**(A Development Stage Company)**  
**Notes to Financial Statements**  
**September 30, 2006**

**NOTE 1. ORGANIZATION AND DESCRIPTION OF BUSINESS**

Sockeye Seafood Group Inc. ("the Company") was incorporated under the laws of the State of Nevada on May 21, 2003. The Company was formed to engage in the business of procuring and marketing seafood products direct from Pacific Northwest First Nations organizations to North American and International wholesalers, distributors, and retailers. The company has a total of 25,000,000 authorized shares with a par value of \$0.001 per share and with 2,000,000 shares issued and outstanding as of September 30, 2006.

The Company operations have been limited to general administrative operations, purchasing a limited amount of sample inventory, minimal sales and establishing its website. The Company is considered a development stage company in accordance with Statement of Financial Accounting Standards No. 7.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**a. Basis of Accounting**

The Company's financial statements are prepared using the accrual method of accounting. The Company has elected a December 31 year-end.

**b. Basic Earnings per Share**

In February 1997, the FASB issued SFAS No. 128, "Earnings Per Share", which specifies the computation, presentation and disclosure requirements for earnings (loss) per share for entities with publicly held common stock. SFAS No. 128 supersedes the provisions of APB No. 15, and requires the presentation of basic earnings (loss) per share and diluted earnings (loss) per share. The Company has adopted the provisions of SFAS No. 128 effective May 21, 2003 (inception).

Basic net loss per share amounts is computed by dividing the net loss by the weighted average number of common shares outstanding. Diluted earnings per share are the same as basic earnings per share due to the lack of dilutive items in the Company.

**c. Cash Equivalents**

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash equivalents.

**September 30, 2006**

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**d. Use of Estimates and Assumptions**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. In accordance with FASB 16 all adjustments are normal and recurring.

**e. Income Taxes**

Income taxes are provided in accordance with Statement of Financial Accounting Standards No. 109 (SFAS 109), Accounting for Income Taxes. A deferred tax asset or liability is recorded for all temporary differences between financial and tax reporting and net operating loss carryforwards. Deferred tax expense (benefit) results from the net change during the year of deferred tax assets and liabilities.

Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion of all of the deferred tax assets will be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment.

**NEW ACCOUNTING PRONOUNCEMENTS:**

In November 2004, the Financial Accounting Standards Board (FASB) issued SFAS 151, Inventory Costs - an amendment of ARB No. 43, Chapter 4. This Statement amends the guidance in ARB No. 43, Chapter 4, "Inventory Pricing," to clarify the accounting for abnormal amounts of idle facility expense, freight, handling costs, and wasted material (spoilage). Paragraph 5 of ARB 43, Chapter 4, previously stated that "... under some circumstances, items such as idle facility expense, excessive spoilage, double freight, and rehandling costs may be so abnormal as to require treatment as current period charges..." This Statement requires that those items be recognized as current-period charges regardless of whether they meet the criterion of "so abnormal." In addition, this Statement requires that allocation of fixed production overheads to the costs of conversion be based on the normal capacity of the production facilities. This Statement is effective for inventory costs incurred during fiscal years beginning after June 15, 2005. Management does not believe the adoption of this Statement will have any immediate material impact on the Company.

**NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**NEW ACCOUNTING PRONOUNCEMENTS:**

In December 2004, the FASB issued SFAS No. 152, "Accounting for Real Estate Time-Sharing Transactions—an amendment of FASB Statements No. 66 and 67" ("SFAS 152"). The amendments made by Statement 152 amend FASB Statement No. 66, Accounting for Sales of Real Estate, to reference the financial accounting and reporting guidance for real estate time-sharing transactions that is provided in AICPA Statement of Position (SOP) 04-2, Accounting No. 67, Accounting for Costs and Initial Rental Operations of Real Estate Projects, to state that the guidance for (a) incidental operations and (b) costs incurred to sell real estate projects does not apply to real estate time-sharing transactions. The accounting for those operations and costs is subject to the guidance in SOP 04-2. This Statement is effective for financial statements for fiscal years beginning after June 15, 2005, with earlier application encouraged. The Company does not anticipate that the implementation of this standard will have a material impact on its financial position, results of operations or cash flows.

On December 16, 2004, the Financial Accounting Standards Board ("FASB") published Statement of Financial Accounting Standards No. 123 (Revised 2004), Share-Based Payment ("SFAS 123R"). SFAS 123R requires that compensation cost related to share-based payment transactions be recognized in the financial statements. Share-based payment transactions within the scope of SFAS 123R include stock options, restricted stock plans, performance-based awards, stock appreciation rights, and employee share purchase plans. The provisions of SFAS 123R are effective as of the first interim period that begins after June 15, 2005. Accordingly, the Company will implement the revised standard in the third quarter of fiscal year 2005. Currently, the Company accounts for its share-based payment transactions under the provisions of APB 25, which does not necessarily require the recognition of compensation cost in the financial statements. The Company does not anticipate that the implementation of this standard will have a material impact on its financial position, results of operations or cash flows.

