HRPT PROPERTIES TRUST

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(dollars in thousands, except per share data)

**Note 1. Basis of Presentation**

The accompanying consolidated financial statements of HRPT Properties Trust and its subsidiaries have been prepared without audit. Certain information and footnote disclosures required by accounting principles generally accepted in the United States, or GAAP, for complete financial statements have been condensed or omitted. We believe the disclosures made are adequate to make the information presented not misleading. However, the accompanying financial statements should be read in conjunction with the financial statements and notes contained in our Annual Report on Form 10-K for the year ended December 31, 2008. In the opinion of management, all adjustments, which include only normal recurring adjustments considered necessary for a fair presentation, have been included. All intercompany transactions and balances between HRPT Properties Trust and its subsidiaries have been eliminated. Operating results for interim periods are not necessarily indicative of the results that may be expected for the full year. Reclassifications have been made to the prior years' financial statements to conform to the current year's presentation. In preparing these condensed consolidated financial statements, we evaluated events that occurred through August 10, 2009, the date of issuance of these condensed consolidated financial statements, for potential recognition or disclosure.

The accompanying consolidated financial statements include our investments in 100% owned subsidiaries. Our investments in 50% or less owned companies over which we can exercise influence, but do not control, are accounted for using the equity method of accounting. All intercompany transactions have been eliminated. We account for our investment in Government Properties Income Trust, or GOV, and Affiliates Insurance Company, or AIC, using the equity method of accounting. Significant influence is present through common representation on the boards of trustees or directors of us and each of GOV and AIC. Our two Managing Trustees are also Managing Trustees of GOV and owners of Reit Management & Research LLC, or RMR, which is the manager of us, GOV and AIC, and each of our trustees is a director of AIC.

In December 2007, the Financial Accounting Standards Board, or FASB, issued Statement of Financial Accounting Standards No. 141(R),

Business Combinations, or SFAS No. 141(R). SFAS No. 141(R) establishes principles and requirements for how the acquirer shall recognize and measure in its financial statements the identifiable assets acquired, liabilities assumed, any noncontrolling interest in the acquiree and goodwill acquired in a business combination. SFAS No. 141(R) is effective for fiscal years beginning after December 15, 2008. We adopted SFAS No. 141(R) on January 1, 2009.

Effective June 30, 2009, we adopted Statement of Financial Accounting Standards No. 165, Subsequent Events, or SFAS 165. SFAS 165 establishes general standards of accounting for and disclosure of events that occur after the balance sheet date, but before the financial statements are issued. It requires the disclosure of the date through which an entity has evaluated subsequent events and the basis for that date, that is, whether that date represents the date the financial statements were issued or were available to be issued.

In June 2009, the FASB issued Statement of Financial Accounting Standards No. 168, The FASB Accounting Standards Codification<sup>TM</sup> and the Hierarchy of Generally Accepted Accounting Principles, a replacement of FASB Statement No. 162, or SFAS 168. SFAS 168 identifies the

## Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

sources of accounting principles and the framework for selecting the principles used in the preparation of financial statements of non-governmental entities that are presented in conformity with GAAP. SFAS 168 is effective for financial statements issued for interim and annual periods ending after September 15, 2009. We do not expect this standard will result in any change to our current accounting practices.

Effective June 30, 2009, we adopted FASB Staff Position No. 107-1 and APB Opinion No. 28-1, or FSP 107-1, that requires disclosures about the fair value of our financial instruments. See Note 6, Fair Value of Financial Instruments for the relevant disclosures.

**Note 2. Securities Held to Maturity**

In March 2009, we purchased \$8,000 of marketable commercial mortgage pass through certificates, or certificates, which are backed by our mortgage notes payable due January 2011, for \$6,760. We classify these certificates as investments held to maturity rather than available for sale or trading because we have the intent and ability to hold these certificates until maturity. These certificates are included in other assets in our condensed consolidated balance sheet as of June 30, 2009. These certificates had an estimated fair market value of \$6,483 as of June 30, 2009. We follow the amortized cost method of accounting for these certificates. Under this method, we amortize the difference between the face value of the certificates and its purchase price to income using the interest method over the expected remaining term of the certificates.

**Note 3. Real Estate Properties**

During the six months ended June 30, 2009, we funded \$21,889 of improvements to our owned properties and we acquired five office properties for \$191,750 and one industrial property for \$34,000, excluding closing costs, using cash on hand and borrowings under our revolving credit facility.

In May 2008, we entered into a series of agreements to sell 48 medical office, clinic and biotech laboratory buildings to Senior Housing Properties Trust, or SNH, for an aggregate purchase price of approximately \$565,000. As of August 10, 2009, we have sold 43 of these properties containing 1,951,000 square feet of space for approximately \$532,434, excluding closing costs, and recognized gains totaling approximately \$206,500. One of the buildings originally included in these agreements with an allocated value of \$3,000 is no longer subject to the agreement for sale. We expect the closings of the remaining four buildings to occur by 2010. We and SNH may mutually agree to accelerate the closings of these acquisitions. In addition, SNH acquired rights of first refusal to purchase from us any of 45 additional buildings (containing approximately 4,598,000 square feet of rental space) that are leased to tenants in medical related businesses which we will continue to own after these transactions.

