LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

LyondellBasell Industries N.V., together with its consolidated subsidiaries (collectively “LyondellBasell N.V.”), is a worldwide manufacturer of chemicals and polymers, a refiner of crude oil, a significant producer of gasoline blending components and a developer and licensor of technologies for production of polymers. Unless otherwise indicated, the “Company,” “we,” “us,” “our” or similar words are used to refer to LyondellBasell N.V.

The accompanying Consolidated Financial Statements are unaudited and have been prepared from the books and records of LyondellBasell N.V. in accordance with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X for interim financial information. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States (“U.S. GAAP”) for complete financial statements. In our opinion, all adjustments, including normal recurring adjustments, considered necessary for a fair statement have been included. The results for interim periods are not necessarily indicative of results for the entire year. These Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and notes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2018.

2. Accounting and Reporting Changes

Standard	Description	Period of Adoption	Effect on the Consolidated Financial Statements
Recently Adopted Guidance			
ASU 2016-02, Leases (Topic 842) (including subsequent amendments: ASU 2018-01, Land Easement Practical Expedient for Transition to Topic 842, ASU 2018-10, Codification Improvements to Topic 842, ASU 2018-11, Leases, Targeted Improvements, and ASU 2019-01, Leases Codification Improvements)	The new guidance establishes a right-of-use model that requires a lessee to recognize a right-of-use asset and lease liability on the balance sheet for all leases with a term greater than 12 months. Leases are classified as finance or operating, with classification affecting the timing and classification of expense recognition. This guidance also enhances disclosure requirements and is effective for public entities for annual periods beginning after December 15, 2018.	First quarter of 2019	See Note 8 for disclosures related to the adoption of this guidance.
ASU 2018-09, Codification Improvements	This guidance makes minor improvements in various subtopics. Many of the amendments within the ASU do not require transition and are effective upon issuance. However, some amendments are not effective until fiscal years beginning after December 15, 2018.	First quarter of 2019	The adoption of the new guidance did not have a material impact on our Consolidated Financial Statements.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Standard	Description	Period of Adoption	Effect on the Consolidated Financial Statements
ASU 2016-13, Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments	This amendment requires financial assets measured at amortized cost basis to be presented at the net amount expected to be collected, resulting in the use of a current expected credit loss (“CECL”) model when measuring an impairment of financial instruments. Credit losses related to available-for-sale securities should be recorded in the consolidated income statement through an allowance for credit losses. Estimated credit losses utilizing the CECL model are based on historical experience, current conditions and forecasts that affect collectability. This ASU also modifies the impairment model for available-for-sale debt securities by eliminating the concept of “other than temporary” as well as providing a simplified accounting model for purchased financial assets with credit deterioration since their origination. The guidance will be effective for annual and interim periods beginning after December 15, 2019. Early adoption is permitted.	First quarter of 2019 (early adopted)	The adoption of the new guidance did not have a material impact on our Consolidated Financial Statements.
Accounting Guidance Issued But Not Adopted as of March 31, 2019	This guidance eliminates, adds and modifies certain disclosure requirements for fair value measurements as part of its disclosure framework project. It removes transfer disclosures between Level 1 and Level 2 of the fair value hierarchy, and adds disclosures for the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The guidance will be effective for public entities for annual and interim periods beginning after December 15, 2019. Early adoption is permitted.		
ASU 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework - Change to the Disclosure Requirements for Fair Value Measurement	This guidance eliminates, adds and modifies certain disclosure requirements for fair value measurements as part of its disclosure framework project. It removes transfer disclosures between Level 1 and Level 2 of the fair value hierarchy, and adds disclosures for the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. The guidance will be effective for public entities for annual and interim periods beginning after December 15, 2019. Early adoption is permitted.	January 1, 2020	We are currently assessing the impact of this guidance on our Consolidated Financial Statements.
ASU 2018-14, Compensation - Retirement Benefits - Defined Benefit Plans - General (Subtopic 715-20): Disclosure Framework - Changes to the Disclosure Requirements for Defined Benefit Plans	This guidance changes disclosure requirements for employers that sponsor defined benefit pension and/or other postretirement benefit plans. It eliminates the requirement of certain disclosures that are no longer considered cost beneficial; however, it adds more pertinent disclosures. The guidance will be effective for public entities for annual periods ending after December 15, 2020. Early adoption is permitted.	January 1, 2021	We are currently assessing the impact of this guidance on our Consolidated Financial Statements.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Standard	Description	Period of Adoption	Effect on the Consolidated Financial Statements
ASU 2018-15, Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract	This guidance requires a customer in a hosted, cloud computing arrangement that is a service contract to follow the internal-use software guidance to determine which implementation costs to capitalize as assets or expense as incurred. Capitalized costs are amortized over the term of the hosting arrangement when the recognized asset is ready for its intended use. The guidance will be effective for public entities for annual and interim periods beginning after December 15, 2019. Early adoption is permitted.	January 1, 2020	We are currently assessing the impact of this guidance on our Consolidated Financial Statements.

3. Business Combination

On August 21, 2018, we acquired all of the outstanding common stock of A. Schulman Inc., a Delaware corporation, for an aggregate purchase price of approximately \$1,940 million.

The purchase price was allocated based on the fair value of the acquired assets and liabilities, redeemable noncontrolling interests and noncontrolling interests assumed on the acquisition date. The allocation is based on preliminary information and is subject to change as additional information concerning final asset and liability valuations is obtained. The primary areas of the preliminary purchase price allocation that have not been finalized relate to the fair value of property, plant and equipment, intangible assets, contingencies and the related impacts on deferred income taxes and cumulative translation adjustments. There were no material purchase price adjustments recorded during the three months ended March 31, 2019.

4. Revenues

Contract Balances—Contract liabilities were \$195 million and \$138 million at March 31, 2019 and December 31, 2018, respectively. Revenue recognized in the reporting period, included in the contract liability balance at the beginning of the period, was immaterial.

Long-Term Debt

Three-Year Term Loan due 2022—In March 2019, LYB Americas Finance Company LLC, a wholly owned subsidiary of LyondellBasell Industries N.V., entered into a three-year \$4,000 million senior unsecured delayed draw term loan credit facility that matures in March 2022. Borrowings under the credit agreement may be made on up to six occasions by December 31, 2019. Proceeds under this credit agreement, which is fully and unconditionally guaranteed by LyondellBasell Industries. N.V., may be used for general corporate purposes.

Borrowings under the credit agreement bear interest at either a base rate or LIBOR rate, as defined, plus in each case, an applicable margin determined by reference to LyondellBasell Industries N.V.'s current credit ratings.

The credit agreement contains customary representations and warranties and contains certain restrictive covenants regarding, among other things, secured indebtedness, subsidiary indebtedness, mergers and sales of assets. In addition, we are required to maintain a leverage ratio at the end of every fiscal quarter of 3.50 to 1.00, or less, for the period covering the most recent four quarters.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Senior Notes due 2019—In February 2019, proceeds from the new senior unsecured term loan credit agreement discussed below were used to redeem the remaining \$1,000 million outstanding of our 5% Senior Notes due 2019 at par. In conjunction with the redemption of these notes, we recognized non-cash charges of less than \$1 million for unamortized debt issuance costs and \$8 million for the write-off of the cumulative fair value hedge accounting adjustment related to the redeemed notes.

Short-Term Debt

Term Loan due 2020—In February 2019, LYB Americas Finance Company LLC (“LYB Americas Finance”), a wholly owned subsidiary of LyondellBasell Industries N.V., entered into a 364-day, \$2,000 million senior unsecured term loan credit agreement and borrowed the entire amount. The proceeds of this term loan, which is fully and unconditionally guaranteed by LyondellBasell Industries N.V., are intended for general corporate purposes, including the repayment of debt.

Borrowings under the credit agreement will bear interest at either a base rate or LIBOR rate, as defined, plus in each case, an applicable margin determined by reference to LyondellBasell Industries N.V.’s current credit ratings. The credit agreement contains customary covenants and warranties, including specified restrictions on indebtedness, including secured and subsidiary indebtedness, and merger and sales of assets. In addition, we are required to maintain a leverage ratio at the end of every fiscal quarter of 3.50 to 1.00, or less, for the period covering the most recent four quarters.

Senior Revolving Credit Facility—Our \$2,500 million revolving credit facility, which expires in June 2022, may be used for dollar and euro denominated borrowings, has a \$500 million sublimit for dollar and euro denominated letters of credit, a \$1,000 million uncommitted accordion feature, and supports our commercial paper program. The aggregate balance of outstanding borrowings, including amounts outstanding under our commercial paper program, and letters of credit under this facility may not exceed \$2,500 million at any given time. Borrowings under the facility bear interest at either a base rate or LIBOR rate, plus an applicable margin. Additional fees are incurred for the average daily unused commitments.

The facility contains customary covenants and warranties, including specified restrictions on indebtedness and liens. In addition, we are required to maintain a leverage ratio at the end of every fiscal quarter of 3.50 to 1.00, or less, for the period covering the most recent four quarters.

