AMERCO and consolidated entities

notes to condensed consolidated financial statements

1. Basis of Presentation

AMERCO, a Nevada corporation (“AMERCO”), has a third fiscal quarter that ends on the 31st of December for each year that is referenced. Our insurance company subsidiaries have a third quarter that ends on the 30th of September for each year that is referenced. They have been consolidated on that basis. Our insurance companies’ financial reporting processes conform to calendar year reporting as required by state insurance departments. Management believes that consolidating their calendar year into our fiscal year financial statements does not materially affect the presentation of financial position or results of operations. We disclose any material events, if any, occurring during the intervening period. Consequently, all references to our insurance subsidiaries’ years 2016 and 2015 correspond to fiscal 2017 and 2016 for AMERCO.

Accounts denominated in non-U.S. currencies have been translated into U.S. dollars. Certain amounts reported in previous years have been reclassified to conform to the current presentation.

The condensed consolidated balance sheet as of December 31, 2016 and the related condensed consolidated statements of operations, comprehensive income (loss) for the third quarter and first nine months and cash flows for the first nine months of fiscal 2017 and 2016 are unaudited.

In our opinion, all adjustments necessary for the fair presentation of such condensed consolidated financial statements have been included. Such adjustments consist only of normal recurring items. Interim results are not necessarily indicative of results for a full year. The information in this Quarterly Report on Form 10-Q (“Quarterly Report”) should be read in conjunction with Management’s Discussion and Analysis of Financial Condition and Results of Operations and financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended March 31, 2016.

Intercompany accounts and transactions have been eliminated.

Description of Legal Entities

AMERCO is the holding company for:

U-Haul International, Inc. (“U-Haul”),

Amerco Real Estate Company (“Real Estate”),

Repwest Insurance Company (“Repwest”), and

Oxford Life Insurance Company (“Oxford”).

Unless the context otherwise requires, the terms “Company,” “we,” “us” or “our” refer to AMERCO and all of its legal subsidiaries.

Description of Operating Segments

AMERCO has three reportable segments. They are Moving and Storage, Property and Casualty Insurance and Life Insurance.

The Moving and Storage operating segment (“Moving and Storage”) includes AMERCO, U-Haul, Real Estate and the wholly-owned subsidiaries of U-Haul and Real Estate. Operations consist of the rental of trucks and trailers, sales of moving supplies, sales of towing accessories, sales of propane and the rental of fixed and portable moving and storage units to the “do-it-yourself” mover and management of self-storage properties owned by others. Operations are conducted under the registered trade name U-Haul® throughout the United States and Canada.

AMERCO and consolidated entities

notes to condensed consolidated financial statements (Continued)

The Property and Casualty Insurance operating segment (“Property and Casualty Insurance”) includes Repwest and its wholly-owned subsidiaries and ARCOA Risk Retention Group (“ARCOA”). Property and Casualty Insurance provides loss adjusting and claims handling for U-Haul through regional offices across North America. Property and Casualty Insurance also underwrites components of the Safemove, Safetow, Safemove Plus, Safestor and Safestor Mobile protection packages to U-Haul customers. The business plan for Property and Casualty Insurance includes offering property and casualty products in other U-Haul related programs. ARCOA is a group captive insurer owned by us and our wholly-owned subsidiaries whose purpose is to provide insurance products related to the moving and storage business.

The Life Insurance operating segment (“Life Insurance”) includes Oxford and its wholly-owned subsidiaries. Life Insurance provides life and health insurance products primarily to the senior market through the direct writing and reinsuring of life insurance, Medicare supplement and annuity policies.

2. Earnings per Share

Our earnings per share is calculated by dividing our earnings available to common stockholders by the weighted average common shares outstanding, basic and diluted.

The weighted average common shares outstanding exclude post-1992 shares of the employee stock ownership plan that have not been committed to be released. The unreleased shares, net of shares committed to be released, were 20,958 and 7,587 as of December 31, 2016 and 2015, respectively.

3. Investments

Expected maturities may differ from contractual maturities as borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

We deposit bonds with insurance regulatory authorities to meet statutory requirements. The adjusted cost of bonds on deposit with insurance regulatory authorities was \$17.0 million and \$17.3 million at December 31, 2016 and March 31, 2016, respectively.

The available-for-sale tables include gross unrealized losses that are not deemed to be other-than-temporarily impaired, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position.

We sold available-for-sale securities with a fair value of \$147.1 million during the first nine months of fiscal 2017. The gross realized gains on these sales totaled \$3.4 million. The gross realized losses on these sales totaled \$1.8 million.

The unrealized losses of more than twelve months in the available-for-sale tables are considered temporary declines. We track each investment with an unrealized loss and evaluate it on an individual basis for other-than-temporary impairments including obtaining corroborating opinions from third party sources, performing trend analysis and reviewing management's future plans. Certain of these investments may have declines determined by management to be other-than-temporary and we recognize these write-downs, if any, through earnings. There were no write downs in the third quarter or for the first nine months of fiscal 2017 or 2016.

The investment portfolio primarily consists of corporate securities and U.S. government securities. We believe we monitor our investments as appropriate. Our methodology of assessing other-than-temporary impairments is based on security-specific analysis as of the balance sheet date and considers various factors including the length of time to maturity, the extent to which the fair value has been less than the cost, the financial condition and the near-term prospects of the issuer, and whether the debtor is current on its contractually obligated interest and principal payments. Nothing has come to management's attention that would lead to the belief that each issuer would not have the ability to meet the remaining contractual obligations of the security, including payment at maturity. We have the ability and intent not to sell our fixed maturity and common stock investments for a period of time sufficient to allow us to recover our costs.

The portion of other-than-temporary impairment related to a credit loss is recognized in earnings. The significant inputs utilized in the evaluation of credit losses on mortgage backed securities include ratings, delinquency rates, and prepayment activity. The significant inputs utilized in the evaluation of credit losses on asset backed securities include the time frame for principal recovery and the subordination and value of the underlying collateral.

There were no credit losses recognized in earnings for which a portion of an other-than-temporary impairment was recognized in accumulated other comprehensive income (loss) for the third quarter or first nine months of fiscal 2017.

Real Estate Backed Loans

Real Estate Loan

Amerco Real Estate Company and certain of its subsidiaries and U-Haul Company of Florida are borrowers under a Real Estate Loan. As of December 31, 2016, the outstanding balance on the Real Estate Loan was \$171.8 million. The Real Estate Loan requires monthly principal and interest payments, with the unpaid loan balance and accrued and unpaid interest due at maturity. The Real Estate Loan is secured by various properties owned by the borrowers. The final maturity of the term loan is April 2023.

AMERCO AND CONSOLIDATED SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

The interest rate, per the provisions of the amended loan agreement, is the applicable London Inter-Bank Offer Rate (“LIBOR”) plus the applicable margin. At December 31, 2016, the applicable LIBOR was 0.67% and the applicable margin was 1.50%, the sum of which was 2.17%, which was applied to \$40.7 million of the Real Estate Loan. The rate of the remaining balance of \$131.1 million of the Real Estate Loan is hedged with an interest rate swap fixing the rate at 6.93% based on current margin. The interest rate swap expires in August 2018, after which date the remaining balance will incur interest at a rate of LIBOR plus a margin of 1.50%. The default provisions of the Real Estate Loan include non-payment of principal or interest and other standard reporting and change-in-control covenants. There are limited restrictions regarding our use of the funds.

Senior Mortgages

Various subsidiaries of Amerco Real Estate Company and U-Haul International, Inc. are borrowers under certain senior mortgages. These senior mortgage loan balances as of December 31, 2016 were in the aggregate amount of \$1,256.8 million and mature between 2017 and 2038. The senior mortgages require monthly principal and interest payments, except for one mortgage that only requires interest payments, with the unpaid loan balance and accrued and unpaid interest due at maturity. The senior mortgages are secured by certain properties owned by the borrowers. The fixed interest rates, per the provisions of the senior mortgages, range between 3.72% and 5.50%. Certain senior mortgages have an anticipated repayment date and a maturity date. If these senior mortgages are not repaid by the anticipated repayment date, the interest rate on these mortgages would increase from the current fixed rate. We are using the anticipated repayment date for our maturity schedule. Additionally, \$159.0 million of these loans have variable interest rates comprised of applicable LIBOR base rates between 0.63% and 0.70% plus margins between 2.00% and 2.50%, the sums of which were between 2.63% and 3.20%. Amerco Real Estate Company and U-Haul International, Inc. have provided limited guarantees of the senior mortgages. The default provisions of the senior mortgages include non-payment of principal or interest and other standard reporting and change-in-control covenants. There are limited restrictions regarding our use of the funds.

Working Capital Loans

Amerco Real Estate Company is a borrower under an asset backed working capital loan. The maximum amount that can be drawn at any one time is \$50.0 million. At December 31, 2016 the full \$50.0 million was available to be drawn. This loan is secured by certain properties owned by the borrower. This loan agreement provides for revolving loans, subject to the terms of the loan agreement. The final maturity of this loan is September 2018. This loan requires monthly interest payments with the unpaid loan balance and accrued and unpaid interest due at maturity. The interest rate is the applicable LIBOR plus a margin of 1.25%. AMERCO is the guarantor of this loan. The default provisions of the loan include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Various subsidiaries of Amerco Real Estate Company and U-Haul International, Inc. are borrowers under an asset backed working capital loan. The maximum amount that can be drawn at any one time is \$85.0 million. At December 31, 2016, the outstanding balance was \$85.0 million. This loan is secured by certain properties owned by the borrower. This loan agreement provides for term loans, subject to the terms of the loan agreement. The final maturity of the loan is November 2018. This loan requires monthly interest payments with the unpaid loan balance and accrued and unpaid interest due at maturity. The interest rate, per the provision of the loan agreement, is the applicable LIBOR plus the applicable margin. At December 31, 2016, the applicable LIBOR was 0.74% and the margin was 1.50%, the sum of which was 2.24%. AMERCO is the guarantor of this loan. The default provisions of the loan include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Fleet Loans

Rental Truck Amortizing Loans

U-Haul International, Inc. and several of its subsidiaries are borrowers under amortizing term loans. The balance of the loans as of December 31, 2016 was \$216.6 million with the final maturities between July 2017 and September 2023.

The Amortizing Loans require monthly principal and interest payments, with the unpaid loan balance and accrued and unpaid interest due at maturity. These loans were used to purchase new trucks. The interest rates, per the provision of the Loan Agreements, are the applicable LIBOR plus the applicable margins. At December 31, 2016, the applicable LIBOR was between 0.62% and 0.70% and applicable margins were between 1.72% and 2.50%. The interest rates are hedged with interest rate swaps fixing the rates between 2.82% and 4.76% based on current margins. Additionally, \$146.9 million of these loans are carried at fixed rates ranging between 1.95% and 3.94%.

AMERCO and, in some cases, U-Haul International, Inc. are guarantors of these loans. The default provisions of these loans include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Rental Truck Securitizations

2010 U-Haul S Fleet and its subsidiaries (collectively, "2010 USF") issued a \$155.0 million asset-backed note ("2010 Box Truck Note"). 2010 USF is a bankruptcy-remote special purpose entity wholly-owned by U-Haul International, Inc. The net proceeds from the securitized transaction were used to finance new box truck purchases. U.S. Bank, NA acts as the trustee for this securitization.

