Notes to Consolidated Condensed Financial Statements

(Unaudited)

1. Organization and Business

Vail Resorts, Inc. (Vail Resorts or the Parent Company) is organized as a holding company and operates through various subsidiaries. Vail Resorts and its subsidiaries (collectively, the Company) currently operate in three business segments: Mountain, Lodging and Real Estate. In the Mountain segment, the Company operates the six world-class ski resort properties of Vail, Breckenridge, Keystone and Beaver Creek mountain resorts in Colorado and Heavenly and Northstar-at-Tahoe mountain resorts in the Lake Tahoe area of California and Nevada, as well as ancillary services, primarily including ski school, dining and retail/rental operations. These resorts (with the exception of Northstar-at-Tahoe) operate primarily on Federal land under the terms of Special Use Permits granted by the USDA Forest Service (the Forest Service). In the Lodging segment, the Company owns and/or manages a collection of luxury hotels under its RockResorts brand, as well as other strategic lodging properties and a large number of condominiums located in proximity to the Company s ski resorts, the Grand Teton Lodge Company (GTLC), which operates three destination resorts at Grand Teton National Park (under a National Park Service concessionaire contract), Colorado Mountain Express (CME), a resort ground transportation company, and golf courses. Vail Resorts Development Company (VRDC), a wholly-owned subsidiary, conducts the operations of the Company s Real Estate segment, which owns and develops real estate in and around the Company s resort communities. The Company s mountain business and its lodging properties at or around the Company s ski resorts are seasonal in nature with peak operating seasons from mid-November through mid-April. The Company s operations at GTLC and its golf courses generally operate from mid-May through mid-October. The Company also has non-majority owned investments in various other entities, some of which are consolidated (see Note 7, Variable Interest Entities).

2. Summary of Significant Accounting Policies

Basis of Presentation

Consolidated Condensed Financial Statements In the opinion of the Company, the accompanying Consolidated Condensed Financial Statements reflect all adjustments necessary to state fairly the Company s financial position, results of operations and cash flows for the interim periods presented. All such adjustments are of a normal recurring nature. Results for interim periods are not indicative of the results for the entire fiscal year. The accompanying Consolidated Condensed Financial Statements should be read in conjunction with the audited Consolidated Financial Statements included in the Company s Annual Report on Form 10-K for the year ended July 31, 2010. Certain information and footnote disclosures, including significant accounting policies, normally included in fiscal year financial statements prepared in accordance with generally accepted accounting principles in the United States of America (GAAP), have been condensed or omitted. The July 31, 2010 Consolidated Condensed Balance Sheet was derived from audited financial statements.

Use of Estimates The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the balance sheet date and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Noncontrolling Interests in Consolidated Financial Statements Net income (loss) attributable to noncontrolling interests along with net income (loss) attributable to the stockholders of the Company are reported separately in the Consolidated Condensed Statement of Operations. Additionally, noncontrolling interests in the consolidated subsidiaries of the Company are reported as a separate component of equity in the Consolidated Condensed Balance Sheet, apart from the Company s equity. However, prior to April 30, 2010, GSSI LLC (GSSI) held a noncontrolling interest in SSI Venture, LLC (SSV) (the Company s retail/rental operations) along with a redemption feature as a result of a put option, and as such the Company recorded the redeemable noncontrolling interest in SSV in the mezzanine section of the Consolidated Condensed Balance Sheet, outside of stockholders equity. The Company had recorded the redeemable noncontrolling interest at the redemption value as prescribed in the operating agreement between GSSI and the Company at the end of each reporting period. At the end of each reporting period, if the redemption value was below the carrying value of the noncontrolling interest, the difference

Table of Contents

was recorded in noncontrolling interests as a component of stockholders' equity; however, if the redemption value exceeded the carrying value of the noncontrolling interest the difference was recorded to retained earnings. On April 23, 2010, the Company entered into a transfer agreement with GSSI to acquire all of GSSI's remaining 30.7% ownership interest in SSV for a negotiated price of \$31.0 million. The purchase of GSSI's interest in SSV was completed on April 30, 2010, resulting in the Company holding a 100% interest in SSV. As a result of this purchase, equity-noncontrolling interest and redeemable noncontrolling interest related to SSV were eliminated. The following table summarizes the changes in total stockholders' equity (in thousands):

	For the Nine months ended April 30,

Fair Value Instruments The recorded amounts for cash and cash equivalents, receivables, other current assets, and accounts payable and accrued liabilities approximate fair value due to their short-term nature. The fair value of amounts outstanding under the Employee Housing Bonds (Note 4, Long-Term Debt) approximate book value due to the variable nature of the interest rate associated with that debt. The fair value of the 6.50% Senior Subordinated Notes due 2019 (6.50% Notes) and the 6.75% Senior Subordinated Notes due 2014 (6.75% Notes) (Note 4, Long-Term Debt) are based on quoted market prices. The fair value of the Company's Industrial Development Bonds (Note 4, Long-Term Debt) and other long-term debt have been estimated using discounted cash flow analyses based on current borrowing rates for debt with similar remaining maturities and ratings. The estimated fair value of the 6.50% Notes, 6.75% Notes, Industrial Development Bonds and other long-term debt as of April 30, 2011 is presented below (in thousands):

	April 30, 2011	
	Carrying Value	Fair Value
6.50% Notes	\$ 390,000	\$ 397,800
6.75% Notes	\$ 43,937	\$ 44,431

Other long-term debt	\$ 8,124	\$ 8,211

New Accounting Standards

Amendments to FASB Interpretation, Consolidation of Variable Interest Entities In June 2009, the Financial Accounting Standards Board (the FASB) issued guidance which is included in Accounting Standards Codification (ASC) 810, Consolidation which amends the consolidation guidance for variable interest entities. Under this new standard, entities must perform a qualitative assessment in determining the primary beneficiary of a variable interest entity which includes, among other things, consideration as to whether a variable interest holder has the power to direct the activities that most significantly impact the economic performance of the variable interest entity and the obligation to absorb losses or the right to receive benefits of the variable interest entity that could potentially be significant to the variable interest entity. This standard was effective for the Company beginning August 1, 2010 (the Company's fiscal year ending July 31, 2011). The adoption of this accounting standard did not have a material impact on the Company's financial position or results of operations.

Table of Contents

Revenue Recognition Guidance for Arrangements with Multiple Deliverables In September 2009, the FASB issued Accounting Standards Update (ASU) 2009-13, Multiple-Deliverables Revenue Arrangements (amendments to ASC Topic 605, Revenue Recognition, and the Emerging Issues Task Force Issue No. 08-01 Revenue Arrangements with Multiple Deliverables) which amends the revenue recognition guidance for arrangements with multiple deliverables. This new standard requires entities to allocate revenue in arrangements with multiple deliverables using estimated selling prices and eliminates the use of the residual method. The provisions of this new standard was effective for the Company beginning August 1, 2010 (the Company s fiscal year ending July 31, 2011). The adoption of this accounting standard did not have a material impact on the Company s financial position or results of operations.

3. Net Income Per Common Share

Basic earnings per share (EPS) excludes dilution and is computed by dividing net income attributable to Vail Resorts stockholders by the weighted-average shares outstanding during the period. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised, resulting in the issuance of shares of common stock that would then share in the earnings of Vail Resorts. Presented below is basic and diluted EPS for the three months ended April 30, 2011 and 2010 (in thousands, except per share amounts):

	Three Months Ended April 30,			
	2011		2010	
	Basic	Diluted	Basic	Diluted
Net income per share:				
Net income attributable to Vail Resorts	\$ 76,867	\$ 76,867	\$ 72,789	\$ 72,789
Weighted-average shares outstanding	36,038	36,038	36,271	36,271
Effect of dilutive securities		831		563
Total shares	36,038	36,869	36,271	36,834
Net income per share attributable to Vail Resorts	\$ 2.13	\$ 2.08	\$ 2.01	\$ 1.98

The number of shares issuable on the exercise of share based awards that were excluded from the calculation of diluted net income per share because the effect of their inclusion would have been anti-dilutive totaled approximately 1,000 and approximately 35,000 for the three months ended April 30, 2011 and 2010, respectively.

Presented below is basic and diluted EPS for the nine months ended April 30, 2011 and 2010 (in thousands, except per share amounts):

	Nine months ended April 30,			
	2011		2010	
	Basic	Diluted	Basic	Diluted

Net income per share attributable to Vail Resorts	\$ 2.46	\$ 2.41	\$ 2.00	\$ 1.97

Table of Contents

The number of shares issuable on the exercise of share based awards that were excluded from the calculation of diluted net income per share because the effect of their inclusion would have been anti-dilutive totaled approximately 54,000 and approximately 12,000 for the nine months ended April 30, 2011 and 2010, respectively.

4. Long-Term Debt

Long-term debt as of April 30, 2011, July 31, 2010 and April 30, 2010 is summarized as follows (in thousands):

	Maturity (a)	April 30, 2011	July 31, 2010	April 30, 2010
Credit Facility Revolver (b)	2016	\$	\$ 35,000	\$

Long-term debt		\$ 490,479	\$ 524,842	\$ 489,822

(a) Maturities are based on the Company's July 31 fiscal year end.

(b) On January 25, 2011, The Vail Corporation (the "Vail Corp"), a wholly-owned subsidiary of the Company, amended and restated its senior credit facility (the "Credit Facility"). Key modifications to the Credit Facility included, among other things, the extension of the maturity on the revolving credit facility from February 2012 to January 2016; increased grid pricing for interest rate margins (as of April 30, 2011, under the Credit Facility, at LIBOR plus 1.75%) and commitment fees (as of April 30, 2011, under the Credit Facility, at 0.35%); the expansion of baskets related to the Company's ability to incur debt and make acquisitions, investments and distributions; and the elimination of certain financial covenants.

The Credit Facility is governed by the Fifth Amended and Restated Credit Agreement ("Credit Agreement") between Vail Corp, Bank of America, N.A., as administrative agent, U.S. Bank National Association and Wells Fargo Bank, National Association as co-syndication agents, JPMorgan Chase Bank, N.A. and Deutsche Bank Securities Inc. as Co-Documentation Agents and the Lenders party thereto, and consists of a \$400 million revolving credit facility. The Company's obligations under the Credit Agreement are guaranteed by the Company and certain of its subsidiaries and are collateralized by a pledge of all of the capital stock of the Company and substantially all of its subsidiaries (with certain additional exceptions for the pledge of the capital stock of foreign subsidiaries). The proceeds of loans made under the Credit Agreement may be used to fund the Company's working capital needs, capital expenditures, acquisitions, investments and other general corporate purposes, including the issuance of letters of credit. The Credit Agreement matures January 25, 2016. Borrowings under the Credit Agreement bear interest annually at a rate of (i) LIBOR plus a margin or (ii) the Agent's prime lending rate. Interest rate margins may fluctuate based upon the ratio of the Company's Net Funded Debt to Adjusted EBITDA (as such terms are defined in the Credit Agreement) on a trailing four-quarter basis. The Credit Agreement also includes a quarterly unused commitment fee, which is equal to a percentage determined by the Net Funded Debt to Adjusted EBITDA ratio, times the daily amount by which the Credit Agreement commitment exceeds the total of outstanding loans and outstanding letters of credit. The unused amounts are accessible to the extent that the Net Funded Debt to Adjusted EBITDA ratio does not exceed the maximum ratio allowed at quarter-ends and the Adjusted EBITDA to interest on Funded Debt (as defined in the Credit Agreement) ratio does not fall below the minimum ratio allowed at quarter-ends. The Credit Agreement provides for affirmative and negative covenants that restrict, among other things, the Company's ability to incur indebtedness, dispose of assets, make capital expenditures, make distributions and make investments. In addition, the Credit Agreement includes the following restrictive financial covenants: Net Funded Debt to Adjusted EBITDA ratio and Adjusted EBITDA to interest on Funded Debt ratio.

