\*An explanation of the significance of ratings may be obtained from the rating agencies. Generally, rating agencies base their ratings on such material and information, and such of their own investigations, studies and assumptions, as they deem appropriate. The ratings of the Notes should be evaluated independently from similar ratings of other securities. A credit rating of a security is not a recommendation to buy, sell or hold securities and may be subject to review, suspension, reduction or withdrawal at any time by the assigning rating agency.

We expect that delivery of the Notes will be made against payment therefor on or about the settlement date specified above, which will be the fifth business day following the date of this term sheet. Under Rule 15c6-1 of the Securities and Exchange Commission (the "SEC") under the Securities Exchange Act of 1934, as amended, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade the Notes on the date of this term sheet or the following business day will be required, by virtue of the fact that the Notes initially will settle in T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of the Notes who wish to trade the Notes on the date hereof or the following business day should consult their own advisor.
