PROXY STATEMENT

The Board of Directors of FactSet Research Systems Inc. (the Company or FactSet) delivers this Proxy Statement and voting instructions, in connection with the solicitation of proxies which will be voted at the Annual Meeting of Stockholders of FactSet (the Meeting). The Meeting will be held at 2:00 p.m. Eastern Standard Time on Tuesday, December 18, 2007, at 601 Merritt 7 Norwalk, CT 06851, and any adjournment or postponement thereof, for the purposes set forth in the accompanying Notice of Annual Meeting of Stockholders. The Proxy Statement was made available to FactSet s stockholders on October 30, 2007.

Record Date and Share Ownership. The only outstanding voting security of FactSet is its Common Stock, \$0.01 par value per share (the Common Stock). Stockholders of record at the close of business on October 19, 2007 will be entitled to vote at the Meeting on the basis of one vote for each share of Common Stock held. On October 19, 2007, there were 48,630,798 shares of Common Stock outstanding.

Submitting and Revoking Your Proxy. If you complete and submit your proxy, the persons named as proxies will follow your instructions. If you submit a proxy card but do not fill out the voting instructions on the proxy card, the persons named as proxies will vote your shares as follows:

1. To elect four directors to the Board of Directors for three-year terms.
2. To ratify the appointment of the accounting firm of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the fiscal year ending August 31, 2008.
3. To transact such other business as may properly come before the Annual Meeting or any adjournment or postponement of the Annual Meeting.

In addition, if other matters are properly presented for voting at the annual meeting, the persons named as proxies will vote on such matters in accordance with their best judgment. We have not received notice of other matters that may be properly presented a vote at the annual meeting.

Your stockholder vote is important. Stockholders of record may vote their proxies by Internet, telephone or mail. Stockholders who execute proxies may revoke them at any time before they are exercised by written notice to the Secretary of the Company at or prior to the Meeting by timely delivery of a valid, later-dated proxy or by voting by ballot at the Meeting. The cost of the solicitation of proxies will be borne by FactSet.

Expenses of Solicitation. The Company will pay the costs of preparing, printing and mailing this Notice of Annual Meeting of Stockholders and Proxy Statement, the enclosed proxy card and the Company s 2007 Annual Report. The Company will reimburse persons holding shares of Common Stock in their names or in the names of nominees, but not owning such shares beneficially, such as brokerage houses, banks and other fiduciaries, for the expense of forwarding solicitation materials to their principals. FactSet will pay all of the costs of solicitation of proxies, estimated at approximately \$25,000 for the printing and distribution of the proxies, which are mailed along with our annual report. The solicitation of proxies will be conducted primarily by mail, but may also include telephone, facsimile or oral communications by directors, officers or regular employees of the Company acting without special compensation. If you hold your shares through a bank, broker or other holder of record and share a single address and same last name with another stockholder, you may have received notice that only one Proxy Statement and Annual Report will be sent to your address unless you instructed the holder of record to the contrary. This practice, known as householding , reduces multiple mailings to your household and also reduces our printing and postage costs. However, if you wish to receive additional copies of our Proxy Statement or Annual Report, please contact our Investor Relations Department at 203-810-1000 or write to that department at our corporate headquarters address.

Vote Tabulation. Under the Delaware General Corporation Law, the election of FactSet s Directors requires a plurality of the votes represented in person or by proxy at the Meeting and the ratification of the selection of independent public auditors requires that the votes in favor exceed the

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF 14A

votes against. Mellon Investor Services will tabulate votes cast by proxy or in person at the Meeting. If you abstain from voting on any or all proposals you will be included in the number of stockholders present at the

Meeting for the purposes of determining the presence of a quorum. Abstentions will not be counted either in favor of or against the election of the nominees or other proposals. Under the rules of the National Association of Securities Dealers, brokers holding stock for the accounts of their clients who have not been given specific voting instructions as to a matter by their clients may vote their clients' proxies at their own discretion.