The 2010 Box Truck Note has a fixed interest rate of 4.90% with an expected final maturity of October 2017. At December 31, 2016, the outstanding balance was \$53.9 million. The note is secured by the box trucks purchased and the corresponding operating cash flows associated with their operation.

The 2010 Box Truck Note is subject to certain covenants with respect to liens, additional indebtedness of the special purpose entity, the disposition of assets and other customary covenants of bankruptcy-remote special purpose entities. The default provisions of this note include non-payment of principal or interest and other standard reporting and change-in-control covenants.

Rental Truck Revolvers

Various subsidiaries of U-Haul International, Inc. entered into a revolving fleet loan for \$150 million, which can be increased to a maximum of \$225 million. This loan matures in September 2018. Capital Leases

We regularly enter into capital leases for new equipment with the terms of the leases between five and seven years. During the first nine months of fiscal 2017, we entered into \$379.4 million of new capital leases. At December 31, 2016, the balance of our capital leases was \$917.8 million. The net book value of the corresponding capitalized assets was \$1,256.5 million at December 31, 2016.

Other Obligations

In February 2011, AMERCO and U.S. Bank, NA (the "Trustee") entered into the U-Haul Investors Club® Indenture. AMERCO and the Trustee entered into this indenture to provide for the issuance of notes by us directly to investors over our proprietary website, uhaulinvestorsclub.com ("U-Notes"). The U-Notes® are secured by various types of collateral including rental equipment and real estate. U-Notes are issued in smaller series that vary as to principal amount, interest rate and maturity. U-Notes are obligations of the Company and secured by the associated collateral; they are not guaranteed by any of the Company's affiliates or subsidiaries.

At December 31, 2016, the aggregate outstanding principal balance of the U-Notes issued was \$71.9 million of which \$4.6 million is held by our insurance subsidiaries and eliminated in consolidation. Interest rates range between 3.00% and 8.00% and maturity dates range between 2017 and 2045.

Oxford is a member of the Federal Home Loan Bank ("FHLB") and, as such, the FHLB has made a deposit with Oxford. As of September 30, 2016, the deposit balance was \$30.0 million, which Oxford pays a fixed interest rate of 0.57% due on the maturity date of March 31, 2017. The balance of the deposit is included within Liabilities from investment contracts on the consolidated balance sheet.

5. Derivatives

We manage exposure to changes in market interest rates. Our use of derivative instruments is limited to highly effective interest rate swaps to hedge the risk of changes in cash flows (future interest payments) attributable to changes in LIBOR swap rates, the designated benchmark interest rate being hedged on certain of our LIBOR indexed variable rate debt and a variable rate operating lease. The interest rate swaps effectively fix our interest payments on certain LIBOR indexed variable rate debt. We monitor our positions and the credit ratings of our counterparties and do not currently anticipate non-performance by the counterparties. Interest rate swap agreements are not entered into for trading purposes.

Gains or losses recognized in income on derivatives are recorded as interest expense in the statements of operations. During the first nine months of fiscal 2017, we recognized an increase in the fair value of our cash flow hedges of \$5.1 million, net of taxes. Embedded in this gain was \$6.9 million of losses reclassified from accumulated other comprehensive income to interest expense during the first nine months of fiscal 2017, net of taxes. At December 31, 2016, we expect to reclassify \$5.8 million of net losses on interest rate contracts from accumulated other comprehensive income to earnings as interest expense over the next twelve months.

8. Contingent Liabilities and Commitments

We lease a portion of our rental equipment and certain of our facilities under operating leases with terms that expire at various dates substantially through 2019. As of December 31, 2016, we have guaranteed \$17.6 million of residual values for these rental equipment assets at the end of the respective lease terms. Certain leases contain renewal and fair market value purchase options as well as mileage and other restrictions. At the expiration of the lease, we have the option to renew the lease, purchase the asset for fair market value, or sell the asset to a third party on behalf of the lessor. We have been leasing equipment since 1987 and have experienced no material losses relating to these types of residual value guarantees.

Operating lease commitments for leases having terms of more than one year were as follows:

9. Contingencies

PODS Enterprises, Inc. v. U-Haul International, Inc.

On July 3, 2012, PODS Enterprises, Inc. (“PEI”), filed a lawsuit against U-Haul. The claims arose from U-Haul’s use of the word “pod” and “pods” as a generic term for its U-Box moving and storage product. PEI alleged that such use was an inappropriate use of its PODSmark.

On September 25, 2014, the jury in the United States District Court for the Middle District of Florida returned a unanimous verdict, finding in favor of PEI and against U-Haul on all claims and counterclaims. The jury awarded PEI \$45 million in actual damages and \$15.7 million in U-Haul’s alleged profits attributable to its use of the term “pod” or “pods.” A total of \$60.7 million was recorded as an accrual in our financial statements.

On October 1, 2014, the Court ordered briefing on U-Haul’s oral motion for directed verdict on its genericness defense, the motion on which the Court had deferred ruling during trial. Pursuant to the Court’s order, the parties’ briefing on that motion was completed by October 21, 2014.

On August 24, 2015, the Court entered a permanent injunction, and awarded PEI \$4.9 million in pre-judgment interest, \$82,727 in costs, and post-judgment interest at the rate of 0.25%, beginning March 11, 2015, computed daily

and compounded annually. This was recorded as an accrual of \$5.0 million in our financial statements during fiscal 2016.

On September 13, 2016, the parties reached a settlement in principle, for \$41.4 million. On October 10, 2016, the parties signed a formal written settlement agreement. U-Haul wired the settlement payment on or about October 12, 2016.

On November 4, 2016, the trial court entered an Order (i) confirming the satisfaction in full of the Judgment and the Amended Judgment and (ii) releasing the Bond and Rider in their entirety as to U-Haul.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

On November 14, 2016, the parties jointly moved to dismiss U-Haul's consolidated appeals with prejudice, with each side to bear its own costs. The request for dismissal encompassed all claims and all parties on appeal. Pursuant to the parties' joint motion for voluntary dismissal, the Clerk of the Court of the United States Court of Appeals for the Eleventh Circuit entered the dismissal, effective November 16, 2016.

The parties have completed their respective performances under the terms of the settlement agreement.

Environmental

Compliance with environmental requirements of federal, state and local governments may significantly affect Real Estate's business operations. Among other things, these requirements regulate the discharge of materials into the air, land and water and govern the use and disposal of hazardous substances. Real Estate is aware of issues regarding hazardous substances on some of its properties. Real Estate regularly makes capital and operating expenditures to stay in compliance with environmental laws and has put in place a remedial plan at each site where it believes such a plan is necessary. Since 1988, Real Estate has managed a testing and removal program for underground storage tanks.

Based upon the information currently available to Real Estate, compliance with the environmental laws and its share of the costs of investigation and cleanup of known hazardous waste sites are not expected to result in a material adverse effect on AMERCO's financial position or results of operations.

Other

We are named as a defendant in various other litigation and claims arising out of the normal course of business. In management's opinion, none of these other matters will have a material effect on our financial position and results of operations.

10. Related Party Transactions

As set forth in the Audit Committee Charter and consistent with NASDAQ Listing Rules, our Audit Committee (the "Audit Committee") reviews and maintains oversight over related party transactions which are required to be disclosed under the Securities and Exchange Commission ("SEC") rules and regulations and in accordance with generally accepted accounting principles ("GAAP"). Accordingly, all such related party transactions are submitted to the Audit Committee for ongoing review and oversight. Our internal processes are designed to ensure that our legal and finance departments identify and monitor potential related party transactions that may require disclosure and Audit Committee oversight.

AMERCO has engaged in related party transactions and has continuing related party interests with certain major stockholders, directors and officers of the consolidated group as disclosed below. Management believes that the transactions described below and in the related notes were completed on terms substantially equivalent to those that would prevail in arm's-length transactions.

SAC Holding Corporation and SAC Holding II Corporation, (collectively, "SAC Holdings") were established in order to acquire and develop self-storage properties. These properties are being managed by us pursuant to management agreements. In the past, we sold real estate and various self-storage properties to SAC Holdings, and such sales provided significant cash flows to us.

During the first nine months of fiscal 2017, a subsidiary of ours held a junior unsecured note from SAC Holdings. Substantially all of the equity interest of SAC Holdings is controlled by Blackwater Investments, Inc. (“Blackwater”). Blackwater is wholly-owned by Willow Grove Holdings LP, which is owned by Mark V. Shoen (a significant stockholder), and various trusts associated with Edward J. Shoen (our Chairman of the Board, President and a significant shareholder) and Mark V. Shoen. We do not have an equity ownership interest in SAC Holdings. We received cash interest payments of \$3.4 million from SAC Holdings during the first nine months of both fiscal 2017 and 2016. The largest aggregate amount of notes receivable outstanding during the first nine months of fiscal 2017 was \$49.3 million and the aggregate notes receivable balance at December 31, 2016 was \$48.4 million. In accordance with the terms of this note, SAC Holdings may prepay the note without penalty or premium at any time. The scheduled maturity of this note is 2017.

During fiscal 2016, AMERCO held a junior note issued by Private Mini Storage Realty, L.P. (“Private Mini”). In July 2015, Private Mini repaid its note and all outstanding interest due AMERCO totaling \$56.8 million. The equity interests of Private Mini are ultimately controlled by Blackwater. We received cash interest payments of \$1.5 million from Private Mini during fiscal 2016.

We currently manage the self-storage properties owned or leased by SAC Holdings, Mercury Partners, L.P. (“Mercury”), Four SAC Self-Storage Corporation (“4 SAC”), Five SAC Self-Storage Corporation (“5 SAC”), Galaxy Investments, L.P. (“Galaxy”) and Private Mini pursuant to a standard form of management agreement, under which we receive a management fee of between 4% and 10% of the gross receipts plus reimbursement for certain expenses. We received cash payments for management fees, exclusive of reimbursed expenses, of \$21.8 million and \$21.4 million from the above mentioned entities during the first nine months of fiscal 2017 and 2016, respectively. This management fee is consistent with the fee received for other properties we previously managed for third parties. SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini are substantially controlled by Blackwater. Mark V. Shoen controls the general partner of Mercury. The limited partner interests of Mercury are indirectly owned by Mark V. Shoen, James P. Shoen (a significant stockholder) and a trust benefitting the children and grandchild of Edward J. Shoen.

We lease space for marketing company offices, vehicle repair shops and hitch installation centers from subsidiaries of SAC Holdings, 5 SAC and Galaxy. The terms of the leases are similar to the terms of leases for other properties owned by unrelated parties that are leased to us.

At December 31, 2016, subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini acted as U-Haul independent dealers. The financial and other terms of the dealership contracts with the aforementioned companies and their subsidiaries are substantially identical to the terms of those with our other independent dealers whereby commissions are paid by us based upon equipment rental revenues.

