tax loss of approximately \$147,000 in the three-month period ending December 31, 2005, as compared to revenue of approximately \$1.85 million with a pre-tax loss of \$48,254 in the three-month period ending December 31, 2004. These results are due primarily to a change in the Company's product mix in its government defense business. The company experienced an increase in margin from generator set production work which was outweighed by non-recurring expenses in research and development as well as a reduction in higher margin work towards various orders which are generally for replacement parts.
