquired after the effective date. The disclosure requirements must be applied prospectively to all intangible assets recognized as of the effective date. This guidance became effective for fiscal years, and interim periods within those fiscal years, beginning in the Company's fiscal 2010 and did not have a material impact on the Company's consolidated financial statements.

In February 2008, the FASB issued authoritative guidance that permitted the delayed application of fair value measurement accounting to nonrecurring nonfinancial assets and nonfinancial liabilities. The Company's nonfinancial assets and nonfinancial liabilities principally consist of intangible assets acquired through business combinations, long-lived assets when assessing potential impairment, and liabilities associated with restructuring activities. This guidance became effective beginning in the Company's fiscal 2010. See Note 5 Fair Value Measurements for further discussion on the application of fair value measurements.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

In December 2007, the FASB issued authoritative guidance to affirm that the acquisition method of accounting (previously referred to as the purchase method) be used for all business combinations and for an acquirer to be identified for each business combination. This guidance defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as the date that the acquirer achieves control. Among other requirements, this guidance requires the acquiring entity in a business combination to recognize the identifiable assets acquired, liabilities assumed and any noncontrolling interest in the acquiree at their acquisition-date fair values, with limited exceptions; acquisition-related costs generally will be expensed as incurred. This guidance requires certain financial statement disclosures to enable users to evaluate and understand the nature and financial effects of the business combination. This guidance must be applied prospectively to business combinations that are consummated on or after July 1, 2009. During the nine months ended March 31, 2010, the Company did not have significant business combinations. Accordingly, the adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued authoritative guidance to establish accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. Among other requirements, this guidance clarifies that a noncontrolling interest in a subsidiary, which is sometimes referred to as minority interest, is to be reported as a separate component of equity in the consolidated financial statements. This guidance also requires consolidated net income to include the amounts attributable to both the parent and the noncontrolling interest and to disclose those amounts on the face of the consolidated statement of earnings. This guidance must be applied prospectively for fiscal years, and interim periods within those fiscal years, beginning in the Company's fiscal 2010, except for the presentation and disclosure requirements, which will be applied retrospectively for all periods presented. The adoption of this guidance did not have a material impact on the Company's consolidated financial statements.

In December 2007, the FASB issued authoritative guidance to address accounting for collaborative arrangement activities that are conducted without the creation of a separate legal entity for the arrangement. Revenues and costs incurred with third parties in connection with the collaborative arrangement should be presented gross or net by the collaborators pursuant to pre-existing accounting standards. Payments to or from collaborators should be presented in the income statement based on the nature of the arrangement, the nature of the company's business and whether the payments are within the scope of other accounting literature. Other detailed information related to the collaborative arrangement is also required to be disclosed. The requirements under this guidance must be applied to collaborative arrangements in existence at the beginning of the Company's fiscal 2010 using a modified version of retrospective application. The Company is currently not a party to significant collaborative arrangement activities, as defined by this guidance, and therefore the adoption of this guidance did not have an impact on the Company's consolidated financial statements.

Recently Issued Accounting Standards

In June 2009, the FASB issued authoritative guidance to eliminate the exception to consolidate a qualifying special-purpose entity, change the approach to determining the primary beneficiary of a variable interest entity and require companies to more frequently re-assess whether they must consolidate variable interest entities. Under the new guidance, the primary beneficiary of a variable interest entity is identified qualitatively as the enterprise that has both (a) the power to direct the activities of a variable interest entity that most significantly impact the entity's economic performance, and (b) the obligation to absorb losses of the entity that could potentially be significant to the variable interest entity or the right to receive benefits from the entity that could potentially be significant to the variable interest entity. This guidance becomes

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

effective for the Company's fiscal 2011 year-end and interim reporting periods thereafter. The Company does not maintain any variable interests with unconsolidated entities that would be expected to have a material impact on its financial condition or results of operations. Accordingly, the Company does not expect this guidance to have a material impact on its consolidated financial statements.

In December 2008, the FASB issued authoritative guidance to require employers to provide additional disclosures about plan assets of a defined benefit pension or other post-retirement plan. These disclosures should principally include information detailing investment policies and strategies, the major categories of plan assets, the inputs and valuation techniques used to measure the fair value of plan assets and an understanding of significant concentrations of risk within plan assets. While earlier application of this guidance is permitted, the required disclosures shall be provided for fiscal years ending after December 15, 2009 (the Company's fiscal 2010, the anticipated period of adoption). Upon initial application, this guidance is not required to be applied to earlier periods that are presented for comparative purposes. The Company does not expect this guidance to have a material impact on its consolidated financial statements.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 2 GOODWILL AND OTHER INTANGIBLE ASSETS**

During the second quarter of fiscal 2010, the Ojon reporting unit altered and delayed certain components of its future expansion plans, resulting in revisions to its internal forecasts. The Company concluded that these changes in circumstances in the Ojon reporting unit triggered the need for an interim impairment review of its goodwill and trademark. Additionally, these changes in circumstances were also an indicator that the carrying amount of the customer list may not be recoverable. The Company performed an interim impairment test for the trademark and a recoverability test for the customer list as of December 31, 2009 on this reporting unit. The Company concluded that the carrying value of the Ojon trademark and customer list exceeded their estimated fair values, which were determined based on the application of a royalty rate to discounted estimated future cash flows (relief-from-royalty method) for the trademark and discounted expected future cash flows for the customer list. As a result, the Company recognized impairment charges of \$6.0 million for the trademark and \$17.2 million for the customer list, at the exchange rate in effect at that time. After adjusting the carrying value of the trademark and customer list, the Company completed an interim impairment test for goodwill and recorded a goodwill impairment charge related to the Ojon reporting unit of \$16.6 million at the exchange rate in effect at that time. The fair value of the reporting unit was based upon weighting of the income and market approaches, utilizing estimated cash flows and a terminal value, discounted at a rate of return that reflects the relative risk of the cash flows, as well as valuation multiples derived from comparable publicly traded companies that are applied to operating performance of the reporting unit. These impairment charges were reflected in the hair care and skin care product categories and in the Americas region. As of March 31, 2010, the carrying value of goodwill related to the Ojon reporting unit was \$28.5 million.

During the second quarter of fiscal 2010, the Darphin reporting unit identified issues related to the planned streamlining of its distribution process, resulting in revisions to its internal forecasts. The Company concluded that these changes in circumstances in the Darphin reporting unit triggered the need for an interim impairment test of its trademark and goodwill. The Company determined that the trademark was impaired, with fair value estimated based upon the relief-from-royalty method, and therefore recorded an impairment charge of \$5.8 million in the skin care product category and in the Europe, the Middle East & Africa region. After adjusting the carrying value of the trademark, the Company completed step one of the impairment test for goodwill and concluded that the fair value of the Darphin reporting unit was in excess of its carrying value including goodwill. The fair value of the reporting unit was based upon the income approach, utilizing estimated cash flows and a terminal value, discounted at a rate of return that reflects the relative risk of the cash flows. As of March 31, 2010, the carrying value of goodwill related to the Darphin reporting unit was \$9.8 million.

Other intangible assets consists of the following:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 3 CHARGES ASSOCIATED WITH RESTRUCTURING ACTIVITIES

In an effort to drive down costs and achieve synergies within the organization, in February 2009, the Company announced the implementation of a multi-faceted cost savings program (the Program) to position itself to achieve long-term profitable growth. The Company anticipates the Program will result in related restructuring and other special charges, inclusive of cumulative charges recorded to date and over the next few fiscal years, totaling between \$350 million and \$450 million before taxes.

The Program focuses on a redesign of the Company's organizational structure in order to integrate it in a more cohesive way and operate more globally across brands and functions. The principal aspect of the Program is the reduction of the workforce by approximately 2,000 employees. Specific actions taken during the nine months ended March 31, 2010 included:

- **Resize and Reorganize the Organization** The Company continued the realignment and optimization of its organization to better leverage scale, improve productivity and reduce complexity in each region and across various functions. This included reduction of the workforce which occurred through the consolidation of certain functions through a combination of normal attrition and job eliminations.
- **Exit Unprofitable Operations** To improve the profitability in certain of the Company's brands and regions, the Company has selectively exited certain channels of distribution, categories and markets. During the first quarter of fiscal 2010, the Company approved the exit from the global wholesale distribution of its Prescriptives brand, which was completed as of March 31, 2010. In connection with these activities, the Company recorded a reserve for anticipated product returns, wrote off inventory and incurred costs to reduce workforce and other exit costs.
- **Outsourcing** In order to balance the growing need for information technology support with the Company's efforts to provide the most efficient and cost effective solutions, the Company continued the outsourcing of certain information technology processes. The Company incurred costs to transition services to an outsource provider.

The following table presents aggregate restructuring charges related to the Program:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
---------------	-------------------------------	---------------------	--------------------------	---------------------	-------

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Fiscal 2009	\$	60.9	\$	4.2	\$	3.4	\$	1.8	\$	70.3
Three months ended September 30, 2009		13.4		0.2		0.6		0.5		14.7
Three months ended December 31, 2009		0.6		0.5		0.6		4.2		5.9
Three months ended March 31, 2010		8.6		1.1		0.1		0.6		10.4
Charges recorded through March 31, 2010	\$	83.5	\$	6.0	\$	4.7	\$	7.1	\$	101.3

The total amount of restructuring charges expected to be incurred (including those recorded as set forth in the table above), plus other initiatives approved through April 23, 2010, include approximately \$103 million for employee-related costs, approximately \$9 million in asset write-offs and approximately \$20 million of contract terminations and other exit costs.

The following table presents accrued restructuring and the related activity as of and for the nine months ended March 31, 2010 under the Program:

(In millions)	Employee-Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Balance at June 30, 2009	\$ 51.6	\$	\$ 2.9	\$ 0.2	\$ 54.7

Balance at March 31, 2010	\$ 35.0	\$	\$	\$ 0.6	\$ 35.6

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accrued restructuring charges at March 31, 2010 are expected to result in cash expenditures funded from cash provided by operations of approximately \$14 million, \$19 million and \$3 million in fiscal 2010, 2011 and 2012, respectively.

The Company recorded other special charges in connection with the implementation of the Program for the three and nine months ended March 31, 2010 of \$2.1 million and \$9.0 million, respectively, related to consulting, other professional services, and accelerated depreciation. The total amount of other special charges expected to be incurred to implement these initiatives, including those recorded through March 31, 2010 plus other initiatives approved through April 23, 2010, is approximately \$40 million. For the three months ended March 31, 2010, the Company recorded \$2.2 million reflecting sales returns and the write-off of inventory associated with exiting unprofitable operations of \$1.8 million. For the nine months ended March 31, 2010, and primarily related to the exit from the global wholesale distribution of Prescriptives products, the Company recorded \$13.3 million reflecting anticipated sales returns (less a related cost of sales of \$2.2 million) and a write-off of inventory associated with exiting unprofitable operations of \$8.0 million. The total amounts expected to be incurred, including those recorded through March 31, 2010 plus other initiatives approved through April 23, 2010, is between \$35 million and \$38 million related to sales returns and approximately \$12 million related to inventory write-offs.

Total charges associated with restructuring activities included in operating income for the three and nine months ended March 31, 2010 were \$16.5 million and \$59.1 million, respectively.

NOTE 4 DERIVATIVE FINANCIAL INSTRUMENTS

The Company addresses certain financial exposures through a controlled program of risk management that includes the use of derivative financial instruments. The Company primarily enters into foreign currency forward and option contracts to reduce the effects of fluctuating foreign currency exchange rates and interest rate derivatives to manage the effects of interest rate movements on the Company's aggregate liability portfolio. The Company also enters into foreign currency forward and option contracts, not designated as hedging instruments, to mitigate the change in fair value of specific assets and liabilities on the balance sheet. The Company does not utilize derivative financial instruments for trading or speculative purposes. Costs associated with entering into these derivative financial instruments have not been material to the Company's consolidated financial results.

