FORWARD-LOOKING STATEMENTS

In addition to historical information, some of the information presented in this Annual Report on Form 10-K contains "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995 (the "Reform Act"). Although Medina International Holdings, Inc., ("Medina" or the "Company," which may also be referred to as "we," "us" or "our") believes that its expectations are based on reasonable assumptions within the bounds of its knowledge of its business and operations, there can be no assurance that actual results will not differ materially from these expectations. Such forward-looking statements are subject to risks and uncertainties that could cause actual results to differ materially from those anticipated, including but not limited to, its ability to reach satisfactorily negotiated settlements with its outstanding creditors and raise debt and/or equity to fund negotiated settlements with its creditors and to meet its ongoing operating expenses. Cautionary statements regarding the risks, uncertainties and other factors associated with these forward-looking statements are discussed on page 5 below. You are urged to carefully consider these factors, as well as other information contained in this Annual Report on Form 10-K and in our other periodic reports and documents filed with the Securities and Exchange Commission ("SEC").

PART I

ITEM 1. DESCRIPTION OF BUSINESS

History

Medina International Holdings, Inc. ("Medina," "we," "us," "Company") was incorporated on June 23, 1998 in the state of Colorado as Colorado Community Broadcasting, Inc. In 2005, the Company changed its name to Medina International Holdings, Inc. Our corporate offices are located at 191 Kettering Dr., Ontario, California, 91761 and our telephone number is (951) 493-6785.

Medina manufactures products and services to assist emergency and defense organizations and personnel. Our products are manufactured by the Company's wholly owned subsidiary Harbor Guard Boats, Inc. The Company's securities are traded on Over the Market under the symbol, "MIHI."

In 2004, there was a change of management. In 2005, the board and the stockholders approved the name change to Medina International Holdings, Inc. Since these organizational restructurings, we have pursued a business plan that focuses on watercraft manufacturing for rescue, emergency, and defense operations, as well as, recreational uses.

Medina Marine, Inc. was formed in the State of California, on May of 2006, as a wholly owned subsidiary for the sole purpose of manufacturing watercrafts. Medina Marine, Inc. was not an operating company since 2008. Management of the Company transferred 100% share capital of Medina Marine in March 2015 without any liability to a buyer.

The Company acquired Harbor Guard Boats, Inc. (Formerly called Modena Sports Design, LLC) as a wholly owned subsidiary of the company on June 18, 2008 and is incorporated in the State of California since 2003 to produce fire rescue, rescue and recreational boats. Harbor Guard Boats currently has nine (9) models of commercial and recreational watercrafts, ranging from 15' to 40' in length.

Harbor Guard Boats ("HGB") designs, manufactures, and markets high-performance, hand-laid fiberglass and aluminum commercial watercrafts ranging from 15' to 40', which are utilized by fire, search & rescue, emergency, patrol, military and defense organizations. These watercrafts combine innovative designs with power, safety, handling and stability to create superior products designed to protect and save lives.

The Company owns the rights to the following websites:

Product Description

We manufacture commercial and recreational watercrafts under our wholly owned subsidiary Harbor Guard Boats, Inc. Our commercial products are utilized by fire, search & rescue, patrol, emergency, military and defense departments, while the recreational products are targeted towards leisure and sports inclined individuals.

Commercial Boats - The Company currently has nine (9) commercial watercraft models, ranging from 15' to 40' in length.

| Watercraft | Fire Rescue | Rescue | Aluminum | Fiber Glass |
|------------------------------|--------------------|---------------|-----------------|--------------------|
| 15' Interceptor | | X | | X |

| 40' Firehawk/Defender | X | X | X | |
| 40' Ambulance Rescue | X | X | X | |

Our watercraft products are made out of fiberglass and Aluminum materials. In addition to durability and improved speeds, the use of fiberglass means that any repairs or damage to the interior or exterior of the craft can be easily repaired. Our products incorporate a platform, which prevents the boats from flooding, providing a greater stability for our products.

All of our watercrafts either use jet propulsion, I/O and Out Boards for their power. The use of jet engines allows the watercraft to operate in shallow waters. In addition, the jet engines provide a greater safety to the rescuers and those being rescued. Our jet propulsion watercrafts allow the crew members to get extremely close to the victims without the worry of causing further injury to those being rescued. The use of I/O and Outboard engines are installed mainly in 20' and up models. In addition, some of our models are designed to accommodate multiple or mixture of the above mentioned engine types, taking into consideration safety and agility.

The water pump used in our products uses water retrieved from the bottom of the boat and sprays water at 750-3000 gallons per minute, without compromising the stability of the craft. MCD System allows the water intake to be diverted to water pump for spraying.

Our innovative watercraft designs allow us to market our products to fire and rescue departments, as well as to defense and military departments.

Competition

Our products compete with those companies that are already established in the industry. Our competition may have established dealerships in the United States and other parts of the world, which may give them an advantage over our company. In addition, our competitors may have good relations with the government and its personnel and a proven track record, which may adversely affect our sales efforts. An established competition to our company may have resources and man power to expand into other cities and countries and offer their products at lower prices.

Our competitors build similar rescue watercraft, though they may use different materials in the construction of their products, such as inflatable and metal. We believe that the use of the jet propulsion, I/O, and Outboard engines and the innovations in our designs provide greater stability, which will provide us with an advantage over our current competition.

There is greater competition for our recreational products than there are for our rescue and fire rescue watercrafts. The recreational industry is larger than the fire and rescue industry and our competitors in the recreational boat industry have an established clientele and may have far greater resources than we have at this time.

Sales and Marketing

| Units Sold for the year ended April 30, | | | | |
|--|-----------------|-------------------|-----------------|-------------------|
| | 2015 | | 2014 | |
| Department Type | No. Sold | Percentage | No. Sold | Percentage |
| Fire Department | 1 | 100% | 3 | 60% |
| Others | | | 2 | 40% |
| Total | 1 | 100% | 5 | 100% |

The Company is aggressively marketing its products throughout the United States and around the world. By working with independent sales agents, the Company has been able to expand its reach into agencies worldwide that are looking for watercrafts for search and rescue, defense, and emergency purposes.

Our watercrafts are sold to departments, such as Fire, Police, Defense, Emergency, and Volunteer Fire Departments. Most of our sales have come from Fire Department in the United States.; however, there is an increasing potential for sales opportunities in other departments and market segment as well.

Our commercial boat marketing strategy includes displaying and demonstrating our products at regional, national and international shows throughout the United States, and advertising our products in industry magazines and on the Internet.

ITEM 1A. RISK FACTORS

The ownership of the Company's securities involves certain risk factors, including without limitation, lack of liquidity, various conflicts of interest, and economic and market risks. An investment in the Company's common stock involves a number of risks. The risks discussed in this document could materially and/or adversely affect our business, financial condition and results of operations and cause the trading price of our common stock to decline significantly.

Risks in Equity

We expect our stock price to be volatile which could cause a complete loss of investment to purchasers of our stock.

The trading price of our common stock is likely to be highly volatile. Our stock price could fluctuate widely in response to many factors, including, but not limited to the following:

- a. our historical and anticipated quarterly and annual operating results;
- b. announcements of new products or services by us or our competitors or new competing technologies;
- c. investors' perceptions of us and investments relating to the watercraft and/or defense industry;
- d. developments in the watercrafts and/or defense industry;
- e. technological innovations;
- f. failure to diversify;
- g. changes in pricing made by us, our competitors or providers of alternative/substitute services;
- h. the addition or loss of business customers
- i. variations between our actual results and analyst and investor expectations
- j. condition or trends in the boat industry, including regulatory developments
- k. announcements by us of significant acquisitions, strategic partnerships, joint ventures or capital commitments;
- l. additions or departures of key personnel; and
- m. general market and economic conditions.

In addition, in recent years the stock market in general, and the Over-The-Counter market, in particular, have experienced extreme price and volume fluctuations. These fluctuations have often been unrelated or disproportionate to the operating performance of these companies. These markets and industry factors may materially adversely affect our stock price, regardless of our operating performance.

The stock market, from time-to time, has experienced significant price and volume fluctuations that have particularly affected the market prices for the common stock of similar companies. These broad market fluctuations may adversely affect the market price of the Company's common stock. In the past, following periods of volatility in the market price of a particular company's securities, securities class action litigation has been instituted. There can be no assurance that such litigation will not occur in the future with respect to the Company. Such litigation, regardless of its outcome, would result in substantial costs and a diversion of management's attention and resources, which could have a material adverse effect upon the company's business, results of operations, and financial condition.

In the past, the trading price of the Company's common stock has experienced substantial volatility. Sales of substantial amounts of common stock in the public market could adversely affect prevailing market prices. As of April 30, 2015, we had 56,090,117 shares of common stock outstanding, of which approximately 16,426,497 shares of common stock is or will be freely tradable, other than restrictions imposed upon our affiliates. The freely tradable shares, along with the contractually restricted shares, are significantly greater in number than the daily average trading volume of our shares. If the selling stockholders, or the holders of the freely tradable shares, were to sell a significant amount of our common stock in the public market, the market price of our common stock would likely be significantly and adversely affected.

Penny Stock Reform Act. In October 1990, congress enacted the "Penny Stock Reform Act of 1990" (the "90 Act") to counter fraudulent practices common in Penny Stock transactions. Rule 3a51-1 of the Exchange Act defines "Penny Stock" as an equity security that is not among other things;

-7-

- a) a reported security (i.e., listed on certain national securities exchanges);
- b) a security registered or approved for registration and traded on a national securities exchange that meets certain guidelines, where the trade is effected through the facilities of that national exchange;
- c) a security listed on NASDAQ;
- d) a security of an issuer that meets certain minimum financial requirements ("net tangible assets" in excess of \$2,000,000 if the issuer has been continuously operating for less than three (3) years), or "average return" of at least \$6,000,000 for the last three years; or
- e) a security with a price of at least \$5.00 per share for the transaction in question or that has a bid quotation (as defined in the rule) of at least \$5.00 per share.

