ANNUAL REPORT PURSUANT TO SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2014.

TRANSITION REPORT UNDER SECTION 13 or 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File No. 000-30152

PAYMENT DATA SYSTEMS, INC.
(Exact name of registrant as specified in its charter)

Nevada
(State or other
jurisdiction of
incorporation or
organization)

98-0190072

(I.R.S. Employer
Identification No.)

12500 San Pedro,
Ste. 120, San Antonio, TX 78216
(Address of
principal executive
offices) (Zip
Code)

Registrant's telephone number, including area code (210) 249-4100

Securities registered pursuant to Section 12(b) of the Act: None.

Securities registered pursuant to Section 12(g) of the Act:	Common stock, par value \$0.001 per share. (Title of class)
---	---

Edgar Filing: PAYMENT DATA SYSTEMS INC - Form 10-K

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.
 Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K (§229.405 of this chapter) is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer," and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="radio"/>	Accelerated filer	<input type="radio"/>
Non-accelerated filer	<input type="radio"/>	Smaller reporting company	<input checked="" type="radio"/>

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the voting stock held by non-affiliates of the registrant as of December 31, 2014, the last business day of the registrant's fiscal year, was approximately \$3,527,999 based on 48,999,990 shares of the registrant's common stock held by non-affiliates on December 31, 2014 at the closing price of \$0.175 per share. For purposes of this computation, all officers, directors and 10% beneficial owners of the registrant are deemed to be affiliates. Such determination should not be deemed an admission that such officers, directors or 10% beneficial owners are, in fact, affiliates of the registrant.

As of March 24, 2015, the number of outstanding shares of the registrant's common stock was 184,534,791.

DOCUMENTS INCORPORATED BY REFERENCE: None.

FACTORS THAT MAY AFFECT FUTURE RESULTS

This Annual Report on Form 10-K and the documents incorporated herein by reference contain certain forward-looking statements as defined under the federal securities laws. Specifically, all statements other than statements of historical facts included in this Annual Report on Form 10-K regarding our financial performance, business strategy and plans and objectives of management for future operations and any other future events are forward-looking statements and based on our beliefs and assumptions. If used in this report, the words "anticipate," "believe," "estimate", "expect," "intend," and words or phrases of similar import are intended to identify forward-looking statements. Such statements reflect our current view with respect to future events and are subject to certain risks, uncertainties, and assumptions, including, but without limitation, those risks and uncertainties contained in the Risk Factors section of this Annual Report on Form 10-K and our other filings made with the SEC. Although we believe that our expectations are reasonable, we can give no assurance that such expectations will prove to be correct. Based upon changing conditions, any one or more of these events described herein as anticipated, believed, estimated, expected or intended may not occur. All prior and subsequent written and oral forward-looking statements attributable to our Company or persons acting on our behalf are expressly qualified in their entirety by this cautionary statement. We do not intend to update any of the forward-looking statements after the date of this Annual Report to conform these statements to actual results or to changes in our expectations, except as required by law.

PART I

ITEM 1. BUSINESS.

General

We were founded in July 1998 and incorporated in the State of Nevada. Our primary operations consist of functioning as a processor of electronic payments for other companies. We provide integrated electronic payment processing services to merchants and businesses, including all types of Automated Clearing House, or ACH, processing, credit, prepaid card and debit card-based processing services.

The ACH network is a nationwide electronic funds transfer system that is regulated by the Federal Reserve and NACHA, the electronic payments association and provides for the clearing of electronic payments between participating financial institutions. Our ACH processing services enable merchants or businesses to both disburse and collect funds electronically using e-checks to transfer funds instead of traditional paper checks. An e-check is an electronic debit to a bank checking account that is initiated at the point-of-sale, on the Internet, over the telephone or via a bill payment sent through the mail and is processed using the ACH network. Our card-based processing services enable merchants to process both traditional card-present, or "swipe," transactions, as well as card-not-present transactions. A traditional card-present transaction occurs whenever a cardholder physically presents a credit or debit card to a merchant at the point-of-sale. A card-not-present transaction occurs whenever the customer does not physically present a payment card at the point-of-sale and may occur over the Internet, mail, fax or telephone. Our electronic payment processing may take place in a variety of forms and situations. For example, our capabilities allow merchants to convert a paper check to an e-check or receive card authorization at the point-of-sale, allow our merchants' respective customer service representatives to take e-check or card payments from their consumers by telephone, and enable their consumers to make e-check or card payments directly through the use of a web site or by calling an interactive voice response telephone system.

We also provide prepaid card processing services for merchants and consumers through our wholly-owned subsidiary, FiCenteve, Inc. We offer MasterCard prepaid cards branded with our customers' corporation logos or trademarks. These prepaid cards can be used for various applications including payroll, corporate incentives, employee incentives, and general use. Some card programs allow the cards to be reloaded with funds, while others do not have that capability. In some cases, the cards can be used at Automatic Teller Machines, or ATMs, to withdraw cash.

Through our recently acquired business Akimbo Financial, Inc. we offer Visa prepaid cards to consumers for use as a tool to stay on budget, manage allowances and share money with family and friends. These prepaid cards can be linked to the consumers' bank accounts and loaded via direct deposits or bank transfers or loaded using Visa ReadyLink at many retail outlets or by loading pre-printed and approved personal or payroll checks using a smartphone. Consumers can also create up to five sub-cards. The prepaid cards can be used for purchases anywhere Visa debit cards are accepted or at ATMs to withdraw cash. It is our plan to move the Akimbo card program to operate on the MasterCard and associated networks and to our existing sponsoring bank, Sunrise Banks, N.A. We expect this transition will allow for us to capture enough savings of expenses to make the program cash-flow positive around June 30, 2015.

We provide integrated electronic payment processing services to merchants and businesses, including credit and debit card-based processing services and transaction processing via the ACH network. We also operate an online payment processing service, under the domain name www.billx.com system, which allows consumers to process online payments to pay any other individual, including family and friends. We generate revenues by charging fees for the electronic processing of payment transactions or use of our prepaid cards and related services. We charge certain merchants for these processing services at a bundled rate based upon a percentage of the dollar amount of each

transaction and, in some instances, additional fees are charged for each transaction. We charge other merchant customers a flat fee per transaction, and may also charge miscellaneous fees to our customers, including fees for returns, monthly minimums, and other miscellaneous services. We charge consumers that use our billx.com online payment service a flat monthly fee that allows them to make a certain number of payments in a month. We also charge these consumers an additional fee for each payment that exceeds the contracted allowed number of payments in a given month. We charge consumers that use our prepaid card services fees for certain services and we earn revenue from network interchange when a card is used for signature or card-not-present purchases. We operate solely in the United States under two operating segments—Payment Data Systems, and FiCentive, Inc., which provides prepaid card processing.

Our web sites are www.paymentdata.com, www.ficentive.com and www.zbill.com. Information contained in our website does not constitute part of this annual report.

Industry Background

In the United States, the use of non-paper based forms of payment, such as credit and debit cards, has risen steadily over the past several years. According to a 2013 Federal Reserve Payments study, the estimated number of non-cash payments increased 4.4% per year from 2009 to 2012, totaled \$122.8 billion in 2012, with a value of \$78.96 trillion. From 2009 to 2012, ACH, debit cards and prepaid cards grew at a compound annual growth rate of 5.1%, 7.7% and 15.8%, respectively, while credit card transactions only grew at an annual rate of 7.6%, and use of paper checks declined by 9.2%. Electronic payments, including payments made with cards and ACH, now collectively exceed three-quarters of all non-cash payments. Banking and financial institutions enable their account holders to use more check image deposit services which is also referred to as “remote deposit capture.” As a result, traditional paper trails are being replaced by speedier, more cost-effective and eco-friendly image exchanges.

The growth of electronic commerce has made the acceptance of card-based and other electronic forms of payment a necessity for businesses, both large and small, in order to remain competitive. We believe that the electronic payment processing industry will continue to benefit from the following trends:

Favorable Demographics

As consumers age, we expect that they will continue to use the payment technology to which they have grown accustomed. More consumers are beginning to use card-based and other electronic payment methods for purchases at an earlier age. These consumers have witnessed the wide adoption of card products, technology innovations such as mobile phone payment applications, and widespread adoption of the Internet. They comprise an increasing percentage of the population and as they enter the work force, we expect purchases using electronic payment methods will become a larger percentage of total consumer spending. Because of the increasing adoption rate of the Internet, businesses have a growing opportunity to conduct commerce with their consumers and business partners over the Internet. We believe the increasing usage of smartphones as an instrument of payment will also create further opportunities for us in the future. We also believe that contactless payments like Apple Pay™ will increase payment processing opportunities for us.

Increased Electronic Payment Acceptance by Small Businesses

Small businesses are a vital component of the U.S. economy and are expected to contribute to the increased use of electronic payment methods. The lower costs associated with electronic payment methods are making these services more affordable to a larger segment of the small business market. In addition, we believe these businesses are experiencing increased pressure to accept electronic payment methods in order to remain competitive and to meet consumer expectations. As a result, many of these small businesses are seeking to provide customers with the ability to pay for merchandise and services using electronic payment methods, including those in industries have historically accepted cash and checks as the only forms of payment for their merchandise and services.

Growth in Online Transactions

Market researchers expect continued growth in card-not-present transactions due to the steady growth of the Internet and electronic commerce. According to the U.S. Census Bureau, estimated retail e-commerce sales for 2014 were \$304.9 billion, an increase of approximately 15.4% from \$263.3 billion in 2013. We believe the prevalence of the Internet makes having an online presence a basic and necessary consideration for those operating a business today.

The growth of electronic commerce also has made the acceptance of card-based and other electronic forms of payment a necessity for today’s business. Forrester Research expects that e-commerce sales in the United States will keep growing at a 9.5% compound annual growth rate through 2018, translating to online retail sales of \$414 billion in

2018, up from \$263 billion in 2013. Companies, both large and small, continue to leverage the Internet in order to remain competitive, improve operational efficiencies, create new revenue streams and maximize the longevity and profitability of their customer relationships.

Products and Services

Our service offerings are supported by our systems' infrastructure that integrates certain proprietary components with processing systems outsourced to third-party providers to offer our customers a flexible and secure payment process. We utilize a secure sockets layer architecture so that connections and information are secure from outside inspection. We also use 128-bit encryption for all electronic transactions that we process to make information unreadable as it passes over the Internet. Our systems' infrastructure allows us to work with our customers to build a customized electronic payment service offering tailored to their specific needs. We have designed and implemented our integrated payment systems to function as gateways between our customers and our third-party processing providers. Our systems provide for interfaces with our customers through which payment data is captured electronically and transferred through the connections we have with our processing providers. Our systems also provide a data warehousing capability so that all of payment data related to a customer can be stored in one place to facilitate efficient data retrieval and analysis. All confidential data stored within and outside the data warehouse is fully encrypted. We outsource our ACH transaction processing and card-based transaction processing to third-party providers. Our card-based processing system is capable of connecting with all of the major card-based processors in the United States.

We introduced a new product offering, a mobile payment application called iRemote Pay. iRemote Pay is specifically designed for both small and large merchant customers that have a need for a remote wireless point-of-sale application to accept credit cards, debit cards, Automated Clearing House, and cash payments. The application is currently designed to run on iPhone, iPad, iPod Touch devices and we intend to develop Android and Windows platforms in the future.

The components of our service offerings include all forms of ACH transaction processing, such as Represented Check, which is a consumer non-sufficient funds check that is represented for payment electronically rather than through the paper check collection system, and Accounts Receivable Check Conversion, which is a consumer paper check payment that is converted into an e-check. Our customers can initiate ACH transactions directly using an online terminal accessible through a website or we can initiate ACH transactions on their behalf. Our service offering also includes merchant account services for the processing of card-based transactions through the VISA, MasterCard, American Express, Discover, and JCB networks, including online terminal services accessed through a web site or retail services accessed via a physical terminal. We offer a proprietary web-based customer service application that combines both ACH and card processing capabilities that allows companies to process one-time and recurring payments via e-checks or credit cards at the request of their consumers. In addition, we offer an Interactive Voice Response telephone system to companies that accept payments directly from consumers over the telephone using e-checks or credit cards.

In addition to these electronic payment services, we are a prepaid card program manager and prepaid card processor. We develop and manage prepaid card programs on behalf of corporate clients who have customers that want prepaid cards that are branded with the entity's unique logo. We started issuing cards in October 2011 and hold bank sponsorship agreements with Sunrise Banks, N.A., formerly known as University National Bank, and Metropolitan Commercial Bank for our prepaid card program. We also have the ability to issue Discover, American Express, Visa, and MasterCard prepaid credit cards. We primarily create, manage and process prepaid card programs for corporate clients, tailored to each client's unique objectives to allow the client to issue prepaid cards to their customer base or employees as an incentive in the form of a rebate, commission, or other incentive. We also issue general purpose reloadable cards to consumers as an alternative to a traditional bank account. We believe our prepaid card product offering is competitive due to our proprietary systems and the ability to implement corporate-branded card programs in a shorter time frame than most of our competitors. We also believe our eight years of experience in processing and managing prepaid card programs is a competitive advantage over many of our competitors due to the industry being relatively new.

We also operate a consumer web site focused on providing bill payment services under the domain name www.billx.com, and manage all of the related back-end processing through our own proprietary processing engine. Consumers subscribe to the payment service and are allowed to make a certain number of payments each month for a flat monthly fee and are assessed a separate fee for any additional payments made over the limit. Our online payment processing service seeks to provide consumers with an efficient and secure interface for paying and managing bills via the Internet. We also sell this payment portal service as a private label solution to online financial services providers looking to provide online bill payment capabilities as part of their service offering to consumers. We also offer this service to other debit card issuers, as we are able to utilize the bill payment component of this service for payments made via debit cards, a patented process for which we own a perpetual license.

Relationships with Sponsors and Processors

We have agreements with several processors that provide to us, on a non-exclusive basis, transaction processing and transmittal, transaction authorization and data capture, and access to various reporting tools. In order to provide payment processing services for ACH transactions, we must maintain a relationship with an Originating Depository Financial Institution, or ODFI, in the Automated Clearing House, or ACH, network because we are not a bank and

therefore we are not eligible to be an Originating Depository Financial Institution. For the ODFI portion of our ACH business, we have entered into agreements with the Fifth Third Bank and Generations Federal Credit Union. We are financially liable for all fees, fines, chargebacks and losses related to our ACH processing merchant customers. We may also require cash deposits and other types of collateral from certain merchants to mitigate any such risk. Similarly, in order to provide payment-processing services for Visa, MasterCard and Discover transactions, we must be sponsored by a financial institution that is a principal member of the respective Visa, MasterCard and Discover card associations. Merrick Bank and Wells Fargo Bank have, respectively, sponsored us under the designations Third Party Processor, or TPP, and Independent Sales Organization, or ISO with the Visa card association, and under the designations Third Party Servicer, or TPS, and Merchant Service Provider, or MSP, with the MasterCard card association. We have an agreement with TriSource Solutions, LLC and an agreement with Global Payments, Inc. through which their member banks, Merrick Bank and Wells Fargo, sponsor us for membership in the Visa, MasterCard, American Express, and Discover card associations and settle card transactions for our merchants. These agreements may be terminated by the processor if we materially breach the agreements and we do not cure the breach within 30 days, or if we enter bankruptcy or file for bankruptcy. We also maintain a bank sponsorship agreement with Sunrise Banks, N.A., formerly known as University National Bank, and Metropolitan Commercial Bank for our prepaid card programs. We are liable for any card-associated losses for cards that we issue that might incur a negative balance and we are liable for card association fines, fees and chargebacks.

Under our processing agreement with TriSource Solutions, we are financially liable for all fees, fines, chargebacks and losses related to our card processing merchant customers. Under our processing agreement with Global Payments, Inc., we are not financially liable for all fees, chargebacks and losses related to our card processing merchant customers, but we are liable for potential card association fines. If, due to insolvency or bankruptcy of our merchant customers, or for another reason, we are unable to collect from our merchant customers amounts that have been refunded to the cardholders because the cardholders properly initiated a chargeback transaction to reverse the credit card charges, we must bear the credit risk for the full amount of the cardholder transaction. We utilize a number of systems and procedures to evaluate and manage merchant risk, such as obtaining approval of prospective merchants from our processor and sponsor bank, setting transaction limits and monitoring account activity. We may also require cash deposits and other types of collateral from certain merchants to mitigate any such risk. We maintain a reserve for losses resulting from card processing and related chargebacks. We estimate our potential loss for chargebacks by performing a historical analysis of our chargeback loss experience with similar merchants and considering other factors that could affect that experience in the future, such as the types of card transactions processed and nature of the merchant relationship with their consumers.

We maintain a separate allowance for estimated losses resulting from the inability or failure of our merchant customers to make required payments for fees charged by us. Amounts due from customers may be deemed uncollectible because of merchant disputes, fraud, insolvency or bankruptcy. We determine the allowance based on an account-by-account review, taking into consideration such factors as the age of the outstanding receivable, historical pattern of collections and financial condition of the customer. We closely monitor extensions of credit and if the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make contractual payments, additional allowances may be required.

Sales and Marketing

We market and sell our products and services through direct contact by our sales personnel, as well as through non-exclusive resellers that act as an external sales force, with minimal direct investment in sales infrastructure and management. Our direct sales efforts are coordinated by a sales executive and supported by other employees who function in sales capacities. Our primary market focus is on companies generating high volumes of electronic payment transactions. We tailor our sales efforts to reach this market by pre-qualifying prospective sales leads through direct contact or market research. Our sales personnel typically initiate contact with prospective customers that we identify as meeting our target customer profile. We also market and sell our prepaid card program directly to corporations and to consumers through the Internet. We intend to continue to analyze our sales and marketing efforts in order to control costs, increase the effectiveness of our sales force, and broaden our reach through reseller initiatives and advantageous alliances.

