NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. GENERAL

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (all of which consisted of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

The balance sheet at December 31, 2014 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements.

For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2014.

A group that includes the Company's Chairman of the Board, R. Randall Rollins and his brother Gary W. Rollins, who is also director of the Company, and certain companies under their control, controls in excess of fifty percent of the Company's voting power.

2. RECENT ACCOUNTING PRONOUNCEMENTS

Recently Adopted Accounting Pronouncements:

Accounting Standards Update 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant, and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. The amendments in the ASU require that only disposals representing a strategic shift in operations should be presented as discontinued operations. Those strategic shifts should have a major effect on the organization's operations and financial results. Examples include a disposal of a major geographic area, a major line of business, or a major equity method investment. In addition, the new guidance requires expanded disclosures about discontinued operations that will provide financial statement users with more information about the assets, liabilities, income, and expenses of discontinued operations. The new guidance also requires disclosure of the pre-tax income attributable to a disposal of a significant part of an organization that does not qualify for discontinued operations reporting. The Company adopted these provisions in the first quarter of 2015 and the adoption did not have a material impact on the Company's consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Recently Issued Accounting Pronouncements Not Yet Adopted:

Accounting Standards Update No. 2015-03, Interest—Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs The amendments in this ASU require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this ASU. The amendments should be applied on a retrospective basis, wherein the balance sheet of each individual period presented should be adjusted to reflect the period-specific effects of applying the new guidance. Upon transition, an entity is required to comply with the applicable disclosures for a change in an accounting principle. These disclosures include the nature of and reason for the change in accounting principle, the transition method, a description of the prior-period information that has been retrospectively adjusted, and the effect of the change on the financial statement line items (i.e., debt issuance cost asset and the debt liability). The amendments in this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. Early adoption of the amendments is permitted for financial statements that have not been previously issued. The Company plans to adopt the provisions in the first quarter of 2016 and currently does not expect the adoption to have a material impact on its consolidated financial statements.

Accounting Standards Update No. 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. The amendments in this ASU are intended to improve targeted areas of consolidation guidance for legal entities such as limited partnerships, limited liability corporations, and securitization structures (collateralized debt obligations, collateralized loan obligations, and mortgage-backed security transactions). The ASU reduces the number of consolidation models from four to two, thereby simplifying the criteria for consolidation by:

- i. Placing more emphasis on risk of loss when determining a controlling financial interest. A reporting organization may no longer have to consolidate a legal entity in certain circumstances based solely on its fee arrangement, when certain criteria are met.
- ii. Reducing the frequency of the application of related-party guidance when determining a controlling financial interest in a variable interest entity (VIE) and changing consolidation conclusions in several industries that typically make use of limited partnerships or VIEs.

The ASU will be effective for periods beginning after December 15, 2015, with early adoption permitted. The Company plans to adopt these provisions in the first quarter of 2016 and currently does not expect the adoption to have a material impact on its consolidated financial statements.

Accounting Standards Update No. 2015-01, Income Statement —Extraordinary and Unusual Items (Subtopic 225-20): Simplifying Income Statement Presentation by Eliminating the Concept of Extraordinary Items This ASU eliminates from U.S. GAAP the concept of extraordinary items. The amendments in this ASU are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted provided that the guidance is applied from the beginning of the fiscal year of adoption. The Company plans to adopt these provisions in the first quarter of 2016 and currently does not expect the adoption to have a material impact on its consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Accounting Standards Update No. 2014-15, Presentation of Financial Statements —Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. The provisions in this ASU are intended to define management's responsibility to evaluate whether there is substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. Currently, financial statements are prepared under the presumption that the reporting organization will continue to operate as a going concern, except in limited circumstances. This going concern basis of accounting is critical to financial reporting because it establishes the fundamental basis for measuring and classifying assets and liabilities. This ASU provides guidance regarding management's responsibility to evaluate whether there is substantial doubt about the organization's ability to continue as a going concern and the related footnote disclosures. The amendments are effective for the year ending December 31, 2016, and for interim periods beginning the first quarter of 2017, with early application permitted. The Company plans to adopt these provisions in the first quarter of 2016 and will provide such disclosures as required if there are conditions and events that raise substantial doubt about its ability to continue as a going concern. The Company currently does not expect the adoption to have a material impact on its consolidated financial statements.