Under rule 3a51-1, the Company's common stock falls within the definition of "Penny Stock," pursuant to the 90 Act, broker-dealers, prior to effecting a transaction in a Penny Stock, are required to provide investors with written disclosure documents containing information concerning various aspects of the market for Penny Stocks as well as specific information about the Penny Stock and the transaction involving the purchase and sale of that stock (e.g., price quotes and broker-dealer and associated person compensation). Subsequent to the transaction, the broker is required to deliver monthly or quarterly statements containing specific information about the Penny Stock. These added disclosure requirements will most likely negatively affect the ability of purchasers herein to sell their shares in the secondary market.

We will need to raise additional funds which could dilute the shares

We need to raise additional funds through public or private debt or equity financing to be able to fully execute our business plan. Any additional capital raised through the sale of equity may dilute the investor's ownership interest. We may not be able to raise additional funds on favorable terms, or at all. If we are unable to obtain additional funds, we will be unable to execute our business plan.

We may issue shares to raise capital or for services in the future at a price lower than that paid by current investors and such actions would be dilutive, even highly dilutive, of current outstanding shares, which would adversely affect market values

We will need to raise substantial amount of additional capital and may issue shares for cash, services, or acquisitions at a price less than that paid by current owners, as needs arise. This poses a risk for investors in that there is no protection for them against such dilutive issuances, which could ultimately adversely affect the market and price for our shares, if a market ever develops.

Our securities have been thinly traded on the Over-The-Counter Market, Pink Sheets which may not provide liquidity for our investors

Our securities are quoted on the Over-the-Market (OTC), under the symbol MIHI. Securities traded on the Over-The-Market are usually thinly traded, highly volatile, have fewer market makers and are not followed by analysts. The Securities and Exchange Commission's order handling rules, which apply to NASDAQ-listed securities, do not apply to securities quoted on OTC markets. Quotes for stocks included on the OTC market are not listed in newspapers. Therefore, prices for securities traded solely on the OTC may be difficult to obtain and holders of our securities may be unable to resell their securities at or near their original acquisition price, or at any price.

In times of heavy market volume, the limitations of this process may result in a significant increase in the time it takes to execute investor orders. Therefore, when investors place market orders to buy or sell a specific number of shares at the current market price, it is possible for the price of a stock to go up or down significantly during the lapse of time between placing a market order and its execution.

Future sales of our common stock by restricted shareholders could have a depressive effect on the market price for our stock

As of April 30, 2015, we had 56,090,117 shares of common stock outstanding, subject to restrictions on transfer referred to below, all other shares of common stock which we have not registered are considered "Restricted Securities" as defined under the Securities Act (1934) and in the future may be sold in compliance with rule 144 under the Securities Act or pursuant to a registration statement filed under the Securities Act. Rule 144 generally provides that a person holding restricted securities for a period of six months may sell every three months in brokerage transactions or market-maker transactions an amount equal to the greater of (i) one percent (1%) of our issued and outstanding common stock or (ii) the average weekly trading volume of the common stock during the four calendar weeks prior to the sale. Rule 144 also permits, under certain circumstances, the sale of shares without any quantity limitation by a person who is not an affiliate of the company and who has satisfied a one year holding period. The sale of substantial numbers of these shares, whether pursuant to rule 144 or pursuant to a registration statement, may have a depressive effect on the market price of our common stock by causing the supply to exceed demand.

In addition, sales of significant amounts of restricted shares held by Mr. Madhava Rao Mankal, CFO and Director of the Company and Mr. Daniel Medina, President and Director of the Company, and Mr. Albert Mardikian who own a total of 36,488,001 shares of our Company's common stocks, or the prospect of these sales, could adversely affect the market price of our common stock.

Our operating results in future periods are likely to fluctuate significantly and may fail to meet or exceed the expectations of securities analysts or investors, and this could affect our market price

Our annual and quarterly operating results are likely to fluctuate significantly in the future due to numerous factors, many of which are outside of the company's control. These factors include many of which are discussed in other risk factors; such as low revenues, competition, failure to approve products proposed, lack of additional capital, management changes, and intellectual property infringement claims to extremely high operating costs. If our operating results are negatively affected by any of these factors, our operating results in future periods could fail to meet or exceed the expectations of securities analysts or investors. In that event, any trading price of our common stock would decline.

Risks in General Operations

We rely upon licenses in the manufacturing of our boats

We manufacture our boats under various licenses; the loss of any could impair our business. Mr. Albert Mardikian, holds the patents on the designs we use to build our products. If we breach the license agreement, it may seriously impair our ability to manufacture the boats and we may not be able to successfully implement our business plan. License is for a certain period of time. If Mr. Mardikian is unwilling to renew the licenses, it may impair our ability to manufacture the boats and we may not be able to successfully implement our business plan.

We rely on proprietary designs and rights and if we have to litigate those rights, our expenses could substantially increase

Our intellectual property is important to our business. We rely on a combination of license rights, trade secret laws, confidentiality procedures, and contractual provisions to protect our intellectual property. Our success and ability to compete depends, in part, on the protection of our designs and technology. In addition, our technology could infringe on patents or proprietary rights of others. We have not undertaken or conducted any comprehensive patent infringement searches or studies. If a third party holds any conflicting rights, we may be required to stop making,

using or selling our products or to obtain licenses from and pay royalties to others. Further, in such event, we may not be able to obtain or maintain any such licenses on acceptable terms, if at all. We may need to engage in future litigation to enforce intellectual property rights or the rights of customers, to protect trade secrets or to determine the validity and scope of proprietary rights of others, including customers. This litigation could result in substantial costs and diversion of resources and could materially adversely affect our results of operations.

We depend on our suppliers and if we cannot obtain certain components for our products, we might have to develop alternative designs that could increase our costs

We depend upon a number of suppliers for components in manufacturing our boats. There is an inherent risk that certain components will be unavailable for prompt delivery or, in some cases, discontinued. We have only limited control over any third-party manufacturer as to quality controls, timeliness of production, deliveries and various other factors. Should the availability of certain components be compromised, it could force us to develop alternative designs using other components, which could add to the cost of goods sold and compromise delivery commitments. If we are unable to obtain components in a timely manner, at an acceptable cost, or at all, we may need to select new suppliers, redesign or reconstruct the process we use to build the hulls, which management believes would take a minimum of one year. We may not be able to manufacture any boats for a period of time, which could materially adversely affect our business, through the results of our operations, and our financial condition.

In addition, if a change in the manufacturer of a key component is required, qualification of a new supplier may result in delays and additional expenses in meeting customer demand for products.

We have a limited operating history and may never achieve or sustain profitable operations.

Our ability to successfully commercialize our products will depend on, among other things, our ability to manufacture and sell our products and the relative cost to the customer of our product as compared to alternative competitive products. As a result, we may never achieve or sustain profitable operations.

We anticipate that we will continue to incur operating losses for the foreseeable future, due to a high level of planned operating and capital expenditures for developing manufacturing capabilities, increased sales and marketing costs, the hiring of additional personnel, greater levels of product development and our general growth objectives related to the design and manufacturing of our products.

We have incurred losses since our inception and expect to continue to incur losses in the future. We may never become profitable. We have historically generated substantial losses, which, if continued, could make it difficult to fund our operations or successfully execute our business plan, and could materially adversely affect our stock price. We experienced net loss of \$650,893 for the year ended April 30, 2015. At April 30, 2015, we had an accumulated deficit of \$8,368,686.

The impact of market fluctuations in money markets, financial stability and financing costs could adversely affect our profitability.

Most of our expenses and capital spending are transacted in the U.S. dollars. The company's exposure to market risk for changes in interest rates relate primarily to the company's cash and cash equivalent balances, marketable securities, investment in sales-type leases, and loan agreements. The majority of the company's investments may be in short-term instruments and therefore subject to fluctuations in U.S. interest rates. Our financing arrangements will be periodically renewed and an increase in interest rates may result in higher interest charges to us. Due to the uncertain nature of such, we cannot provide assurance that this will not have a material adverse impact on our financial condition and results of operations.

Our independent accountants have issued a going concern opinion and if we do not generate enough cash from operations to sustain our business we may have to liquidate assets or curtail our operations.

The accompanying financial statements have been prepared assuming we will continue as a going concern. Conditions exist which raise substantial doubt about our ability to continue our business unless we are able to generate sufficient

cash flows to meet our obligations and sustain our operations. In addition, we have limited working capital. We cannot provide assurance or guarantee that additional capital and/or debt financing will be available and to the extent required by us, or that if available, it will be on terms favorable or acceptable by us. Our financial statements do not include any adjustment that might result from the outcome of this uncertainty. This may be an indicator of our inability to continue in business which could cause loss of part or all of your investment.

We will need significant additional funds for operations and product marketing and development, which we may not be able to obtain

The expansion and development of our business will require significant additional capital. We intend to seek substantial additional financing in the future to fund the growth of our operations, including funding the significant capital expenditures necessary for us to provide products in our targeted markets. We may be unable to obtain any future equity or debt financing on acceptable terms or at all. A market downturn or general market uncertainty will adversely affect our ability to secure additional financing. If we are unable to obtain additional capital or are required to obtain it on terms less satisfactory than what we desire, we will need to delay deployment of our new products or take other actions that could adversely affect our business, prospects, operating results and financial condition. To date, our cash flow from operations has been insufficient to cover our expenses and capital needs. Our current capital resources have been expended and we need additional capital to continue expansion, which we may not be able to obtain, and it could impair or curtail operations.

