n October 1999, the Company purchased all of the capital stock of LC of Illinois, Inc. and HFC Technologies, Inc. on conjunction with these acquisitions, liabilities were assumed as follows:		
Fair value of assets acquired	\$	2,606
Cash paid		(1,513)
Other acquisition costs		(80)
Liabilities assumed	\$	1,013
See accompanying Notes to Condensed Consolidated Financial Statements. (Concluded)		

TETRA TECH, INC. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. Basis of Presentation

The accompanying condensed consolidated balance sheet as of April 1, 2001, the condensed consolidated statements of income for the three-month and six-month periods ended April 1, 2001 and April 2, 2000 and the condensed consolidated statements of cash flows for the six months ended April 1, 2001 and April 2, 2000 are unaudited, and in the opinion of management include all adjustments, consisting of only normal and recurring adjustments, necessary for a fair presentation of the financial position and the results of operations for the periods presented.

The condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the fiscal year ended October 1, 2000.

The results of operations for the three and six months ended April 1, 2001 are not necessarily indicative of the results to be expected for the fiscal year ending September 30, 2001.

2. Accounting Pronouncements

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 133, *Accounting for Derivative Instruments and Hedging Activities*, which was amended by SFAS No. 138, *Accounting for Certain Derivative Instruments and Certain Hedging Activities*. These Statements required derivatives to be measured at fair value and to be recorded as assets or liabilities on the balance sheet. The accounting for gains or losses resulting from changes in the fair values of those derivatives would be dependent upon the use of the derivative and whether it qualifies for hedge accounting. These Statements became effective for all fiscal quarters of fiscal years beginning after June 15, 2000. The Company adopted these Statements in the first quarter of fiscal year 2001 and the adoption of SFAS No. 133 and SFAS No. 138 has had no material impact on the Company's results of operations or financial position.

In December 1999, the Securities and Exchange Commission issued Staff Accounting Bulletin (SAB) No. 101, *Revenue Recognition*, which outlines the basic criteria that must be met to recognize revenue and provides guidance for disclosures related to revenue recognition policies. SAB No. 101 requires companies to report any changes in revenue recognition as a cumulative change in accounting principle at the time of implementation in accordance with Accounting Principles Board Opinion No. 20, *Accounting Changes*. SAB No. 101, as amended, is effective no later than the fourth quarter of fiscal years beginning after December 15, 1999. The Company will adopt SAB No. 101 in the fourth quarter of fiscal year 2001. The Company believes its existing revenue recognition policies and procedures are in compliance with SAB No. 101, and that the adoption of SAB No. 101 will have no material impact on the Company's results of operations or financial position.

3. Earnings Per Share

Basic EPS excludes dilution and is computed by dividing net income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted EPS is computed by dividing net income by the weighted average number of common shares outstanding and dilutive potential common shares. The Company includes as potential common shares the weighted average number shares of exchangeable stock of a subsidiary and the weighted average dilutive effects of outstanding stock options. The exchangeable stock of a subsidiary is non-voting and is exchangeable on a one to one basis, as adjusted for stock splits and stock dividends subsequent to the

original issuance, for the Company's common stock. The following table sets forth the computation of basic and diluted earnings per share:

		Three Mor	nths l	Ended	Six Months Ended			
	1	Apr. 1, 2001		Apr. 2, 2000	Apr. 1, 2001		Apr. 2, 2000

Diluted earnings per share	\$	0.25	\$	0.20	\$ 0.46	\$	0.38	

4. Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents. Cash and cash equivalents totaled \$12.4 million and \$7.6 million at April 1, 2001 and October 1, 2001, respectively.

5. Mergers and Acquisitions

On October 25, 1999, the Company acquired 100% of the capital stock of LC of Illinois, Inc. and HFC Technologies, Inc. (collectively, LCI), a provider of engineering and network infrastructure services for cable television and fiber optic telephone networks including design, construction and maintenance capabilities for communications and information transport systems. The purchase was valued at approximately \$1.6 million and consisted of cash.

On March 30, 2000, Tetra Tech Engineers, P.C. acquired certain assets of Edward A. Sears Associates (ESA), a provider of engineering services to hospitals in New York. Concurrent with this transaction, the Company's subsidiary, Cosentini Associates, Inc., acquired certain non-licensed assets of ESA from Tetra Tech Engineers, P.C. The purchase was valued at approximately \$0.4 million and consisted of cash.

On April 3, 2000, the Company acquired 100% of the capital stock of eXpert Wireless Solutions, Inc. (EWS), a provider of radio-frequency engineering and consulting services to the wireless communications industry. The purchase was valued at approximately \$18.8 million and consisted of cash (of which \$500,000 is dependent on operational performance) and 407,877 shares of Company common stock. Additionally,

concurrently with the acquisition, EWS distributed to its former shareholders accounts receivable valued at approximately \$1.8 million.

On May 3, 2000, the Company, through its majority-owned subsidiary, Tetra Tech Canada Ltd., acquired 100% of the capital stock of 1261248 Ontario, Inc., which does business as Engineered Communications (ENG), a provider of engineering and network services for the wired communications

industry in Ontario, Canada. The purchase was valued at approximately \$1.5 million and consisted of cash and 33,606 shares of exchangeable stock of the Company's majority-owned subsidiary.

On May 17, 2000, the Company acquired 100% of the capital stock of FHC, Inc. (FHC), a provider of engineering consulting services primarily to the state and local governments in Oklahoma. The purchase was valued at approximately \$5.2 million and consisted of cash and 56,334 shares of Company common stock.