For each derivative contract entered into where the Company looks to obtain hedge accounting treatment, the Company formally documents all relationships between hedging instruments and hedged items, as well as its risk-management objective and strategy for undertaking the hedge transaction, the nature of the risk being hedged, how the hedging instruments' effectiveness in offsetting the hedged risk will be assessed prospectively and retrospectively, and a description of the method of measuring ineffectiveness. This process includes linking all derivatives to specific assets and liabilities on the balance sheet or to specific firm commitments or forecasted transactions. The Company also formally assesses, both at the hedge's inception and on an ongoing basis, whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair values or cash flows of hedged items. If it is determined that a derivative is not highly effective, or that it has ceased to be a highly effective hedge, the Company will be required to discontinue hedge accounting with respect to that derivative prospectively.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The fair values of the Company's derivative financial instruments included in the consolidated balance sheets as of March 31, 2010 and June 30, 2009 are presented as follows:

(In millions)	Balance Sheet Location	Asset Derivatives		Liability Derivatives		
		Fair Value (1)		Fair Value (1)		
		March 31 2010	June 30 2009	Balance Sheet Location	March 31 2010	June 30 2009

The amounts of the gains and losses related to the Company's derivative financial instruments not designated as hedging instruments for the three and nine months ended March 31, 2010 are presented as follows:

(In millions)	Location of Gain or (Loss) Recognized in Earnings on Derivatives	Amount of Gain or (Loss) Recognized in Earnings on Derivatives	
		Three Months Ended March 31, 2010	Nine Months Ended March 31, 2010
Derivatives Not Designated as Hedging Instruments:			
Foreign currency forward contracts	Selling, general and administrative	\$ (1.1)	\$ (4.5)

Foreign Currency Cash-Flow Hedges

The Company enters into foreign currency forward contracts to hedge anticipated transactions, as well as receivables and payables denominated in foreign currencies, for periods consistent with the Company's identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on costs and on the cash flows that the Company receives from foreign subsidiaries. The majority of foreign currency forward contracts are denominated in currencies of major industrial countries. The Company may also enter into foreign currency option contracts to hedge anticipated transactions where there is a high probability that anticipated exposures will materialize. The foreign currency forward contracts entered into to hedge anticipated transactions have been designated as foreign currency cash-flow hedges and have varying maturities through the end of June 2011. Hedge effectiveness of foreign currency forward contracts is based on a hypothetical derivative methodology and excludes the portion of fair value attributable to the spot-forward difference which is recorded in current-period earnings. Hedge effectiveness of foreign currency option contracts is based on a dollar offset methodology. The ineffective portion of both foreign currency forward and option contracts is recorded in current-period earnings. For hedge contracts that are no longer deemed highly

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

effective, hedge accounting is discontinued and gains and losses accumulated in other comprehensive income (loss) are reclassified to earnings when the underlying forecasted transaction occurs. If it is probable that the forecasted transaction will no longer occur, then any gains or losses in accumulated other comprehensive income (loss) are reclassified to current-period earnings. As of March 31, 2010, the Company's foreign currency cash-flow hedges were highly effective, in all material respects. The estimated net loss as of March 31, 2010 that is expected to be reclassified from accumulated other comprehensive income (loss) into earnings within the next twelve months is \$1.9 million, net of tax.

At March 31, 2010, the Company had foreign currency forward contracts in the amount of \$1,394.7 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$271.4 million), Swiss franc (\$271.2 million), Euro (\$171.1 million), Canadian dollar (\$165.9 million), Hong Kong dollar (\$103.4 million) and Australian dollar (\$98.1 million).

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Fair Value Hedges

The Company enters into interest rate derivative contracts to manage its exposure to interest rate fluctuations on its funded indebtedness and anticipated issuance of debt for periods consistent with the identified exposures. The Company has interest rate swap agreements, with a notional amount totaling \$250.0 million, to effectively convert the fixed rate interest on its 2017 Senior Notes to variable interest rates based on six-month LIBOR. These interest rate swap agreements are designated as fair value hedges of the related long-term debt and the changes in the fair values of the interest rate swap agreements are exactly offset by changes in the fair value of the underlying long-term debt. As of March 31, 2010, these fair-value hedges were highly effective in all material respects.

Credit Risk

As a matter of policy, the Company only enters into derivative contracts with counterparties that have at least an A (or equivalent) credit rating. The counterparties to these contracts are major financial institutions. Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of contracts in asset positions, which totaled \$38.9 million at March 31, 2010, of which 80% were attributable to two counterparties. To manage this risk, the Company has established strict counterparty credit guidelines that are continually monitored and reported to management. Accordingly, management believes risk of loss under these hedging contracts is remote.

Certain of the Company's derivative financial instruments contain credit-risk-related contingent features. As of March 31, 2010, the Company was in compliance with such features and there were no derivative financial instruments with credit-risk-related contingent features that were in a net liability position.

NOTE 5 FAIR VALUE MEASUREMENTS

The Company records its financial assets and liabilities at fair value, which is defined as the price that would be received to sell an asset or paid to transfer a liability, in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants at the measurement date. Effective beginning in the Company's fiscal 2010, the accounting for fair value measurements must be applied to nonrecurring nonfinancial assets and nonfinancial liabilities, which principally consist of assets or liabilities acquired through business combinations, goodwill, indefinite-lived intangible assets and long-lived assets for purposes of calculating potential impairment, and liabilities associated with restructuring activities. The Company is required to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three levels of inputs that may be used to measure fair value are as follows:

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

- Level 1: Inputs based on quoted market prices for identical assets or liabilities in active markets at the measurement date.
- Level 2: Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3: Inputs reflect management's best estimate of what market participants would use in pricing the asset or liability at the measurement date. The inputs are unobservable in the market and significant to the instrument's valuation.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The following table presents the Company's hierarchy for its financial assets and liabilities measured at fair value on a recurring basis as of March 31, 2010:

(In millions)	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of the Company's classes of financial instruments for which it is practicable to estimate that value:

Cash and cash equivalents The carrying amount approximates fair value, primarily because of the short maturity of cash equivalent instruments.

Available-for-sale securities Available-for-sale securities are generally comprised of mutual funds and are valued using quoted market prices on an active exchange. Available-for-sale securities are included in investments in the accompanying consolidated balance sheets.

Foreign currency forward contracts The fair values of the Company's foreign currency forward contracts were determined using an industry-standard valuation model, which is based on an income approach. The significant observable inputs to the model, such as swap yield curves and currency spot and forward rates, were obtained from an independent pricing service. To determine the fair value of contracts under the model, the difference between the contract price and the current forward rate was discounted using LIBOR for contracts with maturities up to 12 months, and swap yield curves for contracts with maturities greater than 12 months.

Interest rate swap contracts The fair values of the Company's outstanding interest rate swap contracts were determined using the market approach and were based on non-binding offers from the counterparties that are corroborated by observable market data using the income approach. The non-binding offers represented the prices offered by the counterparties in the over-the-counter market to unwind and terminate these instruments (exclusive of accrued interest) and incorporated the counterparties' respective overall credit exposure to the Company. The Company performs a discounted cash flow analysis to corroborate the fair values of the non-binding offers using inputs such as swap yield curves and six-month LIBOR forward rates, which are obtained from an independent pricing service.

Short-term and long-term debt The fair value of the Company's debt was estimated based on the current rates offered to the Company for debt with the same remaining maturities. To a lesser extent, debt also includes capital lease obligations for which the carrying amount approximates the fair value.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The estimated fair values of the Company's financial instruments at March 31, 2010 are as follows:

(In millions)	Carrying Amount	Fair Value
Nonderivatives		
Cash and cash equivalents	\$ 1,381.2	\$ 1,381.2
Available-for-sale securities	5.7	5.7
Short-term and long-term debt	1,417.6	1,482.8
Derivatives		
Foreign currency forward contracts asset (liability)	(7.1)	(7.1)
Interest rate swap contracts asset (liability)	27.0	27.0

NOTE 6 PENSION AND POST-RETIREMENT BENEFIT PLANS

The Company maintains pension plans covering substantially all of its full-time employees for its U.S. operations and a majority of its international operations. The Company also maintains a domestic post-retirement benefit plan which provides certain medical and dental benefits to eligible employees. Descriptions of these plans are discussed in the Company's Annual Report on Form 10-K for the year ended June 30, 2009.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The components of net periodic benefit cost for the three months ended March 31, 2010 and 2009 consisted of the following:

(In millions)	2010	Pension Plans				Other than Pension Plans Post-retirement	
		U.S.	2009	2010	International	2009	2010
Service cost	\$ 5.6	\$ 5.2	\$ 4.5	\$ 3.9	\$ 0.8	\$ 0.9	
Interest cost	7.3	7.0	4.8	4.3	2.0	1.9	
Expected return on plan assets	(8.0)	(8.3)	(5.0)	(4.4)			
Amortization of:

Net periodic benefit cost	\$ 6.1	\$ 4.5	\$ 5.4	\$ 4.4	\$ 3.0	\$ 2.9	

The components of net periodic benefit cost for the nine months ended March 31, 2010 and 2009 consisted of the following:

(In millions)	2010	Pension Plans				Other than Pension Plans Post-retirement	
		U.S.	2009	2010	International	2009	2010
Service cost	\$ 16.9	\$ 15.7	\$ 13.5	\$ 12.3	\$ 2.5	\$ 2.8	
Interest cost	22.0	21.1	14.7	13.7	6.0	5.6	
Expected return on plan assets	(24.2)	(25.1)	(15.1)	(14.2)			
Amortization of:							
Prior service cost	0.5	0.5	1.8	1.7			
Actuarial loss	3.1	1.3	1.4	0.5	0.4	0.4	
Settlements and curtailments			0.7				
Net periodic benefit cost	\$ 18.3	\$ 13.5	\$ 17.0	\$ 14.0	\$ 8.9	\$ 8.8	

The Company previously disclosed in its consolidated financial statements for the fiscal year ended June 30, 2009 that it did not expect to make cash contributions to its trust based, noncontributory qualified defined benefit pension plan (U.S. Qualified Plan), but it did intend to make approximately \$32 million of cash contributions to its international defined benefit pension plans during the fiscal year ending June 30, 2010. During the fiscal 2010 third quarter, the Company made a discretionary contribution to the U.S. Qualified Plan of \$13.0 million. The Company may decide to make additional discretionary contributions to the U.S. Qualified Plan during the remainder of fiscal 2010. During the nine months ended March 31, 2010, the Company made contributions to its international pension plans totaling approximately \$33 million. As of March 31, 2010, the expected contributions to the international pension plans are currently anticipated to be approximately \$55 million for the fiscal year ending June 30, 2010.

NOTE 7 CONTINGENCIES

Legal Proceedings

The Company is involved, from time to time, in litigation and other legal proceedings incidental to its business. Management believes that the outcome of current litigation and legal proceedings will not have a material adverse effect upon the Company's results of operations or financial condition. However, management's assessment of the Company's current litigation and other legal proceedings could change in light of the discovery of facts with respect to legal actions or other proceedings pending against the Company not presently known to the Company or determinations by judges, juries or other finders of fact which are not in accord with management's evaluation of the possible liability or outcome of such litigation or proceedings.

THE ESTÉE LAUDER COMPANIES INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 8 COMMON STOCK

During the nine months ended March 31, 2010, 400,000 shares of the Company's Class B Common Stock were converted into Class A Common Stock.

During the nine months ended March 31, 2010, the Company purchased approximately 2.9 million shares of its Class A Common Stock for \$147.7 million.

NOTE 9 STOCK PROGRAMS

As of March 31, 2010, the Company has two active equity compensation plans which include the Amended and Restated Fiscal 2002 Share Incentive Plan (the Fiscal 2002 Plan) and the Non-Employee Director Share Incentive Plan (collectively, the Plans). These Plans currently provide for the issuance of 24,766,740 shares of Class A Common Stock, which consist of shares originally provided for and shares transferred to the Fiscal 2002 Plan from other inactive plans and employment agreements, to be granted in the form of stock-based awards to key employees, consultants and non-employee directors of the Company. As of March 31, 2010, approximately 8,947,479 shares of Class A Common Stock were reserved and available to be granted pursuant to these Plans. The Company may satisfy the obligation of its stock-based compensation awards with either new or treasury shares. The Company's equity compensation awards outstanding at March 31, 2010 include stock options, performance share units (PSU), restricted stock units (RSU) and share units.

Total net stock-based compensation expense is attributable to the granting of, and the remaining requisite service periods of, stock options, PSUs, RSUs and share units. Compensation expense attributable to net stock-based compensation during the three months ended March 31, 2010 and 2009 was \$14.0 million and \$10.5 million, respectively. Compensation expense attributable to net stock-based compensation during the nine months ended March 31, 2010 and 2009 was \$44.8 million and \$42.6 million, respectively. As of March 31, 2010, the total unrecognized compensation cost related to nonvested stock-based awards was \$45.8 million and the related weighted-average period over which it is expected to be recognized is approximately 1.8 years.

Stock Options

A summary of the Company's stock option programs as of March 31, 2010 and changes during the nine months then ended, is presented below:

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

(Shares in thousands)	Shares	Weighted-Average Exercise Price Per Share	Aggregate Intrinsic Value(1) (in millions)	Weighted-Average Contractual Life Remaining in Years
Outstanding at June 30, 2009	18,914.7	\$ 43.50		
Granted at fair value	2,169.5	34.30		
Exercised	(4,537.1)	38.12		
Expired	(5,605.7)	51.44		
Forfeited	(42.9)	41.40		
Outstanding at March 31, 2010	10,898.5	39.83	\$ 272.9	6.1
Exercisable at March 31, 2010	7,199.0	39.28	\$ 184.2	4.7

(1) The intrinsic value of a stock option is the amount by which the market value of the underlying stock exceeds the exercise price of the option.