In June 2008, we also agreed to sell one additional property to a third party for \$15,000, excluding closing costs. We expect the closing of this sale to occur in 2010.

Our obligations to complete the uncompleted sales are subject to various conditions typical of commercial real estate transactions. We can provide no assurance that we will sell any or all of these buildings or that the remaining sales will be completed in 2010 or sooner.

# Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

All properties under contract for sale as of June 30, 2009 are classified as held for sale on our condensed consolidated balance sheet. Results of operations for properties under contract for sale, or sold, as of June 30, 2009 are included in discontinued operations in our condensed consolidated statements of income. Summarized balance sheet and income statement information for properties under contract for sale, or sold, as of June 30, 2009 is as follows:

**Note 4. Equity Investments**

During April 2009, we transferred 29 properties with 3,304,000 square feet of space to our wholly owned subsidiary, GOV, a real estate investment trust that owns properties that are majority leased to government tenants. In June 2009, GOV completed an initial public offering, or IPO, of 11,500,000 GOV common shares (including exercise of an over-allotment option) and became a separate public company. In connection with this transaction, we and GOV entered into a transaction agreement which governs our separation and relationship with GOV. Among other terms, under this agreement GOV acquired rights of first refusal to purchase from us any of 18 additional buildings (containing approximately 2,200,000 square feet of rental space) that are majority leased to government tenants which we continue to own after the GOV IPO. At June 30, 2009, we owned 9,950,000, or 46.4%, of the common shares of beneficial interest of GOV with a carrying value of \$153,088 and a market value based on quoted market prices, of \$204,274 (\$20.53 per share).

Since GOV's IPO, our investment in it has been accounted for using the equity method. Under the equity method, we record our percentage share of net earnings of GOV in our consolidated statements of income. Our percentage share of earnings from GOV totaled \$970 for the period ended June 30, 2009. Prior to its IPO, the operating results and investments of GOV were included in our results of operations and financial position. If we determine there is an other than temporary decline in the fair value of this investment, we would record a charge to earnings.

The following summarized financial data of GOV includes results of operations prior to June 8, 2009 (the date GOV became a separate public company), which are included in our consolidated results of operations when GOV was our wholly owned subsidiary:

As of June 30, 2009, we have invested \$5,074 in AIC, an insurance company that is owned by RMR and other companies to which RMR provides management services. We own 16.67% of the common shares of AIC with a current carrying value of \$4,965. Our investment in AIC is accounted for using the equity method of accounting. We expect to procure some of our insurance from AIC. Under the equity method, we record our percentage share of net earnings from AIC in our consolidated statements of income. Our percentage share of earnings (loss) from AIC totaled (\$109) for the period ended June 30, 2009. If we determine there is another than temporary decline in the fair value of this investment, we would record a charge to earnings. In evaluating the fair value of this investment, we have considered, among other things, the individual assets and liabilities held by AIC, AIC's overall financial condition and earning trends, and the financial condition and prospects for the insurance industry generally. Subsequent to June 30, 2009, we invested an additional \$35 in order to fund our share of certain formation and licensing costs.

**Note 5. Indebtedness**

During the six months ended June 30, 2009, we repurchased and retired \$31,781 of our floating rate senior notes due 2011 for \$24,207, \$49,320 of our 6.95% senior notes due 2012 for \$41,495, \$9,020 of our 6.50% senior notes due 2013 for \$7,261, \$5,345 of our 5.75% senior notes due 2014 for \$4,278, and \$14,000 of our 6.40% senior notes due 2015 for \$11,010 using cash on hand and borrowings under our revolving credit facility. In connection with these transactions, we recognized gains on early extinguishment of debt totaling \$20,686, net of unamortized deferred financing fees and note discounts.

We have a \$750,000 unsecured revolving credit facility that we use for acquisitions, working capital and general business purposes. The interest rate on this facility averaged 1.0% and 3.5% per annum for the six months ended June 30, 2009 and 2008, respectively. As of June 30, 2009, we had \$201,000 outstanding and \$549,000 available under our revolving credit facility.

## Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

In April 2009, GOV entered into a new \$250,000 secured credit facility with a group of commercial banks when it was a wholly owned subsidiary of ours. The \$250,000 proceeds of this credit facility were distributed to us and used to repay amounts outstanding under our existing unsecured revolving credit facility. This secured credit facility was transferred to GOV when its IPO was completed in June 2009 and is no longer our obligation.

Our public debt indentures and credit facility agreement contain a number of financial and other covenants, including a credit facility covenant which limits the amount of aggregate distributions on common shares to 90% of operating cash flow available for shareholder distributions as defined in the credit facility agreement. At June 30, 2009, we believe that we are in compliance with these financial and other covenants.

Senior notes and mortgage notes payable	\$ 2,408,484	\$ 2,103,059	\$ 2,488,918	\$ 1,695,824
Equity investment in GOV	\$ 153,088	\$ 204,274	\$	\$
Marketable pass through certificates	\$ 6,953	\$ 6,483	\$	\$

**Note 8. Earnings per Common Share**

The effect of our convertible preferred shares on income from continuing operations available for common shareholders per share is anti-dilutive for the periods presented.

