NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Medidata Solutions, Inc., together with its consolidated subsidiaries (collectively, the "Company"), is the leading global provider of cloud-based solutions for clinical research in life sciences, offering platform technology that transforms clinical development and increases the value of its customers' research investments. The Company was organized as a New York corporation in June 1999 and reincorporated as a Delaware corporation in May 2000. Except to the extent updated or described below, the Company's significant accounting policies as of June 30, 2018 are the same as those at December 31, 2017, which are included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the Securities and Exchange Commission ("SEC") on February 28, 2018.

Basis of Presentation — The accompanying interim condensed consolidated balance sheets as of June 30, 2018 and December 31, 2017, the condensed consolidated statements of operations for the three and six months ended June 30, 2018 and 2017, the condensed consolidated statements of comprehensive income for the three and six months ended June 30, 2018 and 2017, and the condensed consolidated statements of cash flows for the six months ended June 30, 2018 and 2017 are unaudited and have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and applicable rules and regulations of the SEC for interim financial reporting. Accordingly, certain information and footnote disclosures have been condensed or omitted pursuant to SEC rules that would ordinarily be required by U.S. GAAP for complete financial statements. These unaudited interim condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and accompanying notes thereto for the fiscal year ended December 31, 2017 included in the Company's Annual Report on Form 10-K filed with the SEC on February 28, 2018.

The unaudited interim condensed consolidated financial statements have been prepared on the same basis as the audited consolidated financial statements and, in the opinion of management, reflect all adjustments consisting of normal recurring accruals considered necessary to present fairly the Company's financial position as of June 30, 2018, results of its operations for the three and six months ended June 30, 2018 and 2017, comprehensive income for the three and six months ended June 30, 2018 and 2017, and cash flows for the six months ended June 30, 2018 and 2017. The results of operations for the three and six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018.

Accounts Receivable — Accounts receivable are recorded at original invoice amount less an allowance that management believes will be adequate to absorb estimated losses on uncollectible accounts. This allowance is based on an evaluation of the collectability of accounts receivable and prior bad debt experience. Accounts receivable are written off when deemed uncollectible. Unbilled receivables consist of revenue recognized in excess of billings, substantially all of which is expected to be billed and collected within one year. As of June 30, 2018 and December 31, 2017, unbilled accounts receivable of \$11.8 million and \$12.5 million, respectively, were included in accounts receivable on the Company's condensed consolidated balance sheets. In general, there is a direct relationship between the Company's accounts receivable balance and its transaction volume.

Revenue Recognition — Revenues are recognized when control of the promised goods or services are transferred to a customer, in an amount that reflects the consideration that the Company expects to receive in exchange for those goods or services. The Company derives its revenues from two sources: (1) subscription revenues, which are comprised of subscription fees from customers utilizing the Company's cloud-based solutions; and (2) professional services, such as training, implementation, consulting, interface creation, trial configuration, data testing, reporting, procedure documentation, and other customer-specific services. The Company applies the following five steps in order to determine the appropriate amount of revenue to be recognized as it fulfills its obligations under each of its agreements:

- identify the contract with a customer;
- identify the performance obligations in the contract;

- determine the transaction price;
- allocate the transaction price to performance obligations in the contract; and
- recognize revenue as the performance obligation is satisfied.

For further information, see Note 2, “Revenues,” to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Subscription

The Company derives its subscription revenues from multi-study and single-study arrangements that grant the customer the right to utilize its cloud-based solutions for a specified term. Multi-study arrangements grant the customer the right to manage a predetermined number of clinical trials simultaneously for a term typically ranging from one to five years. Single-study arrangements allow customers to use the Company’s solutions on a per-trial basis. Subscription services are transferred to customers over time. The Company uses the passage of time as its measurement method, as control of the services is simultaneously transferred to and used by the customer throughout the contractual term. As a

- 8 -

Table of Contents

MEDIDATA SOLUTIONS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

result, revenue for subscription services is recognized ratably over the term of the agreement, which is generally aligned with the dates during which the customer has access to the Company's cloud-based applications.

Fees for subscription services are generally invoiced in advance installments and typically have payment terms of net 30 or net 45 days.

Professional Services

The Company also makes available a range of professional services, including implementation, enablement, training, and strategic consulting. Professional services do not result in significant alterations to the underlying solutions.

Professional services engagements involving implementation and training tend to be shorter term in nature (expected durations of less than one year), while enablement and consulting type engagements are longer in term (expected durations of one to five years).

Professional services are transferred to customers over time. For fixed price arrangements, the Company measures its progress in transferring services to a customer using a proportional performance method. The proportional performance method is reflective of the variable rates at which services are transferred to the customer, and results in recognition of revenue that is consistent with the services provided to date. For time and materials contracts, the Company recognizes revenue as services are rendered.

Fees for professional services are generally invoiced either in milestone installments based on work performed or, for time and materials based arrangements, as services are rendered, and typically have payment terms of net 30 or net 45 days.

Performance Obligations

The Company enters into contracts that contain multiple distinct performance obligations, combining a cloud-based technology subscription with various professional services.

The Company has determined that its subscriptions and professional services are distinct performance obligations because both can be and are sold by the Company on a standalone basis, and because other vendors sell similar technologies and services on a standalone basis.

For each performance obligation identified, the Company estimates the standalone selling price, which represents the price at which the Company would sell the good or service separately. If the standalone selling price is not observable through past transactions, the Company estimates the standalone selling price, taking into account available information such as market conditions, review of historical pricing data, and internal pricing guidelines related to the performance obligations. The Company then allocates the transaction price among those obligations based on the estimation of standalone selling price. Transaction prices for the Company's contracts may include both fixed and variable consideration, but do not contain significant financing components or noncash consideration.