Our current liabilities exceed our current assets by a significant amount, which could put stockholder/investors at serious risk of or loss of their investment

At April 30, 2015, we had current liabilities of \$3,243,077 and \$91,002 in current assets. As of April 30, 2015, we have a working capital deficit of approximately \$3,152,075. In the event that creditors or litigants, if any, were to attempt to collect, it is unlikely that stockholders, as equity holders, would receive some or any return of their investment, because creditors would be paid first.

A segment of our business focuses on government agencies, limited number of potential customers, and if we cannot obtain government contracts, we may not earn revenues

Obtaining government contracts may involve long purchase and payment cycles, competitive bidding, qualification requirements, delays or changes in funding, budgetary constraints, political agendas, extensive specification development, price negotiations and milestone requirements. Each government agency also maintains its own rules and regulations, varying significantly among agencies, with which we must adhere to. Government agencies also often retain some portion of fees payable upon completion of a project and collection of these fees may be delayed for several months.

We must comply with environmental regulations or we may have to pay expensive penalties or clean up costs

We are subject to federal, state, local and foreign laws and regulations regarding protection of the environment, including air, water, and soil. Our manufacturing business involves the use, handling, storage, and contracting for recycling or disposal of, hazardous or toxic substances or wastes, including environmentally sensitive materials, such as batteries, solvents, lubricants, degreasing agents, gasoline and resin. We must comply with certain requirements for the use, management, handling, and disposal of these materials. We do not maintain insurance for pollutant cleanup and removal. If we are found responsible for any hazardous contamination, we may have to pay expensive fines or penalties or perform costly clean-up. Even if we are charged, and later found not responsible, for such contamination or clean up, the cost of defending these charges could be high.

If we do not comply with government regulations, we may be unable to ship our products or may have to pay expensive fines or penalties

We are subject to regulation by United States governments (county, state, federal governments, government agencies, etc.), and regulatory authorities from foreign nations. If we fail to obtain regulatory approvals or suffer delays in obtaining regulatory approvals, we may not be able to market our products and services, and generate revenues.

Further, we may not be able to obtain necessary regulatory approvals. Although we do not anticipate problems satisfying any of the regulations involved, we cannot foresee the possibility of new regulations, which could adversely affect our business. Our products are subject to export limitations and we may be prevented from shipping our products to certain nations or buyers.

Risks in sales/marketing

We are subject to substantial competition and we must continue to focus on product development to remain competitive.

We are subject to significant competition that could harm our ability to gain business and increase the pressure on prices on our products. We face competition from a variety of firms. Moreover, we may not have sufficient resources to undertake the continuing research and development necessary to remain competitive. Competitors may attempt to independently develop similar designs or duplicate our products or designs. We or our competitors may intentionally or unintentionally infringe upon or misappropriate products or proprietary information. In the future, litigation may be necessary to enforce intellectual property rights or to determine the validity and scope of the proprietary rights of others. Any such litigation could be time consuming and costly. Any patent or patents sub-licensed to us relating to current or future products may be challenged, invalidated, or circumvented or the rights granted there under may not be held valid if subsequently challenged.

Our boat designs are based on technological and design innovation. Consequently, the life cycles of some of our products can be relatively short. Our success depends significantly on our ability to establish and maintain a competitive position in this field. Our products may not remain competitive in light of technological developments by others. Our competitors may succeed in discovering and developing technology before we do that might render our technology, and hence making our products, obsolete and noncompetitive.

We are a small company in terms of employees, technical and research resources and capital. We expect to have significant research and development, sales and marketing, and general and administrative expenses for several years. These amounts may be expended before any commensurate incremental revenue from these efforts may be obtained. These factors could hinder our ability to meet changes in the boat industry as rapidly or effectively as competitors with substantially more resources.

Commercialization of our current and future products could fail if implementation of our sales and marketing strategy is unsuccessful

A significant sales and marketing effort will be necessary in order to achieve the level of market awareness to realize profitability from sales of our current and future products. We currently have only limited sales and marketing experience, both in the United States and abroad, which may limit our ability to successfully develop and implement our sales and marketing strategy. We need to:

- a) hire and train sales and marketing personnel;
- b) manage geographically dispersed operations;
- c) encourage customers to purchase our products.

If we fail to successfully create and implement our sales and marketing strategy, it could result in increased costs and net losses, resulting in potential failure of the company.

Success dependent on market acceptance.

Our Company's success is dependent on the market acceptance of our products. Despite the increasing demand for commercial boats, market acceptance of the company's products will be dependent, among other things, upon its quality, ease of use, speed, reliability, and cost effectiveness. Even if the advantages of our products are established,

we are unable to predict how quickly, if at all, our products will be accepted in the marketplace.

Risks in management

We rely upon key employees to proceed with our business plans

The loss of our key employees could impair our ability to proceed with our business. Our success depends in significant part on the continued services of our key employees, including Mr. Daniel Medina, President and Director and Mr. Madhava Rao Mankal, Chief Financial Officer and Director.

-12-

Our principal officers and directors own 56.90% of our stock, which if voted in a block, will be a controlling interest and investors will have a limited voice in our management.

Messrs. Medina and Mankal, officers and directors of the Company beneficially own approximately 56.90% of our outstanding common stock as of April 20, 2015. As a result, Messrs. Medina and Mankal have the ability to control substantially all matters submitted to our stockholders for approval, including

- a) election of our board of directors;
- b) removal of any of our directors;
- c) amendment of our certificate of incorporation or bylaws; and
- d) adoption of measures that could delay or prevent a change in control or impede a merger, takeover or other business combination involving the company.

As a result of their ownership and positions, Messrs. Medina and Mankal are able to influence all matters requiring stockholder approval, with little additional support, including the election of directors and approval of significant corporate transactions.

Conflicts of interest.

The board of directors of the Company is subject to various conflicts of interest arising out of their relationship with the company. The officers and directors of the Company will devote such time, as they deem necessary to the business and affairs of the Company. Officers and directors of the Company are required by law to deal fairly and in good faith with the company and they intend to do so. However, in any company, there are certain inherent conflicts between the officers and directors and the investors, which cannot be fully mitigated. Because the officers and directors will engage in activities independent of the company, some of these activities may conflict with those of the company. Thus, the officers and directors may be placed in the position where their decisions could favor their own activities or other activities with which they are associated over those of the Company. Officers and directors of the company may engage in business separately from activities on behalf of the company or client entities for which the Company also provides services to.

Limitations on directors' and officers' liability.

The Company's articles of incorporation provide, as permitted by governing Colorado law, that a director or officer of the Company shall not be personally liable to the company, or its shareholders, for monetary damages for breach of his or her fiduciary duty of care as a director or officer, with certain exceptions. In addition, the company has agreed to indemnify its officers and directors to the fullest extent permitted by Colorado law. Such provisions may discourage stockholders from bringing a lawsuit against directors for breaches of fiduciary duty and may also have the effect of reducing the likelihood of derivative litigation against directors and officers even though such action, if successful, might otherwise have benefited the company's stockholders. In addition, a stockholder's investment in the company may be adversely affected to the extent that the company, pursuant to such provisions, pays costs of settlement and damage awards against the company's officers or directors.

Dividend Policy

We have never paid nor declared any cash dividends on our common stock. We do not expect to pay any cash dividends on our common stock in the foreseeable future. Payment of future dividends, if any, will be at the discretion of the Board of Directors and will depend on our financial position, results of operations, capital requirements, restrictions contained in current or future financing instruments, and other factors the Board considers relevant.

Recent Sales of Unregistered Securities

The Company committed 200,000 unregistered securities during the fiscal year ended April 30, 2015. The following presents the purpose for the issuance of unregistered securities:

| Person/Entity | No. of Common Stock | Purpose |
|---------------------------|----------------------------|------------------------------------|
| Board of Directors | 200,000 | Fees for two independent Directors |

Exemption from Registration Claimed

The sale, if any, by the Company of its unregistered securities was made by Registrant in reliance upon Section 4(2) of the Securities Act of 1933, as amended. The corporation, which purchased the unregistered securities, was known to the Company and its management, through pre-existing business relationships. The purchaser was provided access to all material information, which it requested, and all information necessary to verify such information and was afforded access to management of the Company in connection with the purchase. The purchaser of the unregistered securities acquired such securities for investment and not with a view toward distribution acknowledging such intent to the Company. All certificates or agreements representing such securities that were issued contained restrictive legends, prohibiting further transfer of the certificates or agreements representing such securities, without such securities either being first registered or otherwise exempt from registration in any further resale or disposition.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**CAUTIONARY AND FORWARD LOOKING STATEMENTS**

In addition to statements of historical fact, this Form 10-K contains forward-looking statements. The presentation of future aspects of Medina International Holdings, Inc. ("Medina International Holdings, Inc.," "Company" or "issuer") found in these statements is subject to a number of risks and uncertainties that could cause actual results to differ materially from those reflected in such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which reflect management's analysis only as of the date hereof. Without limiting the generality of the foregoing, words such as "may," "will," "expect," "believe," "anticipate," "intend," or "could" or the negative variations thereof or comparable terminology are intended to identify forward-looking statements.

