NOTE 1. BASIS OF PRESENTATION

The consolidated financial statements include the accounts of Peoples Financial Services Corp. (the “Corporation” or the “Company”) and its wholly owned subsidiary, Peoples National Bank (the “Bank”). All material intercompany accounts and transactions have been eliminated in consolidation.

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for a fair presentation have been included and are of a normal, recurring nature. Operating results for the six-month period ended June 30, 2005 are not necessarily indicative of the results that may be expected for the year-ended December 31, 2005. For further information, refer to the financial statements and footnotes included in the Company’s Annual Report on Form 10K for the year-ended December 31, 2004.

NOTE 2. EARNINGS PER SHARE

The following table sets forth the computation of basic and diluted earnings per share:

	Six-months Ended		Three-months Ended	
	June 30, 2005	June 30, 2004	June 30, 2005	June 30, 2004
Net income applicable to common stock	\$ 2,462,000	\$ 2,188,000	\$ 1,188,000	\$ 891,000
Weighted average common shares				
outstanding	3,151,114	3,168,962	3,148,110	3,170,649
Effect of dilutive securities, stock options	18,378	24,397	17,434	25,737
Weighted average common shares				
outstanding used to calculate diluted				
earnings per share	3,169,492	3,193,359	3,165,544	3,196,386
Basic earnings per share	\$.78	\$.69	\$.38	\$.28
Diluted earnings per share	\$.78	\$.69	\$.38	\$.28

NOTE 3. OTHER COMPREHENSIVE INCOME

The components of other comprehensive income and related tax effects for the six-months and three-months ended June 30, 2005 and 2004 are as follows:

(In thousands)	Six-Months Ended		Three-Months Ended	
	June 30, 2005	June 30, 2004	June 30, 2005	June 30, 2004
Unrealized holding gains (losses) on available for sale securities	\$ (695)	\$ (3,214)	\$ 813	\$ (4,542)
Less: Reclassification adjustment for gains (losses) realized in net income	134	76	109	21
Net unrealized gains (losses)	(829)	(3,290)	704	(4,563)
Tax effect	282	1,119	(238)	1,552
Other comprehensive income (loss)	\$ (547)	\$ (2,171)	\$ 466	\$ (3,011)

NOTE 4. STOCK-BASED COMPENSATION

The Company has adopted the disclosure-only provisions of Statement of Financial Accounting Standards (SFAS) No. 123, "Accounting for Stock-Based Compensation." Accordingly, no compensation costs have been recognized for options granted in 2005 and 2004. Had compensation costs for stock options granted been determined based on the fair value at the grant dates for awards under the plan consistent with the provisions of SFAS No. 123, the Company's net income and earnings per share, for the six-months and three-months ended June 30, 2005 and 2004, would have been reduced to the pro forma amounts indicated below:

(In thousands, except per share amounts)	Six-Months Ended		Three-Months Ended	
	June 30, 2005	June 30, 2004	June 30, 2005	June 30, 2004
Net income as reported	\$ 2,462	\$ 2,188	\$ 1,188	\$ 891
Total stock-based compensation cost, net of tax, which would have been included in the determination of net income if the fair value based method had been applied to all awards.	(3)	(2)	(1)	(1)
Pro forma net income	\$ 2,459	\$ 2,186	\$ 1,187	\$ 890
Basic earnings per share:				
As reported	\$.78	\$.69	\$.38	\$.28
Pro forma	\$.78	\$.69	\$.38	\$.28
Diluted earnings per share:				
As reported	\$.78	\$.69	\$.38	\$.28

Pro forma	\$.78	\$.68	\$.37	\$.28
-----------	----	-----	----	-----	----	-----	----	-----

8

NOTE 5. GUARANTEES

The Company does not issue any guarantees that would require liability recognition or disclosure, other than standby letters of credit. Outstanding letters of credit written are conditional commitments issued by the Company to guarantee the performance of a customer to a third party. The Company's exposure to credit loss in the event of nonperformance by the other party to the financial instrument for standby letters of credit is represented by the contractual amount of those instruments. The Company had \$1,754,000 of standby letters of credit as of June 30, 2005. The Bank uses the same credit policies in making conditional obligations as it does for on-balance sheet instruments.

The majority of these standby letters of credit expire within the next twelve months. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending other loan commitments. The Company requires collateral supporting these letters of credit as deemed necessary. The maximum undiscounted exposure related to these commitments at June 30, 2005 was \$1,754,000, and the approximate value of underlying collateral upon liquidation that would be expected to cover this maximum potential exposure was \$974,000. The current amount of the liability as of June 30, 2005 for guarantees under standby letters of credit issued after December 31, 2004 is not material.