Cost to Obtain and Fulfill a Contract

The Company capitalizes commission expenses paid to internal sales personnel that are incremental to obtaining customer contracts. Costs related to nonrenewable contracts are deferred and amortized on a straight-line basis over the duration of the contractual term. Costs related to renewable contracts are deferred and amortized on a straight-line basis over a period equal to twice the contractual term, which the Company deems to be the expected period of benefit for these costs. In developing this estimate, the Company considered its historical renewal rates and customer retention rates, as well as technology development life cycles and other industry factors. The Company defers these costs in prepaid commission expense and other current assets, net of any long term portion included in other noncurrent assets in the Company's condensed consolidated balance sheets. These costs are periodically reviewed for impairment.

Income Taxes — The Company's interim period provision for income taxes is computed by using an estimate of the annual effective tax rate, adjusted for discrete items taken into account in the relevant period, if any. Each quarter, the annual effective income tax rate is recomputed and if there are material changes in the estimate, a cumulative adjustment is made.

Recently Adopted Accounting Pronouncements — In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2014-09, Revenue from Contracts with Customers, which supersedes the existing accounting standards for revenue recognition in Accounting Standards Codification ("ASC") 605, and provides principles for recognizing revenue for the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods and services. ASU No. 2014-09 also creates a new subtopic under ASC 340, Other Assets and Deferred Costs, which discusses the deferral of incremental costs of obtaining a contract with a customer, including the period of amortization of such costs. The Company adopted ASU No. 2014-09 on January 1, 2018, using the full retrospective method. Refer to Note 2, "Revenues," for related disclosures.

The adoption has no cash flow impact.

In January 2016, the FASB issued ASU No. 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities, which amends certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. ASU No. 2016-01 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within those annual periods. The Company adopted ASU No. 2016-01 on January 1, 2018, and the adoption did not have a material impact on its condensed consolidated financial statements.

In August 2016, the FASB issued ASU No. 2016-15, Cash Flows - Classification of Certain Cash Receipts and Cash Payments, which addresses the diversity in practice around presentation of certain cash receipts and payments in the statement of cash flows. ASU No. 2016-15 is effective for annual periods beginning after December 15, 2017, and interim periods within those annual periods. The Company adopted ASU No. 2016-15 on January 1, 2018, and the adoption did not have a material impact on its condensed consolidated financial statements.

In January 2017, the FASB issued ASU No. 2017-01, Clarifying the Definition of a Business, which provides a more specific definition of a business than was afforded under previous guidance. The definition of a business affects many areas of accounting, including acquisitions, disposals, goodwill, and consolidation. ASU No. 2017-01 is effective for annual periods beginning after December 15, 2017, including interim periods within those annual periods. The Company adopted ASU No. 2017-01 on January 1, 2018, and the adoption had no impact on its condensed consolidated financial statements.

In May 2017, the FASB issued ASU No. 2017-09, Scope of Modification Accounting, which clarifies when a change in the terms or conditions of a share-based payment award should be accounted for as a modification. ASU No. 2017-09 is effective for annual periods beginning after December 15, 2017, including interim periods within those

annual periods. The Company adopted ASU No. 2017-09 on January 1, 2018, and the adoption did not have a material impact on its condensed consolidated financial statements.

In June 2018, the FASB issued ASU No. 2018-07, Improvements to Nonemployee Share-Based Payment Accounting, which simplifies several aspects of the accounting for nonemployee share-based payment transactions by expanding the scope of the stock-based compensation guidance in ASC 718 to include share-based payment transactions for acquiring goods and services from non-employees. ASU No. 2018-07 is effective for annual periods beginning after December 15, 2018, including interim periods within those annual periods. Early adoption is permitted, but entities may not adopt prior to adopting the new revenue recognition guidance in ASC 606. The Company early adopted ASU No. 2018-07 in the second quarter of 2018, and the adoption did not have a material impact on its consolidated financial statements.

Recently Issued Accounting Pronouncements — There have been no changes in the expected dates of adoption or estimated effects on the Company's consolidated financial statements of recently issued accounting pronouncements from those disclosed in the Company's Annual Report on Form 10-K, except as described below.

In February 2016, the FASB issued ASU No. 2016-02, Leases, which replaces previous lease guidance in its entirety with ASC 842 and requires lessees to recognize lease assets and lease liabilities for those arrangements classified as operating leases under previous guidance, with the exception of leases with a term of twelve months or less. The new guidance also adds quantitative and qualitative disclosure requirements around leasing activities. ASU No. 2016-02 is effective for annual periods beginning after December 15, 2018, including interim periods within those annual periods. The Company will adopt ASU No. 2016-02 on January 1, 2019. The Company expects that this standard will have a material effect on its financial condition, with the most significant change relating to the recognition of new right-of-use assets and lease liabilities on its consolidated balance sheets for its facility operating leases. The Company estimates that the hypothetical balance sheet impact of recognizing these assets and liabilities would be approximately 5% of total assets and 10% of total liabilities as of June 30, 2018, based on the present value of the remaining minimum rental payments under current leasing standards for existing operating leases. The final quantitative impact of the adoption of the new lease guidance is subject to change from these estimates, pending the completion of the Company's implementation in the first quarter of 2019.

In February 2018, the FASB issued ASU No. 2018-02, Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income, which permits companies to reclassify disproportionate tax effects in accumulated other comprehensive income caused by the U.S. Tax Cuts and Jobs Act enacted in December 2017 to retained earnings. ASU No. 2018-02 is effective for annual reporting periods beginning after December 15, 2018, and interim periods within those annual periods. The Company will adopt ASU No. 2018-02 on January 1, 2019, and does not expect the adoption to have a material impact on its condensed consolidated financial statements.

The above tables present revenues according to the region in which they were generated, separately displaying those individual countries that, in any of the periods presented, constituted 5% or more of total revenues. All of the Company's performance obligations are transferred to customers over time; as a result, no disaggregation of revenues by timing of revenue recognition is provided.

Contract Balances

The following table provides information about changes in the Company's deferred revenue balances during the six months ended June 30, 2018 and 2017 (in thousands):

	Deferred Revenue	
	2018	2017
Balance as of January 1	\$ 82,631	\$ 75,850

Increases due to invoicing	297,161	277,087
Other	813	(2,705)
Balance as of June 30	\$ 76,068	\$ 87,272

Aside from the accounts receivable presented on its condensed consolidated balance sheets, the Company did not have any material contract assets for any of the periods presented.