On April 13, 2011, Vail Corp entered into the First Amendment (the "First Amendment") to its Credit Agreement. The First Amendment amended certain of the negative covenants in the Credit Agreement, including providing for increased capacity for investments in similar businesses, increased capacity for debt incurrence, and permitting distributions of the proceeds of sales of certain real estate developments. The First Amendment became effective upon the closing of the 6.50% Notes on April 25, 2011.

(c) On April 25, 2011, the Company completed an offering for \$390 million of 6.50% Notes the proceeds of which, along with available cash resources, were used or will be used to purchase the outstanding \$390 million principal amount of the 6.75% Notes and pay related premiums, fees and expenses. The 6.50% Notes have a fixed annual interest rate of 6.50% and will mature May 1, 2019 with no principal payments due until maturity. The Company has certain early redemption options under the terms of the 6.50% Notes. The premium for early redemption of the 6.50% Notes ranges from 4.875% to 0%, depending on the date of redemption. The 6.50% Notes are subordinated to certain of the Company's debts, including the Credit Agreement, and will be subordinated to certain of the Company's future debts. The Company's payment obligations under the 6.50% Notes are jointly and severally guaranteed by substantially all of the Company's current and future domestic subsidiaries. The indenture governing the 6.50% Notes contains restrictive covenants, which, among other things, limit the ability of Vail Resorts and its Restricted Subsidiaries (as defined in the Indenture) to (i) borrow money or sell preferred stock, (ii) create liens, (iii) pay dividends on or redeem or repurchase stock, (iv) make certain types of investments, (v) sell stock in the Restricted Subsidiaries, (vi) create restrictions on the ability of the Restricted Subsidiaries to pay dividends or make other payments to the Company, (vii) enter into transactions with affiliates, (viii) issue guarantees of debt and (ix) sell assets or merge with other companies. Pursuant to the registration rights agreement executed as part of the offering of the 6.50% Notes, the Company agreed to file an exchange offer registered under the Securities Act on or prior to 210 days after the closing of the offering, with such registration statement being declared effective on or prior to 270 days after the closing of the offering, and to exchange the notes for a new issue of substantially identical debt securities and guarantees. If the Company fails to satisfy its obligations under the registration rights agreement, it will be required to pay additional interest to the holders of the notes.

In April 2011, the Company offered to purchase the 6.75% Notes for total consideration of \$1,013.75 per \$1,000 principal amount. Of the \$390 million outstanding 6.75% Notes, \$346.1 million, or approximately 89%, were tendered. A loss on extinguishment of debt in the amount of \$6.6 million was recorded during the three and nine months ended April 30, 2011 in connection with the 6.75% Notes that were tendered. On April 25, 2011, the Company called all of the remaining outstanding 6.75% Notes of \$43.9 million for a call price of 101.125% of the principal balance; as a result, the 6.75% Notes were completely defeased on May 25, 2011.

Company had no capitalized interest during the three months ended April 30, 2011. The Company capitalized \$4.7 million of interest (of which \$4.3 million was related to real estate under development) during the three months ended April 30, 2010. The Company incurred gross interest expense of \$25.6 million and \$25.3 million for the nine months ended April 30, 2011 and 2010, respectively, of which \$1.2 million in each period was amortization of deferred financing costs. The Company capitalized \$0.5 million of interest (related to real estate development) and \$12.6 million of interest (of which \$11.5 million was related to real estate development) during the nine months ended April 30, 2011 and 2010, respectively.

5. Acquisition

On October 25, 2010, the Company acquired for cash 100% of the capital stock of BCRP Inc. and the membership interest of Northstar Group Commercial Properties LLC (together, with their subsidiaries Northstar-at-Tahoe) that operate the Northstar-at-Tahoe mountain resort in North Lake Tahoe, California from Booth Creek Resort Properties LLC and other sellers for a total consideration of \$60.5 million, net of cash acquired. Northstar-at-Tahoe is a year round mountain resort providing a comprehensive offering of recreational activities, including both snow sports and summer activities. Additionally, Northstar-at-Tahoe operates a base area village at the resort, including the subleasing of commercial retail space and condominium property management.

The following summarizes the preliminary estimated fair values of the identifiable assets acquired and liabilities assumed at the acquisition date (in thousands). The preliminary estimate of fair value of identifiable assets acquired and liabilities assumed are subject to revisions, which may result in adjustments to the preliminary values presented below.

The operations of Northstar-at-Tahoe are conducted on land and with operating assets owned by CNL Lifestyle Properties, Inc. under long-term lease agreements which were assumed by the Company. Under the terms of the leases, the Company estimates that it will be required to pay above market rates in the aggregate through the remainder of the initial lease term expiring in fiscal 2027. The Company has recorded a net unfavorable lease obligation for these leases that will be amortized as an adjustment to lease expense over the remaining initial lease term. Future minimum lease payments (excluding contingent rents and executory costs) under the remaining initial term of these leases reflected by fiscal year as of April 30, 2011 are as follows (in thousands):

The excess of the purchase price over the aggregate fair values of assumed assets and liabilities was recorded as goodwill. The goodwill recognized is attributable primarily to expected synergies, the assembled workforce of Northstar-at-Tahoe and other factors. None of the goodwill is expected to be deductible for income tax purposes. The operating results of Northstar-at-Tahoe have contributed \$32.4 million and \$63.8 million of net revenue for the three and nine months ended April 30, 2011, respectively. Additionally, the Company has recognized \$4.0 million of acquisition related expenses in the Consolidated Condensed Statement of Operations during the nine months ended April 30, 2011.

The following presents the unaudited pro forma consolidated financial information of the Company as if the acquisition of Northstar-at-Tahoe was completed on August 1, 2009. The following pro forma financial information includes adjustments for (i) depreciation and interest expense for capital leases on acquired property, plant and equipment recorded at the date of acquisition; (ii) straight-line expense recognition of minimum future lease payments from the date of acquisition, including the amortization of the net unfavorable lease obligations; and (iii) acquisition related costs. This pro forma financial information is presented for informational purposes only and does not purport to be indicative of the results of future operations or the results that would have occurred had the acquisition taken place on August 1, 2009 (in thousands, except per share amounts).

7. Variable Interest Entities

The Company is the primary beneficiary of four employee housing entities (collectively, the Employee Housing Entities), Breckenridge Terrace, LLC, The Tarnes at BC, LLC, BC Housing, LLC and Tenderfoot Seasonal Housing, LLC, which are Variable Interest Entities (VIEs), and has consolidated them in its Consolidated Condensed Financial Statements. As a group, as of April 30, 2011, the Employee Housing Entities had total assets of \$34.3 million (primarily recorded in property, plant and equipment, net) and total liabilities of \$62.3 million (primarily recorded in long-term debt as Employee Housing Bonds). The Company's lenders have issued letters of credit totaling \$53.4 million under the Credit Agreement related to Employee Housing Bonds. Payments under the letters of credit would be triggered in the event that one of the entities defaults on required payments. The letters of credit have no default provisions. The Company is the primary beneficiary of Avon Partners II, LLC (APII), which is a VIE. APII owns commercial space and the Company currently leases substantially all of that space. APII had total assets of \$4.4 million (primarily recorded in property, plant and equipment, net) and no debt as of April 30, 2011.

Table of Contents

The Company, through various lodging subsidiaries, manages hotels in which the Company has no ownership interest in the entities that own such hotels. The Company previously extended a \$2.0 million note receivable to one of these entities at the time the entity acquired the hotel property that the Company managed. This entity was formed by unrelated third parties to acquire, own, operate and realize the value in a resort hotel property. The Company continues to manage the day-to-day operations of this hotel property as of April 30, 2011. The Company has determined that this entity is a VIE, and the management contract along with the note receivable are significant variable interests in this VIE. The Company has also determined that it is not the primary beneficiary of this entity and, accordingly, is not required to consolidate this entity. Based upon the latest information provided by this third party entity, this VIE had estimated total assets of approximately \$62.7 million and total liabilities of approximately \$71.9 million. This entity has been in default on certain debt held by the entity and the third party owners of the entity have been unable to reach an agreement to restructure the debt with their creditor, as the creditor initiated foreclosure proceedings in May 2011. If foreclosure were to occur, the Company believes it is probable that its note receivable, including accrued interest, would be impaired. As such, the Company has recorded an asset impairment charge of \$2.6 million in its Consolidated Condensed Statements of Operations for the three and nine months ended April 30, 2011. Additionally, the Company has an intangible asset associated with the management of the hotel, with a net carrying amount as of April 30, 2011 of \$0.5 million. The Company believes it will continue to manage the hotel if foreclosure were to take place.

8. Fair Value Measurements

The FASB issued fair value guidance that establishes how reporting entities should measure fair value for measurement and disclosure purposes. The guidance establishes a common definition of fair value applicable to all assets and liabilities measured at fair value and prioritizes the inputs into valuation techniques used to measure fair value. Accordingly, the Company uses valuation techniques which maximize the use of observable inputs and minimize the use of unobservable inputs when determining fair value. The three levels of the hierarchy are as follows:

Level 1: Inputs that reflect unadjusted quoted prices in active markets that are accessible to the Company for identical assets or liabilities;

Level 2: Inputs include quoted prices for similar assets and liabilities in active and inactive markets or that are observable for the asset or liability either directly or indirectly; and

Level 3: Unobservable inputs which are supported by little or no market activity.

The table below summarizes the Company's cash equivalents measured at fair value (all other assets and liabilities measured at fair value are immaterial) (in thousands):

Description	Fair Value Measurement as of April 30, 2011

The Company's cash equivalents include money market funds (Level 1) and time deposits (Level 2) which are measured utilizing quoted market prices or pricing models whereby all significant inputs are either observable or corroborated by observable market data.