**Note 9. Segment Information**

As of June 30, 2009, we owned 327 office properties and 185 industrial and other properties, excluding properties classified as held for sale. We account for all of these properties in geographic operating segments for financial reporting purposes based on our method of internal reporting. We define these individual geographic segments as those which currently, or during either of the last two quarters, represent or generate 5% or more of our total square feet, revenues or property net operating income. Property level information by geographic segment and property type, excluding properties held for sale or sold, as of and for the three and six months ended June 30, 2009 and 2008, is as follows:

The table below reconciles our calculation of property net operating income, or NOI, to net income, the most directly comparable financial measure under GAAP reported in our consolidated financial statements for the three and six months ended June 30, 2009 and 2008. We consider NOI to be appropriate supplemental information to net income because it helps both investors and management to understand the operations of our properties. We use NOI internally as a performance measure and believe NOI provides useful information to investors regarding our results of operations because it reflects only those income and expense items that are incurred at the property level. Our management also uses NOI to evaluate individual, regional and company wide property level performance. NOI excludes certain components from net income in order to provide results that are more closely related to our properties' results of operations. NOI does not represent cash generated by operating activities in accordance with GAAP and should not be considered an alternative to net income, net income available for common shareholders or cash flow from operating activities as a measure of financial performance. A reconciliation of NOI to net income for the three and six months ended June 30, 2009 and 2008, is as follows:

For information about our related person transactions, including our transactions with GOV, sales of properties to SNH, our management contracts with RMR, our investment in AIC and the risks which may arise from these related person transactions, please see our Annual Report on Form 10-K for the year ended December 31, 2008 and our other filings made with the SEC, and in particular, the section entitled "Risk Factors" in the Annual Report, the sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" "Related Person Transactions" in the Annual Report and this Quarterly Report on Form 10-Q, and the section entitled "Related Person Transactions and Company Review of Such Transactions" in our Proxy Statement relating to our 2009 Annual Shareholders Meeting, which are available at the SEC website: [www.sec.gov](http://www.sec.gov).

**Note 11. Subsequent Events**

In July 2009, we declared a distribution of \$0.12 per common share, or approximately \$26,800, to be paid on or about August 24, 2009 to shareholders of record on July 24, 2009. We also announced a distribution on our series B preferred shares of \$0.5469 per share, or \$3,828, a distribution on our series C preferred shares of \$0.4453 per share, or \$2,672, and a distribution on our series D preferred shares of \$0.4063 per share, or \$6,167, which we expect to pay on or about August 15, 2009 to our preferred shareholders of record as of August 1, 2009.

As of August 10, 2009, we have an agreement to acquire one property with approximately 521,000 square feet of space for a total purchase price of \$145,500, excluding closing costs. This potential purchase transaction is subject to completion of diligence and other customary conditions; because of these contingencies, we can provide no assurances that we will purchase this property.

**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and tables should be read in conjunction with our consolidated financial statements and notes thereto included in this quarterly report and our Annual Report on Form 10-K for the year ended December 31, 2008.

**OVERVIEW**

We primarily own office and industrial buildings located throughout the United States. We also own approximately 17 million square feet of leased industrial and commercial lands located in Oahu, Hawaii.

***Property Operations***

As of June 30, 2009, 89.1% of our total square feet was leased, compared to 90.9% leased as of June 30, 2008. These results reflect a 1.6 percentage point decrease in occupancy at properties we owned continuously since January 1, 2008. Occupancy data for 2009 and 2008 is as follows (square feet in thousands):

	All Properties (1) As of June 30,		Comparable Properties (2) As of June 30,	
	2009	2008	2009	2008
Total properties	512	489	452	452
Total square feet	65,293	63,438	58,747	58,747
Percent leased (3)	89.1%	90.9%	88.9%	90.5%

(1) Excludes properties sold or under contract for sale as of June 30, 2009.

(2) Based on properties owned continuously since January 1, 2008, and excludes properties sold or under contract for sale as of June 30, 2009.

(3) Percent leased includes (i) space being fitted out for occupancy pursuant to signed leases and (ii) space which is leased, but is not occupied or is being offered for sublease by tenants.

During the three months ended June 30, 2009, we signed lease renewals for 992,000 square feet and new leases for 650,000 square feet, at weighted average rental rates that were 2% below rents previously charged for the same space. Average lease terms for leases signed during the three months ended June 30, 2009 were 7.7 years. Commitments for tenant improvement and leasing costs for leases signed during the three months ended June 30, 2009 totaled \$21.8 million, or \$13.25 per square foot (approximately \$1.72/sq. ft. per year of the lease term).

## Edgar Filing: HRPT PROPERTIES TRUST - Form 10-Q

During the past twelve months, leasing market conditions in the majority of our markets have continued to weaken. The pace of new leasing activity and the leasing of currently vacant space within our portfolio has slowed and completion of newly constructed office properties in certain markets has continued, causing our occupancy to decline. Required landlord funded tenant build outs and leasing commissions payable to tenant brokers for new leases and lease renewals have generally started to increase in certain markets since the second half of 2008. These build out costs and leasing commissions are generally amortized as a reduction of our income during the terms of the affected leases. Also, some tenants and prospective tenants have demonstrated reluctance to enter lease renewals or new leases for extended terms. We believe that some decreases in occupancy and effective rents may further reduce the financial results at some of our currently owned properties. However, there are too many variables for us to reasonably project what the financial impact of market conditions will be on our results for future periods.