Customers

Our primary customers are merchants and businesses that use our Automated Clearing House and/or card-based processing services in order to provide their consumers with the ability to pay for goods and services without having to use cash or a paper check. These merchant customers operate in a variety of retail industries and are under contract with us to exclusively use the services that we provide to them. Most of our merchant customers have signed long-term contracts, generally with three-year terms, that provide for volume-based transaction fees. Our merchant accounts increased to 795 customers at December 31, 2014 from 735 customers at December 31, 2013.

We had one customer that accounted for 11% of our 2014 revenue. This customer utilized our ACH Processing services. No other customer accounted for more than 10% of revenues in 2014.

All of our customers, including those utilizing our billx.com Internet bill payment service on a recurring monthly basis to pay household bills, are consumers geographically dispersed throughout the United States. The service relationship between our billx.com customers and us is not contractual and the fee we charge for the service is not negotiable. We seek to retain customers by providing high levels of customer service. Customers also have incentive to continue using the service once activated due to their investment of time in setting up the service with their personal banking and payment information. The monthly average number of billx.com customers using our online payment service decreased to 244 in 2014 from 864 in 2013. We believe the decrease occurred due to customers opting to use their bank bill pay service over ours. We are also repositioning our bill pay service to sell to other prepaid card processors and to be an add-on service to our prepaid card programs that utilize our card programs as a bank account alternative.

Competition

The payment processing industry is highly competitive. Many small and large companies compete with us in providing payment processing services and related services to a wide range of merchants. There are a number of large transaction processors, including First Data Merchant Services Corporation, Elavon Inc., and Vantiv, Inc. that serve a broad market spectrum from large to small merchants and provide banking, automatic teller machine, and other payment-related services and systems in addition to card-based payment processing. There are also a large number of smaller transaction processors that provide various services to small and medium-sized merchants. Many of our competitors have substantially greater capital resources than us and operate as subsidiaries of financial or bank holding companies, which may allow them on a consolidated basis to own and conduct depository and other banking activities that we do not have the regulatory authority to own or conduct. We believe that the principal competitive factors in our market include:

- quality of service;
- reliability of service;
- ability to evaluate, undertake and manage risk;
- speed in implementing payment processes;
- price and other financial terms; and
- multi-channel payment capability.

We believe that our specific focus on providing integrated payment processing solutions to merchants, in addition to our understanding of the needs and risks associated with providing payment processing services electronically, gives us a competitive advantage over other competitors, which have a narrower market perspective, and over competitors of a similar or smaller size that may lack our experience in the electronic payments industry. Furthermore, we believe we present a competitive distinction through the use of our internal technology to provide a single integrated payment storage or warehouse that consolidates, processes, tracks and reports all payments regardless of payment source or channel.

Our prepaid card offering is competitive due to our proprietary systems and our ability to create and establish corporate-branded card programs in a shorter time frame than most of our competitors. We also believe our eight years of experience in processing and managing prepaid card programs is a competitive advantage over many of our competitors due to the industry being relatively new. We also believe that the mobile application technology and advanced card holder websites we acquired through the Akimbo acquisition will provide us a competitive advantage in securing both consumer customers and business clients that have a need for a card program for their customer base.

Trademarks and Domain Names

We own federally registered trademarks on the marks “Payment Data Systems, Inc.,” “Akimbo,” “FiCentive Innovations in Prepaid Card Solutions,” “Don’t change your bank, just your card” and “ZBILL” and their respective designs. We have also secured, among others, domain name registrations for:

We rely on a combination of copyright, trademark and trade secret laws, employee and third-party nondisclosure agreements, and other intellectual property protection methods to protect our services and related products.

Patents

On January 11, 2008, we executed an agreement to sell selected patents and patent applications, including U.S. Patent No. 7,021,530, to PCT Software Data, LLC for net proceeds of approximately \$750,000. The patents and patent applications sold relate to bill payments made with debit and stored value cards. We retained a worldwide, non-exclusive license under the patents for use with all current and future customers.

Government Regulation

Our industry is highly regulated. Any new or changes made to U.S. federal, state and local laws, regulations, card network rules or other industry standards affecting our business may require significant development efforts or have an unfavorable impact to our financial results. Failure to comply with these laws and regulations may result in the suspension or revocation of licenses or registrations, the limitation, suspension or termination of services and/or the imposition of civil and criminal penalties, including fines. Certain of our services are also subject to rules set by various payment networks, such as Visa and MasterCard.

The Dodd-Frank Act

In the United States, President Obama signed the Dodd-Frank Wall Street Reform and Consumer Protection Act, or the Dodd-Frank Act, into law on July 21, 2010. The Dodd-Frank Act caused significant structural reforms to the financial services industry. The Dodd-Frank Act regulates the fees charged or received by issuers for processing debit transactions and the transaction routing options available to merchants. The Dodd-Frank Act also established the Consumer Financial Protection Bureau to regulate consumer financial services, including many offered by our customers. Additionally, the Durbin Amendment to the Dodd-Frank Act provided that interchange fees that a card issuer or payment network receives or charges for debit transactions will now be regulated by the Federal Reserve and must be “reasonable and proportional” to the cost incurred by the card issuer in authorizing, clearing and settling the transaction. In addition, the Durbin Amendment contains prohibitions on network exclusivity and merchant routing restrictions.

The Dodd-Frank Act, when implemented in September 2011, caused interchange fees to be lowered on large bank-issued debit cards. The lowered interchange fees had a mild negative impact on our revenues, but increased our earnings due to the fact that we were able to keep our prices constant with our merchants. If our competitors start to pass the extra margin into savings to their merchants, we may be forced to follow their actions and become exposed to lower earnings on the debit card transactions for large banks. Our prepaid cards, while some of the transactions are processed on debit networks, are currently exempt from the Dodd-Frank Act.

CARD Act

As an agent of, and third-party service provider to, our issuing banks, we are subject to indirect regulation and direct audit and examination by the Office of Thrift Supervision, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or FRB, and the Federal Deposit Insurance Corporation.

On March 23, 2010, the FRB issued a final rule implementing Title IV of the Credit Card Accountability, Responsibility, and Disclosure Act of 2009, or CARD Act, which imposes requirements relating to disclosures, fees and expiration dates that are generally applicable to gift certificates, store gift cards and general-use prepaid cards. We

believe that our general purpose reloadable prepaid cards, and the maintenance fees charged on our general purpose reloadable cards, are exempt from the requirements under this rule, as they fall within an express exclusion for cards which are reloadable and not marketed or labeled as a gift card or gift certificate. However, this exclusion is not available if the issuer, the retailer selling the card to a consumer or the program manager, promotes, even if occasionally, the use of the card as a gift card or gift certificate. As a result, we provide retailers with instructions and policies regarding the display and promotion of our general purpose reloadable cards. However, it is possible that despite our instructions and policies to the contrary, a retailer engaged in offering our general purpose reloadable cards to consumers could take an action with respect to one or more of the cards that would cause each similar card to be viewed as being marketed or labeled as a gift card, such as by placing our general purpose reloadable cards on a display which prominently features the availability of gift cards and does not separate or otherwise distinguish our general purpose reloadable cards from the gift cards. In such event, it is possible that such general purpose reloadable cards would lose their eligibility for such exclusion to the CARD Act and its requirements, and therefore could be deemed to be in violation of the CARD Act and the rule, which could result in the imposition of fines, the suspension of our ability to offer our general purpose reloadable cards, civil liability, criminal liability, and the inability of our issuing banks to apply certain fees to our general purpose reloadable cards, each of which would likely have a material adverse impact on our revenues.

In 2014, we resumed issuing gift card cards. Any gift cards we issue will be governed by the CARD Act and other various regulations. Any violations with our gift card issuance could result in the imposition of fines, the suspension of our ability to offer our gift cards, civil liability, criminal liability, and the inability of our issuing banks to apply certain fees to our gift cards, each of which would likely have a material adverse impact on our revenues.

Anti-Money Laundering and Counter Terrorist Regulation

Our business is subject to U.S. federal anti-money laundering laws and regulations, including the Bank Secrecy Act, as amended by the USA PATRIOT Act of 2001, or collectively, the BSA. The BSA, among other things, requires money services businesses to develop and implement risk-based anti-money laundering programs, report large cash transactions and suspicious activity and maintain transaction records.

We are also subject to certain economic and trade sanctions programs that are administered by the Treasury Department's Office of Foreign Assets Control, or OFAC, that prohibit or restrict transactions to or from or dealings with specified countries, their governments and, in certain circumstances, their nationals, narcotics traffickers, and terrorists or terrorist organizations.

Similar anti-money laundering, counter terrorist financing and proceeds of crime laws apply to movements of currency and payments through electronic transactions and to dealings with persons specified on lists maintained by organizations similar to OFAC in several other countries and which may impose specific data retention obligations or prohibitions on intermediaries in the payment process.

Prepaid Services

Prepaid card programs managed by us are subject to various federal and state laws and regulations, which may include laws and regulations related to consumer and data protection, licensing, consumer disclosures, escheat, anti-money laundering, banking, trade practices and competition and wage and employment. As regulations evolve or change we may be required to obtain state licenses to expand our distribution network for prepaid cards, which licenses we may not be able to obtain. Furthermore, the CARD Act and the Federal Reserve's Regulation E impose requirements on general-use prepaid cards, store gift cards and electronic gift certificates. These laws and regulations are evolving, unclear and sometimes inconsistent and subject to judicial and regulatory challenge and interpretation, and therefore the extent to which these laws and rules have application to, and their impact on, us, financial institutions, merchants or others is in flux. At this time we are unable to determine the impact that the clarification of these laws and their future interpretations, as well as new laws, may have on us, financial institutions, merchants or others in a number of jurisdictions. Prepaid services may also be subject to the rules and regulations of Visa, MasterCard and other payment networks with which we and the card issuers do business. The programs in place to process these products generally may be modified by the payment networks at their discretion and such modifications could also impact us, financial institutions, merchants and others.

Employees

As of December 31, 2014, we had 17 full-time employees. We are not a party to any collective bargaining agreements. We believe that our relations with our employees are very good.

Available Information

Our website is located at www.paymentdata.com. We make available on our website, free of charge, copies of our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports, as applicable and as soon as reasonably practicable after we electronically file or furnish such materials to the

U.S. Securities and Exchange Commission. Our website and the information contained therein or connected thereto are not intended to be incorporated into this annual report on Form 10-K.

You may also read and copy any materials we file with the SEC at the SEC's Public Reference Room, located at 100 F Street, N.E., Washington, DC 20549. Information on the operation of the Public Reference Room may be obtained by calling the SEC at 1-800-SEC-0330. The SEC maintains an Internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC at <http://www.sec.gov>.

ITEM 1A. RISK FACTORS.

An investment in our common stock involves a high degree of risk. You should carefully consider the following risk factors and other information included in this annual report on Form 10-K. If any of the following risks actually occur, our business, financial condition or results of operations could be materially and adversely affected and you may lose some or all of your investment.

RISKS RELATED TO OUR BUSINESS

We may not realize the anticipated opportunities from the Akimbo acquisition.

On December 22, 2014, we acquired substantially all the assets of Akimbo Financial, Inc. The success of the Akimbo acquisition will depend, in part, on our ability to realize the anticipated growth opportunities from integrating the acquired business with our business and banking sponsor, including integrating its services into our offering of products and services. Our success depends on the successful integration of our and the acquired business's operations and information and financial systems. We cannot assure you that we will be able to realize such opportunities or that our management will not be distracted by the integration of the acquired business.

If our security applications are not sufficient to address changing market conditions and customer concerns, we may incur significant losses and be unable to sell our services.

Our use of applications designed for premium data security and integrity to process electronic transactions may not be sufficient to address changing market conditions or the security and privacy concerns of existing and potential customers. If our security applications are breached and sensitive data is lost or stolen, we could incur significant costs to not only assess and repair any damage to our systems, but also to reimburse customers for losses that occur from the fraudulent use of the data. We may also be subject to fines and penalties from the credit card associations or regulatory agencies in the event of the loss of confidential account information. Further, adverse publicity raising concerns about the safety or privacy of electronic transactions, or widely reported breaches of our or another provider's security, have the potential to undermine consumer confidence in the technology and could have a materially adverse effect on our business.

If we do not adapt to rapid technological change, our business may fail.

Our success depends on our ability to develop new and enhanced services and related products that meet changing customer needs. However, the market for our services is characterized by rapidly changing technology, evolving industry standards, emerging competition and frequent new and enhanced software, service and related product introductions. In addition, the software market is subject to rapid and substantial technological change. To remain successful, we must respond to new developments in hardware and semiconductor technology, operating systems, programming technology and computer capabilities. In many instances, new and enhanced services, products and technologies are in the emerging stages of development and marketing, and are subject to the risks inherent in the development and marketing of new software, services and products. We may not successfully identify new service opportunities, and develop and bring new and enhanced services and related products to market in a timely manner. Even if we do bring such services, products or technologies to market, they may not become commercially successful. Additionally, services, products or technologies developed by others may render our services and related products noncompetitive or obsolete. If we are unable, for technological or other reasons, to develop and introduce new services and products in a timely manner in response to changing market conditions or customer requirements, our business may fail.

We rely on our relationship with the Automated Clearing House network and if the Federal Reserve rules were to change, our business could be adversely affected.

We have contractual relationships with Fifth Third Bank and Generations Federal Credit Union, both of which are Originating Depository Financial Institutions in the Automated Clearing House network. The ACH network is a nationwide batch-oriented electronic funds transfer system that provides for the interbank clearing of electronic payments for participating financial institutions. An Originating Depository Financial Institution is a participating financial institution that must abide by the provisions of the ACH Operating Rules and Guidelines. Through our

relationships with Fifth Third Bank and Generations Federal Credit Union, we are able to process payment transactions on behalf of our customers and their consumers by submitting payment instructions in a prescribed ACH format. We pay volume-based fees to Fifth Third Bank and Generations Federal Credit Union for debit and credit transactions processed each month, and pay fees for other transactions such as returns and notices of change to bank accounts. These fees are part of our agreed-upon cost structures with the banks. If the Federal Reserve rules were to change to introduce restrictions or modify access to the Automated Clearing House, our business could be materially adversely affected. Further, if either or both of Fifth Third Bank and Generations Federal Credit Union were to cancel our respective contract with the bank, our business could be materially affected. At this time, we believe we could find and enter into an agreement with another bank sponsor on similar contractual terms, but no assurances can be made.

If our third-party card processing providers or our bank sponsors fail to comply with the applicable requirements of Visa, MasterCard and Discover credit card associations, we may have to find a new third-party processing provider, which could increase our costs.

Substantially all of the card-based transactions we process involve the use of Visa, MasterCard or Discover credit cards. In order to provide payment-processing services for Visa, MasterCard and Discover transactions, we must be sponsored by a financial institution that is a principal member of the respective Visa, MasterCard and Discover card associations. Both Merrick Bank and Wells Fargo Bank have sponsored us under the designations Third Party Processor, or TPP, and Independent Sales Organization, or ISO, with the Visa card association, and under the designations Third Party Servicer, or TPS, and Merchant Service Provider, or MSP, with the MasterCard card association. We have an agreement with TriSource Solutions, LLC and an agreement with Global Payments, Inc. through which their member banks, Merrick Bank and HSBC, sponsor us for membership in the Visa and MasterCard card associations, and settle card transactions for our merchants. If our third-party processing provider, TriSource Solutions, LLC, or Global Payments, or our bank sponsors, Merrick Bank or Wells Fargo Bank, fail to comply with the applicable requirements of the Visa, MasterCard, and Discover card associations, Visa, MasterCard or Discover could suspend or terminate the registration of our third-party processing provider. Also, our contracts with both of these third parties is subject to cancellation upon limited notice by either party. The cancellation of either contract, termination of their registration or any changes in the Visa, MasterCard or Discover rules that would impair the registration of our third-party processing provider could require us to stop providing such payment processing services if we are unable to enter into a similar agreement with another provider or sponsor at similar costs and upon similar contractual terms. Additionally, changing our bank sponsor could adversely affect our relationship with our merchants if the new sponsor provides inferior service or charges higher costs.

We have incurred substantial losses in the past and may incur additional losses.

Although we reported net income of \$3,838,288 for year ended December 31, 2014 we still have an accumulated deficit of \$50,071,087. In 2013 we were not profitable, with a loss of \$ 789,039. This was due to lower ACH transaction volumes and prepaid card volumes in 2013, which, ultimately, resulted in reduced revenue for that year. In the last quarter of 2013, we initiated ACH transaction processing for newly acquired customers that led to dramatic increases in ACH transaction volumes. Our 2014 ACH (electronic check) processing volumes were the highest in the history of the company. In 2014, our ACH transaction volumes were up more than 522% as compared to 2013. Overall credit card processing volumes for all of 2014 were also the highest in the history of the company.

However, our future operating results are not certain. We may incur future operating losses. We may need to raise additional capital to pursue product development initiatives and to penetrate markets for the sale of our products in the future. We believe that we have access to capital resources through possible public or private equity offerings, debt financings, corporate collaborations or other means. If we are unable to secure additional capital, we may be required to curtail our research and development initiatives and take additional measures to reduce costs in order to conserve our cash in amounts sufficient to sustain operations and meet our obligations. These measures could cause significant delays in our efforts to expand our product offerings and customer base in the United States, which are critical to the realization of our business plan and to future operations.

Our prepaid card revenues from the sale of services to merchants that accept MasterCard cards are dependent upon our continued MasterCard registration and financial institution sponsorship and, in some cases, continued participation in certain payment networks.

In order to provide processing services for our MasterCard prepaid card program, we must be either a member of a payment network or be registered as a prepaid processor of MasterCard. Sunrise Banks, N.A, formerly known as University National Bank, and Metropolitan Commercial Bank have sponsored us under the designations TPS and MSP with the MasterCard card association. Registration as a prepaid processor is dependent upon us being sponsored by member clearing banks. If our sponsor banks should stop providing sponsorship for us, we would need to find another financial institution to provide those services or we would need to be a member, either of which could prove to be difficult and/or more expensive. If we are unable to find a replacement financial institution to provide sponsorship or become a member of the association, we may no longer be able to provide prepaid processing services to our MasterCard customers, which would negatively impact our revenues and earnings.