The exercise period for all stock options generally may not exceed ten years from the date of grant. Stock option grants to individuals generally become exercisable in three substantively equal tranches over a service period of up to four years. The Company attributes the value of option awards on a straight-line basis over the requisite service period for each separately vesting portion of the award as if the award was, in substance, multiple awards.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**

The per-share weighted-average grant date fair value of stock options granted during the three months ended March 31, 2010 and 2009 was \$19.95 and \$7.08, respectively. The per-share weighted-average grant date fair value of stock options granted during the nine months ended March 31, 2010 and 2009 was \$10.64 and \$17.30, respectively. The total intrinsic value of stock options exercised during the three months ended March 31, 2010 was \$55.6 million and the total intrinsic value of stock options exercised during the three months ended March 31, 2009 was de minimis. The total intrinsic value of stock options exercised during the nine months ended March 31, 2010 and 2009 was \$72.1 million and \$24.7 million, respectively.

The fair value of each option grant was estimated on the date of grant using the Black-Scholes option-pricing model with the following assumptions:

	Three Months Ended March 31		Nine Months Ended March 31	
	2010	2009	2010	2009
Weighted-average expected stock-price volatility	30%	31%	30%	28%
Weighted-average expected option life	9 years	8 years	8 years	8 years
Average risk-free interest rate	3.2%	2.7%	3.1%	3.4%
Average dividend yield	1.9%	1.9%	2.0%	1.2%

The Company uses a weighted-average expected stock-price volatility assumption that is a combination of both current and historical implied volatilities of the underlying stock which are obtained from public data sources. For the weighted-average expected option life assumption, the Company considers the exercise behavior of past grants and models the pattern of aggregate exercises. The average risk-free interest rate is based on the U.S. Treasury strip rate for the expected term of the options and the average dividend yield is based on historical experience.

Performance Share Units

During the nine months ended March 31, 2010, the Company granted 165,300 PSUs, which will be settled in stock subject to the achievement of the Company's net sales, net earnings per share and return on invested capital goals for the three fiscal years ending June 30, 2012. Settlement will be made pursuant to a range of opportunities relative to the net sales and diluted net earnings per common share targets of the Company and, as such, the compensation cost of the PSU is subject to adjustment based upon the attainability of these target goals. No settlement will occur for results below the applicable minimum threshold and additional shares shall be issued if performance exceeds the targeted performance goals. Certain PSUs are accompanied by dividend equivalent rights that will be payable in cash upon settlement of the PSU. Other PSUs granted in fiscal 2010 are not accompanied by dividend equivalent rights and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant less the discounted present value of the dividends expected to be paid on the shares during the vesting period. These awards are subject to the provisions of the agreement under which the PSUs are granted. The PSUs were valued at the closing market value of the Company's Class A Common Stock on the date of grant and generally vest at the end of the performance period. In September 2009, 31,100 shares of the Company's Class A Common Stock were issued and related accrued dividends were paid, relative to the target goals set at the time of issuance, in settlement of 96,100 PSUs which vested as of June 30, 2009.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The following is a summary of the status of the Company's PSUs as of March 31, 2010 and activity during the nine months then ended:

(Shares in thousands)	Shares		Weighted-Average Grant Date Fair Value Per Share
Nonvested at June 30, 2009	224.2	\$	48.57
Granted	165.3		33.42
Vested			
Forfeited			
Nonvested at March 31, 2010	389.5		42.14

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS*****Restricted Stock Units***

The Company granted approximately 979,800 RSUs during the nine months ended March 31, 2010 which, at the time of grant, were scheduled to vest as follows: 39,800 on July 1, 2010, 487,600 on November 1, 2010, 39,800 on July 2, 2011, 272,600 on October 31, 2011, 39,800 on July 2, 2012 and 100,200 on October 31, 2012, all subject to the continued employment or retirement of the grantees. Certain RSUs granted in fiscal 2010 are accompanied by dividend equivalent rights that will be payable in cash upon settlement of the RSU and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant. Other RSUs granted in fiscal 2010 are not accompanied by dividend equivalent rights and, as such, were valued at the closing market value of the Company's Class A Common Stock on the date of grant less the discounted present value of the dividends expected to be paid on the shares during the vesting period.

The following is a summary of the status of the Company's RSUs as of March 31, 2010 and activity during the nine months then ended:

(Shares in thousands)	Shares		Weighted-Average Grant Date Fair Value Per Share
Nonvested at June 30, 2009	922.5	\$	48.31
Granted	979.8		33.50
Vested	(558.8)		47.48
Forfeited	(35.7)		40.85
Nonvested at March 31, 2010	1,307.8		37.77

Share Units

The Company grants share units to certain non-employee directors under the Non-Employee Director Share Incentive Plan. The share units are convertible into shares of Class A Common Stock as provided for in that plan. Share units are accompanied by dividend equivalent rights that are converted to additional share units when such dividends are declared. The following is a summary of the status of the Company's share units as of March 31, 2010 and activity during the nine months then ended:

(Shares in thousands)	Shares		Weighted-Average Grant Date Fair Value Per Share
Outstanding at June 30, 2009	22.6	\$	38.02
Granted	3.5		46.63

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Dividend equivalents	0.3	49.54
Converted		
Outstanding at March 31, 2010	26.4	39.27

Cash Units

Certain non-employee directors defer cash compensation in the form of cash payout share units, which are not subject to the Plans. These share units are classified as liabilities and, as such, their fair value is adjusted to reflect the current market value of the Company's Class A Common Stock. The Company recorded \$1.5 million as compensation expense and \$0.3 million as a reduction of compensation expense to reflect additional deferrals and the change in the market value for the three months ended March 31, 2010 and 2009, respectively. The Company recorded \$3.0 million as compensation expense and \$1.0 million as a reduction of compensation expense to reflect additional deferrals and the change in the market value for the nine months ended March 31, 2010 and 2009, respectively.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****NOTE 10 NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC. PER COMMON SHARE**

Net earnings attributable to The Estée Lauder Companies Inc. per common share (basic EPS) is computed by dividing net earnings attributable to The Estée Lauder Companies Inc. by the weighted-average number of common shares outstanding and contingently issuable shares (which satisfy certain conditions). Net earnings attributable to The Estée Lauder Companies Inc. per common share assuming dilution (diluted EPS) is computed by reflecting potential dilution from stock-based awards.

A reconciliation between the numerators and denominators of the basic and diluted EPS computations is as follows:

	Three Months Ended March 31		Nine Months Ended March 31	
	2010	2009	2010	2009
	(In millions, except per share data)			
Numerator:				
Net earnings attributable to The Estée Lauder Companies Inc.	\$ 57.5	\$ 27.2	\$ 454.4	\$ 236.3
Denominator:				
Weighted average common shares outstanding Basic	198.0	196.7	197.4	196.2
Effect of dilutive stock options	3.1		2.0	1.1
Effect of restricted stock units	0.7	0.5	0.7	0.5
Weighted average common shares outstanding Diluted	201.8	197.2	200.1	197.8
Net earnings attributable to The Estée Lauder Companies Inc. per common share:				
Basic	\$.29	\$.14	\$ 2.30	\$ 1.20
Diluted	.28	.14	2.27	1.19

As of March 31, 2010, outstanding stock options that were not included in the computation of diluted EPS because their inclusion would be anti-dilutive were de minimis. As of March 31, 2009, outstanding options to purchase 19.2 million shares of Class A Common Stock were not included in the computation of diluted EPS because their inclusion would be anti-dilutive. As of March 31, 2010 and 2009, 0.4 million and 0.3 million of PSUs have been excluded from the calculation of diluted EPS because the number of shares ultimately issued is contingent on the achievement of certain performance targets of the Company, as discussed in Note 9.

NOTE 11 COMPREHENSIVE INCOME (LOSS)

The components of accumulated other comprehensive income (OCI) included in the accompanying consolidated balance sheets consist of net unrealized investment gain (loss), net gain (loss) on derivative instruments designated and qualifying as cash-flow hedging instruments, net actuarial gain (loss) and prior service (costs) credits associated with pension and other post-retirement benefits, and cumulative translation adjustments as of the end of each period.

Capital lease obligations incurred	\$	24.8	\$ 15.0
Interest rate swap derivative mark to market	\$	2.5	\$ 28.7

NOTE 14 SEGMENT DATA AND RELATED INFORMATION

Reportable operating segments include components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker (the Chief Executive) in deciding how to allocate resources and in assessing performance. Although the Company does business in one operating segment, beauty products, management also evaluates performance on a product category basis. Product category performance is measured based upon net sales before returns associated with restructuring activities, and earnings before income taxes, net interest expense and total charges associated with restructuring activities. Returns and charges associated with restructuring activities are not allocated to the product categories because they result from activities that are deemed a company-wide program to redesign the Company's organizational structure. The accounting policies for the Company's reportable segments are substantially the same as those for the consolidated financial statements, as described in the segment data and related information footnote included in the Company's Annual Report on Form 10-K for the year ended June 30, 2009. The assets and liabilities of the Company are managed centrally and are reported internally in the same manner as the consolidated financial statements; thus, no additional information is produced for the Chief Executive or included herein. There has been no significant variance in the total or long-lived asset value associated with the Company's segment data since June 30, 2009.

In order to meet the demands of consumers, we continually introduce new products, support new and established products through advertising, sampling and merchandising and phase out existing products that no longer meet the needs of our consumers. The economics of developing, producing, launching and supporting products influence our sales and operating performance each period. The introduction of new products may have some cannibalizing effect on sales of existing products, which we take into account in our business planning.

We operate on a global basis, with the majority of our net sales generated outside the United States. Accordingly, fluctuations in foreign currency exchange rates can affect our results of operations. Therefore, we present certain net sales information excluding the effect of foreign currency rate fluctuations to provide a framework for assessing the performance of our underlying business outside the United States. Constant currency information compares results between periods as if exchange rates had remained constant period-over-period. We calculate constant currency information by translating current-period results using prior-year period weighted average foreign currency exchange rates.

Overview

We are implementing a long-term strategy to guide the Company through fiscal 2013. The strategy, which we previously described, has numerous initiatives across regions, product categories, brands and functions that are designed to leverage our strengths, make us more cost efficient and grow our sales. During fiscal 2010, the first year of our strategy, our business continued to rebound from the global economic

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

challenges and uncertainties that had a significant impact on our results during the prior fiscal year. Despite these conditions, some of which continue to exist, our results for the nine months ended March 31, 2010 exceeded our net sales and profitability expectations that we had at the beginning of the fiscal year. These results, in part, stem from stronger net sales, favorable product mix, which reflects our strategic emphasis on skin care products, and the positive effect of continued cautious spending from most brands in light of the uncertainty surrounding the global economic environment. The improved net sales reflected continued strong growth in Asia, a substantial rebound in the Company's travel retail business and a better-than-expected holiday selling season in the United States and the United Kingdom. Net sales also benefited from further favorability in foreign currency translation.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

In the Americas region, the increase in net sales during the current-year period was primarily attributable to growth in Canada and Latin America. The U.S. department store channel continues to be negatively impacted by a soft retail environment, low store traffic and competitive pressures, particularly in the fragrance product category. These challenges were mitigated by net sales from new skin care and makeup product offerings and an increase in sales of certain designer fragrances through self-select outlets in the United States. We have seen an improvement in the net sales of many of our higher-end prestige products, which were negatively impacted by a change in spending patterns of consumers as a result of the economic downturn in the prior year. Net sales results in alternative channels were generally mixed. In our freestanding retail stores, net sales growth was fueled by new product launches from M A C, partially offset by lower sales resulting from the closing of certain underperforming stores for various brands. We had strong growth in net sales of our products sold over the internet, while direct response television sales declined.

Our business in Europe, the Middle East & Africa generated a strong net sales increase during the current-year period, aided by the favorable impact of foreign currency translation. Sales and profits in our travel retail business have exceeded our expectations as a result of successful product launches, higher passenger traffic, select trade re-stocking and new points of distribution. Net sales in most markets also reflected increases during the current-year period, reflecting an improving retail environment, new product launches and rebounding sales from many of our higher-end prestige products. Despite these positive results, the impact of the global economic uncertainties are still being felt in certain countries where there remains soft retail environments, select retailer destocking and tight working capital management activities by retailers.

At this time, our business in the Asia/Pacific region has been least affected by the global financial crisis, with net sales growing in virtually all countries in the region, several of which reflected significant favorable impact of foreign currency translation. Net sales in China rose at a fast pace as we continue our growth in this emerging market. New skin care product launches and an improving retail environment helped most countries in the region generate strong net sales increases during fiscal 2010. Our business in Japan continued to be challenging, as reported net sales increases were generated by the strengthening of the Japanese yen.

During most of fiscal 2010, we engaged in a Company-wide cost containment program and a more measured approach to spending in light of the global economic downturn and the management of several external potential risks which did not materialize in the current-year period. Although we remain cautious regarding global economic uncertainties and other risks that may affect our business, we have accelerated investment spending behind our brands and key priorities, and expect to continue to do so in order to drive net sales growth for the remainder of the fiscal year.