These agreements and note with subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini, excluding Dealer Agreements, provided revenues of \$21.4 million, expenses of \$2.1 million and cash flows of \$19.9 million during the first nine months of fiscal 2017. Revenues and commission expenses related to the Dealer Agreements were \$212.8 million and \$45.9 million, respectively during the first nine months of fiscal 2017.

Pursuant to the variable interest entity model under Accounting Standards Codification (“ASC”) 810 – Consolidation (“ASC 810”), Management determined that the junior note of SAC Holdings as well as the management agreements with SAC Holdings, Mercury, 4 SAC, 5 SAC, Galaxy, and Private Mini represents potential variable interests for us. Management evaluated whether it should be identified as the primary beneficiary of one or more of these variable interest entities (“VIE”s) using a two-step approach in which management (i) identified all other parties that hold interests in the VIEs, and (ii) determined if any variable interest holder has the power to direct the activities of the VIEs that most significantly impact their economic performance.

Management determined that they do not have a variable interest in the holding entities SAC Holding II Corporation, Private Mini, Mercury, 4 SAC, 5 SAC, or Galaxy based upon management agreements which are with the individual operating entities or through the issuance of junior debt; therefore, we are precluded from consolidating these entities.

We have junior debt with the holding entity SAC Holding Corporation which represents a variable interest in the entity. Though we have certain protective rights within this debt agreement, we have no present influence or control over this holding entity unless the protective rights become exercisable, which management considers unlikely based on their payment history. As a result, we have no basis under ASC 810 to consolidate this entity.

We do not have the power to direct the activities that most significantly impact the economic performance of the individual operating entities which have management agreements with U-Haul. There are no fees or penalties disclosed in the management agreement for termination of the agreement. Through control of the holding entities' assets, and its ability and history of making key decisions relating to the entity and its assets, Blackwater, and its owner, are the variable interest holder with the power to direct the activities that most significantly impact each of the

individual holding entities and the individual operating entities' performance. As a result, we have no basis under ASC 810 to consolidate these entities.

We have not provided financial or other support explicitly or implicitly during the quarter ended December 31, 2016 to any of these entities that we were not previously contractually required to provide. In addition, we currently have no plan to provide any financial support to any of these entities in the future. The carrying amount and classification of the assets and liabilities in our balance sheets that relate to our variable interests in the aforementioned entities are as follows, which approximate the maximum exposure to loss as a result of our involvement with these entities:

11. Consolidating Financial Information by Industry Segment

AMERCO's three reportable segments are:

- Moving and Storage, comprised of AMERCO, U-Haul, and Real Estate and the subsidiaries of U-Haul and Real Estate,
- Property and Casualty Insurance, comprised of Repwest and its subsidiaries and ARCOA, and
- Life Insurance, comprised of Oxford and its subsidiaries.

Management tracks revenues separately, but does not report any separate measure of the profitability for rental vehicles, rentals of self-storage spaces and sales of products that are required to be classified as a separate operating segment and accordingly does not present these as separate reportable segments. Deferred income taxes are shown as liabilities on the condensed consolidating statements.

The information includes elimination entries necessary to consolidate AMERCO, the parent, with its subsidiaries.

Investments in subsidiaries are accounted for by the parent using the equity method of accounting.

14. Fair Value Measurements

Fair values of cash equivalents approximate carrying value due to the short period of time to maturity. Fair values of short term investments, investments available-for-sale, long term investments, mortgage loans and notes on real estate, and interest rate swap contracts are based on quoted market prices, dealer quotes or discounted cash flows. Fair values of trade receivables approximate their recorded value.

Our financial instruments that are exposed to concentrations of credit risk consist primarily of temporary cash investments, trade receivables, reinsurance recoverables and notes receivable. Limited credit risk exists on trade receivables due to the diversity of our customer base and their dispersion across broad geographic markets. We place our temporary cash investments with financial institutions and limit the amount of credit exposure to any one financial institution.

We have mortgage receivables, which potentially expose us to credit risk. The portfolio of notes is principally collateralized by self-storage facilities and commercial properties. We have not experienced any material losses related to the notes from individual or groups of notes in any particular industry or geographic area. The estimated fair values were determined using the discounted cash flow method and using interest rates currently offered for similar loans to borrowers with similar credit ratings.

The carrying amount of long term debt and short term borrowings are estimated to approximate fair value as the actual interest rate is consistent with the rate estimated to be currently available for debt of similar term and remaining maturity.

Other investments including short term investments are substantially current or bear reasonable interest rates. As a result, the carrying values of these financial instruments approximate fair value.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS - (CONTINUED)

Certain assets and liabilities are recorded at fair value on the condensed consolidated balance sheets and are measured and classified based upon a three tiered approach to valuation. ASC 820 - Fair Value Measurements and Disclosure (“ASC 820”) requires that financial assets and liabilities recorded at fair value be classified and disclosed in one of the following three categories:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 – Quoted prices for identical or similar financial instruments in markets that are not considered to be active, or similar financial instruments for which all significant inputs are observable, either directly or indirectly, or inputs other than quoted prices that are observable, or inputs that are derived principally from or corroborated by observable market data through correlation or other means; and

Level 3 – Prices or valuations that require inputs that are both significant to the fair value measurement and are unobservable. These reflect management’s assumptions about the assumptions a market participant would use in pricing the asset or liability.

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The following tables represent the financial assets and liabilities on the condensed consolidated balance sheet at December 31, 2016 and March 31, 2016, that are subject to ASC 820 and the valuation approach applied to each of these items.

ITEM 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

General

We begin Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") with the overall strategy of AMERCO, followed by a description of, and strategy related to, our operating segments to give the reader an overview of the goals of our businesses and the direction in which our businesses and products are moving. We then discuss our critical accounting policies and estimates that we believe are important to understanding the assumptions and judgments incorporated in our reported financial results. Next, we discuss our results of operations for the third quarter and first nine months of fiscal 2017, compared with the third quarter and first nine months of fiscal 2016, which is followed by an analysis of changes in our balance sheets and cash flows, and a discussion of our financial commitments in the sections entitled Liquidity and Capital Resources - Summary and Disclosures about Contractual Obligations and Commercial Commitments and a discussion of off-balance sheet arrangements. We conclude this MD&A by discussing our current outlook for the remainder of fiscal 2017.

This MD&A should be read in conjunction with the other sections of this Quarterly Report, including the Notes to Condensed Consolidated Financial Statements. The various sections of this MD&A contain a number of forward-looking statements, as discussed under the caption, Cautionary Statements Regarding Forward-Looking Statements, all of which are based on our current expectations and could be affected by the uncertainties and risks described throughout this filing or in our most recent Annual Report on Form 10-K for the fiscal year ended March 31, 2016. Many of these risks and uncertainties are beyond our control and our actual results may differ materially from these forward-looking statements.

AMERCO, a Nevada corporation, has a third fiscal quarter that ends on the 31st of December for each year that is referenced. Our insurance company subsidiaries have a third quarter that ends on the 30th of September for each year that is referenced. They have been consolidated on that basis. Our insurance companies' financial reporting processes conform to calendar year reporting as required by state insurance departments. Management believes that consolidating their calendar year into our fiscal year financial statements does not materially affect the financial position or results of operations. We disclose any material events occurring during the intervening period. Consequently, all references to our insurance subsidiaries' years 2016 and 2015 correspond to fiscal 2017 and 2016 for AMERCO.

Overall Strategy

Our overall strategy is to maintain our leadership position in the North American “do-it-yourself” moving and storage industry. We accomplish this by providing a seamless and integrated supply chain to the “do-it-yourself” moving and storage market. As part of executing this strategy, we leverage the brand recognition of U-Haul with our full line of moving and self-storage related products and services and the convenience of our broad geographic presence.

Our primary focus is to provide our customers with a wide selection of moving rental equipment, convenient self-storage rental facilities, portable moving and storage units and related moving and self-storage products and services. We are able to expand our distribution and improve customer service by increasing the amount of moving equipment and storage rooms and portable moving and storage units available for rent, expanding the number of independent dealers in our network and expanding and taking advantage of our eMove® capabilities.

Property and Casualty Insurance is focused on providing and administering property and casualty insurance to U-Haul and its customers, its independent dealers and affiliates.

Life Insurance is focused on long-term capital growth through direct writing and reinsuring of life insurance, Medicare supplement and annuity products in the senior marketplace.

Description of Operating Segments

AMERCO's three reportable segments are:

- Moving and Storage, comprised of AMERCO, U-Haul, and Real Estate and the wholly-owned subsidiaries of U-Haul and Real Estate,
- Property and Casualty Insurance, comprised of Repwest and its wholly-owned subsidiaries and ARCOA, and
- Life Insurance, comprised of Oxford and its wholly-owned subsidiaries.

Moving and Storage

Moving and Storage consists of the rental of trucks, trailers, portable moving and storage units, specialty rental items and self-storage spaces primarily to the household mover as well as sales of moving supplies, towing accessories and propane. Operations are conducted under the registered trade name U-Haul® throughout the United States and Canada.

With respect to our truck, trailer, specialty rental items and self-storage rental business, we are focused on expanding our dealer network, which provides added convenience for our customers and expanding the selection and availability of rental equipment to satisfy the needs of our customers.

U-Haul brand self-moving related products and services, such as boxes, pads and tape allow our customers to, among other things; protect their belongings from potential damage during the moving process. We are committed to providing a complete line of products selected with the “do-it-yourself” moving and storage customer in mind.

uhaul.com is an online marketplace that connects consumers to our operations as well as independent Moving Help® service providers and thousands of independent Self-Storage Affiliates. Our network of customer rated affiliates and service providers furnish pack and load help, cleaning help, self-storage and similar services, all over North America. Our goal is to further utilize our web-based technology platform to increase service to consumers and businesses in the moving and storage market.

Since 1945, U-Haul has incorporated sustainable practices into its everyday operations. We believe that our basic business premise of equipment sharing helps reduce greenhouse gas emissions and reduces the inventory of total large capacity vehicles. We continue to look for ways to reduce waste within our business and are dedicated to manufacturing reusable components and recyclable products. We believe that our commitment to sustainability, through our products and services and everyday operations, has helped us to reduce our impact on the environment.

Property and Casualty Insurance

Property and Casualty Insurance provides loss adjusting and claims handling for U-Haul through regional offices across North America. Property and Casualty Insurance also underwrites components of the Safemove, Safetow, Safemove Plus, Safestor and Safestor Mobile protection packages to U-Haul customers. We continue to focus on increasing the penetration of these products into the moving and storage market. The business plan for Property and Casualty Insurance includes offering property and casualty products in other U-Haul related programs.

Life Insurance

Life Insurance provides life and health insurance products primarily to the senior market through the direct writing and reinsuring of life insurance, Medicare supplement and annuity policies.

Critical Accounting Policies and Estimates

Our financial statements have been prepared in accordance with GAAP in the United States. The methods, estimates and judgments we use in applying our accounting policies can have a significant impact on the results we report in our financial statements. Certain accounting policies require us to make difficult and subjective judgments and assumptions, often as a result of the need to estimate matters that are inherently uncertain.

Following is a detailed description of the accounting policies that we deem most critical to us and that require management's most difficult and subjective judgments. These estimates are based on historical experience, observance of trends in particular areas, information and valuations available from outside sources and on various other assumptions that are believed to be reasonable under the circumstances and which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual amounts may differ from these estimates under different assumptions and conditions; such differences may be material.

