Registration Rights Agreement

Effective on February 27, 2019, in connection with the closing of an investor stock purchase agreement, the Company entered into a Registration Rights Agreement (the "Registration Rights Agreement") with the certain investors.

Pursuant to, and subject to the limitations set forth in, the Registration Rights Agreement, the relevant stockholders have piggyback registration rights, such that, each time the Company decides to file a registration statement under the Securities Act (other than on Forms S-4 or S-8) covering the offer and sale by it or any of its security holders of any of its securities for money, the Company shall give written notice thereof to all holders of the Company's registerable securities. The Company shall include in such registration statement such shares of registerable stock for which it has received written requests to register such shares within 30 days after such written notice has been given.

These registration rights are subject to certain conditions and limitations, including underwriter's cutback wherein an underwriter may limit the number of shares to be included in a registration or offering and the Company's right to

delay or withdraw a registration statement under certain circumstances. These registration rights are also subject to hold-backs such that stockholders may not sell, make any short sale of loan, grant any option for the acquisition of; or otherwise dispose of any Registerable Securities (other than those included in such registration) without the prior written consent of such managing underwriter for a period (not to exceed 30 days before the effective date and 90 days thereafter).

In addition, while the stockholders do not have formal demand registration rights, the Company has agreed to use commercially reasonable efforts to file a registration statement as soon as reasonably practicable covering shares of common stock into which outstanding Series A Preferred Stock may be converted.

Subject to certain limitations, the Company will generally pay all registration expenses in connection with its obligations under the Registration Rights Agreement. The obligation to register shares under the Registration Rights Agreement will terminate as to any Stockholder and expire on December 31, 2019.

The foregoing description of the Registration Rights Agreement does not purport to be complete and is qualified in its entirety by reference to the full text of the Registration Rights Agreement, which is attached as Exhibit 4.3 to this Current Report on Form 8-K and incorporated in this Item 1.01 by reference.