Commercial Paper Program—We have a commercial paper program under which we may issue up to \$2,500 million of privately placed, unsecured, short-term promissory notes (“commercial paper”). This program is backed by our \$2,500 million Senior Revolving Credit Facility. Proceeds from the issuance of commercial paper may be used for general corporate purposes, including dividends and share repurchases. Interest rates on the commercial paper outstanding at March 31, 2019 are based on the terms of the notes and range from 2.63% to 2.69%.

U.S. Receivables Facility—Our U.S. accounts receivable facility, which expires in July 2021, has a purchase limit of \$900 million in addition to a \$300 million uncommitted accordion feature. This facility provides liquidity through the sale or contribution of trade receivables by certain of our U.S. subsidiaries to a wholly owned, bankruptcy-remote subsidiary on an ongoing basis and without recourse. The bankruptcy-remote subsidiary may then, at its option and subject to a borrowing base of eligible receivables, sell undivided interests in the pool of trade receivables to financial institutions participating in the facility. In the event of liquidation, the bankruptcy-remote subsidiary’s assets will be used to satisfy the claims of its creditors prior to any assets or value in the bankruptcy-remote subsidiary becoming available to us. We are responsible for servicing the receivables. This facility also provides for the issuance of letters of credit up to \$200 million. The term of the facility may be extended in accordance with the terms of the agreement. The facility is also subject to customary warranties and covenants, including limits and reserves and the maintenance of specified financial ratios. We are required to maintain a leverage ratio at the end of every fiscal quarter of 3.50 to 1.00, or less, for the period covering the most recent four quarters. Performance obligations under the facility are

guaranteed by the parent company. Additional fees are incurred for the average daily unused commitments. At March 31, 2019, there were no borrowings or letters of credit under the facility.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Weighted Average Interest Rate—At March 31, 2019 and December 31, 2018, our weighted average interest rate on outstanding short-term debt was 3.6% and 3.1%, respectively.

Debt Discount and Issuance Costs—For the three months ended March 31, 2019 and 2018, amortization of debt discounts and debt issuance costs resulted in amortization expense of \$1 million and \$4 million, respectively, which is included in Interest expense in the Consolidated Statements of Income.

Other Information—LYB International Finance III, LLC is a direct, 100% owned finance subsidiary of LyondellBasell N.V., as defined in Rule 3-10(b) of Regulation S-X. Any debt securities issued by LYB International Finance III, LLC will be fully and unconditionally guaranteed by LyondellBasell N.V.

As of March 31, 2019, we are in compliance with our debt covenants.

8. Leases

Adoption of the New Lease Accounting Guidance—On January 1, 2019, we adopted ASC 842, Leases and related amendments using the modified retrospective method. Upon adoption, we recognized Operating lease assets and Operating lease liabilities of \$1,533 million and \$1,553 million, respectively. We also reduced Accrued liabilities and Other liabilities by \$2 million and \$18 million, respectively. The adoption of this new guidance did not have a material impact on our Consolidated Statements of Income or Cash Flows.

We elected the practical expedients that permit us not to reassess our prior conclusions about lease identification, lease classification, initial direct costs and whether existing land easements that were not previously accounted for as leases under previous accounting standards are, or contain a lease under the new standard. We also elected the practical expedient to account for lease and associated non-lease components as a single lease component asset for all asset classes with the exception of utilities and pipeline assets within major manufacturing equipment, which do not have a material impact on our Consolidated Financial Statements.

Comparative financial information has not been restated and continues to be reported under the accounting standards in effect for those periods.

At inception of a contract, we determine if the contract contains a lease. When a lease is identified, we recognize a right-of-use asset and a corresponding lease liability based on the present value of the lease payments over the lease term discounted using our incremental borrowing rate, unless an implicit rate is readily determinable. Lease payments include fixed and variable lease components. Variable components are derived from usage or market-based indices, such as the consumer price index. Options to extend or terminate the lease are reflected in the lease payments and lease term when it is reasonably certain that we will exercise those options. Leases with an initial term of 12 months or less are not recorded on the balance sheet. We recognize lease expense on a straight-line basis over the lease term.

Operating Leases—The majority of our leases are operating leases. We lease storage tanks, terminal facilities, land, office facilities, railcars, pipelines, barges, plant equipment and other equipment. As of March 31, 2019, our Operating lease assets were \$1,534 million. Operating lease liabilities totaled \$1,555 million of which \$273 million are current and recorded in Accrued liabilities. These values were derived using a weighted average discount rate of 4.5%.

Our operating leases have remaining lease terms ranging from less than 1 year to 30 years and have a weighted-average remaining lease term of 8 years. While extension clauses included in our leases do not materially impact our Operating lease assets or Operating lease liabilities, certain leases include options to extend the lease for up to 20 years.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Maturities of operating lease liabilities as of March 31, 2019 are as follows:

Millions of dollars

Last nine months of 2019	\$255
2020	295
2021	247
2022	211
2023	183
Thereafter	645
Total lease payments	1,836
Less: Imputed interest	(281)
Present value of lease liabilities	\$1,555

The following table presents the components of operating lease cost for the three months ended March 31, 2019:

Millions of dollars

Operating lease cost	\$90
Short-term lease cost	40
Variable lease cost	17
Net operating lease cost	\$147

Cash paid for operating lease liabilities totaled \$91 million for the three months ended March 31, 2019. Leased assets obtained in exchange for new operating lease liabilities, including all leases recognized upon adoption of the new lease accounting standard, totaled \$1,652 million for the three months ended March 31, 2019.

As of March 31, 2019, we have entered into additional operating leases, with an undiscounted value of \$544 million, primarily for storage tanks related to our new PO/TBA plant at our Channelview, Texas facility. These leases, which will commence between 2019 and 2022, have lease terms ranging from 2 to 20 years.

Lease Commitments—As of December 31, 2018, the undiscounted aggregate future estimated payments for our operating lease commitments, including those which have not commenced, and those with an initial term of 12 months or less, were as follows:

Millions of dollars

2019	\$365
2020	288
2021	256
2022	236
2023	204
Thereafter	1,126
Total minimum lease payments	\$2,475

9. Financial Instruments and Fair Value Measurements

We are exposed to market risks, such as changes in commodity pricing, currency exchange rates and interest rates. To manage the volatility related to these exposures, we selectively enter into derivative transactions pursuant to our risk management policies.

A summary of our financial instruments, risk management policies, derivative instruments, hedging activities and fair value measurement can be found in Notes 2 and 15 to our Consolidated Financial Statements included in our Annual Report on Form 10-K for the year ended December 31, 2018. If applicable, updates have been included in the respective sections below.

At March 31, 2019 and December 31, 2018, we had marketable securities classified as cash and cash equivalents of \$15 million and \$19 million, respectively.

Foreign Currency Gain (Loss)—Other income, net, in the Consolidated Statements of Income reflected foreign currency gains of \$11 million and \$6 million for the three months ended March 31, 2019 and 2018, respectively.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Financial Instruments Measured at Fair Value on a Recurring Basis—The following table summarizes financial instruments outstanding as of March 31, 2019 and December 31, 2018 that are measured at fair value on a recurring basis:

Millions of dollars	March 31, 2019		December 31, 2018		Balance Sheet Classification
	Notional Amount	Fair Value	Notional Amount	Fair Value	
Assets—					
Derivatives designated as hedges:					
Commodities	\$618	\$7	\$472	\$12	Prepaid expenses and other current assets
Foreign currency	—	52	—	27	Prepaid expenses and other current assets
Foreign currency	2,000	169	2,000	117	Other assets
Interest rates	—	26	600	33	Prepaid expenses and other current assets
Interest rates	790	3	143	1	Other assets
Derivatives not designated as hedges:					
Commodities	124	2	35	5	Prepaid expenses and other current assets
Foreign currency	618	5	599	3	Prepaid expenses and other current assets
Non-derivatives:					
Available-for-sale debt securities	258	259	567	567	Short-term investments
Equity securities	161	170	322	325	Short-term investments
Total	\$4,569	\$693	\$4,738	\$1,090	
Liabilities—					
Derivatives designated as hedges:					
Commodities	\$—	\$—	\$4	\$—	Accrued liabilities
Foreign currency	—	33	—	17	Accrued liabilities
Foreign currency	950	58	950	75	Other liabilities
Interest rates	1,000	53	1,400	16	Accrued liabilities
Interest rates	1,850	41	2,500	45	Other liabilities
Derivatives not designated as hedges:					
Commodities	129	6	63	14	Accrued liabilities

Non-derivatives:					
Performance share awards	—	—	29	29	Accrued liabilities
Total	\$4,163	\$191	\$6,111	\$203	

Commodity derivatives designated as hedges are classified as Level 1. As of March 31, 2019, these commodity derivatives had notional and fair values of \$618 million and \$7 million, respectively. Our investments in equity securities discussed below are measured at fair value using the net asset value per share, or its equivalent, practical expedient and have not been classified in the fair value hierarchy. All other derivatives and available-for-sale debt securities in the tables above are classified as Level 2.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

At March 31, 2019, our outstanding foreign currency and commodity contracts, not designated as hedges, mature from April 2019 to August 2019 and April 2019 to May 2019, respectively.