On December 16, 2004, FASB issued Statement of Financial Accounting Standards No. 153, Exchanges of Nonmonetary Assets, an amendment of APB Opinion No. 29, Accounting for Nonmonetary transactions ("SFAS 153"). This statement amends APB Opinion 29 to eliminate the exception for nonmonetary exchanges of similar productive assets and replaces it with a general exception of exchanges of nonmonetary assets that do not have commercial substance. Under SFAS 153, if a nonmonetary exchange of similar productive assets meets a commercial-substance criterion and fair value is determinable, the transaction must be accounted for at fair value resulting in recognition of any gain or loss. SFAS 153 is effective for nonmonetary transactions in fiscal periods that begin after June 15, 2005. The Company does not anticipate that the implementation of this standard will have a material impact on its financial position, results of operations or cash flows.

**(A Development Stage Company)**  
**Notes to Financial Statements**  
**September 30, 2006**

**NOTE 3. GOING CONCERN**

The accompanying financial statements are presented on a going concern basis. The Company had limited operations during the period from May 21, 2003 (inception) to September 30, 2006 and generated a net loss of \$15,389. This condition raises substantial doubt about the Company's ability to continue as a going concern. Because the Company is currently in the development stage and has minimal expenses, management believes that the company's current cash of \$8,596 is sufficient to cover the expenses they will incur during the next twelve months in a limited operations scenario or until they raise additional funding.

The Company may seek additional sources of capital through the issuance of debt or equity financing, but there can be no assurance the Company will be successful in accomplishing its objectives.

**NOTE 4. WARRANTS AND OPTIONS**

There are no warrants or options outstanding to acquire any additional shares of common.

**NOTE 5. RELATED PARTY TRANSACTIONS**

At of September 30, 2006, a loan payable in the amount of \$5,900 was due David Knapfel (a related party). As of September 30, 2006, the Company had not established any specific repayment terms and is a non-interest bearing loan.

**NOTE 6. INCOME TAXES**

**As of September 30,**  
**2006**

Deferred tax assets:	
Net operating tax carryforwards	\$ 2,308
Other	-0-
Gross deferred tax assets	2,308
Valuation allowance	(2,308)
Net deferred tax assets	\$ -0-

Realization of deferred tax assets is dependent upon sufficient future taxable income during the period that deductible temporary differences and carryforwards are expected to be available to reduce taxable income. As the achievement of required future taxable income is uncertain, the Company recorded a valuation allowance.

**(A Development Stage Company)**  
**Notes to Financial Statements**  
**September 30, 2006**

**NOTE 7. NET OPERATING LOSSES**

As of September 30, 2006, the Company has a net operating loss carryforwards of approximately \$15,389. Net operating loss carryforward expires twenty years from the date the loss was incurred.

**NOTE 8. STOCK TRANSACTIONS**

Transactions, other than employees' stock issuance, are in accordance with paragraph 8 of SFAS 123. Thus, issuances shall be accounted for based on the fair value of the consideration received. Transactions with employees' stock issuance are in accordance with paragraphs (16-44) of SFAS 123. These issuances shall be accounted for based on the fair value of the consideration received or the fair value of the equity instruments issued, or whichever is more readily determinable.

In May 2003, the company issued a total of 1,000,000 shares of \$0.001 par value common stock as founder's shares to Sheldon Goldberg and David Knappfel, both of whom are officers and directors of our company. Each of these individuals received 500,000 shares. The shares were issued in exchange for cash in the aggregate amount of \$5,000.

In August 2004, the company completed an offering of shares of common stock in accordance with Regulation D, Rule 504 of the Securities Act, and the registration by qualification of the offering in the State of Nevada. The company sold 1,000,000 shares of common stock, par value, at a price of \$0.04 per share to approximately 29 investors. This offering was made in reliance upon an exemption from the registration provisions of the Securities Act of 1933, as amended, in accordance with Regulation D, Rule 504 of the Act. The aggregate offering price for the offering closed in August 2004 was \$40,000, all of which was collected from the offering.

As of September 30, 2006 the Company has 2,000,000 shares of common stock issued and outstanding.

**NOTE 9. STOCKHOLDERS' EQUITY**

The stockholders' equity section of the Company contains the following classes of capital stock as of September 30, 2006:

- Common stock, \$ 0.001 par value: 25,000,000 shares authorized; 2,000,000 shares issued and outstanding.

**NOTE 10. SUBSEQUENT EVENTS**

There have been no subsequent events after September 30, 2006, which are material to operations.

## **ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.**

The following discussion should be read in conjunction with the information contained in the audited financial statements and notes thereto set forth in our Form 10K-SB annual report for the year ended December 31, 2005, which can be found in its entirety on the SEC website at [www.sec.gov](http://www.sec.gov), under our SEC File Number 0-51197.