These forward-looking statements are subject to numerous assumptions, risks and uncertainties that may cause the Company's actual results to be

materially different from any future results expressed or implied by Medina International Holdings, Inc. in those statements. Important facts that could prevent Medina International Holdings, Inc. from achieving any stated goals include, but are not limited to, the following:

Some of these risks might include, but are not limited to, the following:

- (a) Volatility or decline of the Company's stock price;*
- (b) Potential fluctuation in quarterly results;*
- (c) Failure of the Company to earn revenues and/or profits;*
- (d) Inadequate capital to continue or expand its business;*
- (e) Inability to raise additional capital or financing to implement its business plans;*
- (f) Failure to achieve a business;*
- (g) Rapid and significant changes in markets;*
- (h) Litigation or legal claims and allegations by outside parties; and*
 - (i) Insufficient revenues to cover operating costs.*

There is no assurance that the Company will be profitable, the Company may not be able to successfully develop, manage or market its products and services, the Company may not be able to attract or retain qualified executives and personnel, the Company's products and services may become obsolete, government regulation may hinder the Company's business, additional dilution in outstanding stock ownership may be incurred due to the issuance of more shares, warrants and stock options, or the exercise of warrants and stock options, and other risks inherent in the Company's businesses.

The Company undertakes no obligation to publicly revise these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the factors described in other documents the Company files from time to time with the Securities and Exchange Commission, including the Quarterly Reports on Form 10-Q and Annual Report on this Form 10-K filed by the Company and any Current Reports on Form 8-K filed by the Company.

Overview

We are in the business of delivering products and services to aid organizations and service personnel who risk their lives to save others. We design, manufacture, test, deliver, and support fire rescue, rescue, and patrol watercrafts (commercial) to increase the effectiveness and efficiency of the mission of our users. Our products are sold to fire, search & rescue, emergency, police, defense, and military departments in the United States and abroad. Fire departments are our largest customers and we rely heavily on government funded departments to achieve sales and continue our operations.

Key Challenges

We face numerous challenges to sustain operations. We have identified some of the challenges we continue to face:

- a) Continuing to expand our customer base both domestically and internationally;
- b) Continuing to meet or exceed customer's price expectations;
- c) Continuing to build brand name both domestically and internationally;
- d) Continuing to provide quality customer support;
- e) Competing with established competitors;
- f) Continuing the development of new products; and
- g) Reducing internal control weaknesses over financial reporting and disclosure.

The main uncertainty about our operations is whether we will continue to receive orders for our commercial products. Our potential customers rely on federal grants or other government budgets to receive funds to purchase equipment. Depending on the size of aid received, service personnel purchase equipment(s) for their

departments. The size of the aid received by these departments creates a demand for our product, in terms of price and features. The timing of the funds cannot be predicted for our prospective international customers. The size of the aid cannot be predicted; hence we will be unable to forecast our outlook for the coming fiscal year.

Strategy

Our strategy is to not only manufacture high quality watercrafts, but also to seek and/or develop innovative products to assist emergency and defense personnel and departments to become more efficient and effective in their mission. In addition, our strategy includes the following:

- a) Capitalize on the demand for commercial and recreational watercrafts;
- b) Build long-term relationships with business partners and stakeholders while providing profitability for our investors;
- c) Develop and expand strategic partnerships;
- d) Identify new products and markets to meet changing customer requirements; and
- e) Retain and provide opportunities for growth for our employees

Results of Operations

The following discussion and analysis is based on our consolidated statements of operations, which reflect our results of operations for the years ended April 30, 2015 and 2014, as prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP").

The following tables present our results of operations for the two years ended April 30, 2015 and 2014, as well as the percentage changes from year to year.

2015 Compared to 2014*Net Sales*

| Revenue | For the Years Ended April 30, | | Dollar Change | Percent Change |
|-----------------|-------------------------------|---------------------|----------------------|----------------------|
| | <u>2015</u> | <u>2014</u> | <u>2015 vs. 2014</u> | <u>2015 vs. 2014</u> |
| Number of Boats | 1 | 5 | (4) | 80% |
| Boat sales, net | \$239,059 | \$ 2,124,657 | \$1,885,598 | 88.75% |
| Total | \$239,059 | \$ 2,124,657 | 1,885,598 | 88.75% |

Our sole source of revenue since our inception is attributable to commercial watercrafts. Our company sold watercraft and parts and earned \$239,059 in revenues for the year ended April 30, 2015 as compared to \$2,124,657 in revenues for the year ended April 30, 2014.

The decrease in sales for the year ended April 30, 2015 of \$1,885,598 or 88.75%, was primarily due to an decrease in watercrafts sales.

Cost of sales

Costs of sales are costs to produce our product and generally consist of direct materials, direct labor and production overhead.

| | For the year ended April 30, | | Dollar Change | Percentage Change |
|---|------------------------------|--------------|---------------------|---------------------|
| | <u>2015</u> | <u>2014</u> | <u>2015 vs 2014</u> | <u>2015 vs 2014</u> |
| Cost of sales | \$258,409 | \$ 1,404,767 | \$(1,146,358) | (81.60)% |
| Gross profit | \$(19,350) | \$ 719,890 | \$ (739,240) | (102.69)% |
| Gross profit as a percentage of net sales | (7.49)% | 51.25% | | |

The decrease in cost of goods sold for the year ended April 30, 2015 of \$1,146,358 or 81.60%, was primarily due to the decrease in sales. Our cost of goods sold comprise of direct material, direct labor, and production overhead which includes depreciation. Decrease in gross profit for the year ended April 30, 2015 of \$739,240 or 102.69% was mainly due to decrease in sales. We include royalty payments for the use of the patents, as part of the production overhead.

General and administrative expenses.

| General and Administrative Expenses | For the year ended April 30, | | Dollar Change | Percentage Change |
|--|------------------------------|-------------|----------------------|----------------------|
| | <u>2015</u> | <u>2014</u> | <u>2015 vs. 2014</u> | <u>2015 vs. 2014</u> |
| General and Administrative Expenses | \$ 376,788 | \$ 580,604 | \$ 203,816 | 35.10% |

General and administrative expenses included, but not limited to:

DESCRIPTION

- a) Professional fees for legal, accounting, consulting, and development activities;
- b) Public company related expenditures;
- c) Stock compensation for services rendered to the Company;
- d) Management salaries

- e) Compensation expenses; and
- f) Payroll taxes

The decrease in general and administrative expenses for the year ended April 30, 2015 of \$203,816 or 35.10%, was mainly due to the decrease in depreciation, designs, licenses, medical, moving, repair, office, postage, professional expense, public relation and insurance expense for the year ended April 30, 2015.

Selling and marketing expenses

| Selling and Marketing Expenses | For the year ended April 30, | | Dollar Change | Percentage Change |

| Selling and Marketing Expenses | \$ 34,303 | \$150,094 | \$ 115,791 | 77.15% |

Selling expenses included:

- a) Commission paid to sales personnel;
- b) Traveling expenses related to sales;
- c) Freight expenses and
- d) Marketing expenditures.
- e) Trade show expenses

The decrease in selling and marketing expenses of \$115,791 or 77.15%, during the year ended April 30, 2015 compared to that for the year ended April 30, 2014, was primarily due to commission on sales and freight associated with sales.

Other Income and Expenses

| Other Income (Expenses) | For the year ended April 30, | | Dollar Change | Percentage Change |
|-------------------------|------------------------------|------------|---------------|-------------------|
| | 2015 | 2014 | 2015 vs. 2014 | 2015 vs. 2014 |

Acquisition Agreement - April 20, 2016

On April 20, 2016, Medina International Holdings, Inc. (the "Company") entered into an Acquisition and Purchase Agreement with Medical Innovation Holdings, a Joint Venture ("MedHold") whereby all of the assets of MedHold would be acquired by the Company from MedHold.

Medical Innovation Holdings, a Joint Venture, is establishing a nationwide, state by state, multi-disciplinary medical specialist provider/practice network, staffed by 16 types of Physician Specialists who serve the rural patient population via a seamless, comprehensive, sophisticated telemedicine program.

Pursuant to the Asset Acquisition Agreement, the closing of the Acquisition was effective April 20, 2016 although completed later.

Per the Acquisition and Purchase Agreement, the following items occurred:

- (1) The Company approved the issuance of 351,000,000 shares of the Company's restricted common stock to MedHold's designees;
- (2) 30 shares of Class A Preferred Convertible Stock (Super Majority Voting) of Medina International Holdings, Inc. from Madhava Rao Mankal and Daniel Medina shall be conveyed for \$100 to MedHold;
- (3) A total of 35,000,000 common shares owned by Madhava Rao Mankal, Daniel Medina and Albert Mardikian, and MGS Grand Sports, Inc. shall be conveyed under separate Share Purchase Agreements to retire to treasury for \$100 each;
- (4) The outstanding notes for legal fees for a total of \$256,025, approximately, plus accrued interest thereon, were assumed and agreed to be paid in accordance with the terms thereof, without defenses or disagreements thereto at the time of closing. Settlement Agreement and Release

Medina International Holdings, Inc. (the "Company") entered into a Settlement Agreement and Release with Chenji Srinivasan Seshadri ("Debtholder") and Harbor Guard Boats, Inc., a California Corporation ("Harbor Guard").

The Agreement compromises, settles and otherwise resolves all claims for common shares, subscriptions, or Notes, or debts, relating to the Company and Debtholder as to any and all claims or causes of action whatsoever against the Company by Debtholder for any matter, action, or representation as the Company, any debt or Note, the subscription, by the subscriber, and other potential claims and causes of action arising from any relationship, agreement, subscription, debt, or Note, or actions of the Company or its management which may be claimed by Debtholder up to the date hereof. The Agreement requires payment of the sum of \$60,000 to effectuate the release.

Divestiture of Harbor Guard Boats, Inc.