NOTE 6. NEW ACCOUNTING STANDARDS

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 123(R), "Share-Based Payment." Statement No. 123(R) replaces Statement No. 123, "Accounting for Stock-Based Compensation," and supersedes APB Opinion No. 25, "Accounting for Stock Issued to Employees." Statement No. 123(R) requires compensation costs related to share-based payment transactions to be recognized in the financial statements over the period that an employee provides service in exchange for the award. Public companies are required to adopt the new standard using a modified prospective method and may elect to restate prior periods using the modified retrospective method. The Bank will not elect to use the modified retrospective method. Under the modified prospective method, companies are required to record compensation cost for new and modified awards over the related vesting period of such awards prospectively and record compensation cost prospectively for the unvested portion, at the date of adoption, of previously issued and outstanding awards over the remaining vesting period of such awards. No change to prior periods presented is permitted under the modified prospective method.

On April 14, 2005, the Securities and Exchange Commission ("SEC") adopted a new rule that amends the compliance dates for Financial Accounting Standards Board's Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" ("SFAS No. 123(R)"). Under the new rule, the Company is required to adopt SFAS No. 123(R) in the first annual period beginning after (June 15, 2005 for non SB issuers, first annual period beginning after December 15, 2005 for SB issuers). The Company estimates that total stock-based compensation expense, net of related tax effects, will increase by \$3,000 for the year-ending December 31, 2006.

In March 2005, the SEC issued Staff Accounting Bulletin No. 107 ("SAB No. 107"), "Share-Based Payment", providing guidance on option valuation methods, the accounting for income tax effects of share-based payment arrangements upon adoption of SFAS No. 123(R), and the disclosures in MD&A subsequent to the adoption. The Company will provide SAB No. 107 required disclosures upon adoption of SFAS No. 123(R) on January 1, 2006.

In March 2005, the FASB issued Interpretation No. 47 (“FIN 47”), “Accounting for Conditional Asset Retirement Obligations,” that requires an entity to recognize a liability for a conditional asset retirement obligation when incurred if the liability can be reasonably estimated. FIN 47 clarifies that the term Conditional Asset Retirement Obligation refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value of an asset retirement obligation. FIN 47 is effective no later than the end of fiscal years ending after December 15, 2005. We do not expect the adoption of FIN 47 to materially impact our condensed consolidated financial statements.

In May 2005, FASB issued SFAS 154, “Accounting Changes and Error Corrections”. The Statement requires retroactive application of a voluntary change in accounting principle to prior period financial statements unless it is impracticable. SFAS 154 also requires that a change in method of depreciation, amortization, or depletion for long-lived, non-financial assets be accounted for as a change in accounting estimate that is affected by a change in accounting principle. SFAS 154 replaces APB Opinion 20, “Accounting Changes”, and SFAS 3, “Reporting Accounting Changes in Interim Financial Statements”. SFAS 154 will be effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. Management currently believes that adoption of the provisions of SFAS 154 will not have a material impact on the Company’s condensed consolidated financial statements.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of the consolidated financial statements of the Corporation is presented to provide insight into management’s assessment of financial results. The Corporation’s only subsidiary, Peoples National Bank, provides financial services to individuals and businesses within the Bank’s primary market area made up of Susquehanna, Wyoming and Northern Lackawanna Counties in Pennsylvania, and Broome County in New York. The Bank is a member of the Federal Reserve System and subject to regulation, supervision, and examination by the Office of the Comptroller of the Currency.

CAUTIONARY STATEMENT CONCERNING FORWARD LOOKING INFORMATION

Except for historical information, this Report may be deemed to contain “forward looking” information. Examples of forward looking information may include, but are not limited to, (a) projections of or statements regarding future earnings, interest income, other income, earnings or loss per share, asset mix and quality, growth prospects, capital structure and other financial terms, (b) statements of plans and objectives of management or the Board of Directors, (c) statements of future economic performance, and (d) statements of assumptions, such as economic conditions in the market areas served by the Corporation and the Bank, underlying other statements and statements about the Corporation and the Bank or their respective businesses. Such forward looking information can be identified by the use of forward looking terminology such as “believes,” “expects,” “may,” “intends,” “will,” “should,” “anticipates,” negative of any of the foregoing or other variations thereon or comparable terminology, or by discussion of strategy. No assurance can be given that the future results covered by the forward looking information will be achieved. Such statements are subject to risks, uncertainties, and other factors which could cause actual results to differ materially from future results expressed or implied by such forward looking information. Important factors that could impact operating results include, but are not limited to, (i) the effects of changing economic conditions in both the market areas served by the Corporation and the Bank and nationally, (ii) credit risks of commercial, real estate, consumer and other lending activities, (iii) significant changes in interest rates, (iv) changes in federal and state banking laws and regulations which could affect operations, (v) funding costs, and (vi) other external developments which could materially affect business and operations.