Charges Associated with Restructuring Activities

In an effort to drive down costs and achieve synergies within our organization, in February 2009, we announced the implementation of a multi-faceted cost savings program (the Program) to position the Company to achieve long-term profitable growth. We anticipate the Program will result in related restructuring and other special charges, inclusive of cumulative charges recorded to date and over the next few fiscal years, totaling between \$350 million and \$450 million before taxes.

We expect that the implementation of this Program, combined with other on-going cost savings efforts, will result in savings of approximately \$450 million to \$550 million (beginning with approximately \$300 million to \$330 million in fiscal 2010) including the reduction of certain costs relative to an assumed normalized spending pattern. Our long-range forecast for operating margin reflects these anticipated savings, net of strategic reinvestments.

The Program focuses on a redesign of our organizational structure in order to integrate the Company in a more cohesive way and operate more globally across brands and functions. The principal aspect of the Program is the reduction of the workforce by approximately 2,000 employees. Specific actions taken during the nine months ended March 31, 2010 included:

- Resize and Reorganize the Organization We continued the realignment and optimization of our organization to better leverage scale, improve productivity and reduce complexity in each region and across various functions. This included reduction of the workforce which occurred through the consolidation of certain functions through a combination of normal attrition and job eliminations.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.**

- **Exit Unprofitable Operations** To improve the profitability in certain of our brands and regions, we have selectively exited certain channels of distribution, categories and markets. During the first quarter of fiscal 2010, we approved the exit from the global wholesale distribution of our Prescriptives brand, which was completed as of March 31, 2010. In connection with these activities, we recorded a reserve for anticipated product returns, wrote off inventory and incurred costs to reduce workforce and other exit costs.
- **Outsourcing** In order to balance the growing need for information technology support with our efforts to provide the most efficient and cost effective solutions, we continued the outsourcing of certain information technology processes. We incurred costs to transition services to an outsource provider.

The following table presents aggregate restructuring charges related to the Program:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Fiscal 2009	\$ 60.9	\$ 4.2	\$ 3.4	\$ 1.8	\$ 70.3
Three months ended September 30, 2009	13.4	0.2	0.6	0.5	14.7
Three months ended December 31, 2009	0.6	0.5	0.6	4.2	5.9
Three months ended March 31, 2010	8.6	1.1	0.1	0.6	10.4
Charges recorded through March 31, 2010	\$ 83.5	\$ 6.0	\$ 4.7	\$ 7.1	\$ 101.3

The total amount of restructuring charges expected to be incurred (including those recorded as set forth in the table above), plus other initiatives approved through April 23, 2010, include approximately \$103 million for employee-related costs, approximately \$9 million in asset write-offs and approximately \$20 million of contract terminations and other exit costs.

The following table presents accrued restructuring and the related activity as of and for the nine months ended March 31, 2010 under the Program:

(In millions)	Employee- Related Costs	Asset Write-offs	Contract Terminations	Other Exit Costs	Total
Balance at June 30, 2009	\$ 51.6	\$	\$ 2.9	\$ 0.2	\$ 54.7
Charges	22.6	1.8	1.3	5.3	31.0
Cash payments	(38.7)		(3.4)	(6.0)	(48.1)
Non-cash write-offs		(1.8)			(1.8)
Translation adjustments	(0.5)		(0.8)	1.1	(0.2)
Balance at March 31, 2010	\$ 35.0	\$	\$	\$ 0.6	\$ 35.6

Accrued restructuring charges at March 31, 2010 are expected to result in cash expenditures funded from cash provided by operations of approximately \$14 million, \$19 million and \$3 million in fiscal 2010, 2011 and 2012, respectively.

We recorded other special charges in connection with the implementation of the Program for the three and nine months ended March 31, 2010 of \$2.1 million and \$9.0 million, respectively, related to consulting, other professional services, and accelerated depreciation. The total amount of other special charges expected to be incurred to implement these initiatives, including those recorded through March 31, 2010 plus other initiatives approved through April 23, 2010 is approximately \$40 million. For the three months ended March 31, 2010, we recorded \$2.2 million reflecting sales returns and the write-off of inventory associated with exiting unprofitable operations of \$1.8 million. For the nine months ended March 31, 2010, and primarily related to the exit from the global wholesale distribution of Prescriptives products, we recorded \$13.3 million reflecting anticipated sales returns (less a related cost of sales of \$2.2 million) and a write-off of inventory associated with exiting unprofitable operations of \$8.0 million. The total amounts expected to be incurred, including those recorded through March 31, 2010 plus other initiatives approved through April 23, 2010 is between \$35 million and \$38 million related to sales returns and approximately \$12 million related to inventory write-offs.

Total charges associated with restructuring activities included in operating income for the three and nine months ended March 31, 2010 were \$16.5 million and \$59.1 million, respectively.

THE ESTÉE LAUDER COMPANIES INC.

Goodwill and Other Intangible Asset Impairments

During the second quarter of fiscal 2010, the Ojon reporting unit altered and delayed certain components of its future expansion plans, resulting in revisions to its internal forecasts. We concluded that these changes in circumstances in the Ojon reporting unit triggered the need for an interim impairment review of its goodwill and trademark. Additionally, these changes in circumstances were also an indicator that the carrying amount of the customer list may not be recoverable. We performed an interim impairment test for the trademark and a recoverability test for the customer list as of December 31, 2009 on this reporting unit. We concluded that the carrying value of the Ojon trademark and customer list exceeded their estimated fair values, which were determined based on the application of a royalty rate to discounted estimated future cash flows (relief-from-royalty method) for the trademark and discounted expected future cash flows for the customer list. As a result, we recognized impairment charges of \$6.0 million for the trademark and \$17.2 million for the customer list, at the exchange rate in effect at that time. After adjusting the carrying value of the trademark and customer list, we completed an interim impairment test for goodwill and recorded a goodwill impairment charge related to the Ojon reporting unit of \$16.6 million at the exchange rate in effect at that time. The fair value of the reporting unit was based upon weighting of the income and market approaches, utilizing estimated cash flows and a terminal value, discounted at a rate of return that reflects the relative risk of the cash flows, as well as valuation multiples derived from comparable publicly traded companies that are applied to operating performance of the reporting unit. These impairment charges were reflected in the hair care and skin care product categories and in the Americas region. The key assumptions used to determine the estimated fair value of the reporting unit were predicated on the achievement of international distribution expansion plans. If such plans do not materialize, or if there is a decline in the business environment in which this reporting unit operates, a resulting change in the key assumptions could have a negative impact on the estimated fair value of the reporting unit and it is possible we could recognize a further impairment charge. As of March 31, 2010, the carrying value of goodwill related to the Ojon reporting unit was \$28.5 million.

During the second quarter of fiscal 2010, the Darphin reporting unit identified issues related to the planned streamlining of its distribution process, resulting in revisions to its internal forecasts. We concluded that these changes in circumstances in the Darphin reporting unit triggered the need for an interim impairment test of its trademark and goodwill. We determined that the trademark was impaired, with fair value estimated based upon the relief-from-royalty method, and therefore recorded an impairment charge of \$5.8 million in the skin care product category and in the Europe, the Middle East & Africa region. After adjusting the carrying value of the trademark, we completed step one of the impairment test for goodwill and concluded that the fair value of the Darphin reporting unit was substantially in excess of its carrying value including goodwill. The fair value of the reporting unit was based upon the income approach, utilizing estimated cash flows and a terminal value, discounted at a rate of return that reflects the relative risk of the cash flows. As of March 31, 2010, the carrying value of goodwill related to the Darphin reporting unit was \$9.8 million.

As of our latest annual step-one goodwill impairment test on April 1, 2009 for our other reporting units, the closest margin for fair value exceeding carrying value was 8% for one reporting unit. The fair value of the reporting unit was based upon the income approach, utilizing estimated cash flows and a terminal value, discounted at a rate of return that reflects the relative risk of the cash flows. Goodwill at March 31, 2010 for this reporting unit was \$37.1 million. The key assumptions that were used to determine the estimated fair value of the reporting unit were predicated on planned expanded distribution in the salon channel and other alternative channels. If such plans do not materialize, or if there is a decline in the business environment in which this reporting unit operates, a resulting change in the key assumptions could have a negative impact on the estimated fair value of the reporting unit and it is possible we could recognize an impairment charge in the future. All other reporting units' fair values substantially exceeded their respective carrying values.

Although our financial performance reflected improved economic conditions, we expect the global economic uncertainties to continue to negatively impact our business. As the duration and magnitude of the volatility of the current economic conditions remain uncertain, we will continue to monitor and evaluate the potential impact on our business and on our interim and annual impairment testing. Accordingly, it is possible that we would recognize an impairment charge in the future with respect to goodwill, intangible assets and other long-lived assets.

THE ESTÉE LAUDER COMPANIES INC.

Impact of Recent Economic Events in Venezuela

Cumulative inflation in Venezuela has exceeded 100% over the three-year period ended December 31, 2009, as measured using the blended Consumer Price Index/National Consumer Price Index. As a result, Venezuela has been designated as a highly inflationary economy effective January 1, 2010 and, as such, the U.S. dollar has become the functional currency of our subsidiary in Venezuela. Beginning January 1, 2010, currency remeasurement adjustments for this subsidiary's financial statements and other transactional foreign exchange gains and losses will be reflected in earnings. Translation adjustments that were recorded through December 31, 2009 (prior to being designated as highly inflationary) remain in equity as part of other comprehensive income.

On January 8, 2010, the Venezuelan government announced the devaluation of its currency from an official exchange rate of 2.15 bolivars per U.S. dollar to a dual-rate regime of 2.60 bolivars per U.S. dollar for goods deemed essential and 4.30 bolivars per U.S. dollar for most other imports and repatriation of dividends by foreign investors (the official rate). Currently, none of our transactions fall into the essential classification. Prior to being designated as highly inflationary, we translated the financial statements of our subsidiary in Venezuela using the official exchange rate of 2.15. Consistent with historical practices and the Company's future intent with regard to the settlement of bolivar-denominated transactions, the financial statements of our subsidiary in Venezuela were remeasured at the official exchange rate at March 31, 2010 of 4.30 bolivars per U.S. dollar.

As a result of the change to highly inflationary accounting, the prior use of different translating and remeasuring exchange rates for U.S. dollar-denominated net liabilities and the devaluation of the bolivar, we recorded a charge of approximately \$6 million for the three and nine months ended March 31, 2010. This charge also includes increased cost of sales associated with historical dollar costs of inventory. As of March 31, 2010, our subsidiary in Venezuela had approximately \$4 million of net monetary assets denominated in bolivars. In addition, due to currency restrictions in Venezuela and, at the discretion of management, payments related to U.S. dollar-denominated imports are often satisfied by exchanging bolivars to U.S. dollars through securities transactions in a parallel market, which will continue to result in increased costs as the parallel market rate is not as favorable as the official rate. We do not expect the change to highly inflationary accounting to have a significant impact on our ongoing future consolidated net sales or operating income since we expect to derive less than 1% of our future consolidated net sales and operating income from our business in Venezuela.

Impact of New Federal Legislation

The Patient Protection and Affordable Care Act (the PPACA) became law on March 23, 2010, and on March 30, 2010 the Health Care and Education Reconciliation Act of 2010 (H.R. 4872) became law, which makes various amendments to certain aspects of the PPACA. While the provisions of this legislation that became effective during the current-year period did not have a material impact on our consolidated financial statements, we are currently evaluating the potential impact on our business and consolidated financial statements, in the short and long term, of other facets of the legislation.

Compliance Assurance Program

During the fiscal 2010 third quarter, we accepted an invitation from the U.S. Internal Revenue Service (the IRS) to join in the Compliance Assurance Program (CAP) beginning with the fiscal year ending June 30, 2011. The objective of CAP is to reduce taxpayer burden and uncertainty while assuring the IRS of the accuracy of income tax returns prior to filing, thereby reducing or eliminating the need for post-filing examinations.