Financial Instruments Not Measured at Fair Value on a Recurring Basis—The following table presents the carrying value and estimated fair value of our financial instruments that are not measured at fair value on a recurring basis as of March 31, 2019 and December 31, 2018. Short-term loans receivable, which represent our repurchase agreements, and short-term and long-term debt are recorded at amortized cost in the Consolidated Balance Sheets. The carrying and fair values of short-term and long-term debt exclude finance leases and commercial paper.

Millions of dollars	March 31, 2019		December 31, 2018	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Non-derivatives:				
Assets:				
Short-term loans receivable	\$534	\$534	\$544	\$544
Liabilities:				
Short-term debt	\$2,126	\$2,131	\$71	\$77
Long-term debt	7,521	7,789	8,492	8,476
Total	\$9,647	\$9,920	\$8,563	\$8,553

All financial instruments in the table above are classified as Level 2. There were no transfers between Level 1 and Level 2 for any of our financial instruments during the three months ended March 31, 2019 and the year ended December 31, 2018.

Net Investment Hedges—At March 31, 2019 and December 31, 2018, we had outstanding foreign currency contracts with an aggregate notional value of €617 million (\$650 million) designated as net investment hedges. We also had outstanding foreign-currency denominated debt designated as a net investment hedge with notional amounts totaling €750 million (\$842 million) and €750 million (\$858 million), respectively, as of March 31, 2019 and December 31, 2018.

Cash Flow Hedges—The following table summarizes our cash flow hedges outstanding at March 31, 2019 and December 31, 2018:

Millions of dollars	March	December	Expiration Date
	31, 2019	31, 2018	
	Notional Value	Notional Value	
Foreign currency	\$ 2,300	\$ 2,300	2021 to 2027
Interest rates	1,500	1,500	2020 to 2021
Commodities	618	476	2019

In February 2019, we entered into forward-starting interest rate swaps with a total notional amount of \$1,000 million to mitigate the risk of variability in interest rates for an expected debt issuance by February 2020. These swaps were designated as cash flow hedges and will be terminated upon debt issuance. Additionally, concurrent with the redemption of \$1,000 million of our then outstanding 5% senior notes due 2019, we received \$4 million in settlement of \$1,000 million of forward-starting interest rate swaps designated as cash flow hedges of forecasted interest payments to begin on or before April 15, 2019.

In January and February of 2019, we entered into commodity futures contracts with total notional amounts of \$78 million and \$97 million to mitigate the risk of variability in feedstock prices and product sales prices, respectively, for the year 2019.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

In 2019, we paid \$4 million in settlement of commodity futures contracts hedging the risk of variability in feedstock prices with a total notional amount of \$67 million. Additionally, we received \$6 million in settlement of commodity futures contracts hedging the risk of variability in product sales prices with a total notional amount of \$83 million. As of March 31, 2019, on a pre-tax basis, less than \$1 million, \$4 million, and \$3 million are scheduled to be reclassified from Accumulated other comprehensive loss as a decrease to interest expense, increase to revenues and decrease to cost of sales, respectively, over the next twelve months.

Fair Value Hedges—In February 2019, concurrent with the redemption of \$1,000 million of our then outstanding 5% senior notes due 2019, we paid \$5 million in settlement of \$1,000 million of fixed-for-floating interest rate swaps. We had outstanding interest rate contracts with aggregate notional amounts of \$2,140 million and \$3,143 million at March 31, 2019 and December 31, 2018, respectively. These fair value hedges have maturities ranging from 2021 to 2027 as of March 31, 2019.

Impact on Earnings and Other Comprehensive Income—The following table summarizes the pre-tax effect of derivative instruments and non-derivative instruments on Other comprehensive income and earnings for the three months ended March 31, 2019 and 2018:

Millions of dollars	Effect of Financial Instruments Three Months Ended March 31,						Income Statement Classification
	Gain (Loss) Recognized in AOCI		Gain (Loss) Reclassified from AOCI to Income		Gain (Loss) Recognized in Income		
	2019	2018	2019	2018	2019	2018	
Derivatives designated as hedges:							
Commodities	\$(50)	\$—	\$(5)	\$—	\$—	\$—	Sales and other operating revenues
Commodities	46	(3)	4	4	—	—	Cost of sales
Foreign currency	70	(125)	(39)	62	17	13	Other income, net; Interest expense
Interest rates	(74)	49	(4)	—	(34)	(44)	Interest expense
Derivatives not designated as hedges:							
Commodities	—	—	—	—	2	1	Sales and other operating revenues
Commodities	—	—	—	—	3	(4)	Cost of sales
Foreign currency	—	—	—	—	19	(19)	Other income, net
Non-derivatives designated as hedges:							
Long-term debt	16	(25)	—	—	—	—	Other income, net
Total	\$8	\$(104)	\$(44)	\$66	\$7	\$(53)	

The derivative amounts excluded from effectiveness testing for foreign currency contracts designated as net investment hedges recognized in other comprehensive income and interest expense for the three months ended March 31, 2019 were gains of \$2 million and \$5 million, respectively, and for the three months ended March 31, 2018 were gains of \$4 million and \$5 million, respectively.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

The pre-tax effect of the periodic receipt of fixed interest and payment of variable interest associated with our fixed-for-floating interest rate swaps resulted in a \$3 million increase in interest expense during the three months ended March 31, 2019 and a \$3 million decrease in interest expense during the three months ended March 31, 2018. Investments in Available-for-Sale Debt Securities—The following table summarizes the amortized cost, gross unrealized gains and losses, and fair value of our available-for-sale debt securities that are outstanding as of March 31, 2019 and December 31, 2018:

Millions of dollars	March 31, 2019			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities:				
Bonds	\$258	\$ 1	\$	—\$ 259
Millions of dollars	December 31, 2018			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
Available-for-sale debt securities:				
Bonds	\$567	\$	—\$	—\$ 567

No allowance for credit losses related to our available-for-sale debt securities was recorded for the three months ended March 31, 2019. No losses related to other-than-temporary impairments of our available-for-sale debt securities were recorded in Accumulated other comprehensive income for the year ended December 31, 2018.

As of March 31, 2019, bonds classified as available-for-sale debt securities had maturities between nine and nineteen months.

We received proceeds of \$308 million and \$335 million in the three months ended March 31, 2019 and 2018, respectively, from maturities of our available-for-sale debt securities. We had no sales of our available-for-sale debt securities during the three months ended March 31, 2019 and 2018.

The following table summarizes the fair value and unrealized losses related to available-for-sale debt securities that were in a continuous unrealized loss position for less than and greater than twelve months as of March 31, 2019 and December 31, 2018:

Millions of dollars	March 31, 2019			
	Fair Value	Unrealized Loss	Fair Value	Unrealized Loss
Available-for-sale debt securities:				
Bonds	\$ 83	\$	—\$	— \$

Available-for-sale debt securities:

Bonds	\$ 118	\$ (1)	\$ 45	\$ —
-------	--------	---------	-------	------

Investments in Equity Securities—At March 31, 2019 and December 31, 2018, we had investments in equity securities with notional amounts totaling of \$161 million and \$322 million, respectively. The fair values of these investments were \$170 million and \$325 million at March 31, 2019 and December 31, 2018, respectively.

The following table summarizes the portion of unrealized gains and losses for the equity securities that are outstanding as of March 31, 2019 and 2018:

Millions of dollars	Three Months Ended March 31,	
	2019	2018
Net gains (losses) recognized during the period	\$7	\$(1)
Less: Net gains recognized during the period on securities sold	1	—
Unrealized gains (losses) recognized during the period	\$6	\$(1)

10. Income Taxes

Our effective income tax rate for the three months ended March 31, 2019 was 19.9% compared with 19.8% for the three months ended March 31, 2018. Our effective income tax rate fluctuates based on, among other factors, changes in statutory tax rates, changes in pretax income in countries with varying statutory tax rates, changes in valuation allowances, changes in foreign exchange gains/losses, changes in the amount of exempt income and changes in unrecognized tax benefits associated with uncertain tax positions.

Compared with the three months ended March 31, 2018, the higher effective tax rate for the three months ended March 31, 2019 was primarily attributable to reduced exempt income, partially offset by changes in pretax income in countries with varying statutory tax rates, changes in foreign exchange gains/losses, and changes in unrecognized tax benefits associated with uncertain tax positions.

We operate in multiple jurisdictions throughout the world, and our tax returns are periodically audited or subjected to review by tax authorities. We are currently under examination in a number of tax jurisdictions. As a result, there is an uncertainty in income taxes recognized in our financial statements. Positions challenged by the tax authorities may be settled or appealed by us. Tax benefits totaling \$269 million were unrecognized as of March 31, 2019 and December 31, 2018. It is reasonably possible that, within the next twelve months, due to the settlement of uncertain tax positions with various tax authorities and the expiration of statutes of limitations, unrecognized tax benefits could decrease by up to approximately \$105 million.