Accounting Standards Update 2014-09, Revenue from Contracts with Customers (Topic 606). This ASU affects any entity using U.S. GAAP that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets unless those contracts are within the scope of other standards (e.g., insurance contracts or lease contracts). The core principle of the guidance is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. To achieve that core principle, an entity should apply a five step process – (i) identifying the contract(s) with a customer, (ii) identifying the performance obligations in the contract, (iii) determining the transaction price, (iv) allocating the transaction price to the performance obligations in the contract and (v) recognizing revenue when (or as) the entity satisfies a performance obligation. The Company is currently evaluating the impact of these provisions on its financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

3. EARNINGS PER SHARE

Basic and diluted earnings per share are computed by dividing net income by the weighted average number of shares outstanding during the respective periods. The basic and diluted calculations differ as a result of the dilutive effect of stock options and time lapse restricted shares included in diluted earnings per share, but excluded from basic earnings per share. The Company has periodically issued share-based payment awards that contain non-forfeitable rights to dividends and are therefore considered participating securities.

A reconciliation of weighted average shares outstanding is as follows:

	Three months ended					
		March 3	31,			
(In thousands except per share data)		2015	2014			
Net income available for stockholders	\$	2,929	\$	1,978		
Less: Dividends paid		(1,532)		(1,145)		
Undistributed earnings	\$	1,397	\$	833		
Basic shares outstanding:						
Common stock		35,784		35,746		
Restricted shares of common stock		1,244		1,212		
		37,028		36,958		
Diluted shares outstanding:						
Common stock		35,784		35,746		
Dilutive effect of stock based awards		236		297		
		36,020		36,043		
Restricted shares of common stock		1,244		1,212		
		37,264		37,255		

Inclusion of all participating securities in the computation of Earnings Per Share (EPS) under the two-class method had no impact on the Basic EPS amounts reported.

The effect of the Company's stock options as shown below have been excluded from the computation of diluted earnings per share for the following periods, as their effect would have been anti-dilutive:

Three months	ended March
--------------	-------------

	3	1,	Three months	ended March 31,
(in thousands)	2015	2014	2015	2014
Stock options	-	42	-	42

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

4. STOCK-BASED COMPENSATION

The Company reserved 3,000,000 shares of common stock under the 2014 Stock Incentive Plan with a term of ten years expiring in April 2024. All future equity compensation awards by the Company will be issued under the 2014 plan. This plan provides for the issuance of various forms of stock incentives, including among others, incentive and non-qualified stock options and restricted shares. As of March 31, 2015, there were approximately 2,620,000 shares available for grant.

Stock-based compensation for the three months ended March 31, 2015 and 2014 were as follows:

	Three months ended March				
(in thousands)			31,		
		2015		2014	
Pre – tax cost	\$	487	\$	444	
After tax cost	\$	314	\$	287	

Restricted Stock

The following is a summary of the changes in non-vested restricted shares for the three months ended March 31, 2015:

		Weighted
		Average
		Grant-Date
	Shares	Fair Value
Non-vested shares at December 31, 2014	1,251,400	\$ 6.47
Granted	319,750	7.08
Vested	(313,800)	5.77
Forfeited	(2,000)	6.40
Non-vested shares at March 31, 2015	1,255,350	\$ 6.80

The total fair value of shares vested was approximately \$2,254,000 during the three months ended March 31, 2015 and \$2,356,000 during the three months ended March 31, 2014. Tax benefits for compensation tax deductions in excess of compensation expense totaling approximately \$185,000 for the three months ended March 31, 2015 and \$284,000 for the three months ended March 31, 2014 were credited to capital in excess of par value and classified as financing cash flows.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Other Information

As of March 31, 2015, total unrecognized compensation cost related to non-vested restricted shares was approximately \$8,415,000. This cost is expected to be recognized over a weighted-average period of 4.11 years.

5. MARKETABLE SECURITIES

Marine Products' marketable securities are held with a large, well-capitalized financial institution. Management determines the appropriate classification of debt securities at the time of purchase and reevaluates such designations as of each balance sheet date. Debt securities are classified as available-for-sale because the Company does not have the intent to hold the securities to maturity. Available-for-sale securities are stated at their fair values, with the unrealized gains and losses, net of tax, reported as a separate component of stockholders' equity. The cost of securities sold is based on the specific identification method. Realized gains and losses, declines in value judged to be other than temporary, interest and dividends on available-for-sale securities are included in interest income.

The net realized gains and the reclassification of net realized gains from other comprehensive income are as follows:

	Three months ended						
	March 31,						
(in thousands)		2015		2014			
Net realized gain	\$	21	\$	2			
Reclassification of net							
realized gains from other							
comprehensive income	\$	21	\$	2			

Gross unrealized gains (losses) on marketable securities are as follows:

		March 31, 2015 Gross unrealized				December 31, 2014					
						Gross unrealized					
(in thousands)		Gains	(Losses))	Gains	(Losses)		
Municipal Obligations	\$	99	\$	(10) \$	121	\$	(31)		
Corporate Obligations		20		(2)	1		(6)		
	\$	119	\$	(12) \$	122	\$	(37)		