We also have other policies that we consider key accounting policies, such as revenue recognition; however, these policies do not meet the definition of critical accounting estimates, because they do not generally require us to make estimates or judgments that are difficult or subjective. The accounting policies that we deem most critical to us, and involve the most difficult, subjective or complex judgments include the following:

Principles of Consolidation

We apply ASC 810 - Consolidation ("ASC 810") in our principles of consolidation. ASC 810 addresses arrangements where a company does not hold a majority of the voting or similar interests of a variable interest entity ("VIE"). A company is required to consolidate a VIE if it has determined it is the primary beneficiary. ASC 810 also addresses the policy when a company owns a majority of the voting or similar rights and exercises effective control.

As promulgated by ASC 810, a VIE is not self-supportive due to having one or both of the following conditions: (i) it has an insufficient amount of equity for it to finance its activities without receiving additional subordinated financial support or (ii) its owners do not hold the typical risks and rights of equity owners. This determination is made upon the creation of a variable interest and is re-assessed on an on-going basis should certain changes in the operations of a VIE, or its relationship with the primary beneficiary trigger a reconsideration under the provisions of ASC 810. After a triggering event occurs, the facts and circumstances are utilized in determining whether or not a company is a VIE, which other company(s) have a variable interest in the entity, and whether or not the company's interest is such that it is the primary beneficiary.

We will continue to monitor our relationships with other entities in determining who is the primary beneficiary, which could change based on facts and circumstances of any reconsideration events.

Recoverability of Property, Plant and Equipment

Our property, plant and equipment is stated at cost. Interest expense incurred during the initial construction of buildings and rental equipment is considered part of cost. Depreciation is computed for financial reporting purposes

using the straight-line or an accelerated method based on a declining balance formula over the following estimated useful lives: rental equipment 2-20 years and buildings and non-rental equipment 3-55 years. Routine maintenance costs are charged to operating expense as they are incurred. Gains and losses on dispositions of property, plant and equipment are netted against depreciation expense when realized. Equipment depreciation is recognized in amounts expected to result in the recovery of estimated residual values upon disposal, i.e., minimize gains or losses. In determining the depreciation rate, historical disposal experience, holding periods and trends in the market for vehicles are reviewed. As a result of changes in IRS regulations regarding the capitalization of assets, beginning in the first quarter of fiscal 2017, we raised the value threshold before certain assets are capitalized within our depreciation policy. This change in threshold, results in the immediate recognition of reported operating costs with a lagging decrease in depreciation expense over the term that these assets would have been depreciated. This change in threshold is expected to benefit us through the immediate

recognition of tax deductible costs.

We regularly perform reviews to determine whether facts and circumstances exist which indicate that the carrying amount of assets, including estimates of residual value, may not be recoverable or that the useful life of assets are shorter or longer than originally estimated. Reductions in residual values (i.e., the price at which we ultimately expect to dispose of revenue earning equipment) or useful lives will result in an increase in depreciation expense over the remaining life of the equipment. Reviews are performed based on vehicle class, generally subcategories of trucks and trailers. We assess the recoverability of our assets by comparing the projected undiscounted net cash flows associated with the related asset or group of assets over their estimated remaining lives against their respective carrying amounts. We consider factors such as current and expected future market price trends on used vehicles and the expected life of vehicles included in the fleet. Impairment, if any, is based on the excess of the carrying amount over the fair value of those assets. If asset residual values are determined to be recoverable, but the useful lives are shorter or longer than originally estimated, the net book value of the assets is depreciated over the newly determined remaining useful lives.

Management determined that additions to the fleet resulting from purchases should be depreciated on an accelerated method based upon a declining formula. Under the declining balances method (2.4 times declining balance), the book value of a rental truck is reduced approximately 16%, 13%, 11%, 9%, 8%, 7%, and 6% during years one through seven, respectively, and then reduced on a straight line basis to a salvage value of 20% by the end of year fifteen. Beginning in October 2012, rental equipment subject to this depreciation schedule will be depreciated to a salvage value of 15%. Comparatively, a standard straight line approach would reduce the book value by approximately 5.7% per year over the life of the truck.

Although we intend to sell our used vehicles for prices approximating book value, the extent to which we realize a gain or loss on the sale of used vehicles is dependent upon various factors including but not limited to, the general state of the used vehicle market, the age and condition of the vehicle at the time of its disposal and the depreciation rates with respect to the vehicle. We typically sell our used vehicles at our sales centers throughout North America, on our website at uhaul.com/trucksales or by phone at 1-866-404-0355. Additionally, we sell a large portion of our pickup and cargo van fleet at automobile dealer auctions.

Insurance Reserves

Liabilities for life insurance and certain annuity and health policies are established to meet the estimated future obligations of policies in force, and are based on mortality, morbidity and withdrawal assumptions from recognized actuarial tables which contain margins for adverse deviation. In addition, liabilities for health, disability and other policies include estimates of payments to be made on insurance claims for reported losses and estimates of losses incurred, but not yet reported ("IBNR"). Liabilities for annuity contracts consist of contract account balances that accrue to the benefit of the policyholders.

Insurance reserves for Property and Casualty Insurance and U-Haul take into account losses incurred based upon actuarial estimates and are management's best approximation of future payments. These estimates are based upon past claims experience and current claim trends as well as social and economic conditions such as changes in legal theories and inflation. These reserves consist of case reserves for reported losses and a provision for losses IBNR, both reduced by applicable reinsurance recoverables, resulting in a net liability.

Due to the nature of the underlying risks and high degree of uncertainty associated with the determination of the liability for future policy benefits and claims, the amounts to be ultimately paid to settle these liabilities cannot be precisely determined and may vary significantly from the estimated liability, especially for long-tailed casualty lines of business such as excess workers' compensation. As a result of the long-tailed nature of the excess workers'

compensation policies written by Repwest during 1983 through 2001, it may take a number of years for claims to be fully reported and finally settled.

On a regular basis insurance reserve adequacy is reviewed by management to determine if existing assumptions need to be updated. In determining the assumptions for calculating workers' compensation reserves, management considers multiple factors including the following:

- Claimant longevity
- Cost trends associated with claimant treatments

- Changes in ceding entity and third party administrator reporting practices
- Changes in environmental factors including legal and regulatory
- Current conditions affecting claim settlements
- Future economic conditions including inflation

We have reserved each claim based upon the accumulation of current claim costs projected through each claimant's life expectancy, and then adjusted for applicable reinsurance arrangements. Management reviews each claim bi-annually to determine if the estimated life-time claim costs have increased and then adjusts the reserve estimate accordingly at that time. We have factored in an estimate of what the potential cost increases could be in our IBNR liability. We have not assumed settlement of the existing claims in calculating the reserve amount, unless it is in the final stages of completion.

Continued increases in claim costs, including medical inflation and new treatments and medications could lead to future adverse development resulting in additional reserve strengthening. Conversely, settlement of existing claims or if injured workers return to work or expire prematurely, could lead to future positive development.

Impairment of Investments

Investments are evaluated pursuant to guidance contained in ASC 320 - Investments - Debt and Equity Securities to determine if and when a decline in market value below amortized cost is other-than-temporary. Management makes certain assumptions or judgments in its assessment including but not limited to: our ability and intent to hold the security, quoted market prices, dealer quotes or discounted cash flows, industry factors, financial factors, and issuer specific information such as credit strength. Other-than-temporary impairment in value, if any, is recognized in the current period operating results. There were no write downs in the third quarter or first nine months of fiscal 2017 or 2016.

Income Taxes

We file a consolidated tax return with all of our legal subsidiaries.

Our tax returns are periodically reviewed by various taxing authorities. The final outcome of these audits may cause changes that could materially impact our financial results.

Fair Values

Fair values of cash equivalents approximate carrying value due to the short period of time to maturity. Fair values of short term investments, investments available-for-sale, long term investments, mortgage loans and notes on real estate, and interest rate swap contracts are based on quoted market prices, dealer quotes or discounted cash flows. Fair values of trade receivables approximate their recorded value.

Our financial instruments that are exposed to concentrations of credit risk consist primarily of temporary cash investments, trade receivables, reinsurance recoverables and notes receivable. Limited credit risk exists on trade receivables due to the diversity of our customer base and their dispersion across broad geographic markets. We place our temporary cash investments with financial institutions and limit the amount of credit exposure to any one financial institution.

We have mortgage receivables, which potentially expose us to credit risk. The portfolio of notes is principally collateralized by self-storage facilities and commercial properties. We have not experienced any material losses related to the notes from individual or groups of notes in any particular industry or geographic area. The estimated fair values were determined using the discounted cash flow method and using interest rates currently offered for similar loans to borrowers with similar credit ratings.

The carrying amount of long term debt and short term borrowings are estimated to approximate fair value as the actual interest rate is consistent with the rate estimated to be currently available for debt of similar term and remaining maturity.

Other investments including short term investments are substantially current or bear reasonable interest rates. As a result, the carrying values of these financial instruments approximate fair value.

Adoption of New Accounting Pronouncements

In March 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2015-03, Simplifying the Presentation of Debt Issuance Costs. The amendments in this update require that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The recognition and measurement guidance for debt issuance costs are not affected by the amendments in this update. The guidance was effective for interim periods and the annual period beginning after December 15, 2015. The adoption of this standard did not have a material impact on our consolidated financial statements.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers, an updated standard on revenue recognition. The standard creates a five-step model for revenue recognition that requires companies to exercise judgment when considering contract terms and relevant facts and circumstances. The standard requires expanded disclosure surrounding revenue recognition. Early application is not permitted. The standard was initially to be effective for fiscal periods beginning after December 15, 2016 and allows for either full retrospective or modified retrospective adoption. In July 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers, Deferral of Effective Date, which delays the effective date of ASU 2014-09 by one year to fiscal periods beginning after December 15, 2017. In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers, Principal versus Agent Considerations (Reporting Revenue Gross versus Net), which is intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations and the effective date is the same as requirements in ASU 2015-14. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments – Overall (subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. ASU 2016-01 addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. Among other provisions, the new guidance requires the fair value measurement of investments in certain equity securities. For investments without readily determinable fair values, entities have the option to either measure these investments at fair value or at cost adjusted for changes in observable prices minus impairment. All changes in measurement will be recognized in net income. The guidance is effective for interim periods and annual period beginning after December 15, 2017. Early adoption is not permitted, except for certain provisions relating to financial liabilities. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases – (Topic 842). This update will require lessees to recognize all leases with terms greater than 12 months on their balance sheet as lease liabilities with a corresponding right-of-use asset. This update maintains the dual model for lease accounting, requiring leases to be classified as either operating or finance, with lease classification determined in a manner similar to existing lease guidance. The basic principle is that leases of all types convey the right to direct the use and obtain substantially all the economic benefits of an identified asset, meaning they create an asset and liability for lessees. Lessees will classify leases as either finance leases (comparable to current capital leases) or operating leases (comparable to current operating leases). Costs for a finance lease will be split between amortization and interest expense, with a single lease expense reported for operating leases. This update also will require both qualitative and quantitative disclosures to help investors and other financial statement users better understand the amount, timing, and uncertainty of cash flows arising from leases. The guidance is effective for interim periods and annual period beginning after December 15, 2018; however early adoption is permitted. We are currently evaluating the impact of the adoption of this standard on our consolidated financial statements. For the last nine years, we have reported a discounted estimate of the off-balance sheet lease

obligations in our MD&A.

