INVESTMENT OBJECTIVES & STRATEGY

The Chartwell Dividend and Income Fund's [the "Fund"] primary investment objective is to seek high current income. Capital appreciation is a secondary objective. The Fund will seek to achieve its objectives by investing, under normal circumstances, at least 50% of its total assets in income generating equity securities, including dividend paying common stocks, convertible securities, preferred stocks and other equity-related securities. In addition, the Fund may invest the balance of its total assets in non-convertible debt securities, consisting primarily of corporate bonds. The Fund attempts to minimize individual security risk by diversifying across many industries and asset classes. The Chartwell Dividend and Income Fund is a closed-end management investment company which trades on the New York Stock Exchange under the symbol CWF.

HIGH-YIELD CORPORATE BONDS

High-yield bonds are non-investment grade corporate debt obligations rated "Bal" or lower by Moody's Investors Service, Inc. or "BB+" or lower by Standard and Poor's Ratings Group; they typically have a higher risk level than investment-grade bonds. These securities have historically compensated investors with higher levels of income for that risk. Prices usually are less sensitive to interest rate fluctuations than higher rated bonds because of the high income levels. However, the prices of these bonds are more sensitive to changes in the economy.

CONVERTIBLE SECURITIES

The Fund can invest in both convertible preferred stock and convertible bonds. Both pay fixed rates of income, but because they can be converted into common stock, they are indirectly tied to the common stock's performance. As a result, convertible securities generally offer higher income than common stocks and an opportunity for price appreciation when the value of the underlying security rises. The Fund buys convertibles when the underlying common stock offers strong growth potential as well.

COMMON STOCK

The Fund invests in the common stocks of utility companies, Real Estate Investment Trusts (REITs) and other industrial and financial companies as well as other equity securities. Both utilities and REITs tend to offer a premium dividend yield with steady growth that can lead to capital appreciation. Industrial and financial stocks are primarily purchased for capital appreciation based on the fundamental value of the underlying company.

LETTER TO SHAREHOLDERS

DEAR SHAREHOLDERS,

The last six months have proven to be an exceptionally volatile, but ultimately profitable time period for shareholders of the Chartwell Dividend and Income Fund. The successful completion of the war in Iraq, the passage of major investor tax relief and improving corporate earnings trends have fueled the market advance from the lows established in early March. At the same time, bond

investments, especially high yield bonds, have also rallied sharply. It is the first time in many months that both of the Fund's major asset classes, stocks and high-yield bonds, rallied together.

The Fund ended this period at a price of \$8.50, a 5.3% premium to net asset value (NAV) of \$8.07. Over the last six months, the Fund has traded at a low of \$7.09 and ended the period on May 31st at its high of \$8.50. For the past six months, the total stock market return to shareholders was 24.6%. The NAV return of the Fund was 15.5%. This compares to the S&P 500, which was up 3.9%, and the Merrill Lynch High Yield Cash Pay Index, which was up 15.8%. We were very happy with both the market returns and NAV returns of the Fund during the past six months. Since inception, the Fund has now beaten the S&P 500 on a total return basis.

[GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC

TOTAL RETURN SINCE FUND INCEPTION (JUNE 29, 1998)

Total Return S&P 500 -9.0% CWF -4.0%

Annualized Return S&P 500 -1.9% CWF -0.8%

*Stock market return assumes reinvestment of gross dividends.

We remain optimistic for the remainder of 2003 although that must be tempered by the recent run-up in valuations in both the equity and high-yield markets. Corporate profits are growing and neither inflation nor deflation appear to be checking the economy. Although there can be no guarantees, we believe there is room for positive returns during the remainder of 2003.

3

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2003

As you can see, the yield on the S&P 500 is very attractive versus the current yield on Treasury bonds.

High-yield bond spreads have great momentum and plenty of room on a historical basis for improvement. In addition, high-yield bonds are still inexpensive on a historical basis. Below, you can see that the yield on high-yield bonds minus the yield on Treasury bonds is still at a high level.

4 ____ CHARTWELL

CHARTWELL	DIVIDEND	AND	INCOME	FUND,	INC.	MAY	31,	2003

At the end of the second fiscal quarter, Leslie M. Varrelman, Vice President/ Portfolio Manager of the Fund's fixed income investments, resigned from the Advisor. Her associate, Andrew S. Toburen, who has been managing high yield securities for the Advisor since June, 1999, will continue to manage the fixed income portfolio. It is expected that Mr. Toburen will be elected an officer of the Fund at the July 16, 2003 Board Meeting. We thank you for your continuing support of our portfolio management team and the Chartwell Dividend and Income Fund.

Sincerely,

/s/Winthrop S. Jessup Winthrop S. Jessup PARTNER CHARTWELL INVESTMENT PARTNERS

FIXED INCOME PERFORMANCE CWF 12.66%

ML HY Cash Pay Index 15.84%

After five years of below average returns, high yield corporate bonds turned a corner in the fall of 2002. Recent performance has been strong, with the Merrill Lynch High Yield Cash Pay Index returning 15.84% for the six months ending May 31, 2003. The high yield portion of the Fund underperformed the index, largely due to our higher quality bias.