Third Quarter Fiscal 2010 as Compared with Third Quarter Fiscal 2009

NET SALES

Net sales increased 10%, or \$163.5 million, to \$1,860.0 million, reflecting increases in all geographic regions and major product categories. Geographically, the growth in net sales primarily reflected increases in Asia/Pacific and Europe, the Middle East & Africa. By product category, while fragrance net sales grew at the fastest rate, more than half of the global increase in net sales was attributable to the skin care category. Excluding the impact of foreign currency translation, net sales increased 5%. The following discussions of Net Sales by *Product Categories* and *Geographic Regions* exclude the impact of anticipated returns associated with restructuring activities of \$2.2 million recorded during the current-year period. We believe the following analysis of net sales better reflects the manner in which we conduct and view our business.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Product Categories

Skin Care

Net sales of skin care products increased 16%, or \$110.8 million, to \$819.8 million. The recent launches of Advanced Night Repair Synchronized Recovery Complex and Hydrationist Maximum Moisture Creme and Lotion from Estée Lauder, Even Better Clinical Dark Spot Corrector and Youth Surge Night Age Decelerating Night Moisturizer from Clinique and The Regenerating Serum from La Mer, contributed incremental sales of approximately \$80 million, combined. Higher sales from existing products in Clinique's 3-Step Skin Care System and the Re-Nutriv line of products from Estée Lauder contributed approximately \$18 million to the increase. These increases were partially offset by approximately \$18 million of lower sales from existing products in the Advanced Night Repair line from Estée Lauder and in the Turnaround and Youth Surge lines of products from Clinique. Excluding the impact of foreign currency translation, skin care net sales increased 10%.

Makeup

Makeup net sales increased 2%, or \$16.3 million, to \$710.8 million, primarily reflecting an increase of approximately \$42 million from our makeup artist brands, driven by higher net sales outside the United States. Incremental sales from the recent launches of Acne Solutions Liquid Makeup and Vitamin C Lip Smoothie Antioxidant Lip Colour from Clinique and Resilience Lift Extreme Radiant Lifting Makeup from Estée Lauder, as well as higher sales of Double Wear Foundation from Estée Lauder, totaled approximately \$20 million, combined. These increases were partially offset by lower net sales of Prescriptives products due to the exit from the global wholesale distribution of the brand, as well as lower sales of Automatic Pencil Duos and TurboLash All Effects Motion Mascara from Estée Lauder of approximately \$22 million, combined. During the current-year quarter, we undertook an initiative to identify certain underperforming stock keeping units for the purposes of evaluating their relevance to our long-term perfumery strategy in the Europe, the Middle East & Africa region. Based on this evaluation, we decided to discontinue certain of these products in perfumeries and recorded a charge of approximately \$27 million to reflect the anticipated returns of makeup products from participating retailers, subject to our approval. Excluding the impact of foreign currency translation, makeup net sales decreased 2%.

Fragrance

Net sales of fragrance products increased 19%, or \$35.1 million, to \$222.8 million. The recent launches of Pure DKNY, DKNY Delicious Candy Apples, Coach Signature and DKNY Be Delicious Fresh Blossom contributed incremental sales of approximately \$19 million, combined. Higher sales from various Jo Malone and Tom Ford fragrances, as well as an increase in sales of certain designer fragrances through self-select outlets in the United States, contributed approximately \$12 million, combined, to the category. Partially offsetting these increases were lower sales of DKNY Men and I Am King Sean John of approximately \$10 million, combined. Excluding the impact of foreign currency translation, fragrance net sales increased 13%.

Hair Care

Hair care net sales increased 6%, or \$5.5 million, to \$96.1 million, primarily reflecting an increase in net sales of styling and hair color products, the recent launch of Smooth Infusion Glossing Straightener from Aveda and sales generated from expanded distribution outside the United States. This increase was partially offset by lower net sales resulting from a soft salon retail environment in North America. Excluding the impact of foreign currency translation, hair care net sales increased 3%.

Geographic Regions

Net sales in the Americas increased 3%, or \$24.7 million, to \$829.1 million, primarily reflecting higher net sales in Canada and Latin America of approximately \$21 million, combined. The net sales increases in Canada and Latin America primarily reflected higher sales from certain of our heritage brands, sales from new points of distribution, and favorable foreign currency translation. Net sales in the United States increased approximately \$4 million as compared with the prior-year period. Higher net sales of designer fragrances resulting from new launches and higher sales through self-select outlets were mostly offset by lower net sales of Prescriptives products due to the exit from the global wholesale distribution. Ongoing challenges faced by certain of our department store customers in the United States may continue to affect our net sales for the short and medium term. Excluding the impact of foreign currency translation, net sales in the Americas increased 2%.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

In Europe, the Middle East & Africa, net sales increased 14%, or \$78.5 million, to \$662.0 million, reflecting growth in travel retail and from virtually all countries in the region across each product category. The region also benefited from the favorable impact of foreign currency translation. Net sales increases of approximately \$94 million were driven by our travel retail business, the United Kingdom, Russia, South Africa and the Middle East, reflecting an improved retail environment and higher combined sales from our makeup artist brands. The net sales improvement in our travel retail business also reflected a favorable comparison to the prior-year quarter due to an increase in passenger traffic and new points of distribution. At this time, the disruption in air travel as a result of the volcanic activity in Iceland is not anticipated to have a material impact on our travel retail business. Partially offsetting these increases were lower net sales of approximately \$3 million in the Balkans and Benelux. Despite the net sales growth in the region, we have experienced continued select customer destocking in continental Europe. During the current-year quarter, we undertook an initiative to identify certain underperforming stock keeping units for the purposes of evaluating their relevance to our long-term perfumery strategy. Based on this evaluation, we decided to discontinue certain of these products in perfumeries and recorded a charge of approximately \$31 million to reflect the anticipated returns of these products from participating retailers, subject to our approval. Excluding the impact of foreign currency translation, net sales in Europe, the Middle East & Africa increased 7%.

Net sales in Asia/Pacific increased 20%, or \$62.5 million, to \$371.1 million, reflecting growth from virtually all countries in the region across each product category. The region also benefited from the favorable impact of foreign currency translation. Approximately \$56 million of this increase was generated in Korea, China, Hong Kong, Australia and Taiwan reflecting strong sales of skin care and makeup products. Korea and Australia also benefited significantly from foreign currency translation. These increases were partially offset by lower sales of approximately \$2 million in Japan which continued to be a challenging market. Excluding the impact of foreign currency translation, Asia/Pacific net sales increased 10%.

Although our financial performance reflected improved economic conditions, we expect the global economic uncertainties to continue to impact our business. We cannot predict with certainty the magnitude or duration of the impact or how it will vary across each of our geographic regions.

We strategically stagger our new product launches by geographic market, which may account for differences in regional sales growth.

COST OF SALES

Cost of sales as a percentage of total net sales decreased to 23.9% as compared with 26.3% in the prior-year period. This improvement primarily reflected favorable changes in the mix of our business of approximately 100 basis points and the favorable comparison to the prior-year period when we recorded excess overhead costs that were not expected to be recovered of approximately 90 basis points. Also contributing to the improvement in cost of sales margin were favorable manufacturing variances of approximately 50 basis points and the favorable effect of exchange rates of approximately 40 basis points. Partially offsetting these improvements was an increase in obsolescence charges of approximately 40 basis points, which includes the write-off of inventory on hand related to certain products being discontinued in the Europe, the Middle East & Africa region, as previously discussed.

Since certain promotional activities are a component of sales or cost of sales and the timing and level of promotions vary with our promotional calendar, we have experienced, and expect to continue to experience, fluctuations in the cost of sales percentage. In addition, future cost of sales mix may be impacted by the inclusion of potential new brands or channels of distribution which have margin and product cost structures different from those of our current mix of business.

OPERATING EXPENSES

Operating expenses as a percentage of net sales decreased to 69.3% as compared with 69.6% in the prior-year period. This improvement, tempered in part due to the previously discussed impact of anticipated returns on current-year period net sales, primarily reflected lower costs of global information technology systems and infrastructure of approximately 110 basis points, the favorable comparison to the prior-year period related to other intangible asset impairment charges of approximately 90 basis points and lower net losses from foreign exchange transactions of approximately 20 basis points. Partially offsetting these improvements were higher advertising, merchandising and sampling costs of approximately 90 basis points, other selling, general and administrative costs of approximately 70 basis points and charges associated with restructuring activities of approximately 30 basis points.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Changes in advertising, sampling and merchandising spending result from the type, timing and level of activities related to product launches and rollouts, as well as the markets being emphasized.

OPERATING RESULTS

Operating income increased 80%, or \$56.0 million, to \$126.3 million. Operating margin improved to 6.8% of net sales as compared with 4.1% in the prior-year period, reflecting our higher gross margin and the decrease in our operating expense margin as previously discussed. The following discussions of Operating Results by *Product Categories* and *Geographic Regions* exclude the impact of total charges associated with restructuring activities of \$16.5 million in fiscal 2010, or 1% of net sales, and \$6.2 million in fiscal 2009, or less than 1% of net sales. We believe the following analysis of operating results better reflects the manner in which we conduct and view our business.

Product Categories

All product categories benefited from Company-wide cost containment initiatives and a more measured approach to spending, as well as significant improvement in cost of sales from favorable product mix and enhanced inventory management. Skin care operating income increased 63%, or \$38.8 million, to \$100.0 million, primarily reflecting improved results driven by net sales from higher-margin product launches, and a favorable comparison to the prior-year period when we recorded a charge for other intangible asset impairment of approximately \$12 million, partially offset by planned increases in the levels of support spending. Makeup operating income decreased 8%, or \$5.0 million, to \$58.7 million, primarily reflecting the majority of the impact of the charge related to the discontinuation of certain stock keeping units, as previously discussed, which reflects the anticipated returns, as well as the write-off of related inventory on hand of approximately \$30 million, combined. This charge was mostly offset by improved results from our makeup artist brands and certain of our heritage brands. Fragrance operating loss improved 61%, or \$27.5 million, primarily reflecting an increase in net sales from higher-margin products, partially offset by an increase in support spending behind specific new launches. Hair care operating results increased over 100%, or \$6.0 million reflecting higher net sales, savings generated from cost containment initiatives and from the closing of certain underperforming retail stores in prior periods.

Geographic Regions

Operating results in each of our geographic regions benefited from Company-wide cost containment initiatives and a more measured approach to spending, as well as significant improvement in cost of sales from favorable product mix and enhanced inventory management, resulting in significant improvements in their operating income.

Operating income in the Americas increased 98%, or \$13.0 million, to \$26.3 million, primarily due to improved results from certain of our heritage and turnaround brands, and our hair care brands in the United States, as well as a favorable comparison to the prior-year period which reflected the impact of an excess overhead charge and a charge related to the degradation of a certain retail customer. These improvements were partially offset by the impact of the recent economic events in Venezuela, as previously discussed.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

In Europe, the Middle East & Africa, operating income increased over 100%, or \$49.3 million, to \$77.3 million. Higher results from our travel retail business and in the United Kingdom, the Middle East, Russia and Spain totaled approximately \$63 million. The improvement in operating income also reflected a favorable comparison to the prior-year period when we recorded a charge for other intangible asset impairment of approximately \$12 million. Partially offsetting these improvements were lower results of approximately \$2 million in the Balkans and Benelux. In addition, as previously discussed, we recorded a charge related to the discontinuation of certain stock keeping units which reflects the anticipated returns, as well as the write-off of related inventory on hand of approximately \$34 million, combined.

In Asia/Pacific, operating income increased 11%, or \$4.0 million, to \$39.2 million. Higher operating results in Hong Kong, Japan, Malaysia and Thailand totaled approximately \$9 million. These improvements were partially offset by lower results in Australia, China and Korea of approximately \$6 million, combined. We have continued incremental investment spending in China to support this emerging market.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

INTEREST EXPENSE, NET

Net interest expense was \$18.2 million as compared with \$20.6 million in the prior-year period. The decrease in interest expense primarily reflected lower average debt balances. To a lesser extent, interest expense decreased on short-term international debt due to lower average borrowing rates.

PROVISION FOR INCOME TAXES

The provision for income taxes represents Federal, foreign, state and local income taxes. The effective rate differs from statutory rates due to the effect of state and local income taxes, tax rates in foreign jurisdictions and certain nondeductible expenses. Our effective tax rate will change from quarter to quarter based on recurring and non-recurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, state and local income taxes, tax audit settlements, the ultimate disposition of deferred tax assets relating to stock-based compensation and the interaction of various global tax strategies. In addition, changes in judgment from the evaluation of new information resulting in the recognition, derecognition or remeasurement of a tax position taken in a prior annual period are recognized separately in the quarter of the change.

The effective rate for income taxes for the three months ended March 31, 2010 was 46.4% as compared with 43.1% in the prior-year period. The increase in the effective income tax rate of 330 basis points was primarily attributable to a higher effective tax rate relating to our foreign operations.

NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC.

Net earnings attributable to The Estée Lauder Companies Inc. as compared with the prior-year period increased over 100%, or \$30.3 million, to \$57.5 million and diluted net earnings per common share increased over 100% from \$.14 to \$.28. The results in the current-year period include the impact of total charges associated with restructuring activities of \$11.4 million, after tax, or \$.06 per diluted common share. The impact of these charges was \$4.7 million, after tax, or \$.02 per diluted common share in the prior-year period.

