NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS

NOTE A--BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, the financial statements do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and such adjustments are of a normal recurring nature.

The accompanying consolidated interim financial statements as of and for the six months ended June 30, 2001 and for the year ended December 31, 2000, include Noble International, Ltd. (the "Company") and its wholly-owned subsidiaries Monroe Engineering Products, Inc. ("Monroe"), Skandy Corp. ("Skandy"), Utilase Production Process, Inc. ("UPP"), Noble Metal Forming, Inc. ("NMF"), Noble Metal Processing, Inc. ("NMP"), Noble Land Holdings, Inc. ("Land Holdings"), Noble Components & Systems, Inc. ("NCS"), Noble Technologies, Inc. ("NTI"), Noble Metal Processing Canada, Inc. ("NMPC"), Noble Metal Processing-Midwest, Inc. ("NMPM"), Noble Holdings, Ltd. ("NHL"), Noble Logistic Holdings, Inc. (NLH) (formerly known as DSI Holdings, Inc.), Assured Transportation & Delivery, Inc. ("ATD"), Central Transportation & Delivery, Inc. ("CTD"), and Noble Logistic Services, Inc. (NLS), (collectively, "Noble" or the "Company"). All significant inter-company balances and transactions have been eliminated in consolidation.

Discontinued operations include all of the companies previously classified as the Company's plastics and coatings industry segment (Noble Component Technologies, Inc., Cass River Coatings, Inc., Noble Canada, Inc., Noble Canada Holdings, Ltd., Noble Canada Holdings II, Ltd., Noble Canada II, Inc., Tiercon Coatings, Inc., and Tiercon Industries, Inc.). On December 24, 1999 the Company executed a definitive agreement to sell these operations and the sale was completed on January 11, 2000. Results of these operations are reported as discontinued operations in the Consolidated Financial Statements for the periods presented.

On February 16, 2001, the Company acquired a 49% interest in S.E.T. Steel, Inc. ("SET") for \$3.0 million, the ("SET Acquisition"). On February 16, 2001, the Company received a note for \$27.2 million due June 14, 2001. On June 28, 2001, SET completed the financing of its purchase of NMF and MNPM. The Company received \$24.7 million in cash and a \$4.0 million, 12% subordinated note due in 2003. In addition, the Company is guarantor of \$10.0 million of SET's senior debt.

On March 7, 2001 the Company, through it wholly owned subsidiary, NHL, formed the company PECO Manufacturing, Inc. for the purpose of marketing and distributing molded plastic products to the automotive, industrial and machine building markets.

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q

Results for interim periods should not be considered indicative of results for a full year. The December 31, 2000 consolidated balance sheet was derived from audited financial statements, but does not include

all disclosures required by accounting principles generally accepted in the United States of America. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2000.

NOTE D - RESTRUCTURING RESERVE

The restructuring reserve of \$3.9 million recorded in December 2000 was reduced by \$0.5 million in the first quarter due primarily to a change in estimate regarding the holding period and carrying costs of some of the Company's real estate. In the second quarter, the reserve was reduced an additional \$0.27 million due to a change in estimate related to the loss anticipated in connection with the imminent disposition of real estate.

NOTE E - ACCOUNTING PRONOUNCEMENTS

In June 2001, the Financial Accounting Standards Board ("FASB") issued two new pronouncements: Statement of Financial Accounting Standards ("SFAS") No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. SFAS 141 is effective as follows: a) use of the pooling-of-interest method is prohibited for business combinations initiated after June 30, 2001; and b) the provisions of SFAS 141 apply to all business combinations accounted for by the purchase method that are completed after June 30, 2001 (that is, the date of the acquisition is July 2001 or later). There are also transition provisions that apply to business combinations completed before July 1, 2001, that were accounted for by the purchase method. SFAS 142 is effective for fiscal years beginning after December 15, 2001 and applies to all goodwill and other intangible assets recognized in an entity's statement of

12

13

financial position at that date, regardless of when those assets were initially recognized. The Company is currently evaluating the effects of these statements, however, the Company has recorded amortization related to its goodwill and identifiable intangible assets of \$1.3 million for the six months ended June 30, 2001.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

NET SALES. Net sales for the three months ended June 30, 2001 increased 40.0% to \$32.6 million from \$23.3 million for the comparable quarter of 2000. The increase in sales is substantially due to the inclusion of the logistics group that was acquired in the third quarter of 2000 and higher steel sales within the Company's metal processing group. This increase was partially offset by the overall reduction in sales in the metal processing group due to the sale of NMF and NMPM in February 2001 and lower revenue in NMP and the distribution group due to lower production volumes and product mix. The logistics group net sales for the period were \$15.3 million. The metal and distribution groups net sales for the period declined 25.6% to \$17.3 million as compared to \$23.3 million in the same period in 2000.