41

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses (Topic 326). This update will require that financial assets measured at amortized cost be presented at the net amount expected to be collected. The allowance for credit losses is a valuation account that is deducted from the amortized cost basis. The income statement reflects the measurement of credit losses for newly recognized financial assets, as well as the expected credit losses during the period. The measurement of expected credit losses is based upon historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. Credit losses relating to available-for-sale debt securities will be recorded through an allowance for credit losses rather than as a direct write-down to the security. This update will become effective for the Company for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. The Company is currently evaluating the impact of this standard on our consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments (“ASU 2016-15”). This update addresses eight specific cash flow issues with the objective of reducing the existing diversity in practice. The effective date of ASU 2016-15 is for interim and annual reporting periods beginning after December 15, 2017. Early adoption is permitted. The Company is currently evaluating the impact of this standard on our consolidated financial statements.

In October 2016, the FASB issued ASU 2016-16, Income Taxes - Intra-Entity Transfers of Assets Other Than Inventory, which will require an entity to recognize the income tax consequences of an intra-entity transfer of an asset, other than inventory, when the transfer occurs. This update will become effective for the Company for fiscal years beginning after December 31, 2017, and interim periods within those fiscal years with early adoption permitted. The Company is currently evaluating the impact of this standard on our consolidated financial statements.

In October 2016, the FASB issued ASU 2016-17, Interests Held through Related Parties That Are under Common Control (“ASU 2016-17”), which modifies existing guidance with respect to how a decision maker that holds an indirect interest in a VIE through a common control party determines whether it is the primary beneficiary of the VIE as part of the analysis of whether the VIE would need to be consolidated. Under ASU 2016-17, a decision maker would need to consider only its proportionate indirect interest in the VIE held through a common control party. Previous guidance had required the decision maker to treat the common control party’s interest in the VIE as if the decision maker held the interest itself. As a result of ASU 2016-17, in certain cases, previous consolidation conclusions may change. This update will become effective for the Company for fiscal years beginning after December 31, 2016, and interim periods within those years, with early adoption permitted. The Company is currently evaluating the impact of this standard on our consolidated financial statements.

In November 2016, the FASB issued ASU 2016-18, Statement of Cash Flows (Topic 230) Restricted Cash. The new guidance requires that the reconciliation of the beginning-of-period and end-of-period amounts shown in the statements of cash flows include restricted cash and restricted cash equivalents. If restricted cash is presented separately from cash and cash equivalents on the balance sheet, companies will be required to reconcile the amounts presented on the statement of cash flows to the amounts on the balance sheet. Companies will also need to disclose information about the nature of the restrictions. This update will become effective for the Company for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years, with early adoption permitted. The Company is currently evaluating the impact of this standard on our consolidated financial statements.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805) Clarifying the Definition of a Business. This update is to clarify the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. The definition of a business affects many areas of accounting including acquisitions, disposals, goodwill, and

consolidation. This update will become effective for the Company for fiscal years beginning after December 15, 2017, including interim periods within those years. The Company is currently evaluating the impact of this standard on our consolidated financial statements.

From time to time, new accounting pronouncements are issued by the FASB or the SEC that are adopted by us as of the specified effective date. Unless otherwise discussed, these ASUs entail technical corrections to existing guidance or affect guidance related to specialized industries or entities and therefore will have minimal, if any, impact on our financial position or results of operations upon adoption.

Results of Operations

AMERCO and Consolidated Entities

Quarter Ended December 31, 2016 compared with the Quarter Ended December 31, 2015

Listed below on a consolidated basis are revenues for our major product lines for the third quarter of fiscal 2017 and the third quarter of fiscal 2016:

	Quarter Ended December 31, 2016 2015 (Unaudited) (In thousands)	
Self-moving equipment rentals	\$541,473	\$517,403
Self-storage revenues	72,309	63,164
Self-moving and self-storage products and service sales	51,562	50,038
Property management fees	9,734	8,170
Life insurance premiums	41,279	40,657
Property and casualty insurance premiums	14,938	14,105
Net investment and interest income	23,054	19,026
Other revenue	36,327	32,188
Consolidated revenue	\$790,676	\$744,751

Self-moving equipment rental revenues increased \$24.1 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016. The improvement in revenue was generated from an increase in transactions from both our In-Town and one-way truck business. Our distribution network continued to expand with the addition of new independent dealers and Company-owned locations. The average number of rental trucks in the fleet increased compared with the same quarter last year.

Self-storage revenues increased \$9.1 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016. The average monthly amount of occupied square feet increased by 10.9% during the third quarter of fiscal 2017 compared with the same period last year. The growth in revenues and square feet rented comes from a combination of improved rates per square foot, occupancy gains at existing locations and from the addition of new facilities to the portfolio. Over the last twelve months, we added approximately 3.1 million net rentable square feet, or a 13.5% increase, with approximately 0.8 million added during the third quarter of fiscal 2017.

Life insurance premiums increased \$0.6 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016 due primarily to increased life and Medicare supplement premiums.

Property and casualty insurance premiums increased \$0.8 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016 due to an increase in Safetow and Safestor sales which is a reflection of the increased equipment and storage rental transactions.

Net investment and interest income increased \$4.0 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016 due to a larger invested asset base at our insurance companies and gains generated from our mortgage loan portfolio.

Other revenue increased \$4.1 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016, primarily coming from growth in our U-Box® program.

As a result of the items mentioned above, revenues for AMERCO and its consolidated entities were \$790.7 million for the third quarter of fiscal 2017, compared with \$744.8 million for the third quarter of fiscal 2016.

Listed below are revenues and earnings from operations at each of our operating segments for the third quarter of fiscal 2017 and the third quarter of fiscal 2016. The insurance companies' third quarters ended September 30, 2016 and 2015.

Total costs and expenses increased \$71.6 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016. Our insurance segments accounted for \$4.5 million of the increase primarily due to increased benefit costs. Moving and Storage total costs and expenses increased \$67.0 million, primarily due to increased personnel costs, equipment maintenance and property tax, as well as a change in the accounting threshold for the expensing of smaller capital items. Depreciation expense increased \$25.9 million due to the additional amount of equipment in the rental fleet. Gains from the disposal of property, plant and equipment decreased \$4.5 million. This resulted in an increase of \$30.4 million in depreciation expense, net. On average, the trucks sold during the third quarter of this year had a higher cost and we experienced a decrease in the average sales proceeds per unit. Lease expense decreased \$1.7 million as a result of our shift in financing new equipment on the balance sheet versus through operating leases.

As a result of the above mentioned changes in revenues and expenses, earnings from operations decreased to \$132.2 million for the third quarter of fiscal 2017, compared with \$157.9 million for the third quarter of fiscal 2016.

Interest expense for the third quarter of fiscal 2017 was \$29.0 million, compared with \$25.4 million for the third quarter of fiscal 2016 primarily due to increased borrowings in fiscal 2017 partially offset by lower average borrowing costs. In addition, we incurred costs associated with the early extinguishment of debt during the third quarter of fiscal 2017 of \$0.5 million for the write-off of transaction cost amortization related to defeased debt.

Income tax expense was \$37.5 million for the third quarter of fiscal 2017, compared with \$50.7 million for the third quarter of fiscal 2016 due to higher pretax earnings for the third quarter of fiscal 2016.

As a result of the above mentioned items, earnings available to common shareholders were \$65.2 million for the third quarter of fiscal 2017, compared with \$81.8 million for the third quarter of fiscal 2016.

Basic and diluted earnings per share for the third quarter of fiscal 2017 were \$3.33, compared with \$4.17 for the third quarter of fiscal 2016.

The weighted average common shares outstanding basic and diluted were 19,586,694 for the third quarter of fiscal 2017, compared with 19,599,352 for the third quarter of fiscal 2016.

Moving and Storage

Quarter Ended December 31, 2016 compared with the Quarter Ended December 31, 2015

Listed below are revenues for the major product lines at our Moving and Storage operating segment for the third quarter of fiscal 2017 and the third quarter of fiscal 2016:

	Quarter Ended December 31, 2016 2015 (Unaudited) (In thousands)	
Self-moving equipment rentals	\$542,545	\$518,438
Self-storage revenues	72,309	63,164
Self-moving and self-storage products and service sales	51,562	50,038
Property management fees	9,734	8,170
Net investment and interest income	2,570	1,976
Other revenue	35,264	30,966
Moving and Storage revenue	\$713,984	\$672,752

Self-moving equipment rental revenues increased \$24.1 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016. The improvement in revenue was generated from an increase in transactions from both our In-Town and one-way truck business. Our distribution network continued to expand with the addition of new independent dealers and Company-owned locations. The average number of rental trucks in the fleet increased compared with the same quarter last year.

Self-storage revenues increased \$9.1 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016. The average monthly amount of occupied square feet increased by 10.9% during the third quarter of fiscal 2017 compared with the same period last year. The growth in revenues and square feet rented comes from a combination of improved rates per square foot, occupancy gains at existing locations and from the addition of new facilities to the portfolio. Over the last twelve months, we added approximately 3.1 million net rentable square feet, or a 13.5% increase, with approximately 0.8 million added during the third quarter of fiscal 2017.

Net investment and interest income increased \$0.6 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016.

Other revenue increased \$4.3 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016 caused primarily by growth in the U-Box® program.

The Company owns and manages self-storage facilities. Self-storage revenues reported in the consolidated financial statements represent Company-owned locations only. Self-storage data for our owned storage locations follows:

Average number of rooms occupied	227	205
Average occupancy rate based on room count	75.1%	78.4%
Average square footage occupied	20,515	18,493

The 3.1 million net rentable square feet that we've added over the last twelve months was a mix of existing storage locations we acquired and new development. On average, the occupancy rate of this new capacity on the date it was added was approximately 15%.

Total costs and expenses increased \$67.0 million during the third quarter of fiscal 2017, compared with the third quarter of fiscal 2016, primarily due to increased personnel costs, equipment maintenance and property tax, as well as a change in the accounting threshold for the expensing of smaller capital items. Depreciation expense increased \$25.9 million due to the additional amount of equipment in the rental fleet. Gains from the disposal of property, plant and equipment decreased \$4.5 million. This resulted in an increase of \$30.4 million in depreciation expense, net. On average the trucks sold had a higher average cost and we experienced a decrease in the average sales proceeds per unit.

As a result of the above mentioned changes in revenues and expenses, earnings from operations for Moving and Storage before consolidation of the equity in the earnings of the insurance subsidiaries, decreased to \$118.3 million for the third quarter of fiscal 2017, compared with \$144.1 million for the third quarter of fiscal 2016.

Equity in the earnings of AMERCO's insurance subsidiaries was \$9.0 million and \$9.1 million for the third quarter of fiscal 2017 and 2016, respectively.