Nine Months Fiscal 2010 as Compared with Nine Months Fiscal 2009

NET SALES

Net sales increased 6%, or \$314.7 million, to \$5,955.7 million, reflecting increases in Asia/Pacific and Europe, the Middle East & Africa, partially offset by declines in the Americas. Net sales increases in the skin care, makeup and hair care product categories were partially offset by declines in the fragrance category. Excluding the impact of foreign currency translation, net sales increased 4%. The following discussions of Net Sales by *Product Categories* and *Geographic Regions* exclude the impact of anticipated returns associated with restructuring activities of \$13.3 million recorded during the current-year period. We believe the following analysis of net sales better reflects the manner in which we conduct and view our business.

Product Categories

Skin Care

Net sales of skin care products increased 12%, or \$257.7 million, to \$2,455.9 million. The recent launches of Advanced Night Repair Synchronized Recovery Complex from Estée Lauder and Youth Surge Night Age Decelerating Night Moisturizer, Even Better Clinical Dark Spot Corrector and Even Better Skin Tone Correcting Moisturizer SPF 20 from Clinique, contributed incremental sales of approximately \$205 million, combined. Higher sales from existing products in Clinique's 3-Step Skin Care System and the Re-Nutriv and Resilience Lift Extreme lines of products from Estée Lauder contributed approximately \$41 million to the increase. These increases were partially offset by approximately \$55 million of lower sales from existing products in the Advanced Night Repair and Perfectionist lines from Estée Lauder and in the Superdefense line from Clinique. Excluding the impact of foreign currency translation, skin care net sales increased 9%.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Makeup

Makeup net sales increased 4%, or \$78.7 million, to \$2,244.4 million, primarily reflecting an increase of approximately \$92 million from our makeup artist brands, driven by higher net sales outside the United States. The recent launches of Even Better Makeup SPF 15 and Superbalanced Powder Makeup SPF 15 from Clinique, as well as higher sales of Double Wear Foundation from Estée Lauder, contributed approximately \$43 million, combined, to the increase. These increases were partially offset by lower sales of Prescriptives products due to the exit from the global wholesale distribution of the brand, as well as lower sales of High Impact Lip Color from Clinique and Artist's Lip and Eye Pencils from Estée Lauder of approximately \$39 million, combined. During the current-year period, we undertook an initiative to identify certain underperforming stock keeping units for the purposes of evaluating their relevance to our long-term perfumery strategy in the Europe, the Middle East & Africa region. Based on this evaluation, we decided to discontinue certain of these products in perfumeries and recorded a charge of approximately \$27 million to reflect the anticipated returns of makeup products from participating retailers, subject to our approval. Excluding the impact of foreign currency translation, makeup net sales increased 2%.

Fragrance

Net sales of fragrance products decreased 1%, or \$12.7 million, to \$917.8 million. This decline was largely due to lower sales of designer fragrances, of which approximately \$46 million was attributable to DKNY Delicious Night, Sean John Unforgivable Woman, Hilfiger Men and Sean John Unforgivable. Also contributing to the decrease were lower sales of Estée Lauder Sensuous and Clinique Happy of approximately \$12 million, combined. These declines were partially offset by incremental sales from the recent launches of DKNY Be Delicious Fresh Blossom, Pure DKNY and Very Hollywood Michael Kors of approximately \$44 million, combined. Excluding the impact of foreign currency translation, fragrance net sales decreased 3%.

Hair Care

Hair care net sales increased 2%, or \$6.1 million, to \$304.0 million, primarily reflecting an increase in net sales of styling and hair color products, the recent launch of Smooth Infusion Glossing Straightener from Aveda and sales generated from expanded distribution outside the United States. This increase was partially offset by lower net sales resulting from a soft salon retail environment and the closing of certain underperforming freestanding retail stores in North America. Excluding the impact of foreign currency translation, hair care net sales increased 1%.

Geographic Regions

Net sales in the Americas decreased slightly, by \$8.9 million, to \$2,638.3 million. This decrease was primarily attributable to lower net sales in the United States of approximately \$45 million, particularly from various Estée Lauder fragrances, our hair care brands, and the exit from the global wholesale distribution of the Prescriptives brand, partially offset by higher sales of Clinique skin care products and from various designer fragrances. The decline in net sales in the United States was partially offset by net sales increases of approximately \$36 million in Canada and Latin America, reflecting a better-than-expected holiday selling season, new points of distribution and the favorable impact of foreign currency translation. Despite restocking to appropriate levels by certain retailers, economic conditions in the Americas region, particularly in the department store channel, have negatively impacted our businesses. Ongoing challenges faced by certain of our department store customers in the United States may continue to affect our net sales for the short and medium term. Excluding the impact of foreign currency translation, net sales in the Americas decreased 1%.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

In Europe, the Middle East & Africa, net sales increased 9%, or \$172.1 million, to \$2,159.4 million, reflecting growth from travel retail and from virtually all countries in the region across each product category. The region also benefited from the favorable impact of foreign currency translation. Net sales increases of approximately \$166 million were driven by our travel retail business, the United Kingdom, Russia, South Africa and Germany, reflecting an improved retail environment, successful launches of skin care products and higher combined sales from our makeup artist brands. The net sales improvement in our travel retail business also reflected a favorable comparison to the prior-year period due to an increase in passenger traffic, new points of distribution and select customer restocking. At this time, the disruption in air travel as a result of the volcanic activity in Iceland is not anticipated to have a material impact on our travel retail business. Partially offsetting these increases were lower net sales of approximately \$6 million in our distributor business, and in the Balkans. We continue to experience select customer destocking in continental Europe. During the current-year period, we undertook an initiative to identify certain underperforming stock keeping units for the purposes of evaluating their relevance to our long-term perfumery strategy. Based on this evaluation, we decided to discontinue certain of these products in perfumeries and recorded a charge of approximately \$31 million to reflect the anticipated returns of these products from participating retailers, subject to our approval. Excluding the impact of foreign currency translation, net sales in Europe, the Middle East & Africa increased 6%.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Net sales in Asia/Pacific increased 16%, or \$164.8 million, to \$1,171.3 million, reflecting growth from all countries in the region across each product category. The region also benefited from the favorable impact of foreign currency translation. Approximately \$146 million of this increase was generated in China, Korea, Hong Kong, Australia and Taiwan reflecting strong sales of skin care products. Australia and Korea also benefited significantly from foreign currency translation. Our business in Japan continued to be a challenging market, as reported net sales increases were generated from the strengthening of the Japanese yen. Excluding the impact of foreign currency translation, Asia/Pacific net sales increased 10%.

Although our financial performance reflected improved economic conditions, we expect the global economic uncertainties to continue to impact our business. We cannot predict with certainty the magnitude or duration of the impact or how it will vary across each of our geographic regions.

We strategically stagger our new product launches by geographic market, which may account for differences in regional sales growth.

COST OF SALES

Cost of sales as a percentage of total net sales decreased to 23.8% as compared with 25.8% in the prior-year period. This improvement primarily reflected favorable changes in the mix of our business of approximately 80 basis points, a decrease in obsolescence charges of approximately 40 basis points and favorable manufacturing variances of 30 basis points. Also contributing to the improvement in cost of sales margin were the favorable comparison to the prior-year period when we recorded excess overhead costs that were not expected to be recovered of approximately 30 basis points and the favorable effect of exchange rates of approximately 20 basis points. Partially offsetting these improvements was the impact of charges associated with restructuring activities of approximately 10 basis points.

Since certain promotional activities are a component of sales or cost of sales and the timing and level of promotions vary with our promotional calendar, we have experienced, and expect to continue to experience, fluctuations in the cost of sales percentage. In addition, future cost of sales mix may be impacted by the inclusion of potential new brands or channels of distribution which have margin and product cost structures different from those of our current mix of business.

OPERATING EXPENSES

Operating expenses as a percentage of net sales decreased to 63.7% as compared with 66.5% in the prior-year period, and reflects the previously discussed impact of anticipated returns on current-year net sales. In light of the uncertainty surrounding the global economic environment and the potential impact of certain external risks, throughout the fiscal year we aggressively applied various Company-wide cost containment efforts and a more measured approach to spending. As a percentage of net sales, the implementation of these initiatives helped reduce advertising, merchandising and sampling costs by approximately 170 basis points and selling, general and administrative costs by approximately 150 basis points. Also contributing to the improvement in operating expense margin were lower net losses from foreign exchange transactions of

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

approximately 50 basis points. Partially offsetting these improvements were charges associated with restructuring activities of approximately 60 basis points and higher goodwill and other intangible asset impairment charges of approximately 50 basis points.

Changes in advertising, sampling and merchandising spending result from the type, timing and level of activities related to product launches and rollouts, as well as the markets being emphasized.

OPERATING RESULTS

Operating income increased 72%, or \$313.2 million, to \$746.3 million. Operating margin improved to 12.5% of net sales as compared with 7.7% in the prior-year period, reflecting our higher gross margin and the decrease in our operating expense margin as previously discussed. The following discussions of Operating Results by *Product Categories* and *Geographic Regions* exclude the impact of total charges associated with restructuring activities of \$59.1 million, or 1% of net sales, in fiscal 2010 and \$6.6 million, or less than 1% of net sales, in fiscal 2009. We believe the following analysis of operating results better reflects the manner in which we conduct and view our business.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Product Categories

All product categories benefited from Company-wide cost containment initiatives and a more measured approach to spending, as well as significant improvement in cost of sales from favorable product mix and enhanced inventory management. Skin care operating income increased 71%, or \$172.6 million, to \$414.2 million, primarily reflecting improved results from certain of our heritage brands driven by increased net sales from higher-margin product launches. While the current-year period skin care results reflected approximately \$6 million related to other intangible asset impairment, it was a favorable comparison to the prior-year period when we recorded a similar charge of approximately \$12 million. Makeup operating income increased 48%, or \$107.9 million, to \$334.2 million, primarily reflecting improved results from certain of our heritage brands and from our makeup artist brands. The operating results for the makeup category also reflected the majority of the impact of the charge related to the discontinuation of certain stock keeping units, as previously discussed, which reflects the anticipated returns, as well as the write-off of related inventory on hand of approximately \$30 million, combined. Fragrance operating results increased over 100%, or \$97.0 million, to \$60.0 million, primarily reflecting higher net sales of designer fragrances, and a favorable comparison to the prior-year period's support spending behind fiscal 2009 launches. Hair care operating results decreased over 100% or \$17.9 million, to a loss of \$7.8 million, primarily reflecting goodwill and intangible asset impairments of approximately \$36 million, partially offset by net sales growth outside the United States, the closing of certain underperforming retail stores in the prior-year period and savings generated from cost containment initiatives.

Geographic Regions

Operating results in each of our geographic regions benefited from Company-wide cost containment initiatives and a more measured approach to spending, as well as significant improvement in cost of sales from favorable product mix and enhanced inventory management, resulting in significant improvements in their operating income.

Operating income in the Americas increased 55%, or \$68.9 million, to \$193.1 million, driven by Company-wide cost containment efforts and a more measured approach to spending, particularly from our heritage brands and our makeup artist brands. This increase was partially offset by goodwill and other intangible asset impairments and the impact of the recent economic events in Venezuela, as previously discussed.

In Europe, the Middle East & Africa, operating income increased over 100%, or \$235.8 million, to \$401.0 million, reflecting improvements in travel retail and virtually all countries in the region. Higher results from our travel retail business and in the United Kingdom, Russia, Spain, France and Germany totaled approximately \$212 million. While the current-year period results reflected approximately \$6 million related to other intangible asset impairment, it was a favorable comparison to the prior-year period when we recorded a similar charge of approximately \$12 million. In addition, as previously discussed, we recorded a charge related to the discontinuation of certain stock keeping units which reflects the anticipated returns, as well as the write-off of related inventory on hand of approximately \$34 million, combined.

In Asia/Pacific, operating income increased 41%, or \$61.0 million, to \$211.3 million. All countries in the region reported higher operating results, led by approximately \$50 million in China, Hong Kong, Japan, Taiwan and Australia, combined.

INTEREST EXPENSE, NET

Net interest expense was \$57.7 million as compared with \$55.5 million in the prior-year period. Interest income decreased due to lower average investment rates, partially offset by higher average investment balances. To a lesser extent, interest expense decreased due to lower average debt balances, partially offset by higher weighted average interest rates.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

PROVISION FOR INCOME TAXES

The provision for income taxes represents Federal, foreign, state and local income taxes. The effective rate differs from statutory rates due to the effect of state and local income taxes, tax rates in foreign jurisdictions and certain nondeductible expenses. Our effective tax rate will change from quarter to quarter based on recurring and non-recurring factors including, but not limited to, the geographical mix of earnings, enacted tax legislation, state and local income taxes, tax audit settlements, the ultimate disposition of deferred tax assets relating to stock-based compensation and the interaction of various global tax strategies. In addition, changes in judgment from the evaluation of new information resulting in the recognition, derecognition or remeasurement of a tax position taken in a prior annual period are recognized separately in the quarter of the change.