Transaction Price Allocated to the Remaining Performance Obligations

As of June 30, 2018, the Company has unsatisfied performance obligations associated with subscription services that extend through 2030. The total multi-year transaction price allocated to unsatisfied subscription performance obligations, which the Company also refers to as total multi-year subscription backlog, is approximately \$1 billion, representing the future contract value of outstanding multi-study and single study arrangements, billed and unbilled as of June 30, 2018. Of this amount, approximately \$257 million, \$371 million, and \$389 million are expected to be recognized in 2018, 2019, and thereafter, respectively.

As of June 30, 2018, the total transaction price allocated to unsatisfied professional services performance obligations is immaterial.

Costs to Obtain and Fulfill a Contract with a Customer

Sales commissions earned are considered incremental and recoverable costs of obtaining a contract with a customer and therefore are capitalized as contract costs. Capitalized contract costs were \$44.4 million and \$36.9 million as of

June 30, 2018 and December 31, 2017, respectively. Amortization of capitalized contract costs was \$4.6 million and \$5.7 million for the three months ended June 30, 2018 and 2017, respectively, and \$9.5 million and \$12.1 million for the six months ended June 30, 2018 and 2017, respectively. There have been no impairment losses related to capitalized contract costs.

3. STOCKHOLDERS' EQUITY

Common Stock — Common stockholders are entitled to one vote for each share of common stock held. Common stockholders may receive dividends if and when the board of directors determines, at its sole discretion.

Treasury Stock — From time to time, the Company grants nonvested restricted stock awards ("RSAs"), restricted stock units ("RSUs"), and performance-based restricted stock units ("PBRsUs") to its employees pursuant to the terms of its Amended and Restated 2017 Long-Term Incentive Plan ("2017 Plan") and formerly pursuant to the terms of its Second Amended and Restated 2009 Long-Term Incentive Plan ("2009 Plan"). Under the provisions of the 2017 Plan and 2009 Plan, unless otherwise elected, participants fulfill their related income tax obligation by having shares withheld at the time of vesting. On the date of vesting, the Company divides the participant's income tax withholding obligation in dollars by the closing price of its common stock and withholds the resulting number of vested shares. The shares withheld are then transferred to the Company's treasury stock at cost.

During the six months ended June 30, 2018 and 2017, the Company withheld 271,585 shares at an average price of \$67.23 and 260,737 shares at an average price of \$56.71, respectively, in connection with the vesting of equity awards.

Nonvested restricted stock awards forfeited by plan participants are transferred to the Company's treasury stock at par. During the six months ended June 30, 2018 and 2017, 189,668 and 154,106 forfeited shares, respectively, were transferred to treasury stock at their par value of \$0.01.

4. INVESTMENTS

Marketable Securities

Marketable securities, which the Company classifies as available-for-sale securities, primarily consist of high quality commercial paper, corporate bonds, and U.S. government debt obligations. Marketable securities with remaining effective maturities of twelve months or less from the balance sheet date are classified as short-term; otherwise, they are classified as long-term on the condensed consolidated balance sheets.

The following tables provide the Company's marketable securities by security type as of June 30, 2018 and December 31, 2017 (in thousands):

	As of June 30, 2018			
	Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value

MEDIDATA SOLUTIONS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The Company regularly reviews its investment portfolio to identify and evaluate investments that have indications of possible impairment. Investments that are impaired are those that are considered to have losses that are other-than-temporary. Factors considered in determining whether a loss is temporary include:

- the length of time and extent to which fair value has been lower than the cost basis;
- the financial condition, credit quality and near-term prospects of the investee; and
- whether it is more likely than not that the Company will be required to sell the security prior to recovery.

As the Company has the ability and intent to hold these investments until a recovery of fair value, which may be maturity, the Company has determined that the gross unrealized losses on such investments at June 30, 2018 are temporary in nature. Accordingly, the Company did not consider its investments in marketable securities to be other-than-temporarily impaired as of June 30, 2018.

The following tables provide the fair market value and gross unrealized losses of the Company's marketable securities with unrealized losses, aggregated by security type, as of June 30, 2018 and December 31, 2017 (in thousands):

	In Loss Position for Less than 12 Months			
	As of June 30, 2018		As of December 31, 2017

Total	\$92,121	\$ (327)	\$112,353	\$ (266)

During the three and six months ended June 30, 2018 and 2017, the Company recorded an insignificant amount of net realized gains from the sale of marketable securities.

Other Investments

The Company holds shares of Series D Preferred Stock of Syapse Inc. ("Syapse") purchased in a private placement. This investment does not have a readily determinable fair value and is carried at original cost in other assets on the Company's condensed consolidated balance sheets. This investment had a carrying value of \$3.0 million as of June 30, 2018 and December 31, 2017. The Company periodically evaluates this investment to determine if impairment charges are required; no impairment charges were recognized during the three and six months ended June 30, 2018. As of December 31, 2017, the Company held shares of Series Seed Preferred Stock and Series B Preferred Stock of SHYFT Analytics, Inc. ("SHYFT"), purchased in private placements. These investments did not have a readily determinable fair value and were carried at original cost of \$5.1 million in other assets on the Company's condensed consolidated balance sheets. In June 2018, the Company acquired SHYFT and realized a gain on step acquisition of \$7.6 million based upon the implied fair value of its previous holdings relative to the enterprise value for the transaction. This gain is included in other income, net on the Company's condensed consolidated statements of operations for the three and six months ended June 30, 2018. Refer to Note 6, "Acquisitions," for further discussion of the Company's acquisition of SHYFT.