Spreads (i.e. the yield premium over Treasuries) tightened 196 basis points over the last six months. Falling interest rates provided another pillar of support for the rally. At the end of May, the yield on the 10-year Treasury note was at a forty year low of 3.35% and the high yield market's yield stood at 9.25%, the lowest level in five years. However, by historical standards, spreads remain wide at 590 basis points.

After peaking at over 10.0% a year ago, default rates are still falling. According to Moody's Investors Service, the trailing twelve month default rate at the end of May was 6.4%. In addition, Moody's forecasts the default rate to fall to 6.2% over the next year. While still high by historical standards, the declining default rate has been a primary factor behind the narrowing risk premium in the high yield market.

May 03	6.40

As the economy stabilized, we expected lower quality issuers to outperform higher quality issuers. What we did not expect was the enormous disparity in performance by credit quality. The triple-C-rated subset of the high yield market returned 36.1% for the last six months, versus only 11.9% for the double-B-rated portion of the market. Industries dominated by triple-C-rated issuers, such as Utilities and Telecommunications, outperformed strongly, while Steel was the only industry to post a negative return. Positions in HEALTHSOUTH and FLEMING, both of which have been sold, were a drag on the Fund's performance. On the plus side, the Fund scored winning investments in MADISON RIVER COMMUNICATIONS, NEXTEL COMMUNICATIONS, AES CORP, and CALPINE.

CHARTWELL

CHARTWELL DIVIDEND A	AND INCOME	FUND,	INC.	MAY 31,	2003

OUTLOOK:

We continue to be optimistic about the outlook for high yield bonds. At a micro level, most financially leveraged companies remain intent on reducing their debt levels. In addition, while interest rates have been low for some time, only recently have the low rates been reflected meaningfully in corporate borrowing costs (through tighter spreads). Lower debt levels and lower borrowing costs tend to result in healthier credit profiles. Although no one can predict the future, we believe we are in the middle of an improving credit cycle where spreads are poised to tighten further. In this environment, the market's 9.25% yield is attracting investor attention. Thus far in 2003, fund flows into public high yield mutual funds have already exceeded the inflows for all of 2002.

Recent additions to the fixed income portion of the Fund include GEORGIA PACIFIC, TRW AUTOMOTIVE, and WILLIAMS COMPANIES. The common investment themes in these new positions are strong market shares, solid cash flows, and management teams committed to reducing debt and improving their credit profile. Our goal for the fixed income portion of the Fund is to provide consistent returns, characterized by a high level of current income. As always, rigorous fundamental credit research will be the key to uncovering superior investment opportunities in the high yield bond market.

_____ CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2003 _____ EQUITY RETURNS CWF (as a % of total investments) [GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC Equities 48% Bonds 40% REITS 7% Utilities 5% [GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC COMMON STOCK RETURNS SIX MONTHS ENDING MAY 21, 2003 CWF Equities 7.6% S&P 500 3.9% Dow Jones Industrial Average 0.7% Equity markets were up for the six months ending 5/31/03. The war in Iraq was concluded with much media coverage and anxiety. Congress passed an extremely beneficial tax bill which should help equity income investors. Corporate governance and integrity of management are now among the first issues that investors address, trends that will benefit shareholders. The performance of the primary sectors within the equity portion of the Fund are highlighted below. Within the Energy sector, the Fund held positions in MARATHON and OCCIDENTAL PETROLEUM, two U.S. domestic integrated oil firms that benefited from higher oil prices and refining margins. Consumer Staples were also a strong area during the period, fueled largely by the position in tobacco companies such as ALTRIA GROUP and CAROLINA GROUP. While these companies are under political and legal scrutiny, they generate large cash flows and each pays a substantial dividend. On the negative side, within Consumer Cyclicals the Fund had poor

results in holding shares of STANLEY WORKS, the maker of Stanley brand tools,

and GENERAL MOTORS. Both stocks were sold based upon their losing market shares to competitors and questionable balance sheet characteristics. Finally, Basic Materials was simply an underperforming group hampered by high oil and gas input costs and low demand for basic products such as aluminum and chemicals.

The best stocks within the Fund during the period were FANNIE MAE (FNM), CAROLINA GROUP (CG), INTERNATIONAL BUSINESS MACHINES (IBM), FLEET BOSTON FINANCIAL (FBF), and MASCO (MAS). The worst stocks in the portfolio were STANLEY WORKS (SWK), CHUBB (CB), and ABBOTT LABORATORIES (ABT). Happily, this solid performance led the Fund to positive results.

