GOVERNMENT PROPERTIES TRUST, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements of Government Properties Trust, Inc., a Maryland corporation (the Company), have been prepared pursuant to Securities and Exchange Commission (SEC) rules and regulations and should be read in conjunction with the consolidated financial statements and notes thereto included in the 2003 Form 10-K. The accompanying consolidated financial statements highlight significant changes to the Notes included in the 2003 Form 10-K and present interim disclosures as required by the SEC. The accompanying consolidated financial statements reflect, in the opinion of management, all adjustments considered necessary for a fair presentation of the interim financial statements. All such adjustments are of a normal and recurring nature.

The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expense during the reporting periods. Our results for the quarter ended September 30, 2004 are not necessarily indicative of our results for any future interim period or for the full fiscal year.

Certain reclassifications have been made to the previously reported 2003 consolidated financial statements in order to provide comparability with the interim period financial statements reported herein. These reclassifications have not changed the 2003 results of operations or stockholders' equity.

2. NATURE OF BUSINESS AND OPERATIONS

The Company was incorporated in Michigan in 1998. In January 2004, the Company completed a public offering of its common stock and listed its common stock on the New York Stock Exchange. In connection with this offering, the Company reincorporated in Maryland and changed its name to Government Properties Trust, Inc. The historical operations included in the consolidated financial statements are those of its predecessor company (Gen-Net Lease Income Trust, Inc.). References to the Company for periods prior to 2004 refer to Gen-Net Lease Income Trust, Inc. and to Government Properties Trust, Inc. for subsequent periods. The Company has elected to be taxed as a real estate investment trust (REIT) under the Internal Revenue Code of 1986, as amended, beginning in 2003.

The Company began formal operations with its first property acquisition in December 2002 and, as of September 30, 2004, the Company owned ten properties (includes one property held for sale - See Note 12) located throughout the United States. The Company acquires properties through various operating entities, which are wholly owned by the Company. The Company operates in one segment.

Between October 2002 and August 2003, the Company sold 955,552 shares of its common stock at \$10 per share. In January 2004, the Company sold 19.3 million shares of its common stock (the Offering) at \$10 per share and listed its common stock on the New York Stock

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Exchange. The Offering raised approximately \$177 million in net proceeds.

3. COMMON STOCK AND EARNINGS PER SHARE

The Company reports earnings per share pursuant to Statement of Financial Accounting Standards No. 128, Earnings Per Share. Basic and diluted loss per share attributable for all periods presented is computed by dividing the loss to common stockholders by the weighted average number of common shares and potential common stock outstanding during the period. The Company had no common stock equivalents outstanding for the three and nine months ended September 30, 2003. The Company had nonvested stock grants of 176,613 and 136,778 shares outstanding during the three and nine months ended September 30, 2004, respectively, which were not included in the computation of diluted earnings per share because the effect would have been anti-dilutive.

4. DEFERRED COSTS

Deferred costs consist of the following:

	SEPTEMBER 30, 2004	DECEMBER 31, 2003
Financing costs	\$ 920,009	\$ 134,709
Offering costs		1,822,871
Accumulated amortization	(179,315)	(9,230)
	\$ 740,694	\$ 1,948,350

In connection with the completion of the Offering, offering costs of \$1.8 million at December 31, 2003 were reclassified to Additional Paid-in Capital in the accompanying consolidated balance sheet.

5. RESTRICTED CASH FOR LETTER OF CREDIT

During the first quarter of 2004, the Company placed approximately \$17.4 million of operating cash into a restricted cash account to secure a letter of credit in connection with a proposed property acquisition. See Note 14 Subsequent Event, for details on property acquisition.

6. EQUITY INCENTIVE PLAN

The Company has a 2003 Equity Incentive Compensation Plan, which has 1,000,000 shares of Common Stock reserved for issuance thereunder. In connection with the original issuance of shares during the first quarter of 2004, the Company adopted the fair value recognition provisions of SFAS No. 123, Accounting for Stock Based Compensation and SFAS No. 148, Accounting for Stock Based Compensation Transition and Disclosure an amendment of FASB Statement No. 123.

