Part I

Item 1. Financial Information

The information furnished in our accompanying consolidated balance sheets, consolidated statements of operations and consolidated statements of cash flows reflects all adjustments which are, in our opinion, necessary for a fair presentation of the aforementioned financial statements for the interim periods.

The financial statements should be read in conjunction with the notes to the financial statements and Management's Discussion and Analysis of Financial Condition and Results of Operations. The results of operations for the six months ended June 30, 2004 are not necessarily indicative of the operating results to be expected for the full year.

CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

(1) Description of Business and Summary of Significant Accounting Policies

(a) Business

We are a fully integrated, self-administered and self-managed publicly traded real estate investment trust ("REIT"). We focus on the acquisition, development, ownership and operation of office properties, located primarily in selected suburban markets across the United States. Based on property operating income, our most significant markets include Northern California, the Washington, D.C. metropolitan area, Southern California and Seattle.

In December 2003, our Board of Directors approved a plan to restructure the manner in which we hold our assets by converting to what is commonly referred to as an umbrella partnership REIT, or UPREIT, structure. On June 30, 2004, we contributed substantially all of our assets to CarrAmerica Realty Operating Partnership, L.P. in exchange for units of common and preferred partnership interest in CarrAmerica Realty Operating Partnership, L.P. CarrAmerica Realty Operating Partnership, L.P. assumed substantially all of our liabilities. Since the UPREIT restructuring, substantially all of our business is being conducted through the CarrAmerica Realty Operating Partnership, L.P. and our primary asset is our interest in the CarrAmerica Realty Operating Partnership, L.P.

(b) Basis of Presentation

The financial statements have been prepared using the accounting policies described in our 2003 annual report on Form 10-K.

Our accounts and those of our controlled subsidiaries and affiliates are consolidated in the financial statements. We consolidate all entities in which we own a direct or indirect majority voting interest and where the minority holders do not have rights to participate in significant decisions that are made in the ordinary course of business. If applicable, we would consolidate any variable interest entity of which we are the primary beneficiary. We use the equity or cost methods, as appropriate in the circumstances, to account for our investments in and our share of the earnings or losses of unconsolidated entities. These entities are not controlled by us. If events or changes in circumstances indicate that the fair value of an investment accounted for using the equity method or cost method has declined below its carrying value and we consider the decline to be other than temporary, the investment is written down to fair value and an impairment loss is recognized.

Management has made a number of estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses in the financial statements, and the disclosure of contingent assets and liabilities. Estimates are required in order for us to prepare our financial statements in conformity with accounting principles generally accepted in the United States of America. Significant estimates are required in a number of areas, including evaluating the impairment of long-lived assets and investments, allocating the purchase cost of acquired properties, assessing our probable liability under lease guarantees for HQ Global Workplaces, Inc. (HQ Global) and evaluating the collectibility of accounts receivable. Actual results could differ from these estimates.

(c) Interim Financial Statements

The financial statements reflect all adjustments, which are, in our opinion, necessary to reflect a fair presentation of the results for the interim periods, and all adjustments are of a normal, recurring nature.

Table of Contents**CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(d) Earnings Per Share

The following table sets forth information relating to the computations of our basic and diluted earnings per share (EPS) from continuing operations:

(In thousands, except per share amounts)	Three Months Ended			Three Months Ended		
	June 30, 2004			June 30, 2003		
	Earnings (Numerator)	Shares (Denominator)	Per Share Amount	Earnings (Numerator)	Shares (Denominator)	Per Share Amount
Basic EPS	\$ 8,559	54,012	\$ 0.16	\$ 9,496	51,712	\$ 0.18
Stock options		327			438	
Diluted EPS	\$ 8,559	54,339	\$ 0.16	\$ 9,496	52,150	\$ 0.18

(In thousands, except per share amounts)	Six Months Ended			Six Months Ended		
	June 30, 2004			June 30, 2003		
	Earnings (Numerator)	Shares (Denominator)	Per Share Amount	Earnings (Numerator)	Shares (Denominator)	Per Share Amount
Basic EPS	\$ 17,848	53,818	\$ 0.33	\$ 18,423	51,661	\$ 0.36
Stock options		454			365	
Diluted EPS	\$ 17,848	54,272	\$ 0.33	\$ 18,423	52,026	\$ 0.36

Income from continuing operations is reconciled to earnings available to common shareholders as follows:

(In thousands)

Three Months Ended
June 30,

Six Months Ended
June 30,

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

	2004	2003	2004	2003
Income from continuing operations	\$ 12,497	\$ 13,945	\$ 25,725	\$ 30,004
Dividends on preferred stock	(3,774)	(4,327)	(7,548)	(9,552)
Dividends on unvested restricted stock	(164)	(98)	(329)	(306)
Issuance costs of redeemed preferred stock		(24)		(1,723)
Earnings available to common shareholders	\$ 8,559	\$ 9,496	\$ 17,848	\$ 18,423

On July 31, 2003, the Securities and Exchange Commission (SEC) issued a clarification of Emerging Issues Task Force Topic D-42, "The Effect on the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock." Topic D-42 provides, among other things, that any excess of the fair value of the consideration transferred to the holders of preferred stock redeemed over the carrying amount of the preferred stock should be subtracted from net earnings to determine net earnings available to common stockholders in the calculation of EPS. The SEC's clarification of the guidance in Topic D-42 provides that the carrying amount of the preferred stock should be reduced by the related issuance costs.

The July 2003 clarification of Topic D-42 was effective for us for the quarter ended September 30, 2003 and was required to be reflected retroactively in the financial statements of prior periods. We had not previously considered issuance costs in determining the carrying amount of the preferred stock we redeemed, and accordingly, implementation of the clarification of Topic D-42 affected our previously reported EPS. In particular, our previously reported basic and diluted EPS (from continuing operations and in total) for the six months ended June 30, 2003 were reduced by \$0.03 per share, from \$0.39 per share to \$0.36 per share.

Table of Contents

CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

The effects of units in CarrAmerica Realty, L.P. and Carr Realty Holdings, L.P. that are redeemable for shares of our common stock are not included in the computation of diluted earnings per share as their effect is antidilutive for all periods presented.

(e) Derivative Financial Instruments and Hedging

On May 8, 2002, we entered into interest rate swap agreements with JP Morgan Chase and Bank of America, N.A. hedging \$150.0 million of senior unsecured notes due July 2004. We receive interest at a fixed rate of 7.2% and pay interest at a variable rate of six-month LIBOR in arrears plus 2.72%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$1.9 million. We recognized reductions in interest expense for the three months ended June 30, 2004 and 2003 of approximately \$0.7 and \$2.5 million, respectively, related to the swaps. We recognized reductions in interest expense for six months ended June 30, 2004 and 2003 of approximately \$1.9 and \$3.8 million, respectively, related to the swaps. As June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on the notes was reduced to 4.69%. The notes were repaid upon maturity on July 1, 2004 and the related interest rate swap agreement terminated.

On November 20, 2002, in conjunction with the issuance of \$175.0 million of senior unsecured notes, we entered into interest rate swap agreements with JP Morgan Chase, Bank of America, N.A. and Goldman, Sachs & Co. We receive interest at a fixed rate of 5.25% and pay interest at a variable rate of six-month LIBOR in arrears plus 1.405%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$(2.3) million. We recognized reductions in interest expense for the three months ended June 30, 2004 and 2003 of approximately \$0.6 and \$1.2 million, respectively, related to the swaps. We recognized reductions in interest expense for six months ended June 30, 2004 and 2003 of approximately \$1.8 and \$2.3 million, respectively, related to the swaps. As of June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on the notes was reduced to 3.22%.

On March 18, 2004, in conjunction with the issuance of \$225.0 million of 3.625% senior unsecured notes, we entered into \$100.0 million of interest rate swap agreements with JP Morgan Chase and Bank of America, N.A. We receive interest at a fixed rate of 3.625% and pay interest at a variable rate of six-month LIBOR in arrears plus 0.2675%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$(5.3) million. We recognized a reduction in interest expense for the three and six months ended June 30, 2004 of approximately \$0.2 and \$0.3 million, respectively, related to the swaps. As of June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on \$100.0 million of the notes was 3.12%.

As part of the assumption of \$63.5 million of debt associated with the purchase of two operating properties in August 2002, we purchased interest rate caps with a notional amount of \$97.0 million and LIBOR capped at 6.75%. As of June 30, 2004, the fair market value of these interest rate caps was not material.

In December 2003, we purchased an interest rate cap with a notional amount of \$100.0 million and LIBOR capped at 8.0% which expires in January 2005. As of June 30, 2004, the fair market value of this interest rate cap was not material.

(f) Stock/Unit Compensation Plans

Through 2002, we applied the intrinsic value method of accounting prescribed by Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations to account for our stock/unit compensation plans. Under this method, we recorded compensation expense for awards of stock, options or units to employees only if the market price of the unit or stock on the grant date exceeded the amount the employee was required to pay to acquire the unit or stock. Effective

Table of Contents**CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(Unaudited)

January 1, 2003, we adopted the fair value based method of accounting for stock-based compensation costs. We elected to use the prospective method of transition to the fair value method provided in SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure, and, accordingly, the method is being applied for all employee stock compensation awards granted, modified or settled on or after January 1, 2003.

The following table summarizes pro forma effects on net income and earnings per share if the fair value method had been used to account for all stock-based compensation awards made between 1995 and 2002.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2004	2003	2004	2003
(In thousands, except per share data)				
Net income as reported	\$ 14,007	\$ 16,829	\$ 29,237	\$ 35,800
Stock-based compensation cost from stock option plans included in net income	38	39	76	56

Fair value of stock-based compensation	(1,140)	(1,756)	(2,329)	(3,515)
Pro forma net income	\$ 13,724	\$ 16,272	\$ 28,670	\$ 34,653
Earnings per share as reported:				
Basic	\$ 0.19	\$ 0.24	\$ 0.40	\$ 0.47
Diluted	0.19	0.24	0.39	0.47
Earnings per share, pro forma:				
Basic	\$ 0.18	\$ 0.23	\$ 0.39	\$ 0.45
Diluted	0.18	0.23	0.38	0.44

(g) Reclassifications

Certain reclassifications of prior period amounts have been made to conform to the current period's presentation.

(h) Other Comprehensive Income

We hold stock warrants which we obtained from a former tenant in settlement of its lease obligations. The unrealized gain or loss on these securities is an item of other comprehensive income.