We monitor income tax developments in countries where we conduct business. In 2017, the U.S. enacted “H.R.1,” also known as the “Tax Cuts and Jobs Act” (the “Tax Act”) materially impacting our Consolidated Financial Statements by, among other things, decreasing the tax rate, and significantly affecting future periods. To determine the full effects of the tax law, we are awaiting the finalization of several proposed U.S. Treasury regulations under the Tax Act that were issued during 2018, as well as additional regulations to be proposed and finalized pursuant to the U.S. Treasury’s expanded regulatory authority under the Tax Act. It is also possible that technical correction legislation concerning the Tax Act could retroactively affect tax liabilities for 2018.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

11. Commitments and Contingencies

Commitments—We have various purchase commitments for materials, supplies and services incidental to the ordinary conduct of business, generally for quantities required for our businesses and at prevailing market prices. These commitments are designed to assure sources of supply and are not expected to be in excess of normal requirements. At March 31, 2019, capital expenditure commitments were incurred in our normal course of business, including commitments of approximately \$681 million primarily related to building our new Hyperzone high-density polyethylene plant in La Porte, Texas and a world-scale PO/TBA plant on the Texas Gulf Coast.

Financial Assurance Instruments—We have obtained letters of credit, performance and surety bonds and have issued financial and performance guarantees to support trade payables, potential liabilities and other obligations. Considering the frequency of claims made against the financial instruments we use to support our obligations, and the magnitude of those financial instruments in light of our current financial position, management does not expect that any claims against or draws on these instruments would have a material adverse effect on our Consolidated Financial Statements. We have not experienced any unmanageable difficulty in obtaining the required financial assurance instruments for our current operations.

Environmental Remediation—Our accrued liability for future environmental remediation costs at current and former plant sites and other remediation sites totaled \$93 million and \$90 million as of March 31, 2019 and December 31, 2018, respectively. At March 31, 2019, the accrued liabilities for individual sites range from less than \$1 million to \$16 million. The remediation expenditures are expected to occur over a number of years, and not to be concentrated in any single year. In our opinion, it is reasonably possible that losses in excess of the liabilities recorded may have been incurred. However, we cannot estimate any amount or range of such possible additional losses. New information about sites, new technology or future developments such as involvement in investigations by regulatory agencies, could require us to reassess our potential exposure related to environmental matters.

The following table summarizes the activity in our accrued environmental liability included in “Accrued liabilities” and “Other liabilities:”

	Three Months Ended March 31,	
Millions of dollars	2019	2018
Beginning balance	\$90	\$102
Additional provisions	7	—
Amounts paid	(3)	(2)
Foreign exchange effects	(1)	2
Ending balance	\$93	\$102

Indemnification—We are parties to various indemnification arrangements, including arrangements entered into in connection with acquisitions, divestitures and the formation and dissolution of joint ventures. Pursuant to these arrangements, we provide indemnification to and/or receive indemnification from other parties in connection with liabilities that may arise in connection with the transactions and in connection with activities prior to completion of the transactions. These indemnification arrangements typically include provisions pertaining to third party claims relating to environmental and tax matters and various types of litigation. As of March 31, 2019, we had not accrued any significant amounts for our indemnification obligations, and we are not aware of other circumstances that would likely lead to significant future indemnification obligations. We cannot determine with certainty the potential amount of future payments under the indemnification arrangements until events arise that would trigger a liability under the arrangements.

Table of Contents

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

As part of our technology licensing contracts, we give indemnifications to our licensees for liabilities arising from possible patent infringement claims with respect to certain proprietary licensed technologies. Such indemnifications have a stated maximum amount and generally cover a period of five to ten years.

12. Stockholders' Equity and Redeemable Non-controlling Interests

Stockholders' Equity

Dividend Distributions—In March 2019, we paid a cash dividend of \$1.00 per share for an aggregate of \$372 million to shareholders of record on March 4, 2019.

In February 2019, we paid a cash dividend of \$15.00 per share for an aggregate of \$2 million related to dividends on A. Schulman Special Stock to shareholders of record as of January 15, 2019.

Share Repurchase Programs—In June 2018, our shareholders approved a proposal to authorize us to repurchase up to 57,844,016 of our ordinary shares through December 1, 2019 ("June 2018 Share Repurchase Program"), which superseded the remaining authorization under our May 2017 Share Repurchase Program. The timing and amount of these repurchases, which are determined based on our evaluation of market conditions and other factors, may be executed from time to time through open market or privately negotiated transactions. The repurchased shares, which are recorded at cost, are classified as Treasury stock and may be retired or used for general corporate purposes, including for various employee benefit and compensation plans.

The following table summarizes our share repurchase activity for the periods presented:

	Three Months Ended March 31, 2019		
Millions of dollars, except shares and per share amounts	Shares Repurchased	Average Purchase Price	Total Purchase Price, Including Commissions
June 2018 Share Repurchase Program	5,648,900	\$ 86.38	\$ 488
	Three Months Ended March 31, 2018		
Millions of dollars, except shares and per share amounts	Shares Repurchased	Average Purchase Price	Total Purchase Price, Including Commissions
May 2017 Share Repurchase Program	1,292,480	\$ 107.17	\$ 138

Due to the timing of settlements, total cash paid for share repurchases for the three months ended March 31, 2019 and 2018 was \$512 million and \$119 million, respectively.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Ordinary Shares—The changes in the outstanding amounts of ordinary shares are as follows:

	Three Months Ended	
	March 31,	
	2019	2018
Ordinary shares outstanding:		
Beginning balance	375,696,661	394,512,054
Share-based compensation	235,550	235,671
Employee stock purchase plan	42,792	27,179
Purchase of ordinary shares	(5,648,900)	(1,292,480)
Ending balance	370,326,103	393,482,424

Treasury Shares—The changes in the amounts of treasury shares held by the Company are as follows:

	Three Months Ended	
	March 31,	
	2019	2018
Ordinary shares held as treasury shares:		
Beginning balance	24,513,619	183,928,109
Share-based compensation	(235,550)	(235,671)
Employee stock purchase plan	(42,792)	(27,179)
Purchase of ordinary shares	5,648,900	1,292,480
Ending balance	29,884,177	184,957,739

Accumulated Other Comprehensive Income (Loss)—The components of, and after-tax changes in, Accumulated other comprehensive loss as of and for the three months ended March 31, 2019 and 2018 are presented in the following tables:

Millions of dollars	Financial Derivatives	Defined	Foreign	Total
		Benefit Other Postretirement Benefit Plans	Currency Translation Adjustments	
Balance – January 1, 2019	\$ (68)	\$ (442)	\$ (853)	\$(1,363)
Other comprehensive loss before reclassifications	(19)	—	(7)	(26)
Tax (expense) benefit before reclassifications	4	—	(3)	1
Amounts reclassified from accumulated other comprehensive income (loss)	(45)	7	—	(38)
Tax (expense) benefit	10	(2)	—	8
Net other comprehensive income (loss)	(50)	5	(10)	(55)
Balance – March 31, 2019	\$ (118)	\$ (437)	\$ (863)	\$(1,418)

LYONDELLBASELL INDUSTRIES N.V.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS-(Continued)

Redeemable Non-controlling Interests

Our redeemable non-controlling interests relate to 115,374 shares of A. Schulman Special Stock which were outstanding as of March 31, 2019 and December 31, 2018.

13. Per Share Data

Basic earnings per share are based upon the weighted average number of shares of common stock outstanding during the periods. Diluted earnings per share includes the effect of certain stock option awards and other equity-based compensation awards. We have unvested restricted stock units that are considered participating securities for earnings per share.

Earnings per share data and dividends declared per share of common stock are as follows:

	Three Months Ended March 31,	
Millions of dollars	2019	2018
Net income attributable to the Company shareholders	\$817	\$1,231
Dividends on A. Schulman Special Stock	(2)	—

14. Segment and Related Information

In conjunction with our acquisition of A. Schulman in August 2018, polypropylene compounding, Catalloy and polybutene-1, which were previously reflected in our O&P-EAI and O&P-Americas segments, were moved to our Advanced Polymer Solutions segment. All comparable periods presented have been revised to reflect this change. We disclose the results of each of our operating segments in accordance with ASC 280, Segment Reporting. Each of our six operating segments is managed by a senior executive reporting directly to our Chief Executive Officer, the chief operating decision maker. Discrete financial information is available for each of the segments, and our Chief Executive Officer uses the operating results of each of the operating segments for performance evaluation and resource allocation. The activities of each of our segments from which they earn revenues and incur expenses are described below:

• Olefins and Polyolefins–Americas (“O&P–Americas”). Our O&P–Americas segment produces and markets olefins and co-products, polyethylene and polypropylene.

• Olefins and Polyolefins–Europe, Asia, International (“O&P–EAI”). Our O&P–EAI segment produces and markets olefins and co-products, polyethylene, and polypropylene.

• Intermediates and Derivatives (“I&D”). Our I&D segment produces and markets propylene oxide and its derivatives; oxyfuels and related products; and intermediate chemicals such as styrene monomer, acetyls, ethylene oxide and ethylene glycol.

• Advanced Polymer Solutions (“APS”). Our APS segment produces and markets compounding and solutions, such as polypropylene compounds, engineered plastics, masterbatches, engineered composites, colors and powders, and advanced polymers, which includes Catalloy and polybutene-1.

• Refining. Our Refining segment refines heavy, high-sulfur crude oils and other crude oils of varied types and sources available on the U.S. Gulf Coast into refined products, including gasoline and distillates.

• Technology. Our Technology segment develops and licenses chemical and polyolefin process technologies and manufactures and sells polyolefin catalysts.