> 9 ----CHARTWELL

CHARTWELL DIVIDEND AND INCOME FU	UND, INC.	MAY 31, 2003

OUTLOOK:

We believe that the underlying fundamentals of the market continue to look attractive as measured by the S&P 500 Index. Earnings are expected to grow 10% this year and 14% next year according to the most recent estimates. The forward price/earnings ratio is at 16.7x, which is roughly in-line with its historical average over the last twenty years. In addition, there is a tremendous amount of money still in money market and checking accounts earning virtually nothing. Many individuals are shocked when they check the interest they are earning in CDs and savings accounts. In addition, there is a perception of a safer investment climate after the Iraqi war and better corporate governance. In addition, the recently passed tax legislation encourages investment, especially in dividend paying stocks. Combining the reasonable valuation, improving earnings prospects, excess liquidity and beneficial tax changes we are still excited about the prospects for good returns in certain areas during the rest of the year. We will continue to focus on high quality companies with strong income production. Especially in today's environment, we hope our investment strategy will provide satisfactory returns for our investors.

CWF (as a % of total investments)

[GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC

Equities 48%

Bonds 40% REITS 7% Utilities 5% [GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC UTILITY RETURNS SIX-MONTHS ENDING MAY 31, 2003

S&P Utility Sector 20.4%

CWF Utilities 17.1%

Utility stocks had an strong six months, ending the period up more than 17%. Both traditional, heavily regulated utilities and companies focused on less certain unregulated businesses did extremely well. The valuations that we saw six months ago, along with exceptional dividend yields that will be further helped by beneficial tax treatment, propelled the group upward. In addition, high leverage and questionable liquidity, along with severe rating agency inquiry, had previously been a dark cloud hanging over the sector and is now lifting. When RELIANT RESOURCES, a major operator in the deregulated power production business, received an extension of its bank funding, it marked the turning point for the whole group.

Most of the news on individual stocks is quite good. Among our best stocks was TEPPCO PARTNERS (TPP), a major transporter of refined petroleum products and petroleum gases, which came from a previously depressed price and benefited from good volumes. Also helping the Fund was KINDER MORGAN PARTNERS (KMP), which also owns an extensive array of gas and oil transportation and storage facilities. Finally, EXELON (EXC), our neighborhood power company here in Berwyn, Pennsylvania, provided very strong returns based on high power prices, good finances and steady operation of their nuclear and other power facilities. The only utility which really disappointed us was KEYSPAN ENERGY (KSE). In January, KSE diluted earnings expectations by selling equity on the open market in order to improve its balance sheet, a move the market did not expect. The stock has recovered most of its ground since the equity sale, but still provided just mediocre results during the last six months.

Many of the high-yielding, heavily regulated stocks are presently trading at the top of their valuation ranges, which is only a modest discount to the broad markets. We are shifting our focus to those companies who are mending their balance sheets, reducing capital expenditures and increasing cash flow, such as DUKE ENERGY. We also are looking at heavily regulated utilities which are still in the lower end of their valuation range. Overall, because of the recent run-up in most of the stocks, we are not adding to positions currently, but continue to hold shares in quality stocks which pay strong dividends.

CHARTWELL

MAY 31, 2003

REAL ESTATE INVESTMENT TRUSTS CWF (as a % of total investments) [GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC Equities 48% Bonds 40% REITs 7% Utilities 5% [GRAPHIC OMITTED] EDGAR REPRESENTATION OF DATA POINTS USED IN PRINTED GRAPHIC REIT Returns SIX-MONTHS ENDING MAY 31, 2003 Morgan Stanley REIT Index 12.2%

CWF REITs 12.3%

Unexpectedly, Real Estate Investment Trusts ("REITs") continued to outperform the broad markets during the period. We attribute this to the investing public's need for high yielding securities as an alternative to extremely low yielding Treasuries. Even as the markets improved, the usually defensive REIT sector continued to exhibit strong positive returns. Many of these stocks are not trading on individual fundamentals such as cash flow and value versus underlying real estate fundamentals. The Fund is maintaining its position in select REITs with either exceptional cash flow characteristics or inexpensive prices, but is not carrying an aggressive weight in the sector.

The following were the best stocks in the REIT portfolio: DUKE REALTY (DRE), a diversified manager of office, industrial and retail properties; iStar Financial (SFI), which provides mortgage and structured financing to other real estate investors; and BOSTON PROPERTIES (BXP), one of the largest providers of major metropolitan area office space in the United States. Hurting the portfolio were HEALTHCARE REALTY TRUST (HR) and RECKSON ASSOCIATES (RA). HR fell in early March on concerns that Healthsouth, a major tenent, would not pay its rents due to investigations or impropriety at that company. HR has since recovered its losses. RA, an office and industrial real estate owner/operator in the New York area, has fallen under concerns they may not maintain their current dividend payout. That stock too has largely recovered.

12 ____ CHARTWELL

CHARTWELL	DIVIDEND	AND	INCOME	FUND,	INC.	MAY	31,	2003

UTILIZATION OF LEVERAGE

The Chartwell Dividend and Income Fund has utilized leverage through the issuance of commercial paper. As of May 31, 2003, the Fund had \$50 million in leverage outstanding (out of \$60 million available) in the form of commercial paper rated A1/P1 by Moody's Investors Service, Inc./Standard & Poor's Ratings Group. These ratings should enhance the marketability and reduce the interest costs associated with the issuance of the commercial paper. However, it must be noted that the utilization of leverage involves the risk of lower portfolio returns if the cost of leverage is higher than the resulting yields on assets or if the Fund experiences capital losses in excess of the yield spread, if any. Therefore, the addition of leverage also increases the potential volatility of the Fund. The Fund has the ability to leverage to a maximum of 33% of the Fund's gross assets.