Comprehensive income is summarized as follows:

(In thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2004	2003	2004	2003

(2) Gain on Sale of Properties and Discontinued Operations

The tables below summarize property sales for the six months ended June 30, 2004 and 2003:

2004				
Property	Sale	Square	Net Cash	Gain
Name	Date	Footage	Proceeds	Recognized
			(\$000)	(\$000)
Tower of the Hills	Mar-04	166,149	10,512	66
2003				
Property	Sale	Square	Net Cash	Gain
Name	Date	Footage	Proceeds	Recognized
			(\$000)	(\$000)
Wateridge	May-03	62,194	6,067	3,571

We dispose of assets from time to time that are inconsistent with our long-term strategic or return objectives. During the six months ended June 30, 2004, we disposed of our Tower of the Hills property, recognizing a gain of \$0.1 million. We have no continuing involvement with the Tower of the Hills property after the sale and, accordingly, the gain on this sale and the operating results of this property are classified as discontinued operations. We had previously recognized an impairment loss of \$3.0 million on this property in the fourth quarter of 2003. During the three and six months ended June 30, 2003, we disposed of one operating property, recognizing a gain of \$3.6 million. We continue to manage the property under a management agreement and the gain on this sale and the operating results of the property are not classified as discontinued operations due to our continuing involvement. In the second quarter of 2003, we also recognized an impairment loss of \$2.7 million on a building which we sold in the third quarter of 2003.

As stated above, in March 2004, we sold our Tower of the Hills property in which we had no continuing involvement after the sale and the operating results are classified as discontinued operations. As of June 30, 2004, the properties in our Atlanta market portfolio (15 buildings) met our criteria to be classified as held for sale as we have executed a contract for sale without significant contingencies. The contract contains customary closing conditions. We have classified the assets related to the portfolio as held for sale and presented the operations of the Atlanta portfolio as discontinued operations as we will have no involvement with the properties after the sale. The portfolio is expected to be sold in its entirety to an unrelated third party. Accordingly, we are treating all the properties as a disposal group. Between August and November 2003, we sold three rental properties (PacifiCare, Katella and Century Springs) with which we had no continuing involvement after the sales. The results of operations for these properties are classified as discontinued operations. Operating results of the properties classified as discontinued operations are summarized as follows:

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

(In thousands)	For the three months		For the six months	
	ended June 30,		ended June 30,	
	2004	2003	2004	2003
Revenue	\$ 6,661	\$ 9,414	\$ 14,271	\$ 18,892
Property expenses	2,878	3,783	6,153	7,662
Depreciation and amortization	2,273	2,747	4,672	5,434
Net operations of properties sold or held for sale	\$ 1,510	\$ 2,884	\$ 3,446	\$ 5,796
Number of buildings included in discontinued operations	16	19	16	19

(3) Assets Held for Sale

As discussed in note 2, as of June 30, 2004, our properties in the Atlanta market met our criteria to be classified as held for sale. As of December 31, 2003, our Tower of the Hills property met our criteria to be classified as held for sale. The sale of this property closed in March 2004.

Table of Contents**CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(Unaudited)

The book value of assets classified as held for sale as of June 30, 2004 and December 31, 2003 are summarized as follows:

	Jun. 30, 2004	Dec. 31, 2003
(In thousands)		
Land	\$ 27,905	\$ 1,633
Buildings	148,262	11,464
Tenant improvements	33,368	657
Furniture and fixtures	237	
Accumulated depreciation	(48,795)	(3,306)
Accounts receivable	265	40
Accrued straight-line rent	5,783	80
Tenant leasing costs, net	5,345	40
Prepaid assets	355	18
	<u>\$ 172,725</u>	<u>\$ 10,626</u>

(4) Acquisitions

During 2004, we acquired one operating property from a third party. This property has approximately 345,000 rentable square feet and the net purchase cost was approximately \$130.6 million. The table below details our 2004 acquisition.

Property			Number	Rentable	Purchase
Name	Market	Month	of	Square	Cost
		Acquired	Buildings	Footage	(000)
Commonwealth Tower	Washington DC	Jun-04	1	345,000	\$ 130,593

The aggregate purchase cost of property acquired in 2004 was allocated as follows:

(In thousands)	
Land	\$ 28,470
In-place lease intangibles	8,154
Building and tenant improvements	95,265
Deferred revenue and other	(1,296)

\$ 130,593

(5) Unsecured Revolving Credit Facility

On June 30, 2004, we entered into a new \$500.0 million, three year unsecured revolving credit facility with JPMorgan Chase Bank as administrative agent for a syndicate of banks. The facility replaced and was used to repay all amounts outstanding under our previous unsecured senior credit facility. We may increase the facility to \$700.0 million by our request at any time within 24 months of the closing, provided the funding commitments are increased accordingly. The facility can be extended one year at our option. The facility carries an interest rate of 65 basis points over 30-day LIBOR, or 1.98% as of June 30, 2004. As of June 30, 2004, \$175.0 million was drawn on the credit facility, \$35.9 million in letters of credit were outstanding, and we had \$289.1 million available for borrowing. On July 1, 2004, we drew \$160.0 million on our credit facility to retire \$150.0 million of senior unsecured debt and pay accrued interest. As of July 9, 2004, \$360.0 million was drawn on the credit facility, \$35.9 million in letters of credit were outstanding, and we had \$104.1 million available for borrowing.

Our unsecured credit facility contains financial and other covenants with which we must comply. Some of these covenants include:

A minimum ratio of annual EBITDA (earnings before interest, taxes, depreciation and amortization) to interest expense of at least 2 to 1;

Table of Contents**CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(Unaudited)

A minimum ratio of annual EBITDA to fixed charges of at least 1.5 to 1;

A maximum ratio of aggregate unsecured debt to tangible fair market value of our unencumbered assets of 60%;

A maximum ratio of total secured debt to tangible fair market value of 30%;

A maximum ratio of total debt to tangible fair market value of our assets of 55%; and

Restrictions on our ability to make dividend distributions in excess of 90% of funds from operations or the minimum amount necessary to enable us to maintain our status as a REIT.

(6) Guarantees

Our obligations under guarantee agreements at June 30, 2004 are summarized as follows:

Type of Guarantee	Project Relationship	Term	Maximum Exposure	Carrying Value
Loan ¹	575 7th Street	Apr-05	\$ 40,000,000	\$
Loan ²	Atlantic Building	Mar-07	25,000,000	160,000
Completion ³	Atlantic Building	Mar-07	80,149,000	250,000
Loan ⁴	Shakespeare Theatre	Dec-04	16,500,000	175,000
Indemnification ⁵	HQ Global		unknown	
Loan ⁶	Square 320	Mar-05	16,070,000	135,000

1. Loan guarantee relates to a joint venture in which we have a 30% interest and for which we are the developer. It is a payment guarantee to the lender on behalf of the joint venture. If the joint venture defaults on the loan, we may be required to perform under the guarantee. We have a reimbursement guarantee from the other joint venture partner to repay us its proportionate share (70%) of any monies we pay under the guarantee.
2. Loan guarantee relates to a third party project for which we are the developer. It is a payment guarantee to the lender. If the third party defaults on the loan, we may be required to perform under the guarantee. We have a security interest in the third party's interest in the underlying property. In the event of a default, we can exercise our rights under the security agreement to take title to the property and sell the property to mitigate our exposure under the guarantee. We have entered into an agreement with the lender that permits us to acquire the lender's first position mortgage securing the loan if the third party defaults on the loan and we then make payment in full to the lender under the guarantee.
3. Completion guarantee relates to a third party project for which we are the developer. It is a completion guaranty to the lender. If the third party defaults on its obligation to construct the building, we may be required to perform. As long as there is no Event of Default under the loan agreement, the lender will continue to make funds available from the construction loan to complete the project.
4. Represents a payment guarantee on a third party project for which we are the developer. We have entered into an agreement with the lender that permits us to acquire the lender's first position mortgage securing the loan if the third party defaults on the loan and we then

- make payment in full to the lender under the guarantee.
5. See Part II, Item 1: Legal Proceedings for further discussion.
 6. Loan guarantee relates to a third party project for which we are the developer. It is a payment guarantee to the lender. If the third party defaults on the loan, we may be required to perform under the guarantee. We have a security interest in the third party's interest in the underlying property. In the event of a default, we can exercise our rights under the security agreement to take title to the property and sell the property to mitigate our exposure under the guarantee. We have entered into an agreement with the lender that permits us to acquire the lender's first position mortgage securing the loan if the third party defaults on the loan and we then make payment in full to the lender under the guarantee.

(7) Preferred and Common Stock

On March 18, 2003, we redeemed 2,000,000 shares of our Series B Cumulative Redeemable Preferred Stock at a redemption price of \$25.00 per share plus accrued and unpaid dividends for the period from March 1, 2003 through and including the redemption date, without interest. This resulted in a cash expenditure of approximately \$50.2 million in March 2003. Including this redemption, for the six months ended June 30, 2003, we repurchased or redeemed 2,188,035 shares of our preferred stock for approximately \$54.7 million, excluding accrued and unpaid dividends.

During the first six months of 2003, we repurchased 322,600 shares of our common stock for approximately \$7.9 million.

Table of Contents**CARRAMERICA REALTY CORPORATION AND SUBSIDIARIES**

Notes to Consolidated Financial Statements

(Unaudited)

(8) Segment Information

Our only reportable operating segment is real estate property operations. Other business activities and operating segments that are not reportable are included in other operations. The performance measure we use to assess results for real estate property operations is property operating income. We define property operating income as total property operating revenue less property expenses, which include property operating expenses (other than depreciation and amortization) and real estate taxes. We believe that the presentation of property operating income is helpful to investors as a measure of operating performance of our office properties because it excludes items that do not relate to or are not indicative of the operating performance of the properties (including interest and depreciation and amortization) and which can make periodic comparisons of operating performance more difficult. The real estate property operations segment includes the operation and management of consolidated rental properties including those classified as discontinued operations. The accounting policies of the segments are the same as those described in note 1.

Operating results of our reportable segment and our other operations for the three and six months ended June 30, 2004 and 2003 are summarized as follows:

	For the three months ended June 30, 2004			
	Real Estate Property Operations	Other Operations and Unallocated	Reclassifications - Discontinued Operations	Total
(In millions)				
Revenue	\$ 123.0	\$ 5.3	\$ (6.7)	\$ 121.6

(9) Supplemental Cash Flow Information

We acquired \$3.1 million of minority interest units which were redeemed for shares of our common stock during the six months ended June 30, 2004.

Our employees converted approximately \$1.4 million in restricted units to 58,683 shares of common stock during the six months ended June 30, 2003.

(10) Subsequent Events

On July 1, 2004, we retired \$150.0 million of senior unsecured notes using funds drawn on our unsecured credit facility.

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

We purchased two operating properties in North San Jose, California on July 9, 2004. We paid \$25.8 million for the two properties and funded the purchase using our unsecured credit facility.

Table of Contents

Management's Discussion and Analysis

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion that follows is based primarily on our consolidated financial statements as of June 30, 2004 and December 31, 2003 and for the three and six months ended June 30, 2004 and 2003 and should be read along with the consolidated financial statements and related notes. The ability to compare one period to another may be significantly affected by acquisitions completed, development properties placed in service and dispositions made during those periods.