As a result of the above mentioned changes in revenues and expenses, earnings from operations decreased to \$127.3 million for the third quarter of fiscal 2017, compared with \$153.2 million for the third quarter of fiscal 2016.

Property and Casualty Insurance

Quarter Ended September 30, 2016 compared with the Quarter Ended September 30, 2015

Net premiums were \$14.9 million and \$14.1 million for the third quarters ended September 30, 2016 and 2015, respectively. A significant portion of Repwest's premiums are from policies sold in conjunction with U-Haul rental transactions. The premium increase corresponded with the increased moving and storage transactions at U-Haul during the same time period as well as from sales of Safestor through independent storage operators not owned or managed by U-Haul.

Net investment income was \$3.4 million and \$3.3 million for the third quarters ended September 30, 2016 and 2015, respectively, primarily from an increased invested asset base.

Net operating expenses were \$7.7 million and \$7.0 million for the third quarters ended September 30, 2016 and 2015, respectively, due primarily to an increase in commissions offset by various reductions in operating costs.

Benefits and losses incurred were \$3.5 million and \$4.0 million for the third quarters ended September 30, 2016 and 2015, respectively.

As a result of the above mentioned changes in revenues and expenses, pretax earnings from operations were \$7.2 million and \$6.3 million for the third quarters ended September 30, 2016 and 2015, respectively.

Life Insurance

Quarter Ended September 30, 2016 compared with the Quarter Ended September 30, 2015

Net premiums were \$41.3 million and \$40.7 million for the quarters ended September 30, 2016 and 2015, respectively, due primarily to increased renewal and single premiums on life insurance policies. Annuity deposits, which are accounted for on the balance sheet as deposits, were \$50.4 million, a decrease of \$42.3 million compared with the same period last year.

Net investment and interest income was \$17.2 million and \$14.0 million for the quarters ended September 30, 2016 and 2015, respectively. The increase in net investment income was attributable to a larger asset base and the gains from our mortgage loans portfolio. This was partially offset by a decrease in capital gains.

Net operating expenses were \$5.7 million and \$5.8 million for the quarters ended September 30, 2016 and 2015, respectively.

Benefits and losses incurred were \$41.9 million and \$37.5 million for the quarters ended September 30, 2016 and 2015, respectively. Interest credited to policyholders increased \$5.1 million as a result of the increased deferred annuity deposit base and lower interest credited on policyholder accounts indexed to an S&P index in the third quarter of 2015. Incurred Medicare supplement and other health benefits decreased \$0.8 million offset by a \$1.1 increase in life and other benefits.

Amortization of deferred acquisition costs (“DAC”), sales inducement asset (“SIA”) and the value of business acquired (“VOBA”) was \$5.2 million and \$5.1 million for the quarters ended September 30, 2016 and 2015, respectively.

As a result of the above mentioned changes in revenues and expenses, pretax earnings from operations were \$6.9 million and \$7.7 million for the quarters ended September 30, 2016 and 2015, respectively.

Total costs and expenses increased \$181.4 million during the first nine months of fiscal 2017, compared with the first nine months of fiscal 2016. Our insurance segments accounted for \$15.4 million of the increase primarily due to increased benefit costs.

Moving and Storage total costs and expenses increased \$166.2 million. In October 2016, we settled the litigation with PEI, see Note 9, Contingencies, to our Condensed Consolidated Financial Statements. As part of this settlement, we paid \$41.4 million to PEI. In fiscal 2015 and fiscal 2016, we recorded \$66.0 million as accrued contingencies and interest. During the second quarter of fiscal 2017, we recognized the difference between our contingency accrual and the actual settlement as a \$24.6 million reduction of operating expenses. Excluding the effect of the reversal of this accrual during fiscal 2017, operating expenses increased \$70.8 million for Moving and Storage, primarily due to increased personnel costs, equipment maintenance and property tax, as well as a change in the accounting threshold for the expensing of smaller capital items led to the additional costs. Depreciation expense increased \$66.6 million due to the additional amount of equipment in the rental fleet. Gains from the disposal of property, plant and equipment decreased \$55.0 million. This resulted in an increase of \$121.6 million in depreciation expense, net. Compared with the first nine months of last year, we sold fewer used trucks. On average the trucks sold had a higher average cost and we experienced a decrease in the average sales proceeds per unit. Lease expense decreased \$11.0 million as a result of our shift in financing new equipment on the balance sheet versus through operating leases.

As a result of the above mentioned changes in revenues and expenses, earnings from operations decreased to \$699.2 million for the first nine months of fiscal 2017, as compared with \$760.1 million for the first nine months of fiscal 2016.

Interest expense for the first nine months of fiscal 2017 was \$83.9 million, compared with \$71.5 million for the first nine months of fiscal 2016 due to increased borrowings in fiscal 2017 partially offset by lower borrowing costs. In

addition, we incurred costs associated with the early extinguishment of debt during the third quarter of fiscal 2017 of \$0.5 million for the write-off of transaction cost amortization related to defeased debt.

Income tax expense was \$225.9 million for the first nine months of fiscal 2017, compared with \$252.2 million for first nine months of fiscal 2016 due to higher pretax earnings for the first nine months of fiscal 2016.

As a result of the above mentioned items, earnings available to common shareholders were \$388.9 million for the first nine months of fiscal 2017, compared with \$436.4 million for the first nine months of fiscal 2016.

Basic and diluted earnings per common share for the first nine months of fiscal 2017 were \$19.85, compared with \$22.27 for the first nine months of fiscal 2016.

The weighted average common shares outstanding basic and diluted were 19,586,389 for the first nine months of fiscal 2017, compared with 19,597,735 for the first nine months of fiscal 2016.

Moving and Storage

Nine months Ended December 31, 2016 compared with the Nine months Ended December 31, 2015

Listed below are revenues for the major product lines at our Moving and Storage operating segment for the first nine months of fiscal 2017 and the first nine months of fiscal 2016:

As a result of the above mentioned changes in revenues and expenses, earnings from operations for the Moving and Storage operating segment before consolidation of the equity in the earnings of the insurance subsidiaries decreased to \$659.9 million for the first nine months of fiscal 2017, compared with \$721.8 million for the first nine months of fiscal 2016.

Equity in the earnings of AMERCO's insurance subsidiaries was \$25.9 million for the first nine months of fiscal 2017, compared with \$25.2 million for the first nine months of fiscal 2016.

As a result of the above mentioned changes in revenues and expenses, earnings from operations decreased to \$685.8 million for the first nine months of fiscal 2017, compared with \$747.0 million for the first nine months of fiscal 2016.

Property and Casualty Insurance

Nine months Ended September 30, 2016 compared with the Nine months Ended September 30, 2015

Net premiums were \$40.2 million and \$38.0 million for the first nine months ended September 30, 2016 and 2015, respectively. A significant portion of Repwest's premiums are from policies sold in conjunction with U-Haul rental transactions. The premium increase corresponded with increased moving and storage transactions at U-Haul during the same time period.

Net investment income was \$13.0 million and \$10.8 million for the first nine months ended September 30, 2016 and 2015, respectively. The increase was primarily due to \$2.4 million in gains on the repayment of mortgage loans compared with \$0.7 million in the same period last year combined with additional income from an increased invested asset base.

Net operating expenses were \$21.2 million and \$20.5 million for the first nine months ended September 30, 2016 and 2015, respectively, primarily due to an increase in commissions partially offset by various reductions in operating costs.

Benefits and losses incurred were \$10.1 million and \$9.6 million for the first nine months ended September 30, 2016 and 2015, respectively. The increase was primarily due to \$1.1 million of adverse development during the current year period compared with \$0.4 million of adverse reserve development in the prior year period. The majority of the reserve development in both years occurred in the Safe programs.

As a result of the above mentioned changes in revenues and expenses, pretax earnings from operations were \$21.8 million and \$18.8 million for the first nine months ended September 30, 2016 and 2015, respectively.

Life Insurance

Nine months Ended September 30, 2016 compared with the Nine months Ended September 30, 2015

Net premiums were \$123.1 million and \$121.4 million for the nine months ended September 30, 2016 and 2015, respectively. A net increase of \$1.1 million in Life and Medicare Supplement premiums was primarily due to the increase in renewal premiums from rate increases offset by a reduction in new sales and lower premiums on the run off business. An additional increase of \$0.6 million was from supplemental contract considerations. Deferred Annuity deposits were \$162.1 million or \$40.8 million below prior year; accounted for on balance sheet as deposits rather than premiums.

Net investment income was \$57.0 million and \$46.3 million for the nine months ended September 30, 2016 and 2015, respectively. The increase of \$13.2 million in net investment income is attributable to a larger asset base and the gains from our mortgage loan portfolio. This was partially offset by a \$2.5 million decrease in capital gains in our fixed income portfolio.

Net operating expenses were \$17.3 million and \$17.0 million for the nine months ended September 30, 2016 and 2015, respectively.

Benefits and losses incurred were \$129.1 million and \$118.8 million for the nine months ended September 30, 2016 and 2015, respectively. Medicare Supplement benefits increased by \$4.6 million as a result of the increase in total policies in force from prior and new sales and the increased benefit to premium ratio. Life, annuities and other health benefits increased \$0.6 million. Interest credited to policyholders increased \$5.1 million as a result of the increased deferred annuity deposit base and lower interest credited on policyholder accounts indexed to an S&P index in the third quarter of 2015.

DAC, SIA and VOBA were \$19.1 million and \$15.6 million for the nine months ended September 30, 2016 and 2015, respectively. The increase was due to DAC amortization generated by the investment gains along with increased amortization associated with a larger DAC asset.

As a result of the above mentioned changes in revenues and expenses, pretax earnings from operations were \$17.9 million and \$20.0 million for the nine months ended September 30, 2016 and 2015, respectively.

Liquidity and Capital Resources

We believe our current capital structure is a positive factor that will enable us to pursue our operational plans and goals, and provide us with sufficient liquidity for the foreseeable future. There are many factors which could affect our liquidity, including some which are beyond our control, and there is no assurance that future cash flows and liquidity resources will be sufficient to meet our outstanding debt obligations and our other future capital needs.

At December 31, 2016, cash and cash equivalents totaled \$984.2 million, compared with \$600.6 million at March 31, 2016. The assets of our insurance subsidiaries are generally unavailable to fulfill the obligations of non-insurance operations (Moving and Storage). As of December 31, 2016 (or as otherwise indicated), cash and cash equivalents, other financial assets (receivables, short-term investments, other investments, fixed maturities, and related party assets) and debt obligations of each operating segment were:

(a) As of September 30, 2016

At December 31, 2016, Moving and Storage had additional cash available under existing credit facilities of \$96.0 million. The majority of invested cash at the Moving and Storage segment is held in government money market funds.

Net cash provided by operating activities increased \$76.2 million in the first nine months of fiscal 2017 compared with the first nine months of fiscal 2016. The improvement in Moving and Storage was due to operations and a reduction in federal income tax payments. The first nine months of fiscal 2016 included a \$56.8 million payment from Private Mini that did not recur this year.