CRITICAL ACCOUNTING POLICIES

Disclosure of the Company's significant accounting policies is included in Note 1 to the consolidated financial statements of the Company's Annual Report on Form 10K for the year-ended December 31, 2004. Some of these policies are particularly sensitive requiring significant judgments, estimates and assumptions to be made by Management. Additional information is contained on page 20 of this report for the provision and allowance for loan losses.

OVERVIEW

Net income for the six-months ended June 30, 2005 increased 12.52% to \$2.462 million as compared to \$2.188 million for the same period in 2004. Diluted earnings per share increased 13.04% to \$.78 per share for the first half of 2005 from \$.69 per share in the same six-month period in 2004. At June 30, 2005, the Company had total assets of \$386.309 million, total net loans of \$246.527 million, and total deposits of \$283.155 million.

FINANCIAL CONDITION

Cash and Cash Equivalents:

At June 30, 2005, cash and deposits with other banks totaled \$7.178 million as compared to \$6.005 million on December 31, 2004.

Management believes the liquidity needs of the Corporation are satisfied by the current balance of cash and cash equivalents, readily available access to traditional funding sources, and the portion of the investment and loan portfolios that mature within one year. The current sources of funds will enable the Corporation to meet all its cash obligations as they come due.

Investments:

Investments totaled \$114.263 million on June 30, 2005, increasing by \$665 thousand from the December 31, 2004 total of \$113.598 million.

The total investment portfolio is held as available for sale. This strategy was implemented in 1995 to provide more flexibility in using the investment portfolio for liquidity purposes as well as providing more flexibility in selling when market opportunities occur.

Investments available for sale are accounted for at fair value with unrealized gains or losses net of deferred income taxes reported as a separate component of stockholders' equity. The carrying value of investments as of June 30, 2005 included an unrealized gain of \$107 thousand reflected as accumulated other comprehensive income of \$71 thousand in stockholders' equity, net of deferred income taxes of \$36 thousand. This compares to an unrealized gain of \$936 thousand at December 31, 2004 reflected as accumulated other comprehensive income of \$618 thousand, net of deferred income taxes of \$318 thousand.

Management monitors the earnings performance and effectiveness of liquidity of the investment portfolio on a monthly basis through the Asset/Liability Committee ("ALCO"). The ALCO also reviews and manages interest rate risk for the Corporation. Through active balance sheet management and analysis of the investment securities portfolio, the Corporation maintains sufficient liquidity to satisfy depositor requirements and various credit needs of its customers.

Loans:

Net loans increased \$4.452 million or 1.84% to \$246.527 million as of June 30, 2005 from \$242.075 million as of December 31, 2004. Of the loan growth experienced in the first half of 2005, commercial loans increased \$3.601 million or 3.01% to \$123.242 million as of June 30, 2005 compared to \$119.641 million as of December 31, 2004, and real estate mortgage loans increased \$1.294 million or 1.22%, to \$107.748 million as of June 30, 2005, compared to \$106.454 million as of December 31, 2004.

Increasing the loan to deposit ratio is a goal of the Bank, but loan quality is always considered in this effort. Management has continued its efforts to create good underwriting standards for both commercial and consumer credit. The Bank's lending continues to consist primarily of retail lending which includes single family residential mortgages and other consumer lending. Most commercial lending is done primarily with locally owned small businesses.

The collective increase in earning assets (investments and loans) is the product of the increase in deposits discussed further in the deposits section of this document.

Other Assets:

Other Assets increased \$123 thousand, or 1.38%, to \$9.037 million as of June 30, 2005 from \$8.914 million as of December 31, 2004. The largest portion of the increase in other assets was due to the pre-payment of Pennsylvania shares tax for 2005. The balance in this account was \$150 thousand as of June 30, 2005 compared to a \$0 balance as of December 31, 2004.

Deposits:

Deposits are attracted from within the Bank's primary market area through the offering of various deposit instruments including NOW accounts, money market accounts, savings accounts, certificates of deposit, and IRA's. During the six-month period ended June 30, 2005, total deposits increased by \$8.380 million, or 3.05%, to \$283.155 million.