The Board reviews the committee's recommendations and determines the amount of director compensation. For fiscal 2007, this compensation consisted of:

Cash Compensation.

A \$25,000 annual retainer paid quarterly.

An additional \$2,500 annual retainer to each chairman of a Board Committee.

An additional \$2,500 annual retainer to each Audit Committee member.

Equity Compensation. Each non-employee director participates in the FactSet Non-Employee Directors Equity Compensation Plan which was approved by shareholders. The plan allows grants of stock options, restricted stock, unrestricted stock, or any combination thereof, as the Nominating and Corporate Governance Committee determines, to non-employee directors. In 2007, each non-employee director was granted 4,500 non-qualified stock options. Following a Board resolution of October 18, 2006, these awards for each director's service on the Board will be made on January 15 (or the next succeeding business day, if such date is not a business day) of each year. The exercise price of each non-qualified stock option is the closing price of FactSet's common shares on the date of grant. New Directors will receive options to purchase up to 25,000 shares of FactSet common stock, to be determined by the Compensation Committee and granted on or near the date of their first Annual Meeting. Non-qualified stock options granted to Directors vest ratably at 20% per year over five years upon the anniversary date of each grant and expire ten years from the date the options were granted. Each non-employee Director is entitled to one FactSet password at no charge. The password provides access to the FactSet system to allow Directors to use FactSet's suite of products and services.

Expenses. The Company pays or reimburses directors for travel, lodging and related expenses incurred in connection with attending Board, Committee and stockholder meetings and other Company business related events. From time to time, the Company may reimburse a director's expenses for his/her participation in third party-supplied continuing education related to the director's Board or Committee service.

The exercise price was \$58.78 per share, being 100% of the NYSE closing price of the Company's common

stock on that date. The full grant date value of this option grant under SFAS 123(R) was \$477,000 or \$95,400 per director. This amount will be expensed ratably over the next five years as the option vest. The assumptions used in computing these amounts are included in Note 12 to the Company's fiscal 2007 financial statements in the 2007 Annual Report on Form 10-K. At August 31, 2007, the non-employee directors had the following outstanding stock option awards, some of which were not fully or partially vested: Scott Billeadeau, 42,000 shares; Joseph E. Laird, Jr., 58,000 shares; James J. McGonigle, 37,500 shares; Walter F. Siebecker, 91,500 shares; Charles J. Snyder, 31,500 shares; Joseph R. Zimmer, 0 shares.

- (2) On February 14, 2007, FactSet elected Joseph R. Zimmer to its Board of Directors. As such, his compensation reflects serving on the Board from that date through August 31, 2007, which is approximately 6.5 months.

interviews of an interested candidate by the Chairman of the Nominating and Corporate Governance Committee, at least one other committee member and the Chief Executive Officer;

a report to the Board by the Nominating and Corporate Governance Committee on the selection process;

the recommendation by the Nominating and Corporate Governance Committee of a nominee to the Board; and

the formal nomination of the candidate by the Board for inclusion in the slate of directors for the annual meeting of stockholders or appointment by the Board to fill a vacancy between shareholder meetings.

For candidates proposed to if, the Nominating and Corporate Governance Committee requires: (i) the candidate's full name, address, email and phone number; (ii) a verbal statement by the candidate that he or she wishes to be nominated and is willing and able to serve as a director; (iii) a verbal statement of the good faith belief by the proposing stockholder that the candidate meets the Company's criteria, and (iv) such other written documentation as the Committee may request to permit a determination by the Board as to whether such candidate meets the required and desired director selection criteria set forth in the FactSet Bylaws, Corporate Governance Guidelines and the FactSet Research Systems Inc. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Board's Audit Committee is responsible for review, approval, or ratification of related-person transactions between FactSet or its subsidiaries and related persons. Under SEC rules, a related person is a director, officer, nominee for director, or 5% stockholder of the company since the beginning of the last fiscal year and their immediate family members. The Company monitors any transaction or series of transactions in which the Company is a participant, the amount involved exceeds \$100,000, and a related person has a direct or indirect material interest.