The Company recognizes compensation expense for restricted shares issued based upon the fair market value of the common stock at the grant date. Compensation expense is recognized on a straight-line basis over the vesting period. During the nine months ended September 30, 2004, the Company granted 186,950 restricted shares pursuant to the Plan. The fair value of the shares at the time of the grants ranged from \$10.70 to \$13.90 per share. Of the shares issued, 12,750 shares vested immediately. The remaining 174,200 restricted shares were outstanding at September 30, 2004 and vest over periods of one to five years. Compensation expense recognized and included in general and administrative expense in the accompanying consolidated statement of operations was \$248,274 and \$508,997 for the three and nine months ended September 30, 2004, respectively. As of September 30, 2004, there are 813,050 shares available for grant under the Plan.

7. LINES-OF-CREDIT, MORTGAGE NOTES PAYABLE AND MORTGAGE NOTE PAYABLE AFFILIATE

Lines-of-credit, mortgage notes payable, and mortgage note payable affiliate consisted of the following:

	SEPTEMBER 30, 2004	DECEMBER 31, 2003
LINES OF CREDIT	\$	\$

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Line-of-credit with a financial institution for property acquisitions with advances up to \$50,000,000, interest at prime rate (4.25% at September 30, 2004). Line-of-credit expires in April 2005, interest is due quarterly. No advances have been made on the line-of-credit

Line-of-credit with a financial institution for property acquisitions, interest at the financial institution's prime rate (4.0% at December 31, 2003), plus 50 basis points per annum. Advances were payable 180 days after the advance and were secured by a subordinated mortgage on the acquired property. Principal repaid and line retired in February 2004. (A)

2,287,510

Unsecured line-of-credit with a financial institution (maximum borrowing \$150,000), interest at prime rate (4.0% at December 31, 2003), principal repaid and line retired in February 2004 (A)

110,145

Unsecured line-of-credit with a financial institution (maximum borrowing \$1,000,000), interest at fixed rate of 20%, principal repaid and line retired in January 2004 (A)

650,000

Total lines of credit	\$	\$	3,047,655
-----------------------	----	----	-----------

MORTGAGE NOTES PAYABLE(B),(C)

Mortgage notes payable to various financial institutions, collateralized by various properties, interest at fixed rates ranging from 5.44% to 8.3% per annum, with principal and interest payable monthly through 2013. The weighted average interest rate at September 30, 2004 and December 31, 2003 was 5.71% and 6.0%, respectively

\$	53,192,447	\$	24,647,478
----	------------	----	------------

MORTGAGE NOTE PAYABLE AFFILIATE(C)

Mortgage note payable to Genesis Financial Group, Inc. collateralized by a subordinated mortgage on one property, interest at LIBOR (1.12% at December 31, 2003) plus 250 basis points per annum payable monthly and principal repaid and line retired in January 2004. (A)

\$		\$	1,639,219
----	--	----	-----------

(A) Debt outstanding at December 31, 2003 was retired with funds received in connection with the Offering.

(B) The mortgages notes payable are subject to various operating covenants. In addition, the Company must periodically fund and maintain escrow accounts to fund future real estate taxes, repairs and maintenance and insurance payments, as well as to fund certain tenant releasing costs. These escrow accounts are included in restricted cash escrows.

(C) A portion of the Company's real estate assets have been pledged as collateral for its mortgage notes payable, certain lines of credit and mortgage note payable affiliate.

Total interest paid on the lines-of-credit and mortgage notes payable was \$528,409 and \$445,318 for the three months ended September 30, 2004 and 2003, respectively. During the three months ended September 30, 2004 and 2003, the Company incurred interest expense of \$660,373 and \$445,318, respectively.