### **Overview**

We were incorporated in the State of Nevada on May 21, 2003. We provide brokerage and consulting services in connection with the purchase and sale of seafood products between Native American tribes located in the Pacific Northwest area of Canada and regional and international wholesalers, distributors, and retailers. Such seafood products include frozen salmon, frozen groundfish (fish that dwell at or near the bottom the ocean), fresh shellfish, and miscellaneous seafood products. Our brokerage and consulting services include assisting on-site, ensuring the seller has an accredited Canadian Department of Fisheries Buying Station or Plant License, pre-arranging the sale of a catch, arranging escrow services, if required, coordinating equipment and ice for packing and delivery, as well as planning and arranging for truck delivery, when required. We provide such services to either buyers or sellers. We earn revenue by charging our clients a commission equal to a percentage of the sales price of each transaction, which usually ranges from 5% to 7%. We have developed and are currently managing a website at <http://www.sockeyeseafood.com>, on which we inform the public regarding our services, proposed products, quality, quantity and pricing, and provide up-to-the-minute harvest information directly from returning fishing boats.

We are a development stage company. Since our inception, our operations have been limited to general administrative operations, purchasing a limited amount of sample inventory, minimal sales and establishing our website.

### **Plan of Operation**

As of September 30, 2006, the Company has \$8,596 in cash on hand and current liabilities of \$5,900, all consisting of loans payable to related parties. In addition, the Company had \$26,915 in outstanding accounts receivable.

The Company feels it will not be able to satisfy its cash requirements over the next twelve months from its current cash on hand and accounts receivable and will likely be required to seek additional financing.

At this time, the Company plans to fund its financial needs through operating revenues (which cannot be assured) and, if required, through equity private placements of its common stock. The Company currently has no plans, offers or candidates for any such stock sales/offerings and there can be no assurance that the Company will be able to raise funds on terms favorable to the Company, or at all, when needed for operations.

Over the next 12 months, the Company anticipates continuing its efforts to penetrate the Chinese and Japanese markets by utilizing Mr. Goldberg's contacts, providing the Company has sufficient capital.

### **Results of Operations**

#### ***Three Months Ended September 30, 2006 compared to Three Months Ended September 30, 2005***

We had no revenues for the three months ended September 30, 2006 or 2005. For the period from inception on May 21, 2003 to the nine months ended September 30, 2006, we have had total revenues of \$68,434, less cost of goods sold in the amount of \$60,508, for total revenues of \$7,926 since inception.

Total operating costs for the three months ended September 30, 2006 were \$4,340, as compared to total operating costs of \$7,263 for the three months ended September 30, 2005, both mainly attributed to professional fees incurred in connection with the preparation and filing of our periodic reports with the U.S. Securities and Exchange commission.

Net loss for the three months ended September 30, 2006 was \$3,473, or \$0.00 (nil) per share, as compared to a net loss of \$5,370 or \$0.00 (nil) per share, for the three months ended September 30, 2005. We have incurred total net losses of \$15,389 for the period from inception on May 21, 2003 to September 30, 2006.

### **Liquidity and Capital Resources**

At September 30, 2006, our sources of liquidity were \$8,596 in cash in the bank and outstanding accounts receivable for good sold and collectible in the amount of \$26,915.

There were no cash flows from investing or financing activities for the three month period ended September 30, 2006.

Total stockholders' equity was \$29,611 at September 30, 2006.

The Company does not feel that current cash on hand will be sufficient to satisfy cash requirements and, if it is unable to develop and implement a profitable business plan, the Company will be required to seek additional avenues to obtain funds necessary to sustain operations. The Company's auditors have expressed the opinion that in its current state, there is substantial doubt about its ability to continue as a going concern.

In the next 12 months, The Company does not intend to spend any substantial funds on research and development and does not intend to purchase any major equipment.

The Company does not intend to hire any new employees during the ensuing year, unless business operations expand sufficiently to warrant additional staff.

There are no warrants or options outstanding to acquire any additional shares of common stock.

The Company does not anticipate any material commitments for capital expenditures in the near term. The Company is not aware of any trend in its industry or capital resources which may have a negative impact on future income or revenues.

### **Off-Balance Sheet Arrangements**

The Company has no off-balance sheet arrangements or contractual or commercial commitments.

## **ITEM 3. CONTROLS AND PROCEDURES**

### ***Evaluation of Disclosure Controls and Procedures***

Under the supervision and with the participation of our management, including our principal executive officer and the principal financial officer, we have conducted an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of the end of the period covered by this report. Based on this evaluation, our principal executive officer and principal financial officer concluded as of the evaluation date that our disclosure controls and procedures were effective

such that the material information required to be included in our Securities and Exchange Commission reports is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms relating to our company, including any consolidating subsidiaries, and was made known to us by others within those entities, particularly during the period when this report was being prepared.

Additionally, there were no significant changes in our internal controls or in other factors that could significantly affect these controls subsequent to the evaluation date. We have not identified any significant deficiencies or material weaknesses in our internal controls, and therefore there were no corrective actions taken.

## **PART II - OTHER INFORMATION**

### **ITEM 1A. RISK FACTORS**

In addition to the other information set forth in this report, you should carefully consider the risk factors discussed in "Item 6 - Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. These risks have not materially changed and are, therefore, included herein. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.