Approximately 16.1% of our leased square feet and 17.3% of our rents are included in leases scheduled to expire through December 31, 2010. Lease expirations by year, as of June 30, 2009, are as follows (square feet and dollars in thousands):

Our principal source of funds for our operations is rents from tenants at our properties. ### *Investment Activities*

During the six months ended June 30, 2009, we acquired five office properties with 1,062,000 square feet of space for \$191.8 million, and one industrial property with 645,000 square feet of space for \$34.0 million, excluding closing costs. At the time of acquisition, these properties were 97.4% leased and yielded approximately 10.1% of the aggregate gross purchase price, based on estimated annual net operating income, or NOI, which we define as property GAAP rental income less property operating expenses on the date of closing.

In May 2008, we entered into a series of agreements to sell 48 medical office, clinic and biotech laboratory buildings to SNH for an aggregate purchase price of approximately \$565.0 million. As of August 10, 2009, we have sold 43 of these properties containing 1,951,000 square feet of space for \$532.4 million, excluding closing costs, and recognized gains totaling approximately \$206.5 million. One of the buildings originally included in these agreements with an allocated value of \$3.0 million is no longer subject to the agreement for sale. We expect the closings of the remaining four buildings to occur by 2010. We and SNH may mutually agree to accelerate the closings of these acquisitions.

In June 2008, we also agreed to sell one additional property to a third party for \$15.0 million, excluding closing costs. We expect the closing of this sale to occur in 2010.

Table of Contents

Our obligations to complete the uncompleted sales are subject to various conditions typical of commercial real estate transactions. We can provide no assurance that we will sell any or all of these buildings or that the remaining sales will be completed in 2010 or sooner.

During the six months ended June 30, 2009, we have invested \$5.1 million in AIC, an insurance company that is owned by RMR and other companies to which RMR provides management services. We own 16.67% of the common shares of AIC which has a current carrying value of \$5.0 million.

In March 2009, we purchased \$8.0 million of marketable certificates which are backed by our mortgage notes payable due January 2011, for \$6.8 million. We classify these certificates as investments held to maturity rather than available for sale or trading because we have the intent and ability to hold these certificates until maturity. These certificates are included in other assets in our condensed consolidated balance sheet as of June 30, 2009. These certificates had an estimated fair market value of \$6.5 million as of June 30, 2009.

***Financing Activities***

During the six months ended June 30, 2009, we repurchased 4,050,000 of our common shares for \$14.5 million, including transaction costs, using cash on hand.

During the six months ended June 30, 2009, we repurchased and retired \$31.8 million of our floating rate senior notes due 2011 for \$24.2 million, \$49.3 million of our 6.95% senior notes due 2012 for \$41.5 million, \$9.0 million of our 6.50% senior notes due 2013 for \$7.3 million, \$5.3 million of our 5.75% senior notes due 2014 for \$4.3 million, and \$14.0 million of our 6.40% senior notes due 2015 for \$11.0 million using cash on hand and borrowings under our revolving credit facility. In connection with these transactions, we recognized gains totaling \$20.7 million, net of unamortized deferred financing fees and note discounts.

During April 2009, we transferred 29 properties with 3,304,000 square feet of space to our wholly owned subsidiary, GOV, a real estate investment trust that owns properties that are majority leased to government tenants. Also in April 2009, GOV entered into a new \$250 million secured credit facility with a group of commercial banks. The \$250 million proceeds of this credit facility were distributed to us and used to repay amounts outstanding under our revolving credit facility.

In June 2009, GOV completed an IPO of 11,500,000 GOV common shares (including exercise of an over-allotment option) and became a separate public company. Simultaneous with the closing of the GOV IPO, the \$250 million secured credit facility was transferred to GOV and is no longer our obligation. At June 30, 2009, we owned 9,950,000, or 46.4%, of the common shares of beneficial interest of GOV with a carrying value of \$153.1 million and a market value based on quoted market prices, of \$204.3 million (\$20.53 per share).

*Rental income.* Rental income increased for the three months ended June 30, 2009, compared to the same period in 2008, primarily due to increases in rental income from our Other Markets segment, as described in the segment information footnote to our condensed consolidated financial statements. Rental income from our Other Markets segment increased \$8.0 million, or 7%, primarily because of the acquisition of six properties during 2009 and 51 properties during 2008, partially offset by a decrease in rental income from 29 properties transferred primarily from our Washington DC, Southern California and Other Markets segments to GOV. Rental income includes non-cash straight line rent adjustments totaling \$439,000 in 2009 and \$3.3 million in 2008 and amortization of acquired real estate leases and obligations totaling (\$1.6) million in 2009 and (\$2.4) million in 2008. Rental income also includes lease termination fees totaling \$309,000 in 2009 and \$1.2 million in 2008.

*Total expenses.* The increase in total expenses primarily reflects our acquisition of properties since April 1, 2008. The increase in depreciation and amortization expense also reflects building and tenant improvement costs incurred throughout our portfolio since April 1, 2008. The increase in general and administrative costs reflects our acquisitions of properties plus state franchise tax refunds received in the prior year. Acquisition costs include certain costs related to property acquisitions that we now expense since our adoption of SFAS No. 141(R) in January 2009.