The Fund utilizes leveraging to seek to enhance the yield and net asset value of its common stock. However, these objectives cannot be achieved in all interest rate environments. To leverage, the Fund issues commercial paper, which is issued at a discount equivalent to short-term interest rates, and invests the proceeds in long-term securities. The interest earned on these investments is paid to common stock shareholders in the form of dividends, and the value of these portfolio holdings is reflected in the per share net asset value of the Fund's common stock. However, in order to benefit common stock shareholders, the yield curve must be positively sloped; that is, short-term interest rates must be lower than long-term interest rates. At the same time, a period of generally declining interest rates will benefit common stock shareholders. IF EITHER OF THESE CONDITIONS CHANGE, THEN THE RISKS OF LEVERAGING WILL BEGIN TO OUTWEIGH THE BENEFITS.

To illustrate these concepts, assume a fund's common stock capitalization of \$100 million and the issuance of commercial paper for an additional \$50 million, creating a total value of \$150 million available for investment in long-term securities. If prevailing short-term interest rates are approximately 3% and long-term interest rates are approximately 6%, the yield curve has a strongly positive slope. The fund pays a discount on the \$50 million of commercial paper based on the lower short-term interest rates. At the same time, the fund's total portfolio of \$150 million earns the income based on long-term interest rates.

In this case, the discount paid to commercial paper holders is significantly lower than the income earned on the Fund's long-term investments, and therefore the common stock shareholders are the beneficiaries of the incremental yield.

13

CHARTWELL

CHARTWELL DIVIDEND .	AND INCOME	FUND,	INC.	MAY 31,	2003

However, IF SHORT-TERM INTEREST RATES RISE, narrowing the differential between short-term and long-term interest rates, THE INCREMENTAL YIELD PICK-UP ON THE COMMON STOCK WILL BE REDUCED OR ELIMINATED COMPLETELY. At the same time, the market value on the Fund's common stock (that is, its price as listed on the New York Stock Exchange), may, as a result, decline. Furthermore, IF LONG-TERM INTEREST RATES RISE, THE COMMON STOCK'S NET ASSET VALUE WILL REFLECT THE FULL

DECLINE IN THE PRICE OF THE PORTFOLIO'S INVESTMENTS, SINCE THE VALUE OF THE FUND'S COMMERCIAL PAPER DOES NOT FLUCTUATE. In addition to the decline in net asset value, the market value of the Fund's common stock may also decline.

(1) Based on average shares outstanding.

(2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Total investment return does not reflect brokerage commissions. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns based on market value, which can be significantly greater or lesser than the net asset

value, may result in substantially different returns. The total investment returns calculated based on market value and net asset value for a period of less than one year have not been annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the Redemption of Fund's Shares.

- (3) Ratios are stated as a percentage of average weekly net assets which includes any liabilities constituting indebtedness in connection with financial leverage.
- (4) Exclusive of commercial paper expenses.

Amounts designated as "--" are 0 or have been rounded to 0.

- (2) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Total investment return does not reflect brokerage commissions. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment returns based on market value, which can be significantly greater or lesser than the net asset value, may result in substantially different returns. The total investment returns calculated based on market value and net asset value for a period of less than one year have not been annualized. Returns do not reflect the deduction of taxes that a shareholder would pay on Fund distributions or the Redemption of Fund's Shares.
- (3) Ratios are stated as a percentage of average weekly net assets which includes any liabilities constituting indebtedness in connection with financial leverage.
- (4) Exclusive of commercial paper expenses.
- (5) Annualized. Amounts designated as "--" are 0 or have been rounded to 0.

SEE ACCOMPANYING NOTES TO FINANCIAL STATEMENTS.

32 ____ CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2003

NOTES TO FINANCIAL STATEMENTS (UNAUDITED)

Chartwell Dividend and Income Fund, Inc. (the "Fund") was incorporated under the laws of the State of Maryland on April 6, 1998 and is registered under the Investment Company Act of 1940 (the "Act"), as amended, as a closed-end, diversified management investment company. The Fund had no operations until June 17, 1998 when it sold 6,667 shares of common stock for \$100,005 to Chartwell Investment Partners, L.P. (the "Manager"). Investment operations commenced on June 29, 1998. The Fund's primary investment objective is to seek high current income. Capital appreciation is a secondary objective.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SECURITY VALUATION: Investment securities of the Fund that are listed on a securities exchange, except for debt securities, and for which market quotations are readily available, are valued at the last quoted sales price at the close of trading on the New York Stock Exchange (normally 4:00 p.m., Eastern Time). Investment securities of the Fund that are quoted on the NASDAQ market system are valued at the official closing price, or if there is none, at the last sales price. If there is no reported sale, these securities and unlisted securities for which market quotations are not readily available, are valued at last bid price. Long-term debt securities are valued on the basis of valuations provided by a pricing service when such prices are believed to reflect the fair value of such securities. All securities and assets for which quotations are not readily available are valued at fair value as determined in good faith and pursuant to a method approved by the Board of Directors. Short-term investments having a maturity of less than 60 days are valued at amortized cost, which approximates market value.