If we fail to comply with the applicable requirements of the respective card networks, they could seek to fine us, suspend us or terminate our registrations. If our merchants or ISOs incur fines or penalties that we cannot collect from them, we could end up bearing the cost of fines or penalties.

In order to provide our transaction processing services, we are registered with Visa, MasterCard and Discover as service providers and transaction processors for member institutions and with other networks. As such, we are subject to card association and network rules that could subject us to a variety of fines or penalties that may be levied by the card networks for certain acts or omissions. The rules of the card networks are set by their boards, which may be influenced by banks that own their stock and, in the case of Discover by the card's issuers, and some of those banks and issuers are our competitors with respect to these processing services. The termination of our registrations or our status as a service provider or transaction processor, or any changes in card association or other network rules or standards, including interpretation and implementation of the rules or standards, that increase the cost of doing business or limit our ability to provide transaction processing services to our customers, could have a material adverse effect on our business, operating results and financial condition. If a merchant or one of our resellers fails to comply with the applicable requirements of the card associations and networks, it could be subject to a variety of fines or penalties that may be levied by the card associations or networks. If we cannot collect such amounts from the

applicable merchant or one of our resellers, we could end up bearing such fines or penalties, resulting in lower earnings for us.

We rely on a key customer and if we lose this customer, our revenues may decline.

We had one customer that accounted for 11% of our 2014 revenue. This customer utilized our ACH Processing services. No other customer accounted for more than 10% of revenues in 2014. If we lose this customer without adding other customers, our revenues may decrease which could adversely affect our profitability, if we are profitable at that time.

We are subject to extensive and complex federal and state regulation and new regulations and/or changes to existing regulations could adversely affect our business.

As an agent of, and third-party service provider to, our issuing banks, we are subject to indirect regulation and direct audit and examination by the Office of Thrift Supervision, the Office of the Comptroller of the Currency, the Board of Governors of the Federal Reserve System, or the FRB, and the Federal Deposit Insurance Corporation.

On March 23, 2010, the FRB issued a final rule implementing Title IV of the Credit Card Accountability, Responsibility, and Disclosure Act of 2009, or CARD Act, which imposes requirements relating to disclosures, fees and expiration dates that are generally applicable to gift certificates, store gift cards and general-use prepaid cards. We believe that our general purpose reloadable prepaid cards, and the maintenance fees charged on our general purpose reloadable cards, are exempt from the requirements under this rule, as they fall within an express exclusion for cards which are reloadable and not marketed or labeled as a gift card or gift certificate. However, this exclusion is not available if the issuer, the retailer selling the card to a consumer or the program manager, promotes, even if occasionally, the use of the card as a gift card or gift certificate. As a result, we provide retailers with instructions and policies regarding the display and promotion of our general purpose reloadable cards. However, it is possible that despite our instructions and policies to the contrary, a retailer engaged in offering our general purpose reloadable cards to consumers could take an action with respect to one or more of the cards that would cause each similar card to be viewed as being marketed or labeled as a gift card, such as by placing our general purpose reloadable cards on a display which prominently features the availability of gift cards and does not separate or otherwise distinguish our general purpose reloadable cards from the gift cards. In such event, it is possible that such general purpose reloadable cards would lose their eligibility for such exclusion to the CARD Act and its requirements, and therefore could be deemed to be in violation of the CARD Act and the rule, which could result in the imposition of fines, the suspension of our ability to offer our general purpose reloadable cards, civil liability, criminal liability, and the inability of our issuing banks to apply certain fees to our general purpose reloadable cards, each of which would likely have a material adverse impact on our revenues.

As the laws applicable to our business, and those of our distributors and issuing banks, change frequently, are often unclear and may differ or conflict between jurisdictions, ensuring compliance has become more difficult and costly. Any failure, or perceived failure, by us, our issuing banks or our distributors to comply with all applicable statutes and regulations could result in fines, penalties, regulatory enforcement actions, civil liability, criminal liability, and/or limitations on our ability to operate our business, each of which could significantly harm our reputation and have a material adverse impact on our business, results of operations and financial condition.

State and federal legislatures and regulatory authorities have become increasingly focused upon the regulation of the financial services industry and continue to adopt new legislation which could result in significant changes in the regulatory landscape for financial institutions, which can include our bank sponsors, and other financial services companies, such as our Company. For example, the establishment of the federal Consumer Financial Protection Bureau, or CFPB, will likely expose us to increased regulatory oversight and possibly more burdensome regulation that could have an adverse impact on our revenue and profits. In December 2014, the CFPB issued a notice of proposed rulemaking regarding regulation of the prepaid card industry, although no final rule has yet been published. The proposal would establish disclosure requirements specific to prepaid accounts that would require financial institutions to provide certain disclosures to consumers prior to and after the acquisition of a prepaid account and require prepaid account issuers to provide the CFPB with terms and conditions for prepaid accounts, among others.

Our card programs are subject to strict regulation under federal law regarding anti-money laundering and anti-terrorist financing. Failure to comply with such laws, or abuse of our card programs for purposes of money laundering or terrorist financing, could have a material adverse impact on our business.

Provisions of the USA PATRIOT Act, the Bank Secrecy Act and other federal law impose substantial regulation of financial institutions designed to prevent use of financial services for purposes of money laundering or terrorist financing. Increasing regulatory scrutiny of our industry with respect to money laundering and terrorist financing matters could result in more aggressive enforcement of such laws or more onerous regulation, which could have a material adverse impact on our business. In addition, abuse of our prepaid card programs for purposes of money laundering or terrorist financing, notwithstanding our efforts to prevent such abuse through our regulatory compliance and risk management programs, could cause reputational or other harm that would have a material adverse impact on our business.

Effective September 27, 2011, the Financial Crimes Enforcement Network of the U.S. Department of the Treasury, or FinCEN, issued a final rule regarding the applicability of the Bank Secrecy Act's anti-money laundering provisions to prepaid products and other matters related to the regulation of money services businesses. This rule created additional obligations for entities, including our distributors, engaged in the provision and sale of certain prepaid products, including our prepaid debit cards, such as the obligation for sellers of prepaid debit cards to obtain identification information from the purchaser at the point-of-sale. Compliance with these obligations may result in increased compliance costs for us, our issuing banks and our distributors, and may therefore have a negative impact on the profitability of our business.

Unauthorized disclosure of cardholder data, whether through breach of our computer systems or otherwise, could expose us to liability and protracted and costly litigation.

We collect and store personal identifiable information about our cardholders, including names, addresses, social security numbers, driver's license numbers and account numbers, and maintain a database of cardholder data relating to specific transactions, including account numbers, in order to process transactions and prevent fraud. As a result, we are required to comply with the privacy provisions of the Gramm-Leach-Bliley Act, various other federal and state privacy statutes and regulations, and the Payment Card Industry Data Security Standard, each of which is subject to change at any time. Compliance with these requirements is often difficult and costly, and our failure, or our

distributors' failure, to comply may result in significant fines or civil penalties, regulatory enforcement action, liability to our issuing banks and termination of our agreements with one or more of our issuing banks, each of which could have a material adverse effect on our financial position and/or operations. In addition, a significant breach could result in our Company being prohibited from processing transactions for any of the relevant card associations or network organizations, including Visa, MasterCard, American Express, Discover or regional debit networks, which would also have a significant material adverse impact on our financial position and/or operations.

Furthermore, if our computer systems are breached by unauthorized users, we may be subject to liability, including claims for unauthorized purchases with misappropriated bank card information, impersonation or similar fraud claims. We could also be subject to liability for claims relating to misuse of personal information, such as unauthorized marketing purposes, or failure to comply with laws governing notification of such breaches. These claims also could result in protracted and costly litigation. In addition, we could be subject to penalties or sanctions from the relevant card associations or network organizations.

If our efforts to protect the security of information about our customers, cardholders and vendors are unsuccessful, we may face additional costly government enforcement actions and private litigation, and our sales and reputation could suffer.

An important component of our business involves the receipt and storage of information about our cardholders and banking information. We have multiple programs and processes in place to detect and respond to data security incidents. However, because the techniques used to obtain unauthorized access, disable or degrade service, or sabotage systems change frequently and may be difficult to detect for long periods of time, we may be unable to anticipate these techniques or implement adequate preventive measures. In addition, hardware, software, or applications we develop or procure from third parties may contain defects in design or manufacture or other problems that could unexpectedly compromise information security. Unauthorized parties may also attempt to gain access to our systems or facilities, or those of third parties with whom we do business, through fraud, trickery, or other forms of deceiving our vendors, contractors, and employees. If we, our customers, or our vendors experience significant data security breaches or fail to detect and appropriately respond to significant data security breaches, we could be exposed to government enforcement actions and private litigation. In addition, our cardholders and customers could lose confidence in our ability to protect their information, which could cause them to discontinue using our services.

We depend on Michael R. Long and Louis A. Hoch, and if these officers ceased to be active in our management, our business may not be successful.

Our success depends to a significant degree upon the continued contributions of our key management, marketing, service and related product development and operational personnel, including our Chairman and Chief Executive Officer Michael R. Long, and our President and Chief Operating Officer, Louis A. Hoch. We entered into employment agreements with Mr. Long and Mr. Hoch, respectively, in February 2007. The terms of the agreements are substantially similar and prohibit the executive from competing with us for a period of two years from the executive's date of termination. Our business may not be successful if, for any reason, either or both of these officers cease to be active in our management.

If our software fails, and we need to repair or replace it, or we become subject to warranty claims, our costs could increase.

Our software products could contain errors or "bugs" that could adversely affect the performance of services or damage a user's data. We attempt to limit our potential liability for warranty claims through technical audits and limitation-of-liability provisions in our customer agreements. However, these measures may not be effective in limiting our exposure to warranty claims. We have not experienced a significant increase in software errors or warranty claims. Despite the existence of various security precautions, our computer infrastructure may also be vulnerable to viruses or similar disruptive problems caused by our customers or third parties gaining access to our processing system. If our software fails, and we need to replace or repair it, or we become subject to warranty claims, our costs could significantly increase.

We depend on the efficient and uninterrupted operation of our computer network systems, software, data center and telecommunications networks, as well as the systems and services of third parties. Our systems and operations or those of our third-party providers could be exposed to damage or interruption from, among other things, fire, natural disaster, power loss, telecommunications failure, terrorist acts, war, unauthorized entry, human error, and computer viruses or other defects. Defects in our systems or those of third parties, errors or delays in the processing of payment transactions, telecommunications failures or other difficulties could result in loss of revenue, loss of merchants, loss of merchant and cardholder data, harm to our business or reputation, exposure to fraud losses or other liabilities, negative publicity, additional operating and development costs, and/or diversion of technical and other resources. We perform the vast majority of disaster recovery operations ourselves, though we utilize select third parties for some aspects of recovery. To the extent we outsource our disaster recovery, we are at risk of the vendor's unresponsiveness in the event of breakdowns in our systems.

Loss of key resellers could reduce our revenue growth.

Our reseller sales channel, which purchases and resells our end-to-end services to its own portfolio of merchant customers, is a strong contributor to our revenue growth. If a reseller switches to another transaction processor, shuts down, becomes insolvent, or enters the processing business themselves, we may no longer receive new merchant referrals from the reseller, and we risk losing existing merchants that were originally enrolled by the reseller, all of which could negatively affect our revenues and earnings.

Risks associated with reduced levels of consumer spending could adversely affect our revenues and earnings.

Significant portions of our revenue and earnings are derived from fees from processing consumer ACH, prepaid, credit, and debit card transactions. We are exposed to general economic conditions that affect consumer confidence, consumer spending, consumer discretionary income or changes in consumer purchasing habits. A general reduction in consumer spending in the United States or in any other country where we do business could adversely affect our

revenues and earnings.

Fraud by merchants or others could have an adverse effect on our operating results and financial condition.

We have potential liability for fraudulent bankcard, ACH and prepaid card transactions or credits initiated by merchants or others. Examples of merchant fraud include when a merchant knowingly uses a stolen or counterfeit bankcard, card number or bank account to record a false sales transaction, processes an invalid bankcard, or intentionally fails to deliver the merchandise or services sold in an otherwise valid transaction. Criminals are using increasingly sophisticated methods to engage in illegal activities such as counterfeit and fraud. While we have systems and procedures designed to detect and reduce the impact of fraud, we cannot assure the effectiveness of these measures. It is possible that incidents of fraud could increase in the future. Failure to effectively manage risk and prevent fraud would increase our chargeback liability or cause us to incur other liabilities including regulatory and association fines, penalties and harm to our reputation. Increases in chargebacks or other liabilities could have an adverse effect on our operating results and financial condition.

Increases in credit card network fees may result in the loss of customers or a reduction in our earnings.

From time to time, the card networks, including Visa, MasterCard, and Discover, increase the fees (interchange and assessment fees) that they charge processors such as us. We may attempt to pass these increases along to our merchant customers, but this strategy might result in the loss of those customers to our competitors who do not pass along the increases. If competitive practices prevent our passing along such increased fees to our merchant customers in the future, we may have to absorb all or a portion of such increases thereby increasing our operating costs and reducing our earnings.

We are subject to risks and write-offs resulting from fraudulent activities and losses from overdrawn cardholder accounts that could adversely impact our financial performance and results of operations.

Our prepaid cards expose us to threats involving the misuse of such cards, collusion, fraud, identity theft and systemic attacks on our systems. Although a large portion of fraudulent activity is addressed through the chargeback systems and procedures maintained by the card association networks, we are often responsible for other losses due to merchant and cardholder fraud. No system or procedures established to detect and reduce the impact of fraud are entirely effective and we recorded less than \$10,000 in losses due to fraud in 2014. Although we actively devote efforts to effectively manage risk and prevent fraud, we could nevertheless experience an increase in fraud losses over our historical experience.

Our cardholders can in some circumstances incur charges in excess of the funds available in their accounts and are liable for the resulting overdrawn account balance. Although we generally decline authorization attempts for amounts that exceed the available balance in a cardholder's account, the application of the card association networks' rules and regulations, the timing of the settlement of transactions and the assessment of subscription, maintenance or other fees can, among other things, result in overdrawn card accounts. As of December 31, 2014, our cardholders' overdrawn account balances totaled less than \$5,000.

Although we maintain reserves for fraud and other losses, our exposure to these types of risks may exceed our reserve levels for a variety of reasons, including our failure to predict the actual recovery rate, failure to effectively manage risk and failure to prevent fraud. Accordingly, our business, results of operations and financial condition could be materially and adversely affected to the extent that we incur losses resulting from overdrawn cardholder accounts and fraudulent activity that exceed our designated reserves or if we determine that it is necessary to increase our reserves substantially in order to address any increased recovery risk.

Our business strategy includes identifying businesses and assets to acquire, and if we cannot integrate acquisitions into our company successfully, we may have limited growth.

Our success partially depends upon our ability to identify and acquire undervalued businesses and merchant portfolios within our industry. Although we believe that there are companies and portfolios available for potential acquisition that might offer attractive business opportunities, we may not be able to make any acquisitions, and if we do make acquisitions, they may not be profitable. As a result, our business may not grow or sustain profitability.

If we do not manage our growth, then we may not be able to sustain profitability.

In order to manage our growth successfully, we will have to continue to improve our operational, management and financial systems and expand our work force. A significant increase in our customer base may necessitate the hiring of a significant number of additional personnel, qualified candidates for which, at the time needed, may be in short supply. In addition, the expansion and adaptation of our computer and administrative infrastructure will require substantial operational, management and financial resources. Although we believe that our current infrastructure is adequate to meet the needs of our customers in the foreseeable future, we may not be able to expand and adapt our infrastructure to meet additional demand on a timely basis, at a commercially reasonable cost, or at all. If our management is unable to manage growth effectively, hire needed personnel, expand and adapt our computer infrastructure and improve our operational, management, and financial systems and controls, we may not sustain profitability.

If we do not manage our credit risks related to our merchant accounts, we may incur significant losses.

We rely on the Federal Reserve's Automated Clearing House system for electronic fund transfers and the Visa, MasterCard and Discover associations for settlement of payments by credit or debit card on behalf of our merchant customers. In our use of these established payment clearance systems, we generally bear the credit risks arising from returned transactions caused by insufficient funds, stop payment orders, closed accounts, frozen accounts, unauthorized use, disputes, customer charge backs, theft or fraud. Consequently, we assume the credit risk of merchant disputes, fraud, insolvency or bankruptcy in the event we attempt to recover funds related to such transactions from our customers. We have not experienced a significant increase in the rate of returned transactions or incurred any losses with respect to such transactions. We utilize a number of systems and procedures to manage and limit credit risks, but if these actions are not successful in managing such risks, we may incur significant losses.

We have adopted certain measures that may make it more difficult for a third party to acquire control of our Company.

Our Board of Directors is classified into three classes of directors serving staggered three-year terms. Such classification of the Board of Directors expands the time required to change the composition of a majority of directors and may tend to discourage a proxy contest or other takeover bid for our company.

RISKS RELATED TO OUR INDUSTRY

The electronic commerce market is relatively new and if it does not grow, we may not be able to sell sufficient services to make our business viable.

The electronic commerce market is a relatively new and growing service industry. If the electronic commerce market fails to grow or grows slower than anticipated, or if we, despite an investment of significant resources, are unable to adapt to meet changing customer requirements or technological changes in this emerging market, or if our services and related products do not maintain a proportionate degree of acceptance in this growing market, our business may not grow and could even fail. Additionally, the security and privacy concerns of existing and potential customers may inhibit the growth of the electronic commerce market in general, and our customer base and revenues, in particular. Similar to the emergence of the credit card and automatic teller machine industries, we and other organizations serving the electronic commerce market must educate users that electronic transactions use encryption technology and other electronic security measures that make electronic transactions more secure than paper-based transactions.

Changes in regulation of electronic commerce and related financial services industries could increase our costs and limit our business opportunities.