The Audit Committee would determine whether the related person has a material interest in a transaction and would approve, ratify, rescind, or take other action with respect to the transaction in its discretion. In accordance with the New York Stock Exchange listing requirements, the Company does not have relationships with any directors in which the director is compensated in excess of \$100,000, excluding fees for board service. In fiscal 2007, there were no related-person transactions under the relevant standards.

COMPENSATION COMMITTEE REPORT

The Compensation Committee (the Committee) is responsible for administering FactSet's executive compensation policies and practices. The Committee is composed solely of independent directors and reports regularly to the Board. Independent directors are not eligible to participate in any of the plans or programs the Committee administers. In fiscal 2007, the Committee reviewed compensation, including stock options, for the Chairman and the Chief Executive Officer, the President and Chief Operating Officer, the Chief Financial Officer and Treasurer, the Director of U.S. Investment Management Services and the Director of Investment Banking and Brokerage Services. The Committee reviews and approves the aggregate number of options granted to employees to purchase Common Stock of FactSet. The Committee also reviews the compensation, including stock options, for each senior executive team member as well as for those employees who report directly to either the Chief Executive Officer or the President and Chief Operating Officer.

The Compensation Committee reviewed and discussed with management the Compensation Discussion and Analysis below and recommended to the Board that it be included in this Proxy Statement. The Compensation Committee has represented to management that, to the extent that the Compensation Discussion and Analysis purports to disclose the Compensation Committee's deliberations and philosophy in making executive compensation decisions and policy, it is accurate and materially complete.

COMPENSATION DISCUSSION AND ANALYSIS

This compensation discussion and analysis (CD&A) is intended to provide context for the decisions underlying the compensation reported in the executive compensation tables included in this Proxy Statement for the Company's Chief Executive Officer (CEO), the Chief Financial Officer (CFO) and the three other executive officers who had the highest total compensation for fiscal 2007, as set forth in the Summary Compensation Table below (these five executive officers are collectively referred to as the Named Executive Officers or the NEOs). The Compensation Committee of the Company's Board of Directors is responsible for policies and decisions regarding the compensation and benefits for NEOs. The Compensation Committee also administers our stock option plans. Certain facts described in this CD&A reflect Compensation Committee deliberations about which management does not have personal knowledge, although the Compensation Committee has advised management that the information in this CD&A is accurate and materially complete.

Executive Compensation Philosophy

FactSet has historically established executive compensation based upon the following goals and principles:

Provide appropriate incentives for both individual and business performance

Link the long-term financial interests of key employees and FactSet's stockholders via stock-based incentives

Maintain executive compensation at levels relative with other members of senior management

Attract and retain talented personnel by considering compensation offered for similar positions by other companies in the technology and financial information industries

Provide appropriate incentives for both individual and business performance. Approximately 50% of each Named Executive Officer's total compensation is performance-based variable compensation, which rewards the executive for annual business performance against pre-determined goals. The Compensation Committee has designed the executive compensation program to encourage Named Executive Officers to strive for outstanding individual performance, which is expected in turn to drive the positive performance of the Company as a whole. The Compensation Committee reviews the individual goals of each Named Executive Officer prior to the end of each fiscal year to determine the executive's performance relative to stated objectives, both quantitative as well as qualitative. The fiscal 2007 qualitative goals were organic subscription growth of 21% and diluted earnings per share growth greater than organic revenue growth. The Named Executive Officer's achievement of certain goal levels will dictate, with the application of some discretion by the Committee, the executive's bonus for the fiscal year just completed as well as salary levels for the coming fiscal year.