CASH AND CASH EQUIVALENTS: Idle cash is swept into a money market fund at Wachovia Bank, N.A., the Fund's custodian, and is classified as a cash and cash equivalent on the statement of assets and liabilities. Amounts so invested are generally available on the same business day.

33 ----CHARTWELL

CHARTWELL DIVIDEND	AND INCO	1E FUND,	INC.	MAY 31,	2003

WRITTEN OPTIONS: When the Fund writes a covered call option, an amount equal to the premium received by the Fund is included in the Fund's statement of assets and liabilities as a liability. The amount of the liability is subsequently marked-to-market to reflect the current market value of the option written.

When a covered written call option expires on its stipulated expiration date, or

if the Fund enters into a closing purchase transaction, the Fund will realize a gain (or loss if the cost of the closing purchase transaction exceeds the premium received when the call option was written) without regard to any unrealized gain or loss on the underlying security, and the liability related to such option will be extinguished. When a covered written call option is exercised, the Fund will realize a gain or loss from the sale of the underlying security and the proceeds of the sale are increased by the premium originally received. The Fund as writer of an option has no control over whether the underlying securities may be sold (called) and as a result bears the market risk of an unfavorable change in the price of the securities underlying the written option.

DIVIDENDS AND DISTRIBUTIONS: The Fund will declare and pay dividends to shareholders on a monthly basis. Long-term capital gains, if any, in excess of loss carryforwards are distributed to shareholders annually. Dividends from net investment income and capital gain distributions are determined in accordance with U.S. Federal income tax regulations, which may differ from generally accepted accounting principles. Dividends and distributions to shareholders are recorded on the ex-dividend date.

The Fund currently intends to distribute a monthly fixed amount to shareholders. The Fund's final distribution for each calendar year may exceed that amount, however, to the extent necessary for the Fund to have distributed all of its net investment company taxable income and net capital gains recognized during the year, if any. If, for any calendar year, the total distributions exceed net investment company taxable income and net capital gain, the excess, distributed from the Fund's assets, will generally be treated as a tax-free return of capital and will result in a reduction in the shareholder's basis. The Board of Directors reserves the right to change the aforementioned dividend policy from time-to time.

BORROWINGS: The Fund issues short-term commercial paper at a discount from par. The discount is amortized to interest expense over the life of the commercial paper using the straight line method.

SECURITY TRANSACTIONS AND INVESTMENT INCOME: Security transactions are recorded on the trade date. Realized gains and losses on sales of securities are calculated on the identified cost basis.

Dividend income is recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The Fund accretes original issue discount on securities using the effective interest method.

CHARTWELL DIVIDEND	AND	INCOME	FUND,	INC.	MAY 31,	2003

NOTE 2. INVESTMENT MANAGEMENT, ADMINISTRATION AGREEMENTS AND OTHER TRANSACTIONS WITH AFFILIATES

The Fund has entered into an investment management agreement with the Manager. The Manager manages the Fund's portfolio and makes investment decisions. For these services, the Fund pays the Manager a monthly fee at an annual rate of 0.95% of the Fund's Managed Assets. "Managed Assets" are the average weekly value of the Fund's total assets minus the sum of the Fund's liabilities, excluding debt related to leveraging, short-term debt and the aggregate

liquidation preference of any outstanding preferred stock. The Manager agreed to limit the investment management fee paid to it by the Fund to 0.85% of the Fund's Managed Assets effective July 1, 2002. This waiver is voluntary and may be changed at any time.

The Fund has entered into an administration agreement with SEI Investments Global Funds Services (the "Administrator"). Under such agreement, the Administrator performs or arranges for the performance of certain administrative services necessary for the operation of the Fund. For these services, the Fund pays a fee to the Administrator based on the Fund's Managed Assets according to the following rates: 0.10% on the first \$250 million of such Managed Assets and 0.09% on such Managed Assets in excess of \$250 million, subject to a minimum annual fee of \$180,000, which includes fees under this agreement and fees received by the Administrator from the Chartwell Large Cap Value and Chartwell Small Cap Value Funds. The Allocation of the minimum will be assessed based upon Managed Assets of the Fund and net assets of the Chartwell Large Cap Value and Chartwell Small Cap Value Funds.

Certain officers and/or directors of the Fund are officers and/or directors of the Manager. Prior to April 16, 2003 the Fund paid to each director who is not an "affiliated person" as defined in the Act a fee of \$4,000 per year plus \$250 for each meeting attended. As of April 16, 2003, directors fees paid by the Fund consist of \$6,000 per year plus \$250 for each meeting attended, plus \$1,000 per year for audit committee members and an additional fee of \$250 per year for the chairman of the audit committee.