9. Commitments and Contingencies**Metropolitan Districts**

The Company credit-enhances \$8.0 million of bonds issued by Holland Creek Metropolitan District (HCMD) through an \$8.1 million letter of credit issued under the Credit Agreement. HCMD's bonds were issued and used to build infrastructure associated with the Company's Red Sky Ranch residential development. The Company has agreed to pay capital improvement fees to Red Sky Ranch Metropolitan District (RSRMD) until RSRMD's revenue streams from property taxes are sufficient to meet debt service requirements under HCMD's bonds, and the Company has recorded a liability of \$1.8 million, \$1.9 million and \$1.8 million, primarily within other long-term liabilities in the accompanying Consolidated Condensed Balance Sheets, as of April 30, 2011, July 31, 2010 and April 30, 2010, respectively, with respect to the estimated present value of future RSRMD capital improvement fees. The Company estimates that it will make capital improvement fee payments under this arrangement through the year ending July 31, 2028.

Guarantees/ Indemnifications

As of April 30, 2011, the Company had various other letters of credit in the amount of \$61.0 million, consisting primarily of \$53.4 million in support of the Employee Housing Bonds, \$1.1 million of construction and development related guarantees and \$5.4 million for workers compensation and general liability deductibles related to construction and development activities.

In addition to the guarantees noted above, the Company has entered into contracts in the normal course of business which include certain indemnifications under which it could be required to make payments to third parties upon the occurrence or non-occurrence of certain future events. These indemnities include indemnities to licensees in connection with the licensees' use of the Company's trademarks and logos, indemnities for liabilities associated with the infringement of other parties' technology and software products, indemnities related to liabilities associated with the use of easements, indemnities related to employment of contract workers, the Company's use of trustees, indemnities related to the Company's use of public lands and environmental indemnifications. The duration of these indemnities generally is indefinite and generally do not limit the future payments the Company could be obligated to make.

As permitted under applicable law, the Company and certain of its subsidiaries indemnify their directors and officers over their lifetimes for certain events or occurrences while the officer or director is, or was, serving the Company or its subsidiaries in such a capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a director and officer insurance policy that should enable the Company to recover a portion of any future amounts paid.

Table of Contents

Unless otherwise noted, the Company has not recorded any significant liabilities for the letters of credit, indemnities and other guarantees noted above in the accompanying Consolidated Condensed Financial Statements, either because the Company has recorded on its Consolidated Condensed Balance Sheets the underlying liability associated with the guarantee, the guarantee is with respect to the Company's own performance and is therefore not subject to the measurement requirements as prescribed by GAAP, or because the Company has calculated the fair value of the indemnification or guarantee to be immaterial based upon the current facts and circumstances that would trigger a payment under the indemnification clause. In addition, with respect to certain indemnifications it is not possible to determine the maximum potential amount of liability under these guarantees due to the unique set of facts and circumstances that are likely to be involved in each particular claim and indemnification provision. Historically, payments made by the Company under these obligations have not been material.

As noted above, the Company makes certain indemnifications to licensees in connection with their use of the Company's trademarks and logos. The Company does not record any liabilities with respect to these indemnifications.

Self Insurance

The Company is self-insured for claims under its health benefit plans and for the vast majority of workers' compensation claims, subject to a stop loss policy. The self-insurance liability related to workers' compensation is determined actuarially based on claims filed. The self-insurance liability related to claims under the Company's health benefit plans is determined based on analysis of actual claims. The amounts related to these claims are included as a component of accrued benefits in accounts payable and accrued liabilities (see Note 6, Supplementary Balance Sheet Information).

Legal

The Company is a party to various lawsuits arising in the ordinary course of business. Management believes the Company has adequate insurance coverage or has accrued for loss contingencies for all known matters that are deemed to be probable losses and estimable. As of April 30, 2011, July 31, 2010 and April 30, 2010 the accrual for the above loss contingencies was not material individually and in the aggregate.

10. Segment Information

The Company has three reportable segments: Mountain, Lodging and Real Estate. The Mountain segment includes the operations of the Company's ski resorts and related ancillary services. The Lodging segment includes the operations of all of the Company's owned hotels, RockResorts, GTLC, condominium management, CME and golf operations. The Real Estate segment owns and develops real estate in and around the Company's resort communities. The Company's reportable segments, although integral to the success of the others, offer distinctly different products and services and require different types of management focus. As such, these segments are managed separately.

The Company reports its segment results using Reported EBITDA (defined as segment net revenue less segment operating expenses, plus or minus segment equity investment income or loss and for the Real Estate segment plus gain on sale of real property), which is a non-GAAP financial measure. The Company reports segment results in a manner consistent with management's internal reporting of operating results to the chief operating decision maker (Chief Executive Officer) for purposes of evaluating segment performance.

Reported EBITDA is not a measure of financial performance under GAAP. Items excluded from Reported EBITDA are significant components in understanding and assessing financial performance. Reported EBITDA should not be considered in isolation or as an alternative to, or substitute for, net income, net change in cash and cash equivalents or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA is not a measurement determined in accordance with GAAP and thus is susceptible to varying calculations, Reported EBITDA as presented may not be comparable to other similarly titled measures of other companies.

Table of Contents

The Company utilizes Reported EBITDA in evaluating performance of the Company and in allocating resources to its segments. Mountain Reported EBITDA consists of Mountain net revenue less Mountain operating expense plus or minus Mountain equity investment income or loss. Lodging Reported EBITDA consists of Lodging net revenue less Lodging operating expense. Real Estate Reported EBITDA consists of Real Estate net revenue less Real Estate operating expense plus gain on sale of real property. All segment expenses include an allocation of corporate administrative expense. Assets are not allocated between segments, or used to evaluate performance, except as shown in the table below.

11. Stock Repurchase Plan

On March 9, 2006, the Company's Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase of the Company's common stock repurchase authorization by an additional 3,000,000 shares. The Company did not repurchase any shares of common stock during the three and nine months ended April 30, 2011. Since inception of its stock repurchase plan through April 30, 2011, the Company has repurchased 4,264,804 shares at a cost of approximately \$162.8 million. As of April 30, 2011, 1,735,196 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under the Company's employee share award plans.

12. Guarantor Subsidiaries and Non-Guarantor Subsidiaries

The Company's payment obligations under the 6.75% Notes (see Note 4, Long-Term Debt) are fully and unconditionally guaranteed on a joint and several, senior subordinated basis by substantially all of the Company's consolidated subsidiaries (collectively, and excluding Non-Guarantor Subsidiaries (as defined below), the Guarantor Subsidiaries), except for VR Acquisition, Inc., BCRP, Inc., Booth Creek Ski Holdings, Inc., Trimont Land Company, Northstar Commercial Properties LLC, and Northstar Group Restaurant Properties LLC (collectively,

Northstar-at-Tahoe), Eagle Park Reservoir Company, Gros Ventre Utility Company, Mountain Thunder, Inc., Larkspur Restaurant & Bar, LLC, Gore Creek Place, LLC and certain other insignificant entities (together, the Non-Guarantor Subsidiaries). APII and the Employee Housing Entities are included with the Non-Guarantor Subsidiaries for purposes of the consolidated financial information, but are not considered subsidiaries under the indenture governing the 6.75% Notes.

The Company's payment obligations under the 6.50% Notes (see Note 4, Long-Term Debt), issued on April 25, 2011, are jointly and severally guaranteed by substantially all of the Company's current and future domestic subsidiaries. Certain Non-Guarantor Subsidiaries under the 6.75% Notes, primarily relating to the entities that comprise the operations of Northstar-at-Tahoe and acquired by the Company on October 25, 2010, are guarantors with respect to the 6.50% Notes. As a result, the financial information with respect to Guarantor Subsidiaries and Non-Guarantor Subsidiaries presented below should not be relied upon as presenting financial information with respect to the guarantors of the 6.50% Notes.

Presented below is the consolidated financial information of the Parent Company, the Guarantor Subsidiaries and the Non-Guarantor Subsidiaries under the 6.75% Notes. Financial information for the Non-Guarantor Subsidiaries is presented in the column titled Other Subsidiaries. On April 30, 2010, the Company acquired GSSI's remaining noncontrolling interest in SSV (see Note 2, Summary of Significant Accounting Policies). Subsequent to this transaction, SSV became a Guarantor Subsidiary under the 6.75% Notes. As such, the Company has included SSV under Guarantor Subsidiaries in the accompanying supplemental condensed financial statements. Reclassifications for SSV have been made to the financial information as of and for the three and nine months ended April 30, 2010 to conform to the current year presentation. Balance sheets are presented as of April 30, 2011, July 31, 2010 and April 30, 2010. Statements of operations are presented for the three and nine months ended April 30, 2011 and 2010. Statement of cash flows are presented for the nine months ended April 30, 2011 and 2010.

Investments in subsidiaries are accounted for by the Parent Company and Guarantor Subsidiaries using the equity method of accounting. Net income (loss) of Guarantor and Non-Guarantor Subsidiaries is, therefore, reflected in the Parent Company's and Guarantor Subsidiaries investments in and advances to (from) subsidiaries. Net income (loss) of the Guarantor and Non-Guarantor Subsidiaries is reflected in Parent Company and Guarantor Subsidiaries as equity in income (loss) of consolidated subsidiaries. The elimination entries eliminate investments in Other Subsidiaries and intercompany balances and transactions for consolidated reporting purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations should be read in conjunction with our Annual Report on Form 10-K for the year ended July 31, 2010 (Form 10-K) and the Consolidated Condensed Financial Statements as of April 30, 2011 and 2010 and for the three and nine months then ended, included in Part I, Item 1 of this Quarterly Report on Form 10-Q, which provide additional information regarding our financial position, results of operations and cash flows. To the extent that the following Management's Discussion and Analysis contains statements which are not of a historical nature, such statements are forward-looking statements which involve risks and uncertainties. These risks include, but are not limited to those discussed in this Form 10-Q and in our other filings with the Securities and Exchange Commission (SEC), including the risks described in Item 1A Risk Factors of Part I of the Form 10-K. See also Forward-Looking Statements below for more information on these risks and other important factors that could cause actual results to differ materially from our forward looking statements.

Management's Discussion and Analysis includes discussion of financial performance within each of our segments. We have chosen to specifically include Reported EBITDA (defined as segment net revenue less segment operating expense, plus or minus segment equity investment income or loss and for the Real Estate segment plus gain on sale of real property) and Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents), in the following discussion because we consider these measurements to be significant indications of our financial performance and available capital resources. Reported EBITDA and Net Debt are not measures of financial performance or liquidity under accounting principles generally accepted in the United States of America (GAAP). We utilize Reported EBITDA in evaluating our performance and in allocating resources to our segments. Refer to the end of the Results of Operations section below for a reconciliation of Reported EBITDA to net income attributable to Vail Resorts, Inc. We also believe that Net Debt is an important measurement as it is an indicator of our ability to obtain additional capital resources for our future cash needs. Refer to the end of the Results of Operations section for a reconciliation of Net Debt.