We believe that we are not required to be licensed by the Office of the Comptroller of the Currency, the Federal Reserve Board, or other federal or state agencies that regulate or monitor banks or other types of providers of electronic commerce services. It is possible that a federal or state agency will attempt to regulate providers of electronic commerce services, which could impede our ability to do business in the regulator's jurisdiction. Our business has also been affected by anti-terrorism legislation, such as the USA PATRIOT Act. Banking-related provisions of the USA PATRIOT Act have been implemented as additions to the banking rules regarding monetary instrument sales record keeping requirements and tracking of cash movements. In our capacity as an agent for Sunrise Banks, N.A, formerly known as University National Bank, and Metropolitan Commercial Bank, the issuing banks for our prepaid card programs and in our capacity as an agent for Fifth Third Bank and Generations Federal Credit Union, the sponsoring banks for our ACH services, we are required to comply with these rules. We are also required to implement a Customer Identification Program and establish an Anti-Money Laundering program and to report any suspected money laundering to the appropriate agencies. Our compliance with such regulations increases our responsibilities and costs associated with the administration of our debit card programs. We are also subject to various laws and regulations relating to commercial transactions, such as the Uniform Commercial Code, and may be subject to the electronic funds transfer rules embodied in Regulation E, promulgated by the Federal Reserve Board. Given the expansion of the electronic commerce market, the Federal Reserve Board might revise Regulation E or adopt new rules for electronic funds transfer affecting users other than consumers. Because of growth in the electronic commerce market, Congress has held hearings on whether to regulate providers of services and transactions in the electronic commerce market. It is possible that Congress or individual states could enact laws regulating the electronic commerce market. If enacted, such laws, rules and regulations could be imposed on our business and industry and could increase our costs or limit our business opportunities.

If we cannot compete successfully in our industry, we could lose market share and our costs could increase.

Portions of the electronic commerce market are becoming increasingly competitive. We expect to face growing competition in all areas of the electronic payment processing market. New companies could emerge and compete for merchants of all sizes. We expect competition to increase from both established and emerging companies and that such increased competition could lower our market share and increase our costs. Moreover, our current and potential competitors, many of whom have greater financial, technical, marketing and other resources than us, may respond more quickly than us to new or emerging technologies or could expand to compete directly against us in any or all of our target markets. Accordingly, it is possible that current or potential competitors could rapidly acquire market share. We may not be able to compete against current or future competitors successfully. Additionally, competitive pressures may increase our costs, which could lower our earnings, if any.

RISKS RELATED TO OUR COMMON STOCK

Our stock price is volatile and you may not be able to sell your shares at a price higher than what you paid.

The market for our common stock is highly volatile. In 2014, our closing stock price fluctuated between \$0.067 and \$0.185. The trading price of our common stock could be subject to wide fluctuations in response to, among other things, quarterly variations in operating and financial results, announcements of technological innovations or new products by our competitors or us, changes in prices of our products and services or our competitors' products and services, changes in product mix, or changes in our revenue and revenue growth rates.

“Penny stock” rules may make buying or selling our securities difficult which may make our stock less liquid and make it harder for investors to buy and sell our shares.

Trading in our securities is subject to the SEC's "penny stock" rules and it is anticipated that trading in our securities will continue to be subject to the penny stock rules for the foreseeable future. The SEC has adopted regulations that generally define a penny stock to be any equity security that has a market price of less than \$5.00 per share, subject to certain exceptions. These rules require that any broker-dealer who recommends our securities to persons other than prior customers and accredited investors must, prior to the sale, make a special written suitability determination for the purchaser and receive the purchaser's written agreement to execute the transaction. Unless an exception is available, the regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the risks associated with trading in the penny stock market. In addition, broker-dealers must disclose commissions payable to both the broker-dealer and the registered representative and current quotations for the securities they offer. The additional burdens imposed upon broker-dealers by these requirements may discourage broker-dealers from recommending transactions in our securities, which could severely limit the liquidity of our securities and consequently adversely affect the market price for our securities.

ITEM 2. PROPERTIES.

Our headquarters and operations are housed in approximately 4,500 square feet of leased office space in San Antonio, Texas. Rental expense under the operating lease was approximately \$100,000 and \$75,000 for the years ended December 31, 2014 and 2013, respectively. During February 2015, we executed a fourth amendment to our lease, which extended the term of the lease for a period of 38 months, or until April 30, 2018.

During February 2015, we executed a new lease for approximately 2,700 square feet of office space in San Antonio, Texas. This office space will be utilized by our FiCentive, Inc. subsidiary. The lease commences on March 1, 2015 for 38 months, or until April 30, 2018. The rental cost is approximately \$5,000 per month.

We believe that our properties will be adequate to meet our needs through December 31, 2015.

ITEM 3. LEGAL PROCEEDINGS.

On December 18, 2014, Brightmoor Christian Church filed a lawsuit in the United States District Court for the Eastern District of Michigan against us. Since the filing of the lawsuit, we have been engaged in on-going settlement discussions. The lawsuit alleges that we did not warn or stop the processing of \$181,709 in fraudulent credit transactions from occurring and Brightmoor incurred losses. We believe that Brightmoor breached our processing agreement and a security breach occurred because of the Brightmoor's lack of any controls over the login and password information utilized by Brightmoor to process transactions that resulted in Brightmoor becoming a victim of a malware attack. Our agreement with Brightmoor has a limitation of liability provision that allows for our maximum liability to not exceed the amount of fees of a single month of service. While we believe the claims of Brightmoor are without merit, and it is less likely than not that the loss will be incurred, the outcome of the dispute is still uncertain. Accordingly, we have not accrued for a potential loss beyond the current balance in the reserve for losses on merchant account. Our unrecovered funds incurred to-date for this dispute, not including attorney fees, are \$13,710.

Aside from the lawsuit described above, we may be involved in legal matters arising in the ordinary course of business from time to time. While we believe that such matters are currently not material, there can be no assurance that matters arising in the ordinary course of business for which we are or could become involved in litigation, will not have a material adverse effect on our business, financial condition or results of operations.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock is quoted on the OTCQB, the OTC market tier for companies that are reporting with the SEC, and on the OTC Bulletin Board, or OTCBB, under the ticker symbol "PYDS."

The following table sets forth the high and low closing prices for our common stock for each quarter during the last two fiscal years. The prices reported below reflect inter-dealer prices and are without adjustments for retail markups, markdowns or commissions, and may not necessarily represent actual transactions.

2014

	High	Low
First Quarter	\$0.119	\$0.067
Second Quarter	\$0.110	\$0.075
Third Quarter	\$0.135	\$0.095
Fourth Quarter	\$0.185	\$0.115

2013

	High	Low
First Quarter	\$0.195	\$0.1235
Second Quarter	\$0.180	\$0.066
Third Quarter	\$0.100	\$0.030
Fourth Quarter	\$0.050	\$0.110

Holders

On March 24 2015, 184,534,791 shares of our common stock were issued and outstanding. As of March 24, 2015, there were approximately 3,864 stockholders of record of our common stock.

Dividends

We have never declared or paid cash or stock dividends, and we have no plans to pay any such dividends in the foreseeable future. Instead, we intend to reinvest our earnings, if any.

Securities Authorized for Issuance under Equity Compensation Plans

The following table provides information as of December 31, 2014 with respect to compensation plans (including individual compensation arrangements) under which our equity securities are authorized for issuance:

	Number of securities to be issued upon exercise of outstanding options	Weighted-average exercise price of outstanding options	Number of securities remaining available for future issuance under compensation plan
Equity compensation plans approved by security holders	1,454,421	\$ 0.082	-
Equity compensation plans not approved by security holders	-	-	-
Total	1,454,421	\$ 0.082	-

Our 1999 Employee Comprehensive Stock Plan and our 1999 Non-Employee Director Plan terminated according to the respective terms of the Plans in 2010. Options issued under the now terminated Plans remain in effect according to the terms set on the day each option was issued. No options were exercised in 2014 or 2013.

Recent Sales of Unregistered Securities; Use of Proceeds from Registered Securities

On January 14, 2014, we granted an employee 74,075 unregistered shares of our common stock for employee compensation as a new hire bonus. These shares were valued at \$0.067 per share or \$5,000.

On December 23, 2014, we granted 4,000,000 unregistered shares of our common stock for employee compensation as a new hire bonus to Houston Frost, our Senior Vice President of Corporate Development and Prepaid Products. These shares were valued at \$0.17 per share, or \$680,000. 1,800,000 shares vest at a rate of 50,000 shares per month from January 31, 2015 to December 21, 2017. The remaining 2,200,000 shares vest on January 31, 2025.

On December 29, 2014, we issued 13,456,940 unregistered shares of our common stock for the acquisition of the Akimbo Financial, Inc. business. These shares were valued at \$0.1672 per share or \$2,250,000.

On December 29, 2014, we issued 18,924,490 unregistered shares of our common stock in incentive stock grants vesting over 10 years. These shares were valued at \$0.17 per share or \$3,217,163. In addition, we transferred 5,575,510 shares of treasury stock in incentive stock grants vesting over 10 years. The treasury stock was valued at \$0.17 per share or \$947,837 for an aggregate of 24,500,000 shares or \$4,165,000.

On March 3, 2015, we granted 4,000,000 unregistered shares of our common stock for employee compensation as a new hire bonus to Habib Yunus, our Senior Vice President and Chief Financial Officer. These shares were valued at \$0.295 per share, or \$1,180,000 and vest on March 2, 2025.

We relied on the Section 4(a)(2) exemption from securities registration under the federal securities laws for transactions not involving any public offering. No advertising or general solicitation was employed in offering the securities. The securities were issued to an accredited investor. The securities were offered for investment purposes only and not for the purpose of resale or distribution. The transfer thereof was appropriately restricted by us.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

We did not repurchase any of our common stock during the years ended December 31, 2014 and 2013.

ITEM 6. SELECTED FINANCIAL DATA.

As a smaller reporting company, as defined by Rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this Item.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and notes thereto, and other financial information included elsewhere in this annual report on Form 10-K. This report contains forward-looking statements. When used in this report, the words "expects," "anticipates," "suggests," "believes," "intends," "estimates," "plans," "projects," "continue," "potential," "expect," "predict," "believe," "intend," "may," "will," "should," "could," "would," "proposal," and similar intended to identify forward-looking statements. Actual results in future periods may differ materially from those expressed or implied in such forward-looking statements as a result of a number of factors, including, but not limited to, the risks discussed under the heading "Risk Factors" in this annual report on and elsewhere in this annual report on Form 10-K.

Overview

We provide integrated electronic payment processing services to merchants and businesses, including all types of Automated Clearing House, or ACH, processing, credit, prepaid card and debit card-based processing services. We also operate an online payment processing service, under the domain name www.billx.com system, which allows consumers to process online payments to pay any other individual, including family and friends. Through our recently acquired business Akimbo, under the domain name www.akimbo.com, we offer Visa prepaid cards to consumers for use as a tool to stay on budget, manage allowances and share money with family and friends. It is our plan to move the Akimbo card program to operate on the MasterCard and associated networks and to our existing sponsoring bank, Sunrise Banks, N.A. We expect this transition will allow for us to capture enough savings of expenses to make the program cash flow positive around June 30, 2015.

Although we reported net income of \$3,838,288 for year ended December 31, 2014 we still have an accumulated deficit was \$50,071,087. In 2013 we were not profitable, with a loss of \$ 789,039. This was due to lower ACH transaction volumes and prepaid card volumes in 2013, which, ultimately, resulted in reduced revenue for that year. In the last quarter of 2013, we initiated ACH transaction processing for newly acquired customers that led to dramatic increases in ACH transaction volumes. Our 2014 ACH (electronic check) processing volumes were the highest in the history of the company. In 2014, our ACH transaction volumes were up more than 522% as compared to 2013. Overall credit card processing volumes for all of 2014 were also the highest in the history of the company. Credit cards dollars processed during 2014 were up 14% over 2013 and credit cards transactions processed during the fourth quarter were up 43% over 2013. Nearly three billion dollars of payments were processed by us in 2014. The total of \$2.978 billion greatly exceeded last year's amount of \$630 million and set a record for dollars processed in a year for the company. We believe these trends will continue for the foreseeable future. We also expect to see an increase in the number of our enrolled merchant customers, for whom we provide processing for credit and debit card transactions, and we expect to add new clients to our sales pipeline, which we believe will create increased transaction volumes. We believe the profitability we experienced in 2014 will continue for the foreseeable future, but the extent of our future operating results and the ultimate timing of our profitability is not certain. We may incur future operating losses. To sustain profitability, we must, among other things, grow and maintain our customer base, implement a successful marketing strategy, continue to maintain and upgrade our technology and transaction-processing systems, provide superior customer service, respond to competitive developments, attract, retain and motivate qualified personnel, and respond to unforeseen industry developments and other factors. We believe that our success will depend in large part on our ability to (a) manage our operating expenses, (b) add quality customers to our client base, (c) meet evolving customer requirements and (d) adapt to technological changes in an emerging market. Accordingly, we intend to focus on customer acquisition activities and outsource some of our processing services to third parties to allow us to maintain an efficient operating infrastructure and expand our operations without significantly increasing our fixed operating expenses.

Critical Accounting Policies

General

Our management's discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosure of contingent assets and liabilities. On an ongoing basis, we evaluate our estimates, including those related to the reported amounts of revenues and expenses, bad debt, investments, intangible assets, income taxes, and contingencies and litigation. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results could differ from these estimates under different assumptions or conditions. We consider the following accounting policies to be critical because the nature of the estimates or assumptions is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change or because the impact of the estimates and assumptions on financial condition or operating performance is material.

Revenue Recognition

Revenue consists primarily of fees generated through the electronic processing of payment transactions and related services, and is recognized as revenue during the period the transactions are processed or when the related services are performed. We comply with ASC 605-45-45 and report revenues gross as a principal versus net as an agent. Although some of our processing agreements vary with respect to certain credit risks we have determined that for each

agreement we are acting in the principal role. Merchants may be charged for these processing services at a bundled rate based on a percentage of the dollar amount of each transaction and, in some instances, additional fees are charged for each transaction. Certain merchant customers are charged a flat fee per transaction, while others may also be charged miscellaneous fees, including fees for chargebacks or returns, monthly minimums, and other miscellaneous services. Revenues derived from electronic processing of credit, debit, and prepaid card transactions that are authorized and captured through third-party networks are reported gross of amounts paid to sponsor banks as well as interchange and assessments paid to credit card associations (Visa, MasterCard and Discover). Revenue also includes any up-front fees for the work involved in implementing the basic functionality required to provide electronic payment processing services to a customer. Revenue from such implementation fees is recognized over the term of the related service contract. Sales taxes billed are reported directly as a liability to the taxing authority, and are not included in revenue.

Reserve for Processing Losses

If, due to insolvency or bankruptcy of one of our merchant customers, or for any other reason, we are not able to collect amounts from our credit card, ACH or prepaid customers that have been properly “charged back” by the customer, or if a prepaid cardholder incurs a negative balance, we must bear the credit risk for the full amount of the transaction. We may require cash deposits and other types of collateral from certain merchants to minimize any such risk. In addition, we utilize a number of systems and procedures to manage merchant risk. ACH, prepaid and credit card merchant processing loss reserves are primarily determined by performing a historical analysis of our loss experience and considering other factors that could affect that experience in the future, such as the types of transactions processed and nature of the merchant relationship with its consumers and us with our prepaid card holders. This reserve amount is subject to the risk that actual losses may be greater than our estimates. We have not incurred any significant processing losses to date. Estimates for processing losses vary based on the volume of transactions processed and could increase or decrease accordingly. At December 31, 2014 and 2013, our reserve for processing losses was \$272,365 and \$297,365, respectively.

Customer Deposits

Customer deposits include security deposits that we may require for certain customers and cash held in transit that we collected on behalf of all of our customers via our ACH processing service. The security deposit is used to offset any returned items or chargebacks to us and to indemnify us against third-party claims and any expenses that maybe created by the customer as result of any claim or fine. The Company may require the customer security deposit based on estimated transaction volumes, amounts and chargebacks and may revise the deposit based on periodic review of the same items. Repayment of the deposit to the customer is generally within 90 to 180 days after the date on which the last item is processed by us. The customer security deposit does not accrue interest to the benefit of the customer.

Bad Debts

We maintain an allowance for doubtful accounts for estimated losses resulting from the inability or failure of our customers to make required payments. We determine the allowance for doubtful accounts based on an account-by-account review, taking into consideration such factors as the age of the outstanding balance, historical pattern of collections and financial condition of the customer. Past losses incurred by us due to bad debts have been within our expectations. If the financial conditions of our customers were to deteriorate, resulting in an impairment of their ability to make contractual payments, additional allowances might be required. Estimates for bad debt losses are variable based on the volume of transactions processed and could increase or decrease accordingly. At December 31, 2014 and 2013, our allowance for doubtful accounts was \$45,663 and \$49,782, respectively.

Marketable Securities

We classify our marketable security investment portfolio as either held to maturity, available-for-sale, or trading. At December 31, 2014, all our marketable securities were classified as trading. Securities classified as trading are carried at fair value with unrealized gains and losses included in the consolidated statement of operations. Classification as current or non-current is based primarily on whether there is an active public market for such security, as well as the daily trading volume of a security relative to our ownership position. Gains or losses from the sale or redemption of the marketable securities are determined using the specific identification method.

Valuation of Long-Lived and Intangible Assets

We assess the impairment of long-lived and intangible assets periodically, or at least annually, and whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors considered important, which could trigger an impairment review, include the following: significant underperformance relative to historical or projected future cash flows; significant changes in the manner of use of the assets or the strategy of the overall business; and significant negative industry trends. When management determines that the carrying value of long-lived and intangible assets may not be recoverable, impairment is measured as the excess of the assets' carrying value over the estimated fair value. No impairment losses were recorded in 2014 or 2013. Management is not aware of any impairment changes that may currently be required; however, we cannot predict the occurrence of events that might adversely affect the reported values in the future.