Link the financial interests of key employees and FactSet's stockholders via stock-based incentives. The Compensation Committee seeks to motivate executives to work conscientiously to achieve both short term and long term goals and, thereby, create shareholder value. Equity-based compensation, including stock options, has regularly represented a significant portion of total compensation. With stock options, executives only benefit if our stock price appreciates from the date of grant of the award. The Compensation Committee has also viewed options as a method, not only of encouraging the Named Executive Officers to drive Company performance in the long term, but also of encouraging retention of officers. The Compensation Committee has also, in this regard, recognized the outright share ownership of many Named Executive Officers as a positive characteristic in determining option grant levels. Named Executive Officers' interests have been aligned in the past with those of shareholders generally, and are anticipated to remain so aligned due in part to the large share ownership such officers currently maintain.

Maintain executive compensation at levels relative with other members of management. In addition to the other elements relevant to determining Named Executive Officers' compensation, FactSet's Compensation Committee has also considered the potential difference between the total compensation package offered to its top executives and the compensation of other employees, both management and non-management. The Compensation Committee determines compensation and stock-based incentive awards for the Named Executive Officers at the same time as it approves pools for the Company as a whole. The Compensation Committee has attempted to provide compensation to Named Executive Officers that both recognizes their achievements, but also maintains internal pay equity in comparison with other executives and the general employee base. This awareness has helped with retention not only at the senior executive level but also at other levels in developing management of the Company.

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF 14A

Attract and retain talented personnel. The Company operates in several highly competitive labor markets and must ensure that total compensation compares well with that offered by competitors in those markets. The Compensation Committee has designed the executive compensation

Table of Contents

program bearing in mind the compensation offered by other companies in the technology and financial information industries, to the extent such information is publicly available. The Committee also considers that the Named Executive Officers' share ownership of FactSet stock is, in some cases, a significant point of distinction from other companies in determining compensation.

Elements of Compensation

Overall, FactSet aims to deliver compensation contingent on achievement of Company and individual performance levels. Compensation is delivered through the following major components, as described below:

Base Salary. The Compensation Committee has established base salaries according to the experience and qualifications of the individual executives. Generally, base salaries are intended to be sufficiently competitive to attract and retain key employees, although they are secondary to a view of total cash compensation and are considered along with other components, such as stock based incentives. Salaries for Named Executive Officers are also considered in the context of compensation to employees of the Company in the aggregate.

Annual Bonus. The Compensation Committee has determined annual bonuses have been determined on a discretionary basis considering a number of factors including FactSet's profitability, revenue growth, achievement of strategic and department goals, individual performance and competitive market practices. In the normal course of business, the Committee determines the bonuses for the named Executive Officers based on our operational and financial performance, as described in further detail below.

Stock Based Incentives. Stock options have been intended to align incentives with long-term stock performance and act as a motivational and retention tool. The Compensation Committee has also recognized the unique significant ownership stake of the Named Executive Officers in the Company and consequently has not mandated that our executive officers maintain a specified level of stock ownership in our Company. The Committee made stock option grants in fiscal 2007 to selected employees based on individual contribution and potential. Section 162(m) of the Internal Revenue Code of 1986, as amended, imposes a limitation on the deductibility of nonperformance-based compensation in excess of \$1 million paid to the Named Executive Officers. As such, compensation paid in fiscal 2007 by FactSet is fully tax-deductible. The tax deductibility of compensation for the named Executive Officers will be preserved as long as such actions are consistent with the Committee's compensation policies and objectives and are in the best interests of the Company and its stockholders.

In a further effort to drive long-term performance, in fiscal 2007 and 2006, the Compensation Committee approved performance based options, in addition to standard stock options, that have been granted to Named Executive Officers as well as other employees of the Company. Performance-based stock options require management to make assumptions regarding the likelihood of achieving Company performance goals. The number of performance-based options that vest will be predicated on the Company achieving the least favorable performance levels of organic subscriptions or diluted earnings per share during the two years ended August 31, 2008 and 2009. Dependent on the financial performance levels attained, 0%, 20%, 60% or 100% of the performance-based stock options will ultimately vest to the grantees of those stock options. Performance levels, vesting percentages and the ratio of performance options granted to all options granted are identical for the Named Executive Officers and all other employees who received option grants.