On April 20, 2016, the Company entered into an Acquisition Agreement with Daniel Medina and Rao Mankal, whereby they acquired the Harbor Guard Boats, Inc. stock from Medina, by assuming the debt related to Harbor Guard, totaling \$1,819,091, and providing releases of liability for all of such debt, and retiring a total of 35 million

shares of common stock of Medina to the treasury. The Board made a determination that the assets were totally impaired, (which assets were fully impaired on the books) as no significant revenue was generated for over two years from the assets, and the assets had no net value exceeding even a portion of the debt relieved, and the company had no capital for recommencing business and had no sales. Further the debt relief to the company, was significant to allow the

company to recapitalize. Mr. Mankal and Mr. Medina were affiliates and officers and directors and have concurrently tendered their resignations as officers and directors effective with the closing. Two new directors are appointed and the four disinterested directors have approved the divestiture as being in the best interests of the Company, and its shareholders, in conjunction with the new business of the Company in the health care field.

This subsequent event has to be read in conjunction with the 8K filed concurrently here with.

On April 20, 2016 we agreed to an acquisition of the assets and business plan of Medical Innovation Holdings, Joint Venture for 351,000,000 shares and to immediately sell our subsidiary Harbor Guard Boats, Inc. to Mr. Daniel Medina and Madhava Rao Mankal. A definitive Stock Purchase Agreement was closed on April 26, 2016. During our consideration of the terms and further discussion we received \$20,000 cash for payment of certain fees to auditors but no cash for the sale of Harbor Guard Boats, Inc. The principals purchasing the Harbor Guard assets provided the retirement of 35,000,000 shares of common stock of Medina and the assumption and release of a total of \$1,225,192 in liabilities formerly consolidated with the Medina financial statements.

Cash Payment

In the total consideration paid to us for the sale of Harbor Guard Boats Inc. we received no cash. The terms of the sale provided that we receive for payment of Audit fees.

Medina International Holdings, Inc. Liabilities

At the time of the closing Medina International Holdings, Inc. held approximately \$1,819,091 of liabilities. These liabilities included approximately \$23,677 on a line of credit with Wells Fargo Bank and Advanta, \$176,163 of accounts payable, \$478,929 Notes Payable to various parties, and \$1,140,311 to Daniel Medina and Madhava Rao Mankal.

Harbor Guard Boats, Inc. Liabilities

At the time of the closing, Harbor Guard Boats, Inc. held approximately \$1,225,192 of liabilities. These liabilities included approximately \$71,491 on a line of credit with Citi Bank, \$173,264 of accounts payable, \$177,411 of Accrued Payroll Liabilities, \$535,487 of Customer deposit, \$69,020 of notes payable, \$172,519 of shareholders loan and \$26,000 in other liabilities.

Medina International Holdings, Inc.'s outstanding liabilities of accounts payable and promissory notes amounting to \$176,163 (detail this number) and \$256,025 respectively remained on the books of Medina International Holdings, Inc. All other liabilities in the sale of Harbor Guard Boats, Inc., being assumed by the Daniel Medina and Madhava Rao Mankal.

Divestiture Considerations

The terms of the sale did provide us reduction of our overall debt by approximately \$1,386,893, or approximately 76% of our total liabilities. In addition, a future deferred payment of nearly \$432,188 in outstanding notes may further reduce our liabilities by another 24% of our total liabilities if and when paid. In total, the sale of Harbor Guard Boats, Inc. facilitates the reduction of our total liabilities as of the time of this report by approximately 76%.

Harbor Guard Boats, Inc. specialized in developing Rescue and Fire Rescue boats.

In evaluating the offer and sale of Harbor Guard Boats, Inc., we considered many important factors including the current and on going negative cash flow of the operations, the difficulties encountered raising additional working capital in such a condition, including the extremely high cost of such capital, and the additional time and working capital needed to achieve positive cash flow and more favorable operating conditions. In addition to the operating factors, we also considered the approximately \$1,140,311 of Officers payroll liabilities, \$222,904.55 of notes payable relief to various parties, and \$23,677 for additional credit card debt relief included as part of the consideration in the sale of Harbor Guard Boats, Inc. as relevant to our decision.

We believe that the sale of Harbor Guard Boats, Inc. may help shareholder value by allowing the company to refocus on new business.

Going Concern

The Company's auditors have included "going concern" emphasis of matter paragraph in the Audit Report. There is substantial doubt about the ability of the Company to continue as a "going concern." The Company has limited capital, debt in excess of \$3,152,075, minimal other assets, accumulated deficit and a stockholders' deficiency as of April 30, 2015 .

Off-Balance Sheet Arrangements

In accordance with the definition under SEC rules, the following qualify as off-balance sheet arrangements:

- a) Any obligation under certain guarantees or contracts;
- b) A retained or contingent interest in assets transferred to an unconsolidated entity or similar entity or similar arrangement that serves as credit, liquidity, or market risk support to that entity for such assets;

- c) Any obligation under certain derivative instruments; and
- d) Any obligation under a material variable interest held by the registrant in an unconsolidated entity that provides financing, liquidity, market risk, or credit risk support to the registrant, or engages in leasing, hedging, or research and development services with the registrant.

The following will address each of the above items pertaining to the Company.

As of April 30, 2015, we did not have any obligation under certain guarantees or contracts as defined above.

As of April 30, 2015, we did not have any retained or contingent interest in assets as defined above.

As of April 30, 2015, we did not hold derivative financial instruments, as defined by FASB statement No. 133.

Accounting for Derivative Instrument and Hedging Activities, as amended.

As of April 30, 2015, we did not participate in transactions that generate relationships with unconsolidated entities or financial partnerships, such as entities often referred to as structured finance or special purpose entities ("SPEs"), which would have been established for the purpose of facilitating off-balance sheet arrangements or other contractually narrow or limited purposes. As of April 30, 2015, 2014 and 2013, we were not involved in any unconsolidated SPE transactions.

Dividends

We have never paid nor declared any cash dividends on our common stock. We do not expect to pay any cash dividends on our common stock in the foreseeable future. Payment of future dividends, if any, will be at the discretion of the Board of Directors and will depend on our financial position, results of operations, capital requirements, restrictions contained in current or future financing instruments, and other factors the Board considers relevant.

Short Term

On a short-term basis, we have not generated revenues sufficient to cover operations. Based on our Company's prior history, we may continue to have insufficient revenues to satisfy current and recurring liabilities.

Need for Additional Financing

We do not have capital sufficient to meet our cash needs. We will have to seek loans or equity placements to cover such cash needs. No commitments to provide additional funds have been made by the Company's management or other stockholders. Accordingly, there can be no assurance that any additional funds will be available to us to allow us to cover our expenses as they may be incurred.

We will need substantial additional capital to support our continuing operations. We continue to operate at a net loss. We have no committed source for any funds as of the date hereof. No representation is made that any funds will be available when needed. In the event funds cannot be raised when needed, we may not be able to carry out our business plan, may never achieve significant sales, and could fail in business as a result of these uncertainties.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Foreign Currency

The majority of our business is denominated in U.S. dollars and fluctuations in the foreign currency markets will have a minimal effect on our business for the foreseeable future.

Commodity Prices

We are exposed to market risk from changes in commodity prices. The cost of our products could increase and if the prices of fiberglass and/or aluminum increase significantly, it will further decrease our ability to attain profitable operations. We are not involved in any purchase commitments with any of our vendors.

Insurance

We are exposed to several risks, including fire, earthquakes, theft, and key person liabilities. We do not carry any insurance for these risks, other than general liability insurance, which will adversely affect our operations if any of these risks materialize.

ITEM 8. FINANCIAL STATEMENTS

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders of

Medina International Holdings, Inc.

We have audited the accompanying consolidated balance sheet of Medina International Holdings, Inc., and subsidiary as of April 30, 2015 and 2014, and the related consolidated statements of operations and comprehensive loss, stockholders' equity (deficit) and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall consolidated financial statement presentation. We believe that our audit provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of Medina International Holdings, Inc., and subsidiary as of April 30, 2015, and the consolidated results of their operations and their consolidated cash flows for the year ended April 30, 2015 in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company had accumulated deficit of \$8.37 million and a stockholders' deficit of \$ 3.10 million as of April 30, 2015. These conditions raise substantial doubt about its ability to continue as a going concern. Management's plans are also discussed in Note 1 to the consolidated financial statements. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Notes to the Consolidated Financial Statements

April 30, 2015 and 2014

NOTE 1. GENERAL

Medina International Holdings, Inc. ("Company," "Medina," "we," "us," "our") was incorporated in 1998 as Colorado Community Broadcasting, Inc. The Company intended to purchase low power television licenses or stations and planned to broadcast local programming mixed with appropriate national programming. The Company changed the name of the business in 2005 to Medina International Holdings, Inc.

The Company, under its wholly owned subsidiary, Harbor Guard Boats, Inc. plans to manufacture and sell recreational and commercial boats

The Company acquired Modena Sports Design, LLC, as a wholly owned subsidiary of the Company on June 18, 2008. Modena Sports Design, LLC was formed in the State of California in 2003 to produce fire rescue, rescue and recreational boats. Modena Sports Design, LLC reorganized as a California corporation on January 7, 2011 and changed its name to Harbor Guard Boats, Inc.

Going Concern

Recoverability of a major portion of the recorded asset amounts shown in the accompanying balance sheet is dependent upon continued operations of the Company, which in turn is dependent upon the Company's ability to raise additional capital, obtain financing and to succeed in its future operations. The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States, which contemplates continuation of the Company as a going concern. On April 30, 2015, the Company's current liabilities exceeded its current assets by \$3,152,075. Also, the Company's operations generated \$239,059 in revenue during the year ended April 30, 2015 and the Company's accumulated deficit was \$8,368,686.

Management devoted considerable effort during the period ended April 30, 2015 towards management of liabilities and improving operations. Management has taken various steps to revise its operating and financial requirements, and it believes that the above actions will allow the Company to continue its operations through the next fiscal year.