As a result of the weak economic climate over the last several years, the office real estate markets were materially affected. The contraction of office workforces had reduced demand for office space and overall vacancy rates for office properties increased in all of our markets through 2002 and our operations were adversely impacted. In 2003, vacancy rates appeared to peak in many of our markets and some positive net absorption of space started to occur. To date in 2004, the positive trend of reduced vacancy rates and positive net absorption has continued in most of our markets. As a result of improved job growth, leasing activity is up significantly, and we believe that rental rates have stabilized in most of our markets. However, because vacancy rates are still at high levels in most markets, we do not expect any material improvement in rental economics for the next twelve to eighteen months. While market rental rates have stabilized, rental rates on in-place leases in certain markets remain significantly above current market rental rates. The occupancy in our portfolio of stabilized operating properties decreased to 87.1% at June 30, 2004 compared to 87.8% at December 31, 2003 and 88.9% at June 30, 2003. Rental rates on space that was re-leased in 2004 decreased an average of 21.4% in comparison to rates that were in effect under expiring leases.

In December 2003, our Board of Directors approved a plan to restructure the manner in which we hold our assets by converting to what is commonly referred to as an umbrella partnership REIT, or UPREIT, structure. To effect the UPREIT restructuring, we formed CarrAmerica Realty Operating Partnership, L.P., or the Operating Partnership, to which we contributed substantially all of our assets on June 30, 2004 in exchange for units of common and preferred partnership interest in the Operating Partnership and the assumption by the Operating Partnership of substantially all of our liabilities, including the assumption of the obligations under our unsecured credit facility and our senior unsecured notes.

Since the UPREIT restructuring, substantially all of our business is being conducted through the Operating Partnership and our primary asset is our interest in the Operating Partnership. We undertook the UPREIT restructuring to enable us to better compete with other office REITs, many of which are structured as UPREITs, for the acquisition of properties from tax-motivated sellers. As a result of the UPREIT restructuring, the Operating Partnership can to issue units of limited partnership interest in the Operating Partnership to tax-motivated sellers who contribute properties to the Operating Partnership, thereby enabling those sellers to realize certain tax benefits that would be unavailable if we purchased properties directly for cash. In addition, due to certain tax and timing considerations, we expect that the UPREIT restructuring has better positioned us to take advantage of merger or strategic acquisition opportunities that may present themselves in the future. We have not currently identified and we are not currently pursuing any material acquisitions that would be structured as Operating Partnership contributions or merger opportunities.

General

During the six months ended June 30, 2004 we completed the following significant transactions:

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

We issued \$225.0 million principal amount of 3.625% senior unsecured notes in March 2004 with net proceeds of approximately \$222.7 million which were used to pay down amounts outstanding under our unsecured line of credit. The notes mature April 1, 2009.

We entered into a \$100.0 million interest rate swap in connection with the issuance of the 3.625% senior unsecured notes which qualifies for fair value hedge accounting.

We disposed of one operating property generating net proceeds of approximately \$10.5 million.

We purchased one 345,000 square foot operating property for \$130.6 million.

We entered into a three year \$500.0 million unsecured revolving credit agreement with JPMorgan Chase Bank as administrative agent for a syndicate of banks.

We completed our corporate restructuring in June 2004.

During the six months ended June 30, 2003 we completed the following significant transactions:

We repurchased or redeemed an aggregate of 2.2 million shares of our preferred stock for approximately \$54.7 million.

Table of Contents

Management's Discussion and Analysis

We repurchased 322,600 shares of our common stock for approximately \$7.9 million.

We disposed of one operating property generating net proceeds of approximately \$9.5 million.

We acquired a 20% interest in a joint venture which purchased a \$190.0 million operating property.

At the end of 2003, we decided, based on their returns and market factors, that we would exit the Portland and Atlanta markets as soon as practicable. We began marketing these properties during the first quarter of 2004. Based on unsatisfactory initial pricing, we have decided to retain our Portland market properties and have ended our sales effort. We may decide at a future date to re-market these properties. Our Atlanta portfolio is currently under contract to be sold. The contract contains customary closing conditions and we cannot assure that the sale will be consummated. We intend to reinvest the proceeds from the sale of the Atlanta properties in other markets where we believe we will recognize a greater return on our invested capital. A summary of the net book value of the assets and operating results of our Atlanta properties as of and for the six months ended June 30, 2004 is as follows:

	Amount (In thousands)	% of Total
Assets (net book value)	\$ 172,725	5.9%
Rental revenue	13,710	5.6%
Property operating income ¹	7,818	4.9%

¹ Property operating income is property operating revenue less property operating expenses

Critical Accounting Policies and Estimates

Critical accounting policies and estimates are those that are both important to the presentation of our financial condition and results of operations and require management's most difficult, complex or subjective judgments. Our critical accounting policies and estimates relate to evaluating the impairment of long-lived assets and investments, allocating the purchase cost of acquired properties, assessing our probable liability under lease guarantees for HQ Global Workplaces, Inc. (HQ Global) and evaluating the collectibility of accounts receivable.

We assess the useful lives of our assets on a regular basis. If events or changes in circumstances indicate that the carrying value of a rental property to be held and used or land held for development may be impaired, we perform a recoverability analysis based on estimated undiscounted cash flows to be generated from the property in the future. If the analysis indicates that the carrying value is not recoverable from future cash flows, the property and related assets, such as tenant improvements and lease commissions, are written down to estimated fair value and an impairment loss is recognized. If we decide to sell rental properties or land holdings, we evaluate the recoverability of the carrying amounts of the assets. If the evaluation indicates that the carrying value is not recoverable from estimated net sales proceeds, the property is written down to estimated fair value less costs to sell and an impairment loss is recognized. Our estimates of cash flows and fair values of the properties are based on current market conditions and consider matters such as rental rates and occupancies for comparable properties, recent sales data for comparable properties and, where applicable, contracts or the results of negotiations with purchasers or prospective purchasers. Changes in estimated future cash flows due to changes in our plans or views of market and economic conditions could result in recognition of additional impairment losses which, under applicable accounting guidance, could be substantial.

We allocate the purchase cost of acquired properties to the related physical assets and in-place leases based on their fair values. The fair values of acquired office buildings are determined on an if-vacant basis considering a variety of factors, including the physical condition and quality of the buildings, estimated rental and absorption rates, estimated future cash flows and valuation assumptions consistent with current market conditions. The if-vacant fair value is allocated to land, where applicable, buildings, tenant improvements and equipment based on property tax assessments and other relevant information obtained in connection with the acquisition of the property.

The fair value of in-place leases includes the effect of leases with above or below market rents, where applicable, customer relationship value and the cost of acquiring existing tenants at the date of acquisition. Above market and below market in-place lease values are determined on a lease by lease basis based on the present value

Table of Contents**Management's Discussion and Analysis**

(using an interest rate which reflects the risks associated with the leases acquired) of the difference between (a) the contractual amounts to be paid under the lease and (b) our estimate of the fair market lease rate for the corresponding space over the remaining non-cancellable terms of the related leases. The capitalized below market lease values are amortized as an increase to rental income over the initial term and any below market renewal periods of the related leases. Capitalized above market lease values are amortized as a decrease to rental income over the initial term of the related leases. Customer relationship values are determined based on our evaluation of the specific characteristics of each tenant's lease and our overall relationship with the tenant. Characteristics we consider include the nature and extent of our existing business relationships with the tenant, growth prospects for developing new business with the tenant, the tenant's credit quality and expectations of lease renewals. The value of customer relationship intangibles is amortized to expense over the lesser of the initial lease term and any expected renewal periods or the remaining useful life of the building. We determine the fair value of the cost of acquiring existing tenants by estimating the lease commissions avoided by having in-place tenants and avoided lost operating income for the estimated period required to lease the space occupied by existing tenants at the acquisition date. The cost of acquiring existing tenants is amortized to expense over the initial term of the respective leases. Should a tenant terminate its lease, the unamortized portion of the in-place lease value is charged to expense. Changes in the assumptions used in the allocation of the purchase cost among the acquired assets would affect the timing of recognition of the related revenue and expenses.

As a result of the bankruptcy of HQ Global, we were required to make estimates regarding our probable liability under guarantees of HQ Global's performance under four office leases. After carefully evaluating the facts and circumstances of each property and developments in the bankruptcy proceedings, we accrued a loss of \$8.7 million in 2002, our best estimate of the probable liability related to these guarantees. Our estimated loss was based on such factors as the expected period of vacancy for the space before it could be relet, expected rental rates and other factors. Circumstances surrounding these guarantees changed and we accrued a net additional loss of \$0.8 million in the third quarter of 2003.

Our allowance for doubtful accounts receivable is established based on analysis of the risk of loss on specific accounts. The analysis places particular emphasis on past-due accounts and considers information such as the nature and age of the receivable, the payment history of the tenant or other debtor, the amount of security we hold, the financial condition of the tenant and our assessment of its ability to meet its lease obligations, the basis for any disputes and the status of related negotiations, etc. Our estimate of the required allowance, which is reviewed on a quarterly basis, is subject to revision as these factors change and is sensitive to the effects of economic and market conditions on our tenants, particularly in our largest markets (i.e., the San Francisco Bay and Washington, D.C. Metro areas). We increased our provision for uncollectible accounts (and related accrued straight-line rents) by approximately \$0.1 million and \$2.1 million for the six months ended June 30, 2004 and 2003, respectively. The decrease in the addition to our provision for uncollectible accounts in 2004 was due primarily to a reduction in delinquent tenants' accounts as marginal tenants' leases were terminated or sublet and the effects of an improving economy.