Items excluded from Reported EBITDA and Net Debt are significant components in understanding and assessing financial performance or liquidity. Reported EBITDA and Net Debt should not be considered in isolation or as an alternative to, or substitute for, net income, net change in cash and cash equivalents or other financial statement data presented in the Consolidated Condensed Financial Statements as indicators of financial performance or liquidity. Because Reported EBITDA and Net Debt are not measurements determined in accordance with GAAP and are thus susceptible to varying calculations, Reported EBITDA and Net Debt as presented may not be comparable to other similarly titled measures of other companies.

Overview

Our operations are grouped into three integrated and interdependent segments: Mountain, Lodging and Real Estate. Resort is the combination of the Mountain and Lodging segments.

Mountain Segment

The Mountain segment is comprised of the operations of six ski resort properties as well as ancillary services, primarily including ski school, dining and retail/rental operations. Our six ski resorts are typically open for business from mid-November through mid-April, which is the peak operating season for the Mountain segment. Our single largest source of Mountain segment revenue is the sale of lift tickets (including season passes), which represented approximately 53% of Mountain segment net revenue for each of the three months ended April 30, 2011 and 2010 and approximately 48% of Mountain segment net revenue for each of the nine months ended April 30, 2011 and 2010.

Lift ticket revenue is driven by volume and pricing. Pricing is impacted by both absolute pricing as well as the demographic mix of guests, which impacts the price points at which various products are purchased. The demographic mix of guests is divided into two primary categories: (i) Destination guests and (ii) In-State guests. For the 2010/2011 ski season, Destination guests comprised approximately 57% of our skier visits, while In-State guests comprised approximately 43% of our skier visits, which compares to approximately 58% and 42%, respectively, for the 2009/2010 ski season (excluding Northstar-at-Tahoe for both the current and prior ski seasons).

Table of Contents

Destination guests generally purchase our higher-priced lift ticket products and utilize more ancillary services such as ski school, dining and retail/rental, as well as the lodging at or around our resorts. Destination guest visitation is less likely to be impacted by changes in the weather, but can be more impacted by adverse economic conditions or the global geopolitical climate. In-State guests tend to be more value-oriented and weather sensitive. We market season passes to both Destination and In-State guests in an effort to offer a value option in turn for a commitment predominately prior to the beginning of the ski season by guests to ski at our resorts. This in turn has developed a loyal customer base that generally skis multiple days each season at our resorts and provides a more stabilized stream of lift revenue to us. Season pass revenue, although primarily collected prior to the ski season, is recognized in the Consolidated Condensed Statement of Operations ratably over the ski season. For each of the 2010/2011 and 2009/2010 ski seasons, approximately 35% of the total lift ticket revenue recognized was comprised of season pass revenue.

The cost structure of our ski resort operations has a significant fixed component with variable expenses including, but not limited to, USDA Forest Service (Forest Service) fees, credit card fees, retail/rental cost of sales and labor, ski school labor and dining operations; as such, profit margins can fluctuate greatly based on the level of revenues.

Lodging Segment

Operations within the Lodging segment include (i) ownership/management of a group of luxury hotels through the RockResorts brand, including several proximate to our ski resorts; (ii) ownership/management of non-RockResorts branded hotels and condominiums proximate to our ski resorts; (iii) Grand Teton Lodge Company (GTLC) which operates three destination resorts at Grand Teton National Park; (iv) Colorado Mountain Express (CME), a resort ground transportation company; and (v) golf courses.

Lodging properties (including managed condominium rooms) at or around our ski resorts, and CME, are closely aligned with the performance of the Mountain segment and generally experience similar seasonal trends as the Mountain segment, particularly with respect to visitation by Destination guests. Lodging revenue from properties (including managed condominium rooms) at or around our ski resorts, and CME, represented approximately 90% and 92% of Lodging segment revenue for the three months ended April 30, 2011 and 2010, respectively, and 75% of Lodging segment revenue for both of the nine months ended April 30, 2011 and 2010. Lodging segment revenue during our first and fourth fiscal quarters is generated primarily by the operations of GTLC (as GTLC's operating season generally occurs from mid-May to mid-October), golf operations and seasonally low operations from our other owned and managed properties and businesses.

Real Estate Segment

The Real Estate segment owns and develops real estate in and around our resort communities and primarily engages in the vertical development of projects, as well as, occasionally the sale of land to third-party developers. Revenue from vertical development projects is not recognized until the closing of individual units within a project which occurs after substantial completion of the project. Contingent future profits from land sales, if any, are recognized only when received. We attempt to mitigate the risk of vertical development by often utilizing guaranteed maximum price construction contracts (although certain construction costs may not be covered by contractual limitations), pre-selling a portion of the project, requiring significant non-refundable deposits, and potentially obtaining non-recourse financing for certain projects. Our real estate development projects also may result in the creation of certain resort assets that provide additional benefit to the Mountain and Lodging segments. Our revenue from the Real Estate segment, and associated expense, can fluctuate significantly based upon the timing of closings and the type of real estate being sold, causing volatility in the Real Estate segment's operating results from period to period.

Recent Trends, Risks and Uncertainties

Together with those risk factors identified in our Form 10-K, our management has identified the following important factors (as well as risks and uncertainties associated with such factors) that could impact our future financial performance or condition:

Our season pass products provide a value option to our guests which in turn creates a guest commitment predominantly prior to the start of the ski season, resulting in a more stabilized stream of lift revenue. In March 2011, we began our pre-season pass sales program for the 2011/2012 ski season. Through June 5, 2011, our spring pre-season pass sales for the upcoming 2011/2012 ski season (including Northstar-at-Tahoe for both the current and prior year, which prior year includes spring pass sales that occurred before

Table of Contents

our acquisition of Northstar-at-Tahoe in October 2010) have increased approximately 19% in units and increased approximately 27% in sales dollars, over the same period in the prior year, which spring sales period has historically represented roughly one third of our total season pass sales in any given year. However, we cannot predict if this favorable trend will continue through the Fall 2011 pass sales campaign, the level of pre-season pass pricing or the overall impact that season pass sales will have on lift ticket revenue for the 2011/2012 ski season.

In response to the economic downturn in 2008 and 2009, we implemented cost reduction initiatives in fiscal 2009, including a company-wide wage reduction and suspension of our 401(k) plan matching contributions. We reinstated some of the prior year wage and benefit reduction with a 2% interim wage increase for year round employees effective April 1, 2010 and seasonal employees for the 2010/2011 ski season along with a partial reinstatement of our matching component of the 401(k) plan. We currently plan to fully reinstate the previous level of 401(k) matching ratably over a three year period. We also have returned to a more normal level of wage increases for fiscal 2011; however, we cannot predict whether any increases in labor costs and other employee benefit costs coupled with other increases in operating costs will continue to be more than offset by increased revenues.

On October 25, 2010, we acquired Northstar-at-Tahoe, a destination mountain resort in North Lake Tahoe, California for total consideration of \$63.0 million, less cash assumed. We cannot predict whether we will realize all of the synergies expected to arise subsequent to the acquisition of Northstar-at-Tahoe, nor can we predict the amount of management's time and effort, including the cost necessary to integrate its operations and the ultimate impact it will have on our future results of operations.

Real estate Reported EBITDA is highly dependent on, among other things, the timing of closings on real estate under contract, which determines when revenue and associated cost of sales is recognized. Changes to the anticipated timing or mix of closing on one or more real estate projects, or unit closings within a real estate project, could materially impact Real Estate Reported EBITDA for a particular quarter or fiscal year. During the first quarter of fiscal 2011, we received a certificate of occupancy for The Ritz-Carlton Residences, Vail and we have closed on 67 units through April 30, 2011 (with an additional unit having closed subsequent to April 30, 2011). Additionally, we have closed on four units at One Ski Hill Place (which was completed in the fourth quarter of fiscal 2010) in fiscal 2011 through April 30, 2011 (40 units in total including 36 units closed in fiscal 2010). We currently have on a combined basis 99 units available for sale at The Ritz-Carlton Residences, Vail, One Ski Hill Place in Breckenridge and Crystal Peak Lodge at Breckenridge. We have increased risk associated with selling and closing units in these projects as a result of the continued instability in the credit markets and a slowdown in the overall real estate market. Buyers have been or may be unable to close on units in part due to a reduction in funds available to buyers and/or decreases in mortgage availability. We cannot predict the ultimate number of units that we will sell, the ultimate price we will receive, or when the units will sell, although we currently believe the selling process will take multiple years. Additionally, if a prolonged weakness in the real estate market or general economic conditions were to occur we may have to adjust our selling prices more than currently anticipated in an effort to sell and close on units available for sale. Furthermore, if the current weakness in the real estate market were to persist for multiple years thus requiring us to sell remaining units below recent pricing levels (including any sales concessions and discounts) combined with an increase in estimated carrying costs and/or a decline in estimated rental income to be earned during the holding period for the remaining inventory of units at The Ritz-Carlton Residences, Vail or One Ski Hill Place in Breckenridge, it may result in an impairment charge on one or both projects.

In addition to our \$168.6 million of cash and cash equivalents at April 30, 2011, we have \$331.7 million available under our senior credit facility (Credit Agreement) (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$68.3 million), which was amended and restated on January 25, 2011. Key modifications to the Credit Agreement included, among other things, the extension of the maturity on the revolving credit facility from February 2012 to January 2016; increased grid pricing for interest rate margins (as of April 30, 2011, under the Credit Agreement, at LIBOR plus 1.75%) and commitment fees (as of April 30, 2011, under the Credit Agreement at 0.35%); the expansion of baskets for improved flexibility in our ability to incur debt and make acquisitions, investments and distributions; and the elimination of certain financial covenants. In addition, on April 25, 2011, we completed an offering for \$390 million of 6.50% Senior Subordinated Notes due 2019 (the 6.50% Notes), the proceeds of which, along with available cash resources, were used or will be used to purchase the outstanding \$390 million principal amount of 6.75% Senior Subordinated Notes due 2014 (the 6.75% Notes) and pay related premiums, fees and expenses (\$346.1 million principal balance of the 6.75% Notes

Table of Contents

were tendered as of April 30, 2011 and all of the remaining outstanding principal balance of \$43.9 million was called on April 25, 2011 and defeased on May 25, 2011 and as such we will record an additional loss on extinguishment of debt of \$0.8 million in the fourth quarter of fiscal 2011). The 6.50% Notes have a fixed annual interest rate of 6.50% and will mature May 1, 2019 with no principal payments due until maturity. Additionally, we believe the 6.50% Notes will allow for substantially increased flexibility in our ability to incur debt and make acquisitions, investments and distributions. The above, combined with the completion of our real estate projects where the proceeds from future real estate closings on The Ritz-Carlton Residences, Vail, One Ski Hill Place in Breckenridge and Crystal Peak Lodge at Breckenridge are expected to significantly exceed remaining carrying costs, has and is anticipated to provide us with significant liquidity which will allow us to consider strategic investments, including future acquisitions and other forms of providing return to our shareholders.