Borrowings:

The Bank utilizes borrowings as a source of funds for its asset/liability management. Advances are available from the Federal Home Loan Bank (FHLB) provided certain standards related to credit worthiness have been met. Repurchase and term agreements are also available from the FHLB.

Total short-term borrowings at June 30, 2005 were virtually unchanged at \$14.138 million as compared to \$14.614 million as of December 31, 2004, a decrease of \$476 thousand or 3.26%. Long-term borrowings were \$48.063 million as of June 30, 2005 compared to \$46.034 million as of December 31, 2004 an increase of \$2.029 million or 4.41%. The decrease in short-term borrowings was directly related to the increase in long-term borrowings as the Bank moved to lock in at historically low long-term borrowing rates by borrowing an additional \$5 million through the Federal Home Loan Bank in January of 2005. This was somewhat offset by the maturity of a \$2.5 million long-term borrowing position at the Federal Home Loan Bank in May of 2005.

Capital:

The adequacy of the Corporation's capital is reviewed on an ongoing basis with reference to the size, composition and quality of the Corporation's resources and regulatory guidelines. Management seeks to maintain a level of capital sufficient to support existing assets and anticipated asset growth, maintain favorable access to capital markets, and preserve high quality credit ratings. As of June 30, 2005, regulatory capital to total assets was 9.69% as compared to 10.57% on December 31, 2004. The Company repurchases its stock in the open market or from individuals as warranted to leverage the capital account and to provide stock for a dividend reinvestment plan. In the three-months ended June 30, 2005 the Company purchased 10,200 shares for the treasury at a total cost of \$356,000.

The Corporation has complied with the standards of capital adequacy mandated by the banking regulators. The bank regulators have established "risk-based" capital requirements designed to measure capital adequacy. Risk-based capital ratios reflect the relative risks of various assets the banks hold in their portfolios. A weight category of either 0% (lowest risk asset), 20%, 50%, or 100% (highest risk assets) is assigned to each asset on the balance sheet. Capital is being maintained in compliance with risk-based capital guidelines. The Company's Tier 1 capital to risk weighted asset ratio was 13.92% and the total capital ratio to risk weighted asset's ratio was 14.92% at June 30, 2005. The Corporation is deemed to be well-capitalized under regulatory standards.

Liquidity:

Liquidity measures an organization's ability to meet cash obligations as they come due. The consolidated statement of cash flows presented in the accompanying financial statements included in Part I of this Form 10Q provide analysis of the Corporation's cash and cash equivalents. Additionally, management considers that portion of the loan and investment portfolio that matures within one year as part of the Corporation's liquid assets.

The ALCO addresses the liquidity needs of the Bank to see that sufficient funds are available to meet credit demands and deposit withdrawals, as well as to the placement of available funds in the investment portfolio. In assessing liquidity requirements, equal consideration is given to the current position as well as the future outlook.

Off Balance Sheet Arrangements:

The Company's financial statements do not reflect various commitments that are made in the normal course of business, which may involve some liquidity risk. These commitments consist primarily of commitments to grant new loans, unfunded commitments of existing loans and letters of credit made under the same standards as on-balance sheet instruments. Unused commitments on June 30, 2005 totaled \$30.864 million, which consisted of \$20.910 million in unfunded commitments of existing loans, \$8.200 million to grant new loans and \$1.754 thousand in letters of credit. Due to fixed maturity dates and specified conditions within these instruments, many will expire without being drawn upon. Management believes that amounts actually drawn upon can be funded in the normal course of operations and therefore, do not represent a significant liquidity risk to the Company.

Interest Rate Sensitivity:

The management of interest rate sensitivity seeks to avoid fluctuating net interest margins and to provide consistent net interest income through periods of changing interest rates.

The Company's risk of loss arising from adverse changes in the fair value of financial instruments, or market risk, is composed primarily of interest rate risk. The primary objective of the Company's asset/liability management activities is to maximize net interest income while maintaining acceptable levels of interest rate risk. The Company's ALCO is responsible for establishing policies to limit exposure to interest rate risk, and to ensure procedures are established to monitor compliance with those policies. The guidelines established by ALCO are reviewed by the Company's Board of Directors.

The tools used to monitor sensitivity are the Statement of Interest Sensitivity Gap and the interest rate shock analysis. The Bank uses a software model to measure and to keep track. In addition, an outside source does a quarterly analysis to make sure our internal analysis is current and correct. The statement of Interest Sensitivity Gap is a good assessment of current position and is a very useful tool for the ALCO in performing its job. This report is monitored in an effort to "match" maturities or repricing opportunities of assets and liabilities, in order to attain the maximum interest within risk tolerance policy guidelines. The statement does, although, have inherent limitations in that certain assets and liabilities may react to changes in interest rates in different ways, with some categories reacting in advance of changes and some lagging behind the changes. In addition, there are estimates used in determining the actual propensity to change of certain items, such as deposits without maturities.

