ITEM 2: MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

The Company is including the following cautionary statement to make applicable and take advantage of the safe harbor provision of the Private Securities Litigation Reform Act of 1995 for any forward-looking statements made by, or on behalf of, the Company. This quarterly report on form 10QSB contains forward-looking statements. Forward-looking statements include statements concerning plans, objectives, goals, strategies, expectations, future events or performance and underlying assumptions and other statements which are other than statements of historical facts. Certain statements contained herein are forward-looking statements and, accordingly, involve risks and uncertainties which could cause actual results or outcomes to differ materially from third parties, but there can be no assurance that management's expectations, beliefs or projections will result of be achieved or accomplished. In addition to other factors and matters discussed elsewhere herein, the following are important factors that, in the view of the Company, could cause actual results to differ materially from those discussed in the forward-looking statements: the ability of the Company to respond to changes in the information system environment, competition, the availability of financing, and, if available, on terms and conditions acceptable to the Company, and the availability of personnel in the future.

PLAN OF OPERATION

The Company's business strategy for the next twelve months includes focused acquisitions and drilling operations which may be curtailed, delayed or cancelled as a result of a variety of factors, including unexpected drilling conditions, pressure or irregularities in formations, equipment failures or accidents, weather conditions and shortages or delays in equipment delivery. The Company has drilled two gas wells that will produce commercially viable gas resources once the appropriate infrastructure (i.e., pipeline) is in place. The Company plans on implementing its drilling plan and being recognizing revenues during the fiscal year 2004. The Company also plans to continue to increase production on the Louisiana project in the second quarter.

LIQUIDITY AND CAPITAL RESOURCES

The Company realized its first ever revenue during the first quarter ended March 31, 2004 in the amount of \$39, 063 from oil and gas sales. The Company is currently working to raise development capital to increase production and anticipates it will be successful in raising the funds necessary to complete work in progress.

CURRENT LIABILITIES

Edgar Filing: POWDER RIVER BASIN GAS CORP - Form 10QSB

On March 31, 2004 the Company had approximately \$604, 800 in current liabilities. Of this amount approximately \$531, 400 is related to the purchase of leasehold interests and related expenses incurred by the Company. The current accounts payable include payments to auditors, accounting and legal as well as start up costs. The accrued expenses include accumulated interest on the outstanding notes owed by the Company.

NEED FOR ADDITIONAL FINANCING FOR GROWTH

The growth of the Company's business will require substantial capital on a continuing basis, and there is no assurance that any such required additional capital will be available on satisfactory terms and conditions, if at all. The Company may pursue, from time to time, opportunities to acquire oil and natural gas properties and businesses that may utilize the capital currently expected to be available for its present operations. The amount and timing of the Company's future capital requirements, if any, may depend upon a number of factors, including drilling, transportation, and equipment costs, marketing expenses, staffing levels, competitive conditions, and purchases or dispositions of assets, many of which are not in the Company's control. Failure to obtain any required additional financing could materially adversely affect the growth, cash flow and earnings of the Company. In addition, the Company's pursuit of additional capital could result in the incurrence of additional debt or potentially dilutive issuances of equity securities.

The Company's ability to meet any future debt service will be dependant upon the Company's future performance, which will be subject to oil and natural gas prices, the Company's level of production, general economic conditions and financial, business and other factors affecting the operations of the Company, many of which are beyond its control. There can be no assurance that the Company's future performance will not be adversely affected by such changes in oil and natural gas prices and / or production nor by such economic conditions and / or financial, business and other factors. In addition, there can be no assurance that the Company's business will generate sufficient cash flow from operations or that future bank credit will be available in an amount to enable the Company to service its indebtedness or make necessary expenditures. In such event, the Company would be required to obtain such financing from the sale of equity securities or other debt financing. There can be no assurance that any such financing will be available on terms acceptable to the Company. Should sufficient capital not be available, the Company may not be able to continue to implement its business strategy.

PART II: OTHER INFORMATION

ITEM 1: LEGAL PROCEEDINGS

The Company has an outstanding judgment of which the management was unaware was outstanding on take-over of the Company. The judgment is approximately \$100, 000 and a settlement agreement is currently trying to be negotiated by the Company.

ITEM 2: CHANGES IN SECURITIES

The Company effected the following transactions in reliance upon exemptions from registration under the Securities Act of 1933 as amended (the "Act") as provided in Section 4(2) thereof. Each certificate issued for unregistered securities contained a legend stating that the securities have not yet been registered under the Act and setting forth the restrictions on the transferability and the sale of the securities. No underwriter

Edgar Filing: POWDER RIVER BASIN GAS CORP - Form 10QSB

participated in, nor were any commissions or fees paid to any underwriter in connection with any of these transactions. None of the transactions involved a public offering. The Company believes that each person had knowledge and experience in financial and business matters which allowed them to evaluate the merits and risks of its securities; and that each person was knowledgeable about its operations and financial condition.

In February 2004 the Company issued 3,640,856 shares of its common stock to satisfy a previously negotiated convertible debenture.