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The amortized cost basis, fair value and net unrealized gains on the available-for-sale securities are as follows:

			Marc	March 31, 2015						December 31, 2014			
												Net	
						Net					Un	realiz	zed
	A	mortized		Fair	Ur	realized	A	mortized		Fair		Gains	3
Type of Securities	C	ost Basis		Value		Gains	C	ost Basis		Value	(I	Losse	s)
(in thousands)													
Municipal													
Obligations	\$	29,253	\$	29,342	\$	89	\$	31,990	\$	32,080	\$	90	
Corporate													
Obligations		5,499		5,517		18		5,409		5,404		(5)
Total	\$	34,752	\$	34,859	\$	107	\$	37,399	\$	37,484	\$	85	

Municipal obligations consist primarily of municipal notes rated A- or higher ranging in maturity from less than one year to over 6 years. Corporate obligations consist primarily of debentures and notes issued by other companies ranging in maturity from one to six years. These securities are rated A- or higher. Investments with remaining maturities of less than 12 months are considered to be current marketable securities. Investments with remaining maturities greater than 12 months are considered to be non-current marketable securities. The Company's non-current marketable securities are scheduled to mature between 2016 and 2021.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

6. WARRANTY COSTS AND OTHER CONTINGENCIES

Warranty Costs

For our Chaparral products, Marine Products provides a lifetime limited structural hull warranty against defects in material and workmanship for the original purchaser, and a five-year limited structural hull warranty for one subsequent owner. Additionally, a non-transferable five-year limited structural deck warranty against defects in materials and workmanship is available to the original owner. Warranties on additional items are provided for periods of one to five years.

For our Robalo products, Marine Products provides a transferable ten-year limited structural hull warranty against defects in material and workmanship to the original owner, and a five-year limited hull warranty to one subsequent owner. Additionally, Marine Products provides a transferable one-year limited warranty on other components.

The manufacturers of the engines included on our boats provide various engine warranties as well. An analysis of the warranty accruals for the three months ended March 31, 2015 and 2014 is as follows:

(in thousands)		201	5	2014	
Balance at beginning of period	\$	3,836	\$	3,410	
Less: Payments made during the period		(374)	(309)
Add: Warranty provision for the period		829		731	
Changes to warranty provision for prior					
periods		(443)	70	
Balance at March 31	\$	3,848	\$	3,902	

The warranty accruals are reflected in accrued expenses and other liabilities on the consolidated balance sheets.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Repurchase Obligations

The Company is a party to various agreements with first party lenders that provide floor plan financing to qualifying dealers whereby the Company guarantees varying amounts of debt on boats in dealer inventory. The Company's obligation under these guarantees becomes effective in the case of a default under the financing arrangement between the dealer and the first party lender. The agreements provide for the return of repossessed boats to the Company in new and unused condition subject to normal wear and tear as defined, in exchange for the Company's assumption of specified percentages of the debt obligation on those boats, up to certain contractually determined dollar limits by the lenders. The Company had no material repurchases of inventory during the three months ended March 31, 2015 or during the three months ended March 31, 2014.

Management continues to monitor the risk of defaults and resulting repurchase obligations based in part on information provided by third-party floor plan lenders and will adjust the guarantee liability at the end of each reporting period based on information reasonably available at that time.

The Company currently has an agreement with one of the floor plan lenders whereby the contractual repurchase limit is to not exceed 16 percent of the amount of the average net receivables financed by the floor plan lender for dealers during the prior 12 month period, which was \$8.2 million as of March 31, 2015. The Company has contractual repurchase agreements with additional lenders with an aggregate maximum repurchase obligation of approximately \$6.5 million with various expiration and cancellation terms of less than one year, for an aggregate repurchase obligation with all floor plan financing institutions of approximately \$14.7 million as of March 31, 2015.

7. BUSINESS SEGMENT INFORMATION

The Company has only one reportable segment, its powerboat manufacturing business; therefore, the majority of segment-related disclosures are not relevant to the Company. In addition, the Company's results of operations and its financial condition are not significantly reliant upon any single customer or product model.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

8. INVENTORIES

Inventories consist of the following:

	March 31,				
(in thousands)		2015	3	31, 2014	
Raw materials and supplies	\$	17,117	\$	16,996	
Work in process		7,741		6,602	
Finished goods		5,554		5,221	
Total inventories	\$	30,412	\$	28,819	

9. INCOME TAXES

The Company determines its periodic income tax provision (benefit) based upon the current period income and the annual estimated tax rate for the Company adjusted for any change to prior year estimates. The estimated tax rate is revised, if necessary, as of the end of each successive interim period during the fiscal year to the Company's current annual estimated tax rate.