Income Taxes

Deferred tax assets and liabilities are recorded based on the difference between financial reporting and tax bases of assets and liabilities and are measured by the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. Deferred tax assets are computed with the presumption that they will be realizable in future periods when taxable income is generated. Predicting the ability to realize these assets in future periods requires a great deal of judgment by management. U.S. generally accepted accounting principles prescribe a recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. Income tax benefits that meet the "more likely than not" recognition threshold should be recognized. Goodwill is amortized over 15 years for tax purposes.

It is our judgment that as of December 31, 2014 we will recognize deferred tax assets of \$1.6 million. However, we cannot predict with reasonable certainty that all of the available net operating loss carryforwards will be realized in future periods. Accordingly, a valuation allowance has been provided to reduce the net deferred tax assets to \$1.6 million. At December 31, 2014, we had available net operating loss carry-forwards of approximately \$40.8 million, which expire beginning in the year 2020. Approximately \$0.4 million of the total net operating loss is subject to an IRS Section 382 limitation from 1999.

Management is not aware of any tax positions that would have a significant impact on our financial position.

Results of Operations

Our revenues are principally derived from providing integrated electronic payment services to merchants and businesses, including credit and debit card-based processing services and transaction processing via the Automated Clearing House, or ACH, network and the program management and processing of prepaid debit cards. We also operate an online payment processing service for consumers under the domain name www.billx.com and sell this service as a private-label application to resellers. Total revenues for 2014 increased 159% to \$13,395,131 from \$5,180,362 for 2013. The increase in revenues for 2014 is primarily attributed to increases in the volume of ACH processing transactions, return transactions and credit card and debit card processing transactions, processed for our newly acquired customers.

Cost of services includes the cost of personnel dedicated to the creation and maintenance of connections to third-party payment processors and the fees paid to such third-party providers for electronic payment processing services. Through our contractual relationships with our payment processors and sponsoring banks, we are able to process ACH and debit, credit or prepaid card transactions on behalf of our customers and their consumers. We pay volume-based fees for debit, credit, ACH and prepaid transactions initiated through these processors or sponsoring banks, and pay fees for other transactions such as returns, notices of change to bank accounts and file transmission. Cost of services was \$9,216,904 and \$4,205,466 for 2014 and 2013, respectively. The increase of \$5,011,438 or 119% in cost of services for 2014 as compared to 2013 was primarily due to the increases in the volume of credit card and debit card processing transactions, ACH processing transactions, and return transactions processed for our newly acquired customers and existing customers.

Stock-based compensation expenses decreased slightly to \$291,980 for 2014 from \$293,080 for 2013. Our stock-based compensation expenses for 2014 and 2013 represented the amortization of deferred compensation expenses related to incentive stock grants to employees.

Other selling, general and administrative expenses increased to \$1,600,287 for 2014, from \$1,405,594 for 2013. The \$194,693 or 14% increase in other selling, general and administrative expenses for 2014 was principally due to an increase in employee bonus compensation of approximately \$96,000, marketing materials of approximately \$29,000, office rent expense of approximately \$26,000, and other expenses of approximately \$29,000. Depreciation was \$40,953 for 2014, as compared to \$31,654 for 2013. The increase of \$9,299 or 29% was primarily due to increased fixed asset purchases for our growing business.

Other income (expense) was \$111,055 income for 2014, as compared to (\$1,350) expense for 2013. The increase was primarily due to the increase in interest earned on higher cash balances of \$66,786 for 2014 compared to \$1,957 for 2013. In addition, other income (expense) were comprised of unrealized gains on our marketable securities of \$10,958 for 2014 compared to unrealized losses of \$4,017 for the prior year.

Income taxes (benefit) expense were (\$1,482,226) and \$32,257 in 2014 and 2013, respectively. In 2013 this primarily represented amounts incurred under the Texas margin tax. The tax benefit in 2014 was primarily the result of us recognizing deferred tax benefit at December 31, 2014 of \$1,621,000, net of alternative minimum tax and Texas margin tax.

We reported a net income of \$3,838,288 for 2014, as compared to net loss of 789,039 for 2013. The turnaround is related to the factors described above.

Liquidity and Capital Resources

At December 31, 2014, we had \$54,984,851 of cash and cash equivalents, as compared to \$26,573,771 of cash and cash equivalents at December 31, 2013. The increase in cash for 2014 was primarily due to customer deposit payables of \$52,186,396, which represented an increase of \$26,446,233 in customer deposit payables for 2014 that was directly associated with the increase in ACH transaction volumes for our newly acquired customers and the associated cash reserve requirements we placed on some of those customers. We expect customer deposits to increase as we expect to add new clients from whom we will require cash reserves.

We reported net income of \$3,838,288 for year ended December 31, 2014. However, we reported a net loss of \$789,039 for the year ended December 31, 2013. Additionally, we reported working capital of \$2,854,080 and \$368,149 at December 31, 2014 and 2013, respectively.

Net cash provided by operating activities was \$28,452,852 for 2014 as compared to \$23,177,620 for 2013. The increase in net cash used by operating activities for 2014 was primarily attributable to a \$26,446,233 increase in customer deposit payables, which consisted of cash held in transit that we collected on behalf of our merchants via our ACH processing service, as compared to a \$23,625,041 increase in customer deposit payables for the same period in the prior year, and increase in net income of \$3,838,288 for 2014 compared to a net loss of \$789,039 for the same period in the prior year.

Net cash used by investing activities was \$36,772 for 2014 and \$62,385 for 2013. The decrease in net cash used by investing activities for 2014, as compared to the prior year was related to a reduction in the acquisition of equipment.

Net cash used by financing activities for 2014 was \$0 compared to \$301,255 for 2013, which represents our purchase in the first quarter of 2013 of certain shares of common stock owned by Michael Long, our Chief Executive Officer and, at that time, our Chief Financial Officer, and Louis Hoch, our President and Chief Operating Officer, as satisfaction in full of certain outstanding amounts Mr. Long and Mr. Hoch owed to us.

Off-Balance Sheet Arrangements

We currently have no off-balance sheet arrangements that have or are reasonably likely to have a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

As a smaller reporting company as defined by Rule 12b-2 of the Exchange Act and in Item 10(f)(1) of Regulation S-K, we are electing scaled disclosure reporting obligations and therefore are not required to provide the information requested by this Item.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Payment Data Systems, Inc. and Subsidiaries
San Antonio, Texas

We have audited the accompanying consolidated balance sheets of Payment Data Systems, Inc. and Subsidiaries (collectively referred to as the "Company") as of December 31, 2014 and 2013, and the related consolidated statements of operations, changes in stockholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purposes of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company at December 31, 2014 and 2013, and the consolidated results of their operations and cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

PAYMENT DATA SYSTEMS, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2014 AND 2013

Note 1. Description of Business and Summary of Significant Accounting Policies

Organization: Payment Data Systems, Inc., along with its subsidiaries, FiCentive, Inc., a Nevada corporation; Zbill, Inc., a Nevada corporation, provides integrated electronic payment services, including credit and debit card-based processing services and transaction processing via the Automated Clearing House (“ACH”) network to billers and retailers. In addition, the Company operates an Internet electronic payment processing service for consumers under the domain name www.billx.com and various other product websites including the newly acquired akimbocard.com website.

Principles of Consolidation and Basis of Presentation: The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition: Revenue consists primarily of fees generated through the electronic processing of payment transactions and related services, and is recognized as revenue during the period the transactions are processed or when the related services are performed. The Company complies with ASC 605-45-45 and reports revenues gross as a principal versus net as an agent. Although some of the Company’s processing agreements vary with respect to certain credit risks the Company has determined that for each agreement it is acting in the principal role. Merchants may be charged for these processing services at a bundled rate based on a percentage of the dollar amount of each transaction and, in some instances, additional fees are charged for each transaction. Certain merchant customers are charged a flat fee per transaction, while others may also be charged miscellaneous fees, including fees for chargebacks or returns, monthly minimums, and other miscellaneous services. Revenues derived from electronic processing of credit, debit, and prepaid card transactions that are authorized and captured through third-party networks are reported gross of amounts paid to sponsor banks as well as interchange and assessments paid to credit card associations (Visa, MasterCard, and Discover). Revenue also includes any up-front fees for the work involved in implementing the basic functionality required to provide electronic payment processing services to a customer. Revenue from such implementation fees is recognized over the term of the related service contract. Sales taxes billed are reported directly as a liability to the taxing authority, and are not included in revenue.

Cash and Cash Equivalents: Cash and cash equivalents includes cash and other money market instruments. The Company considers all highly liquid investments with an original maturity of 90 days or less to be cash equivalents. Cash also includes customer deposits.

Accounts Receivable: Accounts receivable are reported at outstanding principal net of an allowance for doubtful accounts of \$45,663 and \$49,782 at December 31, 2014 and 2013, respectively. The allowance is generally determined based on historical trends and an account-by-account review. Accounts are charged off when collection efforts have failed and the account is deemed uncollectible. The Company normally does not charge interest on accounts receivable.

Marketable Securities: The Company classifies its marketable security investment portfolio as either held to maturity, available-for-sale, or trading. At December 31, 2014, all of the Company's marketable securities were trading. Securities classified as trading are carried at fair value with unrealized gains and losses included in the consolidated statement of operations. Classification as current or non-current is based primarily on whether there is an active public market for such security, as well as the daily trading volume of a security relative to the Company's ownership position. Gains or losses from the sale or redemption of the marketable securities are determined using the specific identification method.

Property and Equipment: Property and equipment are stated at cost. Depreciation and amortization are computed on a straight-line method over the estimated useful lives of the related assets, ranging from three to seven years. Leasehold improvements are amortized over the lesser of the estimated useful lives or remaining lease period. Expenditures for maintenance and repairs are charged to expense as incurred.

Customer Deposits: Customer deposits include security deposits that may be required by the Company from certain customers and cash held in transit that we collected on behalf of all our customers via our ACH processing service. The security deposit is used to offset any returned items or chargebacks to the Company and to indemnify the Company against third-party claims and any expenses that may be created by the customer as a result of any claim or fine. The Company may require the customer security deposit based on estimated transaction volumes, amounts and chargebacks and may revise the deposit based on periodic review of the same items.

Repayment of the deposit to the customer is generally within 90 to 180 days beyond the date the last item is processed by the Company on behalf of the customer. The customer security deposit does not accrue interest to the benefit of the customer.

Concentration of Credit Risk: Financial instruments that potentially expose the Company to credit risk consist of cash and cash equivalents, and accounts receivable. The Company is exposed to credit risk on its cash and cash equivalents in the event of default by the financial institutions to the extent of balances in excess of amounts that are insured by the FDIC (\$250,000). Accounts receivables potentially subject the Company to concentrations of credit risk. The Company's customer base operates in a variety of industries and is geographically dispersed, however, the relatively small number of customers increases the risk. The Company closely monitors extensions of credit and credit losses have been provided for in the consolidated financial statements and have been within management's expectations. For the year ended December 31, 2014, 11% of the Company's total revenues were from sales to one customer. This customer utilized the Company's ACH services.

The Company's operations in one industry accounts for 66% of revenue in 2014 and 24% of revenue in 2013.

Fair Value of Financial Instruments: Cash and cash equivalents, accounts receivable, accounts payable, accrued liabilities and short-term borrowings are reflected in the accompanying consolidated financial statements at cost, which approximates fair value because of the short-term maturity of these instruments.

Impairment of Long-Lived Assets and Intangible Assets: The Company periodically reviews, on at least an annual basis, the carrying value of its long-lived assets and intangible assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. To the extent fair value of a long-lived asset, determined based upon the estimated future cash inflows attributable to the asset, less estimated future cash outflows, is less than the carrying amount, an impairment loss is recognized.

Reserve for Processing Losses: If, due to insolvency or bankruptcy of one of the Company's merchant customers, or for any other reason, the Company is not able to collect amounts from its card processing credit card, ACH or merchant prepaid customers that have been properly "charged back" by the customer or if a prepaid cardholder incurs a negative balance, the Company must bear the credit risk for the full amount of the transaction. The Company may require cash deposits and other types of collateral from certain merchants to minimize any such risk. In addition, the Company utilizes a number of systems and procedures to manage merchant risk. ACH, prepaid and credit card merchant processing loss reserves are primarily determined by performing a historical analysis of our loss experience and considering other factors that could affect that experience in the future, such as the types of transactions processed and nature of the merchant relationship with its consumers and the Company with its prepaid card holders. This reserve amount is subject to the risk that actual losses may be greater than our estimates. The Company has not incurred any significant processing losses to date. Estimates for processing losses vary based on the volume of transactions processed and could increase or decrease accordingly. The Company evaluates its risk for such transactions and estimates its potential processing losses based primarily on historical experience and other relevant factors. At December 31, 2014 and, 2013, the Company's reserve for processing losses was \$272,365 and \$297,365, respectively.

Advertising Costs: Advertising is expensed as incurred. The Company incurred approximately \$700, and \$23,600 in advertising costs in 2014 and 2013, respectively.

Income Taxes: Deferred tax assets and liabilities are recorded based on differences between financial reporting and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. Deferred tax assets are computed with the presumption that they will be realizable in future periods when taxable income is generated. Predicting the ability to realize these assets in future periods requires a great deal of judgment by management. U.S. generally accepted accounting principles prescribe a recognition threshold and measurement attribute for a tax position taken or expected to be taken in a tax return. Income tax benefits that meet the "more likely than not" recognition threshold should be recognized. Goodwill is amortized over 15 years for tax purposes.

As with all businesses, the Company's tax returns are subject to periodic examination. The Company's federal returns for the past four years remain open to examination. The Company is subject to the Texas margin tax. Management is not aware of any tax positions that would have a significant impact on its financial position.

Stock-Based Compensation: The Company recognizes as compensation expense all share-based payment awards made to employees and directors, including grants of stock options and warrants, based on estimated fair values. Fair value is generally determined based on the closing price of the Company's common stock on the date of grant.

Earnings Per Share: Basic and diluted earnings per common share are calculated by dividing earnings by the weighted average number of common shares outstanding during the period.

New Accounting Pronouncement: In May 2014, the Financial Accounting Standards Board issued a new accounting pronouncement regarding revenue from contracts with customers. This new standard provides guidance on recognizing revenue, including a five step model to determine when revenue recognition is appropriate. The standard requires that an entity recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Adoption of the new standard is effective for reporting periods beginning after December 15, 2016, with early adoption not permitted. The Company is currently evaluating the potential impact that the adoption of this standard will have on its financial position, results of operations, and related disclosures, and will adopt the provisions of this new standard in the first quarter of 2017.

Note 2. Acquisition of Akimbo Financial, Inc.

On December 22, 2014, the Company entered into an Asset Purchase Agreement with Akimbo Financial, Inc. (“Akimbo”), a Texas corporation in the business of prepaid card program management, pursuant to which the Company agreed to purchase substantially all of the assets of Akimbo, including certain assumed liabilities, subject to the exclusions, terms and conditions set forth in the Asset Purchase Agreement. The aggregate purchase price for the Akimbo business and assets was \$3 million in unregistered, restricted shares of the Company’s common stock, reduced dollar for dollar by the amount of post-closing adjustments.

The Company delivered the shares of its common stock in two tranches. The first tranche was \$2 million in unregistered, restricted shares of common stock, less \$300,000, equaling 10,167,466 shares of common stock; and the second tranche of \$1 million in unregistered, restricted shares, less \$450,000, equaling 3,289,473 shares of common stock, was paid prior to year end.

The final number of shares to be issued, and the related value per each such share (the “Share Price”), was determined using the average daily closing price for the shares of common stock for the 10 business days immediately preceding December 22, 2014 (whether the shares are issued and delivered as part of the first tranche, second tranche, on April 15, 2015 or on the one-year anniversary of December 22, 2014). The Closing Date was December 22, 2014, thus the Share Price was \$0.1672.

As part of the Asset Purchase Agreement, the Company entered into a Transition Agreement which provides for the continuation of the Akimbo business. Under the terms of the Transition Agreement, Akimbo will provide services to customer cardholders in the ordinary course of business, and deduct any contract costs from the contract revenues for a period of 180 days following December 22, 2014. In case of a negative net revenue, the Company agreed to pay Akimbo the necessary difference up to a total amount of \$300,000.

The assets the Company acquired with the Akimbo business include, among others, all assets, rights, properties and privileges of every kind and nature, real and personal, tangible and intangible, absolute and contingent, used by Akimbo in the operation of the business, owned or leased by Akimbo, such as software, equipment, insurances, permits, contracts and intellectual property rights. In conjunction with the Asset Purchase Agreement, the Company is also hired most of the employees of Akimbo. Additionally, in connection with the Asset Purchase Agreement, Akimbo agreed not to compete with the Company, solicit or hire any customer, supplier, licensee, licensor, franchisee, employee, consultant or other business relation for a period of 5 years.

The purchase price has been allocated to the net assets acquired based upon their estimated fair values as follows:

Software	\$2,585,385
Equipment and other assets	2,252
Customer list and contracts	396,824
Goodwill	15,539
Trade accounts payable	(300,000)
Indemnification liability	(450,000)
Total	\$2,250,000

The unaudited proforma results presented below include the effects of the Akimbo acquisition as if it had been consummated on January 1, 2014. The proforma results include eliminations for processing fees, services, office expense and interest, which was a duplicate expense.

Proforma revenue	\$13,600,000
Proforma net income	2,000,000
Proforma earnings per share	\$0.02
Proforma diluted earnings per share	\$0.01

Note 3. Fair Value Measurements

ASC Topic 820 established a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy defined by the standard are as follows:

Level 1: Quoted prices are available in active markets for identical assets or liabilities;

Level 2: Quoted prices in active markets for similar assets and liabilities that are observable for the asset or liability; or

Level 3: Unobservable pricing inputs that are generally less observable from objective sources, such as discounted cash flow models or valuations.

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels. The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that are accounted for at fair value.

Recurring Fair Value Measures Assets:	December 31, 2014			Total
	Level 1	Level 2	Level 3	
Marketable securities	\$38,408	-	-	\$38,408
Liabilities:				
None	-	-	-	-
Recurring Fair Value Measures Assets:	December 31, 2013			Level 1
	Level 1	Level 2	Level 3	
Marketable securities	\$27,450	-	-	\$27,450
Liabilities:				
None	-	-	-	-

The Company's financial instruments relate to its trading marketable securities, which are valued using quoted market prices.