5. FAIR VALUE

The following table summarizes, as of June 30, 2018 and December 31, 2017, the Company's financial assets and liabilities that are measured at fair value on a recurring basis, according to the fair value hierarchy described in the significant accounting policies included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 (in thousands):

	As of June 30, 2018				As of December 31, 2017

Total financial liabilities measured at fair value on a recurring basis	\$—	\$—	\$1,932	\$1,932	\$—	\$—	\$6,005	\$6,005

Investments in commercial paper, corporate bonds, and U.S. government agency debt securities have been classified as Level 2 as they are valued using quoted prices in less active markets or other directly or indirectly observable inputs. Fair values of corporate bonds and U.S. government agency debt securities were derived from a consensus or weighted-average price based on input of market prices from multiple sources at each reporting period. With regard to commercial paper, all of the securities had high credit ratings and one year or less to maturity; therefore, fair value was derived from accretion of purchase price to face value over the term of maturity or quoted market prices for similar instruments if available. During the six months ended June 30, 2018 and 2017, there were no transfers of financial assets between Level 1 and Level 2.

Contingent consideration liabilities associated with earn-out payments related to the Company's February 2017 acquisition of CHITA Inc. ("CHITA") are classified as Level 3 in the fair value hierarchy because they rely significantly on inputs that are unobservable in the market. The fair value of portions of contingent consideration related to the achievement of a technical milestone have been estimated using situation-based modeling, which considers the probability-weighted present value of the expected payout amount. The fair value of portions of contingent consideration related to achievement of revenue targets have been estimated using a Monte Carlo simulation to simulate future performance of the acquired business under a risk-neutral framework; significant inputs to the simulation include a risk-adjusted discount rate of 10.2% and revenue volatility of 8.0%. Short-term and long-term portions of contingent consideration are recorded in accrued expenses and other and other long-term liabilities, respectively, on the Company's condensed consolidated balance sheets.

The following table provides a summary of changes in fair value of the Company's Level 3 financial liabilities during the six months ended June 30, 2018 (in thousands):

Balance as of January 1, 2018	\$6,005
Amounts earned by sellers	(4,080)
Fair value adjustment (included in general and administrative expenses)	7
Balance as of June 30, 2018	\$1,932

The carrying amounts of all other current financial assets and current financial liabilities reflected in the condensed consolidated balance sheets approximate fair value due to their short-term nature.

6. ACQUISITIONS

Three and Six Months Ended June 30, 2018

On June 20, 2018, the Company acquired all outstanding equity interests in SHYFT, a Waltham, Massachusetts provider of cloud data analytics for life sciences. With this acquisition, the Company expands its offerings to include commercial and real-world data analytics solutions that are designed specifically for the pharmaceutical and biotech industries.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

The total purchase price of \$196.5 million was composed of cash consideration of \$183.8 million and the Company's previous investment in SHYFT, which had a fair value of \$12.7 million as of the acquisition date. (Refer to [Note 4](#), "Investments — Other Investments" for further information on the initial investment and gain recognized on step acquisition.)

In connection with this acquisition, the Company acquired \$4.7 million in cash and cash equivalents, assumed \$1.9 million in net tangible liabilities, and recognized a deferred tax asset of \$1.9 million; given the transaction's proximity to the end of the current reporting period, valuation of identified intangible assets is still in progress and allocation of the remaining \$191.8 million of purchase price between intangible assets and goodwill is incomplete. The Company anticipates that this transaction will generate significant goodwill due to the skilled workforce of approximately 150 employees acquired and considerable synergies expected. As of June 30, 2018, the Company has recorded a provisional estimate based on observation of industry trends, consisting of \$40.0 million of intangible assets and \$151.8 million of goodwill. The Company expects to finalize valuation and useful life determination for the acquired customer relationships, developed technology, non-competition agreements, and trade name during the third quarter of 2018. The purchase price and the allocation thereof are subject to change within the relevant one-year measurement period as a result of customary working capital adjustments.

The Company's consolidated results of operations for the three and six months ended June 30, 2018 include the revenues and expenses of SHYFT since the date of acquisition. The Company does not consider this acquisition to be significant to its results of operations; as such, pro forma revenue and earnings information is not provided.

Three and Six Months Ended June 30, 2017

The Company acquired all outstanding equity interests in CHITA and Mytrus, Incorporated ("Mytrus") on February 17, 2017 and April 18, 2017, respectively, adding regulated document and standard operating procedure ("SOP") management, electronic trial master file ("eTMF"), and eConsent capabilities to its platform. Aggregate purchase consideration of \$28.9 million consisted of upfront consideration of \$23.2 million and contingent consideration (associated with CHITA) initially valued at \$5.7 million.

7. GOODWILL AND INTANGIBLE ASSETS

The change in the carrying amount of goodwill during the six months ended June 30, 2018 was as follows (in thousands):

8. DEBT

1.00% Convertible Senior Notes

The Company's 1.00% convertible senior notes (the "Notes"), issued in August 2013, consisted of the following components as of June 30, 2018 and December 31, 2017 (in thousands):

	June 30, 2018	December 31, 2017
Equity component, net of equity issue costs	\$60,222	\$ 60,222
Liability component:		
Principal	287,500	287,500

Less: unamortized debt issuance costs	(106)	(745)
Net carrying amount	\$285,748	\$ 278,094

As of June 30, 2018 and December 31, 2017, the estimated fair value of the Notes was \$395.7 million and \$336.4 million, respectively. The Company considers this disclosure to be a Level 2 measurement because it is based upon a recent modeled bid-price quote for the Notes, reflecting activity in a less active market.

The Notes mature on August 1, 2018 unless earlier repurchased or converted. Until close of business on the business day immediately preceding the maturity date, holders may convert their Notes at any time; as such, the Notes are convertible as of June 30, 2018. Based on the closing price of the Company's common stock as of June 30, 2018 of \$80.56, the if-converted value of the Notes exceeded their face value by \$111.5 million. Upon conversion, the Company has elected to pay cash for the principal amount of the Notes and to deliver shares of common stock for any amounts in excess of principal. As of June 30, 2018, the remaining life of the Notes is approximately 1 month, and the Notes are classified as current liabilities on the Company's condensed consolidated balance sheet.