For the six months ended May 31, 2003, the Fund incurred a legal expense of 68,895, to Drinker Biddle & Reath LLP, counsel for the Fund. A partner of the firm is an officer of the Fund.

NOTE 3. PURCHASE AND SALES OF INVESTMENTS

For the six months ended May 31, 2003 purchases and sales of investments, excluding short-term investments, totaled \$70,574,058 and \$66,361,822, respectively.

35

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2003

The following table summarizes the Fund's call options written for the six months ended May 31, 2003.

		NUMBER OF CONTRACTS	PREMIUMS
Options	outstanding November 30, 2002	6,324	\$ 726 , 799
Options	s written	37,082	3,273,526
Options	s expired	(18,502)	(1,719,839)
Options	exercised	(4,474)	(442,998)
Options	closed	(9,743)	(829,073)
Options	outstanding May 31, 2003	10,687	\$1,008,415

NOTE 4. COMMERCIAL PAPER

As of May 31, 2003, \$50,000,000 of commercial paper was outstanding with an amortized cost of \$49,961,178. The average discount rate of commercial paper outstanding at May 31, 2003 was 1.38%. The average daily balance of commercial paper outstanding for the six months ended May 31, 2003 was \$49,915,884 at a weighted average discount rate of 1.61%. The maximum face amount of commercial paper outstanding at any time during the six months ended May 31, 2003, was \$60,000,000. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with a bank for \$30,000,000. Interest on borrowing is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.15% per annum on the unused balance. During the six months ended May 31, 2003, there were no borrowings under this arrangement.

NOTE 5. CAPITAL STOCK

There are 100,000,000 shares of \$0.01 par value common stock authorized. Of the 16,205,930 shares of common stock outstanding at May 31, 2003, the Manager owned 11,487 shares.

For the six months ended May 31, 2003 and the year ended November 30, 2002 the Fund issued 133,167 and 275,201 shares respectively, in connection with the Fund's dividend reinvestment plan.

NOTE 6. MARKET AND CREDIT RISKS

The Fund may invest in high-yielding fixed-income securities, which carry ratings of BB or lower by S&P and/or Bal or lower by Moody's. Investments in these higher-yielding securities may be accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower-rated securities may be more susceptible to adverse economic and competitive industry conditions than investment-grade securities. The Fund may invest up to 15% of its total assets in illiquid securities and other securities which may not be readily marketable. In addition, the Fund may purchase securities sold in reliance of

36

CHARTWELL

CHARTWELL DIVIDEND AND INCOME H	FUND, INC.	MAY 31, 2003

Rule 144A of the Securities Act of 1933. The relative illiquidity of some of the Fund's portfolio securities may adversely affect the ability of the Fund to dispose of such securities in a timely manner and at a fair price at times when it might be necessary or advantageous for the Fund to liquidate portfolio securities.

NOTE 7. FEDERAL TAX INFORMATION

It is the Fund's intention to continue to meet the requirements under Subchapter M of the Internal Revenue Code applicable to regulated investment companies and to distribute substantially all of its taxable income to shareholders. Therefore, no provision for Federal income tax or excise tax is required.

The following summarizes the capital loss carryforwards as of May 31, 2003. These capital loss carryforwards are available to offset future gains.

EXPIRING	ΙN	FISCAL	YEAR	AMOUNT

2007	\$ 8,880,255
2008	9,509,213
2009	25,913,206
2010	30,533,344

Under the current tax law, capital and currency losses realized after October 31, 2002 are deferred and treated as occurring on the first day of the following fiscal year. For fiscal year ended November 30, 2002, the Fund elected to defer capital losses occurring between November 1, 2002 and November 30, 2002 in the amount of \$230,595.

For Federal income tax purposes, the cost of securities owned at May 31, 2003, and the net realized gains or losses on securities sold for the period were different from amounts reported for financial reporting purposes, primarily due to wash sales which cannot be used for Federal income tax purposes in the current year and have been deferred for use in future years. The Federal tax cost and aggregate gross unrealized appreciation and depreciation on investments and options, held by the Fund at May 31, 2003 were as follows:

Federal Tax Cost	\$172,040,043
Gross unrealized appreciation Gross unrealized depreciation	
Net unrealized appreciation	\$ 5,613,804

37 ____ CHARTWELL

CHARTWELL DIVIDEND	AND	INCOME	FUND,	INC.	MAY 31,	2003

NOTE 8. SUBSEQUENT EVENTS

The Board of Directors of the Fund declared the following dividends:

DECLARATION DATE EX-DATE	RECORD DATE	PAYABLE DATE	DIVIDEND RATE
June 2, 2003 June 17, 2003	June 19, 2003	June 30, 2003	\$0.0833
July 1, 2003 July 15, 2003	July 17, 2003	July 31, 2003	\$0.0833
August 1, 2003 August 19, 2003	August 21, 2003	August 29, 200	\$0.0833

Effective July 1, 2003, Wachovia Bank, N.A. serves as the custodian for the Fund. Prior to July 1, 2003, PFPC Trust Company served as custodian for the Fund.