On June 7, 2011, the Company's Board of Directors approved the commencement of a regular quarterly dividend program and on that date authorized an annual cash dividend at a rate projected to be \$0.60 per share, subject to quarterly declaration, with the first quarterly dividend of \$0.15 per share declared and payable on July 18, 2011 to stockholders of record as of July 1, 2011. This dividend is anticipated to be funded through cash flow from operations and available cash on hand. We, at the discretion of the Board of Directors and subject to applicable law, anticipate paying regular quarterly dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, Credit Agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors.

Under GAAP, we test goodwill for impairment annually during the fourth quarter of each fiscal year, and evaluate long-lived assets for potential impairment whenever events or change in circumstances indicate that the carrying amount of an asset may not be recoverable. We evaluate the recoverability of our goodwill by estimating the future discounted cash flows of our reporting units and terminal values of the businesses using projected future levels of income as well as business trends, prospects and market and economic conditions. We evaluate the recoverability of indefinite-lived intangible assets using the income approach based upon estimated future revenue streams. We evaluate the recoverability of long-lived assets by estimating the future undiscounted cash flows using projected future levels of income. Our fiscal 2010 annual impairment test did not result in a goodwill or indefinite-lived intangible asset impairment nor have we had a change in circumstances that indicated a potential impairment of long-lived assets in fiscal 2011. However, if a more severe prolonged weakness in general economic conditions were to occur it could cause less than expected growth and/or reduction in terminal values of our reporting units which may result in a goodwill, indefinite-lived intangible asset and/or long-lived asset impairment charge attributable to certain goodwill, indefinite-lived intangible assets and/or long-lived assets, particularly related to certain of our lodging operations.

RESULTS OF OPERATIONS**Summary**

Shown below is a summary of operating results for both the three and nine months ended April 30, 2011, compared to the three and nine months ended April 30, 2010 (in thousands):

Total Mountain Reported EBITDA includes \$1.6 million and \$1.2 million of stock-based compensation expense for the three months ended April 30, 2011 and 2010, respectively.

Total Mountain net revenue increased \$49.2 million, or 16.3%, for the three months ended April 30, 2011 compared to the three months ended April 30, 2010, which increase includes \$31.1 million of revenue from Northstar-at-Tahoe, which was acquired in October 2010. Excluding the impact of the acquisition of Northstar-at-Tahoe, total Mountain net revenue would have increased \$18.1 million or 6.0%. Lift revenue increased \$27.6 million, or 17.3%, for the three months ended April 30, 2011 compared to the same period in the prior year, due to a \$17.3 million, or 15.5%, increase in paid lift revenue and a \$10.3 million, or 21.2%, increase in season pass revenue. Excluding Northstar-at-Tahoe, lift revenue increased \$11.7 million, or 7.3%, compared to the same period in the prior year, due to a \$6.3 million, or 5.7%, increase in paid lift revenue and a \$5.4 million, or 11.2%, increase in season pass revenue. Total skier visitation was up 11.4% and excluding Northstar-at-Tahoe, skier visitation was relatively flat as both the Colorado resorts and the Heavenly resort were unfavorably impacted by the timing of the Easter holiday which was in late April in the current fiscal year, versus, early April in the prior fiscal year. Our Heavenly resort was also impacted by higher than average resort closures due to severe weather in the current fiscal year. ETP, excluding season pass holders and Northstar-at-Tahoe, increased \$5.93, or 9.2%, due primarily to price increases implemented during the current fiscal year. Total ETP, excluding Northstar-at-Tahoe, increased \$3.60, or 7.3%, also due primarily to price increases implemented during the current year fiscal year, partially offset by a higher usage by our season pass holders in the current fiscal year.

Ski school revenue increased \$5.9 million, or 14.5%, for the three months ended April 30, 2011 compared to the same period in the prior year with the current year benefiting from the acquisition of Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, ski school revenue increased \$2.0 million, or 4.9%, which benefited from an increase in yield per skier visit due to higher guest spend as overall skier visitation was relatively flat.

Edgar Filing: VAIL RESORTS INC - Form 10-Q

Dining revenue increased \$5.9 million, or 22.8%, which also benefited from the acquisition of Northstar-at-Tahoe in the current fiscal year. Excluding Northstar-at-Tahoe, dining revenues increased \$1.8 million, or 6.9%, driven by a 6.0% increase in yield per skier visit for on-mountain dining, as well as the addition of two new on-mountain dining venues. The increases in both ski school and dining revenue were achieved despite the negative impact of the late Easter holiday in the current fiscal year.

Table of Contents

Retail/rental revenue increased \$4.3 million, or 7.7%, for the three months ended April 30, 2011 compared to the same period in the prior year, which includes \$4.0 million of incremental revenue from Northstar-at-Tahoe in the current fiscal year. Excluding Northstar-at-Tahoe, retail/rental increased \$0.3 million, or 0.5%, which was driven primarily by increased retail revenue at our Vail and Beaver Creek mountain resort stores and Any Mountain stores (in the San Francisco bay area). Overall, mountain resort stores were negatively impacted by the late Easter holiday in the current fiscal year.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), other mountain activities revenue, marketing and internet advertising revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For the three months ended April 30, 2011, other revenue increased \$5.6 million, or 26.8%, compared to the three months ended April 30, 2010, which includes \$3.2 million of incremental revenue from Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, other revenue increased \$2.4 million, or 11.2%, primarily due to an increase in internet advertising due to the acquisition of Mountain News Corporation in May 2010 and higher strategic alliance marketing revenues.

Operating expense increased \$25.7 million, or 16.4%, for the three months ended April 30, 2011 compared to the three months ended April 30, 2010, which includes \$19.4 million of expenses associated with Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, operating expense increased \$6.3 million, or 4.0%, for the three months ended April 30, 2011 compared to the three months ended April 30, 2010, due in part to higher labor and labor-related benefits which increased \$3.7 million, or 5.9%. Overall, operating expenses including labor were impacted by a 6.2% increase in the number of operating days as compared to the prior fiscal year as our Vail, Breckenridge and Heavenly resorts remained open through the late Easter holiday. Labor and labor-related benefits in the current year were also impacted by the partial reinstatement of the prior year's wage reduction and our matching component of the 401(k) plan and a more normal level of wage increases. These increases were partially offset by a decrease in workers compensation claims of \$2.2 million, due primarily to a substantial reduction in the number of claims. Retail cost of sales decreased \$1.6 million, or 8.3%, excluding Northstar-at-Tahoe, due to the mix of retail sales and improved gross margins. Additionally, resort related fees (including Forest Service fees, other resort-related fees, credit card fees and commissions) increased \$0.9 million, or 4.7%, excluding Northstar-at-Tahoe, compared to the three months ended April 30, 2010, due to overall increases in revenue upon which those fees are based and general and administrative expenses increased \$1.0 million, or 4.4%, excluding Northstar-at-Tahoe, primarily due to expenses associated with the operations of Mountain News Corporation acquired in May 2010. Other expense increased \$2.2 million, or 7.5%, excluding Northstar-at-Tahoe, primarily due to higher fuel expense, as well as increased food and beverage cost of sales primarily due to an increase in dining revenue.

Total Mountain Reported EBITDA includes \$5.4 million and \$4.0 million of stock-based compensation expense for the nine months ended April 30, 2011 and 2010, respectively.

Total Mountain net revenue increased \$108.1 million, or 17.9%, for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010, which increase includes \$61.3 million of revenue from Northstar-at-Tahoe, which was acquired in October 2010. Excluding the impact of the acquisition of Northstar-at-Tahoe, total mountain net revenue would have increased \$46.8 million or 7.8%. Lift revenue increased \$53.2 million, or 18.4%, for the nine months ended April 30, 2011 compared to the same period in the prior year, due to a \$34.2 million, or 18.1%, increase in paid lift revenue and a \$19.0 million, or 18.9%, increase in season pass revenue. A large portion of this increase is attributable to the acquisition of Northstar-at-Tahoe since comparable results for Northstar-at-Tahoe are not included in the same period for the prior year. Excluding Northstar-at-Tahoe, lift revenue increased \$22.4 million, or 7.7%, compared to the same period in the prior year, due to a \$13.2 million, or 7.0%, increase in paid lift revenue and a \$9.2 million, or 9.2%, increase in season pass revenue. Total skier visitation was up 16.3% and excluding Northstar-at-Tahoe, skier visitation was up 4.1% as both the Colorado resorts and the Heavenly resort benefited from significantly above average snowfall during the current season, but were unfavorably impacted by the timing of the Easter holiday which was in late April in the current fiscal year, versus, early April in the prior fiscal year. In addition, our Heavenly resort was also impacted by higher than average resort closures due to severe weather. ETP, excluding season pass holders and Northstar-at-Tahoe, increased \$5.31, or 8.3%, due primarily to price increases implemented during the current fiscal year. Total ETP, excluding Northstar-at-Tahoe, increased \$1.70, or 3.5%, also due primarily to price increases implemented during the current fiscal year, partially offset by higher usage including higher average usage per season pass holder in the current fiscal year.

Ski school revenue increased \$13.1 million, or 18.6%, for the nine months ended April 30, 2011 compared to the same period in the prior year with the current year benefiting from the acquisition of Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, ski school revenue increased \$5.5 million, or 7.8%, which benefited from the 4.1% increase in skier visitation and a 3.6% increase in yield per skier visit due to higher guest spend. Dining revenue increased \$13.2 million, or 26.8%, which also benefited from the acquisition of Northstar-at-Tahoe in the current fiscal year. Excluding Northstar-at-Tahoe, dining revenues increased \$5.3 million, or 10.7%, driven by increased skier visitation and a 5.8% increase in yield per skier visit for on-mountain dining, as well as the addition of two new on-mountain dining venues. The increases in both ski school and dining revenue were achieved despite the negative impact of the late Easter holiday in the current fiscal year.

Retail/rental revenue increased \$18.1 million, or 13.1%, for the nine months ended April 30, 2011 compared to the same period in the prior year, which includes \$8.5 million of incremental revenue from Northstar-at-Tahoe in the current fiscal year. Excluding Northstar-at-Tahoe, retail/rental increased \$9.6 million, or 7.0%, which was driven primarily by higher revenues at our Colorado front range stores and Any Mountain stores (in the San Francisco bay area) which combined increased by approximately 11% as compared to the prior year. Additionally, our mountain resort stores experienced an increase in revenue primarily driven by retail sales due to higher skier visitation although these increases were tapered by the late Easter holiday in the current fiscal year.

Other revenue mainly consists of private club revenue (which includes both club dues and amortization of initiation fees), summer visitation and other mountain activities revenue, marketing and internet advertising revenue, commercial leasing revenue, employee housing revenue, municipal services revenue and other recreation activity revenue. For the nine months ended April 30, 2011, other revenue increased \$10.5 million, or 18.9%, compared to the nine months ended April 30, 2010, which includes \$6.5 million of incremental revenue from Northstar-at-Tahoe. Excluding Northstar-at-Tahoe, other revenue increased \$4.0 million, or 7.2%, primarily due to an increase in internet advertising due to the acquisition of Mountain News Corporation in May 2010 and higher strategic alliance marketing revenues, partially offset by a decrease in municipal services revenue (primarily transportation services provided on behalf of certain municipalities).