Net cash used in investing activities decreased \$84.1 million in the first nine months of fiscal 2017, compared with the first nine months of fiscal 2016. Purchases of property, plant and equipment, which are reported net of cash from sales and lease-back transactions, decreased \$70.5 million. Cash from the sales of property, plant and equipment decreased \$50.7 million largely due to reduced fleet sales. For our insurance subsidiaries, net cash used in investing activities decreased \$69.2 million due to higher investment sales proceeds compared with the prior year period.

Net cash provided by financing activities decreased \$11.0 million in the first nine months of fiscal 2017, as compared with the first nine months of fiscal 2016. This was due to a combination of decreased debt and capital lease repayments of \$4.3 million, an increase in cash from borrowings of \$25.7 million, a decrease in stock dividends paid of \$39.2 million and a decrease in net annuity deposits from Life Insurance of \$75.6 million.

Liquidity and Capital Resources and Requirements of Our Operating Segments

Moving and Storage

To meet the needs of our customers, U-Haul maintains a large fleet of rental equipment. Capital expenditures have primarily consisted of new rental equipment acquisitions and the buyouts of existing fleet from leases. The capital to fund these expenditures has historically been obtained internally from operations and the sale of used equipment and externally from debt and lease financing. In the future, we anticipate that our internally generated funds will be used to service the existing debt and fund operations. U-Haul estimates that during fiscal 2017, we will reinvest in our truck and trailer rental fleet approximately \$670 million, net of equipment sales excluding any lease buyouts. Through the first nine months of fiscal 2017, we have invested, net of sales, approximately \$466 million before any lease buyouts in our truck and trailer fleet of this projected amount. Fleet investments in fiscal 2017 and beyond will be dependent upon several factors including availability of capital, the truck rental environment and the used-truck sales market. We anticipate that the remaining fiscal 2017 investments will be funded largely through debt financing, external lease financing and cash from operations. Management considers several factors including cost and tax consequences when selecting a method to fund capital expenditures. Our allocation between debt and lease financing can change from year to year based upon financial market conditions which may alter the cost or availability of financing options.

Real Estate has traditionally financed the acquisition of self-storage properties to support U-Haul's growth through debt financing and funds from operations and sales. Our plan for the expansion of owned storage properties includes the acquisition of existing self-storage locations from third parties, the acquisition and development of bare land, and the acquisition and redevelopment of existing buildings not currently used for self-storage. We are funding these development projects through construction loans and internally generated funds. For the first nine months of fiscal 2017, we invested approximately \$378 million in real estate acquisitions, new construction and renovation and major repairs. For the remainder of fiscal 2017, the timing of new projects will be dependent upon several factors including the entitlement process, availability of capital, weather, and the identification and successful acquisition of target properties. U-Haul's growth plan in self-storage also includes the expansion of the U-Haul Storage Affiliate program, which does not require significant capital.

Net capital expenditures (purchases of property, plant and equipment less proceeds from the sale of property, plant and equipment and lease proceeds) were \$568.4 million and \$588.2 million for the first nine months of fiscal 2017 and 2016, respectively. The components of our net capital expenditures are provided in the following table:

	Nine Months Ended	
	December 31,	
	2016	2015
	(Unaudited)	
	(In thousands)	
Purchases of rental equipment	\$869,878	\$585,623

Purchases of real estate, construction and renovations	378,017	439,117
Other capital expenditures	95,942	62,423
Gross capital expenditures	1,360,677	1,168,881
Less: Lease proceeds	(379,361)	(117,051)
Less: Sales of property, plant and equipment	(412,892)	(463,602)
Net capital expenditures	\$568,424	\$588,228

Moving and Storage continues to hold significant cash and has access to additional liquidity. Management may invest these funds in our existing operations, expand our product lines or pursue external opportunities in the self-moving and storage market place or reduce existing indebtedness where possible.

Property and Casualty Insurance

State insurance regulations restrict the amount of dividends that can be paid to stockholders of insurance companies. As a result, Property and Casualty Insurance's assets are generally not available to satisfy the claims of AMERCO or its legal subsidiaries.

We believe that stockholder's equity at Property and Casualty Insurance remains sufficient and we do not believe that its ability to pay ordinary dividends to AMERCO will be restricted per state regulations.

Property and Casualty Insurance's stockholder's equity was \$183.3 million and \$160.6 million at September 30, 2016 and December 31, 2015, respectively. The increase resulted from net earnings of \$14.3 million and an increase in other comprehensive income of \$8.4 million. Property and Casualty Insurance does not use debt or equity issues to increase capital and therefore has no direct exposure to capital market conditions other than through its investment portfolio.

Life Insurance

Life Insurance manages its financial assets to meet policyholder and other obligations including investment contract withdrawals and deposits. Life Insurance's net deposits for the first nine months ended September 30, 2016 were \$116.1 million. State insurance regulations restrict the amount of dividends that can be paid to stockholders of insurance companies. As a result, Life Insurance's funds are generally not available to satisfy the claims of AMERCO or its legal subsidiaries.

Life Insurance's stockholder's equity was \$317.0 million and \$271.7 million at September 30, 2016 and December 31, 2015, respectively. The increase resulted from net earnings of \$11.6 million and an increase in other comprehensive income of \$33.7 million. Life Insurance has not historically used debt or equity issues to increase capital and therefore has not had any significant direct exposure to capital market conditions other than through its investment portfolio.

However, as of September 30, 2016, Oxford had outstanding deposits of \$30.0 million through its membership in the Federal Home Loan Bank system (“FHLB”). For a more detailed discussion of this deposit, please see Note 4, Borrowings, of the Notes to Condensed Consolidated Financial Statements.

Cash Provided from Operating Activities by Operating Segments

Moving and Storage

Net cash provided from operating activities were \$881.3 million and \$794.3 million for the first nine months of fiscal 2017 and 2016, respectively. The improvement in Moving and Storage was due to operations and a reduction in federal income tax payments. The first nine months of fiscal 2016 included a \$56.8 million payment from Private Mini that did not recur this year.

Property and Casualty Insurance

Net cash provided by operating activities were \$14.4 million and \$14.6 million for the first nine months ended September 30, 2016 and 2015, respectively.

Property and Casualty Insurance's cash and cash equivalents and short-term investment portfolios amounted to \$29.2 million and \$24.3 million at September 30, 2016 and December 31, 2015, respectively. These balances reflect funds in transition from maturity proceeds to long term investments. Management believes this level of liquid assets, combined with budgeted cash flow, is adequate to meet foreseeable cash needs. Capital and operating budgets allow Property and Casualty Insurance to schedule cash needs in accordance with investment and underwriting proceeds.

Life Insurance

Net cash provided by operating activities were \$34.8 million and \$45.4 million for the first nine months ended September 30, 2016 and 2015, respectively. The decrease in cash provided was primarily due to timing of the collection of receivables and settlement of payables, offset by an increase in investment income.

In addition to cash flows from operating activities and financing activities, a substantial amount of liquid funds are available through Life Insurance's short-term portfolio and its membership in the FHLB. At September 30, 2016 and December 31, 2015, cash and cash equivalents and short-term investments amounted to \$18.4 million and \$25.5 million, respectively. Management believes that the overall sources of liquidity are adequate to meet foreseeable cash needs.

Liquidity and Capital Resources - Summary

We believe we have the financial resources needed to meet our business plans, including our working capital needs. We continue to hold significant cash and have access to existing credit facilities and additional liquidity to meet our anticipated capital expenditure requirements for investment in our rental fleet, rental equipment and storage acquisitions and build outs.

Our borrowing strategy is primarily focused on asset-backed financing and rental equipment leases. As part of this strategy, we seek to ladder maturities and hedge floating rate loans through the use of interest rate swaps. While each of these loans typically contains provisions governing the amount that can be borrowed in relation to specific assets, the overall structure is flexible with no limits on overall Company borrowings. Management believes it has adequate liquidity between cash and cash equivalents and unused borrowing capacity in existing credit facilities to meet the current and expected needs of the Company over the next several years. At December 31, 2016, we had available borrowing capacity under existing credit facilities of \$96.0 million. It is possible that circumstances beyond our control could alter the ability of the financial institutions to lend us the unused lines of credit. We believe that there are additional opportunities for leverage in our existing capital structure. For a more detailed discussion of our long-term debt and borrowing capacity, please see Note 4, Borrowings, of the Notes to Condensed Consolidated Financial Statements.

Fair Value of Financial Instruments

Certain assets and liabilities are recorded at fair value on the condensed consolidated balance sheets and are measured and classified based upon a three tiered approach to valuation. ASC 820 requires that financial assets and liabilities recorded at fair value be classified and disclosed in a Level 1, Level 2 or Level 3 category. For more information, please see Note 14, Fair Value Measurements, of the Notes to Condensed Consolidated Financial Statements.

The available-for-sale securities held by us are recorded at fair value. These values are determined primarily from actively traded markets where prices are based either on direct market quotes or observed transactions. Liquidity is a factor considered during the determination of the fair value of these securities. Market price quotes may not be readily available for certain securities or the market for them has slowed or ceased. In situations where the market is determined to be illiquid, fair value is determined based upon limited available information and other factors including expected cash flows. At December 31, 2016, we had \$0.3 million of available-for-sale assets classified in Level 3.

The interest rate swaps held by us as hedges against interest rate risk for our variable rate debt are recorded at fair value. These values are determined using pricing valuation models which include broker quotes for which significant inputs are observable. They include adjustments for counterparty credit quality and other deal-specific factors, where appropriate and are classified as Level 2.

Disclosures about Contractual Obligations and Commercial Commitments

Our estimates as to future contractual obligations have not materially changed from the disclosure included under the subheading Disclosures about Contractual Obligations and Commercial Commitments in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations, of our Annual Report on Form 10-K for the fiscal year ended March 31, 2016.

Off-Balance Sheet Arrangements

We use off-balance sheet arrangements in situations where management believes that the economics and sound business principles warrant their use.

We utilize operating leases for certain rental equipment and facilities with terms expiring substantially through 2019. In the event of a shortfall in proceeds from the sales of the underlying rental equipment assets, we have guaranteed \$17.6 million of residual values at December 31, 2016 for these assets at the end of their respective lease terms. We have been leasing rental equipment since 1987. To date, we have not experienced residual value shortfalls related to these leasing arrangements. Using the average cost of fleet related debt as the discount rate, the present value of our minimum lease payments and residual value guarantees were \$40.3 million at December 31, 2016.

Historically, we have used off-balance sheet arrangements in connection with the expansion of our self-storage business. For more information please see Note 10, Related Party Transactions, of the Notes to Condensed Consolidated Financial Statements. These arrangements were primarily used when our overall borrowing structure was more limited. We do not face similar limitations currently and off-balance sheet arrangements have not been utilized in our self-storage expansion in recent years. In the future, we will continue to identify and consider off-balance sheet opportunities to the extent such arrangements would be economically advantageous to us and our stockholders.