The following table sets forth total interest expense recognized related to the Notes for the three and six months ended June 30, 2018 and 2017 (in thousands except percentages):

As of June 30, 2018, the contractual interest rate on the Term Loans was 3.465%, and there was a 0.200% commitment fee on the undrawn Revolver. The following table sets forth total interest expense recognized related to the Credit Facility for the three and six months ended June 30, 2018 (in thousands):

	Three Months Ended June 30, 2018	Six Months Ended June 30, 2018
Contractual interest expense on Term Loans	\$811	\$1,559
Amortization of debt issuance costs	109	217
Unused commitment fee on Revolver	209	409
Total	\$1,129	\$2,185

As of June 30, 2018 the remaining term of the Credit Facility is approximately 54 months. The Company was in compliance with all financial covenants related to the Credit Facility as of June 30, 2018.

9. STOCK-BASED COMPENSATION

For the three and six months ended June 30, 2018 and 2017, the components of stock-based compensation expense were as follows (in thousands):

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
Stock options	\$522	\$938	\$1,094	\$1,855

11. EARNINGS PER SHARE

Basic earnings per share is calculated by dividing net income available to common stockholders by the weighted-average number of shares outstanding during the period. The holders of unvested RSAs do not have nonforfeitable rights to dividends or dividend equivalents and therefore, such vested awards do not qualify as participating securities and are excluded from the basic earnings per share calculation. Diluted earnings per share includes the determinants of basic net income per share and, in addition, gives effect to the potential dilution that would occur if securities or other contracts to issue common stock are exercised, vested, or converted into common stock, unless they are anti-dilutive. Given the Company's election to settle the principal amount of the Notes (see Note 8, "Debt") in cash upon conversion, their dilutive effect is reflected in diluted earnings per share using the treasury stock method, which considers the number of shares that would be required to settle any premium above principal at the average stock price for the period.

A reconciliation of the numerator and denominator of basic earnings per share and diluted earnings per share for the three and six months ended June 30, 2018 and 2017 is shown in the following table (in thousands, except per share data):

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

U.S. Tax Reform

The U.S. Tax Cuts and Jobs Act (the "Tax Act") was enacted on December 22, 2017, is effective January 1, 2018, and introduces significant changes to U.S. income tax law. Due to the timing of the enactment and the complexity involved in applying the provisions of the Tax Act, the Company made a reasonable estimate of the effects and recorded provisional amounts in its financial statements in the fourth quarter of 2017. The Company made immaterial revisions to the provisional amounts during the first quarter of 2018. No further revisions were made during the three months ended June 30, 2018. The Company will continue to interpret the Tax Act and any additional guidance issued by the U.S. Treasury Department, the Internal Revenue Service, and other standard-setting bodies, and may make further adjustments to these provisional amounts in future periods, but no later than twelve months from the date of enactment.

13. COMMITMENTS AND CONTINGENCIES

Legal Matters — The Company is subject to legal proceedings and claims that arise in the ordinary course of business and records an estimated liability for these matters when an adverse outcome is considered to be probable and can be reasonably estimated. Although the outcome of the litigation cannot be predicted with certainty and some lawsuits, claims, or proceedings may be disposed of unfavorably to the Company, which could materially and adversely affect its financial condition or results of operations, the Company does not believe that it is currently a party to any material legal proceedings.

Contractual Warranties — The Company typically provides contractual warranties to its customers covering its solutions and services. To date, any refunds provided to customers have been immaterial.

Change in Control Agreements — The Company has change in control agreements with its chief executive officer and certain other executive officers. These agreements provide for payments to be made to such officers upon involuntary termination of their employment by the Company without cause or by such officers for good reason as defined in the agreements, within a period of 2 years following a change in control. The agreements provide that, upon a qualifying termination event, such officers will be entitled to (a) a severance payment equal to the sum of the officer's base salary and target bonus amount (except that such payment for the Company's chief executive officer and president would be two times such sum); (b) continuation of health benefits for one year (except that such continuation for the Company's chief executive officer and president would be for two years); and (c) immediate vesting of remaining unvested equity awards, unless otherwise specified in the equity award agreements.

Wire Transaction Claim — In September 2014, the Company was the victim of a crime involving the transfer of \$4.8 million to an overseas account. As a result, the Company recorded charges of \$4.9 million and \$0.9 million to its operating costs and expenses in the third and fourth quarters of 2014, respectively, for the loss and related investigation costs incurred. The Company filed an insurance claim for its loss, and its insurer, Federal Insurance Co. ("Federal"), denied coverage. The Company commenced legal action, alleging that Federal had wrongly denied coverage. On July 21, 2017, the United States District Court for the Southern District of New York granted the Company's motion for summary judgment, and denied Federal's motion. In light of this ruling, the Company recognized the probable recovery of the originally recorded \$4.8 million loss as a credit to its operating costs and expenses in the third quarter of 2017. Federal filed a Notice of Appeal with the United States Court of Appeals for the Second Circuit ("the Court") on August 11, 2017. On July 6, 2018, the Court affirmed the Company's judgment against Federal, awarding the Company a total of \$5.8 million, which includes interest. On July 20, 2018, Federal filed a Petition for Panel Rehearing and Rehearing En Banc, which is currently pending with the Court.

14. SUBSEQUENT EVENT

The Notes matured on August 1, 2018, and the Company received notices of conversion for substantially all of the outstanding Notes prior to the maturity date. Pursuant to its election, the Company settled the \$287.5 million principal amount of the Notes in cash and the conversion premium in shares of its common stock. The Company issued 1,439,704 shares of common stock in settlement of the premium, determined by a calculation based on the volume-weighted average price of the Company's common stock over the 40 trading-day observation period beginning on and including June 1, 2018, as specified in the indenture governing the Notes.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

This Quarterly Report on Form 10-Q contains “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended (“Securities Act”), and Section 21E of the Securities Exchange Act of 1934, as amended (“Exchange Act”). Forward-looking statements reflect our current estimates, expectations and projections about our future results, performance, prospects and opportunities. Forward-looking statements include, among other things, the information concerning our possible future results of operations, business and growth strategies, financing plans, expectations that regulatory developments or other matters will not have a material adverse effect on our business or financial condition, our competitive position and the effects of competition, the projected growth of the industry in which we operate, the benefits and synergies to be obtained from our completed and any future acquisitions, and statements of management’s goals and objectives, and other similar expressions concerning matters that are not historical facts. Words such as “may,” “should,” “could,” “would,” “predicts,” “potential,” “continue,” “expects,” “anticipates,” “future,” “intends,” “plans,” “believes,” “estimates,” “appears,” “projects” and similar expressions, as well as statements in the future tense, identify forward-looking statements. Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by which, such performance or results will be achieved. Forward-looking information is based on information available at the time and/or management’s good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Important factors that could cause such differences include, but are not limited to the factors discussed under the “Risk Factors” section included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 filed with the Securities and Exchange Commission (“SEC”) on February 28, 2018.

