SECTION 1 - REGISTRANT'S BUSINESS AND OPERATIONS

Edgar Filing: URANIUM ENERGY CORP - Form 8-K

Item 1.01 - Entry into a Material Definitive Agreement.

In furtherance of Uranium Energy Corp.'s (the "Company") Current Report on Form 8-K dated October 13, 2009 (the "Current Report"), the Company has now entered into a definitive Asset Purchase Agreement (the "APA") with, among other parties, Everest Exploration, Inc. (the "Vendor"), to purchase substantially all of the assets of the Vendor including its 1% interest in the South Texas Mining Venture, L.L.P. ("STMV"), a Texas limited liability partnership (collectively, the "EEI Acquisition").

As set forth in the referenced Current Report, on October 13, 2009 the

Company entered into a Securities Purchase Agreement (the "SPA") with URN Resources Inc. ("URN"), a subsidiary of Uranium One Inc., to acquire all of its 99% interest in STMV (the "URN Acquisition").

Under the terms of the APA the Company has agreed, in part, to issue 200,000 shares of its common stock and to make a total cash payment of \$1,000,000 to the Vendor to be used, in part, for reclamation work to be performed by the Vendor and, subsequent to final closing, the Company, for final reclamation on two properties previously mined and restored by the Vendor. The closing of the EEI Acquisition is subject to a number of conditions including, among other things, the prior approval of the Vendor's shareholders and the receipt by both parties of certain consents and releases at closing.

Under the terms of the SPA the Company agreed to issue 2,500,000 shares of its common stock to URN to make the URN Acquisition. The closing of the URN Acquisition is subject to a number of conditions including, among other things, the receipt by both parties of certain consents and releases at closing.

The assets of STMV include the fully licensed and permitted Hobson ISR Processing Plant ("Hobson"), the La Palangana Uranium Project ("Palangana"), which is at an advanced stage of permitting, and a portfolio of exploration-stage properties located in South Texas. The Hobson facility is expected to form the basis of a new regional operating strategy for the Company's projects in South Texas. The Company anticipates that its Goliad and Nichols, and, after final closing, Palangana projects, will now become satellite ISR operations, with loaded resins being transported to Hobson for further processing into dried U_3O_8 (commonly known as yellowcake).

As a result of the acquisition of STMV, the Company's Texas land position will now include five additional properties, all with recognized uranium mineralization, and which lie within approximately 100 miles of the licensed Hobson facility. The STMV acquisition will also include significant data files that document decades of South Texas-focused uranium exploration and mining.

SECTION 9 - FINANCIAL STATEMENTS AND EXHIBITS

Item 9.01 Financial Statements and Exhibits.

(a) Financial Statements of Business Acquired.

Not applicable.

(b) Pro forma Financial Information

.