We currently manage the self-storage properties owned or leased by SAC Holdings, Mercury, 4 SAC, 5 SAC, Galaxy, and Private Mini pursuant to a standard form of management agreement, under which we receive a management fee of between 4% and 10% of the gross receipts plus reimbursement for certain expenses. We received management fees, exclusive of reimbursed expenses, of \$21.8 million and \$21.4 million from the above mentioned entities during the first nine months of fiscal 2017 and 2016, respectively. This management fee is consistent with the fee received for other properties we previously managed for third parties. SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini are substantially controlled by Blackwater. Blackwater is wholly-owned by Willow Grove Holdings LP, which is owned by Mark V. Shoen (a significant shareholder) and various trusts associated with Edward J. Shoen (our Chairman of the Board, President and a significant shareholder) and Mark V. Shoen. Mark V. Shoen controls the general partner of Mercury. The limited partner interests of Mercury are indirectly owned by Mark V. Shoen, James P. Shoen (a significant shareholder) and a trust benefitting the children and grandchild of Edward J. Shoen.

We lease space for marketing company offices, vehicle repair shops and hitch installation centers from subsidiaries of SAC Holdings, 5 SAC and Galaxy. Total lease payments pursuant to such leases were \$2.1 million and \$2.0 million in the first nine months of fiscal 2017 and 2016, respectively. The terms of the leases are similar to the terms of leases for other properties owned by unrelated parties that are leased to us.

At December 31, 2016, subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini acted as U-Haul independent dealers. The financial and other terms of the dealership contracts with the aforementioned companies and their subsidiaries are substantially identical to the terms of those with our other independent dealers whereby commissions are paid by us based on equipment rental revenues. We paid the above mentioned entities \$45.9 million and \$43.7 million in commissions pursuant to such dealership contracts during the first nine months of fiscal 2017 and 2016, respectively.

During the first nine months of fiscal 2017, a subsidiary of ours held a junior unsecured note of SAC Holdings. Substantially all of the equity interest of SAC Holdings is controlled by Blackwater. We do not have an equity ownership interest in SAC Holdings. We recorded interest income of \$3.7 million and received cash interest payments of \$3.4 million, from SAC Holdings during the first nine months of both fiscal 2017 and 2016. The largest aggregate amount of the note receivable outstanding during the first nine months of fiscal 2017 was \$49.3 million and the aggregate note receivable balance at December 31, 2016 was \$48.4 million. In accordance with the terms of this note, SAC Holdings may prepay the note without penalty or premium at any time. The scheduled maturity of this note is 2017.

These agreements along with notes with subsidiaries of SAC Holdings, 4 SAC, 5 SAC, Galaxy and Private Mini, excluding Dealer Agreements, provided revenues of \$21.4 million, expenses of \$2.1 million and cash flows of \$19.9 million during the first nine months of fiscal 2017. Revenues and commission expenses related to the Dealer Agreements were \$212.8 million and \$45.9 million, respectively during the first nine months of fiscal 2017.

Fiscal 2017 Outlook

We will continue to focus our attention on increasing transaction volume and improving pricing, product and utilization for self-moving equipment rentals. Maintaining an adequate level of new investment in our truck fleet is an important component of our plan to meet our operational goals. Revenue in the U-Move program could be adversely impacted should we fail to execute in any of these areas. Even if we execute our plans, we could see declines in revenues primarily due to adverse economic conditions or heightened competition that is beyond our control.

With respect to our storage business, we have added new locations and expanded at existing locations. For the remainder of fiscal 2017, we are actively looking to acquire new locations, complete current projects and increase occupancy in our existing portfolio of locations. New projects and acquisitions will be considered and pursued if they fit our long-term plans and meet our financial objectives. We will continue to invest capital and resources in the U-Box program throughout the remainder of fiscal 2017.

Property and Casualty Insurance will continue to provide loss adjusting and claims handling for U-Haul and underwrite components of the Safemove, Safetow, Safemove Plus, Safestor and Safestor Mobile protection packages to U-Haul customers.

Life Insurance is pursuing its goal of expanding its presence in the senior market through the sales of its Medicare supplement, life and annuity policies. This strategy includes growing its agency force, expanding its new product offerings, and pursuing business acquisition opportunities.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to financial market risks, including changes in interest rates and currency exchange rates. To mitigate these risks, we may utilize derivative financial instruments, among other strategies. We do not use derivative financial instruments for speculative purposes.

Interest Rate Risk

The exposure to market risk for changes in interest rates relates primarily to our variable rate debt obligations and one variable rate operating lease. We have used interest rate swap agreements and forward swaps to reduce our exposure to changes in interest rates. We enter into these arrangements with counterparties that are significant financial institutions with whom we generally have other financial arrangements. We are exposed to credit risk should these counterparties not be able to perform on their obligations. Following is a summary of our interest rate swaps agreements at December 31, 2016:

Notional Amount (Unaudited) (In thousands)	Fair Value	Effective Date	Expiration Date	Fixed Rate	Floating Rate
\$ 131,111	\$ (6,492)	8/18/2006	8/10/2018	5.43%	1 Month LIBOR
4,938	(a) (35)	8/15/2010	7/15/2017	2.15%	1 Month LIBOR
9,375	(a) (155)	6/1/2011	6/1/2018	2.38%	1 Month LIBOR
18,833	(a) (195)	8/15/2011	8/15/2018	1.86%	1 Month LIBOR
7,550	(a) (69)	9/12/2011	9/10/2018	1.75%	1 Month LIBOR
8,177	(b) (23)	3/28/2012	3/28/2019	1.42%	1 Month LIBOR
10,417	1	4/16/2012	4/1/2019	1.28%	1 Month LIBOR
19,800	183	1/15/2013	12/15/2019	1.07%	1 Month LIBOR

(a) forward swap

(b) operating lease

As of December 31, 2016, we had \$939.4 million of variable rate debt obligations and \$8.2 million of a variable rate operating lease. If LIBOR were to increase 100 basis points, the increase in interest expense on the variable rate debt would decrease future earnings and cash flows by \$7.4 million annually (after consideration of the effect of the above derivative contracts). Certain senior mortgages have an anticipated repayment date and a maturity date. If these senior mortgages are not repaid by the anticipated repayment date the interest rate on these mortgages would increase from the current fixed rate. We are using the anticipated repayment date for our maturity schedule.

Additionally, our insurance subsidiaries' fixed income investment portfolios expose us to interest rate risk. This interest rate risk is the price sensitivity of a fixed income security to changes in interest rates. As part of our insurance companies' asset and liability management, actuaries estimate the cash flow patterns of our existing liabilities to determine their duration. These outcomes are compared to the characteristics of the assets that are currently supporting these liabilities assisting management in determining an asset allocation strategy for future investments that management believes will mitigate the overall effect of interest rates.

Foreign Currency Exchange Rate Risk

The exposure to market risk for changes in foreign currency exchange rates relates primarily to our Canadian business. Approximately 4.6% and 4.7% of our revenue was generated in Canada during the first nine months of fiscal 2017 and 2016, respectively. The result of a 10.0% change in the value of the U.S. dollar relative to the Canadian dollar would not be material to net income. We typically do not hedge any foreign currency risk since the exposure is not considered material.

Cautionary Statements Regarding Forward-Looking Statements

This Quarterly Report contains “forward-looking statements” regarding future events and our future results of operations. We may make additional written or oral forward-looking statements from time to time in filings with the SEC or otherwise. We believe such forward-looking statements are within the meaning of the safe-harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Exchange Act. Such statements may include, but are not limited to, estimates of capital expenditures, plans for future operations, products or services, financing needs and plans, our perceptions of our legal positions and pending litigation against us, the adequacy of our liquidity, our goals and strategies, and plans for new business, our access to capital and leasing markets, the impact of our compliance with environmental laws and cleanup costs, projections of capital expenditures and our used vehicle disposition strategy, the sources and availability of funds for our rental equipment and self-storage expansion and replacement strategies and plans, our plan to expand our U-Haul storage affiliate program, that additional leverage can be supported by our operations and business, the availability of alternative vehicle manufacturers, our estimates of the residual values of our equipment fleet, our plans with respect to off-balance sheet arrangements, our plans to continue to invest in the U-Box program, the impact of interest rate and foreign currency exchange rate changes on our operations, the benefits of our capital structure, the sufficiency of our capital resources and the sufficiency of capital of our insurance subsidiaries as well as assumptions relating to the foregoing. The words “believe,” “expect,” “anticipate,” “plan,” “may,” “will,” “could,” “estimate,” “project” and similar expressions identify forward-looking statements, which speak only as of the date the statement was made.

Forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified. Factors that could significantly affect results include, without limitation, the degree and nature of our competition; our leverage; general economic conditions; fluctuations in our costs to maintain and update our fleet and facilities; the limited number of manufacturers that supply our rental trucks; our ability to effectively hedge our variable interest rate debt; that we are controlled by a small contingent of stockholders; risks relating to our notes receivable from SAC Holding; fluctuations in quarterly results and seasonality; changes in, and our compliance with, government regulations, particularly environmental regulations and regulations relating to motor carrier operations; our reliance on our third party dealer network; liability claims relating to our rental vehicles and equipment; our ability to attract, motivate and retain key employees; reliance on our automated systems and the internet; our insurance financial strength ratings; our ability to recover under reinsurance arrangements and other factors described in Item 1A, Risk Factors in our most recent Annual Report on Form 10-K, our Quarterly Reports on Form 10-Q, or the other documents we file with the SEC. The above factors, the following disclosures, as well as other statements in this Quarterly Report and in the Notes to Condensed Consolidated Financial Statements, could contribute to or cause such risks or uncertainties, or could cause our stock price to fluctuate dramatically. Consequently, the forward-looking statements should not be regarded as representations or warranties by us that such matters will be realized. We assume no obligation to update or revise any of the forward-looking statements, whether in response to new information, unforeseen events, changed circumstances or otherwise, except as required by law.

Item 4. Controls and Procedures

Attached as exhibits to this Quarterly Report are certifications of our Chief Executive Officer (“CEO”) and Chief Financial Officer (“CFO”), which are required in accordance with Rule 13a-14 of the Exchange Act. This “Controls and Procedures” section includes information concerning the controls and procedures evaluation referred to in the certifications and it should be read in conjunction with the certifications for a more complete understanding of the topics presented in the section Evaluation of Disclosure Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of the CEO and CFO, conducted an evaluation of the effectiveness of the design and operation of our "disclosure controls and procedures" (as such term is defined in the Exchange Act Rules 13a-15(e) and 15d-15(e)) ("Disclosure Controls") as of the end of the most recently completed fiscal quarter covered by this Quarterly Report. Our Disclosure Controls are designed to reasonably ensure that information required to be disclosed in our reports filed or submitted under the Exchange Act, such as this Quarterly Report, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Our Disclosure Controls are also designed to reasonably ensure that such information is accumulated and communicated to our management, including our CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. Based upon the controls evaluation, our CEO and CFO have concluded that as of the end of the period covered by this Quarterly Report, our Disclosure Controls were effective related to the above stated design purposes.

Inherent Limitations on the Effectiveness of Controls

Our management, including our CEO and CFO, does not expect that our Disclosure Controls or our internal control over financial reporting will prevent or detect all error and all fraud. A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

Change in Internal Control Over Financial Reporting

There has not been any change in our internal control over financial reporting as such term is defined in Exchange Act Rules 13a-15(f) and 15d-15(f) during the most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