Adjustments to fair value are recorded in the consolidated statement of operations.

Note 4. Property and Equipment

Property and equipment consisted of the following at December 31:

	2014	2013
Furniture and fixtures	\$175,856	\$175,856
Equipment	640,716	626,278
Software	2,958,486	348,515
Leasehold improvements	15,992	15,992
Total property and equipment	3,791,050	1,166,641
Less: accumulated depreciation	(1,085,533)	(1,044,580)
Net property and equipment	\$2,705,517	\$122,061

Note 5. Intangibles

Intangibles consist of customer list and contracts of \$396,824 and goodwill of \$15,539 acquired in the purchase of the assets of Akimbo Financial, Inc. The fair value of the customer list and contracts was calculated using the net present value of the projected gross profit to be generated by the customer list over the next 36 months beginning in January 2015 and will be amortized over 3 years at \$132,275 annually.

Goodwill was determined based on the purchase price paid over the assets acquired and has an indefinite life which will be tested for impairment annually.

Note 6. Valuation Accounts

Valuation and allowance accounts included the following at December 31:

	Balance Beginning of Year	Net Charged to Costs and Expenses	Transfers	Net Write-Off	Balance End of Year
2014					
Allowance for doubtful accounts	\$49,782	\$-	\$-	\$(4,119)	\$45,663
Reserve for processing losses	297,365	-	(25,000)	--	272,365
2013					
Allowance for doubtful accounts	\$50,362	\$-	\$-	\$(580)	\$49,782
Reserve for processing losses	214,560	-	82,805	-	297,365

Note 7. Accrued Expenses

Accrued expenses consisted of the following balances at December 31:

	2014	2013
Accrued salaries	\$158,380	\$142,071
Reserve for merchant losses	272,365	297,365
Accrued commissions	460,977	350,188
Accrued taxes	125,194	51,820
Other accrued expenses	128,345	247,200
Assumed liabilities	255,772	-
Indemnification liability	450,000	-
Total accrued expenses	\$1,851,033	\$1,088,644

Note 8. Operating Leases

The Company currently leases approximately 4,500 square feet of office space that houses its principal executive offices and operations. Rental expense under the operating lease was approximately \$100,000 and \$75,000 for the years ended December 31, 2014 and 2013, respectively. During February 2015, the Company executed a fourth amendment to our lease, which extended the term of the lease for a period of 38 months, or until April 30, 2018.

During February 2015, the Company executed a new lease for approximately 2,700 square feet of office space in San Antonio, Texas. This office space will be utilized by the Company's FiCentive, Inc. subsidiary. The lease commences on March 1, 2015 for 38 months, or until April 30, 2018. The rental cost is approximately \$5,000 per month.

Future minimum lease payments at December 31, 2014 are as follows:

Year ending December 31	
2015	\$ 139,685

2016	144,500
2017	140,686
2018	45,654

Note 9. Related Party Transactions

Michael R. Long and Louis A. Hoch

On March 11, 2013, in accordance with the Company's employment agreements with Mr. Long and Mr. Hoch, the Company accepted shares of the Company's common stock owned by Mr. Long and Mr. Hoch as satisfaction in full for the remaining amounts owed to the Company as annual payments due to the loss on margin loans guaranteed by the Company for Mr. Long and Mr. Hoch in 2002.

On March 11, 2013, the Company also agreed to purchase additional shares of its common stock owned by Mr. Long and Mr. Hoch, valued at \$156,852 and \$144,403, respectively, in lieu of the issuances of cash bonuses to Mr. Long and Mr. Hoch. Such bonuses were intended to compensate the executives for their service. As a result, the Company incurred a one-time reduction in cash of \$301,255.

Accordingly, on March 11, 2013, the Company accepted an aggregate of 2,969,459 shares of the Company's common stock valued at \$534,503, and an aggregate of 2,606,051 shares of the Company's common stock valued at \$469,089 from Mr. Long and Mr. Hoch, respectively, as satisfaction in full of their aggregated outstanding amounts of \$702,337 owed to the Company and aggregated compensation of \$301,255 paid to Mr. Long and Mr. Hoch in lieu of cash bonuses. The common stock accepted from Mr. Long and Mr. Hoch was valued at \$0.18 per share, which was the closing price of the common stock on March 1, 2013. The common stock accepted from Mr. Long and Mr. Hoch was recorded as treasury stock and the Company no longer carries a "Related Party Receivable" on its balance sheet.

Accordingly, following the completion of these transactions, the Company has no remaining receivables or payables related to Mr. Long, Mr. Hoch or any other officer of the Company at December 31, 2014 or 2013.

Herb Authier

During the years ended December 31, 2014 and 2013, the Company paid Herb Authier a total of \$42,000 and \$35,400 in cash, respectively, for services related to network engineering and administration that he provided to the Company. Mr. Authier is the father-in-law of Louis Hoch, the Company's President and Chief Operating Officer.

Nikole Hoch

During the year ended December 31, 2014, the Company purchased \$6,227 of corporate imprinted sportswear and caps from Angry Pug Sportswear. Nikole Hoch, the spouse of our President and Chief Operating Officer Louis Hoch, is the sole owner of Angry Pug Sportswear.

Note 10. Income Taxes

Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of the Company's deferred tax assets and liabilities are as follows at December 31:

	2014	2013
Current:		
Depreciation and other items	\$773,000	-
Current deferred tax assets	\$773,000	\$-
Non-current:		

Edgar Filing: PAYMENT DATA SYSTEMS INC - Form 10-K

Deferred tax assets:		
Net operating loss carryforwards	\$ 13,094,000	\$ 14,831,000
Depreciation and other items	-	25,000
Valuation Allowance	(12,246,000)	(14,856,000)
Non-current deferred tax assets	\$ 848,000	\$-

33

Management has reviewed its net deferred asset position, and due to the history of operating losses has determined that the application of a valuation allowance at December 31, 2014 and December 31, 2013 is warranted. If applicable, the Company would recognize interest expense and penalties related to uncertain tax positions in interest expense. As of December 31, 2014, the Company had not accrued any interest or penalties related to uncertain tax provisions.

The Company has net operating loss carryforwards for tax purposes of approximately \$40.8 million that begin to expire in the year 2020. Approximately \$0.4 million of the total net operating loss is subject to an IRS Section 382 limitation from 1999.

The tax provision for federal and state income tax is as follows for the year ended December 31:

	2014	2013
Current provision:		
Federal	\$45,000	\$-
State	93,774	32,257
	138,774	32,257
Deferred provision:		
Federal (benefit)	(1,621,000)	-
(Benefit) expense for income taxes	\$(1,482,226)	\$32,257

The reconciliation of federal income tax computed at the U.S. federal statutory tax rates to total income tax expense (benefit) is as follows for the year ended December 31:

	2014	2013
Income tax expense (benefit) at 34%	\$769,179	\$(251,000)
Change in valuation allowance	(1,725,000)	126,000
Utilization of NOL carryforward	(884,559)	-
Permanent and other differences	219,380	125,000
Alternative minimum tax and Texas margin tax	138,774	32,257
Income tax expense (benefit)	\$(1,482,226)	\$32,257

Note 11. Stock Options, Incentive Plans, Stock Awards, and Employee Benefit Plan

Stock Option Plans: The Company's 1999 Employee Comprehensive Stock Plan ("Employee Plan") provides qualified incentive stock options ("ISOs") and non-qualified stock options ("NQSOs") as well as restricted stock grants to key employees. Under the terms of the Employee Plan, the exercise price of ISOs must be equal to 100% of the fair market value on the date of grant (or 110% of fair market value in the case of an ISO granted to a 10% stockholder/grantee). There is no price requirement for NQSOs, other than that the option price must exceed the par value of the common stock. The Company reserved 30,000,000 shares of its common stock for issuance pursuant to the Employee Plan. The Employee Plan terminated in 2010.

The 1999 Non-Employee Director Plan ("Director Plan") was approved by the Board of Directors and stockholders to provide non-employee directors options to purchase shares of common stock at 100% of fair market value on the date of grant. The Company reserved 1,500,000 shares of its common stock for issuance pursuant to the Director Plan. The Director Plan terminated in 2010.

Edgar Filing: PAYMENT DATA SYSTEMS INC - Form 10-K

The Company currently has no active stock option or incentive plan under which options or shares may be issued. Options issued under the now terminated Plans remain in effect according to the terms set on the day each option was respectively issued. No options were exercised in 2014 or 2013. A summary of option activity is as follows:

Options	Shares	Weighted Average Exercise Price	Weighted Average Contractual Remaining Life	Aggregate Intrinsic Value
Outstanding, December 31, 2013	1,454,421	\$0.082		
Granted	-	-		
Vested	-	-		
Forfeited	-	-		
Outstanding, December 31, 2014	1,454,421	\$0.082	0.99	\$-
Expected to Vest after December 31, 2014	1,454,421	\$0.082	0.99	\$-

Stock Awards: The Company has granted restricted stock awards to its employees at different periods from 2005 through 2014. The majority of the shares granted to those employees vest 10 years from the grant date, and are forfeited in the event that the recipient's employment relationship with the Company is terminated prior to vesting. The Company has one employment agreement that grants 1,800,000 shares that vest 50,000 shares monthly beginning January 31, 2015 for 3 years. The fair value of the restricted stock award granted to the Company's employees is amortized to expense on a straight-line basis over the vesting period of the restricted stock award. Restricted stock awards are issued and reported as outstanding in the financial statements for 2014 and 2013 as of the date that the physical shares were issued to the employee by the Company's transfer agent. Stock-based compensation expense related to stock options and restricted stock awards was \$296,980 for 2014 and \$293,080 for 2013. The following table presents a summary of the Company's restricted stock awards outstanding at December 31, 2014:

Stock Awards	Shares	Weighted Average Exercise Price	Weighted Average Contractual Remaining Life	Aggregate Intrinsic Value
Outstanding, December 31, 2013	40,251,301	\$0.08		
Granted	28,500,000	\$0.17		
Vested	-	-		
Forfeited	-	-		
Outstanding, December 31, 2014	68,751,301	\$0.12	6.10	\$3,510,482
Expected to Vest after December 31, 2014	68,751,301	\$0.12	6.10	\$3,510,482

As of December 31, 2014, there was approximately \$5,840,000 of total unrecognized compensation costs related to the unvested share-based compensation arrangements granted. The cost is expected to be recognized over the weighted average remaining contractual life of 6.10 years.

Employee Stock Purchase Plan: The Company established the 1999 Employee Stock Purchase Plan ("ESPP") under the requirements of Section 423 of the Internal Revenue Code to allow eligible employees to purchase the Company's common stock at regular intervals. Participating employees may purchase common stock through voluntary payroll deductions at the end of each participation period at a purchase price equal to 85% of the lower of the fair market value of the common stock at the beginning or the end of the participation period. The Company issued 74,075 and -0- shares from the ESPP in 2014 or 2013, respectively. The ESPP is no longer active.

401(k) Plan: The Company has a defined contribution plan (the "401(k) Plan") pursuant to Section 401(k) of the Internal Revenue Code. All eligible full and part-time employees of the Company who meet certain age requirements may participate in the 401(k) Plan. Participants may contribute between 1% and 15% of their pre-tax compensation, but not in excess of the maximum allowable under the Code. The 401(k) Plan allows for discretionary and matching contributions by the Company. In 2014, the Company matched 100% of employee contributions up to 3% and 50% of the employee contribution over 3% with a maximum employee contribution of 5%. The Company made matching contributions of \$30,858 and \$0 in 2014 and 2013, respectively.

Note 12. Earnings (loss) per Share

Basic earnings (loss) per share (EPS) were computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted EPS differs from basic EPS due to the assumed

Edgar Filing: PAYMENT DATA SYSTEMS INC - Form 10-K

conversion of potentially dilutive options that were outstanding during the period. The following is a reconciliation of the numerators and the denominators of the basic and diluted per share computations for net income (loss).

	2014	2013
Numerator:		
Numerator for basic and diluted earnings (loss) per share, net income (loss) available to common shareholders	\$3,838,288	\$(789,039)
Denominator:		
Denominator for basic earnings (loss) per share, weighted average shares outstanding	97,081,064	96,899,022
Effect of dilutive securities-stock options and restricted awards	41,764,832	-
Denominator for diluted earnings per share, adjusted weighted average shares and assumed conversion	138,845,896	96,899,022
Basic earnings (loss) per common share	\$0.04	\$(0.01)
Diluted earnings (loss) per common share and common share equivalent	\$0.03	\$(0.01)

The awards and options to purchase shares of common stock that were outstanding at December 31, 2014 and 2013 that were not included in the computation of diluted earnings per share because the effect would have been anti-dilutive, are as follows:

	2014	2013
Anti-dilutive awards and options	N/A	13,664,270

Note 13. Stock Warrants

There were no outstanding warrants as of December 31, 2014 or December 31, 2013.

Note 14. Legal Proceedings

The Company is involved in a lawsuit with a customer that alleges it did not warn or stop the processing of \$181,709 in fraudulent credit transactions from occurring. The Company believes that the customer breached the Company's processing agreement and a security breach occurred because of the customer's lack of any controls over the login and password information utilized by the customer to process transactions that resulted in the customer becoming a victim of a malware attack. The agreement between the customer and the Company has a limitation of liability provision that allows for the maximum liability of the Company to not exceed the amount of fees of a single month of service.

While the Company believes the claims of the customer are without merit, the outcome of the dispute is still uncertain. The Company believes that any potential loss or judgment amount does not need to be accounted for at this time beyond the current balance in the reserve for losses on merchant account.

Aside from the lawsuit described above, the Company may be involved in legal matters arising in the ordinary course of business from time to time. While the Company believes that such matters are currently not material, there can be no assurance that matters arising in the ordinary course of business for which the Company is or could become involved in litigation, will not have a material adverse effect on the Company's business, financial condition or results of operations.

Note 15. Subsequent Events

On March 3, 2015, the Company hired Habib Yunus as the Company's Senior Vice President and Chief Financial Officer.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Our management evaluated, with the participation of our Chief Executive Officer and, at that time our Chief Financial Officer, the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”)) as of the end of the period covered by this Annual Report on Form 10-K. Based on that evaluation, our Chief Executive Officer / Chief Financial Officer concluded that our disclosure controls and procedures as of December 31, 2014 are effective to ensure that information we are required to disclose in reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer / Chief Financial Officer, as appropriate, to allow timely decisions regarding required reasonable assurance that such information is accumulated and communicated to our management. Our disclosure controls and procedures are designed to provide reasonable assurance that such information is accumulated and communicated to our management. Our disclosure controls and procedures include components of our internal control over financial reporting. Management's assessment of the effectiveness of our internal control over financial reporting is expressed at the level of reasonable assurance that the control system, no matter how well designed and operated, can provide only reasonable, but not absolute, assurance that the control system's objectives will be met.

Management’s Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for our Company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our management conducted an assessment of the effectiveness of our internal control over financial reporting as of December 31, 2014 based on criteria established in “Internal Control—Integrated Framework” issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on this assessment, our management concluded that, as of December 31, 2014, our internal control over financial reporting was effective.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the quarter ended December 31, 2014 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION.

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Michael R. Long, age 70 - Chief Executive Officer, and Chairman of the Board

Mr. Long has served as our Chief Executive Officer and Chairman of our Board of Directors since July 1998. He has also held the position of our Chief Financial Officer from September 2003 to March 2015, in addition to his other positions with us. Mr. Long has more than thirty years of senior executive management and systems development experience in six publicly traded companies, as well as experience operating a systems consulting business. Before assuming the highest position with our Company, Mr. Long was Vice President of Information Technology at Billing Concepts, Inc., the largest third party billing clearinghouse for the telecommunications industry. Mr. Long's career experience also includes financial services industry business development for Andersen Consulting and several executive positions in publicly traded telecommunications and financial services companies. Mr. Long is a valuable member of our Board due to his depth of operating, strategic, systems development, transactional, and senior management experience in our industry. Additionally, Mr. Long has held positions of increasing responsibility at our Company and holds an intimate knowledge of our Company due to his longevity in the industry and with us.

Louis A. Hoch, age 49 - President, Chief Operating Officer and Vice Chairman of the Board

Mr. Hoch has served as our President, Chief Operating Officer, and a director of our Company since July 1998, and also serves as Vice Chairman of our Board of Directors and as Chief Executive Officer of our wholly-owned subsidiary FiCentive, Inc. Mr. Hoch is a valuable member of our Board as he has over twenty years of management experience, sixteen years of which were at a senior executive level in large systems development, and he is an expert in payment processing, call center operations and service bureau operations. He holds inventor status on U.S. Patent No. 7,021,530 ("System and method for managing and processing stored-value cards and bill payment therefrom."). Mr. Hoch has held various key management positions with U.S. Long Distance, Billing Concepts, Inc. and Andersen Consulting. Mr. Hoch holds a BBA in Computer Information Systems and an MBA in International Business Management, both from Our Lady of the Lake University Business School.

Larry Morrison, age 55 – Senior Vice President, Sales and Marketing Officer

Mr. Morrison has served as our Vice President, Sales and Marketing Officer since July 2003. Mr. Morrison has over twenty-five years of experience in all aspects of sales and sales management. Before joining our Company to oversee all sales and marketing functions, Mr. Morrison served as a major accounts executive for a tier one telecommunications provider and vice president of sales and operations for a major two-way communications firm. His background also includes management and implementation of large government communication systems installations both domestic and abroad.

Houston Frost, Ph.D., age 33- Senior Vice President Corporate Development and Prepaid Products

Mr. Frost has served as our Senior Vice President Corporate Development and Prepaid Products since December 2014. Prior to joining us, Mr. Frost served as President and Chief Executive Officer of Akimbo Financial, Inc. since its inception Mr. Frost co-founded Akimbo in January 2010 motivated by a desire to reinvent the prepaid card with the concept of creating a network of card members that facilitated free and instant money delivery to friends and family. Mr. Frost has more than five years of experience in the prepaid and payments industry and eight years of experience in financial services. Prior to Akimbo, Mr. Frost worked in New York as an Associate at JPMorgan Chase & Co. on the Fixed-Income Strategy team. Mr. Frost earned his Ph.D. in Chemical and Biological Engineering from Northwestern University in 2007 and a Bachelor's of Science in Chemical and Biological Engineering from the University of

Colorado.