Operating expense increased \$69.6 million, or 18.0%, for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010, which includes \$42.9 million of expenses (including \$4.0 million of acquisition related costs included in general and administrative expense) in the current fiscal year associated with Northstar-at-Tahoe and \$0.9 million (included in other expense) in assessments for extensive renovations to a commercial property in Breckenridge in which we are a tenant. Excluding these expenses, operating expense increased \$25.8 million, or 6.7%, for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010, due

in part to higher labor and labor-related benefits which increased \$13.0 million, or 9.0%, during the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010. Overall, operating expenses including labor were impacted by a 3.6% increase in the number of operating days primarily due to the late Easter holiday as discussed above, combined with opening ski terrain earlier due to above average early season snowfall. Labor and labor-related benefits in the current year were also impacted by the partial reinstatement of the prior year's wage reduction and our matching component of the 401(k) plan and a more normal level of wage increases, partially offset by a decrease in workers compensation claims of \$2.2 million. Additionally, labor costs were impacted by an increase in staffing levels due to an increase in demand for ancillary services primarily in ski school, dining and retail/rental operations. Retail cost of sales increased \$1.1 million, or 2.0%, excluding Northstar-at-Tahoe, primarily due to an increase in sales volume largely offset by improved gross margins. Additionally, resort related fees (including Forest Service fees, other resort-related fees, credit card fees and commissions) increased \$2.8 million, or 8.2%, excluding Northstar-at-Tahoe, compared to the nine months ended April 30, 2010, due to overall increases in revenue upon which those fees are based and general and administrative expenses increased \$4.1 million, or 5.8%, excluding Northstar-at-Tahoe, primarily due to expenses associated with the operations of Mountain News Corporation acquired in May 2010. Other expense increased \$4.7 million, or 5.8%, excluding the above mentioned expenses, primarily due to increased food and beverage cost of sales due to an increase in dining revenue and higher fuel and supplies expenses.

Total Lodging Reported EBITDA includes \$0.5 million of stock-based compensation expense for both the three months ended April 30, 2011 and 2010.

Revenue from owned hotel rooms increased \$0.4 million, or 4.0%, for the three months ended April 30, 2011 compared to the three months ended April 30, 2010, which was driven by an increase in ADR of 4.7%. Revenue from managed condominium rooms increased \$2.5 million, or 20.7%, for the three months ended April 30, 2011 compared to the three months ended April 30, 2010, primarily due to the addition of managed condominium rooms in the Lake Tahoe region, which generated \$1.5 million in revenue and the addition of managed condominium rooms at One Ski Hill Place in Breckenridge which generated \$0.7 million in revenue for the three months ended April 30, 2011. Excluding the additional managed condominium rooms in the Lake Tahoe region and One Ski Hill Place in Breckenridge, revenue from managed condominium rooms increased by \$0.3 million, or 2.6%, primarily due to an increase in ADR. Overall occupancy for both owned hotel rooms and managed condominium rooms was relatively flat for the three months ended April 30, 2011 compared to the same period in the prior fiscal year, which is primarily attributable to the negative impact of the late Easter holiday on our mountain resorts which resulted in flat skier visitation at our Colorado resorts as discussed in the Mountain segment of management's discussion and analysis of the results of operations.

Dining revenue for the three months ended April 30, 2011 increased \$0.5 million, or 9.3%, as compared to the three months ended April 30, 2010, primarily due to a renovated restaurant in Vail and a new restaurant located at One Ski Hill Place in Breckenridge. Transportation revenue for the three months ended April 30, 2011 increased \$0.3 million, or 3.7%, compared to the three months ended April 30, 2010, primarily due to an increase in passengers of 3.9%. Other revenue increased \$1.2 million, or 13.5%, during the three months ended April 30, 2011 compared to the same period in the prior year primarily due to an increase in revenue from managed hotel properties, including new managed properties in the Caribbean, and higher commissions earned from reservations booked through our central reservation system.

Operating expense increased \$1.7 million, or 4.3%, for the three months ended April 30, 2011 compared to the three months ended April 30, 2010, primarily due to an increase in labor and labor-related benefits of \$1.7 million, or 8.8%. Labor and labor-related benefits increased primarily due to higher staffing levels associated with new managed condominium rooms in the Lake Tahoe region and One Ski Hill Place in Breckenridge, and the partial reinstatement of the prior year's wage reduction and our matching component of the 401(k) plan, as well as a more normal level of wage increases for fiscal 2011. General and administrative expenses decreased \$1.1 million, or 13.3%, primarily due to a decrease in corporate general and administrative expense and recovery of previously estimated uncollectible accounts receivable. Other expense increased \$1.2 million, or 9.9%, primarily due to increased fuel costs, as well as other variable operating costs associated with increased revenue, including credit card fees and advertising expenses.

Total Lodging Reported EBITDA includes \$1.6 million and \$1.5 million of stock-based compensation expense for the nine months ended April 30, 2011 and 2010, respectively.

Revenue from owned hotel rooms and managed condominium rooms increased \$7.5 million, or 13.3%, for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010, which was driven by a increase in occupancy of 4.2 percentage points due to higher group business and transient guest visitation primarily as a result of increased skier visitation as discussed in the Mountain segment of management's discussion and analysis of the results of operations. Managed condominium room revenue was also favorably impacted by \$3.0 million related to the addition of managed condominium rooms in the Lake Tahoe region and the addition of managed condominium rooms at One Ski Hill Place in Breckenridge, which generated \$1.5 million in revenue for the nine months ended April 30, 2011. Excluding the additional condominium rooms in the Lake Tahoe region and One Ski Hill Place in Breckenridge, revenue from managed condominium rooms increased by \$1.0 million, or 3.7%, primarily driven by increased occupancy.

Dining revenue for the nine months ended April 30, 2011 increased \$2.5 million, or 13.6%, as compared to the nine months ended April 30, 2010, due to an increase in occupancy, including an increase in group visitation primarily at our Keystone lodging properties (\$0.8 million increase in revenue), an increase in transient visitation at GTLC (\$0.4 million increase in revenue), a restaurant that was closed for renovation for a portion of the prior year and a new restaurant located at One Ski Hill Place in Breckenridge. Other revenue increased \$3.1 million, or 12.2%, during the nine months ended April 30, 2011 compared to the same period in the prior year primarily due to an increase in revenue from managed hotel properties, including new managed properties in the Caribbean, higher commissions earned from reservations booked through our central reservation system and an increase in conference services provided to our group business.

Operating expense increased \$8.0 million, or 6.7%, for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010. Operating expense in the current year benefited from the receipt of \$2.9 million, net of legal expenses for the settlement of alleged damages related to the CME acquisition (included as a credit in other expense), partially offset by \$0.4 million (included in other expense) in assessments for extensive renovations to a commercial property in Breckenridge in which we are a tenant. Excluding the impact of these items, operating expense increased \$10.5 million, or 8.7%, during the nine months ended April 30, 2011, compared to the same period in the prior year. Labor and labor-related benefits increased \$6.4 million, or 11.2%, for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010. Labor and labor-related benefits increased primarily due to higher staffing levels associated with increased occupancy and labor associated with the addition of managed condominiums in the Lake Tahoe region and at One Ski Hill Place in Breckenridge, and the partial reinstatement of the prior year's wage reduction and our matching component of the 401(k) plan, as well as a more normal level of wage increases for fiscal 2011. Other expense, excluding the above mentioned items, increased \$4.6 million, or 11.7%, primarily due to increased fuel costs, as well as other variable operating costs associated with increased occupancy and revenue including higher food and beverage cost of sales, credit card fees and other operating expense and an increase in reimbursable costs associated with managed hotel properties.

Real Estate segment operating results for the three months ended April 30, 2011 and 2010 are presented by category as follows (in thousands):

	Three Months Ended April 30,		Percentage Increase
	2011	2010	
Total Real Estate net revenue	\$ 13,221	\$ 3,164	317.9%
Total Real Estate operating expense:			
Cost of sales (including sales commission)	11,840	2,480	377.4%

Total Real Estate operating expense	18,309	8,391	118.2%
Total Real Estate Reported EBITDA	\$ (5,088)	\$ (5,227)	2.7%

Real Estate Reported EBITDA includes \$0.8 million and \$1.0 million of stock-based compensation expense for the three months ended April 30, 2011 and 2010, respectively.

Our Real Estate operating revenue is primarily determined by the timing of closings and the mix of real estate sold in any given period. Different types of projects have different revenue and expense volumes and margins; therefore, as the real estate inventory mix changes it can greatly impact Real Estate segment net revenue, operating expense and Real Estate Reported EBITDA.

Three months ended April 30, 2011

Real Estate segment net revenue for the three months ended April 30, 2011 was driven primarily by the closing of four condominium units at The Ritz-Carlton Residences, Vail (\$9.9 million of revenue with an average selling price per unit of \$2.5 million and an average price per square foot of \$1,153). The Ritz-Carlton Residences, Vail average price per square foot is driven by The Ritz-Carlton brand, its premier Lionshead location at the base of Vail, its proximity to the Eagle Bahn gondola and the comprehensive and exclusive amenities related to the project. Additionally, during the three months ended April 30, 2011, we closed on three condominium units at One Ski Hill Place (\$3.4 million of revenue with an average selling price per unit of \$1.1 million and an average price per square foot of \$972). The One Ski Hill Place average price per square foot is driven by its premier ski-in/ski-out location at the base of Peak 8 in Breckenridge, its close proximity to the BreckConnect gondola and other lifts and the comprehensive offering of amenities resulting from this project.

Operating expense for the three months ended April 30, 2011 included cost of sales of \$11.0 million primarily resulting from the closing of four condominium units at The Ritz-Carlton Residences, Vail (average cost per square foot of \$976) and from the closing of three condominium units at One Ski Hill Place (average cost per square foot of \$751). The cost per square foot for The Ritz-Carlton Residences, Vail is reflective of the high-end features and amenities associated with a Ritz-Carlton project compared to other Vail properties and high construction costs associated with mountain resort development. The cost per square foot for One Ski Hill Place is reflective of the high-end features and amenities associated with this project compared to other Breckenridge properties and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$0.8 million were incurred commensurate with revenue recognized. Other operating expense of \$6.5 million (including \$0.8 million of stock-based compensation expense) was primarily comprised of general and administrative costs which include marketing expense for the real estate available for sale (including those units that have not yet closed), carrying costs for units available for sale and overhead costs, such as labor and labor-related benefits and allocated corporate costs.

Three months ended April 30, 2010

Real Estate segment net revenue for the three months ended April 30, 2010 was driven primarily by the closing of thirteen affordable housing units associated with the Jackson Hole Golf & Tennis Club (JHG&TC) development (\$2.5 million of revenue with an average selling price per unit of \$0.2 million and an average price per square foot of \$187).