The following table sets forth the Company's interest sensitivity analysis as of June 30, 2005:

INTEREST RATE SENSITIVITY ANALYSIS

(In thousands)

	Maturity or Repricing In:				
	3 Months	3-6 Months	6-12 Months	1-5 Years	Over 5 Years

RESULTS OF OPERATIONS***Net Interest Income:***

For the three-months ended June 30, 2005, total interest income increased by \$225 thousand, or 4.57%, to \$5.151 million as compared to \$4.926 million for the three-months ended June 30, 2004. This increase was due to the increase in average earning assets as well as an increase in yields on loans from 6.25% for the quarter ended June 30, 2004 to 6.37% for the same quarter in 2005. Average earning assets increased to \$364.163 million for the three-months ended June 30, 2005 as compared to \$362.212 million for the three-months ended June 30, 2004. The resulting interest earned on loans was \$3.955 million for the three-month period ended June 30, 2005 compared to \$3.717 million for the same period in 2004, an increase of \$238 thousand or 6.40%. The overall yield on earning assets increased for the three-months ended June 30, 2005 at 5.67% as compared to 5.47% for the three-months ended June 30, 2004.

For the six-months ended June 30, 2005, total interest income increased by \$259 thousand, or 2.62%, to \$10.158 million as compared to \$9.899 million for the six-months ended June 30, 2004. This increase was primarily due to the increase in average total loans. Average total loans increased to \$247.789 million for the six-months ended June 30, 2005 as compared to \$238.523 million for the six-months ended June 30, 2004. The resulting interest earned on loans was \$7.796 million for the six-month period ended June 30, 2005 compared to \$7.454 million for the same period in 2004, an increase of \$342 thousand or 4.59%. The overall yield on earning assets remained fairly stable for the six-months ended June 30, 2005 at 5.66% as compared to 5.57% for the six-months ended June 30, 2004.

Total interest expense increased by \$239 thousand, or 13.59%, to \$1.997 million for the three-months ended June 30, 2005 from \$1.758 million for the three-months ended June 30, 2004. This increase was primarily attributable to the increase in the cost of funds, which increased to 2.66% for the three-months ended June 30, 2005 as compared to 2.37% for the second quarter of 2004. Average interest-bearing liabilities also increased to \$301.072 million for the three-months ended June 30, 2005 as compared to \$298.498 million for the three-months ended June 30, 2004.

Total interest expense increased by \$352 thousand, or 10.00%, to \$3.872 million for the six-months ended June 30, 2005 from \$3.520 million for the six-months ended June 30, 2004. As with the quarterly interest expense, this increase was primarily attributable to the increase in the cost of funds, which increased to 2.62% for the six-month period ended June 30, 2005 as compared to 2.40% for the same period in 2004. Average interest-bearing liabilities also increased to \$297.873 million for the six-months ended June 30, 2005 as compared to \$294.871 million for the six-months ended June 30, 2004.

Net interest income decreased by \$14 thousand, or .44%, to \$3.154 million for the three-months ended June 30, 2005 from \$3.168 million for the three-months ended June 30, 2004. The Bank's net interest spread decreased to 3.01% for the three-months ended June 30, 2005 from 3.10% for the three-months ended June 30, 2004. The net interest margin decreased to 3.47% for the three-month period ended June 30, 2005 from 3.52% for the three-month period ended June 30, 2004. The effect of the increases to the Federal Funds rate, which have been implemented by the Federal Reserve over the past 12 months, have been to decrease both the net interest spread and net interest margin. This is due to the short end of the treasury yield curve increasing with those rate movements while the long end of the treasury yield curve has remained stable. This is commonly referred to as a flattening of the yield curve. Deposit liability rates are affected by the short end of the yield curve while loan and investment rates tend to follow the long end of the yield curve, the result of which is often a decrease in net interest income.

Net interest income decreased by \$93 thousand, or 1.46%, to \$6.286 million for the six-months ended June 30, 2005 from \$6.379 million for the six-months ended June 30, 2004. The Bank's net interest spread decreased to 3.04% for the six-months ended June 30, 2005 from 3.17% for the six-months ended June 30, 2004. The net interest margin decreased to 3.51% for the six-month period ended June 30, 2005 from 3.59% for the six-month period ended June 30, 2004. The decrease in net interest spread and net interest income for the six-months ended June 30, 2005 when compared to the six-months ended June 30, 2004 is also due to the flattening of the yield curve which was discussed with the quarterly results.