Net sales for the six months ending June 30, 2001 increased 24.3% to \$60.1 million from \$48.3 million for the same period in 2000. The increase in sales was primarily due to the acquisition of the Company's logistics group in the

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q

third quarter of 2000, as well as the higher steel sales within the Company's metal processing group. This increase was partially offset by the reduction in sales due to the sale of NMF and NMPM in February 2000. The logistics group revenue for the period was \$29.6 million. The metal and distribution group's revenue declined 37.0% to \$30.5 million from \$48.3 million during the same period in 2000.

COST OF GOODS SOLD. As a percent of net sales, cost of goods sold for the three-month period ended June 30, 2001 increased to 75.6% as compared with 69.3% for the same period in 2000. The increase in cost of goods sold as a percent of net sales is primarily due to the inclusion of the logistics group as this business has higher cost of goods sold and due to lower production volumes and product mix in the metal processing and distribution groups. For the three months ended June 30, 2001 the logistics group had cost of goods sold of 77.9%. The metal processing and distribution group's cost of goods sold increased to 74.6% from 69.3%.

For the six-months ended June 30, 2001, cost of goods sold increased to 75.1% from 68.5% for the same period in 2000. This increase was primarily the result of the inclusion of the logistics group as this business has higher cost of goods sold and due to lower production volumes and product mix in the metal processing and distribution groups. The logistics group's cost of sales, as percent of net sales, for the six-month period ended June 30, 2001 was 78.2%. The metal processing and distribution group's costs of sales, as percent of net sales, increased to 71.2% as compared to 68.5% for the comparable period in 2000.

GROSS PROFIT. The Company's gross profit increased 11.0% to \$7.9 million for the three months ended June 30, 2001 from \$7.2 million for the comparable period of 2000. The increase was primarily the result of the acquisition of the logistics group in 2000 offset by the sale of NMF and NMPM earlier in the year. The logistic group's gross profit was \$3.4 million in the period. The metal and distribution group's gross profit declined 36.2% to \$4.6 million as compared to \$7.2 million for the comparable period in 2000.

14

For the six month period ended June 30, 2001 gross profit decreased 1.5% to \$15.0 million from \$15.2 million for the same period in 2000. The decline was primarily the result of lower gross profit in the metal processing due to the sale of NMF and NMPM earlier this year. The logistics group's gross profit for the period ended June 30, 2001 was \$6.5 million. Gross profit for the metal and distribution groups declined 44.1% to \$8.5 million from \$15.2 million in the comparable period in 2000.

SELLING, GENERAL AND ADMINISTRATIVE EXPENSES. Selling, general and administrative expenses increased by \$1.4 million, or 34.6% to \$5.2 million for the three-month period ended June 30, 2001 as compared to the comparable period of 2000. For the six-month period ended June 30, 2001, selling, general and administrative expenses increased \$2.9 million to \$10.6 million from \$7.8 million. The increase in selling, general and administrative expenses for the three and six month periods was due primarily to the inclusion of the Company's logistics group that was acquired in the third quarter of 2000, partially offset by a reduction in expenses due to the sale of NMF and NMPM in February 2001 and a change in estimate for local taxes totaling \$0.4 million.

OPERATING INCOME. As a result of the foregoing factors, operating profit decreased \$0.6 million for the three-month period ended June 30, 2001 to

Edgar Filing: NOBLE INTERNATIONAL LTD - Form 10-Q

\$2.7 million from \$3.3 million for the same period in 2000, a decrease of 17.2%. For the six-month period, operating profit decreased \$3.1 million to \$4.3 million from \$7.5 million for the comparative six-month period in 2000, a decrease of 41.9%.

INTEREST EXPENSE. Interest expense increased 243.5% to \$1.4 million for the three months ended June 30, 2001 from \$0.4 million for the comparable quarter of the prior year. For the six month period ended June 30, 2001, interest expense increased 182.6% to \$2.6 million from \$0.9 million for the same period in 2000. The increase for the three month and six month periods was primarily the result to increased borrowings due to the acquisition of the logistics group, the temporary financing of the sale of NMPM and NMF since February 2001 and investments in property, plant and equipment.

INCOME TAX EXPENSE. Income tax expense for the three-month period ended June 30, 2001 decreased \$0.4 million to \$0.7 million from \$1.1 million for the comparable period in 2000. This decrease was the result of lower taxable income in the 2001 period. Income tax expense for the six months ended June 30, 2001 decreased \$0.1 million to \$2.4 million from \$2.5 million for the same period in the prior year. The six-month period in 2001 includes a one-time income tax expense of \$1.1 million due to the difference between the book and tax basis resulting from the sale of NMF and NMPM in February 2001.