The following is a discussion and analysis of our financial condition and results of operations and should be read together with our condensed consolidated financial statements and related notes to condensed consolidated financial statements included elsewhere in this Quarterly Report on Form 10-Q and our audited consolidated financial statements and related notes to audited consolidated financial statements included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

For additional details, see Note 1, "Summary of Significant Accounting Policies — Recently Adopted Accounting Pronouncements" to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Year-over-year growth in subscription revenues was driven by sales growth among existing customers, both in the form of additional project subscriptions (which we refer to as "density") and increased usage under existing subscriptions (which we refer to as "intensity"), as well as new customer wins. Our electronic data capture and risk-based monitoring solutions were strong contributors. As of June 30, 2018, we had remaining subscription backlog of \$257 million, representing the future contract value of outstanding arrangements, billed and unbilled, to be recognized during the remainder of 2018, excluding renewals. This reflects an increase of 26% compared with remaining backlog of \$204 million at June 30, 2017.

Year-over-year growth in professional services revenues was driven by strong demand from new and existing customers implementing our platform, data analytics, and strategic services.

Subscription margin	83.4	% 84.9	%	83.7	% 84.5	%
Professional services margin	37.5	% 35.5	%	33.3	% 33.8	%

Year-over-year growth in cost of subscription revenues was primarily driven by increases in depreciation and amortization of \$2.3 million and \$5.1 million for the three and six months ended June 30, 2018, respectively, associated with additional internally developed technology assets and purchased hosting equipment. Expenses were also impacted by higher personnel costs of \$0.6 million and \$0.7 million for the three and six months ended June 30, 2018, respectively, resulting from headcount additions in connection with overall business growth and acquisitions, and by increased expenses from software-related contracts with outside vendors of \$0.8 million and \$0.5 million for the three and six months ended June 30, 2018, respectively.

Year-over-year growth in cost of professional services was primarily driven by increases in personnel costs associated with a 33% year-over-year headcount increase to support strong customer demand and expanding skill set requirements for professional services, and in connection with our acquisition of SHYFT.

Overall gross margin decreased to 75.9% and 75.8% for the three and six months ended June 30, 2018, respectively, compared with 76.5% and 76.3% for the three and six months ended June 30, 2017, driven predominantly by a lower subscription margin reflecting the aforementioned infrastructure and workforce investments.

Operating Costs and Expenses

Operating costs and expenses for the three and six months ended June 30, 2018 and 2017 were as follows:

(1) Figures for the three and six months ended June 30, 2017 have been recast to reflect our January 1, 2018 full retrospective adoption of ASC 606. For additional details, see Note 1, "Summary of Significant Accounting Policies — Recently Adopted Accounting Pronouncements" to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

The year-over-year growth in research and development expenses was primarily driven by increases in personnel costs of \$3.0 million and \$7.8 million for the three and six months ended June 30, 2018, respectively, resulting from a 12% year-over-year headcount increase due to our continued hiring of skilled engineering talent and our acquisitions. Research and development expenses were also impacted by increased costs for specialized consultants and outside experts of \$1.2 million and \$2.6 million for the three and six months ended June 30, 2018, respectively, and higher third-party software costs of \$0.5 million and \$1.9 million for the three and six months ended June 30, 2018, respectively.

The year-over-year growth in sales and marketing expenses was predominantly driven by increases in personnel costs of \$5.1 million and \$11.2 million for the three and six months ended June 30, 2018, respectively, resulting from a 27% year-over-year headcount increase to expand our global sales organization and partner team.

The year-over-year increase in general and administrative expenses was primarily driven by increases in personnel costs of \$2.7 million and \$4.9 million for the three and six months ended June 30, 2018, respectively, resulting from a 15% year-over-year headcount increase. Higher legal and professional fees, associated with litigation matters and our acquisition of SHYFT, also impacted expenses.

Interest and Other Income (Expense), net

Interest and other income (expense) for the three and six months ended June 30, 2018 and 2017 was as follows:

	Three Months		Six Months	
	Ended June 30,		Ended June 30,	
	2018	2017	2018	2017
	(amounts in thousands)			

Interest and other income (expense), net \$4,357 (\$3,055) \$774 \$(6,211)

The year-over-year increase in total interest and other income was primarily driven by a gain on step acquisition of SHYFT of \$7.6 million for both the three and six months ended June 30, 2018, as well as increased interest income on our available-for-sale marketable securities of \$1.0 million and \$1.9 million for the three and six months ended June 30, 2018, respectively. This income was partially offset by new interest expense on our credit facility, entered

into in December 2017, of \$1.1 million and \$2.2 million for the three and six months ended June 30, 2018, respectively.

Income Taxes

Provision for income taxes for the three and six months ended June 30, 2018 and 2017 was as follows:

	Three Months Ended June 30, 2018		Six Months Ended June 30, 2017	
Provision for income taxes	\$605	\$2,065	(1)\$23	\$1,808

(amounts in thousands)

(1) Figures for the three and six months ended June 30, 2017 have been recast to reflect our January 1, 2018 full retrospective adoption of ASC 606.