For the first quarter of 2015, the income tax provision reflects an effective tax rate of 33.0 percent, compared to an effective tax rate of 31.6 percent for the comparable period in the prior year. The effective rate for the three months ended March 31, 2015 is the result of continued beneficial permanent differences including tax-exempt interest income and a favorable U.S. manufacturing deduction. The first quarter 2015 effective tax rate is higher primarily due to increased profit without the benefit of the federal R&D credit which has not been re-enacted for 2015.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

10. EMPLOYEE BENEFIT PLANS

The Company participates in a multiple employer pension plan. The following represents the net periodic benefit (credit) cost and related components for the plan:

	Three months ended									
(in thousands)			Marc	h 31,						
•		2015			2014					
Interest cost	\$	64		\$	65					
Expected return on plan assets		(105)		(102)				
Amortization of net losses		19			9					
Net periodic benefit credit	\$	(22)	\$	(28)				

The Company made contributions to this plan of \$170 thousand during the three months ended March 31, 2015.

The Company permits selected highly compensated employees to defer a portion of their compensation into a non-qualified Supplemental Executive Retirement Plan ("SERP"). The Company maintains certain securities in the SERP that have been classified as trading. The SERP assets are marked to market and totaled \$6,627,000 as of March 31, 2015 and \$6,575,000 as of December 31, 2014. The SERP assets are reported in other non-current assets on the consolidated balance sheets and changes to the fair value of the assets are reported in selling, general and administrative expenses in the consolidated statements of operations. Trading gains related to the SERP assets totaled approximately \$53,000 during the three months ended March 31, 2015 and approximately \$36,000 during the three months ended March 31, 2014.

11. FAIR VALUE MEASUREMENTS

The various inputs used to measure assets at fair value establish a hierarchy that distinguishes between assumptions based on market data (observable inputs) and the Company's assumptions (unobservable inputs). The hierarchy consists of Three broad levels as follows:

- 1. Level 1 Quoted market prices in active markets for identical assets or liabilities.
- 2. Level 2 Quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- 3. Level 3 Unobservable inputs developed using the Company's estimates and assumptions, which reflect those that market participants would use.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

The following table summarizes the valuation of financial instruments measured at fair value on a recurring basis on the balance sheet as of March 31, 2015 and December 31, 2014:

(in thousands)	Fair Value M Quoted prices in active markets for identical assets (Level 1)	Significant unobservable inputs (Level 3)	
Assets:			
Trading securities	\$ -	\$ 6,627	\$ -
Available-for-sale securities:			
Municipal obligations	\$ -	\$ 29,342	\$ -
Corporate obligations	-	5,517	-
	\$ -	\$ 34,859	\$ -
	Fair Value M Quoted prices in active markets for identical	Measurements at Decen with: Significant other observable	Significant unobservable
(in thousands)	assets	inputs	inputs
	(Level 1)	(Level 2)	(Level 3)
Assets:			
Trading securities	\$ -	\$ 6,575	\$ -
Available-for-sale securities:			
Municipal obligations	\$ -	\$ 32,080	\$ -
Corporate obligations	-	5,404	-
	\$ -	\$ 37,484	\$ -

The carrying amount of other financial instruments reported in the consolidated balance sheets for current assets and current liabilities approximate their fair values because of the short-term nature of these instruments.

Edgar Filing: MARINE PRODUCTS CORP - Form 10-Q

13. SUBSEQUENT EVENT

On April 28, 2015, the Board of Directors approved a \$0.04 per share cash dividend payable June 10, 2015 to stockholders of record at the close of business May 11, 2015.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Marine Products Corporation, through our wholly owned subsidiaries Chaparral and Robalo, is a leading manufacturer of recreational fiberglass powerboats. Our sales and profits are generated by selling the products that we manufacture to a network of independent dealers who in turn sell the products to retail customers. These dealers are located throughout the continental United States and in several international markets. Many of these dealers finance their inventory through third-party floorplan lenders, who pay Marine Products generally within seven to ten days after delivery of the products to the dealers.

The discussion on business and financial strategies of the Company set forth under the heading "Overview" in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2014 is incorporated herein by reference. There have been no significant changes in the strategies since year-end.

In implementing these strategies and attempting to optimize our financial returns, management closely monitors dealer orders and inventories, the production mix of various models, and indications of near term demand such as consumer confidence, interest rates, dealer orders placed at our annual dealer conferences, and retail attendance and orders at annual winter boat show exhibitions. We also consider trends related to certain key financial and other data, including our historical and forecasted financial results, market share, unit sales of our products, average selling price per boat, and gross profit margins, among others, as indicators of the success of our strategies. Marine Products' financial results are affected by consumer confidence — because pleasure boating is a discretionary expenditure, interest rates — because many retail customers finance the purchase of their boats, and other socioeconomic and environmental factors such as availability of leisure time, consumer preferences, demographics and the weather.