Edgar Filing: PEOPLES FINANCIAL SERVICES CORP/ - Form 10-Q

Below are the tables which set forth average balances and corresponding yields for the six-month and three-month periods ended June 30, 2005, and June 30, 2004:

Provision for Loan Loss:

The provision for loan loss for the three-months ended June 30, 2005 was \$0, a decrease of \$741,000 from \$741,000 for the same period in 2004. Slower loan growth for the second quarter of 2005, as well as a decrease in past due loans, are the reasons that a loan loss provision was not necessary in the second quarter of 2005. Also in the second quarter of 2004, the Bank increased the loan loss provision due to an impaired loan relationship which occurred in May 2004. The increased provision was due to bankruptcy proceedings entered into by a commercial loan customer. This was not a recurring event.

The provision for loan loss for the six-months ended June 30, 2005 was \$0, a decrease of \$900,000 from \$900,000 for the same period in 2004. This decrease is also the result of the second quarter 2004 provision discussed with the quarterly results. One of the Bank's main goals is to increase the loan to deposit ratio without jeopardizing loan quality. To reach its goal, management has continued its efforts to create strong underwriting standards for both commercial and consumer credit. The Bank's lending consists primarily of retail lending which includes single family residential mortgages and other consumer lending and commercial lending primarily to locally owned small businesses.

In the three-month period ended June 30, 2005, charge-offs totaled \$43,000 while net charge-offs totaled \$33,000 as compared to \$17,000 and \$12,000, respectively, for the same three-month period in 2004.

In the six-month period ended June 30, 2005, charge-offs totaled \$93,000 while net charge-offs totaled \$77,000 as compared to \$396,000 and \$378,000, respectively, for the same six-month period in 2004.

Monthly, senior management uses a detailed analysis of the loan portfolio to determine loan loss reserve adequacy. The process considers all "problem loans" including classified, criticized, and monitored loans. Prior loan loss history and current market trends, both nationally and locally, are taken into consideration. A watch list of potential problem loans is maintained and monitored on a monthly basis by the Board of Directors. The Bank has not had nor presently have any foreign loans. Based upon this analysis, senior management has concluded that the allowance of loan loss is adequate.

Other Income:

Other income was \$210 thousand for the three-months ended June 30, 2005, a decrease of \$37 thousand, or 14.98% from the comparable period in 2004. The decrease in other income for the quarter ended June 30, 2005 when compared to the same period in 2004 is the net effect of the decreases in investment division commissions in the amount of \$60 thousand, or 48.78%, to \$63 thousand for the three-month period ended June 30, 2005 when compared to \$123 thousand for the three-month period ended June 30, 2004. This is somewhat offset by the increase in income from bank owned life insurance which was \$66 thousand for the three-month period ended June 30, 2005 compared to \$54 thousand for the three-month period ended June 30, 2004, an increase of \$12 thousand or 22.22%.

Other income was \$424 thousand for the six-months ended June 30, 2005, a decrease of \$42 thousand, or 9.01% from the comparable period in 2004. The decrease in other income for the six-month period ended June 30, 2005 when compared to the same period in 2004 is again the net effect of the decreases in investment division commissions in the amount of \$80 thousand, or 38.46%, to \$128 thousand for the six-month period ended June 30, 2005 when compared to \$208 thousand for the six-month period ended June 30, 2004. This is somewhat offset by the increase in income from bank owned life insurance which was \$133 thousand for the six-month period ended June 30, 2005 compared to \$104 thousand for the six-month period ended June 30, 2004, an increase of \$29 thousand or 27.88%.

Service charges and fees increased 16.29%, or \$58 thousand, to \$414 thousand in the three-months ended June 30, 2005, from \$356 thousand in the three-months ended June 30, 2004. The increase in service charges and fees is due to net overdraft fees which were \$276 thousand for the three-month period ended June 30, 2005 compared to \$221 thousand for the comparable period in 2004, an increase of \$55 thousand, or 24.89%.

Service charges and fees increased 16.17%, or \$113 thousand, to \$812 thousand in the six-months ended June 30, 2005, from \$699 thousand in the six-months ended June 30, 2004. The year to date increase in service charges and fees is also due to net overdraft fees which were \$545 thousand for the six-month period ended June 30, 2005 compared to \$438 thousand for the comparable period in 2004, an increase of \$107 thousand, or 24.43%.