Table of Contents

Operating expense for the three months ended April 30, 2010 included cost of sales of \$2.5 million resulting from the closing of thirteen affordable housing units associated with the JHG&TC development (average cost per square foot of \$187). Nine months ended April 30, 2011

Real Estate segment net revenue for the nine months ended April 30, 2011 was driven primarily by the closing of 67 condominium units (45 units sold to The Ritz-Carlton Development Company and 22 units sold to individuals) at The Ritz-Carlton Residences, Vail (\$176.7 million of revenue with an average selling price per unit of \$2.6 million and an average price per square foot of \$1,221). The Ritz-Carlton Residences, Vail average price per square foot is driven by The Ritz-Carlton brand, its premier Lionshead location at the base of Vail, its proximity to the Eagle Bahn gondola and the comprehensive and exclusive amenities related to the project. Additionally, during the nine months ended April 30, 2011, we recognized \$6.2 million of revenue related to deposits from buyers who defaulted on units under contract at The Ritz-Carlton Residences, Vail and we closed on four condominium units at One Ski Hill Place (\$4.3 million of revenue with an average selling price per unit of \$1.1 million and an average price per square foot of \$982).

Operating expense for the nine months ended April 30, 2011 included cost of sales of \$162.3 million primarily resulting from the closing of 67 condominium units at The Ritz-Carlton Residences, Vail (average cost per square foot of \$1,096) and from the closing of four condominium units at One Ski Hill Place (average cost per square foot of \$769). The cost per square foot for The Ritz-Carlton Residences, Vail is reflective of the high-end features and amenities associated with a Ritz-Carlton project compared to other Vail properties and high construction costs associated with mountain resort development. The cost per square foot for One Ski Hill Place is reflective of the high-end features and amenities associated with this project compared to other Breckenridge properties and high construction costs associated with mountain resort development. Additionally, sales commissions of approximately \$6.6 million were incurred commensurate with revenue recognized. Other Items

In addition to segment operating results, the following material items contributed to our overall financial position.

Depreciation and amortization. Depreciation and amortization expense for the three and nine months ended April 30, 2011 increased \$3.1 million and \$6.2 million, respectively, compared to the same periods in the prior year, primarily due to an increase in the fixed asset base due to incremental capital expenditures.

Interest expense, net. For the three and nine months ended April 30, 2011, interest expense, net increased \$4.8 million and \$12.5 million, respectively, compared to the same periods in the prior year primarily due to the significant reduction in the capitalization of interest on self-funded real estate projects in the current fiscal year, as all real estate projects under development have reached completion.

Net (income) loss attributable to noncontrolling interests, net. Net income attributable to noncontrolling interests for the three and nine months ended April 30, 2011 decreased \$3.6 million and \$5.7 million, respectively, compared to the same periods in the prior year due to our acquisition of the remaining 30.7% noncontrolling interest in SSI Ventures, LLC (SSV) on April 30, 2010.

Asset impairment charge. We previously extended a \$2.6 million note receivable, including accrued interest, to an entity that owns a hotel in which we manage. This entity has been in default on certain debt held by the entity and the third party owners of the entity have been unable to reach an agreement to restructure the debt with their creditor, as the creditor has initiated foreclosure proceedings in May 2011. If foreclosure were to occur, we do not believe we would recover our note receivable, including accrued interest. As such, we have recorded an asset impairment charge of \$2.6 million in our Consolidated Condensed Statements of Operations for the three and nine months ended April 30, 2011.

Loss on extinguishment of debt. In April 2011, we offered to purchase the 6.75% Notes for total consideration of \$1,013.75 per \$1,000 principal amount. Of the \$390 million outstanding 6.75% Notes, \$346.1 million, or approximately 89%, were tendered. A loss on extinguishment of debt in the amount of \$6.6 million was recorded during the three and nine months ended April 30, 2011 in connection with the 6.75% Notes that were tendered. Other costs included in the charge include transaction fees, the write off of unamortized debt issuance costs on the 6.75% Notes and legal fees.

Income taxes. The effective tax rate for the three and nine months ended April 30, 2011 was 38.5% and 38.0%, respectively, compared to the effective tax rate for the three and nine months ended April 30, 2010 of 33.9% and 33.0%, respectively. The interim period effective tax rate is primarily driven by the amount of anticipated pre-tax book income for the full fiscal year adjusted for items that are deductible/non-deductible for tax purposes only (i.e. permanent items) and the amount of net income attributable to noncontrolling interest recorded during the period. The effective tax rate increased for the three and nine months ended April 30, 2011 over the same periods in the prior fiscal year primarily due to a decrease in net income attributable to noncontrolling interests, resulting from our purchase of the remaining noncontrolling interest in SSV on April 30, 2010. Additionally, we recorded a \$0.7 million income tax benefit in the nine months ended April 30, 2011 due to a reversal of an income tax contingency resulting from the expiration of the statute of limitations.

In 2005, we amended previously filed tax returns (for the tax years from 1997 through 2002) in an effort to remove restrictions under Section 382 of the Internal Revenue Code on approximately \$73.8 million of net operating losses (NOLs) relating to fresh start accounting from our reorganization in 1992. As a result, we requested a refund related to the amended returns in the amount of \$6.2 million and have reduced our Federal tax liability in the amount of \$19.6 million in subsequent tax returns. In 2006, the Internal Revenue Service (IRS) completed its examination

Table of Contents

of our filing position in our amended returns and disallowed our request for a refund and our position to remove the restriction on the NOLs. We appealed the examiner's disallowance of the NOLs to the Office of Appeals. In December 2008, the Office of Appeals denied our appeal, as well as a request for mediation. We disagreed with the IRS interpretation disallowing the utilization of the NOLs and in August 2009, filed a complaint in the United States District Court for the District of Colorado seeking recovery of \$6.2 million in over payments that were previously denied by the IRS, plus interest. Due to the uncertainty surrounding the utilization of the NOLs, we have not reflected any of the benefits of the utilization of the NOLs within our financial statements; thus if we are unsuccessful in our action regarding this matter it will not negatively impact our results of operations.

LIQUIDITY AND CAPITAL RESOURCES

Significant Sources of Cash

Our second and third fiscal quarters historically result in seasonally high cash on hand as our ski resorts are generally open for ski operations from mid-November to mid-April, from which we have historically generated a significant portion of our operating cash flows for the fiscal year. Additionally, cash provided by operating activities can be significantly impacted by the timing or mix of closings on and investment in real estate development projects.

In addition to our \$168.6 million of cash and cash equivalents at April 30, 2011, we have \$331.7 million available under our Credit Agreement (which represents the total commitment of \$400.0 million less certain letters of credit outstanding of \$68.3 million), which was amended and restated on January 25, 2011. Key modifications to the

Table of Contents

Credit Agreement included, among other things, the extension of the maturity on the revolving credit facility from February 2012 to January 2016; increased grid pricing for interest rate margins (currently, under the Credit Agreement, at LIBOR plus 1.25%) and commitment fees (currently, under the Credit Agreement, at 0.25%); the expansion of baskets for improved flexibility in our ability to incur debt and make acquisitions, investments and distributions; and the elimination of certain financial covenants.

In addition, on April 25, 2011, we completed an offering for \$390 million of 6.50% Notes due 2019 the proceeds of which, along with available cash resources, were used or will be used to purchase the outstanding \$390 million principal amount of 6.75% Notes due 2014 and pay related premiums, fees and expenses (\$346.1 million principal balance of the 6.75% Notes were tendered as of April 30, 2011 and all of the remaining outstanding principal balance of \$43.9 million was defeased on May 25, 2011 and as such we will record an additional loss on extinguishment of debt of \$0.8 million in the fourth quarter of fiscal 2011). The 6.50% Notes have a fixed annual interest rate of 6.50% and will mature May 1, 2019 with no principal payments due until maturity. Additionally, we believe the 6.50% Notes will allow for substantially increased flexibility in our ability to incur debt and make acquisitions, investments and distributions.

Nine months ended April 30, 2011 compared to the nine months ended April 30, 2010

We generated \$291.3 million of cash from operating activities in the nine months ended April 30, 2011, an increase of \$234.6 million when compared to the \$56.7 million of cash generated in the nine months ended April 30, 2010. The increase in operating cash flows was primarily a result of an increase in the number of real estate closings that occurred in the nine months ended April 30, 2011 which generated \$156.6 million in net proceeds compared to \$2.5 million generated in net proceeds during the nine months ended April 30, 2010. Additionally, investments in real estate decreased \$121.6 million during the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010 as our real estate projects under development have reached completion. Additionally, an improvement in resort operations, including from Northstar-at-Tahoe which was acquired in October 2010, have increased Resort EBITDA \$44.6 million for the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010. Partially offsetting the above items was an increase in accounts receivable of \$12.8 million, an increase in other assets, net of \$26.9 million and a decrease in accounts payable and accrued liabilities of \$27.6 million primarily due to a reduction in real estate development payables.

Cash used in investing activities increased by \$86.7 million in the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010, due to the acquisition of Northstar-at-Tahoe in October 2010 for \$60.5 million (net of cash assumed), an increase in resort capital expenditures of \$24.8 million during the nine months ended April 30, 2011, and the prior year cash receipt of \$8.9 million primarily related to a land parcel we sold during the nine months ended April 30, 2010.

Cash used in financing activities decreased \$24.0 million in the nine months ended April 30, 2011 compared to the nine months ended April 30, 2010. The decrease in cash used in financing cash flows was primarily due to the acquisition of the remaining noncontrolling interest in SSV in the prior year for \$31.0 million on April 30, 2010. Additionally, net proceeds of \$35.8 million were received in the nine months ended April 30, 2011 from borrowings under the 6.50% Notes net of payment of the tender of the 6.75% Notes and associated financing costs (the remaining outstanding principal balance on the 6.75% Notes of \$43.9 million was called on April 25, 2011 and defeased on May 25, 2011). The above was partially offset by the reduction in net borrowings under the Credit Agreement and costs associated with the amended and restated Credit Agreement of \$38.0 million during the nine months ended April 30, 2011.

Significant Uses of Cash

Our cash uses currently include providing for operating expenditures and capital expenditures for assets to be used in operations and to a substantially lesser degree remaining minor expenditures on substantially completed real estate projects and future development projects.