The future success of the Company is likely dependent on its ability to attain additional capital to develop its proposed products and ultimately, upon its ability to attain future profitable operations. There can be no assurance that the Company will be successful in obtaining such financing, or that it will obtain positive cash flow.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Presentation and Consolidation

The accompanying consolidated financial statements of Medina International Holdings, Inc. and its subsidiary were prepared in accordance with generally accepted accounting principles in the United States of America ("GAAP") and include the assets, liabilities, revenues, and expenses of wholly owned subsidiary Harbor Guard Boats, Inc. All intercompany balances and transactions have been eliminated in consolidation.

Use of Estimates

The preparation of our consolidated financial statements in conformity with GAAP requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions are used for, but are not limited to;

- 1) Revenue recognition;
- 2) Allowance for doubtful accounts;
- 3) Inventory costs;
- 4) Asset impairments;
- 5) Depreciable lives of assets;
- 6) Income tax reserves and valuation allowances;
- 7) Fair value of stock options;
- 8) Allocation of direct and indirect cost of sales;
- 9) Contingent liabilities; and
- 10) Warranty liabilities.

Future events and their effects cannot be predicted with certainty; accordingly, our accounting estimates require exercise of judgment. We base our estimates on historical experience, available market information, appropriate valuation methodologies, and on various other assumptions that we believe to be reasonable. We evaluate and update our assumptions and estimates on an ongoing basis and may employ outside experts to assist in our evaluation, when necessary. Actual results could differ materially from these estimates.

Revenue Recognition

Revenue Recognition is recognized when earned. The Company's revenue recognition policies are in compliance with Staff Accounting Bulletin (SAB) 104. Sales revenue is recognized at the date of shipment to customers when a formal arrangement exists, the price is fixed or determinable, the delivery is completed, no other significant obligations of the Company exist and collectability is reasonably assured. Payments received before all of the relevant criteria for revenue recognition are satisfied, are recorded as unearned revenue.

Cash and Cash Equivalents

The Company considers all liquid investments with a maturity of three months or less from the date of purchase that are readily convertible into cash to be cash equivalents. The Company maintains its cash in bank deposit accounts that may exceed federally insured limits. The Company has not experienced any losses in such accounts.

Accounts Receivable

The Company reviews its accounts receivables accounts periodically for collectability and establishes an allowance for doubtful accounts and records bad debt expense when deemed necessary.

Advertising costs

Advertising costs are expensed as incurred. The Company recorded no advertisement costs in 2015 and 2014.

Inventory

We carry our inventories at the lower of their cost or market value. Cost is determined using first-in, first-out ("FIFO") method. Market is determined based on net realizable value. We also provide due consideration to obsolescence, excess quantities, and other factors in evaluating net realizable value.

Fixed Assets

Capital assets are stated at cost. Equipment consisting of molds is estimated at the date of acquisition of Harbor Guard Boats. Depreciation of fixed assets is provided using the straight-line method over the estimated useful lives (3-7 years) of the assets. Expenditures for maintenance and repairs are charged to expense as incurred.

| Property and Equipment | No. of Years |
|----------------------------|--------------|
| Molds | 7 |
| Manufacturing Tools | 5 |
| Computers | 3 |
| Furniture | 3 |
| Office Equipment | 3 |
| Office Phone | 3 |

Long Lived Assets

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), now codified in ASC 350, which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations for a Disposal of a Segment of a Business." The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with ASC 350. ASC 350 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced.

Income Taxes

| | 2015 | 2014 |
|---------------------|-------------|-------------|
| Accumulated Deficit | \$8,368,686 | \$7,717,793 |
| Deferred tax asset | \$2,929,040 | \$2,701,227 |
| Valuation Allowance | \$227,813 | \$15,558 |

Deferred income tax assets and liabilities are computed annually for differences between the financial statements and tax basis of assets and liabilities that will result in taxable or deductible amounts in the future based on enacted laws and rates applicable to the periods in which the differences are expected to affect taxable income (loss). Valuation allowance is established when necessary to reduce deferred tax assets to the amount expected to be realized.

At April 30, 2015 and 2014 the Company had net operating loss carry forwards of approximately \$8,368,686 and \$7,717,793, respectively, which begin to expire in 2034. The deferred tax asset of approximately \$2,929,040 and \$2,701,227 in 2015 and 2014 respectively, created by the net operating losses have been offset by a 100% valuation allowance. The change in the valuation allowance in 2015 and 2014 was \$227,813 and \$15,558.

Comprehensive Loss

Accounting principles generally require that recognized revenue, expenses, gains and losses be included in net income. Certain statements, however, require entities to report specific changes in assets and liabilities, such as unrealized gains and losses on available-for-sale securities, as a separate component of the equity section of the balance sheet. Such items, along with net income, are components of comprehensive income.

Issuance of Shares for Service

The Company accounts for employee and non-employee stock awards under ASC 718, whereby equity instruments issued to employees for services are recorded based on the fair value of the instrument issued and those issued to non-employees are recorded based on the fair value of the consideration received or the fair

value of the equity instrument, whichever is more reliably measurable.

Fair Value of Financial Instruments

FASB ASC 825 requires that the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the statements of financial position for current assets and current liabilities qualifying, as financial instruments are a reasonable estimate of fair value.

Foreign Currency Translations and Hedging

The Company is exposed to foreign currency fluctuations due to international trade. The management does not intend to enter into forward exchange contracts or any derivative financial investments for trading purposes. Management does not currently hedge foreign currency exposure.

Basic and Diluted Net Loss per Share

Net loss per share is calculated in accordance with FASB ASC 105. Basic net loss per share is based upon the weighted average number of common shares outstanding. Diluted net loss per share is based on the assumption that all dilutive convertible shares and stock options were converted or exercised. Dilution is computed by applying the treasury stock method. Under this method, options and warrants are assumed to be exercised at the beginning of the period (or at the time of issuance, if later), and as if funds obtained thereby were used to purchase common stock at the average market price during the period.

Products and Services, Geographic Areas and Major Customers

The Company earns revenue from the sale of recreational and commercial boats. The Company sells its products within United States and abroad. The Company does not separate sales activities into different operating segments and/or geographic areas.

Recently issued accounting pronouncements

In June 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC") 105, "Generally Accepted Accounting Principles" (formerly Statement of Financial Accounting Standards ("SFAS") No. 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles"). ASC 105 establishes the FASB ASC as the single source of authoritative nongovernmental U.S. GAAP. The standard is effective for interim and annual periods ending after September 15, 2011. We adopted the provisions of the standard on September 30, 2011, which did not have a material impact on our financial statements. There were various other accounting standards and interpretations issued in 2011, none of which are expected to have a material impact on the Company's financial position, operations or cash flows.

NOTE 3. RELATED PARTY TRANSACTIONS

The Company has various license agreements with a shareholder allowing its technology to be utilized in the manufacture of its boats. The license agreements typical provide for \$1,500 royalty payment on every boat manufactured by the company except on boats manufactured where Mr. Albert Mardikian's patents are not used.

From time to time, shareholders are involved in funding operations. These funds are provided and collected on as needed basis.

NOTE 4. TRADE RECEIVABLES

At April 30, 2015 and 2014, the Company has provided a reserve in the amount of \$237,718 due to non availability of financial statements of Wintec Protective Systems, Inc. Wintec Protective Systems, Inc. has defaulted the payment of \$237,718 on March 28, 2015 per agreement. Company has sent letter to Wintec Protective Systems, Inc. to pay the amount per settlement agreement.

Entry in Settlement Agreement - Disposition of Subsidiary

On March 28, 2012, ROK Global, PLC ("ROK") entered into a Settlement Agreement and Mutual Release ("the Settlement Agreement") with Medina International Holdings, Inc. ("the Company"), Wintec Protective Systems, Inc. ("Wintec"), Mr. Daniel Medina, and Mr. Madhava Mankal Rao. Mr. Medina and Mankal are officers and directors of the Company.

In 2011, the Company, Wintec and ROK entered into agreements that provided for the Company to provide funding to Wintec and to contribute 3,000,000 shares of its common stock in exchange for 20,400,000 shares of Wintec. As a result of the agreements, Wintec had become the Company's 51% held subsidiary.

The Settlement Agreement provides for the agreements entered into in 2011 to be terminated and cancelled, effective immediately. All parties agree to the termination of the agreements without remedy and resolve each party of any claims or liabilities arising out of such agreements. As a result of the termination, Wintec is no longer a subsidiary of the Company. The Company transferred back to Wintec the 20,400,000 shares of Wintec in exchange for \$1. Wintec transferred 3,000,000 shares of the Company's common stock issued in 2011, in exchange for \$1;

Wintec per agreement to pay to the Company \$237,718 within two years of the date of the Settlement Agreement, which we have reserved at 100% of total receivable due to non availability of financial statements of Wintec Protective Systems, Inc.

3. Mr. Erick Wolf resigned from board of Directors on September 8, 2014 for personal reasons.

Acquisition Agreement - April 20, 2016

On April 20, 2016, Medina International Holdings, Inc. (the "Company") entered into an Acquisition and Purchase Agreement with Medical Innovation Holdings, a Joint Venture ("MedHold") whereby all of the assets of MedHold would be acquired by the Company from MedHold.

Medical Innovation Holdings, a Joint Venture, is establishing a nationwide, state by state, multi-disciplinary medical specialist provider/practice network, staffed by 16 types of Physician Specialists who serve the rural patient population via a seamless, comprehensive, sophisticated telemedicine program.

Pursuant to the Asset Acquisition Agreement, the closing of the Acquisition was effective April 20, 2016 although completed later.