The difference between our effective tax rate and the U.S. statutory rate is primarily due to the relative mix of pre-tax income subject to tax in various jurisdictions, state taxes, share-based compensation, and U.S. tax credits and incentives. The benefits from U.S. credits and incentives will likely continue to have a favorable impact on our overall effective tax rate in the future. Stock-based compensation will also continue to have an impact on our effective tax rate which may or may not be favorable.

Our quarterly tax provision and quarterly estimate of the annual effective tax rate are subject to significant variation due to several factors, including variability in accuracy of predictions of pre-tax book and taxable income or loss, the mix of jurisdictions to which they relate, and changes in tax law in the jurisdictions in which we conduct business. The U.S. Tax Cuts and Jobs Act (the "Tax Act") was enacted in December 2017, and introduced significant changes to U.S. income tax law, including, among other things, reducing the tax rate from 35% to 21% effective 2018. Due to the timing of the enactment and the complexity involved in applying the provisions of the Tax Act, we made a reasonable estimate of the effects of the new law and recorded a provisional net charge of \$4.0 million in the fourth quarter of 2017 in accordance with Staff Accounting Bulletin ("SAB") No. 118. We have continued to interpret the Tax Act and, given recent and anticipated guidance from the U.S Treasury Department, the Internal Revenue Service, and other standard-setting bodies, our provisional charge may be adjusted during 2018, with the expectation that it will be finalized no later than the fourth quarter of 2018, as provided for in SAB No. 118. Other provisions of the Tax Act that impact future tax years are still being assessed.

Critical Accounting Estimates

Our condensed consolidated financial statements are prepared in conformity with accounting principles generally accepted in the United States of America, which require us to make estimates and assumptions about certain items and future events. These estimates inherently involve levels of subjectivity and judgment and may have a material impact on our financial condition or results of operations. Accordingly, actual results could differ from those estimates.

Except as described below, our critical accounting estimates as of June 30, 2018 are the same as those at December 31, 2017, which are included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Also see Note 1, "Summary of Significant Accounting Policies," to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q, which discusses our significant accounting policies.

Revenue Recognition

We recognize revenue when control of promised goods or services is transferred to customers, in an amount that reflects the consideration we expect to be entitled to in exchange for those goods or services. To determine the amount revenue to be recognized, we apply the following five steps:

- identify the contract with a customer;
- identify the performance obligations in the contract;
- determine the transaction price;
- allocate the transaction price to performance obligations in the contract; and
- recognize revenue as the performance obligation is satisfied.

The application of these steps is inherently subjective.

With regard to identification of contracts, contract modifications are common in our business, and we exercise judgment in determining whether each of those modifications constitutes a separate contract, a cancellation of an old and execution of a new contract, or the continuation of a single performance obligation.

To identify the performance obligations within a contract, we must exercise judgment with regard to whether the promises within the contract are capable of being distinct and are separately identifiable from other promises in the contract.

With regard to determination of transaction price, although most of our contracts state a fixed price, from time to time, contracts may include variable consideration; in these cases, we are required to estimate the amount of consideration we ultimately expect to be entitled to, based upon factors such as our historical experience and our assessment of the probability of a range of outcomes.

- 27 -

Table of Contents

When allocating the transaction price to performance obligations, we rely on a determination of standalone selling price. If standalone selling price is not observable, it must be estimated. We most commonly estimate standalone selling price using an adjusted market assessment approach that relies on a range of historical selling prices at which that deliverable was sold to other customers that we deem to be economically similar.

With regard to satisfaction of performance obligations, for professional services arrangements that bear a fixed price, we measure our delivery progress using a proportional performance method, which relies on our estimate of the total number of hours that will be required to fully satisfy the obligation.

Effects of Recently Issued Accounting Pronouncements on Current and Future Trends

Refer to Note 1, "Summary of Significant Accounting Policies — Recently Issued Accounting Pronouncements," to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q. No other recently issued accounting pronouncements have had or are expected to have a material impact on our current or future trends.

Liquidity and Capital Resources

We believe that our cash flows from operations, cash and cash equivalents, and highly liquid marketable securities will be sufficient to satisfy the anticipated cash requirements associated with our existing operations for the foreseeable future. Our future capital expenditures and other cash requirements could be higher than we currently expect as a result of various factors, including any expansion of our business that we may complete. The following table presents selected financial information related to our liquidity and capital resources as of June 30, 2018 and December 31, 2017, and for the six months ended June 30, 2018 and 2017 (in thousands):

	June 30, 2018	December 31, 2017
Cash, cash equivalents, and marketable securities	\$477,377	\$ 663,333

Cash used in investing activities	(129,516)	(42,694)
Cash used in financing activities	(11,073)	(1,480)

Cash, Cash Equivalents, and Marketable Securities

For the six months ended June 30, 2018, cash provided by operating activities of \$23.8 million was driven by customer collections, partially offset by operating expenditures and cash interest expense on our 1.00% convertible senior notes and term loan. Cash used in investing activities of \$129.5 million consisted of a net payment of \$178.6 million to acquire SHYFT Analytics, Inc. ("SHYFT") and cash payments for capital expenditures of \$19.5 million, partially offset by net sales of marketable securities of \$68.6 million. Cash used in financing activities of \$11.1 million resulted primarily from the acquisition of \$18.3 million of treasury stock in connection with equity plan participant tax withholdings upon vesting, \$4.1 million in earn-out payments related to the 2017 acquisition of CHITA Inc. ("CHITA"), \$1.3 million in term loan principal payments, and \$0.2 million in payments of credit facility financing costs, partially offset by equity plan proceeds of \$12.7 million.

For the six months ended June 30, 2017, cash provided by operating activities of \$60.7 million was driven by customer collections, partially offset by operating expenditures and cash interest expense on our 1.00% convertible senior notes. Cash used in investing activities of \$42.7 million consisted of net payments of \$22.9 million in aggregate to acquire CHITA and Mytrus, Incorporated, cash payments for capital expenditures of \$16.6 million, and net purchases of marketable securities of \$3.1 million. Cash used in financing activities of \$1.5 million resulted from the acquisition of \$14.8 million of treasury stock in connection with equity plan participant tax withholdings upon vesting, partially offset by equity plan proceeds of \$13.3 million.