We have historically invested significant cash in capital expenditures for our resort operations, and we expect to continue to invest in the future. Current capital expenditure levels will primarily include investments that allow us to maintain our high quality standards, as well as certain incremental discretionary improvements at our six ski resorts and throughout our owned hotels. Additionally, with the acquisition of Northstar-at-Tahoe to our ski resort portfolio, we expect to significantly invest in this resort property in the near term to enhance the guest experience. We evaluate additional discretionary capital improvements based on an expected level of return on investment. We currently anticipate we will spend approximately \$88 million to \$98 million of resort capital expenditures for

Table of Contents

calendar year 2011 excluding Northstar-at-Tahoe and an additional \$28 million to \$32 million related to Northstar-at-Tahoe. Approximately \$16 million was spent for capital expenditures, including Northstar-at-Tahoe, as of April 30, 2011. Included in these capital expenditures are approximately \$40 million to \$44 million excluding Northstar-at-Tahoe and an additional \$4 million to \$6 million related to Northstar-at-Tahoe, which are necessary to maintain appearance and level of service appropriate to our resort operations, including routine replacement of snow grooming equipment and rental fleet equipment. Discretionary expenditures for calendar 2011 are expected to include a new high speed chairlift to serve Beaver Creek mountain; a new on-mountain fine dining restaurant at Vail; development of significant new functionality for Epic Mix for use at all six of our resorts; renovation at certain owned lodging properties; expansion of terrain at Northstar-at-Tahoe, including a new high speed chairlift; a new on-mountain dining venue at Northstar-at-Tahoe and renovation of the commercial village at Northstar-at-Tahoe to bring in a new tenant mix. We currently plan to utilize cash on hand, borrowings available under our Credit Agreement and/or cash flow generated from future operations to provide the cash necessary to execute our capital plans. Additionally, we do not expect to make any significant income tax payments throughout the year ending July 31, 2011 due to accelerated tax deductions, subject to a settlement of the dispute with the IRS over the utilization of NOLs previously discussed.

In April 2011, we called all of the remaining outstanding 6.75% Notes of \$43.9 million for a call price of 101.125% of the principal balance (\$0.5 million in call premium); as a result, the 6.75% Notes were completely defeased on May 25, 2011.

Principal payments on the vast majority of our long-term debt are not due until fiscal 2019 and beyond. As of April 30, 2011 and 2010, total long-term debt (including long-term debt due within one year) was \$535.8 million and \$491.7 million, respectively, with the current year amount including \$43.9 million of 6.75% Notes that were defeased on May 25, 2011. Net Debt (defined as long-term debt plus long-term debt due within one year less cash and cash equivalents) decreased from \$440.5 million as of April 30, 2010 to \$367.2 million as of April 30, 2011 due primarily to the increase in cash flow from operations.

Our debt service requirements can be impacted by changing interest rates as we had \$52.6 million of variable-rate debt outstanding as of April 30, 2011. A 100-basis point change in LIBOR would cause annual interest payments to change by approximately \$0.5 million. The fluctuation in our debt service requirements, in addition to interest rate changes, may be impacted by future borrowings under our Credit Agreement or other alternative financing arrangements we may enter into. Our long term liquidity needs are dependent upon operating results that impact the borrowing capacity under the Credit Agreement, which can be mitigated by adjustments to capital expenditures, flexibility of investment activities and the ability to obtain favorable future financing. We can respond to liquidity impacts of changes in the business and economic environment by managing our capital expenditures and the timing of new real estate development activity.

On March 9, 2006, our Board of Directors approved the repurchase of up to 3,000,000 shares of common stock and on July 16, 2008 approved an increase to our common stock repurchase authorization by an additional 3,000,000 shares. We did not repurchase any shares of common stock during the nine months ended April 30, 2011. Since inception of the stock repurchase plan, we have repurchased 4,262,804 shares at a cost of approximately \$162.8 million, through April 30, 2011. As of April 30, 2011, 1,735,196 shares remained available to repurchase under the existing repurchase authorization. Shares of common stock purchased pursuant to the repurchase program will be held as treasury shares and may be used for the issuance of shares under our employee share award plans. Acquisitions under the stock repurchase program may be made from time to time at prevailing prices as permitted by applicable laws, and subject to market conditions and other factors. The timing as well as the number of shares that may be repurchased under the program will depend on a number of factors, including our future financial performance, our available cash resources and competing uses for cash that may arise in the future, the restrictions in our Credit Agreement and the Indenture, dated as of April 25, 2011 among us, the guarantors therein and The Bank of New York Mellon Trust Company, N.A. as Trustee (Indenture), governing the 6.50% Notes, prevailing prices of our common stock and the number of shares that become available for sale at prices that we believe are attractive. The stock repurchase program may be discontinued at any time and is not expected to have a significant impact on our capitalization.

On June 7, 2011, the Company's Board of Directors approved the commencement of a regular quarterly dividend program and on that date authorized an annual cash dividend at a rate projected to be \$0.60 per share, subject to quarterly declaration, with the first quarterly dividend of \$0.15 per share declared and payable on July 18, 2011 to stockholders of record as of July 1, 2011. This dividend is anticipated to be funded through cash flow from operations and available cash on hand. We, at the discretion of the Board of Directors and subject to applicable law, anticipate paying regular quarterly dividends on our common stock for the foreseeable future. The amount, if any, of the dividends to be paid in the future will depend upon our then available cash, anticipated cash needs, overall financial condition, Credit Agreement restrictions, future prospects for earnings and cash flows, as well as other relevant factors.

Covenants and Limitations

We must abide by certain restrictive financial covenants under the Credit Agreement and the Indenture. The most restrictive of those covenants include the following Credit Agreement covenants: Net Funded Debt to Adjusted EBITDA ratio and the Interest Coverage ratio (each as defined in the Credit Agreement). In addition, our financing arrangements, including the Indenture, limit our ability to incur certain indebtedness, make certain restricted payments, enter into certain investments, make certain affiliate transfers and may limit our ability to enter into certain mergers, consolidations or sales of assets. Our borrowing availability under the Credit Agreement is primarily determined by the Net Funded Debt to Adjusted EBITDA ratio, which is based on our segment operating performance, as defined in the Credit Agreement.

We were in compliance with all restrictive financial covenants in our debt instruments as of April 30, 2011. We expect we will meet all applicable financial maintenance covenants in our Credit Agreement, including the Net Funded Debt to Adjusted EBITDA ratio throughout the fiscal year ending July 31, 2011. However, there can be no assurance that we will continue to meet such financial covenants. If such covenants are not met, we would be required to seek a waiver or amendment from the banks who are parties to the Credit Agreement. There can be no assurance that such waiver or amendment would be granted, which could have a material adverse impact on our liquidity.

OFF BALANCE SHEET ARRANGEMENTS

We do not have off balance sheet transactions that are expected to have a material effect on our financial condition, revenue, expenses, results of operations, liquidity, capital expenditures or capital resources.

FORWARD-LOOKING STATEMENTS

Except for any historical information contained herein, the matters discussed in this Form 10-Q contain certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to analyses and other information available as of the date hereof, which are based on forecasts of future results and estimates of amounts not yet determinable. These statements also relate to our contemplated future prospects, developments and business strategies.

These forward-looking statements are identified by their use of terms and phrases such as anticipate, believe, could, estimate, expect, intend, may, plan, predict, project, will and similar terms and phrases, including references to assumptions. Although we believe that our plans, intentions and expectations reflected in or suggested by such forward-looking statements are reasonable, we cannot assure you that such plans, intentions or expectations will be achieved. Important factors that could cause actual results to differ materially from our forward-looking statements include, but are not limited to:

prolonged weakness in general economic conditions, including adverse effects on the overall travel and leisure related industries;

unfavorable weather conditions or natural disasters;

adverse events that occur during our peak operating periods combined with the seasonality of our business;

competition in our mountain and lodging businesses;

our ability to grow our resort and real estate operations;

our ability to successfully complete real estate development projects and achieve the anticipated financial benefits from such projects;

Edgar Filing: VAIL RESORTS INC - Form 10-Q

further adverse changes in real estate markets;

continued volatility in credit markets;

our ability to obtain financing on terms acceptable to us to finance our real estate development, capital expenditures and growth strategy;

our reliance on government permits or approvals for our use of Federal land or to make operational improvements;

adverse consequences of current or future legal claims;

our ability to hire and retain a sufficient seasonal workforce;

willingness of our guests to travel due to terrorism, the uncertainty of military conflicts or outbreaks of contagious diseases, and the cost and availability of travel options;

negative publicity which diminishes the value of our brands;

our ability to integrate and successfully realize anticipated benefits of acquisitions or future acquisitions; and

implications arising from new Financial Accounting Standards Board (FASB)/governmental legislation, rulings or interpretations.

All forward-looking statements attributable to us or any persons acting on our behalf are expressly qualified in their entirety by these cautionary statements.

If one or more of these risks or uncertainties materialize, or if underlying assumptions prove incorrect, our actual results may vary materially from those expected, estimated or projected. Given these uncertainties, users of the information included in this Form 10-Q, including investors and prospective investors, are cautioned not to place undue reliance on such forward-looking statements. Actual results may differ materially from those suggested by the forward-looking statements that the Company makes for a number of reasons including those described in this Form 10-Q and in Part I, Item 1A Risk Factors of the Form 10-K. All forward-looking statements are made only as of the date hereof. Except as may be required by law, the Company does not intend to update these forward-looking statements, even if new information, future events or other circumstances have made them incorrect or misleading.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Risk. Our exposure to market risk is limited primarily to the fluctuating interest rates associated with variable rate indebtedness. At April 30, 2011, we had \$52.6 million of variable rate indebtedness, representing 9.8% of our total debt outstanding, at an average interest rate of 0.4% during each of the three and nine months ended April 30, 2011. Based on variable-rate borrowings outstanding as of April 30, 2011, a 100-basis point (or 1.0%) change in LIBOR would result in our annual interest payments to change by \$0.5 million. Our market risk exposure fluctuates based on changes in underlying interest rates.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

Management of the Company, under the supervision and with participation of the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), have evaluated the effectiveness of the Company s disclosure controls and procedures as such term is defined in Rule 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Act) as of the end of the period covered by this report on Form 10-Q.

Based upon their evaluation of the Company s disclosure controls and procedures, the CEO and the CFO concluded that the disclosure controls are effective to provide reasonable assurance that information required to be disclosed by the Company in the reports that it files or submits under the Act is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure and are effective to provide reasonable assurance that such information is recorded, processed, summarized and reported within the time periods specified by the SEC s rules and forms.

The Company, including its CEO and CFO, does not expect that the Company s internal controls and procedures will prevent or detect all error and all fraud. A control system, no matter how well conceived or operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met.

Changes in Internal Control over Financial Reporting

Edgar Filing: VAIL RESORTS INC - Form 10-Q

There were no changes in the Company's internal control over financial reporting during the period covered by this Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

Internal Revenue Service Litigation

On August 24, 2009, we filed a complaint in the United States District Court for the District of Colorado against the United States of America seeking a refund of approximately \$6.2 million in Federal income taxes paid for the tax years ended December 31, 2000 and December 31, 2001. Our amended tax returns for those years included calculations of NOLs carried forward from prior years to reduce our tax years 2000 and 2001 tax liabilities. The IRS has disallowed refunds associated with those NOL carry forwards and we disagree with the IRS action disallowing the utilization of the NOLs. The IRS filed its answer on November 6, 2009 denying liability for our claimed refunds. The parties completed discovery on August 31, 2010, and completed the briefing of their respective summary judgment motions on October 25, 2010. It is unknown when the Court will issue its summary judgment rulings and we are unable to predict the ultimate outcome of this matter.