Results Of Operations**Property Operating Revenue**

Property operating revenue is summarized as follows:

For the three months ended		For the six months	
June 30,	Variance	ended June 30,	Variance
<u> </u>	<u> </u>	<u> </u>	<u> </u>

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

(In millions)	2004 vs.			2004 vs.		
	2004	2003	2003	2004	2003	2003
Minimum base rent	\$ 96.7	\$ 94.3	\$ 2.4	\$ 193.7	\$ 190.6	\$ 3.1
Recoveries from tenants	13.2	13.7	(0.5)	26.7	29.7	(3.0)
Parking and other tenant charges	6.4	5.2	1.2	10.5	11.2	(0.7)

Table of Contents**Management's Discussion and Analysis**

Property operating revenue is composed of minimum base rent from our office buildings, revenue from the recovery of operating expenses from our tenants and other revenue such as parking and termination fees. Occupancy rates in our buildings began to decline in most of our markets in late 2001 and continued to decline through 2003. In second half of 2003, occupancy rates began to stabilize in most of our markets. The decline negatively affected our operating revenue. Occupancy in our consolidated stabilized buildings (buildings in operation more than one year) by market as of June 30, 2004 and 2003 was as follows:

Market	June 30, 2004		June 30, 2003		Variance	
	Rentable Sq. Footage	Percent Leased	Rentable Sq. Footage	Percent Leased	Rentable Sq. Footage	Percent Leased
Washington, DC	4,056,273	95.7	3,522,832	96.2	533,441	(0.5)
Chicago	1,225,589	64.9	1,225,826	67.5	(237)	(2.6)
Atlanta	1,696,757	79.6	1,865,278	81.5	(168,521)	(1.9)

Minimum Base Rent

Minimum base rent increased \$2.4 million (2.5%) in the second quarter of 2004 compared to 2003. The increase in minimum base rent in 2004 was due primarily to rents from two buildings acquired in the second half of 2003 (\$3.7 million) partially offset by higher vacancies and lower rental rates (\$1.3 million). We expect minimum base rent to continue to be under downward pressure during the remainder of the year as a result of re-leasing space at lower rates than those rates that were in effect under expiring leases.

Minimum base rent increased \$3.1 million (1.6%) in the first half of 2004 compared to 2003. The increase in minimum base rent in 2004 was due primarily to rents from two buildings acquired in the second half of 2003 (\$7.3 million) partially offset by higher vacancies and lower rental rates (\$4.2 million).

Our lease rollover by square footage and rent at June 30, 2004 is as follows:

	Leased Sq. Footage ¹	Rent (\$000)
2004	993,611	20,796
2005	2,032,757	44,172
2006	2,457,297	61,259
2007	2,970,882	68,550
2008	2,532,547	53,502
2009	2,481,930	46,337
2010	1,068,242	26,397
2011	552,412	10,910
2012	1,109,576	27,685
2013	517,407	9,545
2014 and thereafter	1,205,746	45,319
	17,922,407	414,472

¹ Does not include vacant space at 6/30/04 - 2.7 million sq. ft.

Recoveries from Tenants

Recoveries from tenants decreased \$0.5 million in the second quarter of 2004 from 2003. The reduction in recoveries from tenants is primarily the result of higher vacancies and new base years for new tenants and renewing tenants partially offset by recoveries from tenants in two buildings acquired in the second half of 2003.

Table of Contents**Management's Discussion and Analysis**

Recoveries from tenants decreased \$3.0 million in the first half of 2004 from 2003. The reduction in recoveries from tenants is primarily the result of higher vacancies and new base years for new tenants and renewing tenants partially offset by recoveries from tenants in two buildings acquired in the second half of 2003.

Parking and Other Tenant Charges

Parking and other tenant charges increased \$1.2 million (23.1%) in the second quarter of 2004 from 2003. Lease termination fees increased \$0.9 million in 2004 to \$3.7 million from \$2.8 million in the second quarter of 2003. Lease termination fees are paid by a tenant in exchange for our agreement to terminate the lease or pursuant to a termination provision in its lease document. Vacancies created as a result of these terminations negatively impact future rents until the space is relet.

Parking and other tenant charges decreased \$0.7 million (6.3%) in the first half of 2004 from 2003. Lease termination fees decreased \$0.7 million in 2004 to \$5.3 million from \$6.0 million in 2003.

Property Expenses

Property expenses are summarized as follows:

(In millions)	For the three			For the six		
	months ended		Variance	months ended		Variance
	June 30,			June 30,		
			2004 vs.			2004 vs.
	2004	2003	2003	2004	2003	2003
Property operating expenses	\$ 29.8	\$ 28.8	\$ 1.0	\$ 58.6	\$ 58.2	\$ 0.4
Real estate taxes	10.0	10.3	(0.3)	20.8	21.4	(0.6)

Property operating expenses increased \$1.0 million (3.5%) in the second quarter of 2004 from 2003 due primarily to expenses related to two buildings acquired in the second half of 2003 (\$0.5 million) and general expense increases. Property operating expenses increased \$0.4 million (0.7%) in the first half of 2004 from 2003 due primarily to expenses related to two buildings acquired in the second half of 2003 (\$1.0 million) and general expense increases partially offset by lower bad debt expense (\$1.9 million). The decrease in the addition to our provision for uncollectible accounts in 2004 was due primarily to a reduction in delinquent tenants' accounts as marginal tenants' leases were terminated or sublet and the effects of an improving economy.

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

Real estate taxes decreased \$0.3 million (2.9%) in the second quarter of 2004 from 2003 as a result of lower property assessments and property tax refunds partially offset by taxes related to two buildings acquired in the second half of 2003. Real estate taxes decreased \$0.6 million (2.8%) in the first half of 2004 from 2003 for the same reason.

Property Operating Income

Property operating income is the performance measure used to assess the results of our real estate property operations segment. We believe that the presentation of property operating income is helpful to investors as a measure of the operating performance of our office properties because it excludes items that do not relate to or are not indicative of operating performance of the properties (including interest and depreciation and amortization) and which can make periodic comparisons of operating performance more difficult. Property operating income, defined as property operating revenue less property expenses, is summarized as follows:

(In millions)	For the three months ended		Variance	For the six months ended June 30,		Variance
	June 30,					
			2004 vs.			2004 vs.
	2004	2003	2003	2004	2003	2003
Property operating income	\$ 76.5	\$ 74.1	\$ 2.4	\$ 151.2	\$ 152.0	\$ (0.8)
Property operating income percent	65.8%	65.5%	0.3%	65.5%	65.6%	-0.1%

Property operating income increased \$2.4 million (3.2%) in the second quarter of 2004 from 2003 due primarily to the impact of properties acquired in the second half of 2003 partially offset by higher vacancies. Property operating income as a percentage of property operations revenue increased to 65.8% for the second quarter of 2004 compared to 65.5% in 2003 for the same reasons.

Table of Contents

Management's Discussion and Analysis

Property operating income decreased \$0.8 million (0.5%) in the first half of 2004 from 2003 due primarily to the impact of increased vacancies on rental income and recovery revenue partially offset by the acquisition of two properties in the second half of 2003. Property operating income as a percentage of property operations revenue remained relatively flat at 65.5% for the first half of 2004 compared to 65.6% in 2003 for the same reasons.

Real Estate Service Revenue

Real estate service revenue, which includes our third party property management services and our development services, decreased \$2.2 million in the second quarter of 2004 from 2003. Development fees declined \$2.4 million. In 2003, we earned development incentive fees of \$2.3 million from third parties which did not repeat in 2004. Property management fees declined \$0.2 million. These decreases were partially offset by an increase in leasing fees of \$0.4 million.

Real estate service revenue decreased \$2.3 million in the first half of 2004 from 2003. While leasing fees increased \$0.9 million, this increase was offset by decreases in property management fees (\$0.4 million) and development fees (\$2.5 million). In 2003, we earned one-time development incentive fees of \$2.3 million from third parties.

General and Administrative Expense

General and administrative expense was similar in the second quarter of 2004 as compared to 2003 and in the first half of 2004 compared to 2003.

Depreciation and Amortization

Depreciation and amortization decreased \$0.1 million in the second quarter of 2004 compared to the second quarter of 2003. This decrease was due primarily to the effects of a sale of a building in the second quarter of 2003 partially offset by the depreciation and amortization related to two buildings acquired in the second half of 2003, including the amortization of related intangible assets (\$1.3 million).

Depreciation and amortization increased \$1.9 million in the first half of 2004 compared to the first half of 2003. This increase was due primarily to depreciation and amortization related to two buildings acquired in the second half of 2003, including the amortization of related intangible assets (\$2.6 million) partially offset by the effects of a sale of a building in the second quarter of 2003.

Interest Expense

Interest expense increased \$1.8 million (6.9%) during the second quarter of 2004 compared to 2003. This increase was due primarily to higher average levels of debt outstanding (\$1.5 million) as a result of preferred stock redemptions late in the first quarter of 2003 and by higher average interest rates (\$0.3 million).

Interest expense increased \$2.3 million (4.4%) during the first half of 2004 compared to 2003. This increase was due primarily to higher average levels of debt outstanding (\$3.0 million) as a result of preferred stock redemptions late in the first quarter of 2003 partially offset by lower average interest rates (\$0.7 million).

Other Income and Expense

Other income was \$2.3 million in the second quarter of 2004 compared to \$2.0 million in the second quarter of 2003 due primarily to increased equity in earnings from our unconsolidated joint ventures.

Other income was \$5.0 million in the first half of 2004 compared to \$3.4 million in the first half of 2003. Interest income increased \$0.6 million from our notes receivable. Equity in earnings of unconsolidated entities increased \$1.0 million due primarily to equity in earnings from new unconsolidated ventures initiated in the second and fourth quarters of 2003 and one joint venture partially placed into service in the third quarter of 2003.

Table of Contents

Management's Discussion and Analysis

Gain on Sale of Properties and Discontinued Operations

The tables below summarize property sales for the six months ended June 30, 2004 and 2003:

2004				
Property Name	Sale Date	Square Footage	Net Cash Proceeds (\$000)	Gain Recognized (\$000)
Tower of the Hills	Mar-04	166,149	10,512	66
2003				
Property Name	Sale Date	Square Footage	Net Cash Proceeds (\$000)	Gain Recognized (\$000)
Wateridge	May-03	62,194	6,067	3,571

We dispose of assets from time to time that are inconsistent with our long-term strategic or return objectives. During the six months ended June 30, 2004, we disposed of our Tower of the Hills property, recognizing a gain of \$0.1 million. We have no continuing involvement with the Tower of the Hills property after the sale and, accordingly, the gain on this sale and the operating results of this property are classified as discontinued operations. We had previously recognized an impairment loss of \$3.0 million on this property in the fourth quarter of 2003. During the three and six months ended June 30, 2003, we disposed of one operating property, recognizing a gain of \$3.6 million. We continue to manage the property under a management agreement and the gain on this sale and the operating results of the property are not classified as discontinued operations due to our continuing involvement. In the second quarter of 2003, we also recognized an impairment loss of \$2.7 million on a building which we sold in the third quarter of 2003.