The effective rate for income taxes for the nine months ended March 31, 2010 was 33.6% as compared with 36.7% in the prior-year period. The decrease in the effective income tax rate of 310 basis points was primarily attributable to a lower effective tax rate relating to our foreign operations.

NET EARNINGS ATTRIBUTABLE TO THE ESTÉE LAUDER COMPANIES INC.

Net earnings attributable to The Estée Lauder Companies Inc. as compared with the prior-year period increased 92%, or \$218.1 million, to \$454.4 million and diluted net earnings per common share increased 90% from \$1.19 to \$2.27. The results in the current-year period include the impact of total charges associated with restructuring activities of \$39.1 million, after tax, or \$.20 per diluted common share. The impact of these charges was \$6.9 million, after tax, or \$.03 per diluted common share in the prior-year period.

FINANCIAL CONDITION

LIQUIDITY AND CAPITAL RESOURCES

Overview

Our principal sources of funds historically have been cash flows from operations, borrowings pursuant to our commercial paper program, borrowings from the issuance of long-term debt and committed and uncommitted credit lines provided by banks and other lenders in the United States and abroad. At March 31, 2010, we had cash and cash equivalents of \$1,381.2 million compared with \$864.5 million at June 30, 2009. Our cash and cash equivalents are maintained at a number of financial institutions. As of March 31, 2010, less than 10% of the total balance is insured by governmental agencies. To mitigate the risk of uninsured balances, we select financial institutions based on their credit ratings and financial strength and perform ongoing evaluations of these institutions to limit our concentration risk exposure.

Our business is seasonal in nature and, accordingly, our working capital needs vary. From time to time, we may enter into investing and financing transactions that require additional funding. To the extent that these needs exceed cash from operations, we could, subject to market conditions, issue commercial paper, issue long-term debt securities or borrow under our revolving credit facilities. We do not anticipate protracted difficulties in securing these forms of working capital financing.

Based on past performance and current expectations, we believe that cash on hand, cash generated from operations, available credit lines and access to credit markets will be adequate to support currently planned business operations, information systems enhancements, capital expenditures, potential stock repurchases, commitments and other contractual obligations on both a near-term and long-term basis.

The effects of inflation have not been significant to our overall operating results in recent years. Generally, we have been able to introduce new products at higher selling prices or increase selling prices sufficiently to offset cost increases, which have been moderate.

Table of Contents**THE ESTÉE LAUDER COMPANIES INC.****Debt**

At March 31, 2010, our outstanding borrowings were as follows:

	Long-term Debt		Short-term Debt (In millions)		Total Debt
6.00% Senior Notes, due May 15, 2037 (2037 Senior Notes(1)) (7)	\$ 296.3			\$	296.3
5.75% Senior Notes, due October 15, 2033 (2033 Senior Notes(2))	197.6				197.6
5.55% Senior Notes, due May 15, 2017 (2017 Senior Notes(3)) (7)	326.6				326.6
7.75% Senior Notes, due November 1, 2013 (2013 Senior Notes (4) (7))	299.9				299.9
6.00% Senior Notes, due January 15, 2012 (2012 Senior Notes(5))	245.9				245.9

Turkish lira overdraft facility			4.2		4.2
Other borrowings	22.2		17.5		39.7
	\$ 1,395.9		\$ 21.7	\$	1,417.6

(1) Consists of \$300.0 million principal and unamortized debt discount of \$3.7 million.

(2) Consists of \$200.0 million principal and unamortized debt discount of \$2.4 million.

(3) Consists of \$300.0 million principal, unamortized debt discount of \$0.4 million and a \$27.0 million adjustment to reflect the fair value of outstanding interest rate swaps.

(4) Consists of \$300.0 million principal and unamortized debt discount of \$0.1 million.

(5) Consists of \$250.0 million principal, unamortized debt discount of \$0.2 million and a \$3.9 million adjustment to reflect the remaining termination value of an interest rate swap that is being amortized to interest expense over the life of the debt.

(6) Consists of \$6.8 million face value and unamortized premium of \$0.6 million.

(7) As of March 31, 2010, we were in compliance with all related restrictive covenants, including limitations on indebtedness and liens, and expect continued compliance.

On April 27, 2010, we commenced a cash tender offer for up to \$200.0 million aggregate principal amount of our 2012 Senior Notes and 2013 Senior Notes. We are offering to pay a fixed spread to the comparable treasury rates for each of the 2012 Senior Notes and 2013 Senior Notes. We expect to pay total cash of approximately \$220 million to \$230 million, including fees and expenses, assuming the full amount is tendered. The tender offer is scheduled to expire at 12:00 midnight, New York time, on May 24, 2010. Assuming the full amount is tendered and the offering is consummated as of such date, we would expect to incur, in our fiscal 2010 fourth quarter, a charge to earnings in the range of \$26 million to \$30 million (\$17 million to \$19 million after tax), and we would expect to save approximately the same amounts in pre-tax interest expense through fiscal 2014, including \$10 to \$11 million in fiscal 2011. We have the option to extend or amend the tender offer at any time.

We have a \$750.0 million commercial paper program under which we may issue commercial paper in the United States. Our commercial paper is currently rated A-1 by Standard & Poor's and P-1 by Moody's. Our long-term credit ratings are A with a stable outlook by Standard & Poor's and A2 with a negative outlook by Moody's. At March 31, 2010, there was no commercial paper outstanding. We also have \$191.2 million in additional uncommitted credit facilities, of which \$9.5 million was used as of March 31, 2010.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

We have an undrawn \$750.0 million senior unsecured revolving credit facility that expires on April 26, 2012. This facility may be used primarily to provide credit support for our commercial paper program, to repurchase shares of our common stock and for general corporate purposes. Up to the equivalent of \$250 million of the credit facility is available for multi-currency loans. The interest rate on borrowings under the credit facility is based on LIBOR or on the higher of prime, which is the rate of interest publicly announced by the administrative agent, or 1/2% plus the Federal funds rate. We incurred costs of approximately \$0.3 million to establish the facility which will be amortized over the term of the facility. The credit facility has an annual fee of \$0.4 million, payable quarterly, based on our current credit ratings. This facility also contains a cross-default provision whereby a failure to pay other material financial obligations in excess of \$50.0 million (after grace periods and absent a waiver from the lenders) would result in an event of default and the acceleration of the maturity of any outstanding debt under this facility. As of March 31, 2010, we were in compliance with all related financial and other restrictive covenants, including limitations on indebtedness and liens, and expect continued compliance. The financial covenant of this facility requires an interest expense coverage ratio of greater than 3:1 as of the last day of each fiscal quarter. The interest expense coverage ratio is defined in the credit agreement as the ratio of Consolidated EBITDA (which does not represent a measure of our operating results as defined under U.S. generally accepted accounting principles) to Consolidated Interest Expense and is calculated as stipulated in the agreement as follows:

We have an undrawn \$750.0 million senior unsecured revolving credit facility that expires on April 26, 2012. This fa

- (1) In accordance with the credit agreement, this period represents the four most recent quarters.
(2) Excludes amortization of debt discount, and derivative and debt issuance costs as they are already included in Interest expense, net.
(3) Includes goodwill, intangible asset and other long-lived asset impairments and non-cash charges associated with restructuring activities.
(4) As provided for in the credit agreement.

We have a fixed rate promissory note agreement with a financial institution pursuant to which we may borrow up to \$150.0 million in the form of loan participation notes through one of our subsidiaries in Europe. The interest rate on borrowings under this agreement is at an all-in fixed rate determined by the lender and agreed to by us at the date of each borrowing. At March 31, 2010, no borrowings were outstanding under this agreement. Debt issuance costs incurred related to this agreement were de minimis.

We have an overdraft borrowing agreement with a financial institution pursuant to which our subsidiary in Turkey may be credited to satisfy outstanding negative daily balances arising from its business operations. The total balance outstanding at any time shall not exceed 40.0 million Turkish lira (\$26.1 million at the exchange rate at March 31, 2010). The interest rate applicable to each such credit shall be up to a maximum of 175 basis points per annum above the spot rate charged by the lender or the lender's floating call rate agreed to by us at each borrowing. There were no debt issuance costs incurred related to this agreement. The outstanding balance at March 31, 2010 (\$4.2 million at the exchange rate at March 31, 2010) is classified as short-term debt in our consolidated balance sheet.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

We have an undrawn \$750.0 million senior unsecured revolving credit facility that expires on April 26, 2018. This fa

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

We have a 1.5 billion Japanese yen (\$16.2 million at the exchange rate at March 31, 2010) revolving credit facility that expires on March 31, 2011 and a 1.5 billion Japanese yen (\$16.2 million at the exchange rate at March 31, 2010) revolving credit facility that expires on March 31, 2012. The interest rates on borrowings under these credit facilities are based on TIBOR (Tokyo Interbank Offered Rate) plus .45% and .75%, respectively and the facility fees incurred on undrawn balances are 15 basis points and 25 basis points, respectively. At March 31, 2010, no borrowings were outstanding under these facilities.

Total debt as a percent of total capitalization (excluding noncontrolling interests) decreased to 41% at March 31, 2010 from 46% at June 30, 2009.

Cash Flows

Net cash provided by operating activities was \$798.2 million during the nine months ended March 31, 2010 as compared with \$306.7 million in the prior-year period. Cash flows from operating activities improved significantly as compared with the prior-year period, primarily reflecting higher net earnings and the timing and level of tax payments. The increase in cash flows provided by operating activities also reflected increases in accrued advertising, merchandising and sampling, accrued employee compensation, and an increase in accounts payable. These changes were partially offset by the building of safety stock for the April 2010 implementation of SAP at our North American manufacturing plants and the prior-year period impact of significant inventory reductions. Also partially offsetting the improvements were higher cash paid in the current-year period for restructuring and severance, and an increase in accounts receivable balances, mainly due to the increase in net sales during the current-year period.

Net cash used for investing activities was \$170.8 million during the nine months ended March 31, 2010 as compared with \$279.9 million in the prior-year period. The decrease in investing cash outflows primarily reflected lower cash payments in the current-year period related to counters and leasehold improvements, and global information technology systems and infrastructure. The change also reflected lower acquisition activity in the current-year period as compared with the acquisitions of Applied Genetics Incorporated Dermatics and businesses engaged in the wholesale distribution and retail sale of Aveda products in the prior-year period.

Net cash used for financing activities was \$115.9 million during the nine months ended March 31, 2010 as compared with net cash provided by financing activities of \$244.2 million in the prior-year period, primarily reflecting the net proceeds from the issuance of the 2013 Senior Notes in the prior-year period. Also contributing to this change was an increase in treasury stock purchases and repayments related to Ojon promissory notes, partially offset by higher cash inflows from stock option exercises.

Dividends

During the current-year period, we paid dividends on Class A and Class B Common Stock of \$.55 per share (or an aggregate of \$109.1 million) as compared with \$.55 per share (or an aggregate of \$108.4 million) in the prior-year period.

Pension Plan Funding

We previously disclosed in our consolidated financial statements for the fiscal year ended June 30, 2009 that we did not expect to make cash contributions to our trust based, noncontributory qualified defined benefit pension plan (U.S. Qualified Plan), but we did intend to make approximately \$32 million of cash contributions to our international defined benefit pension plans during the fiscal year ending June 30, 2010. During the fiscal 2010 third quarter, we made a discretionary contribution to the U.S. Qualified Plan of \$13.0 million. We may decide to make additional discretionary contributions to the U.S. Qualified Plan during the remainder of fiscal 2010. During the nine months ended March 31, 2010, we made contributions to our international pension plans totaling approximately \$33 million. As of March 31, 2010, the expected contributions to the international pension plans are currently anticipated to be approximately \$55 million for the fiscal year ending June 30, 2010.

We have an undrawn \$750.0 million senior unsecured revolving credit facility that expires on April 26, 2012. This fa

Commitments, Contingencies and Contractual Obligations

There have been no significant changes to our commitments, contingencies and contractual obligations as discussed in our Annual Report on Form 10-K for the year ended June 30, 2009.

Derivative Financial Instruments and Hedging Activities

There have been no significant changes to our derivative financial instruments and hedging activities as discussed in our Annual Report on Form 10-K for the year ended June 30, 2009.

Table of Contents

Foreign Exchange Risk Management

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

We enter into foreign currency forward contracts to hedge anticipated transactions, as well as receivables and payables denominated in foreign currencies, for periods consistent with our identified exposures. The purpose of the hedging activities is to minimize the effect of foreign exchange rate movements on costs and on the cash flows that we receive from foreign subsidiaries. The majority of foreign currency forward contracts are denominated in currencies of major industrial countries. We may also enter into foreign currency option contracts to hedge anticipated transactions where there is a high probability that anticipated exposures will materialize. The foreign currency forward contracts entered into to hedge anticipated transactions have been designated as foreign currency cash-flow hedges and have varying maturities through the end of June 2011. Hedge effectiveness of foreign currency forward contracts is based on a hypothetical derivative methodology and excludes the portion of fair value attributable to the spot-forward difference which is recorded in current-period earnings. Hedge effectiveness of foreign currency option contracts is based on a dollar offset methodology. The ineffective portion of both foreign currency forward and option contracts is recorded in current-period earnings. For hedge contracts that are no longer deemed highly effective, hedge accounting is discontinued and gains and losses accumulated in other comprehensive income (loss) are reclassified to earnings when the underlying forecasted transaction occurs. If it is probable that the forecasted transaction will no longer occur, then any gains or losses in accumulated other comprehensive income (loss) are reclassified to current-period earnings. As of March 31, 2010, these foreign currency cash-flow hedges were highly effective, in all material respects.