*Gain on early extinguishment of debt.* The gain on early extinguishment of debt in 2009 relates to the repurchase and retirement of \$49.3 million of our 6.95% senior notes due 2012 for \$41.5 million, \$9.0 million of our 6.50% senior notes due 2013 for \$7.3 million, \$5.3 million of our 5.75% senior notes due 2014 for \$4.3 million, and \$14.0 million of our 6.40% senior notes due 2015 for \$11.0 million, net of unamortized deferred financing fees and note discounts.

*Equity in earnings of equity investments.* Equity in earnings of equity investments represents our proportionate share of earnings (loss) from AIC and from GOV since its IPO in June 2009.

*Income from continuing operations.* The increase in income from continuing operations is due primarily to the gain on early extinguishment of debt and income from acquisitions during 2009 and 2008, offset by an increase in depreciation and amortization and a decrease in rents from 29 properties transferred to GOV.

*Income from discontinued operations.* Income from discontinued operations reflects operating results from three office properties sold in 2009, 37 office properties sold during 2008 and properties classified as held for sale as of June 30, 2009.

*Gain on sale of properties.* Net sales proceeds and gain from the sale of three office properties in 2009 were \$50.5 million and \$20.3 million, respectively. Net sales proceeds and gain from the sale of five office properties in 2008 were \$81.8 million and \$40.0 million, respectively.

*Net income and net income available for common shareholders.* The decrease in net income and net income available for common shareholders is due primarily to the decrease in gain on sale of properties, an increase in depreciation and amortization expense, a decrease in rents from properties sold during 2009 and 2008 and a decrease in rents from 29 properties transferred to GOV, offset by the gain on early extinguishment of debt and income from acquisitions in 2009 and 2008. Net income available for common shareholders is net income reduced by preferred distributions.

**LIQUIDITY AND CAPITAL RESOURCES**

***Our Operating Liquidity and Resources***

Our principal source of funds to meet operating expenses, debt service and pay distributions on our common and preferred shares is rental income from our properties. This flow of funds has historically been sufficient to pay operating expenses, debt service and distributions. We believe that our operating cash flow will be sufficient to meet our operating expenses, debt service and distribution payments for the foreseeable future. Our future cash flows from operating activities will depend primarily upon our ability to:

- maintain or improve the occupancy of and the current rent rates at our properties;
- control operating cost increases at our properties; and
- purchase additional properties which produce positive cash flows from operations.

We believe that present leasing market conditions in the majority of areas where our properties are located may result in decreases in occupancies and effective rents, or gross rents less amortization of landlord funded tenant improvements and leasing costs. The continued volatility in energy costs may cause our future operating costs to fluctuate; however, the impact of these fluctuations is expected to be partially offset by the pass-through of operating costs to our tenants pursuant to lease terms. We generally do not purchase turnaround properties or properties which do not generate positive cash flows. Our future purchases of properties which generate positive cash flows can not be accurately projected because such purchases depend upon available opportunities which come to our attention.

Cash flows provided by (used in) operating, investing and financing activities were \$174.6 million, (\$208.4) million and \$56.4 million, respectively, for the six months ended June 30, 2009, and \$165.7 million, (\$159.7) million and \$7.4 million, respectively, for the six months ended June 30, 2008. Changes in all three categories between 2009 and 2008 are primarily related to property acquisitions and sales in 2009 and 2008, repayments and issuances of debt obligations, the repurchase of our common shares and debt securities in 2009, and the reduction in our quarterly common share distribution rate in 2009.

***Our Investment and Financing Liquidity and Resources***

In order to fund acquisitions and to accommodate cash needs that may result from timing differences between our receipt of rents and our desire or need to make distributions or pay operating or capital expenses, we maintain a \$750 million unsecured revolving credit facility with a group of institutional lenders. The credit facility matures on August 22, 2010; subject to certain conditions, at our option, this facility's maturity date can be extended to August 22, 2011 upon our payment of a fee. At June 30, 2009, there was \$201 million outstanding and \$549 million available under our revolving credit facility, and we had cash and cash equivalents of \$38.1 million. We expect to use cash balances, borrowings under our credit facility, proceeds from the sale of properties and net proceeds of offerings of equity or debt securities to fund possible repurchases of our equity and debt securities, continuing operations and future property acquisitions.

When significant amounts are outstanding under our revolving credit facility or as the maturity dates of our revolving credit facility and term debts approach, we explore alternatives for the repayment of amounts due. Such alternatives may include incurring additional debt and issuing new equity securities. We have an effective shelf registration statement that allows us to issue public securities on an expedited basis, but it does not assure that there will be buyers for such securities.

During the last 12 months, capital markets conditions have been challenging. Nevertheless, we believe we will have access to various types of financings, including debt or equity offerings, to fund our future acquisitions and to pay our debts and other obligations as they become due. However, there can be no assurance that we will be able to complete any debt or equity offerings or that our cost of any future public or private financings will be reasonable.

The completion and the costs of our future debt transactions will depend primarily upon market conditions and our credit ratings. We have no control over market conditions. Our credit ratings depend upon evaluations by credit rating agencies of our business practices and plans and, in particular, whether we appear to have the ability to maintain our earnings, to space our debt maturities and to balance our use of debt and equity capital so that our financial performance and leverage ratios afford us flexibility to withstand any reasonably anticipatable adverse changes. We intend to conduct our business activities in a manner which will continue to afford us reasonable access to capital for investment and financing activities.