For the nine months ended September 30, 2004 and 2003, total interest paid on the lines-of-credit and mortgage notes payable was \$1,395,219 and \$754,776, respectively (including interest paid to Genesis Financial Group, Inc. (Genesis) of \$1,973 and \$44,180 in 2004 and 2003, respectively). During the nine months ended September 30, 2004 and 2003, the Company incurred interest expense of \$1,426,521 and \$754,776, respectively (including interest incurred with Genesis of \$1,973 and \$44,180 in 2004 and 2003, respectively).

8. CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject the Company to a concentration of credit risk are primarily cash investments and accounts receivable from tenants. In order to limit credit risk, the Company places its cash and investments in investment-grade short-term instruments with high quality financial institutions. The cash and investment account balances at each financial institution typically exceed Federal Deposit Insurance Corporation (FDIC) insurance coverage.

9. RELATED PARTY TRANSACTIONS

Genesis, the sponsor of the initial public offering by the predecessor company Gen-Net Lease Income Trust, Inc., provides the Company with property acquisition services. A summary of the terms of these services provided by Genesis are as follows:

FEE	COMPENSATION
Acquisition Fees	Up to 1% of the property purchase price for an acquisition fee plus up to 2% of the acquisition fee for acquisition related expenses.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Prior to the January 2004 public offering of common stock, Genesis also provided property disposition services, administration services, and property management services. A summary of the terms of these services provided by Genesis are as follows:

FEE	COMPENSATION
Property Management Fees	For day-to-day property management 3% of gross rental revenue.
Administrative	For day-to-day administrative support to the Company 3% of gross rental revenue and out-of-pocket expenses.

The following is a summary of the fees incurred and payable:

	SEPTEMBER 30, 2004		SEPTEMBER 30, 2003	
	PAYABLE	INCURRED	PAYABLE	INCURRED
Acquisition fees(A)	\$	\$ 682,716	\$	\$ 342,700
Property management fees(B)		10,888	9,771	72,279
Administrative fees(C)		10,237	50,000	71,682

(A) Amounts included in real estate in the Consolidated Balance Sheets.

(B) Amounts included in property operations expense in the Consolidated Statements of Operations.

(C) Amounts included in general and administrative expense in the Consolidated Statements of Operations.

In addition, Genesis owed the Company \$310,000 (included in other assets) at September 30, 2004 and December 31, 2003 for previous offering costs pursuant to a conditional agreement between Genesis and the Company. The amount owed is non-interest bearing and is secured by an irrevocable letter of credit which expires on June 30, 2005 unless extended to no later than June 30, 2006.

10. PROPERTY ACQUISITIONS

The Company acquired the following properties during the nine months ended September 30, 2004 and during the year ended December 31, 2003. The results of their operations are included in the Company's consolidated statements of operations from their respective dates of acquisition.

PROPERTY	LOCATION	ACQUISITION COST	MONTH ACQUIRED
2003 acquisitions(A):			
USDEA Building (Bakersfield Property)	Bakersfield, CA	\$ 2,385,804	January
Social Security Administration Offices (Charleston Property)	Charleston, WV	18,466,705	April
General Services Administration Office (Clarksburg Property)	Clarksburg, WV	11,029,266	April
Social Security Administration Office (Kingsport Property)(B)	Kingsport, TN	2,992,130	April
		\$ 34,873,905	
2004 acquisitions(A):			
Bureau of Public Debt (Mineral Wells Property)(C)	Mineral Wells, WV	\$ 5,109,486	March
Federal Bureau of Investigation (Pittsburgh Property)	Pittsburgh, PA	28,682,675	May
USDA District Offices (Lenexa Property)	Lenexa, KS	10,525,293	June
Veterans Administration Outpatient Clinic (Baton Rouge Property)	Baton Rouge, LA	5,931,242	September
Federal Courthouse (Charleston Property)	Charleston, SC	19,277,829	September
		\$ 69,526,525	

(A) In accordance with SFAS 141, the Company allocated the purchase price for these properties to net tangible and identified intangible assets acquired based on their fair values (including land, buildings, tenant improvements, acquired above and below market leases and the origination cost of acquired in-place leases) and acquired liabilities, and allocated the purchase price based on these assessments, including land at appraised value and buildings at replacement costs. The Company assessed fair value based on estimated cash flow projections that utilize discount and capitalization rates deemed appropriate by management and available market information. The value of tenant origination costs are amortized over the remaining term of the respective leases.