At March 31, 2010, we had foreign currency forward contracts in the amount of \$1,394.7 million. The foreign currencies included in foreign currency forward contracts (notional value stated in U.S. dollars) are principally the British pound (\$271.4 million), Swiss franc (\$271.2 million), Euro (\$171.1 million), Canadian dollar (\$165.9 million), Hong Kong dollar (\$103.4 million) and Australian dollar (\$98.1 million).

Interest Rate Risk Management

We enter into interest rate derivative contracts to manage the exposure to interest rate fluctuations on our funded indebtedness and anticipated issuance of debt for periods consistent with the identified exposures. We have interest rate swap agreements, with a notional amount totaling \$250.0 million, to effectively convert the fixed rate interest on our 2017 Senior Notes to variable interest rates based on six-month LIBOR. These interest rate swap agreements are designated as fair value hedges of the related long-term debt and meet the accounting criteria that permit changes in the fair values of the interest rate swap agreements to exactly offset changes in the fair value of the underlying long-term debt. As of March 31, 2010, these fair-value hedges were highly effective in all material respects.

Credit Risk

As a matter of policy, we only enter into derivative contracts with counterparties that have at least an A (or equivalent) credit rating. The counterparties to these contracts are major financial institutions. Exposure to credit risk in the event of nonperformance by any of the counterparties is limited to the gross fair value of contracts in asset positions, which totaled \$38.9 million at March 31, 2010. To manage this risk, we have established strict counterparty credit guidelines that are continually monitored and reported to management. Accordingly, management believes risk of loss under these hedging contracts is remote.

Certain of our derivative financial instruments contain credit-risk-related contingent features. As of March 31, 2010, we were in compliance with such features and there were no derivative financial instruments with credit-risk-related contingent features that were in a net liability position.

Market Risk

Using the value-at-risk model, as discussed in our Annual Report on Form 10-K for the fiscal year, ended June 30, 2009, the high, low and average measured value-at-risk for the twelve months ended March 31, 2010 related to our foreign exchange and interest rate contracts are as follows:

(In millions)	High	Low	Average
---------------	------	-----	---------

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Foreign exchange contracts	\$	28.4	\$	19.0	\$	22.0
Interest rate contracts		31.3		10.5		21.0

There have been no significant changes in market risk since June 30, 2009 that would have a material effect on our calculated value-at-risk exposure, as disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009.

Off-Balance Sheet Arrangements

We do not maintain any off-balance sheet arrangements, transactions, obligations or other relationships with unconsolidated entities that would be expected to have a material current or future effect on our financial condition or results of operations.

CRITICAL ACCOUNTING POLICIES

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

As disclosed in our Annual Report on Form 10-K for the fiscal year ended June 30, 2009, the discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in conformity with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses reported in those financial statements. These judgments can be subjective and complex, and consequently actual results could differ from those estimates and assumptions. Our most critical accounting policies relate to revenue recognition, inventory, pension and other post-retirement benefit costs, goodwill, intangible assets and other long-lived assets, income taxes and derivatives. Since June 30, 2009, there have been no significant changes to the assumptions and estimates related to our critical accounting policies.

RECENTLY ADOPTED AND RECENTLY ISSUED ACCOUNTING STANDARDS

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Refer to Note 1 of Notes to Consolidated Financial Statements *Summary of Significant Accounting Policies* for discussion regarding the impact of recently adopted accounting standards, as well as the impact of accounting standards that were recently issued but not yet effective, on the Company's consolidated financial statements.

FORWARD-LOOKING INFORMATION

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

We and our representatives from time to time make written or oral forward-looking statements, including statements contained in this and other filings with the Securities and Exchange Commission, in our press releases and in our reports to stockholders. The words and phrases "will likely result," "expect," "believe," "planned," "may," "should," "could," "anticipate," "estimate," "project," "intend," "forecast" or similar expressions are used in our forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements include, without limitation, our expectations regarding sales, earnings or other future financial performance and liquidity, product introductions, entry into new geographic regions, information systems initiatives, new methods of sale, our long-term strategy, restructuring and other charges and future operations or operating results. Although we believe that our expectations are based on reasonable assumptions within the bounds of our knowledge of our business and operations, actual results may differ materially from our expectations. Factors that could cause actual results to differ from expectations include, without limitation:

- (1) increased competitive activity from companies in the skin care, makeup, fragrance and hair care businesses, some of which have greater resources than we do;
- (2) our ability to develop, produce and market new products on which future operating results may depend and to successfully address challenges in our business;
- (3) consolidations, restructurings, bankruptcies and reorganizations in the retail industry causing a decrease in the number of stores that sell our products, an increase in the ownership concentration within the retail industry, ownership of retailers by our competitors or ownership of competitors by our customers that are retailers and our inability to collect receivables;
- (4) destocking and tighter working capital management by retailers;
- (5) the success, or changes in timing or scope, of new product launches and the success, or changes in the timing or the scope, of advertising, sampling and merchandising programs;
- (6) shifts in the preferences of consumers as to where and how they shop for the types of products and services we sell;

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

(7) social, political and economic risks to our foreign or domestic manufacturing, distribution and retail operations, including changes in foreign investment and trade policies and regulations of the host countries and of the United States;

(8) changes in the laws, regulations and policies (including the interpretations and enforcement thereof) that affect, or will affect, our business, including those relating to our products, changes in accounting standards, tax laws and regulations, trade rules and customs regulations, and the outcome and expense of legal or regulatory proceedings, and any action we may take as a result;

(9) foreign currency fluctuations affecting our results of operations and the value of our foreign assets, the relative prices at which we and our foreign competitors sell products in the same markets and our operating and manufacturing costs outside of the United States;

(10) changes in global or local conditions, including those due to the volatility in the global credit and equity markets, natural or man-made disasters, real or perceived epidemics, or energy costs, that could affect consumer purchasing, the willingness or ability of consumers to travel and/or purchase our products while traveling, the financial strength of our customers, suppliers or other contract counterparties, our operations, the cost and availability of capital which we may need for new equipment, facilities or acquisitions, the returns that we are able to generate on our pension assets and the resulting impact on funding obligations, the cost and availability of raw materials and the assumptions underlying our critical accounting estimates;

(11) shipment delays, depletion of inventory and increased production costs resulting from disruptions of operations at any of the facilities that manufacture nearly all of our supply of a particular type of product (i.e., focus factories) or at our distribution or inventory centers, including disruptions that may be caused by the implementation of SAP as part of our Strategic Modernization Initiative or by restructurings;

(12) real estate rates and availability, which may affect our ability to increase or maintain the number of retail locations at which we sell our products and the costs associated with our other facilities;

(13) changes in product mix to products which are less profitable;

(14) our ability to acquire, develop or implement new information and distribution technologies and initiatives on a timely basis and within our cost estimates;

(15) our ability to capitalize on opportunities for improved efficiency, such as publicly-announced strategies and restructuring and cost-savings initiatives, and to integrate acquired businesses and realize value therefrom;

(16) consequences attributable to the events that are currently taking place in the Middle East, including terrorist attacks, retaliation and the threat of further attacks or retaliation;

(17) the timing and impact of acquisitions and divestitures, which depend on willing sellers and buyers, respectively; and

(18) additional factors as described in our filings with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended June 30, 2009.

We assume no responsibility to update forward-looking statements made herein or otherwise.

Item 3. *Quantitative and Qualitative Disclosures About Market Risk.*

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

The information required by this item is set forth in Item 2 of this Quarterly Report on Form 10-Q under the caption "Liquidity and Capital Resources - Market Risk" and is incorporated herein by reference.

Table of Contents

THE ESTÉE LAUDER COMPANIES INC.

Item 4. Controls and Procedures.

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

Our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) are designed to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission and to ensure that information required to be disclosed is accumulated and communicated to management, including our principal executive and financial officers, to allow timely decisions regarding disclosure. The Chief Executive Officer and the Chief Financial Officer, with assistance from other members of management, have reviewed the effectiveness of our disclosure controls and procedures as of March 31, 2010 and, based on their evaluation, have concluded that the disclosure controls and procedures were effective as of such date.

As part of our Strategic Modernization Initiative, we anticipate the continued migration of our operations to SAP, with the majority of our locations being implemented through fiscal 2012. In April 2010, we implemented SAP at our North American manufacturing plants. Based on management's evaluation, the necessary steps have been taken to monitor and maintain appropriate internal control over financial reporting during this period.

There have been no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) that occurred during the third quarter of fiscal 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

We are involved, from time to time, in litigation and other legal proceedings incidental to our business. Management believes that the outcome of current litigation and legal proceedings will not have a material adverse effect upon our results of operations or financial condition. However, management's assessment of our current litigation and other legal proceedings could change in light of the discovery of facts with respect to legal actions or other proceedings pending against us not presently known to us or determinations by judges, juries or other finders of fact which are not in accord with management's evaluation of the possible liability or outcome of such litigation or proceedings.

Item 1A. Risk Factors.

There are risks associated with an investment in our securities.

Please consider the risks set forth in Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended June 30, 2009 (as supplemented in Item 1A. Risk Factors of our Quarterly Report on Form 10-Q for the period ended December 31, 2009) and elsewhere in that report and our subsequent filings with the Securities and Exchange Commission. Our business may also be adversely affected by risks and uncertainties not presently known to us or that we currently believe to be immaterial. If any of the events contemplated by the discussion of risks in that annual report (as supplemented) should occur or other risks arise or develop, our business, prospects, financial condition and results of operations, as well as the trading prices of our securities, may be adversely affected.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.**Share Repurchase Program**

We are authorized by the Board of Directors to repurchase up to 88.0 million shares of Class A Common Stock in the open market or in privately negotiated transactions, depending on market conditions and other factors. As of March 31, 2010, the cumulative total of acquired shares pursuant to the authorization was 68.0 million, reducing the remaining authorized share repurchase balance to 20.0 million. During the nine months ended March 31, 2010, we purchased approximately 2.7 million shares pursuant to the authorization for \$138.7 million as outlined in the following table:

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Maximum Number of Shares that May Yet Be Purchased Under the Program(1)
July 2009				22,734,432
August 2009				22,734,432
September 2009	11,688(2)	\$34.21		22,734,432
October 2009				22,734,432
November 2009	526,386(3)	46.06	330,000	22,404,432
December 2009	1,098,463	48.61	1,098,463	21,305,969
January 2010	450,000	49.20	450,000	20,855,969
February 2010	635,000	57.55	635,000	20,220,969
March 2010	180,300	60.61	180,300	20,040,669
	2,901,837	\$50.88	2,693,763	20,040,669

- (1) The initial program covering the repurchase of 8.0 million shares was announced in September 1998 and increased by 20.0 million shares each in November 2007, February 2007 and May 2005 and 10.0 million shares in both May 2004 and October 2002.
- (2) Represents shares that were repurchased by the Company in connection with shares withheld to satisfy tax obligations upon the settlement of performance share units earned as of June 30, 2009.
- (3) Includes shares that were repurchased by the Company in connection with shares withheld to satisfy tax obligations upon the vesting of restricted stock units.

Sales of Unregistered Securities

Shares of Class B Common Stock may be converted immediately into Class A Common Stock on a one-for-one basis by the holder and are automatically converted into Class A Common Stock on a one-for-one basis upon transfer to a person or entity that is not a Permitted Transferee or soon after a record date for a meeting of stockholders where the outstanding Class B Common Stock constitutes less than 10% of the outstanding shares of Common Stock of the Company. There is no cash or other consideration paid by the holder converting the shares and, accordingly, there is no cash or other consideration received by the Company. The shares of Class A Common Stock issued by the Company in such conversions are exempt from registration under the Securities Act of 1933, as amended, pursuant to Section 3(a)(9) thereof.

During the three months ended March 31, 2010, the stockholder set forth in the table below converted shares of Class B Common Stock into Class A Common Stock on the dates set forth below:

Stockholder That Converted Class B Common Stock to Class	Date of Conversion	Number of Shares Converted/Received
----------------------------------------------------------	--------------------	-------------------------------------

Edgar Filing: ESTEE LAUDER COMPANIES INC - Form 10-Q

A Common Stock

Ronald S. Lauder	February 12, 2010	200,000
Ronald S. Lauder	March 5, 2010	150,000