Increases in overdraft fees were expected by the Bank for 2005 when compared to the same period in 2004, due to the overdraft privilege program entered into in the second quarter of 2004. The realization of additional fee income from the program was experienced in the first half of 2005 while the program had not yet been implemented in the first half of 2004.

Gains on security sales were \$109 thousand for the three-months ended June 30, 2005 compared to \$21 thousand for the comparable period in 2004, an increase of \$88 thousand, or 419.05%.

Gains on security sales were \$134 thousand for the six-months ended June 30, 2005 compared to \$76 thousand for the comparable period in 2004, an increase of \$58 thousand, or 76.32%.

Other Operating Expenses:

Total other expenses increased 17.03%, or \$347 thousand, to \$2.384 million during the three-months ended June 30, 2005 compared to \$2.037 million for the comparable period in 2004.

Total other expenses increased 13.49%, or \$541 thousand, to \$4.552 million during the six-months ended June 30, 2005 compared to \$4.011 million for the comparable period in 2004.

Salaries and benefits increased 21.03%, or \$208 thousand, to \$1.197 million for the three-months ended June 30, 2005 compared to \$989 thousand for the same period in 2004 due to normal pay increases and increased staff. The Company opened two new branch offices located in Broome County, New York; The Deposit, New York office on April 18, 2005 and Front Street, Town of Chenango, New York on June 6, 2005. These offices were fully staffed by the second quarter of 2005 and contributed significantly to the increase in salaries and benefits.

Salaries and benefits increased 14.19%, or \$281 thousand, to \$2.261 million for the six-months ended June 30, 2005 compared to \$1.980 million for the same period in 2004 also as a result of normal pay increases and increased staff. The full-time equivalent number of employees was 115 as of June 30, 2005 compared to 101 as of June 30, 2004 due to the addition of branch staff for the first half of 2005, when compared to the same period in 2004. The Company hired branch staff in the first half of 2005 for the scheduled second quarter openings of two new branch locations in Broome County, New York mentioned previously with the quarter-end results.

Professional fees and outside services increased \$29 thousand, or 32.58%, in the three-months ended June 30, 2005 to \$118 thousand, compared to \$89 thousand for the three-month period ended June 30, 2004. Increases for the three-month period ended June 30, 2005 were due to the monthly accrual of costs associated with Sarbanes-Oxley Section 404 compliance in the amount of \$3,900; as well as consulting and legal services amounting to \$16,000, which were not incurred for the three-month period ending June 30, 2004.

Professional fees and outside services increased \$88 thousand, or 57.14%, in the six-months ended June 30, 2005 to \$242 thousand, compared to \$154 thousand for the same six-month period ended June 30, 2004. Increases for the six-month period ended June 30, 2005 were due to increased costs associated with Sarbanes-Oxley Section 404 compliance in the amount of \$33,000; compliance audit services of \$9,000; as well as various consulting and legal services amounting to \$38,000, which were not incurred in the same six-month period ended June 30, 2004.

Computer services and supplies increased \$28 thousand, or 17.50%, for the three-months ended June 30, 2005, to \$188 thousand, compared to \$160 thousand for the comparable period in 2004. This increase was due to increased costs associated with maintenance agreements for various computer equipment utilized in the operation of the Bank and costs associated with the personal computer network and on-line teller system installed by the Bank in 2004 for which the impact of those additional costs would not have been felt in the three-month period ended June 30, 2004.

Computer services and supplies increased \$59 thousand, or 19.80%, for the six-months ended June 30, 2005, to \$357 thousand, compared to \$298 thousand for the comparable period in 2004. The year to date results track closely to the results discussed in regard to the quarterly results in the previous paragraph, as well as the results which were discussed as of March 31, 2005.

All other operating expenses increased \$82 thousand, or 10.26%, to \$881 thousand in the three-months ended June 30, 2005, compared to \$799 thousand for the same three-month period in 2004. The increase in all other operating expense categories, which include occupancy, equipment, non-income/non-payroll associated taxes, and other standard operating expenses, is deemed to be insignificant under normal circumstances.

All other operating expenses increased \$113 thousand, or 7.16%, to \$1.692 million for the six-month period ended June 30, 2005, compared to \$1.579 million for the same six-month period in 2004. As with the quarterly results, the increase in all other operating expense categories, which include occupancy, equipment, non-income/non-payroll associated taxes, and other standard operating expenses, is deemed to be normal. Additional occupancy and equipment costs associated with the two new Broome County, New York offices also contributed to the increase between the two periods.