(B) In connection with the purchase of this property, the Company assumed a first mortgage note in the amount of \$2,308,422 and an unsecured note payable in the amount of \$188,230. The Company paid off the unsecured note payable during the third quarter of 2004.

(C) Included in the acquisition cost amount is a note receivable from tenant in the amount of \$694,293 which the Company assumed with the purchase of this property. The interest on the note receivable is fixed at 8% per annum with principal and interest payable monthly through 2012.

11. UNAUDITED PRO FORMA CONDENSED CONSOLIDATED STATEMENTS OF OPERATIONS

The accompanying unaudited Pro Forma Condensed Consolidated Statements of Operations are presented as if, at January 1, 2003, the Company acquired the properties described in Note 10 Property Acquisitions and the shares outstanding at September 30, 2004 were also outstanding at January 1, 2003. In management's opinion, all adjustments necessary to reflect the effects of the above transactions have been made.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

The unaudited Pro Forma Condensed Consolidated Statements of Operations are not necessarily indicative of what the actual results of operations would have been assuming the above mentioned transaction had occurred at the dates indicated above, nor do they purport to represent our future results of operations.

PRO FORMA CONDENSED CONSOLIDATED STATEMENTS OF OPERATIONS

	NINE MONTHS ENDED SEPTEMBER 30,			
	2004		2003	
Total revenue	\$	8,382,393	\$	7,895,305
Loss from continuing operations (A)	\$	(2,838,362)	\$	(1,029,580)
Loss per diluted common share from continuing operations	\$	(0.14)	\$	(0.05)

(A) Includes expense of approximately \$2.1 million in the first quarter of 2004 for issuance of warrant - See Note 13.

12. PROPERTY HELD FOR SALE

In accordance with SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the Company reflects the historical operating results of properties sold or held for sale, as well as the gain or loss on sale from these properties, as discontinued operations in the consolidated statements of operations for periods prior to their sale. At September 30, 2004, the Harahan property was considered held for sale and the related assets and liabilities classified as held for sale are comprised of the following at September 30, 2004 and December 31, 2003:

	SEPTEMBER 30, 2004		DECEMBER 31, 2003	
ASSETS:				
Land	\$	759,251	\$	759,251
Buildings and improvements		3,149,042		3,149,042
Tenant origination costs		480,017		480,017
Accumulated depreciation		(151,230)		(121,872)
Deferred costs, net		33,991		
Total assets	\$	4,271,071	\$	4,266,438
LIABILITIES:				
Accounts payable and accrued expenses	\$	18,735	\$	40,318
Mortgage note payable		3,117,335		3,155,041
Total liabilities	\$	3,136,070	\$	3,195,359

The results of discontinued operations related to the Harahan property were comprised of the following for the three and nine months ended September 30, 2004 and 2003:

THREE MONTHS ENDED SEPTEMBER 30,		NINE MONTHS ENDED SEPTEMBER 30,	
2004	2003	2004	2003

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Rental income	\$	90,860	\$	90,860	\$	272,580	\$	272,580
Property operations		3,235		3,775		12,853		9,358
Depreciation and amortization				29,358		29,358		88,075
Total expense		3,235		33,133		42,211		97,433
Operating income		87,625		57,727		230,369		175,147
Amortization of deferred financing fees						(422)		
Interest expense		(45,469)		(46,253)		(141,423)		(130,664)
Income from property held for sale	\$	42,156	\$	11,474	\$	88,524	\$	44,483

On October 13, 2004, the Company completed the sale of the Harahan property for approximately \$4.6 million in cash.