Habib Yunus, CPA, age 39 – Senior Vice President and Chief Financial Officer

Effective March 3, 2015, we hired Habib Yunus to serve as our Chief Financial Officer, Senior Vice President and our Principal Financial and Accounting Officer. Mr. Yunus has more than 15 years of experience in accounting, finance and investing. Prior to joining us, Mr. Yunus was the Managing Director and founder of W NRG (Energy) Advisory LLC since January 2013, focused on advising clients on energy investments, joint venture transactions, project management and market research in North America for Asian investors. Before founding W Energy Advisory, from September 2010 to January 2013, Mr. Yunus was the lead project manager for Toyota Tsusho America, Inc., an oil and gas investment company, where in 2012 he originated and negotiated a \$602 million joint venture between Toyota Tsusho Corporation (Japan) and Encana Corporation. Prior to his position at Toyota Tsusho America, Inc., he served as the Head of Tax and Special Assistant to the CFO of Shinsei Bank Ltd. in Tokyo, Japan from July 2004 to June 2010. Before joining Shinsei Bank, for 7 years he held various positions of increasing responsibility at Deloitte and Touche, LLP, a public accounting firm, most recently serving as a Corporate Tax Manager with a focus on international structuring and cross-border transactions with special emphasis in structuring inbound investments. Mr. Yunus was previously Chair of the Audit Committee of Millennium India Acquisition Company, Inc. from October 2013 to March 2014. Mr. Yunus holds a Bachelor of Arts in Accounting and a Masters of Accounting with a tax specialization both from the University of Florida. Mr. Yunus is licensed by the state of Georgia as a Certified Public Accountant.

Peter G. Kirby, Ph.D. SPHR CM, age 75 - Director

Dr. Kirby has served a director of our Company since June 2001. Dr. Kirby has distinguished himself in professional and community activities in a career that spanned over thirty-five years. He is an accomplished public speaker and has provided consulting services to Fortune 100 firms. Dr. Kirby has published numerous works in the fields of management, decision-making and human resources. He has been a director on many university advisory councils and boards and has served on many charitable committees and foundations. Dr. Kirby retired in 2006 as a tenured professor of management at Our Lady of the Lake University in San Antonio, Texas, where he taught for seventeen years. Dr. Kirby served as Chair of the QFN Economic Development Corporation, a Canadian corporation, from April 2007 to May 2008. Dr. Kirby is a valuable member of our Board due to his depth of strategic and management experience.

OTHER INVOLVEMENT IN CERTAIN LEGAL PROCEEDINGS

None of our directors or executive officers have been involved in any bankruptcy or criminal proceedings, nor have there been any judgments or injunctions brought against any of our directors or executive officers during the last ten years that we consider material to the evaluation of the ability and integrity of any director or executive officer.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires our directors, executive officers and persons who own more than 10% of a registered class of our securities to file reports of beneficial ownership and changes in beneficial ownership with the Securities and Exchange Commission on Forms 3 (Initial Statement of Beneficial Ownership), 4 (Statement of Changes of Beneficial Ownership of Securities) and 5 (Annual Statement of Beneficial Ownership of Securities). Officers, directors and greater than 10% beneficial owners are required by SEC regulations to furnish us with copies of all Section 16(a) forms they file. To our knowledge, based solely on a review of copies of such reports furnished to us by our officers and directors, we believe that, during the fiscal year ended December 31, 2014, no person required to file reports under Section 16(a) of the Securities Exchange Act of 1934 failed to file such reports on a timely basis during such fiscal year, except two Form 4s filed by Mr. Hoch were late by one day, one Form 4 was late by 2 days. All trades were executed under a 10(b)5-1 trading plan in which Mr. Hoch did not specify any specific trading days or trading conditions that would give him knowledge of when a trade should occur. As a result, Mr. Hoch was not aware of trade executions in a timely manner. Also, Mr. Kirby, a director, filed one Form 4 seven days late because Mr. Kirby's EDGAR codes had expired and he had to get a new passphrase issued to regenerate new EDGAR codes.

CODE OF ETHICS

We have adopted a Code of Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer or controller, and persons performing similar functions. Our code of ethics was filed as Exhibit 14.1 to our annual report on Form 10-K for the year ended December 31, 2003 on March 30, 2004. We will provide a copy of our code of ethics to any person without charge, upon request. Requests should be addressed to: Payment Data Systems, Inc., Attn: Investor Relations Department, 12500 San Pedro, Suite 120, San Antonio, Texas 78216.

PROCEDURE FOR NOMINATING DIRECTORS

We have not made any material changes to the procedures by which security holders may recommend nominees to our Board of Directors.

We consider recommendations for director candidates from our directors, officers, employees, stockholders, customers and vendors. Stockholders wishing to nominate individuals to serve as directors may submit such nominations, along with a nominee's qualifications, to our Board of Directors at Payment Data Systems, Inc., 12500 San Pedro, Suite 120, San Antonio, Texas, 78216, and the Board of Directors will consider such nominee. The Board of Directors selects the director candidates slated for election. We do not have a separately designated nominating committee in light of resource allocations made by the Board of Directors in its business judgment.

COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors is responsible for establishing broad corporate policies and reviewing our overall performance rather than day-to-day operations. The Board's primary responsibility is to oversee management of our Company and, in so doing, serve the best interests of our Company and our stockholders.

AUDIT COMMITTEE

We have a separately designated audit committee, and its membership consists solely of our independent director, Dr. Peter Kirby. We do not currently have an “audit committee financial expert,” as defined in Item 407(d)(5)(ii) of Regulation S-K serving on our Audit Committee. We have been unable to find a suitable replacement for the independent director who satisfies the definition of “audit committee financial expert.” We are still seeking an independent director to serve as the audit committee financial expert and to serve on the Audit Committee alongside Dr. Kirby.

ITEM 11. EXECUTIVE COMPENSATION.

The following table sets forth the compensation for the fiscal years ended December 31, 2014 and 2013 awarded to, earned by, or paid to (i) our Principal Executive Officer; and (ii) our two most highly compensated executive officer. We refer to the individuals included in the Summary Compensation Table as our “named executive officers.”

Summary Compensation Table for the Fiscal Years Ended December 31, 2014 and 2013

Name and Principal Position	Year Ended	Salary (\$)	Bonus (\$)	Stock Awards (\$)	All Other Compensation (\$)	Total (\$)
	Dec. 31,					
Michael R. Long Chairman, Chief Executive Officer and Chief Financial Officer (8)	2014	255,000 (4)	25,000 (5)	87,248	14,930	382,166
	2013	255,000 (4)	20,000 (5)	87,248	12,129	374,377
Louis A. Hoch Vice Chairman, President and Chief Operating Officer	2014	235,000 (6)	45,000 (7)	107,432	14,138	401,570
	2013	235,000 (6)	-	107,432	3,403	345,835
Larry Morrison Senior Vice President, Sales and Marketing Officer	2014	110,000	11,500	18,582	6,649	146,731
	2013	110,000	-	18,582	1,702	130,284
Kenneth Keller Senior Vice President, Chief Technology Officer	2014	104,200	9,000	21,856	4,343	139,399
	2013	104,200	-	21 856	947	127,003

(1) In this column, the figure represents the amount recognized by the executive during this period for financial statement reporting purposes only and is not compensation earned by the executive. The fair value of each restricted stock award is amortized to expense on a straight-line basis over the vesting period of the restricted stock award. The aggregate grant date fair value of the stock award was calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718. See Note 11 of the Notes to our Financial Statements contained elsewhere in this annual report on Form 10-K for a discussion of all assumptions made by us in determining values of our stock awards.

(2) There were no stock options granted to any of our named executive officers during fiscal year 2014 or 2013.

(3) This column reflects premiums paid by us for term life insurance coverage and Company matching for the 401(k) plan on behalf of the named executive officer.

(4) In 2014 & 2013, Mr. Long elected to receive a base salary of \$255,000 per annum in lieu of the base salary of \$375,000 that would have been due to him for 2014 & 2013 under the employment agreement effective February 27, 2007. No deferred compensation is owed to Mr. Long for 2014 or 2013.

- (5) Mr. Long's 2014 and 2013 bonus compensation consisted of one-time cash bonuses of \$25,000 and \$20,000, respectively. All bonus compensation was granted pursuant to the terms of our employment agreement with Mr. Long, as amended.
- (6) In 2014 & 2013, Mr. Hoch elected to receive a base salary of \$235,000 per annum in lieu of the base salary of \$350,000 that would have been due to him for 2014 and 2013 under the employment agreement effective February 27, 2007. No deferred compensation is owed to Mr. Hoch for 2014 & 2013.
- (7) Mr. Hoch's 2014 bonus compensation consisted of one-time cash bonus of \$45,000. All bonus compensation was granted pursuant to the terms of our employment agreement with Mr. Hoch, as amended.
- (8) On March 3, 2015, Mr. Long resigned as our Chief Financial Officer and we hired Mr. Habib Yunus as our new Chief Financial Officer.

Narrative to Summary Compensation Table

Named Executive Officer Employment Agreements

We entered into an employment agreement with Michael R. Long effective February 27, 2007. Under the agreement, Mr. Long agreed to serve as our Chairman of the Board, Chief Executive Officer and, at the time of the transaction, our Chief Financial Officer. The agreement provides for base annual salaries of \$190,000 for 2007, \$300,000 for 2008 and \$375,000 for each year thereafter, unless increased by us. In addition, Mr. Long will receive an annual bonus of \$216,000 during the term of the agreement to be paid in cash or stock at our sole discretion. Upon execution of the agreement, Mr. Long received a cash payment of \$15,000, 500,000 shares of common stock from our Employee Plan, and an aggregate of 2,500,000 shares of restricted common stock that vest annually in increments of 500,000 shares beginning on February 28, 2009. On November 12, 2009, we executed an amendment to our employment agreement with Mr. Long. Under the terms of the amended employment agreement, Mr. Long agreed to reduce his annual base salary for 2009 to \$190,000 from \$375,000. On April 12, 2010, we executed a second amendment to our employment agreement with Mr. Long. Under the terms of the amended employment agreement, Mr. Long agreed to reduce his annual base salary for 2010 to \$24,000 from \$375,000, and to change the annual bonus limit from 100% of current salary to 100% of the highest salary received in any year of the agreement. On January 14, 2011, we executed a third amendment to our employment agreement with Mr. Long. Under the terms of the amended employment agreement, Mr. Long agreed to reduce his annual base salary for 2011 to \$24,000 from \$375,000. In 2012, Mr. Long elected to receive a base salary of \$190,000 per annum in lieu of the base salary of \$375,000 that would have been due to him for 2012 under the employment agreement effective February 27, 2007. On July 2, 2012, we executed a fourth amendment to our employment agreement with Mr. Long. Under the terms of the amended employment agreement, while Mr. Long had already agreed to a lower salary for 2012, he agreed to formally reduce his annual base salary for 2012 to \$255,000 from \$375,000. No deferred compensation is owed to Mr. Long for 2012. Total base salary earned by Mr. Long for 2012 was \$217,699, which represented a salary of \$190,000/year for the first half of 2012, and a salary of \$255,000/year for the second half of 2012. In 2013, Mr. Long elected to receive a base salary of \$255,000 per annum in lieu of the base salary of \$375,000 that would have been due to him for 2013 under the employment agreement effective February 27, 2007. No deferred compensation is owed to Mr. Long for 2013. Mr. Long's 2013 bonus compensation consisted of a one-time cash bonus of \$20,000 paid on October 17, 2013. All bonus compensation was granted pursuant to the terms of our employment agreement with Mr. Long, as amended.

We entered into an employment agreement with Louis A. Hoch effective February 27, 2007. Under the agreement, Mr. Hoch agreed to serve as our Vice Chairman of the Board, President and Chief Operating Officer. The agreement provides for base annual salaries of \$175,000 for 2007, \$275,000 for 2008 and \$350,000 for each year thereafter, unless increased by us. In addition, Mr. Hoch will receive an annual bonus of \$216,000 during the term of the agreement to be paid in cash or stock at our sole discretion. Upon execution of the agreement, Mr. Hoch received a cash payment of \$15,000, 500,000 shares of common stock from our Employee Plan, and 2,500,000 shares of restricted common stock that vest annually in increments of 500,000 shares beginning on February 28, 2009. On November 12, 2009, we executed an amendment to our employment agreement with Mr. Hoch. Under the terms of the amended employment agreement, Mr. Hoch agreed to reduce his annual base salary for 2009 to \$175,000 from \$350,000. On April 12, 2010, we executed a second amendment to our employment agreement with Mr. Hoch. Under the terms of the amended employment agreement, Mr. Hoch agreed to reduce his annual base salary for 2010 to \$24,000 from \$350,000, and to change the annual bonus limit from 100% of current salary to 100% of the highest salary received in any year of the agreement. On January 14, 2011, we executed a third amendment to our employment agreement with Mr. Hoch.

Under the terms of the amended employment agreement, Mr. Hoch agreed to reduce his annual base salary for 2011 to \$24,000 from \$350,000. In 2012, Mr. Hoch elected to receive a base salary of \$175,000 per annum in lieu of the base salary of \$350,000 that would have been due to him for 2012 under the employment agreement effective February 27,

2007. On July 2, 2012, we executed a fourth amendment to our employment agreement with Mr. Hoch. Under the terms of the amended employment agreement, while Mr. Hoch had already agreed to a lower salary for 2012, he agreed to formally reduce his annual base salary for 2012 to \$235,000, from \$350,000. No deferred compensation is owed to Mr. Hoch for 2012. Total base salary earned by Mr. Hoch for 2012 was \$199,692, which represented a salary of \$175,000/year for the first half of 2012, and a salary of \$235,000/year for the second half of 2012. In 2013, Mr. Hoch elected to receive a base salary of \$235,000 per annum in lieu of the base salary of \$350,000 that would have been due to him for 2013 under the employment agreement effective February 27, 2007. No deferred compensation is owed to Mr. Hoch for 2013. Mr. Hoch received no bonus compensation in 2013.

We entered into an employment agreement with Houston Frost, Ph.D. effective December 23, 2014. Under the agreement, Mr. Frost agreed to serve as the Company's Senior Vice President Corporate Development and Prepaid Products through December 31, 2016. We agreed to pay Mr. Frost an annual base salary of \$130,000 and a bonus not to exceed 50% of the highest salary received in any year of the agreement and approved and calculated by our executive compensation committee and/or Chief Executive Officer. In addition, Mr. Frost will receive 4,000,000 shares of our common stock to be vested 1,800,000 shares in equal increments of 50,000 shares a month with the first 50,000 shares to vest January 31, 2015 and the last 50,000 to vest December 31, 2017. The remaining 2,200,000 shares will vest all on January 31, 2025. The stock will be issued on a restricted, non-registered basis. Mr. Frost will also be entitled to receive stock grants and future stock options as authorized by our executive compensation committee and/or our Chief Executive Officer.

We entered into an employment agreement with Habib Yunus, effective March 3, 2015. We agreed to pay Mr. Yunus an annual base salary of \$150,000. Mr. Yunus also receives a one-time signing bonus of \$30,000 as well as 4,000,000 shares of our common stock which will vest on March 2, 2025. In addition, Mr. Yunus will be entitled to receive stock grants or stock options authorized by our executive compensation committee and/or President or Chief Executive Officer. Mr. Yunus also may be entitled to receive a bonus not to exceed 50% of the highest salary received in any year of his employment agreement, calculated by our executive compensation committee and/or President or Chief Executive Officer. We can terminate the employment agreement for cause, such as breach or fraud by the employee, or without cause, subject to payment by us of a deferred compensation. We will also pay a deferred compensation if Mr. Yunus terminates the employment agreement upon our default, after a change of control, such as a merger, acquisition or substantial change in our Board of Directors, or for good cause. The deferred compensation shall be the amount which is calculated as the base salary payments Mr. Yunus would have received had his employment continued for the remaining term of the employment agreement (including yearly increases calculated at the maximum increase for the prior two years), plus all of the benefits remaining under the employment agreement and a pro-rata portion of the bonus compensation for that year.

We do not have an employment agreement with Larry Morrison.

OUTSTANDING EQUITY AWARDS AT FISCAL YEAR-END

The following table shows grants of unexercised stock options and unvested stock by grant date outstanding on December 31, 2014, the last day of our fiscal year, to each of the named executive officers included in the Summary Compensation Table.

Outstanding Equity Awards at Fiscal Year-End Table for the Fiscal Year Ended December 31, 2014

Name	Option awards (1)				Stock awards

- (1) We did not issue any equity incentive plan awards during the years ended December 31, 2014 and 2013.
- (2) Unvested common stock granted on December 29, 2005 vests on December 29, 2015, unvested common stock granted on December 27, 2006 vests on December 27, 2016 and unvested common stock granted on January 9, 2008 vests on January 9, 2018. Unvested common stock granted on February 27, 2007 vests annually over five years in increments of 500,000 shares beginning on February 28, 2009. Mr. Long and Mr. Hoch each chose to defer vesting of the increment of 500,000 shares that was granted to each of them on February 27, 2007 and was scheduled to vest on February 28, 2009, 2010, 2011, 2012, 2013 and 2014. Unvested common stock granted on October 4, 2012 vests on October 4, 2022.
- (3) Calculated using the OTC Bulletin Board, or OTCBB, closing price of \$0.175 per share of our common stock on December 31, 2014.

(4) Mr. Frost was hired on December 23, 2014.