Income Tax Provision:

The Corporation recorded an income tax provision of \$315 thousand, or 20.96% of income, and \$123 thousand, or 12.13% of income, for the quarters ended March 31, 2005 and 2004, respectively. The increase in the income tax provision from the three-month period ended June 30, 2004 to June 30, 2005 was due to the significant increase in pre-tax income. The second quarter of 2004 included a significant provision for loan loss due to bankruptcy proceedings entered into by a commercial loan customer during that period. This was not a recurring event.

The Corporation recorded an income tax provision of \$642 thousand, or 20.68% of income, and \$521 thousand, or 19.23% of income, for the six-months ended June 30, 2005 and 2004, respectively.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

The Federal Reserve has now raised the overnight fed funds rate nine times since June of 2004 in 25 basis point increments. As of June 30, 2005, the Bank is currently showing sensitivity to downward rate shift scenarios. The results of the latest financial simulation follow. The simulation shows a possible increase in net interest income of 3.21%, or \$374,000, in a +200 basis point rate shock scenario over a one-year period. A decrease of 7.55% or \$879,000 is shown in the model at a -200 basis point rate shock. The net interest income risk position of the Bank remains within the guidelines established by the Bank's asset/liability policy. The Bank continuously monitors its rate sensitivity.

Equity value at risk is monitored regularly and is also within established policy limits. Please refer to the Annual Report on Form 10K filed with the Securities and Exchange Commission for December 31, 2004, for further discussion of this matter.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

The Company's management, including the Company's Chief Executive Officer and Chief Financial Officer evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) and 15(d)-15(e) under the Securities Exchange Act of 1934, as amended) as of June 30, 2005. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, the Company's disclosure controls and procedures were effective in timely alerting them to any material information relating to the Company and its subsidiaries required to be included in the Company's periodic SEC filings.

(b) Changes in internal controls.

There were no changes made in the Company's internal controls over financial reporting that occurred during the Company's most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

Although as stated above, we have not made any significant changes in our internal controls over financial reporting in the most recent fiscal quarter, based on our documentation and testing to date, we have made improvements in the documentation, design and effectiveness of internal controls over financial reporting, including the purchase of internal control software that allows upper management to view reports and to understand the risks and controls within the entire organization or specific areas of the organization. These reports provide up to date information at all times.

PART II OTHER INFORMATION**Item 1. Legal Proceedings**

The nature of the Company's business generates a certain amount of litigation involving matters arising out of the ordinary course of business. In the opinion of management, there are no legal proceedings that might have a material effect on the results of operations, liquidity, or the financial position of the Company at this time.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

**PEOPLES FINANCIAL SERVICES CORP.
ISSUER PURCHASES OF COMMON STOCK**

MONTH	Total number of shares purchased	Average price paid per share	Total number of shares purchased as part of publicly announced plans or programs	Maximum number of shares that may yet be purchased under the plans or programs (1)
April 1, 2005 - April 30, 2005	4,000	\$ 34.20	0	112,674
May 1, 2005 - May 31, 2005	0	\$ 0	0	112,674
June 1, 2005 - June 30, 2005	0	\$ 0	0	112,674
TOTAL	4,000	\$ 34.20	0	

(1) On December 27, 1995, the Board of Directors authorized the repurchase of 187,500 shares of the Corporation's common stock from shareholders.

On July 2, 2001, the Board of Directors authorized the repurchase of an additional 5%, or 158,931 shares of the Corporation's common stock outstanding.

Neither repurchase program stipulated an expiration date.

Item 3. Defaults upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of Shareholders held on April 28, 2005, Meeting Chairman, Russell Shurtleff, reported that the Judge of Election and Proxy had completed the voting tabulations. On the basis of their report, he declared that George H. Stover, Jr. and Richard S. Lochen, Jr. were elected for a three-year term.

I. Election of Class I Directors

NAME	FOR	WITHHOLD AUTHORITY
George H. Stover, Jr.	2,259,533	23,912
Richard S. Lochen, Jr.	2,272,809	10,635

Class II Directors whose terms will expire in 2006

John W. Ord

Russell D. Shurtleff

Class III Directors whose terms will expire in 2007

Thomas F. Chamberlain

Item 5. Other Information

None.

Item 6. Exhibits

(a) Exhibits required by Item 601 of Regulation S-K:

Exhibit 31.1
CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER OR
PRINCIPAL FINANCIAL OFFICER
PURSUANT TO 81 U.S.C. SECTION 1350

I, John W. Ord, certify that:

1. I have reviewed this quarterly report on Form 10Q of Peoples Financial Services Corp.;
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) for the registrant and have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in the annual report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting.
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