As stated above, in March 2004, we sold our Tower of the Hills property in which we had no continuing involvement after the sale and the operating results are classified as discontinued operations. In addition, our Atlanta portfolio is under contract to be sold. The contract contains customary closing conditions and we cannot assure the sale will be consummated. We will have no continuing involvement in these properties after the sale and the operating results are classified as discontinued operations. Between August and November 2003, we sold three rental properties (PacifiCare, Katella and Century Springs) with which we had no continuing involvement after the sales. The results of operations for these properties are classified as discontinued operations. Operating results of the properties classified as discontinued operations are summarized as follows:

(In thousands)	For the three months ended June 30,	For the six months ended June 30,

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

	2004	2003	2004	2003
Revenue	\$ 6,661	\$ 9,414	\$ 14,271	\$ 18,892
Property expenses	2,878	3,783	6,153	7,662
Depreciation and amortization	2,273	2,747	4,672	5,434

Number of buildings included in discontinued operations	16	19	16	19

Consolidated Cash Flows

Consolidated cash flow information is summarized as follows:

(In millions)	For the six		Variance
	months ended June 30,		
	2004	2003	2004 vs. 2003
Cash provided by operating activities	\$ 75.5	\$ 85.0	\$ (9.5)
Cash used in investing activities	(164.8)	(29.7)	(135.1)
Cash provided by (used in) financing activities	93.3	(58.4)	151.7

Table of Contents

Management's Discussion and Analysis

Operations generated \$75.5 million of net cash for the first six months of 2004 compared to \$85.0 million in 2003. The change in cash flow from operating activities was primarily the result of factors discussed above in the analysis of operating results. The level of net cash provided by operating activities is also affected by the timing of receipt of revenues and payment of expenses.

Our investing activities used net cash of \$164.8 million in 2004 and \$29.7 million in 2003. The change in cash used in investing activities in 2004 was due primarily to the acquisition of an operating property and deposits for the acquisitions of additional properties (\$140.0 million), higher property and tenant improvement costs (\$5.6 million), funding of notes receivable (\$3.9 million) and minority interests acquired (\$2.3 million). These increases were partially offset by decreased investments in joint ventures (\$13.6 million) and increased proceeds from sales of properties (\$3.7 million).

Our financing activities provided net cash of \$93.3 million in 2004 and used net cash of \$58.4 million in 2003. The change in net cash from financing activities in 2004 was due primarily to lower repurchases or redemption of common and preferred stock (\$62.6 million), an increase in stock option exercises (\$24.8 million) and increased net borrowings (\$63.5 million).

LIQUIDITY AND CAPITAL RESOURCES

General

Our primary sources of capital are our real estate operations and our unsecured credit facility. As of June 30, 2004, we had approximately \$8.3 million in cash and cash equivalents and \$289.1 million available for borrowing under our unsecured credit facility. As of July 9, 2004, we had \$104.1 million available for borrowing under our unsecured credit facility. We derive substantially all of our revenue from tenants under leases at our properties. Our operating cash flow therefore depends materially on the rents that we are able to charge to our tenants, and the ability of these tenants to make their rental payments.

Our primary uses of cash are to fund distributions to stockholders, to fund capital investment in our existing portfolio of operating assets, and to fund new acquisitions and our development activities. As a REIT, we are required to distribute at least 90% of our taxable income to our stockholders on an annual basis. We also regularly require capital to invest in our existing portfolio of operating assets in connection with large-scale renovations, routine capital improvements, deferred maintenance on properties we have recently acquired, and our leasing activities, including funding tenant improvements, allowances and leasing commissions. The amounts of the leasing-related expenditures can vary significantly depending on negotiations with tenants and the willingness of tenants to pay higher base rents over the life of the leases.

During the remainder of 2004, we expect that we will have significant capital requirements, including the following items. There can be no assurance that our capital requirements will not be materially higher or lower than these expectations.

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

Funding dividends on our common and preferred stock and making distributions to third party unit holders in certain of our subsidiaries;

Approximately \$42 - \$52 million to invest in our existing portfolio of operating assets, including approximately \$33 - \$43 million to fund tenant-related capital requirements;

Property dispositions are expected to exceed acquisitions by \$15 - \$90 million; and

Approximately \$10.3 million to fund mezzanine loans we have committed to make in connection with two projects for which we are providing development management services.

We expect to meet our capital requirements using cash generated by our real estate operations, by borrowings on our unsecured credit facility, and from proceeds from the sale of properties. We could also raise additional debt or equity capital in the public market or fund acquisitions of properties through property-specific mortgage debt.

We believe that we will generate sufficient cash flow from operations and have access to the capital resources necessary to expand and develop our business, to fund our operating and administrative expenses, to continue to meet our debt service obligations, to pay dividends in accordance with REIT requirements, to acquire additional properties and land, and to pay for construction in progress. However, as a result of general economic downturns, if our credit rating is downgraded, or if our properties do not perform as expected, we may not generate sufficient cash flow from

Table of Contents

Management's Discussion and Analysis

operations or otherwise have access to capital on favorable terms, or at all. If we cannot raise the expected funds from the sale of properties and/or if we are unable to obtain capital from other sources, we may not be able to pay the dividend required to maintain our status as a REIT, make required principal and interest payments, make strategic acquisitions or make necessary routine capital improvements with respect to our existing portfolio of operating assets. In addition, if a property is mortgaged to secure payment of indebtedness and we are unable to meet mortgage payments, the holder of the mortgage could foreclose on the property, resulting in loss of income and asset value. An unsecured lender could also attempt to foreclose on some of our assets in order to receive payment. In most cases, very little of the principal amount that we borrow is repaid prior to the maturity of the loan. We may refinance that debt when it matures, or we may pay off the loan. If principal amounts due at maturity cannot be refinanced, extended or paid with proceeds of other capital transactions, such as new equity capital, our cash flow may be insufficient to repay all maturing debt. Prevailing interest rates or other factors at the time of a refinancing (such as possible reluctance of lenders to make commercial real estate loans) may result in higher interest rates and increased interest expense.

Capital Structure

We manage our capital structure to reflect a long-term investment approach, generally seeking to match the stable return nature of our assets with a mix of equity and various debt instruments. We expect that our capital structure will allow us to obtain additional capital from diverse sources that could include additional equity offerings of common stock and/or preferred stock, public and private debt financings and possible asset dispositions. Our ability to raise funds through sales of debt and equity securities is dependent on, among other things, general economic conditions, general market conditions for REITs, rental rates, occupancy levels, market perceptions about us, our debt rating and the current trading price of our stock. We will continue to analyze which source of capital is most advantageous to us at any particular point in time, but the capital markets may not consistently be available on terms that are attractive.

In December 2003, our Board of Directors approved a plan to restructure the manner in which we hold our assets by converting to what is commonly referred to as an umbrella partnership REIT, or UPREIT, structure. To effect the UPREIT restructuring, we formed CarrAmerica Realty Operating Partnership, L.P., or the Operating Partnership, to which we contributed substantially all of our assets on June 30, 2004 in exchange for units of common and preferred partnership interest in the Operating Partnership and the assumption by the Operating Partnership of substantially all of our liabilities, including the assumption of the obligations under our unsecured credit facility and our senior unsecured notes.

Since the UPREIT restructuring, substantially all of our business is being conducted through the Operating Partnership and our primary asset is our interest in the Operating Partnership. We undertook the UPREIT restructuring to enable us to better compete with other office REITs, many of which are structured as UPREITs, for the acquisition of properties from tax-motivated sellers. As a result of the UPREIT restructuring, the Operating Partnership can issue units of limited partnership interest in the Operating Partnership to tax-motivated sellers who contribute properties to the Operating Partnership, thereby enabling those sellers to realize certain tax benefits that would be unavailable if we purchased properties directly for cash. In addition, due to certain tax and timing considerations, we believe that the UPREIT restructuring has better positioned us to take advantage of merger or strategic acquisition opportunities that may present themselves in the future. We have not currently identified and we are not currently pursuing any material acquisitions that would be structured as Operating Partnership contributions or merger opportunities.

The Operating Partnership is capitalized through the issuance of units. We serve as the sole general partner of the Operating Partnership and currently own the general partnership interest and substantially all of the common limited partnership interest. Our wholly owned subsidiary, CarrAmerica OP, LLC, a Delaware limited liability company, owns a nominal common limited partnership interest in the Operating Partnership. Together, we and CarrAmerica OP, LLC own a number of common units in the Operating Partnership equal to the number of shares of our

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

common stock outstanding. In connection with the UPREIT conversion, the Operating Partnership issued to us 8,050,000 Series E Cumulative Redeemable Preferred Partnership Units with terms that are substantially the same as the economic terms of our Series E preferred stock.

The Operating Partnership is managed by us as the sole general partner of the Operating Partnership. Even if we in the future admit additional limited partners, as the sole general partner of the Operating Partnership, we will generally have the exclusive power under the partnership agreement to manage and conduct the business of the Operating Partnership, subject to certain limited approval and voting rights of the limited partners, in most cases including us.

Management's Discussion and Analysis

Real Estate Operations

As a result of the weak economic climate over the last several years, the office real estate markets were materially affected. The contraction of office workforces had reduced demand for office space and overall vacancy rates for office properties increased in all of our markets through 2002 and our operations were adversely impacted. In 2003, vacancy rates appeared to peak in many of our markets and some positive net absorption of space started to occur. To date in 2004, the positive trend of reduced vacancy rates and positive net absorption has continued in most of our markets. As a result of improved job growth, leasing activity is up significantly and we believe that rental rates have stabilized in most of our markets. However, because vacancy rates are still at high levels in most markets, we do not expect any material improvement in rental economics through for the next twelve to eighteen months. While market rental rates have stabilized, rental rates on in-place leases in certain markets remain significantly above current market rental rates.

The occupancy in our portfolio of stabilized operating properties decreased to 87.1% at June 30, 2004 compared to 87.8% at December 31, 2003 and 88.9% at June 30, 2003. Rental rates on space that was re-leased in 2004 decreased an average of 21.4% in comparison to rates that were in effect under expiring leases. Although our top 25 tenants accounted for approximately 36.3% of our annualized minimum base rents, we believe that the diversity of our tenant base (no tenant accounted for more than 5% of annualized minimum base rents as of June 30, 2004) helps insulate us from the negative impact of tenant defaults and bankruptcies.

Debt Financing

We generally use unsecured, corporate-level debt, including senior unsecured notes and our unsecured credit facility, to meet our borrowing needs. As a component of this financing strategy, we continue to unencumber our assets where possible by repaying existing mortgage debt with unsecured debt. As of June 30, 2004, we had reduced our fixed rate mortgage debt to approximately \$347.6 million, or 18.6% of our total debt, from \$384.3 million, or 23.0% of our total debt, as of June 30, 2003.

We generally use fixed rate debt instruments in order to match the returns from our real estate assets. We also utilize variable rate debt for short-term financing purposes or to protect against the risk, at certain times, that fixed rates may overstate our long-term costs of borrowing if assumed inflation or growth in the economy implicit in higher fixed interest rates do not materialize. At times, our mix of variable and fixed rate debt may not suit our needs. At those times, we use derivative financial instruments including interest rate swaps and caps, forward interest rate options or interest rate options in order to assist us in managing our debt mix. We will either hedge our variable rate debt to give it a fixed interest rate or hedge fixed rate debt to give it a variable interest rate.