Perquisites and Personal Benefits. The Company's policy is to not extend perquisites or personal benefits to employees other than for limited and specifically defined business purposes. The incremental costs to the Company in 2007 of those benefits provided to Named Executive Officers that the SEC deems to be perquisites and personal benefits are reported in the Summary Compensation Table (included in the amounts reported in the column captioned "All Other Compensation" and further detailed in an accompanying supplemental table). The Compensation and Audit Committees exercise oversight over the perquisites and personal benefits that are made available to Named Executive Officers. The Compensation Committee determined that the perquisites and personal benefits available to Named Executive Officers in 2007, and their costs to the Company, were reasonable and properly disclosed to shareholders. In addition, Named Executive Officers are able to participate in the same defined benefit plans as all other eligible employees, including health, retirement, life insurance, and disability plans, as well as an employee stock purchase plan.

The Committee believes that the fiscal 2007 compensation of the named Executive Officers was aligned with FactSet's performance and returns to shareholders and provided a balanced mix between base pay and incentive compensation.

Post-Termination Compensation

Beyond allowing executives to participate in the Company's 401(k) plan, under which the Company matches contributions for all employees up to an \$8,000 maximum (and subject to any limitations imposed by ERISA), FactSet does not provide any other post-employment benefits to our executive officers or any employees. However, Mr. Walsh is entitled to certain severance benefits pursuant to his employment agreement in the event of a change in control of the Company or his separation from the Company under certain circumstances. His additional severance and

change in control benefits are described below under the heading Potential Payments upon Termination or Change in Control.

Table of Contents

Process of Determining Executive Compensation

FactSet has not entered into any employment agreements with any of its Named Executive Officers, other than an agreement that grants certain rights to Mr. Walsh in the event of a separation from the Company. As such, FactSet is not bound by any contractual salary, incentive grants or other compensation requirements for the Named Executive Officers. FactSet's Compensation Committee has not historically used the services of a compensation consultant. The Committee has considered in the determination of stock options grants and bonuses information provided to it by management, at the Committee's request, regarding the compensation levels of executives at designated peer companies.

In a series of meetings, the Compensation Committee determines appropriate stock option grants, bonus levels for the fiscal year completed and salary for the upcoming year for the Named Executive Officers. The Compensation Committee follows the Company's Guidelines for Stock Awards, which apply to awards for Named Executive Officers as well as all other employees. The Guidelines require management to study, make recommendations and provide supporting analysis to the Compensation Committee regarding proposed stock awards. The supporting analysis shared with the Committee provides details about each executive's cash and total compensation, existing options, the amounts vested and unvested and the percentage of total compensation that the suggested option grant would represent. The materials also demonstrate the aggregate amount of options and other compensation that have been historically granted and are proposed to be granted in the aggregate to operational groups of the Company. In addition, management reviews with the Committee the various Company performance levels and the option grants that would vest based on the various performance targets. On the basis of such materials, prepared at the Committee's request, the Compensation Committee approves option grants for each member of the Company's Executive Committee, which includes the Named Executive Officers. The Committee then also separately approves the option grant for the Chief Executive Officer. Typically, during the same meeting, the Compensation Committee further approves total option grants for all FactSet employees in the aggregate. The Compensation Committee thus determines awards for the Named Executive Officers in the context of considering grants for employees of the Company as a whole.