Our net sales were higher during the first quarter of 2015 compared to the fourth quarter of 2014 and the first quarter of 2014 primarily due to an increase in Robalo unit sales, coupled with sales of our new SunCoast outboard boats and Vortex jet boats.

Operating income increased 53.7 percent during the first quarter of 2015 compared to the same period in the prior year due to higher gross profit, coupled with lower selling, general and administrative expenses. Selling, general and administrative expenses decreased during the quarter compared to the prior year due primarily to adjustments to warranties issued in prior years, based on improved claims experience. Dealer inventory in units as of March 31, 2015 was slightly higher than at the end of the fourth quarter of 2014 and at the end of the first quarter of 2014.

OUTLOOK

The discussion of the outlook for 2015 is incorporated herein by reference from the Company's annual report on Form 10-K for the fiscal year ended December 31, 2014.

We believe that recreational boating retail demand in many segments of the industry is improving. Attendance and sales during the 2015 winter boat shows have been moderately higher than the 2014 winter boat show season, residential real estate markets and consumer confidence have stabilized, and fuel prices have declined significantly. We also believe that there is improved demand from consumers who have delayed purchasing a boat over the past few years due to economic uncertainty.

Although industry wide retail boat sales remain lower than they were prior to the 2008 financial crisis, retail boat sales have increased each year since 2013. We believe that continued improvements in retail boat sales will be modest due to the lack of strong economic improvement, which tends to discourage consumers from purchasing large discretionary goods such as pleasure boats. Fluctuations in fuel prices can impact our sales, and during the fourth quarter fuel prices significantly decreased compared to both the prior quarter and the prior year. In general, the overall cost of boat ownership has increased, especially in the sterndrive recreational boat market segment, which comprises the majority of the Company's sales. The higher cost of boat ownership also discourages consumers from purchasing recreational boats. For a number of years, Marine Products as well as other boat manufacturers have been improving their customer service capabilities, marketing strategies and sales promotions in order to attract more consumers to recreational boating as well as improve consumers' boating experiences. The Company provides financial incentives to its dealers for receiving favorable customer satisfaction surveys. In addition, the recreational boating industry conducts a promotional program which involves advertising and consumer targeting efforts, as well as other activities designed to increase the potential consumer market for pleasure boats. Many manufacturers, including Marine Products, participate in this program. Management believes that these efforts have incrementally benefited the industry and Marine Products. As in past years, Marine Products enhanced its selection of models for the 2015 model year which began on July 1, 2014. We are continuing to emphasize the value-priced Chaparral and Robalo models, as well as larger models in the Chaparral line-up including the SSX's and Robalo bay boat models. In addition, we continue to be pleased with the reception of our new Vortex jet boats and SunCoast outboard boats. We believe that these boat models will expand our customer base, and leverage our strong dealer network and reputation for quality and styling. We plan to continue to develop and produce additional new products for subsequent model years.

Our financial results for 2015 will depend on a number of factors, including interest rates, consumer confidence, the availability of credit to our dealers and consumers, fuel costs, the continued acceptance of our new products in the recreational boating market, our ability to compete in the competitive pleasure boating industry, and the costs of labor and certain of our raw materials and key components.

RESULTS OF OPERATIONS

Key operating and financial statistics for the three months ended March 31, 2015 and 2014 are as follows:

Three months ended							
	I	March	31,				
2015							
973			923				
\$	47.1		\$	48.3			
\$	50,644		\$	47,702			
	79.8	%		81.5	%		
	20.2	%		18.5	%		
	11.8	%		12.7	%

THREE MONTHS ENDED MARCH 31, 2015 COMPARED TO THREE MONTHS ENDED MARCH 31, 2014

Net sales for the three months ended March 31, 2015 increased \$2.9 million or 6.2 percent compared to the comparable period in 2014. The change in net sales during the quarter compared to the prior year was due primarily to a 5.4 percent increase in the number of units sold. The increase in net sales was due to a large increase in Robalo unit sales, coupled with sales of our new SunCoast outboard and Vortex jet boats, partially offset by a decrease in sales of our sterndrive boats. In the first quarter of 2015, net sales outside of the United States accounted for 13.6 percent of net sales compared to 18.4 percent of net sales in the prior year first quarter. International net sales decreased 21.9 percent during the first quarter of 2015 to \$6.9 million, primarily due to the strength of the U.S. dollar. Domestic net sales increased 12.5 percent to \$43.8 million compared to the first quarter of the prior year.

Cost of goods sold for the three months ended March 31, 2015 was \$40.4 million compared to \$38.9 million for the comparable period in 2014, an increase of \$1.5 million or 4.1 percent. Cost of goods sold decreased to 79.8 percent of net sales for the three months ended March 31, 2015 from 81.5 percent for the comparable period in 2014, primarily due to improved operating efficiencies due to higher production volumes, coupled with decreases in certain raw materials costs.