### Table of Contents

During the six months ended June 30, 2009, we funded improvements to our owned properties totaling \$21.9 million and we purchased five office properties for \$191.8 million, and one industrial property for \$34.0 million, excluding closing costs, using cash on hand and borrowings under our revolving credit facility.

As of August 10, 2009, we have an agreement to acquire one property with approximately 521,000 square feet of space for a total purchase price of \$145.5 million, excluding closing costs. This potential purchase transaction is subject to completion of diligence and other customary conditions; because of these contingencies we can provide no assurances that we will purchase this property.

In May 2008, we entered into a series of agreements to sell 48 medical office, clinic and biotech laboratory buildings to SNH for an aggregate purchase price of approximately \$565.0 million. As of August 10, 2009, we have sold 43 of these properties containing 1,951,000 square feet of space for \$532.4 million, excluding closing costs, and recognized gains totaling approximately \$206.5 million. One of the buildings originally included in these agreements with an allocated value of \$3.0 million is no longer subject to the agreement for sale. We expect the closings of the remaining four buildings to occur by 2010. We and SNH may mutually agree to accelerate the closings of these acquisitions. In addition, SNH acquired rights of first refusal to purchase from us any of 45 additional buildings (containing approximately 4,598,000 square feet of rental space) that are leased to tenants in medical related businesses which we will continue to own after these transactions.

In June 2008, we also agreed to sell one additional property to a third party for \$15.0 million, excluding closing costs. We expect the closing of this sale to occur in 2010.

Our obligations to complete our uncompleted sales are subject to various conditions typical of commercial real estate transactions. We can provide no assurance that we will sell any or all of these buildings or that the remaining sales will be completed in 2010 or sooner.

In January 2009, we announced that our board authorized a buy back program for up to \$100 million of our common shares during 2009. Through June 30, 2009 we purchased 4,050,000 common shares for \$14.5 million, including transaction costs, at an average price of \$3.57 per share. We have not repurchased any additional shares since June 30 through today. Although this repurchase authority has not been rescinded, in view of the recent increases in the trading prices of common shares of REITs, including our common shares, and the continuation of restrictive conditions in the debt markets, it now appears that we may not spend the full authorized amount for common share purchases before the end of 2009, unless capital market conditions change.

During the six months ended June 30, 2009, we have invested \$5.1 million in AIC, an insurance company that is owned by RMR and other companies to which RMR provides management services. We own 16.67% of the common shares of AIC which has a current carrying value of \$5.0 million.

In March 2009, we purchased \$8.0 million of marketable certificates which are backed by our mortgage notes payable due January 2011, for \$6.8 million. We classify these certificates as investments held to maturity rather than available for sale or trading because we have the intent and ability to hold these certificates until maturity. These certificates are included in other assets in our condensed consolidated balance sheet as of June 30, 2009. These certificates had an estimated fair market value of \$6.5 million as of June 30, 2009.

During the six months ended June 30, 2009, we repurchased and retired \$31.8 million of our floating rate senior notes due 2011 for \$24.2 million, \$49.3 million of our 6.95% senior notes due 2012 for \$41.5 million, \$9.0 million of our 6.50% senior notes due 2013 for \$7.3 million, \$5.3 million of our 5.75% senior notes due 2014 for \$4.3 million, and \$14.0 million of our 6.40% senior notes due 2015 for \$11.0 million using cash on hand and borrowings under our revolving credit facility. In connection with these transactions, we recognized gains totaling \$20.7 million, net of unamortized deferred financing fees and note discounts.

### Table of Contents

During April 2009, we transferred 29 properties with 3,304,000 square feet of space to our wholly owned subsidiary, GOV, a real estate investment trust that owns properties that are majority leased to government tenants. Also in April 2009, GOV entered into a new \$250 million secured credit facility with a group of commercial banks. The \$250 million proceeds of this credit facility were distributed to us and used to repay amounts outstanding under our revolving credit facility.

In June 2009, GOV completed an IPO of 11,500,000 GOV common shares (including exercise of an over-allotment option) and became a separate public company. Simultaneous with the closing of the GOV IPO, the \$250 million secured credit facility was transferred to GOV and is no longer our obligation. In connection with this transaction, we and GOV entered into a transaction agreement which governs our separation and relationship with GOV. Among other terms, under this agreement GOV acquired rights of first refusal to purchase from us any of 18 additional buildings (containing approximately 2,200,000 square feet of rental space) that are majority leased to government tenants which we continue to own after the GOV IPO. At June 30, 2009, we owned 9,950,000, or 46.4%, of the common shares of beneficial interest of GOV with a carrying value of \$153.1 million and a market value based on quoted market prices, of \$204.3 million (\$20.53 per share).

During the three and six months ended June 30, 2009 and 2008, cash expenditures made and capitalized for tenant improvements, leasing costs, building improvements and development and redevelopment activities were as follows (amounts in thousands):

(2) Development, redevelopment and other activities generally include non-recurring expenditures or expenditures that we believe increase the value of our existing properties.