The Compensation Committee determines bonuses for the Named Executive Offices in a process similar to that used for determining options grants. In a series of meetings, the Compensation Committee considers materials prepared by management at the Committee's request and direction, detailing the historical salary, bonus and total cash compensation levels of the Named Executive Officers and other members of the Company's Executive Committee. In addition, management provides to the Compensation Committee materials outlining the individual performance of each Named Executive Officer with respect to his goals and objectives for the past year, both qualitative and quantitative, measured against financial goals for the Company's performance as well as quantitative performance in the individual executive's functional area. Management also provides the Committee with materials regarding the overall financial performance of the Company as well as operational and strategic accomplishments during the past fiscal year. Historically, Management has also provided an evaluation during a meeting of the contribution to the performance of the Company by each Named Executive Officer. The Committee members then separately make their determinations as to the bonus for the past year and salary for the upcoming year for each Named Executive Officer. Management does not participate in this deliberation and the Chief Executive is not present for discussions regarding his own compensation. Typically at the same meeting, the Compensation Committee approves the total bonus pool for the Company's operational areas as a whole, so that compensation to the Named Executive Officers is made in the larger context of compensation for all the Company's employees.

In addition, the Compensation Committee reviews executive compensation data from a peer group of similar organizations, as defined by the Compensation Committee and management. The peer group consists of Advent Software, Inc., The Advisory Board Company, Arbitron Inc., The Corporate Executive Board Company, IHS Inc., Interactive Data Corporation and Morningstar, Inc. The Compensation Committee analyzed competitive compensation levels for comparable executive positions in the peer group. Their market analysis examined base salary, total cash compensation and total direct compensation, which includes equity-based components of compensation.

Based on competitive market data, the Compensation Committee believes that its total target compensation for NEOs is highly competitive. In some instances, however, the Company may provide total compensation below the 75th percentile for a particular position, based on a variety of factors, including the executive's operating responsibilities, management level, or unique contribution in the time period under question. In general, the Company's long-term equity-based incentive compensation for NEOs is indicative of its commitment to stock ownership and growth with the Company.

Table of Contents**EXECUTIVE COMPENSATION**

The tables below present fiscal 2007 compensation information for NEOs followed by a narrative discussion of compensation that NEOs could receive when their employment with the Company terminates under various circumstances or upon a change-in-control of the Company. The tables include footnotes and other narrative explanations important for your understanding of the compensation information in each table.

The first table below, the Summary Compensation Table, summarizes key components of NEO compensation for fiscal 2007. The tables following the Summary Compensation Table provide more detailed information about the various types of NEO compensation, some of which are included in the Summary Compensation Table.

Summary Compensation Table

The following table summarizes key components of NEO compensation for fiscal 2007.

Name and Principal Position	Year	Salary(\$)	Bonus (\$)(1)	Stock Awards	Option Awards (\$)(2)	All other Compensation (\$)(3)	Total(\$)
Philip A. Hadley Chairman and Chief Executive Officer	2007	\$ 275,000	\$ 615,000	\$	\$ 265,308	\$ 35,520	\$ 1,190,828

Michael D. Frankenfield Senior Vice President and Director of U.S. Investment Management Services	2007	\$ 265,000	\$ 460,000	\$	\$ 205,617	\$ 23,246	\$ 953,863
Peter G. Walsh Senior Vice President, Chief Financial Officer and Treasurer	2007	\$ 255,000	\$ 445,000	\$	\$ 229,689	\$ 23,815	\$ 953,504
Kieran M. Kennedy Senior Vice President and Director of Investment Banking and Brokerage Services	2007	\$ 235,000	\$ 365,000	\$	\$ 149,594	\$ 28,511	\$ 778,105

- (1) In fiscal 2007, the Company and each NEO achieved certain goals established at the beginning of the fiscal year. These financial goals in fiscal 2007 were organic subscription growth of 21% and diluted earnings per share growth greater than organic revenue growth. The Compensation Committee awarded each NEO performance-based variable compensation payments in September 2007. See the detailed description of the Annual Bonus in the preceding CD&A under the sub-heading Annual Bonus.
- (2) These are the amounts that the Company recognized as compensation expense in its financial statements for 2007 for options granted in fiscal 2007 and in prior years, as required by SFAS 123(R). The Option Awards column amounts were not actually paid to any NEO in fiscal 2007. The Company utilizes a lattice-binomial model to estimate the fair value of new stock options on the date of grant. The assumptions used in computing the Option Awards amounts are included in Note 12 to the Company's 2007 financial statements in the 2007 Annual Report to Shareholders on Form 10-K. A stock option has value only if the Company's stock price increases above the option exercise price (an in-the-money option). If a NEO exercises an in-the-money option, he would then realize an actual gain. Any gain actually realized for options exercised in 2007 is reported in the Option Exercises and Stock Vested table below.