38 ----CHARTWELL

CHARTWELL DIVIDEND	AND INCOME	FUND,	INC.	MAY 31,	2003

AUTOMATIC DIVIDEND REINVESTMENT PLAN (UNAUDITED)

Pursuant to the Fund's Automatic Dividend Reinvestment Plan (the "Plan"), unless a shareholder otherwise elects, all dividend and capital gains distributions will be automatically reinvested in additional shares of common stock of the Fund by PFPC Inc., as agent for shareholders in administering the Plan (the "Plan Agent"). Shareholders who elect not to participate in the Plan will receive all dividends and distributions in cash, paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name, then to such nominee) by PFPC Inc., as dividend paying agent. Such participants may elect not to participate in the Plan and to receive all distributions of dividends and capital gains in cash by sending written instructions to PFPC Inc., as dividend paying agent, at the address set forth below.

Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by written notice if received by the Plan Agent not less than ten days prior to any dividend record date. Otherwise such termination will be effective with respect to any subsequently declared dividend or distribution.

Whenever the Fund declares a distribution, an ordinary income dividend or a capital gain dividend (collectively referred to as "dividends") payable either in shares or in cash, non-participants in the Plan will receive cash, and participants in the Plan will receive the equivalent in shares of common stock. The shares will be acquired by the Plan Agent for the participant's account, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized shares of common stock from the Fund or (ii) by purchase of outstanding shares of common stock on the open market on the NYSE or elsewhere. If on the payment date of the dividend, the net asset value per share of the common stock is equal to or less than the market price per share plus estimated brokerage commissions (such condition being referred to herein as "market premium"), the Plan Agent will invest the dividend amount in newly issued shares on behalf of the participant. The number of newly issued shares of common stock to be credited to the participant's account will be determined by dividing the dollar amount of the dividend by the net asset value per share on the date the shares are issued, provided that the maximum discount from the then current market price per share on the date of issuance may not exceed 5%. If on the dividend payment date the net asset value per share is greater than the market value (such condition being referred to herein as "market discount"), the Plan Agent will invest the dividend amount in shares acquired on behalf of the participant in open-market purchases.

In the event of a market discount on the dividend payment date, the Plan Agent will have until the last business day before the next date on which the shares trade on the "ex-dividend" basis or in no event more than 30 days after the

39 ____

CHARTWELL

CHARTWELL DIVIDEND AN) INCOME FUND,	INC.	MAY 31, 2003

dividend payment date to invest the dividend amount in shares acquired in open-market purchases. If, before the Plan Agent has completed its open-market purchases, the market price of a share of common stock exceeds the net asset value per share, the average per share purchase price paid by the Plan Agent may exceed the net asset value of the Fund's shares, resulting in the acquisition of fewer shares than if the dividend had been paid in newly issued shares on the

dividend payment date. The Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to market premium during the purchase period, the Plan Agent will cease making open-market purchases and will invest the uninvested portion of the dividend amount in newly issued shares at the close of business on the last purchase date.

The Plan Agent maintains all shareholders' accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by shareholders for tax records. Shares in the account of each Plan participant will be held by the Plan Agent on behalf of the Plan participant, and each shareholder's proxy will include those shares purchased or received pursuant to the Plan. The Plan Agent will forward all proxy solicitation materials to participants and vote proxies for shares held pursuant to the Plan in accordance with the instructions of the participants.

In the case of shareholders such as banks, brokers or nominees which hold shares for others who are the beneficial owners, the Plan Agent will administer the Plan on the basis of the number of shares certified from time to time by the record shareholders as representing the total amount registered in the record shareholder's name and held for the account of beneficial owners who are to participate in the Plan.

There will be no brokerage charges with respect to shares issued directly by the Fund as a result of dividends or capital gain distributions payable either in shares or in cash. However, each participant will pay a pro rata share of brokerage commissions incurred with respect to the Plan Agent's open-market purchases in connection with reinvestment of dividends.

The automatic reinvestment of dividends and distributions will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such dividends.

Shareholders participating in the Plan may receive benefits not available to shareholders not participating in the Plan. If the market price plus commissions of the Fund's shares is above the net asset value, participants in the Plan will receive shares of the Fund at less than they could otherwise purchase them and will have shares with a cash value greater than the value of any cash distribution they would have received on their shares. If the market price plus

40

CHARTWELL

CHARTWELL DIVIDEND	AND INCOME	FUND,	INC.	MAY 31, 2003	

commissions is below the net asset value, participants will receive distributions in shares with a net asset value greater than the value of any cash distribution they would have received on their shares. However, there may be insufficient shares available in the market to make distributions in shares at prices below the net asset value. Also, since the Fund does not redeem its shares, the price on resale may be more or less than the net asset value.

