Item 2.02 Results of Operations and Financial Condition.

On May 2, 2013, we issued an earnings release announcing our first quarter financial results, a copy of which is furnished as Exhibit 99.1 to this current report on Form 8-K. Additionally, Exhibit 99.2, a copy of which is furnished, includes statistical information relative to our quarterly performance. Management will review the company's performance during a webcast and conference call to be held today, May 2, at 11:00 a.m. Eastern. To link to the webcast, go to our website at www.BoiseInc.com and click on About Boise Inc. to reach the link to the webcast under Webcasts & Presentations on the Investors menu. To join the conference call, dial 866-841-1001. International callers should dial 832-445-1689.

We have reconciled the non-GAAP financial measures to our reported financial performance in the financial notes that accompany our earnings release.

Item 2.05 Costs Associated with Exit or Disposal Activities.

On May 2, 2013, we announced our decision to close two paper machines and an off-machine coater at our paper mill in International Falls, Minnesota. These closures, which we expect to occur no later than fourth quarter 2013, will reduce our annual uncoated freesheet capacity by approximately 115,000 tons, or 9%. This decision will result in the loss of approximately 300 jobs. During the three months ended March 31, 2013, we recognized \$3.8 million of incremental depreciation expense related to shortening the useful lives of these assets. We expect to record an additional \$10 million of incremental depreciation expense through the remainder of the year and \$20 to \$25 million of other closure-related costs, primarily one-time termination benefits, in second quarter. After considering working capital recapture and tax benefits, we estimate the closure will have a modestly positive net cash effect.

For additional information on this announcement and the associated costs, please refer to our report on Form 10-Q for the quarter ended March 31, 2013.

Item 8.01 Other Events.

On May 2, 2013, we announced our decision to invest between \$110 and \$120 million in the conversion of our idled newsprint machine at our DeRidder, Louisiana, paper mill to produce lightweight linerboard and corrugating medium. We will also install an OCC (old corrugated container) pulping facility at the mill as part of the project. The investment will add approximately 270,000 tons of lightweight containerboard capacity to our system and allow us to optimize the product mix on our current linerboard machine, increasing the mill's overall containerboard output by approximately 300,000 tons. We are targeting a mid-2014 start-up for the completed project, which we expect will create about 50 jobs.

For additional information on this announcement, please refer to Exhibit 99.1 to this current report on Form 8-K.