Capital Assets

We acquired \$18.2 million in capital assets during the six months ended June 30, 2018, predominantly related to continued enhancements to our existing infrastructure and facilities and capitalization of software development costs. On a cash basis, our capital expenditures during the six months ended June 30, 2018 were \$19.5 million and included payments for previously accrued assets. We expect to acquire approximately \$20 million in additional capital assets during the remainder of 2018.

Debt

In August 2013, we issued \$287.5 million of 1.00% convertible senior notes ("the Notes") which mature on August 1, 2018 unless earlier converted. Upon conversion, we have elected to pay cash for the principal amount of the Notes and to deliver shares of common stock for any amounts in excess of principal. The cash portion of the settlement will be funded with a mix of cash on hand and sales of our available-for-sale marketable securities. As of June 30, 2018 the Notes are classified as current liabilities on our condensed consolidated balance sheet.

In December 2017, we entered into a credit agreement that provides us with a senior secured first lien credit facility in an aggregate principal amount of \$500.0 million, consisting of (a) term loans in an aggregate principal amount of \$100.0 million and (b) revolving commitments in an aggregate principal amount of \$400.0 million. The credit facility is scheduled to mature on December 21, 2022, with the term loans payable in quarterly installments. We intend to use the net proceeds from our debt for working capital and other general corporate purposes, including possible acquisitions of, or investments in, businesses, technologies, or products complementary to our business.

For further information, see Note 8, "Debt," to our condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Contractual Obligations, Commitments and Contingencies

There was no material change in our contractual obligations during the first six months of 2018.

Legal Matters

For a discussion of legal matters, refer to Note 13, "Commitments and Contingencies — Legal Matters," to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest Rate Sensitivity

We had unrestricted cash and cash equivalents totaling \$120.3 million at June 30, 2018. Our cash equivalents are invested principally in commercial paper and corporate bonds. We also had investments in marketable securities, which we classify as available-for-sale securities, totaling \$357.1 million at June 30, 2018. Substantially all of our marketable securities are fixed income securities, which primarily consist of high quality commercial paper and corporate bonds. Due to the short duration, laddered maturities, and high credit ratings of these investments, we believe that we do not have any material exposure to changes in the fair value of our investment portfolio as a result of changes in interest rates.

Our exposure to interest rate risk mainly relates to current and future borrowings under our credit facility. Based on the \$98.8 million of term loans outstanding under our credit facility as of June 30, 2018, the estimated potential impact of a hypothetical 1% increase in interest rate would amount to \$0.5 million for the six months ended June 30, 2018.

Exchange Rate Sensitivity

Our non-U.S. operating subsidiaries are located in the United Kingdom, Japan, South Korea, Singapore, China, and Germany. The functional currencies for these subsidiaries are the respective local currencies. We have exposure to exchange rate movements that are captured in translation adjustments for these subsidiaries. Such cumulative adjustments are recorded in accumulated other comprehensive income (loss). The estimated potential translation loss for the six months ended June 30, 2018 resulting from a hypothetical 10% adverse change in quoted foreign currency exchange rates amounted to \$3.4 million.

We bill our customers primarily in U.S. dollars. The majority of our foreign billings are billed from Medidata Solutions, Inc., a U.S. entity, and are mainly denominated in Euros, British pounds sterling, Australian dollars, and Canadian dollars. Our foreign currency-denominated costs and expenses are mainly incurred by our non-U.S. operating subsidiaries. Accordingly, future changes in currency exchange rates will impact our future operating results. For the six months ended June 30, 2018, 4.4% of our revenues and 17.1% of our expenses were denominated in foreign currencies. Total loss arising from transactions denominated in foreign currencies amounted to \$0.5 million for the six months ended June 30, 2018.

Impact of Inflation

We do not believe that inflation has had a material impact on our business, financial condition, or results of operations.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of June 30, 2018, an evaluation was performed with the participation of our Disclosure Committee and our management, including the Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO") of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Disclosure controls and procedures are

controls and procedures that are designed to ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures are also designed to ensure that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. Based upon such evaluation, our CEO and CFO have concluded that our disclosure controls and procedures were effective as of June 30, 2018.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

See Note 13, "Commitments and Contingencies – Legal Matters," to the condensed consolidated financial statements included in this Quarterly Report on Form 10-Q for a description of current legal proceedings.

Item 1A. Risk Factors

We operate in a rapidly changing environment that involves a number of risks, some of which are beyond our control. The risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2017 are those that we believe are the material risks we face. There have been no material changes in our risk factors since our Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Any of those disclosed risk factors or additional risks and uncertainties not presently known to us, or that we currently deem immaterial, could have a material adverse effect on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

From time to time, we grant nonvested restricted stock awards, restricted stock units, or performance-based restricted stock units to our employees pursuant to the terms of our Amended and Restated 2017 Long-Term Incentive Plan ("2017 Plan") and formerly pursuant to the terms of our Second Amended and Restated 2009 Long-Term Incentive Plan ("2009 Plan"). Under the provisions of the 2017 Plan and 2009 Plan, unless otherwise elected, participants fulfill their related income tax withholding obligation by having shares withheld at the time of vesting. On the date of vesting, we divide the participant's income tax withholding obligation in dollars by the closing price of our common stock and withhold the resulting number of vested shares.

A summary of our repurchases of shares of our common stock for the three months ended June 30, 2018 is as follows:

	Total Number of Shares Purchased (1)	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet be Purchased under the Plans or Programs
April 1 – April 30, 2018	10,959	\$ 67.74	—	—
May 1 – May 31, 2018	8,433	\$ 75.34	—	—
June 1 – June 30, 2018	3,362	\$ 79.10	—	—
Total	22,754	\$ 72.23	—	—

(1) Represents the number of shares acquired as payment by employees of applicable statutory withholding taxes owed upon vesting of restricted stock awards, restricted stock units, or performance-based restricted stock units granted under the 2017 Plan and 2009 Plan.