Our chief operating decision maker uses EBITDA as the primary measure for reviewing our segments’ profitability and therefore, in accordance with ASC 280, Segment Reporting, we have presented EBITDA for all segments. We define EBITDA as earnings before interest, taxes and depreciation and amortization.

“Other” includes intersegment eliminations and items that are not directly related or allocated to business operations, such as foreign exchange gains or losses and components of pension and other postretirement benefit costs other than service cost. Sales between segments are made primarily at prices approximating prevailing market prices.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

GENERAL

This discussion and analysis should be read in conjunction with the information contained in our Consolidated Financial Statements and the accompanying notes elsewhere in this report. When we use the terms "we," "us," "our" or similar words in this discussion, unless the context otherwise requires, we are referring to LyondellBasell Industries N.V. and its consolidated subsidiaries.

OVERVIEW

Results were lower in the first quarter of 2019 relative to first quarter 2018, primarily reflecting lower margins in most businesses. Significant items that affected our results during the first quarter of 2019 relative to the first quarter of 2018 include:

• Lower O&P–Americas results due to a decline in olefins and polyethylene margins and volumes which were negatively impacted by planned maintenance activities;

• Lower O&P–EAI results with margin and volume declines in Europe, combined with a decline in equity income and unfavorable foreign exchange impacts;

• I&D segment results declined due to lower margins relative to the strong first quarter of 2018, which benefited from planned and unplanned industry maintenance;

• APS segment results improved primarily due to the contribution of results from A. Schulman product lines following the August 21, 2018 acquisition;

• Lower Refining segment results due to a decline in refining margins; and

• Technology segment results increased mostly due to higher licensing revenue.

Other noteworthy items since the beginning of the year include the following:

• Executed a 364-day, \$2,000 million senior unsecured term loan facility and borrowed the full amount;

• Redemption of \$1,000 million of our 5% senior notes due 2019; and

• Executed a three-year, \$4,000 million senior unsecured delayed draw term loan credit facility.

Table of Contents

Results of operations for the periods discussed are presented in the table below:

Millions of dollars	Three Months Ended March 31,	
	2019	2018
Sales and other operating revenues	\$8,778	\$9,767
Cost of sales	7,446	8,012
Selling, general and administrative expenses	287	233
Research and development expenses	28	28
Operating income	1,017	1,494
Interest expense	(92)	(91)
Interest income	6	11
Other income, net	25	24
Income from equity investments	64	96
Provision for income taxes	203	303
Net income	\$817	\$1,231

RESULTS OF OPERATIONS

Revenues—Revenues decreased by \$989 million, or 10%, in the first quarter of 2019 compared to the first quarter of 2018.

Average sales prices in the first quarter of 2019 were lower for most of our products as sales prices generally correlate with crude oil prices, which decreased relative to the corresponding periods in 2018. These lower prices led to a revenue decrease of 6% in the first quarter of 2019. Lower sales volumes in the first quarter of 2019 for our O&P–Americas, O&P–EAI, Refining and I&D segments, which were partly offset by increased sales volumes in our APS and Technology segments, resulted in a revenue decrease of 7% relative to the first quarter of 2018. Unfavorable foreign exchange impacts also resulted in a revenue decrease of 3%. The operations of A. Schuman contributed \$598 million of revenues following the acquisition which accounts for the remaining change in revenues for the first quarter of 2019.

Cost of Sales—Cost of sales decreased \$566 million, or 7%, in the first quarter of 2019 compared to the first quarter of 2018. This decrease in cost of sales is primarily due to lower feedstock and energy costs.

SG&A Expenses—Selling, general and administrative (“SG&A”) expenses increased by \$54 million, or 23%, in the first quarter of 2019 compared to the first quarter of 2018.

The \$50 million of expenses incurred in the first quarter of 2019 by the operations of A. Schulman following the acquisition together with \$16 million of costs associated with the integration of A. Schulman were largely attributable for the increased costs in the first quarter of 2019. These increased costs were partially offset by a decline in the costs associated with the evaluation and pre-project planning of certain growth projects relative to the first quarter of 2018.

Operating Income—Operating income decreased by \$477 million, or 32%, in the first quarter of 2019 compared to the first quarter of 2018.

Operating income for our O&P–Americas, O&P–EAI, I&D and Refining segments declined by \$245 million, \$95 million, \$94 million and \$74 million, respectively, relative to the first quarter of 2018. Results for each of our business segments are discussed further in the “Segment Analysis” section below.

Income Taxes—Our effective income tax rate for the first quarter of 2019 was 19.9% compared with 19.8% for the first quarter of 2018. Our effective income tax rate fluctuates based on, among other factors, changes in statutory tax rates, changes in pretax income in countries with varying statutory tax rates, changes in valuation allowances, changes in foreign exchange gains/losses, changes in the amount of exempt income and changes in unrecognized tax benefits associated with uncertain tax positions.

Table of Contents

Our exempt income primarily includes interest income, export incentives, and equity earnings of joint ventures. Interest income earned by certain of our European subsidiaries through intercompany financings is either untaxed or taxed at rates substantially lower than the U.S. statutory rate. Export incentives relate to tax benefits derived from elections and structures available for U.S. exports. Equity earnings attributable to the earnings of our joint ventures, when paid through dividends to certain European subsidiaries, are exempt from all or portions of normal statutory income tax rates.

We monitor income tax developments in countries where we conduct business. In 2017, the U.S. enacted “H.R.1,” also known as the “Tax Cuts and Jobs Act” (the “Tax Act”) materially impacting our Consolidated Financial Statements by, among other things, decreasing the tax rate, and significantly affecting future periods. To determine the full effects of the tax law, we are awaiting the finalization of several proposed U.S. Treasury regulations under the Tax Act that were issued during 2018, as well as additional regulations to be proposed and finalized pursuant to the U.S. Treasury’s expanded regulatory authority under the Tax Act. It is also possible that technical correction legislation concerning the Tax Act could retroactively affect tax liabilities for 2018.

Compared with the first quarter of 2018, the higher effective tax rate for the first quarter of 2019 was primarily attributable to reduced exempt income (2.3%), partially offset by changes in pretax income in countries with varying statutory tax rates (-1.2%), changes in foreign exchange gains/losses (-0.4%), and changes in unrecognized tax benefits associated with uncertain tax positions (-0.4%).

Comprehensive Income—Comprehensive income decreased by \$523 million in the first quarter of 2019 compared to the first quarter of 2018 primarily due to lower net income, impacts of financial derivative instruments primarily driven by periodic changes in benchmark interest rates and the net unfavorable impact of unrealized changes in foreign currency translation adjustments.

The net losses attributable to unrealized changes in foreign currency translation impacts include pre-tax gains of \$28 million from our foreign currency hedges.

In the first quarter of 2019, the cumulative after-tax effects of our derivatives designated as cash flow hedges were net losses of \$50 million. The strengthening of the U.S. dollar against the euro in the first quarter of 2019 and periodic changes in benchmark interest rates resulted in pre-tax gains of \$58 million related to our cross-currency swaps.

Pre-tax losses of \$39 million related to our cross-currency swaps were reclassification adjustments included in Other income, net in the first quarter of 2019. Pre-tax losses of \$74 million related to forward-starting interest rate swaps were driven by changes in benchmark interest rates in the first quarter of 2019. The remaining change relates to our commodity cash flow hedges.

Table of Contents

Segment Analysis

We use earnings before interest, income taxes, and depreciation and amortization (“EBITDA”) as our measure of profitability for segment reporting purposes. This measure of segment operating results is used by our chief operating decision maker to assess the performance of and allocate resources to our operating segments. Intersegment eliminations and items that are not directly related or allocated to business operations, such as foreign exchange gains or losses and components of pension and other postretirement benefits other than service costs are included in “Other.” For additional information related to our operating segments, as well as a reconciliation of EBITDA to its nearest GAAP measure, Income before income taxes, see Note 14, Segment and Related Information, to our Consolidated Financial Statements.

Following our acquisition of A. Schulman, our operations are managed through six reportable segments: O&P–Americas; O&P–EAI; I&D; APS; Refining; and Technology. Our APS segment produces and markets compounding and solutions, such as polypropylene compounds, engineered plastics, masterbatches, engineered composites, colors and powders; and advanced polymers, which includes Catalloy and polybutene-1. Polypropylene compounds, Catalloy and polybutene-1 were previously reported in our O&P–EAI and O&P–Americas segments. Accordingly, the historical results of our O&P–EAI and O&P–Americas segments have been recast for all comparable periods presented. For additional information related to our segments, see Note 14 to the Consolidated Financial Statements.

Revenues and the components of EBITDA for the periods presented are reflected in the table below:

	Three Months Ended March 31,	
Millions of dollars	2019	2018

Olefins and Polyolefins–Americas Segment

Overview—EBITDA in the first quarter of 2019 was lower compared to the first quarter of 2018 due to lower olefins and polyethylene results.

Ethylene Raw Materials—We have significant flexibility to vary the raw material mix and process conditions in our U.S. olefins plants in order to maximize profitability as market prices for both feedstocks and products change. Although prices of crude-based liquids and natural gas liquids are generally related to crude oil and natural gas prices, during specific periods the relationships among these materials and benchmarks may vary significantly.