We have three investment grade ratings. As of June 30, 2004, Fitch Rating Services and Standard & Poors have each assigned their BBB rating to our prospective senior unsecured debt offerings and their BBB- rating to our prospective cumulative preferred stock offerings. Moody's Investor Service has assigned its Baa2 rating with a stable outlook to our prospective senior unsecured debt offerings and its Baa3 rating to our prospective cumulative preferred stock offerings. A downgrade in rating by any one of these rating agencies could result from, among other things, a change in our financial position or a downturn in general economic conditions. Any such downgrade could adversely affect our ability to obtain future financing or could increase the interest rates on our existing variable rate debt. However, we have no debt instruments under which the principal maturity would be accelerated upon a downward change in our debt rating.

Table of Contents**Management's Discussion and Analysis**

Our total debt at June 30, 2004 is summarized as follows:

(In thousands)

Fixed rate mortgages	\$ 347,574
Secured note payable	16,593
Unsecured credit facility	175,000
Senior unsecured notes	1,325,000
	<hr/>
	1,864,167
Unamortized discount and fair value adjustment, net	(13,989)
	<hr/>
	\$ 1,850,178
	<hr/>

Our fixed rate mortgage debt bore an effective weighted average interest rate of 7.86% at June 30, 2004 and had a weighted average maturity of 4.0 years. \$175.0 million (9.4%) of our total debt at June 30, 2004 bore a LIBOR-based variable interest rate and \$425.0 million (22.8%) of our debt was subject to variable interest rates through interest rate swap agreements. The interest rate on borrowings on our unsecured credit facility at June 30, 2004 was 1.98%.

Our primary external source of liquidity is our credit facility. On June 30, 2004, we entered into a new \$500.0 million, three year unsecured revolving credit facility with JPMorgan Chase Bank as administrative agent for a syndicate of banks. The facility replaced and was used to repay all amounts outstanding under our previous unsecured senior credit facility. We may increase the facility to \$700.0 million by our request at any time within 24 months of the closing, provided the funding commitments are increased accordingly. The facility can be extended one year at our option. The facility carries an interest rate of 65 basis points over 30-day LIBOR, or 1.98% as of June 30, 2004. As of June 30, 2004, \$175.0 million was drawn on the credit facility, \$35.9 million in letters of credit were outstanding, and we had \$289.1 million available for borrowing. On July 1, 2004, we drew \$160.0 million on our credit facility to retire \$150.0 million of senior unsecured debt and related accrued interest. As of July 9, 2004, \$360.0 million was drawn on the credit facility, \$35.9 million in letters of credit were outstanding, and we had \$104.1 million available for borrowing.

Our unsecured credit facility contains financial and other covenants with which we must comply. Some of these covenants include:

A minimum ratio of annual EBITDA (earnings before interest, taxes, depreciation and amortization) to interest expense of at least 2 to 1;

A minimum ratio of annual EBITDA to fixed charges of at least 1.5 to 1;

A maximum ratio of aggregate unsecured debt to tangible fair market value of our unencumbered assets of 60%;

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

A maximum ratio of total secured debt to tangible fair market value of 30%;

A maximum ratio of total debt to tangible fair market value of our assets of 55%; and

Restrictions on our ability to make dividend distributions in excess of 90% of funds from operations or the minimum amount necessary to enable us to maintain our status as a REIT.

As of June 30, 2004, we were in compliance with our loan covenants; however, our ability to draw on our unsecured credit facility or incur other unsecured debt in the future could be restricted by the loan covenants. Failure to comply with any of the covenants under our unsecured credit facility or other debt instruments could result in a default under one or more of our debt instruments. This could cause our lenders to accelerate the timing of payments and would therefore have a material adverse effect on our business, operations, financial condition or liquidity.

Table of Contents

Management's Discussion and Analysis

We have senior unsecured notes outstanding at June 30, 2004 as follows:

(In thousands)	Note Principal	Unamortized Discount	Fair Value Adjustment	Total
7.20% notes due in 2004*	\$ 150,000	\$	\$ 1,885	\$ 151,885
6.625% notes due in 2005	100,000	(424)		99,576
7.375% notes due in 2007	125,000	(434)		124,566
5.261% notes due in 2007	50,000	(102)		49,898
5.25% notes due in 2007	175,000	(924)	(2,257)	171,819
3.625% notes due in 2009	225,000	(727)	(5,341)	218,932
6.875% notes due in 2008	100,000	(1,515)		98,485
7.125% notes due in 2012	400,000	(4,150)		395,850
	<u>\$ 1,325,000</u>	<u>\$ (8,276)</u>	<u>\$ (5,713)</u>	<u>\$ 1,311,011</u>

* Retired July 1, 2004

All of the notes are unconditionally guaranteed by CarrAmerica Realty, L.P., one of our subsidiaries.

Our senior unsecured notes also contain covenants with which we must comply. These include:

Limits on our total indebtedness on a consolidated basis;

Limits on our secured indebtedness on a consolidated basis;

Limits on our required debt service payments; and

Compliance with the financial covenants of our credit facility.

We were in compliance with our senior unsecured notes covenants as of June 30, 2004.

We issued \$225.0 million principal amount of senior unsecured notes in March 2004 with net proceeds of approximately \$222.7 million. The notes bear interest at 3.625% per annum payable semi-annually beginning October 1, 2004. The notes mature on April 1, 2009. We used the proceeds from the notes to pay down our unsecured credit facility.

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

\$150.0 million of senior unsecured notes matured on July 1, 2004 and were repaid on that date using borrowings from our unsecured credit facility.

We repaid \$17.7 million of fixed rate mortgage debt in the first half of 2004 and converted a \$16.6 million mortgage to a note payable secured by a letter of credit.

Derivative Financial Instruments

On May 8, 2002, we entered into interest rate swap agreements with JP Morgan Chase and Bank of America, N.A. hedging \$150.0 million of senior unsecured notes due July 2004. We receive interest at a fixed rate of 7.2% and pay interest at a variable rate of six-month LIBOR in arrears plus 2.72%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$1.9 million. We recognized reductions in interest expense for the three months ended June 30, 2004 and 2003 of approximately \$0.7 and \$2.5 million, respectively, related to the swaps. We recognized reductions in interest expense for six months ended June 30, 2004 and 2003 of approximately \$1.9 and \$3.8 million, respectively, related to the swaps. As June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on the notes was reduced to 4.69%. The notes were repaid upon maturity on July 1, 2004 and the related interest rate swap agreement terminated.

On November 20, 2002, in conjunction with the issuance of \$175.0 million of senior unsecured notes, we entered into interest rate swap agreements with JP Morgan Chase, Bank of America, N.A. and Goldman, Sachs & Co. We receive interest at a fixed rate of 5.25% and pay interest at a variable rate of six-month LIBOR in arrears plus 1.405%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$(2.3) million. We recognized reductions in interest expense for the three months ended June 30, 2004 and 2003 of approximately \$0.6 and \$1.2 million, respectively, related to the swaps. We recognized reductions in interest expense for six months ended June 30, 2004 and 2003 of approximately \$1.8 and \$2.3 million, respectively, related to the swaps. As of June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on the notes was reduced to 3.22%.

Table of Contents

Management's Discussion and Analysis

On March 18, 2004, in conjunction with the issuance of \$225.0 million of 3.625% senior unsecured notes, we entered into \$100.0 million of interest rate swap agreements with JP Morgan Chase and Bank of America, N.A. We receive interest at a fixed rate of 3.625% and pay interest at a variable rate of six-month LIBOR in arrears plus 0.2675%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$(5.3) million. We recognized a reduction in interest expense for the three and six months ended June 30, 2004 of approximately \$0.2 and \$0.3 million, respectively, related to the swaps. As of June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on \$100.0 million of the notes was 3.12%.

As part of the assumption of \$63.5 million of debt associated with the purchase of two operating properties in August 2002, we purchased interest rate caps with a notional amount of \$97.0 million and LIBOR capped at 6.75%. As of June 30, 2004, the fair market value of these interest rate caps was not material.

In December 2003, we purchased an interest rate cap with a notional amount of \$100.0 million and LIBOR capped at 8.0% which expires in January 2005. As of June 30, 2004, the fair market value of this interest rate cap was not material.

Stock Repurchases and Dividends

On March 18, 2003, we redeemed 2,000,000 shares of our Series B Cumulative Redeemable Preferred Stock for \$50.0 million plus \$0.2 million of accrued dividends. Including this redemption, for the six months ended June 30, 2003, we repurchased or redeemed 2,188,035 shares of our preferred stock for approximately \$54.7 million excluding accrued and unpaid dividends.

Our Board of Directors has authorized us to spend up to \$400.0 million to repurchase our common stock, preferred stock and debt securities, excluding the 9.2 million shares repurchased from Security Capital in November 2001 and our preferred stock redemptions of 4.0 million, 2.0 million and 7.9 million shares in September 2002, March 2003 and October 2003, respectively, which were separately approved. Since the start of this program in mid-2000 through June 30, 2004, we have acquired approximately 10.4 million of our common shares for an aggregate purchase price of approximately \$296.9 million, including 322,600 shares for approximately \$7.9 million in the first half of 2003. We continue to monitor market conditions and other alternative investments in order to evaluate whether repurchase of our securities is appropriate.

We pay dividends quarterly. The maintenance of these dividends is subject to various factors, including the discretion of the Board of Directors, the ability to pay dividends under Maryland law, the availability of cash to make the necessary dividend payments and the effect of REIT distribution requirements, which require at least 90% of our taxable income to be distributed to stockholders. The table below details our dividend and distribution payments for the three and six months ended June 30, 2004 and 2003, respectively.

	For the three months ended June 30,		For the six months ended June 30,	
(In thousands)	2004	2003	2004	2003

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

Preferred stock dividends	\$ 3,774	\$ 4,312	\$ 7,548	\$ 9,936
Unit distributions	2,723	2,937	5,579	5,870
Common stock dividends	27,177	25,991	53,793	51,908
	<u>\$ 33,674</u>	<u>\$ 33,240</u>	<u>\$ 66,920</u>	<u>\$ 67,714</u>

Cash flows from operations is an important factor in our ability to sustain our dividend at its current rate. Cash flows from operations declined from \$85.0 million in 2003 to \$75.5 million in 2004 due in part to increased vacancy rates in our office property portfolio. If our cash flows from operations continue to decline, we may be unable to sustain our dividend payment at its current rate. In addition, under our line of credit, we generally are restricted from paying dividends that would exceed 90% of our funds from operations during any four-quarter period.