Selling, general and administrative expenses for the three months ended March 31, 2015 were \$6.0 million compared to \$6.1 million for the comparable period in 2014, a decrease of \$0.1 million or 2.0 percent. This decrease was due primarily to lower warranty expense, partially offset by costs that vary with sales and profitability, such as sales commissions and incentive compensation. Warranty expense was lower primarily due to a model mix in recent years which included an increase in smaller boats with fewer accessories and the resulting improvement in warranty claims experience. Selling, general and administrative expenses as a percentage of net sales declined to 11.8 percent in the first quarter of 2015 from 12.7 percent in the first quarter of 2014.

Operating income for the three months ended March 31, 2015 increased \$1.5 million or 53.7 percent compared to the comparable period in 2014 due to higher gross profit, coupled with a slight decrease in selling, general and administrative expenses.

Interest income was \$117 thousand during the three months ended March 31, 2015 compared to \$122 thousand for the comparable period in 2014. This decrease was primarily due to a decrease in the average balance of our marketable securities portfolio.

Income tax provision for the three months ended March 31, 2015 was \$1.4 million compared to \$912 thousand for the comparable period in 2014. The income tax provision for the three months ended March 31, 2015 reflects an effective tax rate of 33.0 percent compared to an effective tax rate of 31.6 percent for the comparable period in the prior year. The first quarter 2015 effective tax rate is higher than the prior year primarily due to increased profit without the benefit of the federal R&D credit which has not been re-enacted for 2015.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

The Company's cash and cash equivalents at March 31, 2015 were \$9.2 million compared to \$4.1 million at December 31, 2014. In addition, the aggregate of short-term and long-term marketable securities was \$34.9 million at March 31, 2015 compared to \$37.5 million at December 31, 2014.

The following table sets forth the cash flows for the applicable periods:

	Three months ended March 31,									
(in thousands)			2014							
Net cash provided by operating activities	\$	5,468		\$	9,331					
Net cash provided by (used for) investing activities		1,850			(4,076)				
Net cash used for financing activities	\$	(2,215)	\$	(1,706)				

Cash provided by operating activities for the three months ended March 31, 2015 decreased approximately \$3.9 million compared to the comparable period in 2014. This decrease is primarily due to an unfavorable change in working capital, partially offset by an increase in net income. The major components of the net unfavorable change in working capital were as follows: an unfavorable change of \$3.9 million in inventories to support increased production, coupled with the timing of shipments; an unfavorable change of \$2.1 million in accounts receivable primarily due to timing of customer payments, coupled with an increase in sales; and a \$2.1 million favorable change in accounts payable, due primarily to timing of payments, coupled with an increase in production levels.

Cash provided by investing activities for the three months ended March 31, 2015 was approximately \$1.9 million compared to \$4.1 million used for investing activities for the same period in 2014. The increase in cash provided by investing activities is primarily due to increased sales of marketable securities in the current period, partially offset by \$0.8 million in capital expenditures.

Cash used for financing activities for the three months ended March 31, 2015 increased approximately \$0.5 million compared to the three months ended March 31, 2014 primarily due to a 33.3 percent increase in the quarterly dividend paid in the first quarter of 2015.

Financial Condition and Liquidity

The Company believes that the liquidity provided by existing cash, cash equivalents and marketable securities, its overall strong capitalization and cash generated by operations will provide sufficient capital to meet the Company's requirements for at least the next twelve months. The Company's decisions about the amount of cash to be used for investing and financing purposes are influenced by its capital position and the expected amount of cash to be provided by operations.

Cash Requirements

The Company currently expects that capital expenditures during 2015 will be approximately \$3.2 million, of which \$0.8 thousand has been spent through March 31, 2015.

The Company participates in a multiple employer Retirement Income Plan, sponsored by RPC, Inc. ("RPC"). The Company made a \$170 thousand cash contribution to this plan during the first three months of 2015 and does not expect to make any additional contributions for the remainder of 2015.

As of March 31, 2015, the Company has purchased a total of 5,164,917 shares in the open market under the Company stock repurchase program and there are 3,085,083 shares that remain available for repurchase under the current authorization. The Company repurchased 6,468 shares under this program during the three months ended March 31, 2015.

For our Chaparral products, Marine Products provides a lifetime limited structural hull warranty against defects in material and workmanship for the original purchaser, and a five-year limited structural hull warranty for one subsequent owner. Additionally, a non-transferable five-year limited structural deck warranty against defects in materials and workmanship is available to the original owner. Warranties on additional items are provided for periods of one to five years.