As in recent years, strong supplies from the U.S. shale gas/oil boom resulted in ethane being a preferred feedstock in our U.S. plants in 2019. In the first quarters of 2019 and 2018, we produced 83% and 82%, respectively, of our ethylene from ethane.

Table of Contents

The following table sets forth selected financial information for the O&P–Americas segment including Income from equity investments, which is a component of EBITDA:

Millions of dollars	Three Months Ended March 31,	
	2019	2018
Sales and other operating revenues	\$2,111	\$2,646
Income from equity investments	11	17
EBITDA	516	756

Revenues—Revenues for our O&P–Americas segment decreased by \$535 million, or 20%, in the first quarter of 2019 compared to the first quarter of 2018.

Average olefins and polyethylene sales prices were lower in the first quarter of 2019 compared to the first quarter of 2018 due to increased market supply stemming from new industry capacity additions and, to a lesser extent, a lower oil price environment. Polypropylene sales prices decreased with declining propylene feedstock prices. These lower sales prices were responsible for a revenue decrease of 14% in the first quarter of 2019.

Lower sales volumes across most products driven mainly by planned downtime at our Matagorda, Texas facility and softer demand also led to a revenue decrease of 6% in the first quarter of 2019.

EBITDA—EBITDA decreased by \$240 million, or 32%, in the first quarter of 2019 compared to the first quarter of 2018.

Ethylene margins decreased by \$79 per metric ton primarily due to the lower average sales prices discussed above. Polyethylene margins declined with a \$132 per metric ton decrease in the price spread over ethylene driven by increased market supply. These lower margins led to a 23% decrease in EBITDA in the first quarter of 2019. Lower ethylene and polyolefins sales volumes discussed above resulted in a further 8% decline in EBITDA. The remaining decrease in EBITDA is attributable to lower income from our joint venture in Mexico.

Olefins and Polyolefins—Europe, Asia, International Segment

Overview—EBITDA for the first quarter of 2019 declined compared to the first quarter of 2018, largely as a result of lower polyolefin margins and olefin volumes in Europe, combined with lower income from our equity investments and unfavorable foreign exchange impacts.

The following table sets forth selected financial information for the O&P–EAI segment including Income from equity investments, which is a component of EBITDA:

Millions of dollars	Three Months Ended March 31,	
	2019	2018
Sales and other operating revenues	\$2,535	\$2,960
Income from equity investments	51	76
EBITDA	296	419

Revenues—Revenues decreased by \$425 million, or 14%, in the first quarter of 2019 compared to the first quarter of 2018.

Average sales prices in the first quarter of 2019 were lower across most products as sales prices generally correlate with crude oil prices, which on average, decreased compared to the first quarter of 2018. These lower average sales prices were responsible for a revenue decrease of 6% in the first quarter of 2019. Unplanned maintenance in the first quarter of 2019 led to lower olefins sales volumes compared to the first quarter of 2018. This decline in volumes resulted in a revenue decrease of 2%.

Table of Contents

Foreign exchange impacts that, on average, were unfavorable in the first quarter of 2019 also led to a revenue decrease of 6%.

EBITDA—EBITDA in the first quarter of 2019 decreased by \$123 million, or 29%, compared to the first quarter of 2018.

In the first quarter of 2019, polyolefin margins in Europe declined compared to the first quarter of 2018.

Polypropylene and polyethylene price spreads over propylene and ethylene fell \$83 and \$68 per metric ton, respectively. These lower margins, which reflected a more balanced supply and demand in European markets, led to a 12% decline in EBITDA. Lower olefins volumes, as discussed above, compared to the first quarter of 2018 led to a decline in EBITDA of 5% in the first quarter of 2019.

Lower income from our equity investments driven by compressed margins and unfavorable foreign exchange impacts each resulted in a 6% decrease in first quarter 2019 EBITDA.

Intermediates and Derivatives Segment

Overview—EBITDA for our I&D segment was lower in the first quarter of 2019 compared to the first quarter of 2018 as margins decreased across most businesses with more balanced industry supply and weaker demand.

The following table sets forth selected financial information for the I&D segment including Income from equity investments, which is a component of EBITDA:

	Three Months Ended March 31,	
Millions of dollars	2019	2018
Sales and other operating revenues	\$ 1,894	\$ 2,343
Income from equity investments	2	3
EBITDA	390	486

Revenues—Revenues decreased by \$449 million, or 19%, in the first quarter of 2019 compared to the first quarter of 2018.

Lower average sales prices in the first quarter of 2019 for most products, which reflect the impacts of lower feedstock and energy costs, were responsible for a revenue decrease of 12% compared to the first quarter of 2018, which benefited from an elevated level of planned and unplanned industry outages. Lower sales volume largely due to logistic limitations on oxyfuels and related products resulting from a service disruption stemming from a fire at a third party terminal on the Houston ship channel led to a 5% decrease in revenues. Foreign exchange impacts, which on average were unfavorable in the first quarter of 2019 relative to the prior year period, resulted in another 2% decrease in revenues.

EBITDA—EBITDA decreased \$96 million, or 20%, in the first quarter of 2019 compared to the first quarter of 2018. Margins decreased across most products relative to the first quarter of 2018. Approximately two thirds of the 15% decrease in first quarter 2019 margins was attributable to intermediate chemicals products as market supplies became more balanced, compared to the first quarter of 2018, which benefited from tight industry supplies driven by outages. PO and derivatives products accounted for approximately half of the remaining decrease in margins, which was negatively impacted by increased market supplies coupled with weaker demand. The remaining decrease in margins was largely from oxyfuels and related products, which were negatively impacted by the softer gasoline market in the first quarter of 2019.

Unfavorable foreign exchange impacts in the first quarter of 2019 led to a decrease in EBITDA of 3%. The impact of lower volumes as discussed above resulted in a further decrease of 2% in EBITDA in the first quarter of 2019.

Table of Contents

Advanced Polymer Solutions Segment

Overview—EBITDA for our APS segment was higher in the first quarter of 2019 compared to the first quarter of 2018 primarily due largely to the contribution of EBITDA stemming from the acquisition of A. Schulman, partly offset by integration costs.

The following table sets forth selected financial information for the APS segment:

	Three Months Ended March 31,	
Millions of dollars	2019	2018
Sales and other operating revenues	\$ 1,339	\$ 838
EBITDA	148	123

Revenues—Revenues increased by \$501 million, or 60%, in the first quarter of 2019 compared to the first quarter of 2018.

The acquisition of A. Schulman contributed \$598 million to revenues of the APS segment, which accounts for a revenue increase of 72% relative to the first quarter of 2018. This contribution was partly offset by the declines in sales volumes and average sales prices as well as unfavorable foreign exchange impacts discussed below.

Declines in sales volumes for compounding and solutions products and advanced polymers products in the first quarter of 2019 stemming from lower automotive production in Europe and lower demand, respectively, led to a revenue decrease of 7%. Lower average sales prices for advanced polymers products, which were driven by a decline in the cost of raw materials, led to a further revenue decrease of 1% in the first quarter of 2019.

Foreign exchange impacts, which on average, were unfavorable in the first quarter of 2019 also resulted in a revenue decrease of 4%.

EBITDA—EBITDA increased \$25 million, or 20%, in the first quarter of 2019 compared to the first quarter of 2018. The operations of A. Schulman contributed \$47 million of EBITDA to the results of the APS segment, which represents an increase of 38% relative to the first quarter of 2018. First quarter results were also impacted by a 13% first quarter 2019 decline in EBITDA resulting from \$16 million of costs associated with the integration of A. Schulman.

The volume-driven decline in the first quarter of 2019 discussed above resulted in an 11% decrease in EBITDA.

Margin improvements in the first quarter of 2019 resulted in a 6% increase in EBITDA. This increase was primarily due to increases in average sales prices for compounding and solutions products which outpaced raw material cost increases.

Table of Contents

Refining Segment

Overview—EBITDA for our Refining segment decreased in the first quarter of 2019 due to lower industry margins driven by a compressed Maya differential and lower gasoline crack spreads compared to the corresponding period in 2018.

The following table sets forth selected financial information and heavy crude oil processing rates for the Refining segment and the U.S. refining market margins for the applicable periods. Light Louisiana Sweet, is a light, sweet crude oil, while “Maya” is a heavy, sour crude oil. References to industry benchmarks for refining market margins are to industry prices reported by Platts, a division of S&P Global.

Millions of dollars	Three Months Ended	
	2019	2018
Sales and other operating revenues	\$1,882	\$2,257
EBITDA	(15) 63
Heavy crude oil processing rates, thousands of barrels per day	259	252
Market margins, dollars per barrel		
Light crude oil – 2-1-1	\$9.92	\$12.62
Light crude – Maya differential	3.63	8.10
Total Maya 2-1-1	\$13.55	\$20.72

Revenues—Revenues decreased by \$375 million, or 17%, in the first quarter of 2019 compared to the first quarter of 2018.

Lower product prices led to a revenue decrease of 4%, relative to the first quarter of 2018, due to an average crude oil price decrease of approximately \$6 per barrel. Although heavy crude oil processing rates increased by approximately 3% in the first quarter of 2019, decreased purchase for resale volumes led to a net revenue decrease of 13%.