Table of Contents

Management's Discussion and Analysis

Capital Commitments

We will require capital for development projects currently underway and in the future. As of June 30, 2004, we had under construction approximately 600,000 rentable square feet in two office buildings, of which 259,000 rentable square feet had been placed in service, and one parking garage in joint venture projects in which we own a minority interest. These projects are expected to cost \$179.4 million, of which our total investment is expected to be approximately \$54.9 million. Through June 30, 2004, approximately \$141.2 million or 78.7% of total project costs had been expended on these projects. We have financed our investment in joint venture projects under construction at June 30, 2004 primarily from borrowings under our credit facility. We expect that our credit facility and project-specific financing of selected assets will provide the additional funds required to complete existing development projects and to finance the costs of additional projects we may undertake. As a result of market conditions, we believe we will be limiting our development activities in the near future and expect to concentrate our growth efforts on the acquisition of properties.

As of June 30, 2004, we had contracts to acquire two operating properties in North San Jose, California and one operating property in the Washington, D.C. metro area. On July 9, 2004, we paid \$25.8 million for the two properties in California and funded the purchase using our unsecured credit facility.

Unconsolidated Investments and Joint Ventures

We have minority ownership interests in two non-real estate operating companies, AgilQuest and essence, which we account for using the cost method and in which we invested \$2.8 million and \$1.7 million, respectively. We evaluate these investments regularly considering factors such as the companies' progress against their business plans, their operating results and estimated fair values of their equity securities. Based on these evaluations, we recognized impairment losses of \$1.1 million on our investment in AgilQuest in the fourth quarter of 2003 and \$500,000 on our investment in essence in the fourth quarter of 2002. In the future, additional impairment charges related to our investments may be required.

We have investments in real estate joint ventures in which we hold 15%-50% interests. These investments are accounted for using the equity method and therefore the assets and liabilities of the joint ventures are not included in our consolidated financial statements. Most of these joint ventures own and operate office buildings financed by non-recourse debt obligations that are secured only by the real estate and other assets of the joint ventures. We have no obligation to repay this debt and the lenders have no recourse to our other assets. As of June 30, 2004, we guaranteed \$40.0 million of debt related to a joint venture and have provided completion guarantees related to two joint venture projects for which total costs are anticipated to be \$173.3 million, of which \$148.1 million had been expended to date. We have not funded any amounts under these guarantees and do not expect any funding will be required in the future.

Our investments in these joint ventures are subject to risks not inherent in our majority owned properties, including:

Absence of exclusive control over the development, financing, leasing, management and other aspects of the project;

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

Possibility that our co-venturer or partner might:

become bankrupt;

have interests or goals that are inconsistent with ours;

take action contrary to our instructions, requests or interests (including those related to our qualification as a REIT for tax purposes); or

otherwise impede our objectives; and

Possibility that we, together with our partners, may be required to fund losses of the investee.

In addition to making investments in these ventures, we provide construction management, leasing and property management, development and architectural and other services to them. We earned fees for these services of \$1.7 million and \$1.8 million for the three months ended June 30, 2004 and 2003, respectively, and \$3.2 million and \$4.2 million for the six months ended June 30, 2004 and 2003, respectively. Accounts receivable from joint ventures and other affiliates were \$0.8 million at June 30, 2004 and \$1.8 million at June 30, 2003.

Table of Contents**Management's Discussion and Analysis****Guarantee Obligations**

Our obligations under guarantee agreements at June 30, 2004 are summarized as follows:

Type of Guarantee	Project Relationship	Term	Maximum Exposure	Carrying Value
Loan ¹	575 7th Street	Apr-05	\$ 40,000,000	\$
Loan ²	Atlantic Building	Mar-07	25,000,000	160,000
Completion ³	Atlantic Building	Mar-07	80,149,000	250,000
Loan ⁴	Shakespeare Theatre	Dec-04	16,500,000	175,000
Indemnification ⁵	HQ Global		unknown	
Loan ⁶	Square 320	Mar-05	16,070,000	135,000

1. Loan guarantee relates to a joint venture in which we have a 30% interest and for which we are the developer. It is a payment guarantee to the lender on behalf of the joint venture. If the joint venture defaults on the loan, we may be required to perform under the guarantee. We have a reimbursement guarantee from the other joint venture partner to repay us its proportionate share (70%) of any monies we pay under the guarantee.
2. Loan guarantee relates to a third party project for which we are the developer. It is a payment guarantee to the lender. If the third party defaults on the loan, we may be required to perform under the guarantee. We have a security interest in the third party's interest in the underlying property. In the event of a default, we can exercise our rights under the security agreement to take title to the property and sell the property to mitigate our exposure under the guarantee. We have entered into an agreement with the lender that permits us to acquire the lender's first position mortgage securing the loan if the third party defaults on the loan and we then make payment in full to the lender under the guarantee.
3. Completion guarantee relates to a third party project for which we are the developer. It is a completion guaranty to the lender. If the third party defaults on its obligation to construct the building, we may be required to perform. As long as there is no Event of Default under the loan agreement, the lender will continue to make funds available from the construction loan to complete the project.
4. Represents a payment guarantee on a third party project for which we are the developer. We have entered into an agreement with the lender that permits us to acquire the lender's first position mortgage securing the loan if the third party defaults on the loan and we then make payment in full to the lender under the guarantee.
5. See Part II, Item 1: Legal Proceedings for further discussion.
6. Loan guarantee relates to a third party project for which we are the developer. It is a payment guarantee to the lender. If the third party defaults on the loan, we may be required to perform under the guarantee. We have a security interest in the third party's interest in the underlying property. In the event of a default, we can exercise our rights under the security agreement to take title to the property and sell the property to mitigate our exposure under the guarantee. We have entered into an agreement with the lender that permits us to acquire the lender's first position mortgage securing the loan if the third party defaults on the loan and we then make payment in full to the lender under the guarantee.

In the normal course of business, we guarantee our performance of services or indemnify third parties against our negligence.

Funds from Operations

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

Funds from Operations (FFO) is a widely used measure of operating performance for real estate companies. We provide FFO as a supplement to net income calculated in accordance with accounting principles generally accepted in the United States of America (GAAP). Although FFO is a widely used measure of operating performance for equity REITs, FFO does not represent net income calculated in accordance with GAAP. As such, it should not be considered an alternative to net income as an indication of our operating performance. In addition, FFO does not represent cash generated from operating activities in accordance with GAAP, nor does it represent cash available to pay distributions and should not be considered as an alternative to cash flow from operating activities, determined in accordance with GAAP as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions. FFO is defined by the National Association of Real Estate Investment Trusts (NAREIT) as follows:

Net income - computed in accordance with GAAP;

Less gains (or plus losses) from sales of operating properties and items that are classified as extraordinary items under GAAP;

Plus depreciation and amortization of assets uniquely significant to the real estate industry;

Table of Contents**Management's Discussion and Analysis**

Plus or minus adjustments for unconsolidated partnerships and joint ventures (to reflect funds from operations on the same basis).

We believe that FFO is helpful to investors as a measure of our performance because it excludes various items included in net income that do not relate to or are not indicative of our operating performance, such as gains and losses on sales of real estate and real estate related depreciation and amortization, which can make periodic comparison of operating performance more difficult. Our management believes, however, that FFO, by excluding such items, which can vary among owners of similar assets in similar condition based on historical cost accounting and useful life estimates, can help compare the operating performance of a company's real estate between periods or as compared to different companies. Our FFO may not be comparable to FFO reported by other REITs. These other REITs may not define the term in accordance with the current NAREIT definition or may interpret the current NAREIT definition differently than us.

The following table provides the calculation of our FFO and a reconciliation of FFO to net income for the periods presented:

(In thousands)	For the three		For the six	
	months ended June 30,		months ended June 30,	
	2004	2003	2004	2003
Net income	\$ 14,007	\$ 16,829	\$ 29,237	\$ 35,800
Adjustments				
Minority interest	2,139	2,693	4,165	5,769
FFO allocable to Unitholders	(3,502)	(4,274)	(7,060)	(8,779)
Depreciation and amortization	35,516	35,653	70,754	68,996
Minority interests (non-Unitholders share of depreciation, amortization and net income)	(267)	(327)	(540)	(607)
(Gain) loss on sale of properties	48	(3,531)	(8)	(3,254)
FFO as defined by NAREIT ¹	\$ 47,941	\$ 47,043	\$ 96,548	\$ 97,925

¹ FFO as defined by NAREIT includes impairment losses on real estate.

FORWARD-LOOKING STATEMENTS

Statements contained in this Form 10-Q which are not historical facts may be forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 (the "Exchange Act"). We intend such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in Section 21E of the Exchange Act. Such statements (none of which is intended as a guarantee of performance) are subject to certain risks and uncertainties, which could cause our actual future results, achievements or transactions to differ materially from those projected or anticipated. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date this Form 10-Q is filed with the SEC. A number of important factors could cause actual results to differ materially from those indicated by the forward-looking statements, including, but not limited to, the risks described in our annual report on Form 10-K for the year ended December 31, 2003. Such factors include, among others:

National and local economic, business and real estate conditions that will, among other things, affect:

Demand for office space,

The extent, strength and duration of any economic recovery, including the effect on demand for office space and the creation of new office development,

Availability and creditworthiness of tenants,

The level of lease rents, and

The availability of financing for both tenants and us;

Adverse changes in the real estate markets, including, among other things:

The extent of tenant bankruptcies, financial difficulties and defaults,

Table of Contents

Management's Discussion and Analysis

The extent of future demand for office space in our core markets and barriers to entry into markets which we may seek to enter in the future,

Our ability to identify and consummate attractive acquisitions on favorable terms,

Our ability to consummate any planned dispositions in a timely manner on acceptable terms, and

Changes in operating costs, including real estate taxes, utilities, insurance and security costs;

Actions, strategies and performance of affiliates that we may not control or companies in which we have made investments;

Ability to obtain insurance at a reasonable cost;

Ability to maintain our status as a REIT for federal and state income tax purposes;

Ability to raise capital;

Effect of any terrorist activity or other heightened geopolitical risks;

Governmental actions and initiatives; and

Environmental/safety requirements.

For further discussion of these and other factors that could impact our future results, performance, achievements or transactions, see the documents we file from time to time with the Securities and Exchange Commission, and in particular, the section titled "The Company's Risk Factors" in our Annual Report on Form 10-K.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our future earnings and cash flows and the fair values of our financial instruments are dependent upon prevailing market rates. Market risk associated with financial instruments and derivative and commodity instruments is the risk of loss from adverse changes in market prices or rates. We manage our risk by matching projected cash inflows from operating activities, financing activities and investing activities with projected cash outflows to fund debt payments, acquisitions, capital expenditures, distributions and other cash requirements. We may also use derivative financial instruments at times to limit market risk. Derivative financial instruments may be used to convert variable rate debt to a fixed rate basis, to convert fixed rate debt to a variable rate basis or to hedge anticipated financing transactions. We use derivative financial instruments only for hedging purposes, and not for speculation or trading purposes.

