The following table sets forth information we have received from the selling securityholders as of the date of this prospectus supplement, relating to the beneficial ownership of the notes and shares of our common stock. Selling securityholders listed in the Selling Securityholders table in the prospectus and supplement(s) may have sold or transferred some or all of their notes or the underlying common stock since the date on which we received the information pertaining to such securityholder. We undertake no obligation to update this information. Information about additional selling securityholders will be contained in supplements to the prospectus.

The table below supplements or amends the table of selling securityholders contained under the heading Selling Securityholders on pages 37-38 of the prospectus, as supplemented or amended in previous prospectus supplements. Where the name of a selling securityholder identified in the table below also appears in the table in the prospectus or in a previous prospectus supplement, the information set forth in the table below regarding that selling securityholder supersedes the information in the prospectus or in a previous prospectus supplement, as applicable.

- (1) Except as otherwise indicated, the selling securityholders listed above reported no beneficial ownership of WMS securities. Except as otherwise indicated, the selling securityholders listed above reported no material relationships with WMS within the past three years.
- (2) Assumes conversion of all of the holders' notes at a conversion price of \$19.78 per share of common stock. However, this conversion is subject to adjustment as described under "Description of Notes - Conversion Rights" in the prospectus. As a result, the number of shares of common stock issuable upon conversion of the notes may increase or decrease in the future.
- (3) Calculated under Rule 13d-3(d)(1)(i) of the Securities Exchange Act based on 29.8 million shares of common stock outstanding as of January 21, 2004. In calculating this amount for each holder, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular holder's notes, but none of any other holders' notes. Assumes that holders do not beneficially own any common stock other than the common stock issuable upon conversion of the notes or as otherwise noted.

Because the selling securityholders may offer all or some of their notes or the underlying common stock at various times, we cannot estimate the amount of the notes or underlying common stock that will be held by the selling securityholders upon the termination of any particular offering. See "Plan of Distribution" in the prospectus.
