FOR IMMEDIATE RELEASE

**Matav to Delist Voluntarily from NASDAQ and
Terminate ADR Program**

NETANYA, Israel February 22, 2006 Matav-Cable Systems Media Ltd. (NASDAQ & TASE: MATV) announced today that it intends to delist voluntarily from the Nasdaq National Market and to terminate its American Depositary Receipt (ADR) program, both expected to take effect by the end of March 2006. Concurrently with delisting from Nasdaq, Matav intends to file a Form 15 with the U.S. Securities and Exchange Commission (SEC) to terminate the registration of its ADRs and Ordinary Shares, thereby suspending its obligation to file annual and other reports with the SEC. At that time, Matav will begin to make public reports in accordance with the Israeli securities laws and regulations applicable to companies whose shares are traded solely on the Tel Aviv Stock Exchange (TASE).

On February 24, 2005, Matav initially announced its intention to delist voluntarily from the Nasdaq National Market and to terminate its ADR program. However, the implementation of this decision was subsequently delayed, as announced by Matav on May 26, 2005.

Matav's plan to delist from Nasdaq and deregister its ADRs was made after careful consideration of various factors, including the following:

the limited number of Matav's U.S. holders of record;

the low trade volume of Matav's shares on Nasdaq and the fact that the vast majority of Matav's shareholders have chosen to trade the shares on the TASE;

the high costs associated with being a "reporting company" under the U.S. securities laws, including costs arising from compliance with the provisions of the Sarbanes-Oxley Act of 2002 and Nasdaq rules; and

Matav's shares will continue to trade on the TASE and Matav shall continue to make public reports in accordance with the Israeli securities laws and regulations.

Additional details of the delisting, including the relevant dates and information to holders of ADRs, are expected to be announced shortly.