13. ISSUANCE OF WARRANT

In connection with providing a line of credit, an affiliate of one of the Company's underwriters in the Offering was issued a warrant to purchase up to 210,000 shares of common stock. The underwriter's affiliate exercised the warrant and the Company recognized an expense of approximately \$2.1 million in the first quarter of 2004.

14. Subsequent Events

Subsequent to September 30, 2004, the Company completed the following acquisitions:

Property	Location	Approximate Purchase Price
Food & Drug Administration (College Park Property)	College Park, MD	\$ 22,300,000
Immigration Services (Pittsburg INS Property)	Pittsburgh, PA	10,500,000
Bureau of Public Debt (Parkersburg Property)	Parkersburg, WV	19,900,000
		\$ 52,700,000

The Company acquired the College Park Property with cash of approximately \$5.6 million and the assumption of a mortgage loan in the amount of \$16.7 million. The mortgage loan bears interest at a fixed rate of 6.75% with principal and interest due monthly through November 2026. The College Park Property, completed in September 2004, totals approximately 79,000 rentable square feet. Approximately 64,000 square feet is occupied by the United States Food & Drug Administration. The remaining space, totaling 15,000 rentable square feet is vacant. Under terms of the acquisition agreement, the Company will pay an additional amount of \$1.2 million should a lease be executed for the vacant space within 6 months of the date of acquisition.

The Pittsburgh INS Property was acquired with cash. The Pittsburgh INS Property, completed in March 2004, totals approximately 33,000 rentable square feet and is 100% occupied by the United States Citizenship and Immigration Services.

The Parkersburg Property was acquired with cash. The Parkersburg Property, completed in September 2004, totals approximately 81,000 rentable square feet, and is occupied by the Bureau of Public Debt. In connection with the Parkersburg Property acquisition, the letter of credit discussed in Note 5 was drawn upon. The federal government also exercised a consolidation option whereby the Company will expand the Parkersburg Property by an additional 102,000 rentable square feet. The cost of the expansion to the Property will be approximately \$22.5 million and will be paid over the term of the expansion scheduled for completion during the first half of 2006.

In October 2004, the Company completed the sale of the Harahan Property for approximately \$4.6 million in cash. (See Note 12).

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This report contains forward-looking statements. These forward-looking statements include estimates regarding:

our estimated general and administrative expense;

our risk mitigation strategy;

our policy to reserve for operating expenses and capital costs;

our distribution policy;

our operating expenses;

the adequacy of our available capital for future capital requirements;

our capital expenditures; and

the impact of changes in interest rates.

Forward-looking statements can be identified by the use of words such as may, will, should, expects, plans, anticipates, believes, estimates, predicts, intends, continues, or the negative of such terms, or other comparable terminology. Forward-looking statements also include the assumptions underlying or relating to any of the foregoing statements. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including the risks discussed in Management's Discussion and Analysis of Financial Condition and Results of Operations, Risk Factors, and elsewhere in this report.

All forward-looking statements included in this report are based on information available to us on the date hereof. We assume no obligation to update any forward-looking statements.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

The following is a discussion of our interim results of operations, financial condition and liquidity and capital resources for the three and nine months ended September 30, 2004 compared to the corresponding periods in 2003. It should be read in conjunction with the Consolidated Financial Statements and Notes thereto included herein and the 2003 Form 10-K.