EBITDA—EBITDA decreased by \$78 million, or 124%, in the first quarter of 2019 compared to the first quarter of 2018.

Lower refining margins resulted in a 133% decrease in EBITDA relative to the first quarter of 2018. Margin compression in the benchmark Maya 2-1-1 market margin was driven by a lower light-to-heavy crude price differential as well as depressed gasoline crack spreads. This margin-driven decrease in EBITDA was partly offset by a 9% increase associated with the rise in heavy crude oil processing rates discussed above that stemmed from improved operations in the first quarter 2019.

Table of Contents

Technology Segment

Overview—EBITDA for the Technology segment improved in the first quarter of 2019 compared to the first quarter of 2018 largely due to higher licensing revenues.

The following table sets forth selected financial information for the Technology segment:

	Three Months Ended March 31,	
Millions of dollars	2019	2018
Sales and other operating revenues	\$ 141	\$ 115
EBITDA	83	56

Revenues—Revenues increased by \$26 million, or 23%, in the first quarter of 2019 compared to the first quarter of 2018.

Higher licensing revenues, a demand-driven rise in catalyst sales volumes and higher average sales prices in the first quarter of 2019 were responsible for revenue increases of 18%, 7% and 4%, respectively. These revenue increases were partially offset by a revenue decrease of 6% stemming from unfavorable foreign exchange impacts relative to the first quarter of 2018.

EBITDA—EBITDA increased by \$27 million, or 48%, in the first quarter of 2019 compared to the first quarter of 2018. Higher licensing revenues and the increase in catalyst sales volumes discussed above were responsible for improvements in first quarter 2019 EBITDA of 43% and 12%, respectively, relative to the first quarter of 2018. These improvements were partially offset by a decrease of 7% due to unfavorable foreign exchange impacts in the first quarter of 2019.

Table of Contents

FINANCIAL CONDITION

Operating, investing and financing activities, which are discussed below, are presented in the following table:

	Three Months Ended March 31,	
Millions of dollars	2019	2018
Source (use) of cash:		
Operating activities	\$657	\$1,006
Investing activities	(178)	(189)
Financing activities	(521)	(520)

Operating Activities—Cash of \$657 million generated by operating activities in the first quarter of 2019 reflected earnings adjusted for non-cash items, payments for employee bonuses, income taxes, interest and cash consumed by the main components of working capital—accounts receivable, inventories and accounts payable.

In the first quarter of 2019, the main components of working capital consumed \$104 million of cash. Higher accounts receivable due to increased sales volume in our O&P–EAI segment were partially offset by an increase in accounts payable as a result of higher volumes offset by lower feedstock and energy costs relative to the fourth quarter of 2018. The main components of working capital consumed \$179 million of cash in the first quarter of 2018. Higher first quarter 2018 sales volumes in our O&P–EAI segment relative to the fourth quarter of 2017 resulted in the increase in accounts receivable. The delay in cargo deliveries for our refining segment from December 2017 to the first quarter of 2018 combined with their seasonally lower year-end inventory levels led to the increase in inventories. Increased feedstock prices for our refining segment in the first quarter of 2018 was the primary driver for the increase in accounts payable.

Investing Activities—We invest cash in investment-grade and other high-quality instruments that provide adequate flexibility to redeploy funds as needed to meet our cash flow requirements while maximizing yield.

In the first quarter of 2018, we invested \$50 million in debt securities that are deemed available-for-sale. Our investments in available-for-sale debt securities and equity securities are classified as Short-term investments.

We received proceeds of \$308 million and \$335 million in the first quarter of 2019 and 2018, respectively, upon the maturity of certain of our available-for-sale debt securities. In the first quarter of 2019, we also received proceeds of \$162 million on the sale of a portion of our investments in equity securities.

See Note 9 to the Consolidated Financial Statements for additional information regarding these investments.

Table of Contents

Capital Expenditures—The following table summarizes capital expenditures for the periods presented:

Millions of dollars	Three Months Ended March 31,	
	2019	2018
Capital expenditures by segment:		
O&P–Americas	\$276	\$242
O&P–EAI	64	58
I&D	179	68
APS	16	15
Refining	43	36
Technology	17	8
Other	4	2
Consolidated capital expenditures	\$599	\$429

In the first quarters of 2019 and 2018, our capital expenditures included construction related to our new Hyperzone polyethylene plant at our La Porte, Texas facility and our PO/TBA plant at our Channelview, Texas facility, turnaround activities at several sites as well as other plant improvement projects. The higher level of capital expenditures in the first quarter of 2019 relative to the same period in 2018 for our O&P–Americas and I&D segments is largely due to the construction of our new Hyperzone polyethylene plant and PO/TBA plant, respectively.

Financing Activities—In the first quarters of 2019 and 2018, we made payments of \$512 million and \$119 million to acquire approximately 6 million and 1 million, respectively, of our outstanding ordinary shares. We also made dividend payments totaling \$372 million and \$395 million during the first quarters of 2019 and 2018, respectively. For additional information related to our share repurchases and dividend payments, see Note 12 to the Consolidated Financial Statements.

In February 2019, LYB Americas Finance Company LLC (“LYB Americas Finance”), a direct, 100% owned finance subsidiary of LyondellBasell Industries N.V., entered into a 364-day, \$2,000 million senior unsecured term loan credit facility and borrowed the entire amount. The proceeds of this term loan, which is fully and unconditionally guaranteed by LyondellBasell Industries N.V. are intended for general corporate purposes, including the repayment of debt.

In February 2019, proceeds from the credit facility were used to redeem the remaining \$1,000 million outstanding of our 5% Senior Notes due 2019 at par.

Through the issuance and repurchase of commercial paper instruments under our commercial paper program, we made net repayments of \$559 million in the first quarter of 2019.

In February 2019, we purchased the non-controlling interest in our subsidiary that holds our La Porte, Texas methanol facility for \$63 million.

Additional information related to these notes can be found in the Liquidity and Capital Resources section below and in Note 7 to the Consolidated Financial Statements.

Liquidity and Capital Resources—As of March 31, 2019, we had \$762 million of unrestricted cash and cash equivalents and marketable securities classified as Short-term investments and held \$534 million of tri-party repurchase agreements classified as Prepaid expenses and other current assets. For additional information related to our purchases of marketable securities, see “Investing Activities” above and Note 9 to the Consolidated Financial Statements.

At March 31, 2019, we held \$278 million of cash in jurisdictions outside of the U.S., principally in Europe and Asia. There are currently no legal or economic restrictions that materially would impede our transfers of cash.

Table of Contents

We also had total unused availability under our credit facilities of \$7,037 million at March 31, 2019, which included the following:

\$2,240 million under our \$2,500 million revolving credit facility, which backs our \$2,500 million commercial paper program. Availability under this facility is net of outstanding borrowings, outstanding letters of credit provided under the facility and notes issued under our commercial paper program. A small portion of our availability under this facility is impacted by changes in the euro/U.S. dollar exchange rate. At March 31, 2019, we had \$251 million of outstanding commercial paper, net of discount, no outstanding letters of credit and no outstanding borrowings under the facility;

\$797 million under our \$900 million U.S. accounts receivable facility. Availability under this facility is subject to a borrowing base of eligible receivables, which is reduced by outstanding borrowings and letters of credit, if any. This facility had no outstanding borrowings or letters of credit at March 31, 2019; and

\$4,000 million under our new three-year senior unsecured delayed draw term loan facility. Availability under this facility is net of outstanding borrowings. This facility had no outstanding borrowings at March 31, 2019.

At March 31, 2019, we had total debt, including current maturities, of \$9,904 million, and \$174 million of outstanding letters of credit, bank guarantees and surety bonds issued under uncommitted credit facilities.

In accordance with our current interest rate risk management strategy and subject to management's evaluation of market conditions and the availability of favorable interest rates among other factors, we may from time to time enter into interest rate swap agreements to economically convert a portion of our fixed rate debt to variable rate debt or convert a portion of variable rate debt to fixed rate debt.

For additional information related to our credit facilities discussed above, see Note 7 to the Consolidated Financial Statements.

In June 2018, our shareholders approved a proposal to authorize us to repurchase up to an additional 10%, or 57,844,016, of our ordinary shares through December 2019 ("June 2018 Share Repurchase Program"). As a result, the authorization of the remaining unpurchased shares under the share repurchase program approved by our shareholders in May 2017 ("May 2017 Share Repurchase Program") was superseded. Our share repurchase program does not have a stated dollar amount, and purchases may be made through open market purchases, private market transactions or other structured transactions. Repurchased shares could be retired or used for general corporate purposes, including for various employee benefit and compensation plans. In the first quarter of 2019, we purchased approximately 6 million shares under these programs for approximately \$488 million. As of April 24, 2019, we had approximately 37 million shares remaining under the current authorization. The timing and amounts of additional shares repurchased will be determined based on our evaluation of market conditions and other factors. For additional information related to our share repurchase programs, see Note 12 to the Consolidated Financial Statements.