NET EARNINGS. As a result of the foregoing factors, net earnings from continuing operations for the three-month period ended June 30, 2001 decreased \$0.6 million to \$1.1 million from \$1.7 million for the comparable period of the prior year. Net earnings for the six-month period ended June 30, 2001 decreased \$3.1 million to \$0.9 million from \$4.0 million for the same period in 2000.

LIQUIDITY AND CAPITAL RESOURCES

The Company's cash requirements have historically been satisfied through a combination of cash flow from operations, equipment financing, bank financing and loans from stockholders. The Company's working capital needs and capital equipment requirements have increased as a result of the growth of the Company and are expected to continue to increase as a result of anticipated growth. The anticipated increase in required working capital and capital equipment requirements are expected to be met from cash flow from operations, equipment financing and revolving credit borrowings. As of June 30, 2001, the Company had working capital of approximately \$4.6 million.

The Company generated cash from continuing operations of \$1.4 million for the six months ended June 30, 2001. Net cash provided by continuing operations was primarily the result of net income, increased accounts payable, accrued liabilities, depreciation, amortization and interest paid in kind, partially offset by decreased income taxes payable and deferred income taxes, and increased accounts receivable, inventories, prepaid expenses and other assets. Cash provided by investing activities of \$15.9 million for the six months ended June 30, 2001 was primarily due to the receipt of \$24.7 million related to the sale of NMF and NMPM to SET earlier in the year. This was partially offset by the purchase of property, plant and equipment and the Company's investment in SET. The Company used cash in financing activities of \$17.8 million for the six months ended June 30, 2001 primarily for the reduction of senior debt.

The amount of the Company's revolving credit facility with Comerica Bank (the "Credit Facility") was \$55 million at December 31, 2000, subsequently amended to a \$75 million facility. On June 30, 2001, the Credit Facility was reduced to \$50.0 million in connection with the collection of \$24.7 million related to the sale of NMF and NMPM earlier in the year. The Credit Facility expires in May 2002, is secured by the assets of Noble and its subsidiaries and provides for the issuance of up to \$5 million in standby or documentary letters of credit. Management believes the Credit Facility will be renewed on substantially the same terms and therefore, continues to classify this obligation as long-term debt. The Credit Facility may be utilized for general corporate purposes, including working capital and acquisition financing, and provides the Company with borrowing options for multi-currency loans. Borrowing options include a euro-currency rate or a base rate. Advances under the Credit Facility during the six months ended June 2001 bore interest at the rate of approximately 7.02% per annum. The Credit Facility is subject to customary financial and other covenants including, but not limited to, limitations on payment of dividends, limitations on consolidations, mergers, and sales of assets, and bank approval on acquisitions over \$25 million. The Company is in compliance with the terms of the Credit Facility.

On February 16, 2001, the Company received a \$27.2 million note in connection with the SET Sale, due June 14, 2001. On June 28, 2001, the Company received \$24.7 million in cash and a \$4.0 million, 12% subordinated note due in 2003. In addition, the Company is guarantor of \$10.0 million of the purchaser's senior debt obligations. The subordinated note is classified in sundry on the Company's balance sheet.

The liquidity provided by the Company's credit facilities is expected to be sufficient to meet the Company's currently anticipated working capital and capital expenditure needs for at least 12 months. There can be no assurance, however, that such funds will not be expended prior thereto due to changes in economic conditions or other unforeseen circumstances, requiring the Company to obtain additional financing prior to the end of such 12 month period. In addition, the Company regularly reviews, as part of its business strategy, future growth through opportunistic acquisitions which may involve the expenditure of significant funds. Depending upon the nature, size and timing of future acquisitions, if any, the Company may be required to obtain additional debt or equity financing in connection with such future acquisitions. There can be no assurance, however, that additional financing will be available to the Company, when and if needed, on acceptable terms or at all.

INFLATION

Inflation generally affects the Company by increasing the interest expense of floating rate indebtedness and by increasing the cost of labor, equipment and raw materials. The Company does not believe that inflation has had a material effect on its business over the past two years.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to the impact of foreign currency fluctuations. International revenues from the Company's foreign subsidiaries were approximately 8.5% of the total revenues for the six months ended June, 2001. The Company's primary foreign currency exposure is the Canadian Dollar. The Company manages its exposures to foreign currency assets and earnings primarily by funding certain foreign currency denominated assets with liabilities in the

same currency and, as such, certain exposures are naturally offset.

A portion of the Company's assets are based in its foreign operations and are translated into U.S. Dollars at foreign currency exchange rates in effect as of the end of each period, with the effect of such translation reflected as a separate component of shareholders' equity. Accordingly, the Company's consolidated shareholders' equity will fluctuate depending on the weakening or strengthening of the U.S. Dollar against the respective foreign currency.

The Company's financial results are affected by changes in U.S. and foreign interest rates. The Company does not hold financial instruments that are subject to market risk (interest rate risk and foreign exchange risk).