For our Robalo products, Marine Products provides a transferable ten-year limited structural hull warranty against defects in material and workmanship to the original owner, and a five-year limited hull warranty to one subsequent owner. Additionally, Marine Products provides a transferable one-year limited warranty on other components. See Note 6 to the Consolidated Financial Statements for a detail of activity in the warranty accruals during the three months ended March 31, 2015 and 2014.

OFF BALANCE SHEET ARRANGEMENTS

To assist dealers in obtaining financing for the purchase of its boats for inventory, the Company has entered into agreements with various third-party floor plan lenders whereby the Company guarantees varying amounts of debt for qualifying dealers on boats in inventory. The Company's obligation under these guarantees becomes effective in the case of a default under the financing arrangement between the dealer and the third-party lender. The agreements provide for the return of all repossessed boats to the Company in a new and unused condition as defined, in exchange for the Company's assumption of specified percentages of the debt obligation on those boats, up to certain contractually determined dollar limits which vary by lender. The Company had no material repurchases of inventory during the three months ended March 31, 2014.

Management continues to monitor the risk of defaults and resulting repurchase obligations based in part on information provided by the third-party floor plan lenders and will adjust the guarantee liability at the end of each reporting period based on information reasonably available at that time.

The Company currently has an agreement with one of the floor plan lenders whereby the contractual repurchase limit is to not exceed 16 percent of the amount of the average net receivables financed by the floor plan lender for dealers during the prior 12 month period, which was \$8.2 million as of March 31, 2015. The Company has contractual repurchase agreements with additional lenders with an aggregate maximum repurchase obligation of approximately \$6.5 million with various expiration and cancellation terms of less than one year, for an aggregate repurchase obligation with all financing institutions of approximately \$14.7 million as of March 31, 2015.

RELATED PARTY TRANSACTIONS

In conjunction with its spin-off from RPC in 2001, the Company and RPC entered into various agreements that define their relationship after the spin-off. RPC charged the Company for its allocable share of administrative costs incurred for services rendered on behalf of Marine Products totaling approximately \$195 thousand in the three months ended March 31, 2015 and \$175 thousand in the three months ended March 31, 2014.

CRITICAL ACCOUNTING POLICIES

The discussion of Critical Accounting Policies is incorporated herein by reference from the Company's annual report on Form 10-K for the fiscal year ended December 31, 2014. There have been no significant changes in the critical accounting policies since year-end.

IMPACT OF RECENT ACCOUNTING PRONOUNCEMENTS

See Note 2 of the Consolidated Financial Statements for a description of recent accounting pronouncements, including the expected dates of adoption and estimated effects on results of operations and financial condition.

SEASONALITY

Marine Products' quarterly operating results are affected by weather and general economic conditions. Quarterly operating results for the second quarter have historically recorded the highest sales volume for the year because this corresponds with the highest retail sales volume period. The results for any quarter are not necessarily indicative of results to be expected in any future period.

INFLATION

The market prices of certain material and component costs used in manufacturing the Company's products, especially resins that are made with hydrocarbon feedstocks, copper and stainless steel, have been volatile in the years following the financial crisis of 2008. During 2014 and the first quarter of 2015, the prices of several of these raw materials have fallen to their lowest prices in several years. As a result, we believe that the Company will incur lower materials purchase prices in 2015. These lower prices of materials will reduce the manufactured cost of certain components of the Company's products, but we cannot be certain that these lower prices will enhance our overall profit margins, due to the competitive nature of the selling environment for the Company's products. Furthermore, the prices of these raw materials remain volatile, and may increase in the future.

New boat buyers typically finance their purchases. Higher inflation typically results in higher interest rates that could translate into an increased cost of boat ownership. Should higher inflation and increased interest rates occur, prospective buyers may choose to forego or delay their purchases or buy a less expensive boat in the event that interest rates rise or credit is not available to finance their boat purchases.

FORWARD-LOOKING STATEMENTS

Certain statements made in this report that are not historical facts are "forward-looking statements" under the Private Securities Litigation Reform Act of 1995. Such forward-looking statements may include, without limitation, the expected effect of recent accounting pronouncements on the Company's consolidated financial statements; the Company's estimate for warranty accruals; our favorable outlook for the near-term selling environment for our products; our belief that recreational boating retail demand in many segments of the industry is improving; our belief that there is improved demand from consumers who have delayed purchasing a boat over the past few years due to economic uncertainty; our belief that improvements in retail boat sales will be modest due to the lack of economic improvement; the Company's belief that the recreational boating industry promotional program has incrementally benefited the industry and Marine Products; our plans to continue to emphasize the value-priced Chaparral and Robalo models as well as larger models in the Chaparral line-up including the SSX's and new Robalo bay boat models; the Company's belief that its newer boat models will expand its customer base and leverage its strong dealer network and reputation for quality and styling; our plans to continue to develop and produce additional new products for subsequent model years; the Company's belief that its liquidity, capitalization and cash expected to be generated from operations, will provide sufficient capital to meet the Company's requirements for at least the next twelve months; the Company's expectations about capital expenditures during 2015; the Company's expectation about contributions to its pension plan in 2015; the Company's belief about the amount and timing of inventory repurchases; the Company's belief that it will incur lower material purchase prices in 2015 which will reduce the manufactured costs of certain components of the Company's products, although the Company cannot be certain that these lower prices will enhance its profit margins; the Company's expectation regarding market risk of its investment portfolio; and the Company's expectations about the effect of litigation on the Company's financial position or results of operations.