On May 24, 2000, the Company acquired 100% of the capital stock of Rizzo Associates, Inc. (RAI), a provider of engineering consulting services to state and local governments and commercial clients in the upper Northeast region of the U.S. This purchase was valued at approximately \$10.3 million and consisted of cash and 112,436 shares of Company common stock.

On June 16, 2000, the Company acquired 100% of the capital stock of Drake Contractors, Inc. (DCI), a provider of infrastructure installation and maintenance services primarily in Colorado. The purchase was valued at approximately \$5.5 million and consisted of cash (of which \$1.0 million is contingent on operational performance). Additionally, concurrent with the acquisition, DCI distributed to its former shareholders accounts receivable valued at approximately \$2.1 million.

On July 5, 2000, the Company, through its majority-owned subsidiary, Tetra Tech Canada Ltd., acquired 100% of the capital stock of Wm. Bethlehem Trenching Ltd. (BTL), a provider of infrastructure installation and maintenance services primarily in Ontario, Canada. The purchase was valued at approximately \$0.3 million and consisted of cash.

On December 21, 2000, the Company acquired 100% of the capital stock of Rocky Mountain Consultants, Inc. (RMC), a provider of water-related engineering and facility development services to state and local governments and private clients primarily in the western and midwestern United States. The purchase was valued at approximately \$15.3 million and consisted of cash and 296,667 shares of Company common stock.

On March 2, 2001, the Company acquired 100% of the capital stock of Wahco Construction, Inc. (WCI), a provider of network and field services to the utility and communications industry primarily in the northwestern United States. The purchase was valued at approximately \$1.6 million and consisted of cash and 51,982 shares of Company common stock and is subject to a purchase price and purchase allocation adjustment based upon the final determination of WCI's net asset value as of March 2, 2001.

On March 29, 2001, the Company acquired 100% of the capital stock of Williams, Hatfield & Stoner, Inc. (WHS), a provider of civil engineering, planning and environmental services primarily in the southeastern United States. The purchase was valued at approximately \$8.8 million and consisted of cash and 127,547 shares of Company common stock and is subject to a purchase price and purchase allocation adjustment based upon the final determination of WHS's net asset value as of March 29, 2001.

All of the acquisitions above have been accounted for as purchases and, accordingly, the purchase prices of the businesses acquired have been allocated to the assets and liabilities acquired based upon their fair values. The excess of the purchase cost of the acquisitions over the fair value of the net assets acquired was recorded as goodwill and is included in Intangible Assets. Net in the accompanying condensed consolidated balance sheets. Prior to fiscal 2001, the Company valued stock exchanged in acquisitions based on extended restriction periods, high volatility in the trading price of the Company's common stock and other economic factors specific to the Company's circumstances at the time of acquisition. During the first three quarters of fiscal 2000, stock exchanged in acquisitions was discounted by 15%. During fiscal 2001, the stock exchanged in acquisitions was not discounted. The results of operations of each of the companies acquired have been included in the Company's financial statements from the effective acquisition dates.

6. Accounts Receivable

Accounts receivable are presented net of a valuation allowance to provide for doubtful accounts and for the potential disallowance of billed and unbilled costs. The allowance for doubtful accounts as of April 1, 2001 and October 1, 2000 was \$6.5 million and \$5.5 million, respectively. The allowance for disallowed costs as of both April 1, 2001 and October 1, 2000 was \$1.6 million. Disallowance of billed and unbilled costs is primarily associated with contracts with the Federal government which contain clauses that subject contractors to several levels of audit. The Company establishes reserves on those contract receivables where collectibility is not assured. Management believes that resolution of these matters will not have a material adverse impact on the Company's financial position or results of operations.

7. Unaudited Pro Forma Operating Results

The table below presents summarized unaudited pro forma operating results assuming that the Company had acquired EWS, FHC, RAI and RMC on October 4, 1999. The effect of unaudited pro forma results of LCI, ENG, ESA, DCI, BTL, WCI and WHS, had they been acquired on October 4, 1999 is not material. These amounts are based on historical results and assumptions and estimates which the Company believes to be reasonable. The pro forma results do not reflect anticipated cost savings and do not necessarily represent results which would have occurred if these acquisitions had actually taken place on October 4, 1999.

		Pro Forma Six	Moı	nths Ended

Diluted		42,994,000		41,216,000	

8. Operating Segments

The Company's management has organized its operations into three operating segments: Resource Management, Infrastructure, and Communications. The Resource Management operating segment provides specialized environmental engineering and consulting services primarily relating to water quality and water availability to both public and private organizations. The Infrastructure operating segment provides engineering services to provide additional development, as well as upgrading and replacement of existing infrastructure to both public and private organizations. The Communications operating segment provides a comprehensive set of services including engineering, consulting and field services to telecommunications companies, wireless service providers and cable operators. Management has established these operating segments based upon the services provided, the different marketing strategies, and the specialized needs of the clients. The Company accounts for inter-segment sales and transfers as if the sales and transfers were to third parties; that is, by applying a negotiated fee onto the cost of the services performed. Management evaluates the performance of these operating segments based upon their respective income from operations before the effect of any acquisition related amortization.

The following tables set forth (in thousands) summarized financial information on the Company's reportable segments:

Reportable Segments:

		Resource nnagement	I	nfrastructure	Communications	Total