On May 8, 2002, we entered into interest rate swap agreements with JP Morgan Chase and Bank of America, N.A. hedging \$150.0 million of senior unsecured notes due July 2004. We receive interest at a fixed rate of 7.2% and pay interest at a variable rate of six-month LIBOR in arrears plus 2.72%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$1.9 million. We recognized reductions in interest expense for the three months ended June 30, 2004 and 2003 of approximately \$0.7 and \$2.5 million, respectively, related to the swaps. We recognized reductions in interest expense for six months ended June 30, 2004 and 2003 of approximately \$1.9 and \$3.8 million, respectively, related to the swaps. As June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on the notes was reduced to 4.69%. The notes were repaid upon maturity on July 1, 2004 and the related interest rate swap agreement terminated.

On November 20, 2002, in conjunction with the issuance of \$175.0 million of senior unsecured notes, we entered into interest rate swap agreements with JP Morgan Chase, Bank of America, N.A. and Goldman, Sachs & Co. We receive interest at a fixed rate of 5.25% and pay interest at a variable rate of six-month LIBOR in arrears plus 1.405%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$(2.3) million. We recognized reductions in interest expense for the three months ended June 30, 2004 and 2003 of approximately \$0.6 and \$1.2 million, respectively, related to the swaps. We recognized reductions in interest expense for six months ended June 30, 2004 and 2003 of approximately \$1.8 and \$2.3 million, respectively, related to the swaps. As of June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on the notes was reduced to 3.22%.

On March 18, 2004, in conjunction with the issuance of \$225.0 million of 3.625% senior unsecured notes, we entered into \$100.0 million of interest rate swap agreements with JP Morgan Chase and Bank of America, N.A. We receive interest at a fixed rate of 3.625% and pay interest at a variable rate of six-month LIBOR in arrears plus 0.2675%. The interest rate swaps mature at the same time the notes are due. The swaps qualify as fair value hedges for accounting purposes. As of June 30, 2004, the fair value of the interest rate swaps was approximately \$(5.3) million. We recognized a reduction in interest expense for the three and six months ended June 30, 2004 of approximately \$0.2 and \$0.3 million, respectively, related to the swaps. As of June 30, 2004, taking into account the effect of the interest rate swaps, the effective interest rate on \$100.0 million of the notes was 3.12%.

As part of the assumption of \$63.5 million of debt associated with the purchase of two operating properties in August 2002, we purchased interest rate caps with a notional amount of \$97.0 million and LIBOR capped at 6.75%. As of June 30, 2004, the fair market value of these interest rate caps was not material.

In December 2003, we purchased an interest rate cap with a notional amount of \$100.0 million and LIBOR capped at 8.0% which expires in January 2005. As of June 30, 2004, the fair market value of this interest rate cap was not material.

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

Our unsecured line of credit carries an interest rate of 30-day LIBOR plus 0.65%. This exposes us to the risk of higher interest costs if 30-day LIBOR should increase above its current low levels. A 10% increase in the current interest rate would have increased interest expense on the line of credit approximately \$0.1 million for the first six months of 2004.

If the market rates of interest on our interest rate swap agreements increase by 10% (or approximately 37 basis points), our interest expense would have increased by approximately \$0.4 million in the second quarter of 2004 and \$0.8 million for the first six months of 2004.

Table of Contents

Any other significant changes in our market risk that have occurred since the filing of our Annual Report on Form 10-K for the year ended December 31, 2003 are summarized in the Liquidity and Capital Resources section of the Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

Evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness as of June 30, 2004 of the design and operation of our disclosure controls and procedures as defined in Rule 13a-15 of the rules promulgated under the Securities and Exchange Act of 1934, as amended. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the design and operation of these disclosure controls and procedures were effective as of the end of the period covered by this report.

Part II

OTHER INFORMATION

Item 1. Legal Proceedings

HQ Global Stockholders

We are currently involved in a lawsuit filed in April 2000 by two stockholders of HQ Global arising out of the June 2000 merger transaction involving HQ Global and VANTAS Incorporated. These two stockholders originally brought claims against HQ Global, the board of directors of HQ Global, FrontLine Capital Group and us in Delaware Chancery Court. The two stockholders allege that, in connection with the merger transaction, we breached our fiduciary duties to the two stockholders and breached a contract with the stockholders. The claim relates principally to the allocation of consideration paid to us with respect to our interest in an affiliate of HQ Global that conducted international executive suites operations. The stockholders asked the court to rescind the transaction, or in the alternative to award compensatory and rescissory damages. The court determined that it would not rescind the merger transaction, but held open the possibility that compensatory damages could be awarded or that another equitable remedy might be available.

In connection with the HQ Global/VANTAS merger transaction, we agreed to indemnify all of the individuals who served as directors of HQ Global at the time of the transaction, including Thomas A. Carr, Oliver T. Carr, Jr. (who retired from our Board of Directors as of April 29, 2004) and Philip Hawkins, who currently serve as directors and/or executive officers of us, with respect to any losses incurred by them arising out of the above litigation (as well as related litigation that was resolved in our favor in the second quarter of 2003), if they first tried and were unsuccessful in getting the losses reimbursed by HQ Global or from insurance proceeds. It was expected at the time that these former directors would be indemnified against any of these losses by HQ Global, as required by HQ Global's certificate of incorporation and bylaws. HQ Global indicated that it did not intend to satisfy its indemnity obligation to these directors. As a result, we have paid the costs incurred by these directors in connection with the above litigation. We have paid approximately \$779,000 of costs pursuant to this indemnification arrangement, all of which represents amounts paid to legal counsel for these directors for this suit and the related litigation that was resolved in our favor in the second quarter of 2003. The directors of HQ Global involved in the Delaware litigation filed a proof of claim in the company's bankruptcy proceedings for their legal fees. A settlement of this claim was reached on June 25, 2004. In pertinent part, pursuant to the terms of the

Edgar Filing: CARRAMERICA REALTY CORP - Form 10-Q

settlement agreement, the parties: (i) executed a mutual release of claims; (ii) agreed that the directors will be deemed to hold collectively a single allowed unsecured non-priority claim in the amount of \$300,000 against the estate of HQ Global; and (iii) preserved the rights of the directors to pursue claims, if any, they may have against HQ Global's insurance carriers which have denied coverage for the claims in the Delaware litigation. This settlement is subject to the approval of the bankruptcy court. We do not expect to receive any material proceeds as a result of the directors' settlement of their proof of claim.

We believe that these claims, including those asserted against us and against the former directors who we are obligated to indemnify, are without merit and that we and the former directors will ultimately prevail in this action, although we cannot assure you that the court will not find in favor of these stockholders. If the court did find in favor of these stockholders, such adverse result or any indemnification obligation arising from such adverse result could have a material adverse effect on our results of operations. Currently, these stockholders have not asserted the amount of any potential damages and, based on the preliminary proceedings to date, we are unable to determine a potential range of loss with respect to the claims against us or the former directors.

Broadband Office, Inc.

On May 8, 2003, Broadband Office, Inc. (Broadband Office) and the official committee of unsecured creditors of Broadband Office Inc. filed a complaint in the United States Bankruptcy Court for the District of Delaware against a group of REITs, real estate operating companies and individuals, including us, our subsidiaries and Philip Hawkins, our President and Chief Operating Officer, relating to the formation, management and capitalization of Broadband Office. We were an equity investor in and customer of Broadband Office, and, at our request, Mr. Hawkins served as a member of the board of directors of Broadband Office until his resignation from the board of Broadband Office on May 2, 2001. Broadband Office filed for bankruptcy protection on May 9, 2001. The complaint, among other things, alleges, breaches of fiduciary duties by us and Mr. Hawkins as a member of the Broadband Office board, seeks to recharacterize our investment as a holder of common stock to be one as a general unsecured creditor and/or as a general partner responsible jointly with all other alleged general partners for the outstanding debts of the corporation, and also seeks recovery of alleged preference payments made to us or our subsidiaries. The plaintiffs seek relief in an amount in excess of \$300 million jointly and severally from all defendants. Our board of directors has determined that, based on Maryland law and our charter, we are permitted to indemnify Mr. Hawkins in connection with these claims, and has authorized us to advance to or on behalf of Mr. Hawkins his costs and expenses incurred in defending this claim. Currently our legal counsel is also defending Mr. Hawkins in this matter and we are paying those legal fees directly. If it is later determined that Mr. Hawkins was not entitled to indemnification under Maryland law or our charter, Mr. Hawkins has agreed to reimburse us for any costs or expenses advanced to him or on his behalf. On October 29, 2003, we filed a motion to dismiss all claims asserted in the complaint. Due to the inherent uncertainties of the judicial process and the early stage of this action, we are unable to either predict the outcome of or estimate a range of potential loss associated with, this litigation including our agreement to indemnify Mr. Hawkins. We dispute the plaintiffs' claims and intend to vigorously defend this matter. While we believe that the outcome of this matter will not have a material adverse effect on our financial position or overall trends in results of operations, litigation is subject to inherent uncertainties. If this matter is not resolved in our favor, there exists the possibility of a material adverse impact on our financial condition and results of operations when the matter is resolved.

Winstar Communications

September 3, 2003, Winstar Communications and several affiliated entities (Winstar) brought suit against us, a number of other leading commercial real estate companies and the Building Owners and Managers Association International and Building Owners and Managers Association of New Jersey trade associations (BOMA). The suit asserts claims for violations of federal and state antitrust law, federal communications law, state business tort law, and seeks both monetary damages of an unspecified amount and injunctive relief. The claims are premised upon allegations that the real estate firms, through and with BOMA, colluded and agreed to deny Winstar necessary access to commercial real estate by denying Winstar access and/or charging Winstar disadvantageous and discriminatory fees that were higher than those charged to the incumbent local telephone companies. As a result of this alleged collusive conduct, Winstar claims that it has been damaged in its ability to provide competitive telecommunications services to customers leasing office space in the defendants' commercial real estate properties.

Due to the inherent uncertainties of the judicial process and the early stage of this action, we are unable to either predict the outcome of, or estimate a range of potential loss associated with, this litigation. We dispute the plaintiffs' claims and intend to vigorously defend this matter. While we believe that the outcome of this matter will not have a material adverse effect on our financial position or overall trends in results of operations, litigation is subject to inherent uncertainties. If this matter is not resolved in our favor, there exists the possibility of a material adverse impact on our financial condition and results of operations when the matter is resolved.

Other Proceedings

We are party to a variety of other legal proceedings arising in the ordinary course of business. All of these matters, taken together, are not expected to have a material adverse impact on us.

Item 4. Submission of Matters to a Vote of Security Holders

The 2004 annual meeting of stockholders was held on April 29, 2004. We solicited proxies for the meeting pursuant to Regulation 14 under the Securities and Exchange Act of 1934, as amended; there was no solicitation in opposition to our management's nominees as listed in the proxy statement and the nominees were elected.