The words "may," "should," "will," "expect," "believe," "anticipate," "intend," "plan," "believe," "seek," "project," "estimate, expressions used in this document that do not relate to historical facts are intended to identify forward-looking statements. Such statements are based on certain assumptions and analyses made by our management in light of its experience and its perception of historical trends, current conditions, expected future developments and other factors it believes to be appropriate. We caution you that such statements are only predictions and not guarantees of future performance and that actual results, developments and business decisions may differ from those envisioned by the forward-looking statements. Risk factors that could cause such future events not to occur as expected include the following: economic conditions, unavailability of credit and possible decreases in the level of consumer confidence impacting discretionary spending, business interruptions due to adverse weather conditions, increased interest rates, unanticipated changes in consumer demand and preferences, deterioration in the quality of Marine Products' network of independent boat dealers or availability of financing of their inventory, our ability to insulate financial results against increasing commodity prices, the impact of rising gasoline prices and a weak housing market on consumer demand for our products, competition from other boat manufacturers and dealers, and insurance companies that insure a number of Marine Products' marketable securities have been downgraded, which may cause volatility in the market price of Marine Products' marketable securities. Additional discussion of factors that could cause actual results to differ from management's projections, forecasts, estimates and expectations is contained in Marine Products Form 10-K filed with the Securities and Exchange Commission for the year ended December 31, 2014. The Company does not undertake to update its forward-looking statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Marine Products does not utilize financial instruments for trading purposes and, as of March 31, 2015, did not hold derivative financial instruments that could expose the Company to significant market risk. Also, as of March 31, 2015, the Company's investment portfolio, totaling approximately \$34.9 million and comprised primarily of municipal and corporate debt securities, is subject to interest rate risk exposure. This risk is managed through conservative policies to invest in high-quality obligations that are both short-term and long-term in nature. Because Marine Products' investment portfolio mix has been allocated towards securities with similar term maturities compared to the end of fiscal year 2014, the risk of material market value fluctuations is not expected to be significantly different from the end of fiscal year 2014 and the Company currently expects no such changes through the remainder of the current year.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures – The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms, and that such information is accumulated and communicated to its management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, March 31, 2015 (the "Evaluation Date"), the Company carried out an evaluation, under the supervision and with the participation of its management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. Based upon this evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at a reasonable assurance level as of the Evaluation Date.

Changes in internal control over financial reporting – Management's evaluation of changes in internal control did not identify any changes in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Marine Products is involved in litigation from time to time in the ordinary course of its business. Marine Products does not believe that the outcome of such litigation will have a material adverse effect on the financial position or results of operations of Marine Products.

Item 1A. RISK FACTORS

See the risk factors described in the Company's annual report on Form 10-K for the year ended December 31, 2014.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Purchases of Equity Securities by the Issuer and Affiliated Purchasers.

Shares repurchased by the Company and affiliated purchases in the first quarter of 2015 are outlined below.

Period	Total Number of Shares (or Units) Purchased		erage Price Paid Per Share (or Unit)	Total Number of Shares (or Units) Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Approximate Dollar Value) of Shares (or Units) that May Yet Be Purchased Under the Plans or Programs (1)
Month #1 January 1, 2015 to January 31, 2015	114,043	(2)	\$ 7.19	-	3,091,551
Month #2 February 1, 2015 to February 28, 2015	6,468		7.33	6,468	3,091,551
Month #3 March 1, 2015 to March 31, 2015 Totals	- 120,511		\$ - 7.20	- 6,468	3,085,083 3,085,083

⁽¹⁾ The Company's Board of Directors announced a stock buyback program on April 25, 2001 authorizing the repurchase of 2,250,000 shares in the open market and another on March 14, 2005 authorizing the repurchase of an additional 3,000,000 shares. On January 22, 2008 the Board of Directors authorized an additional 3,000,000 shares that the Company may repurchase. As of March 31, 2015, a total of 5,164,917 shares have been repurchased in the open market under this program and there are 3,085,083 shares that remain available for repurchase. The program does not have a predetermined expiration date.
