## Edgar Filing: DEWEY ELECTRONICS CORP - Form NT 10-K

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

The Company expects to report revenue of approximately \$7.3 million and a pre-tax loss of approximately \$527,000 in fiscal year 2006, as compared to revenue of approximately \$6.2 million and a pre-tax loss of \$57,558 in fiscal 2005. These results are due primarily to

Fiscal year 2006 Revenues increased primarily due to growth in orders under the 2kW generator contract with the United States Army. The decrease in profits was due primarily to an inventory adjustment of approximately \$300,000 related to the Company's Leisure and Recreation segment. Other factors included increased indirect costs resulting from less customer sponsored research and development, and increased material costs under the 2kW generator contract resulting from inflationary pressures.

This Form contains forward-looking statements as defined in Section 21E of the Securities Exchange Act of 1934. These statements are based on management's current expectations and are subject to uncertainty and changes in circumstances. Actual results may vary materially from the expected results described in this Form. Such forward-looking statements involve risks and uncertainties including those involved in the Company's dependence upon its Department of Defense business, as further described in our filings under the Securities Exchange Act.