We may repay or redeem our debt, including purchases of our outstanding bonds in the open market, using cash and cash equivalents, cash from our short-term investments and tri-party repurchase agreements, cash from operating activities, proceeds from the issuance of debt, proceeds from asset divestitures, or a combination thereof. In connection with any repayment or redemption of our debt, we may incur cash and non-cash charges, which could be material in the period in which they are incurred.

In July 2017, we announced our final investment decision to build a world-scale PO/TBA plant in Texas with a capacity of 1 billion pounds of PO and 2.2 billion pounds of TBA. In August 2018, we broke ground on this project, which is estimated to cost approximately \$2.4 billion. We anticipate the project to be completed in the third quarter of 2021.

Construction of our Hyperzone high density polyethylene plant at our La Porte, Texas site, which commenced in May 2017, is on track for planned start-up in the third quarter of 2019.

Table of Contents

We plan to fund our ongoing working capital, capital expenditures, debt service and other funding requirements with cash from operations, which could be affected by general economic, financial, competitive, legislative, regulatory, business and other factors, many of which are beyond our control. Cash and cash equivalents, cash from our short-term investments and tri-party repurchase agreements, cash from operating activities, proceeds from the issuance of debt, or a combination thereof, may be used to fund the purchase of shares under our share repurchase program. We intend to continue to declare and pay quarterly dividends, with the goal of increasing the dividend over time, after giving consideration to our cash balances and expected results from operations.

We believe that our current liquidity availability and cash from operating activities provide us with sufficient financial resources to meet our anticipated capital requirements and obligations as they come due.

CURRENT BUSINESS OUTLOOK

In the first few weeks of April we have seen signs of industry improvement. The strength in market sentiment is driving higher margins for our O&P–EAI segment. In our O&P–Americas segment, we are seeing volume improvement as we enter a period of strong seasonal demand. The refining market is also improving with increasing gasoline spreads and wider discounts for heavy sour crude oil. Looking beyond the quarter, we will advance our growth strategy and increase our earnings with a robust pipeline of licensing revenue for 2019 in addition to the third quarter start-up of our world-scale HDPE plant which utilizes our innovative Hyperzone technology.

ACCOUNTING AND REPORTING CHANGES

For a discussion of the impact of new accounting pronouncements on our consolidated financial statements, see Note 2 to the Consolidated Financial Statements.

Table of Contents

CAUTIONARY STATEMENT FOR THE PURPOSES OF THE “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

This report includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. You can identify our forward-looking statements by the words “anticipate,” “estimate,” “believe,” “continue,” “could,” “intend,” “may,” “plan,” “potential,” “predict,” “should,” “will,” “exp,” “projection,” “forecast,” “goal,” “guidance,” “outlook,” “effort,” “target” and similar expressions.

We based forward-looking statements on our current expectations, estimates and projections of our business and the industries in which we operate. We caution you that these statements are not guarantees of future performance. They involve assumptions about future events that, while made in good faith, may prove to be incorrect, and involve risks and uncertainties we cannot predict. Our actual outcomes and results may differ materially from what we have expressed or forecast in the forward-looking statements. Any differences could result from a variety of factors, including the following:

the cost of raw materials represents a substantial portion of our operating expenses, and energy costs generally follow price trends of crude oil, natural gas liquids and/or natural gas; price volatility can significantly affect our results of operations and we may be unable to pass raw material and energy cost increases on to our customers due to the significant competition that we face, the commodity nature of our products and the time required to implement pricing changes;

our operations in the U.S. have benefited from low-cost natural gas and natural gas liquids; decreased availability of these materials (for example, from their export or regulations impacting hydraulic fracturing in the U.S.) could reduce the current benefits we receive;

if crude oil prices fell materially, or decrease relative to U.S. natural gas prices, we would see less benefit from low-cost natural gas and natural gas liquids and it could have a negative effect on our results of operations;

industry production capacities and operating rates may lead to periods of oversupply and low profitability; for example, substantial capacity expansions are underway in the U.S. olefins industry;

we may face unplanned operating interruptions (including leaks, explosions, fires, weather-related incidents, mechanical failure, unscheduled downtime, supplier disruptions, labor shortages, strikes, work stoppages or other labor difficulties, transportation interruptions, spills and releases and other environmental incidents) at any of our facilities, which would negatively impact our operating results; for example, because the Houston refinery is our only refining operation, we would not have the ability to increase production elsewhere to mitigate the impact of any outage at that facility;

changes in general economic, business, political and regulatory conditions in the countries or regions in which we operate could increase our costs, restrict our operations and reduce our operating results;

our ability to execute our organic growth plans may be negatively affected by our ability to complete projects on time and on budget;

our ability to acquire new businesses and assets and integrate those operations into our existing operations and make cost-saving changes in operations;

any loss or non-renewal of favorable tax treatment under agreements or treaties, or changes in laws, regulations or treaties, may substantially increase our tax liabilities;

uncertainties associated with worldwide economies could create reductions in demand and pricing, as well as increased counterparty risks, which could reduce liquidity or cause financial losses resulting from counterparty default;

the negative outcome of any legal, tax and environmental proceedings or changes in laws or regulations regarding legal, tax and environmental matters may increase our costs or otherwise limit our ability to achieve savings under current regulations;

Table of Contents

we may be required to reduce production or idle certain facilities because of the cyclical and volatile nature of the supply-demand balance in the chemical and refining industries, which would negatively affect our operating results; we rely on continuing technological innovation, and an inability to protect our technology, or others' technological developments could negatively impact our competitive position; we have significant international operations, and fluctuations in exchange rates, valuations of currencies and our possible inability to access cash from operations in certain jurisdictions on a tax-efficient basis, if at all, could negatively affect our liquidity and our results of operations; we are subject to the risks of doing business at a global level, including wars, terrorist activities, political and economic instability and disruptions and changes in governmental policies, which could cause increased expenses, decreased demand or prices for our products and/or disruptions in operations, all of which could reduce our operating results; if we are unable to comply with the terms of our credit facilities, indebtedness and other financing arrangements, those obligations could be accelerated, which we may not be able to repay; and we may be unable to incur additional indebtedness or obtain financing on terms that we deem acceptable, including for refinancing of our current obligations; higher interest rates and costs of financing would increase our expenses. Any of these factors, or a combination of these factors, could materially affect our future results of operations and the ultimate accuracy of the forward-looking statements. Our management cautions against putting undue reliance on forward-looking statements or projecting any future results based on such statements or present or prior earnings levels.

All subsequent written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section and any other cautionary statements that may accompany such forward-looking statements. Except as otherwise required by applicable law, we disclaim any duty to update any forward-looking statements.

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our exposure to market and regulatory risks is described in Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2018. Our exposure to such risks has not changed materially in the three months ended March 31, 2019.

Item 4. CONTROLS AND PROCEDURES

As of March 31, 2019, with the participation of our management, our Chief Executive Officer (principal executive officer) and our Chief Financial Officer (principal financial officer) carried out an evaluation, pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934, as amended (the Act), of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) of the Act). Based upon that evaluation, our Chief Executive Officer and our Chief Financial Officer concluded that our disclosure controls and procedures were operating effectively as of March 31, 2019.

We are currently in the process of assessing the internal controls of A. Schulman as part of the post-close integration process. A. Schulman has been excluded from our assessment of internal control over financial reporting as of March 31, 2019. The total assets and revenues excluded from management's assessment represent 5% and 7%, respectively, of the related consolidated financial statements as of and for the three months ended March 31, 2019. There have been no other changes to our internal controls over financial reporting, as defined in Rule 13a-15(f) of the Act, in the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents

PART II. OTHER INFORMATION

Item 1. LEGAL PROCEEDINGS

Information regarding our litigation and other legal proceedings can be found in Note 11, Commitments and Contingencies, to the Consolidated Financial Statements, which is incorporated into this Item 1 by reference. The following is a description of environmental proceedings to which a governmental authority is a party and potential monetary penalties are reasonably likely to be \$100,000 or more:

On July 17, 2018, our Lake Charles, Louisiana facility received a Clean Air Act Section 114 information request from U.S. Environmental Protection Agency Region VI relating to flare operations at the facility. On August 30, 2018, we provided our response. In March 2019, we met with Region VI to discuss potential violations and are currently engaged in settlement negotiations. We reasonably expect monetary penalties could exceed \$100,000.

Additional information about our other environmental proceedings can be found in Part I, Item 3 of our 2018 Annual Report on Form 10-K, which is incorporated into this Item 1 by reference.

Item 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed in Item 1A of our 2018 Annual Report on Form 10-K.

Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Period	Issuer Purchases of Equity Securities			
	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares That May Yet Be Purchased Under the Plans or Programs
January 1 – January 31	2,930,000	\$85.99	2,930,000	39,698,050
February 1 – February 28	2,578,600	\$86.87	2,578,600	37,119,450
March 1 – March 31	140,300	\$85.54	140,300	36,979,150
Total	5,648,900	\$86.38	5,648,900	36,979,150

On June 1, 2018, we announced a share repurchase program of up to 57,844,016 of our ordinary shares through December 1, 2019, which superseded any prior repurchase authorizations. The maximum number of shares that may yet be purchased is not necessarily an indication of the number of shares that will ultimately be purchased.

Item 4. MINE SAFETY DISCLOSURES

Not applicable.