- (3) Amounts reflect the value of matching contributions to the FactSet 401(k) Plan made by FactSet on behalf of each NEO, use of Company automobiles and medical and dental benefits paid by the Company on behalf of the NEO. FactSet matches up to 4% of employees bi-weekly earnings, capped at the IRS annual maximum. There were no other perquisites and other personal benefits for NEOs. Fiscal 2007 amounts include \$13,827; \$10,250; \$4,335; \$2,473 and \$5,506, respectively, for personal use of Company automobiles by Messrs. Hadley, DiChristina, Frankenfield, Walsh and Kennedy.

Non-Equity Incentive Compensation. The amounts of the annual cash incentive compensation earned in fiscal 2007 by our NEOs are included in the Non-Equity Incentive Plan Compensation column of the 2007 Summary Compensation Table. The amounts represent the achievement of performance goals as previously described in Annual Bonus and were paid in September 2007.

- (1) On August 7, 2007, the Compensation Committee approved the total number of stock options to be allocated among all eligible employees and specifically approved the stock options to be granted to NEOs and all other executive officers. At that time, the Compensation Committee designated August 14, 2007 as the actual grant date of these options, at an option exercise price of 100% of the closing price of the Company's common stock on the NYSE on that date.
- (2) Service-based stock options expire seven years from the date of grant and vest at a rate of 20% after the first year and 1.67% per month thereafter for years two through five.
- (3) Performance based options expire seven years from the date of grant and, if performance conditions are met, vest at a rate of 40% after the first two years and 1.67% per month thereafter for years three through five. Options become vested and exercisable provided the employee continues employment with the Company through the applicable vesting date, and remain exercisable until expiration or cancellation. Performance-based options require FactSet to make assumptions regarding the likelihood of achieving Company performance goals. The number of performance-based options that vest will be predicated on the Company achieving the least favorable performance levels of organic subscriptions or diluted earnings per share during the two years ended August 31, 2009. Dependent on the financial performance levels attained by FactSet during fiscal years 2008 and 2009, 20%, 60%, 100% or none of the performance-based stock options will ultimately vest to the grantees of those stock options. At August 31, 2007 the Company has estimated that none of the performance-based stock options granted during fiscal 2007 should vest. The Company's estimate reflected the potential adverse impact the dislocation in the U.S. credit markets in August 2007 could have on many of its clients.
- (4) The dollar values of option awards disclosed in these columns are equal to the grant date fair value computed in accordance with SFAS 123(R), excluding assumptions for forfeitures. The grant date fair value amounts assume 100% of the performance-based stock options will vest. The fair values of the option grants are estimated using a lattice-binomial option-pricing model. Assumptions utilized in the model were term structure of risk-free rates of return ranging from 4.46% to 4.90%, term structure of volatility ranging from 27%-41% and a dividend yield of 0.81%. Expected life, an output in a binomial option-pricing model, is 4.79 years for the service-based stock options and 5.23 years for the performance-based stock options.

Additional Information Regarding Plan-Based Awards

Edgar Filing: FACTSET RESEARCH SYSTEMS INC - Form DEF 14A

The fiscal 2007 option grants reported in the table above were made under the 2004 FactSet Research Systems Inc. Stock Plan (the Stock Plan). Options granted to NEOs are made on the same terms as options granted to all other eligible employees. The material terms of these grants include:

Options vest in consecutive equal annual installments over five years, beginning on the first anniversary of the grant date. However, the option becomes fully vested upon a change-in-control whether or not employment is terminated.