OVERVIEW

We primarily invest in single tenant properties under long-term leases to the U.S. government, state governments, local governments, and government-sponsored enterprises. We are a self-managed, self-administered company that has elected to be taxed as a real estate investment trust, or REIT, under the federal tax laws. We believe that we are the only public company focused solely on investing in government-leased properties. We own each of our properties through separate, wholly owned entities. Our business consists of buying and managing recently built or renovated office properties primarily leased to the federal government, acting through the General Services Administration (GSA), under long-term leases. At September 30, 2004, we owned nine GSA-leased properties that were acquired in early 2003 and 2004 (one property in the first quarter of 2003, three properties in the second quarter of 2003, one property in the first quarter of 2004, two properties in the second quarter of 2004 and two properties in the third quarter of 2004). These properties are 100% occupied. At September 30, 2004, we also owned one property in Harahan, LA that was leased to the Federal Express Corporation. On October 13, 2004, we sold the Harahan Federal Express property for approximately \$4.6 million in cash. Subsequent to September 30, 2004, the Company acquired three additional GSA-leased properties. (See Note 14). The pace of property acquisitions determines the speed with which capital is invested in real property and that affects operating profit and cash available for distribution. Management has been focused during the reporting period on increasing the pace of acquisitions.

CRITICAL ACCOUNTING POLICIES

Refer to our 2003 Annual Report on Form 10-K for a discussion of our critical accounting policies, which include our revenue recognition of related lease agreements, recording of real estate at depreciated cost and allocation of the purchase price of properties

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

we acquire to net tangible and identified intangible assets. During the first nine months of 2004, there were no material changes to our critical accounting policies.

RESULTS OF OPERATIONS

The following table compares our operating results for the three months ended September 30, 2004 and 2003.

	2004	2003	INCREASE (DECREASE)
Revenue:			
Rental income	\$ 2,338,335	\$ 998,870	\$ 1,339,465
Tenant reimbursements	41,656		41,656
Total revenue	2,379,991	998,870	1,381,121
Expenses:			
Property Operations	543,020	251,927	291,093
Real estate taxes	257,403	146,455	110,948
Depreciation and Amortization	673,396	274,604	398,792
General and administrative	1,037,025	94,673	942,352
Total expenses	2,510,844	767,659	1,743,185
Operating (loss) income	(130,853)	231,211	(362,064)
Other income	607,884	33,797	574,087
Interest expense	(660,373)	(445,317)	(215,056)
Amortization of deferred financing fees	(91,571)	(10,845)	(80,726)
Loss from continuing operations	(274,913)	(191,154)	(83,759)
Discontinued operations: Income from property held for sale	42,156	11,474	30,682
Net loss	\$ (232,757)	\$ (179,680)	\$ (53,077)

COMPARISON OF THREE MONTHS ENDED SEPTEMBER 30, 2004 TO SEPTEMBER 30, 2003

Rental income revenue was \$2,338,335 for 2004 and \$998,870 for 2003. The increase was due to our acquisition of five additional properties during 2004.

Tenant reimbursements revenue was \$41,656 for 2004 and \$0 for 2003. This amount represents the tenant's reimbursement for the real estate tax expense in excess of the real estate tax base amount as defined in the respective lease agreement. During the second quarter of 2004, the Company was able to determine the real estate tax base amount for those properties acquired in 2003 and thereby recorded and collected the excess amount of real estate tax expense from the tenant. The amount of revenue recognized during the third quarter of 2004 represents the real estate tax expense in excess of the real estate base amount for all properties owned as of September 30, 2004.

Property operations expense was \$543,020 for 2004 and \$251,927 for 2003. The increase was in part due to the expansion of our operations from four properties owned as of September 30, 2003 to nine properties owned as of September 30, 2004. In addition, the Company recognized approximately \$106,000 in property operations expense in 2004 related to franchise tax expense for properties held in West Virginia.

Real estate tax expense was \$257,403 for 2004 and \$146,455 for 2003. The increase was due to the expansion of our operations from four properties owned as of September 30, 2003 to nine properties owned as of September 30, 2004.

Depreciation and amortization was \$673,396 for 2004 and \$274,604 for 2003. The increase was due to the expansion of our operations from four properties owned as of September 30, 2003 to nine properties owned as of September 30, 2004.