Per the Acquisition and Purchase Agreement, the following items occurred:

- (1) The Company approved the issuance of 351,000,000 shares of the Company's restricted common stock to MedHold's designees;
- (2) 30 shares of Class A Preferred Convertible Stock (Super Majority Voting) of Medina International Holdings, Inc. from Madhava Rao Mankal and Daniel Medina shall be conveyed for \$100 to MedHold;
- (3) A total of 35,000,000 common shares owned by Madhava Rao Mankal, Daniel Medina and Albert Mardikian, and MGS Grand Sports, Inc. shall be conveyed under separate Share Purchase Agreements to retire to treasury for \$100 each;
- (4) The outstanding notes for legal fees for a total of \$256,025, approximately, plus accrued interest thereon, were assumed and agreed to be paid in accordance with the terms thereof, without defenses or disagreements thereto at the time of closing. The outstanding balances due to the auditor (approximately \$20,000, including current quarter review fees) and transfer agent (approximately \$1,600) shall be paid as the earnest money; and

(5) Assignment of the Assets were issued in the form of a Bill of Sale duly executed.

Settlement Agreement and Release

Medina International Holdings, Inc. (the "Company") entered into a Settlement Agreement and Release with Chenji Srinivasan Seshadri ("Debtholder") and Harbor Guard Boats, Inc., a California Corporation ("Harbor Guard").

The Agreement compromises, settles and otherwise resolves all claims for common shares, subscriptions, or Notes, or debts, relating to the Company and Debtholder as to any and all claims or causes of action whatsoever against the Company by Debtholder for any matter, action, or representation as the Company, any debt or Note, the subscription, by the subscriber, and other potential claims and causes of action arising from any relationship, agreement, subscription, debt, or Note, or actions of the Company or its management which may be claimed by Debtholder up to the date hereof. The Agreement requires payment of the sum of \$60,000 to effectuate the release.

Divestiture of Harbor Guard Boats, Inc.

On April 20, 2016, the Company entered into an Acquisition Agreement with Daniel Medina and Rao Mankal, whereby they acquired the Harbor Guard Boats, Inc. stock from Medina, by assuming the debt related to Harbor Guard, totaling \$1,819,091, and providing releases of liability for all of such debt, and retiring a total of 35 million shares of common stock of Medina to the treasury. The Board made a determination that the assets were totally impaired, (which assets were fully impaired on the books) as no significant revenue was generated for over two years from the assets, and the assets had no net value exceeding even a portion of the debt relieved, and the company had no capital for recommencing business and had no sales. Further the debt relief to the company, was significant to allow the company to recapitalize. Mr. Mankal and Mr. Medina were affiliates and officers and directors and have concurrently tendered their resignations as officers and directors effective with the closing. Two new directors are appointed and the four disinterested directors have approved the divestiture as being in the best interests of the Company, and its shareholders, in conjunction with the new business of the Company in the health care field.

This subsequent event has to be read in conjunction with the 8K filed concurrently here with.

On April 20, 2016 we agreed to an acquisition of the assets and business plan of Medical Innovation Holdings, Joint Venture for 351,000,000 shares and to immediately sell our subsidiary Harbor Guard Boats, Inc. to Mr. Daniel Medina and Madhava Rao Mankal. A definitive Stock Purchase Agreement was closed on April 26, 2016 During our consideration of the terms and further discussion we received \$20,000 cash for payment of certain fees to auditors but no cash for the sale of Harbor Guard Boats, Inc. The principals purchasing the Harbor Guard assets provided the retirement of 35,000,000 shares of common stock of Medina and the assumption and release of a total of \$1,225,192 in liabilities formerly consolidated with the medina financial statements.

Cash Payment

In the total consideration paid to us for the sale of Harbor Guard Boats Inc. we received no cash. The terms of the sale provided that we receive for payment of Audit fees.

Medina International Holdings, Inc. Liabilities

At the time of the closing Medina International Holdings, Inc. held approximately \$1,819,091 of liabilities. These liabilities included approximately \$23,677 on a line of credit with Wells Fargo Bank and Advanta, \$176,163 of accounts payable, \$478,929 Notes Payable to various parties, and \$1,140,311 to Daniel Medina and Madhava Rao Mankal.

Harbor Guard Boats, Inc. Liabilities

DESCRIPTION

At the time of the closing, Harbor Guard Boats, Inc. held approximately \$1,225,192 of liabilities. These liabilities included approximately \$71,491 on a line of credit with Citi Bank, \$173,264 of accounts payable, \$177,411 of Accrued Payroll Liabilities, \$535,487 of Customer deposit, \$69,020 of notes payable, \$172,519 of shareholders loan and \$26,000 in other liabilities.

Medina International Holdings, Inc.'s outstanding liabilities of accounts payable and promissory notes amounting to \$176,163 (detail this number) and \$256,025

respectively remained on the books of Medina International Holdings, Inc. All other liabilities in the sale of Harbor Guard Boats, Inc., being assumed by the Daniel Medina and Madhava Rao Mankal.

Divestiture Considerations

The terms of the sale did provide us reduction of our overall debt by approximately \$1,386,893, or approximately 76% of our total liabilities. In addition, a future deferred payment of nearly \$432,188 in outstanding notes may further reduce our liabilities by another 24% of our total liabilities if and when paid. In total, the sale of Harbor Guard Boats, Inc. facilitates the reduction of our total liabilities as of the time of this report by approximately 76%.

Harbor Guard Boats, Inc. specialized in developing Rescue and Fire Rescue boats.

In evaluating the offer and sale of Harbor Guard Boats, Inc.. we considered many important factors including the current and on going negative cash flow of the operations, the difficulties encountered raising additional working capital in such a condition, including the extremely high cost of such capital, and the additional time and working capital needed to achieve positive cash flow and more favorable operating conditions. In addition to the operating factors, we also considered the approximately \$1,140,311 of Officers payroll liabilities, \$222,904.55 of notes payable relief to various parties, and \$23,677 for additional credit card debt relief included as part of the consideration in the sale of Harbor Guard Boats, Inc. as relevant to our decision.

We believe that the sale of Harbor Guard Boats, Inc. may help shareholder value by allowing the company to refocus on new business.

NOTE 18. LITIGATION

As of April 30, 2015, neither the Company nor any member of management was a party to any legal proceedings.

NOTE 19. CONTINGENT LIABILITY

On February 10, 2012, Medina International Holdings, Inc. ("the Company"), its subsidiaries, Modena Sports Design, LLC, which is now Harbor Guard Boats, Inc., its officers and directors, Madhava Rao Mankal and Daniel Medina, entered into a Settlement Agreement and Mutual Release ("the Settlement Agreement") with Albert Mardikian, MGS Grand Sport, Inc., and Mardikian Design and Associates ("the Mardikian Parties").

The Settlement Agreement provides for the Company and Harbor Guard Boats to pay the Mardikian Parties up to \$250,000 starting January 1, 2012, as a contingency payment. The contingency payment is based on the collective sale of the boats manufactured per calendar year using the 24' and 26' mold provided by Mr. Albert Mardikian. If 4 or less boats are manufactured the Company does not have to pay the contingency payment. If 5 or more boats are manufactured using the 24' and 26' mold provided by Mr. Albert Mardikian, the Company shall make payments towards the contingency payment as set forth in the Settlement Agreement. The Company did not manufacture any such boats during the year ended April 30, 2015.

Further, the Settlement Agreement provides for the Company and Harbor Guard Boats to pay off a credit line that Mr. Mardikian is a signatory on totaling \$94,932 and the payments are to be made as set forth in the Settlement Agreement.

Pursuant to the Settlement Agreement, once the contingency payments made by the Company and Harbor Guard Boats total \$250,000 and the credit line has been paid in full, the Mardikian Parties will return to the Company 5,500,000 shares of the Company's common stock held by the Mardikian Parties. We did not sell any boats which meets under this settlement agreement.

ITEM 9. CHANGES IN ACCOUNTANTS AND DISAGREEMENTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

EVALUATION OF INTERNAL AND DISCLOSURE CONTROLS

Management's Annual Report on Disclosures Controls and Procedures

We have adopted and maintain disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) that are designed to ensure that information required to be disclosed in our reports under the Exchange Act, is recorded, processed, summarized and reported within the time periods required under the SEC's rules and forms and that the information is gathered and communicated to our management, including our Chief Executive Officer (Principal Executive Officer) to allow for timely decisions regarding required disclosure.

As required by SEC Rule 15d-15(b), Mr. Daniel Medina, our President and Mr. Madhava Rao Mankal our Chief Financial Officer, carried out an evaluation under the supervision and with the participation of our management, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 15d-14 as of April 30, 2015.

The Company, under the supervision and with the participation of the Company's management, including the Company's Principal Executive Officer and Chief Financial Officer, performed an evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of April 30, 2015. Based on that evaluation, the Principal Executive Officer and Chief Financial Officer concluded that, because of the material weakness in internal control over financial reporting described below, the Company's disclosure controls and procedures were not effective as of April 30, 2015.

ITEM 9(A)T. INTERNAL CONTROLS AND PROCEDURES

Management's Quarterly Report on Internal Control over Financial Reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting for the company in accordance with as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act. Our management conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes those policies and procedures that:

- (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets;
- (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and

DESCRIPTION

(iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations, including the possibility of human error and circumvention by collusion or overriding of controls. Accordingly, even an effective internal control system may not prevent or detect

material misstatements on a timely basis. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions or that the degree of compliance with the policies or procedures may deteriorate.

Management's assessment of the effectiveness of the small business issuer's internal control over financial reporting is as of the year ended April 30, 2015. We believe that internal control over financial reporting is not effective because of the small size of the business and lack of segregation of duties. We have not identified any, current material weaknesses considering the nature and extent of our current operations and any risks or errors in financial reporting under current operations.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Attestation Report of the Registered Public Accounting Firm.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the SEC that permit us to provide only management's report in this annual report.