Experience under the Plan may indicate that changes are desirable. Accordingly, the Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence concerning the Plan should be directed to the Plan Agent at

PFPC Inc., P.O. Box 43027, Providence, RI 02940-3027, Attn: Closed-End Department.

FEDERAL TAX INFORMATION (UNAUDITED)

Information for Federal income tax purposes is presented as an aid to shareholders in reporting the dividend distributions for the six-months ended May 31, 2003.

ADDITIONAL INFORMATION (UNAUDITED)

During the period, there have been no material changes in the Fund's investment objective or fundamental policies that have not been approved by the shareholders. There have been no changes in the Fund's charter or By-Laws that would delay or prevent a change in control of the Fund which have not been approved by the shareholders. There have been no changes in the principal risk factors associated with investment in the Fund.

EFFECTS OF LEVERAGE

Leverage of \$60 million in commercial paper was initially sold by the Fund on July 28, 1999. Through May 31, 2003, interest paid on the commercial paper ranged from 1.37% to 6.75%. As of May 31, 2003, the Fund had \$20 million outstanding at 1.40% per annum maturing on June 2, 2003, and \$30 million at 1.37% per annum maturing on July 7, 2003. All interest rates include fees due to the broker-dealer. The Fund must experience an annual return of 0.42% to cover interest payments on the commercial paper.

41

CHARTWELL

CHARTWELL DIVIDEND AND INCOME FUND, INC. MAY 31, 2003

The following table explains the potential effects of leverage on the equity returns of common shareholders:

Assumed return on portfolio

(net of expenses) -10.00% -5.00% 0.00% 5.00% 10.00% Corresponding return to common stockholder -14.42% -7.50% 0.58% 6.35% 13.27%

Assumes \$130 million assets attributable to common shareholders; \$50 million aggregate leverage with an average interest rate of 1.50%. All figures appearing above are hypothetical returns generated to assist investors in understanding the effects of leverage. Actual returns may be greater or less than those appearing in the table.

SUPPLEMENTAL PROXY INFORMATION

The Annual Meeting of Shareholders of the Chartwell Dividend and Income Fund, Inc. was held on April 16, 2003 at the offices of PFPC Inc., 400 Bellevue Parkway, Wilmington, Delaware. The description of the proposal and number of shares voted at the meeting are as follows:

This report, including the financial statements herein, is transmitted to the shareholders of Chartwell Dividend and Income Fund, Inc. It is not a prospectus, circular or representation intended for use in the purchase of shares of the Fund or any securities mentioned in the report. Past performance results should not be considered a representation of future performance. Statements and other information contained in this report are as dated and are subject to change.

The accompanying financial statements as of May 31, 2003 were not audited and accordingly, no opinion is expressed on them.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock in the open market.

ITEM 2. CODE OF ETHICS.

Not applicable -- only effective for annual reports with periods ending on or after July 15, 2003.

ITEM 3. AUDIT COMMITTEE FINANCIAL EXPERT.

Not applicable -- only effective for annual reports with periods ending on or after July 15, 2003.

ITEM 4. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Not applicable -- only effective for annual reports with periods ending on or after December 15, 2003.

ITEMS 5. AUDIT COMMITTEE OF LISTED REGISTRANTS.

Not applicable for semi-annual financial statements.

ITEM 6. (RESERVED)

ITEM 7. DISCLOSURE OF PROXY VOTING POLICIES AND PROCEDURES FOR CLOSED-END MANAGEMENT INVESTMENT COMPANIES.

Not applicable for semi-annual financial statements.

ITEM 8. (RESERVED)

ITEM 9. CONTROLS AND PROCEDURES.

(a) The registrant's Principal Executive Officer and Principal Financial Officer, whose certifications are included herewith, have evaluated the registrant's disclosure controls and procedures within 90 days of the filing

date of this report. In their opinion, based on their evaluation, the registrant's disclosure controls and procedures are adequately designed, and are operating effectively to ensure, that material information relating to the registrant, including its consolidated subsidiaries, is made known to them by others within those entities, particularly during the period in which this report is being prepared. Further, in their opinion, the registrant's disclosure controls and procedures are adequately designed, and are operating effectively to ensure, that information required to be disclosed by the registrant in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

(b) At the date of filing this Form N-CSR, the registrants Principal Executive Officer and Principal Financial Officer are aware of no significant changes in the registrant's internal controls or in other factors that could significantly affect these controls subsequent to the date of our evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

ITEMS 10. EXHIBITS.

File the exhibits listed below as part of this Form. Letter or number the exhibits in the sequence indicated.

(a) Any code of ethics, or amendment thereto, that is the subject of the disclosure required by Item 2, to the extent that the registrant intends to satisfy the Item 2 requirements through filing of an exhibit: Not applicable.

(b) A separate certification for the principal executive officer and principal financial officer of the registrant as required by Rule 30a-2 under the Investment Company Act of 1940, as amended (17 CFR 270.30a-2) are filed herewith. Officer certifications required by Section 906 of the Sarbanes-Oxley Act of 2002 also accompany this filing as an Exhibit.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