General and administrative expense was \$1,037,025 for 2004 and \$94,673 for 2003. The increase was due to the expansion of our operations to become self-managed and to increase our acquisition activity. The increased items were for compensation (salaries, board of director compensation and share grant compensation), directors and officers insurance, rent, professional fees, public company expense, and other corporate level activity.

Other income, which consists primarily of interest income, was \$607,884 for 2004 and \$33,797 for 2003. The increase was primarily due to interest income earned on short-term investments purchased from the proceeds raised in our January 2004 Offering. The amount of short-term investments held at September 30, 2004 was \$105,934,854 as compared to \$760,859 at September 30, 2003.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Interest expense was \$660,373 for 2004 and \$445,317 for 2003. The increase was due to \$29.0 million in new mortgage debt obtained during the third quarter of 2004. This increase was offset by a reduction in line of credit debt used for working capital purposes during 2003 which was paid off in January 2004 from a portion of the proceeds raised in our January 2004 Offering.

Amortization of deferred financing fees was \$91,571 in 2004 and \$10,845 in 2003. The increase was primarily due to the amortization of financing fees being recognized of approximately \$71,000 related to the \$50 million revolving credit facility obtained in April 2004.

Income from discontinued operations was \$42,156 for 2004 and \$11,474 in 2003. This represents the operating results for our Harahan property which was deemed held for sale in March 2004. The increase is due to no depreciation or amortization expense recognized from the date Harahan was deemed held for sale. In October 2004, we completed the sale of the Harahan property.

RESULTS OF OPERATIONS

The following table compares our operating results for the nine months ended September 30, 2004 and 2003.

	2004	2003	INCREASE (DECREASE)
Revenue:			
Rental income	\$ 5,060,076	\$ 1,813,770	\$ 3,246,306
Tenant reimbursements	205,851		205,851
Total revenue	5,265,927	1,813,770	3,452,157
Expenses:			
Property Operations	1,126,570	387,031	739,539
Real estate taxes	578,428	171,749	406,679
Depreciation and Amortization	1,436,990	510,413	926,577
General and administrative	3,026,211	401,513	2,624,698
Total expenses	6,168,199	1,470,706	4,697,493
Operating (loss) income	(902,272)	343,064	(1,245,336)
Other income	1,238,417	42,508	1,195,909
Interest expense	(1,426,521)	(754,776)	(671,745)
Expense from issuance of warrant	(2,097,900)		(2,097,900)
Amortization of deferred financing fees	(170,085)	(14,460)	(155,625)
Loss from continuing operations	(3,358,361)	(383,664)	(2,974,697)
Discontinued operations: Income from property held for sale	88,524	44,483	44,041
Net loss	\$ (3,269,837)	\$ (339,181)	\$ (2,930,656)

COMPARISON OF NINE MONTHS ENDED SEPTEMBER 30, 2004 TO SEPTEMBER 30, 2003

Rental income revenue was \$5,060,076 for 2004 and \$1,813,770 for 2003. The increase was due to our acquisition of four properties during 2003 and five additional properties in 2004.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Tenant reimbursements revenue was \$205,851 for 2004 and \$0 for 2003. This amount represents the tenant's reimbursement for the real estate tax expense in excess of the real estate tax base amount as defined in the respective lease agreement. During the second quarter of 2004, the Company was able to determine the real estate tax base amount for those properties acquired in 2003 and thereby recorded and collected the excess amount of real estate tax expense from the tenant. The amount of revenue recognized during 2004 represents the real estate tax expense in excess of the real estate base amount for all properties owned as of September 30, 2004.

Property operations expense was \$1,126,570 for 2004 and \$387,031 for 2003. The increase was in part due to the expansion of our operations from four properties owned as of September 30, 2003 to nine properties owned as of September 30, 2004. In addition, the Company recognized approximately \$159,000 in property operations expense during 2004 related to franchise tax expense for properties held in West Virginia.