Changes in Internal Control over Financial Reporting.

We have made no changes in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS AND EXECUTIVE OFFICERS OF THE REGISTRANT AND COMPLIANCE WITH SECTION 16(A)

All directors of the Company hold office until the next annual meeting of the security holders or until their successors have been elected and qualified. The officers of the Company are appointed by the board of directors and hold office until their death, resignation or removal from office.

The Company's directors and executive officers, their ages, and positions held are as follows:

| Name | Age | Position |

| Daniel Medina | 60 | President & Director |
| Madhava Rao Mankal | 64 | Chief Financial Officer & Director |
| Michael J. Gallo | 49 | Director |

John Erich Lewis

57 Director

Our success mainly depends on the performance of Mr. Medina and Mr. Mankal. We do not have "key person" life insurance policies on any of our employees. Our employees, including any member of our management team, may terminate his or her employment with us at any time. Given our early stage of development, we

MICHAEL J. GALLO, Director

Michael "Mike" J. Gallo began his professional career in 1980 as a United States Air Force Officer stationed at the former Norton Air Force Base in San Bernardino, California. He designed and managed a variety of base facility and airfield construction projects and directed mobility deployment forces to establish remote airfields and base operations worldwide. After serving his country, Mike joined TRW Ballistic Missiles Division to support the USAF in the development and deployment of the Peacekeeper and Small ICBM Weapon Systems as manager of the Systems Design and Cost organization. In 1989, Mike served as the Director of Program Control for the TRW Launch Services Organization, supporting commercial access to space initiatives for the emerging global telecommunications satellite industry.

In 1993, Mike co-founded Kelly Space & Technology, Inc., now celebrating over 21 years in business, conducting aerospace research, development and testing at the former Norton Air Force Base, where he oversees the day-to-day operations of the Company and provides leadership to the development and commercialization of the Company's technology. As an inventor and technology developer, Mike has led the implementation of science, technology, engineering and mathematics (STEM) education programs, training initiatives and industry associations designed to strategically drive economic growth.

For over 30 years, Mike has served in top leadership roles for many local business, education, non-profit and community based organizations. In 2010, Mike founded Technical Employment Training, Inc., a non-profit business and education partnership, providing intensive skills training where students earn national industry certifications

within an on-the-job training environment and are placed into high-demand careers.

In November 2011, Mike was elected to the San Bernardino City Unified School District Board of Education where he serves as President, focusing on strengthening our schools to inspire, engage and prepare students for success in college *and* careers. Mike has developed tangible business-education partnerships that provide relevant, exciting, hands-on, applied learning instruction and training as an essential component of effective academic instruction to improve student engagement, academic growth, scholastic achievement and career readiness.

Mike was also appointed by Governor Brown to the California Workforce Investment Board in 2012 where he serves as Chairman of the Career Pathways and Education Committee and member of the Executive Board. Mike is focused on innovation, technology development and aligning Education, Workforce Investment and Economic Development as the passport to prosperity for our communities. Mike believes that it is critical to the future of our Nation to be steadfast in creating a technologically-literate, high-quality, skilled workforce able to meet the occupational demands of a globally-competitive economy.

JOHN ERICH LEWIS, Director

John Erich Lewis has 26 years of experience in management of various aviation operations and government related programs. Employment Agreements

The Company has entered into employment agreements for a five year term, commencing on July 1st, 2008 which expired on June 30, 2013, with each of the key executive officers. Agreements have been extended further period of two years ended April 30, 2015.

Due to the lack of revenues and availability of cash, executive officers have received some of their compensation in the form of Common Stock of the Company and/or have accrued their compensation to be paid when cash is available.

BOARD OF DIRECTORS

Our Board of Directors consists of four (4) individuals, two of whom are officers of the Company. Directors are elected to the Board of Directors for a one (1) year term or until the next shareholders meeting. There are no family relationships among any of our directors, officers or key employees.

The Company's Board of Directors is currently working on establishing the following committees for the following purposes:

1) Audit Committee - Oversees the work of the Company's accounting and internal audit processes. The committee is directly responsible for the appointment, compensation, retention, and oversight of the Company's independent auditors.

2) Compensation Committee - The Compensation Committee stays informed as to market levels of compensation and, based on evaluations, recommends compensation levels and systems to the Board. The Compensation Committee recommends to the Board the compensation of the Chief Executive Officer and

determines the compensation of the other executive officers.

3) Nominating and Corporate Governance Committee - The Governance and Nominating Committee is responsible for recommending to the Board individuals to be nominated as directors. The committee evaluates new candidates and current directors.

Resolution of Conflicts of Interest

Currently, the Company does not have a procedure in place which would allow our officers or directors to resolve potential conflicts in an arms-length fashion. Accordingly, our officers and directors will be required to use their discretion to resolve them in a manner which they consider appropriate.

Further, we do not have a procedure in place with regard to any intellectual property that an officer or director might develop in another business. The policy and the exception is that, if it is related to the business of our company, it belongs to the Company. Although our officers and directors have indicated that they are not involved in any intellectual property development (IP) outside of our company, our position would be that, if it is not related to our company's business, we would not assert any ownership claim to such IP.

We are not aware of any apparent conflict with any other business or venture in which any employee, officer or director may be involved. All of our officers and directors have indicated that they do not have any business interests in any business, suppliers, subcontractor, or sales entity that directly or indirectly competes with our company.

Audit Committee Financial Expert

We currently do not have an audit committee. Our board of directors is currently seeking qualified financial expert and/or members to establish an independent Audit Committee.

Stock Option and Award Plan

We have adopted the 2006 Medina International Holdings, Inc. Stock Option and Compensation Award Plan (the "Plan"), which was approved by the board of directors on August 28, 2006 to obtain and retain the services of the types of employees, consultants and directors who will contribute to the Company's long range success and to provide incentives which are linked directly to increases in share value which will incur to the benefit of all stockholders of the Company.

Under the Plan, 2,000,000 shares of common stock shall be reserved and available for issuance. Stock reserved under the plan may consist, in whole or in part, of authorized and unissued shares of treasury shares. The plan shall be administered by either (i) the Board, or (ii) a committee appointed by the Board.

No options were issued or exercised during the fiscal years ended April 30, 2015 and 2014.

(1) The Company committed to issued 100,000 shares to Mr. Mike Gallo and 100,000 to John Erich Lewis toward services as Directors of the Company for the year ended April 30, 2015, valued at \$3,500. These shares were valued based on the closing market price at the time of accrual.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

Section 16(a) of the Exchange Act, requires our officers and directors, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership of our company equity securities with the SEC and NASDAQ. Officers, directors and greater-than 10% shareholders are required by the SEC regulation to furnish the Company with copies of all Section 16(a) that they file.

The following table sets forth certain information regarding the beneficial ownership of outstanding shares of our common stock as of April 30, 2015, by (a) each person known by us to own beneficially 5% or more of our outstanding shares of common stock, (b) our directors, Principal Executive Officer, Chief Financial Officer and other executive officers named in "MANAGEMENT--Director and Executive Compensation," and (c) all our directors and executive officers as a group.

The percentages are based on 56,090,117 shares of common stock issued and outstanding as of April 30, 2015.

| Name, Address & Nature of Beneficial Owner | Title of Class | Shares | Percent of Class |
|--|-----------------------|-------------------|-------------------------|
| Daniel Medina , Director & President, 191 Kettering Dr., Ontario, CA 91761 | Common Stock | 12,220,667 | 21.79% |
| Madhava Rao Mankal , Director & CFO 191 Kettering Dr., Ontario, CA 91761 | Common Stock | 12,271,667 | 21.88% |

| John Erich Lewis , Director 191 Kettering Dr., Ontario, CA 91761 | Common Stock | 521,250 | 0.93% |
| Albert Mardikian , 45 Goleta Ave, Corona Del Mar, CA 92625 | Common Stock | 11,995,667 | 21.39% |
| Total Officers & Directors, as a group (5 Individuals) | | 37,303,001 | 66.49% |

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

The Company has adopted a policy under which any consulting or finder's fee that may be paid to a third party or affiliate for consulting services to assist management in evaluating a prospective business opportunity would be paid in stock and/or in cash. Any such issuance of stock would be made on an ad hoc basis. Accordingly, the Company is unable to predict whether or in what amount such a stock issuance might be made.

Although there is no current plan in existence, it is possible that the Company will adopt a plan to pay or accrue compensation to its officers and directors for services related to seeking business opportunities and completing a merger or acquisition transaction. Although management has no current plans to cause the Company to do so, it is possible that the Company may enter into an agreement with an acquisition candidate requiring the sale of all or a portion of the Common Stock held by the Company's current stockholders to the acquisition candidate or principals thereof, or to other individuals or business entities, or requiring some other form of payment to the Company's current stockholders, or requiring the future employment of specified officers and payment of salaries to them. It is more likely than not that any sale of securities by the Company's current stockholders to an acquisition candidate would be at a price substantially higher than that originally paid by such stockholders. Any payment to current stockholders in the context of an acquisition involving the Company would be determined entirely by largely unforeseeable terms of a future agreement with an unidentified business entity.

The Company has various license agreements with a shareholder allowing its technology to be utilized in the manufacture of its boats. The license agreements typical provide for \$1,500 royalty payment on every boat manufactured by the company except on boats manufactured where Mr. Albert Mardikian's patents are not used.

The Company has entered into employment agreements for a five year term, commencing on July 1st, 2008 which expired on June 30, 2013, with each of the key executive officers at an annual salary of \$10,000 for each of the key executive for 2014 and 2015. This amount is included in accrued payroll. Due to the lack of revenues and availability of cash, executive officers have received some of their compensation in the form of Common Stock of the Company and/or have accrued their compensation to be paid when cash is available.