Table of Contents

Options expire either on the seventh or tenth anniversary of the grant date. Options will expire before seven or ten years if employment terminates, except for certain termination reasons described below.

Options may be exercised only while the NEO is actively employed except for termination due to death, disability or a reason other than cause. Refer to page 23, under the section Potential Payments upon Termination or Change-in-Control for further review of change-in-control definitions.

Nonqualified Deferred Compensation

The Company does not have a Compensation Deferral Program, thus the nonqualified deferred compensation table has been omitted for fiscal 2007.

Pension Benefits

The Company does not have a Pension Program thus no pension retirement benefits were paid to executives in fiscal 2007.

Potential Payments upon Termination or Change-in-Control

On March 1, an oral agreement between the Company and Mr. Walsh became effective that amended an existing letter agreement with the Company dated September 20, 1999 (the "Letter Agreement"). The amendment reaffirmed the Letter Agreement, which remains in effect and which is to be superseded by a written agreement only if all other officers of the Company ranked more highly than Mr. Walsh also enter into written employment agreements with the Company. The Letter Agreement grants to Mr. Walsh: (i) an estimated payment of \$953,504, which is equal to his compensation in the prior twelve months if his employment is terminated without cause; and (ii) an estimated payment of \$1,907,008, which is equal to twice his compensation in the prior twelve months and benefits for 24 months in the event of a change of control of the Company.

Table of Contents

At the end of fiscal 2007, the Company did not have employment agreements with Messrs. Hadley, DiChristina, Frankenfield or Kennedy.

The Company sponsors equity incentive compensation plans that provide the NEOs with additional compensation in connection with a termination of employment and/or change of control under the following circumstances.

Change of Control

Upon the occurrence of a Change of Control, (i) all option awards granted to a NEO which have not been exercised, which have not expired by their terms, or for which restrictions have not yet lapsed shall immediately be fully exercisable for the remainder of their respective terms and all restrictions shall lapse and conditions deemed satisfied, and (ii) the Compensation Committee may, in its sole discretion, determine that such option awards be immediately terminated in which case the NEO will be paid an amount in cash (subject to any applicable withholding taxes) in respect of each option award equal to the difference between the fair market value of a share and the exercise price of such option award.

Death or Disability

Upon the NEO's death, any unexercised option award to the extent exercisable on the date of the NEO's death, may be exercised in whole or in part, at any time within one year after the NEO's death by a beneficiary or an estate. If a NEO becomes disabled, any unexercised option award to the extent exercisable at the date of such termination of employment due to disability, may be exercised in whole or in part, at any time within one year after the date of termination.

Termination without Cause

If the Company terminates the NEO for any reason other than cause, death or disability, then any unexercised option award, to the extent exercisable at the date of such termination of employment, may be exercised, in whole or in part, at any time within three months after such termination of employment; provided, however, that if the NEO dies within such three-month period following such termination of employment, such option award may be exercised by the deceased NEO's personal representative or by the person to whom the option award is transferred by will or the applicable laws of descent and distribution within 180 days of the NEO's death, but in no event beyond the scheduled expiration of the option award.

Termination with Cause

Under our plans, all unexercised awards terminate immediately upon termination for cause.

Employee Stock Purchase Plan

Upon termination of employment, all amounts in the participant's account are paid to the participant.

Acceleration of Equity Awards

The information below describes certain compensation that would be paid under plans and contractual arrangements in effect at August 31, 2007 to each of the NEOs in the event of a termination of such executive's employment with the Company and/or change of control of the Company as of that date. The amounts assume that the listed officer left FactSet effective August 31, 2007 and that the price per share of FactSet common stock on that date was \$59.93. The amounts are based upon the difference between \$59.93 and the exercise price of the unvested stock options held by the NEO at August 31, 2007.