***Debt Covenants***

Our principal debt obligations at June 30, 2009 were our unsecured revolving credit facility and our \$2.1 billion of publicly issued unsecured term debt. Our publicly issued debt is governed by an indenture. Our public debt indenture and related supplements and our revolving credit facility agreement contain a number of financial ratio covenants which generally restrict our ability to incur debts, including debts secured by mortgages on our properties, in excess of calculated amounts, require us to maintain a minimum net worth, restrict our ability to make distributions under certain circumstances and require us to maintain other financial ratios. At June 30, 2009, we believe we were in compliance with all of our covenants under our indenture and related supplements and our revolving credit facility agreement.

In addition to our unsecured debt obligations, we have \$443.9 million of mortgage notes outstanding at June 30, 2009.

None of our indenture and related supplements, our revolving credit facility or our mortgage notes contain provisions for acceleration or require us to provide collateral security which could be triggered by our debt ratings. However, our senior debt rating is used to determine the interest rate and the fees payable under our revolving credit facility.

Our public debt indenture and related supplements contain cross default provisions to any other debts of \$20.0 million or more. Similarly, our revolving credit facility contains cross default provisions.

***Related Person Transactions***

In May 2008, we entered into a series of agreements to sell 48 medical office, clinic and biotech laboratory buildings to SNH for an aggregate purchase price of approximately \$565.0 million. As of August 10, 2009, we have sold 43 of these properties containing 1,951,000 square feet of space for \$532.4 million, excluding closing costs, and recognized gains totaling approximately \$206.5 million. One of the buildings originally included in these agreements with an allocated value of \$3.0 million is no longer subject to the agreement for sale. We expect the closings of the remaining four buildings to occur by 2010. We and SNH may mutually agree to accelerate the closings of these acquisitions. Our obligations to complete the remaining sales to SNH are subject to various conditions typical of commercial real estate transactions. We can provide no assurance that we will sell any or all of these buildings or that the remaining sales will be completed in 2010 or sooner. In addition, SNH acquired rights of first refusal to purchase from us any of 45 additional buildings (containing approximately 4,598,000 square feet of rental space) that are leased to tenants in medical related businesses which we will continue to own after these transactions. SNH was formerly our subsidiary; both we and SNH are managed by RMR; Barry Portnoy and Adam Portnoy are Managing Trustees of both us and SNH; and Frederick N. Zeytoonjian is an Independent Trustee of both us and SNH. The terms of these transactions between us and SNH were negotiated by special committees of our and SNH's boards of trustees composed solely of Independent Trustees who are not Independent Trustees of both companies.

During the six months ended June 30, 2009, we have invested \$5.1 million in AIC, an insurance company that is owned by RMR and other companies to which RMR provides management services. We own 16.67% of the common shares of AIC which has a current carrying value of \$5.0 million.

During April 2009, we transferred 29 properties with 3,304,000 square feet of space to our wholly owned subsidiary, GOV, a real estate investment trust that owns properties that are majority leased to government tenants. Also in April 2009, GOV entered a new \$250 million secured credit facility with a group of commercial banks. The \$250 million proceeds of this credit facility were distributed to us and used to repay amounts outstanding under our revolving credit facility.

In June 2009, GOV completed an IPO of 11,500,000 GOV common shares (including exercise of an over-allotment option) and became a separate public company. Simultaneous with the closing of the GOV IPO, the \$250 million secured credit facility was transferred to GOV and is no longer our obligation. In connection with this transaction, we and GOV entered a transaction agreement which governs our separation and relationship with GOV. Among other terms, under this agreement GOV acquired rights of first refusal to purchase from us any of 18 additional buildings (containing approximately 2,200,000 square feet of rental space) that are majority leased to government tenants which we continue to own after the GOV IPO. At June 30, 2009, we owned 9,950,000, or 46.4%, of the common shares of beneficial interest of GOV with a carrying value of \$153.1 million and a market value based on quoted market prices, of \$204.3 million. Both we and GOV are managed by RMR and Barry Portnoy and Adam Portnoy are Managing Trustees of both us and GOV.

For more information about our related person transactions, including our transactions with GOV, our sales of properties to SNH, our management contracts with RMR, our investment in AIC and the risks which may arise from these related person transactions, please see our Annual Report on Form 10-K for the year ended December 31, 2008 and our other filings made with the SEC, and in particular, the section entitled "Risk Factors" in the Annual Report, the sections entitled "Management's Discussion and Analysis of Financial Condition and Results of Operations" "Related Person Transactions" in the Annual Report and this Quarterly Report on Form 10-Q, and the section entitled "Related Person Transactions and Company Review of Such Transactions" in our Proxy Statement relating to our 2009 Annual Shareholders Meeting, which are available at the SEC website: [www.sec.gov](http://www.sec.gov).

[Table of Contents](#)**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

We are exposed to risks associated with market changes in interest rates. We manage our exposure to this market risk by monitoring available financing alternatives. Our strategy to manage exposure to changes in interest rates is unchanged from December 31, 2008. Other than as described below, we do not foresee any significant changes in our exposure to fluctuations in interest rates or in how we manage this exposure in the near future.