Narrative to Outstanding Equity Awards at Fiscal Year-End Table

Retirement Benefits

We do not have any qualified or non-qualified defined benefit plans. We do have a tax-qualified defined contribution plan pursuant to Section 401(k) of the Internal Revenue Code. All of our eligible full and part-time employees who meet certain age requirements may participate in this 401(k) plan. Participants may contribute between 1% and 15% of their pre-tax compensation. The 401(k) plan allows for us to make discretionary and matching contributions. In 2014, the Company matched 100% of employee contributions up to 3% and 50% of the employee contribution over 3% with a maximum employee contribution of 5%. The Company made matching contributions of \$30,858 and \$0 in 2014 and 2013, respectively.

Non-qualified Deferred Compensation

We do not have any non-qualified defined contribution plans or other deferred compensation plans.

Potential Payments Upon Termination or Change of Control

The employment agreements we entered into with Mr. Long, Mr. Hoch, Mr. Frost and Mr. Yunus, respectively, provide for potential payments upon termination or a change of control. Mr. Long's and Mr. Hoch's employment agreements contain similar terms and provide that upon termination of the executive's employment with us due to death or disability, involuntary termination without cause, termination for good reason or default by us, termination due to non-renewal of the agreement, or a change of control, the executive is entitled to deferred compensation. The amount of deferred compensation shall consist of the amount which is calculated as the greater of the base salary payments that the executive would have received had his employment continued for the remaining term of the agreement (including yearly increases, if any, calculated at the maximum increase for the prior two years), or an amount equal to 2.95 times the higher annual compensation earned by him in the past two years. In addition to this compensation, the executive shall be entitled to all of the benefits otherwise provided in the agreement during that period of time which is the greater of the remaining term of the agreement, or one year, and an amount equal to the pro rata portion of his bonus compensation for the year in which his employment is terminated. In addition, all stock options and restricted stock granted to the executive shall become fully vested upon his termination for any of the aforementioned reasons. Also, in consideration of the executive's obligations for a period of two years after the termination of his employment under a non-competition clause set forth in the employment agreement, he shall be paid an amount equal to 2 times the base salary paid to him in the year prior to the expiration of the agreement.

Mr. Frost's and Mr. Yunus' employment agreements contain similar terms and provide that upon termination of the executive's employment with us due to termination by us without cause, termination by the executive upon our default or after a change of control or for good reasons, the executive is entitled to deferred compensation. The amount of deferred compensation consists of the amount which is calculated as the base salary payments that the executive would have received had his employment continued for the remaining term of this Agreement (including yearly increases calculated at the maximum increase for the prior two years). In addition to this base deferred compensation, the executive shall be entitled to all of the benefits otherwise provided in the agreement during that period of time which is the remaining term of this agreement, and an amount equal to the pro rata portion of the bonus compensation for the year in which his employment is terminated determined on the basis of the number of days elapsed in such year prior to such termination. In addition, all stock options and restricted stock granted to the executive shall become fully vested upon a change of control or termination for any of the aforementioned reasons.

DIRECTOR COMPENSATION

The following table sets forth information concerning the compensation provided to each person who served as a non-employee member of our Board of Directors during the fiscal year ended December 31, 2014. Directors who are also employees are included in the Summary Executive Compensation Table above.

Director Compensation Table for the Fiscal Year Ended December 31, 2014

Name	Fees earned or paid in cash (\$)	Stock awards (\$)	Option awards (\$)	Non-equity incentive plan compensation (\$)	Non-qualified deferred compensation earnings (\$)	All other compensation (\$)	Total (\$)
Peter G. Kirby (1)	0	85,000	0	0	0	0	85,000

(1) Dr. Kirby is our sole non-employee director. He did not receive cash compensation for serving on our Board for the fiscal year ended December 31, 2014. We have previously granted stock awards to Dr. Kirby as compensation for his prior service on our Board. We have calculated that Dr. Kirby earned \$85,000 for the fiscal year ended December 31, 2014, which represents the fair value of his accrued stock awards recognized for financial statement reporting purposes only and is not compensation earned by the director. The fair value of each restricted stock award is amortized to expense on a straight-line basis over the vesting period of the restricted stock award for the fiscal year ended December 31, 2014. At December 31, 2014, Dr. Kirby had outstanding 500,000 shares of common stock with a grant date fair value of \$27,500 granted on January 9, 2008 that vest on January 9, 2018 and 400,000 shares of common stock with a grant date fair value of \$36,000 granted on December 27, 2006 that vest on December 27, 2016. The aggregate grant date fair value of the stock award was calculated in accordance with Financial Accounting Standards Board Accounting Standards Codification Topic 718. See Note 11 of the Notes to our Financial Statements contained elsewhere in this Form 10-K for a discussion of all assumptions made by us in determining the values of our stock awards.

At December 31, 2014, Dr. Kirby had outstanding options to purchase 325,000 shares of our common stock.

Narrative to Director Compensation Table

We do not have a formal agreement with our independent director, Dr. Peter G. Kirby, to compensate him for his service on our Board of Directors. Mr. Long and Mr. Hoch receive no compensation for serving on our Board of Directors due to their status as officers of our Company.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

The following tables set forth, to our knowledge, certain information concerning the beneficial ownership of our common stock as of December 31, 2014 by (i) each stockholder known by us to be the beneficial owner of more than 5% of the outstanding shares of our common stock, (ii) our directors, (iii) each of the named executive officers included in the Summary Compensation Table, and (iv) all of our directors and executive officers as a group.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the table below have sole voting and investment power with respect to all shares of common stock that they beneficially own, subject to applicable community property laws.

In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed outstanding shares of common stock subject to stock options and warrants held by that person that are currently exercisable or exercisable within 60 days after December 31, 2014. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.

Stockholder Known by Us to Own 5% or More of Our Common Stock

Name and address of beneficial owner	Amount and Nature of Beneficial Ownership	Percent of Shares Beneficially Owned (1)
Robert Evans (2) P.O. Box 56, Williamsville, IL 62693	14,020,000 (2)	7.8 %

(1) We had a total of 184,176,582 shares of common stock issued and 179,181,338 shares of common stock outstanding on December 31, 2014.

(2) We relied on the Form 4 filed by Robert Evans with the SEC on June 9, 2011 for this information.

Security ownership of our Directors and Officers

Name and address of beneficial owner (1)	Nature of beneficial ownership	Amount of Beneficial Ownership			Percent of Shares Beneficially Owned (2)
		Shares Owned	Shares – Rights to Acquire (3)	Total	
Michael Long (4)	Chief Executive Officer, Chief Financial Officer,	39,759,169	381,833	40,141,002	22.4 %

	and Chairman of the Board					
Louis Hoch (5)	President, Chief Operating Officer, and Vice Chairman of the Board	39,221,553	586,147	39,807,700	22.1	%
Kenneth Keller (6)	Senior Vice President, Chief Technology Officer	6,132,490	204,402	6,336,912	3.5	%
Larry Morrison (7)	Senior Vice President, Sales and Marketing	5,410,695	26,795	5,437,490	3.0	%
Houston Frost (8)	Senior Vice President	4,000,000	-	-	2.2	%
Peter Kirby (9)	Director	1,700,500	325,000	2,025,500	1.1	%
All directors and executive officers as a group (6 persons)		96,224,407	1,524,177	97,748,584	54.1	%

(1) Unless otherwise stated, the address of each beneficial owners listed on the table is c/o Payment Data Systems, Inc., 12500 San Pedro, Suite 120, San Antonio, Texas 78216.

(2) We had a total of 184,176,582 shares of common stock issued and 179,181,338 shares of common stock outstanding on December 31, 2014.

(3) Represents shares subject to outstanding stock options and warrants currently exercisable or exercisable, or currently vested or that will vest, within 60 days of December 31, 2014.

(4) Includes 381,833 shares that Mr. Long has the right to acquire upon the exercise of stock options.

(5) Includes 586,147 shares that Mr. Hoch has the right to acquire upon the exercise of stock options.

(6) Includes 204,402 shares that Mr. Keller has the right to acquire upon the exercise of stock options.

(7) Includes 26,795 shares that Mr. Morrison has the right to acquire upon the exercise of stock options.

(8) We granted to Mr. Frost 4,000,000 unregistered shares on December 23, 2014. 1,800,000 of the shares vest in increments of 50,000 shares per month from January 31, 2015 to December 31, 2017. The remaining 2,200,000 shares vest on January 31, 2025.

(9) Includes 325,000 shares that Dr. Kirby has the right to acquire upon the exercise of stock options.

As of December 31, 2014, there are no arrangements among our beneficial owners known to management which may result in a change in control of our Company.

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

TRANSACTIONS WITH RELATED PERSONS

Michael R. Long and Louis A. Hoch

As previously disclosed, in 2002, we recognized a loss on margin loans we guaranteed for Michael R. Long, then Chairman of the Board of Directors and Chief Executive Officer, and our current Chief Executive Officer and, at the time of the transaction, our Chief Financial Officer; and Louis A. Hoch, our President and Chief Operating Officer, in the amounts of \$535,302 and \$449,371, respectively. In February 2007, we signed employment agreements with Mr. Long and Mr. Hoch that required each to repay his respective obligation to us in four equal annual payments of cash or stock or any combination thereof. In December 2007, we accepted common stock and stock options valued at \$133,826 and \$112,343 from Mr. Long and Mr. Hoch, respectively, in satisfaction of their annual payments for 2007 as provided for under their respective employment agreements.

In December 2008, Mr. Long and Mr. Hoch did not pay to us the second annual installment pursuant to their respective employment agreements. They each withheld payment of the installment due because we had deferred payment of their salary increases for 2008 called for under their respective employment agreements. At December 31, 2008, we owed Mr. Long and Mr. Hoch deferred salaries of \$110,000 and \$100,000, respectively, and Mr. Long and Mr. Hoch owed to us \$133,825 and \$112,343, respectively, for the second installment of their loan repayments. The total amount owed to us for the second installment was \$246,168 and is classified as "Related Party Receivable" on our balance sheet at December 31, 2008. On March 30, 2009, we accepted 680,715 shares of our common stock valued at \$23,825 and 352,658 shares of our common stock valued at \$12,343 from Mr. Long and Mr. Hoch, respectively, in partial satisfaction of their annual payments due to us for 2008 as provided for under their employment agreements. The partial payments of \$23,825 and \$12,343 made to us by Mr. Long and Mr. Hoch, respectively, equaled the difference between the amount each owed to us for the second installment of their loan repayments and the amount we owed to each executive as deferred salary. The common stock accepted from Mr. Long and Mr. Hoch was valued at \$0.035 per share, which was the closing price of the common stock on March 30, 2009. The common stock accepted from Mr. Long and Mr. Hoch was recorded as treasury stock with a total cost of \$36,168.

On November 12, 2009, we executed amendments to its employment agreements with Mr. Long and Mr. Hoch. Under the terms of their respective amended employment agreements, Mr. Long and Mr. Hoch agreed to reduce their annual base salaries for 2009 to \$190,000 and \$175,000, respectively, from \$375,000 and \$350,000, respectively.

In December 2009, Mr. Long and Mr. Hoch did not pay to us the third annual installment pursuant to their respective employment agreements. They each withheld payment of the installment due because we had partially deferred payment of their salary for 2009 called for under their respective employment agreements. At December 31, 2009, we owed Mr. Long and Mr. Hoch deferred salaries for 2009 of \$162,385 and \$141,808, respectively, and Mr. Long and Mr. Hoch owed to us \$133,825 and \$112,343, respectively, for the third installment of their loan repayments. The total amount owed to us for the unpaid installments was \$456,168 and was classified as "Related Party Receivable" on our balance sheet at December 31, 2009.

On April 12, 2010, we executed a second amendment to its employment agreements with Mr. Long and Mr. Hoch. Under the terms of the second amendment to their respective amended employment agreements, Mr. Long and Mr. Hoch agreed to reduce their annual base salaries for 2010 to \$24,000 each from \$375,000 and \$350,000, respectively, and to change their annual bonus limit from 100% of current salary to 100% of the highest salary received in any year of the agreement.

In December 2010, Mr. Long and Mr. Hoch did not pay to us the fourth and final annual installment pursuant to their respective employment agreements. They each withheld payment of the installment due because we continued to be unable to pay the deferred salaries that were called for under their respective employment agreements. At December 31, 2010, we owed Mr. Long and Mr. Hoch deferred salaries of \$147,368 and \$126,915, respectively, in regards to their 2009 deferred salary balances. As of December 31, 2010, Mr. Long and Mr. Hoch owed to us \$133,825 and \$112,343, respectively, for the fourth and final installment of their loan repayments. The total amount owed to us for the unpaid installments was classified as "Related Party Receivable" on our balance sheet and was \$702,337 and \$703,060 is at December 31, 2011 and 2010, respectively.

On January 14, 2011, we executed a third amendment to its employment agreements with Mr. Long and Mr. Hoch. Under the terms of the third amendment to their respective employment agreements, Mr. Long and Mr. Hoch agreed to reduce their annual base salaries for 2011 to \$24,000 and \$24,000, respectively, from \$375,000 and \$350,000, respectively.

At December 31, 2011, we owed Mr. Long and Mr. Hoch a total of \$23,473 and \$3,300, respectively, in regards to their 2010 deferred salary balances, which were included in accrued expenses on our balance sheet. We paid the obligations in the first quarter of 2012 and thus, our balance sheet at December 31, 2012 did not reflect any such amounts owed at December 31, 2012.

On July 2, 2012, we executed a fourth amendment to its employment agreements with Mr. Long and Mr. Hoch. Under the terms of the fourth amendment to their respective employment agreements, Mr. Long and Mr. Hoch agreed to amend their annual base salaries for 2012 to \$255,000 and \$235,000, respectively, from \$375,000 and \$350,000, respectively.

As of December 31, 2012, Mr. Long owed to us \$377,651 and Mr. Hoch owed to us \$324,686. The total amount for the unpaid installments of \$702,337 is classified as "Related Party Receivable" on our balance sheet at December 31, 2012.

On March 11, 2013, in accordance with our employment agreements with Mr. Long and Mr. Hoch, we accepted shares of our common stock owned by Mr. Long and Mr. Hoch as satisfaction in full for the remaining amounts owed to us as annual payments due to the loss on margin loans guaranteed by us for Mr. Long and Mr. Hoch.

On March 11, 2013, we also agreed to purchase additional shares of our common stock owned by Mr. Long and Mr. Hoch, valued at \$156,852 and \$144,403, respectively. Such bonuses were intended to compensate the executives for their service. As a result, we incurred a one-time reduction in cash of \$301,255.

Accordingly, on March 11, 2013, we accepted an aggregate of 2,969,459 shares of our common stock valued at \$534,503, and an aggregate of 2,606,051 shares of our common stock valued at \$469,089 from Mr. Long and Mr. Hoch, respectively, as satisfaction in full of their aggregated outstanding amounts of \$702,337 owed to us and aggregated compensation of \$301,255 paid to Mr. Long and Mr. Hoch in lieu of cash bonuses. The common stock accepted from Mr. Long and Mr. Hoch was valued at \$0.18 per share, which was the closing price of the common stock on March 1, 2013. The common stock accepted from Mr. Long and Mr. Hoch was recorded as treasury stock and we no longer carry a "Related Party Receivable" on our balance sheet.

Accordingly, following the completion of these transactions, we have no remaining receivables or payables related to Mr. Long, Mr. Hoch or any other officer of our Company.

By virtue of Mr. Long and Mr. Hoch's officer positions with us, they are each considered a related party of our Company under federal securities law. Our Board of Directors has acknowledged that our entry into these agreements with Mr. Long and Mr. Hoch is a related party transaction and has approved such transactions.

Herb Authier

During the years ended December 31, 2014 and 2013, we paid Herb Authier a total of \$35,400 and \$35,400 in cash, respectively, for services related to network engineering and administration that he provided to us. Mr. Authier is the father-in-law of Louis Hoch, our President and Chief Operating Officer.

Nikole Hoch

During the years ended December 31, 2014, we purchased \$6,227 of corporate imprinted sportswear and caps from Angry Pug Sportswear. Nikole Hoch, the spouse of our President and Chief Operating Officer Louis Hoch, is the owner of Angry Pug Sportswear.

DIRECTOR INDEPENDENCE

During the fiscal year ended December 31, 2014, Messrs. Michael R. Long, Louis A. Hoch, and Peter G. Kirby served on our Board of Directors. The Board has determined Dr. Kirby was our sole independent board member as determined as defined by Rule 5605(a)(2) of the NASDAQ Listing Rules.

ITEM 14. PRINCIPAL ACCOUNTING FEES AND SERVICES.

Fees Paid to the Independent Accountants

The aggregate fees billed to us for professional accounting services, including the audit of our annual consolidated financial statements by our independent registered public accounting firm for the fiscal years ended December 31, 2014 and 2013, are set forth in the table below.

	2014	2013
Audit fees	\$55,000	\$55,000
Tax fees	3,500	6,070
Total fees	\$58,500	\$61,070

For purposes of the preceding table, the professional fees are classified as follows:

Audit Fees. This column includes fees for professional services billed for the audit of the consolidated financial statements included in our annual report on Form 10-K filing, the review of consolidated financial statements included in our quarterly reports on Form 10-Q filings, comfort letters, consents and assistance with and review of documents filed with the SEC. The fees include amounts billed to us during each respective calendar year.

Tax Fees. This column includes fees for professional services rendered by our independent registered public accounting firm for tax compliance, tax planning and tax advice. Tax compliance involves preparation of original and amended tax returns. Tax planning and tax advice encompass a diverse range of subjects, including assistance with tax audits and appeals, tax advice related to dispositions, and requests for rulings or technical advice from taxing authorities. The fees include amounts billed to us during each respective calendar year.

Audit Committee's Pre-Approval Policies and Procedures

We may not engage our independent registered public accounting firm to render any audit or non-audit service unless our Audit Committee approves the service in advance. 100% of the services performed by our independent registered public accounting firm described above were approved in advance by our Audit Committee.

PART IV

ITEM 15. EXHIBITS, FINANCIAL STATEMENT SCHEDULES.

(a)(1) Consolidated Financial Statements.

The following documents are filed in Part II, Item 8 of this annual report on Form 10-K:

Report of Independent Registered Public Accounting Firm