At June 30, 2009, our total outstanding fixed rate term debt consisted of the following fixed rate notes:

Amount	Coupon	Maturity
<b>Unsecured senior notes:</b>		
\$30.0 million	8.875%	2010
\$20.0 million	8.625%	2010
\$150.7 million	6.950%	2012
\$191.0 million	6.500%	2013
\$244.7 million	5.750%	2014
\$186.0 million	6.400%	2015
\$250.0 million	5.750%	2015
\$400.0 million	6.250%	2016
\$250.0 million	6.250%	2017
\$250.0 million	6.650%	2018

No principal repayments are due under the unsecured senior notes until maturity.

<b>Secured notes:</b>		
\$232.7 million	6.814%	2011
\$30.2 million	7.435%	2011
\$24.2 million	8.050%	2012
\$5.0 million	6.000%	2012
\$13.3 million	4.950%	2014
\$8.6 million	5.760%	2016
\$41.6 million	6.030%	2016
\$12.8 million	7.360%	2016
\$4.7 million	6.750%	2022
\$15.5 million	6.140%	2023
\$8.9 million	5.710%	2026
\$14.0 million	6.060%	2027
\$39.9 million	6.794%	2029

Our secured notes are secured by 27 of our properties and require principal and interest payments through maturity pursuant to amortization schedules.

Because these notes bear interest at fixed rates, changes in market interest rates during the term of this debt will not affect our operating results. If all of our fixed rate unsecured and secured notes outstanding at June 30, 2009, were to be refinanced at interest rates which are 10% higher or lower than shown above, our per annum interest cost would increase or decrease, respectively, by approximately \$15.5 million.

Changes in market interest rates also affect the fair value of our fixed rate debt obligations; increases in market interest rates decrease the fair value of our fixed rate debt, while decreases in market interest rates increase the value of our fixed rate debt. Based on the balances outstanding at June 30, 2009, and discounted cash flow analyses, a hypothetical immediate 10% change in interest rates would change the fair value of our fixed rate debt obligations by approximately \$85 million.

Table of Contents

Each of our fixed rate unsecured and secured debt arrangements allows us to make repayments earlier than the stated maturity date. In some cases, we are not allowed to make early repayment prior to a cutoff date and in most cases we are allowed to make prepayments only at a premium equal to a make whole amount, as defined, generally designed to preserve a stated yield through maturity to the note holder. These prepayment rights may afford us the opportunity to mitigate the risk of refinancing at maturity at higher rates by refinancing prior to maturity. The majority of our fixed rate senior notes are publicly traded; and we may occasionally take advantage of market opportunities to repurchase notes which will also mitigate future refinancing risks.

At June 30, 2009, we had \$201 million outstanding and \$549 million available for drawing under our unsecured revolving credit facility and \$168.2 million outstanding on our floating rate senior notes. Our revolving credit facility and floating rate senior notes mature in August 2010 and March 2011, respectively. Repayments under our revolving credit facility may be made at any time without penalty. Repayments under our floating rate senior notes may also be made without penalty. We borrow in U.S. dollars and borrowings under our revolving credit facility and our floating rate senior notes require interest at LIBOR plus a premium. Accordingly, we are vulnerable to changes in U.S. dollar based short term rates, specifically LIBOR. For example, the weighted average interest rate payable on our revolver and floating rate senior notes was 1.6% during the six months ended June 30, 2009. A change in interest rates would not affect the value of these floating rate debts but would affect our operating results. The following table presents the impact a 10% change in interest rates would have on our floating rate interest expense as of June 30, 2009 (dollars in thousands):

Impact of Changes in Interest Rates			Total Interest Expense	
	Interest Rate Per Year	Outstanding Debt		Per Year
At June 30, 2009	1.6%	\$ 369,219	\$	5,908
10% reduction	1.4%	\$ 369,219	\$	5,169
10% increase	1.8%	\$ 369,219	\$	6,646

The foregoing table shows the impact of an immediate change in floating interest rates. If interest rates were to change gradually over time, the impact would be spread over time. Our exposure to fluctuations in floating interest rates will increase or decrease in the future with increases or decreases in the outstanding amount of our revolving credit facility or other floating rate debt.

**Item 4. Controls and Procedures**

As of the end of the period covered by this report, our management carried out an evaluation, under the supervision and with the participation of our Managing Trustees, President and Chief Investment Officer and Treasurer and Chief Financial Officer of the effectiveness of our disclosure controls and procedures pursuant to the Securities Exchange Act of 1934, as amended, or the Exchange Act, Rules 13a-15 and 15d-15. Based upon that evaluation, our Managing Trustees, President and Chief Investment Officer and Treasurer and Chief Financial Officer concluded that our disclosure controls and procedures are effective.

There have been no changes in our internal control over financial reporting during the quarter ended June 30, 2009, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

IN OUR DISCRETION, WE MAY ACCELERATE, DELAY, DISCONTINUE OR RESTART MAKING SUCH PURCHASES AT ANY TIME.**

**THESE RESULTS COULD OCCUR DUE TO MANY DIFFERENT REASONS, SOME OF WHICH, SUCH AS CHANGES IN OUR TENANTS' FINANCIAL CONDITIONS OR NEEDS FOR LEASED SPACE, OR CHANGES IN THE CAPITAL MARKETS OR THE ECONOMY GENERALLY, ARE BEYOND OUR CONTROL.**