Real estate tax expense was \$578,428 for 2004 and \$171,749 for 2003. The increase was due to the expansion of our operations from four properties owned as of September 30, 2003 to nine properties owned as of September 30, 2004.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Depreciation and amortization was \$1,436,990 for 2004 and \$510,413 for 2003. The increase was due to the expansion of our operations from four properties owned as of September 30, 2003 to nine properties owned as of September 30, 2004.

General and administrative expense was \$3,026,211 for 2004 and \$401,513 for 2003. The increase was due to the expansion of our operations to become self-managed and to increase our acquisition activity. The increased items were for compensation (salaries, board of director compensation and share grant compensation), directors and officers insurance, rent, professional fees, public company expenses, and other corporate level activity.

Other income, which consists primarily of interest income, was \$1,238,417 for 2004 and \$754,776 for 2003. The increase was primarily due to interest income earned on short-term investments purchased from the proceeds raised in our January 2004 Offering.

Interest expense was \$1,426,521 for 2004 and \$697,262 for 2003. The increase was due to (i) a full nine months of interest expense in 2004 as compared to 2003 related to mortgage debt incurred by us in April 2003 for property acquisitions; and (ii) an increase of approximately \$290,000 from the addition of \$29.0 million in mortgage debt obtained during the third quarter of 2004. These increases were offset by a reduction in line of credit debt used for working capital purposes during 2003 which was paid off in January 2004 from a portion of the proceeds raised in our January 2004 Offering.

In the first quarter of 2004, we recognized \$2,097,900 of expense related to the exercise of a warrant to purchase 210,000 shares of our common stock. The warrant was issued to an affiliate of one of our underwriters which provided a line of credit to us.

Amortization of deferred financing fees was \$170,085 in 2004 and \$14,460 in 2003. The increase was primarily due to the amortization of financing fees being recognized of approximately \$140,000 related to the \$50 million revolving credit facility obtained in April 2004.

Income from discontinued operations was \$88,524 for 2004 and \$44,483 in 2003. This represents the operating results for our Harahan property which was deemed held for sale in March 2004. The increase is due to no depreciation or amortization expense recognized from the date Harahan was deemed held for sale. In October 2004, we completed the sale of the Harahan property.

LIQUIDITY AND CAPITAL RESOURCES

Our short-term liquidity requirements consist primarily of funds to acquire properties and to pay for operating expenses and other expenditures directly associated with our properties, such as:

property and financing acquisition costs, deposits on properties and purchases of properties;

recurring maintenance, repairs and other operating expenses necessary to maintain our properties;

property taxes and insurance expenses;

interest expense and scheduled principal payments on outstanding indebtedness;

capital expenditures incurred to facilitate the leasing of space at our properties, including tenant improvements and leasing commissions;

general and administrative expenses; and

distributions paid to our stockholders.

Historically, we have satisfied our short-term liquidity requirements through our existing working capital and cash provided by our operations, borrowings and public offering of common stock.

The table below sets forth the debt that we fully repaid from the proceeds of our January 2004 Offering:

LENDER	USE OF FUNDS	(IN MILLIONS)
Citizens First Bancorp, Inc	Purchase Charleston, WV property	\$ 2.3
Friedman Billings Ramsey	Deposits on acquisitions and working capital	1.0
Genesis Financial Group, Inc	Purchase Bakersfield, CA property	1.6
Citizens First Savings Bank	Working capital	0.1
Total		\$ 5.0

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

We owed approximately \$2.3 million to Citizens First Bancorp, Inc. under a \$5 million line of credit. We incurred the debt in April 2003 and it accrued interest on an annual basis at prime plus 50 basis points (4.50% at December 31, 2003).

An affiliate of one of our underwriters, Friedman, Billings and Ramsey, provided us with a \$1 million line of credit, of which we borrowed approximately \$0.7 million during 2003 and an additional \$0.3 million in January 2004. The total principal on the debt was \$ 1.0 million at the time it was repaid. The debt accrued interest on an annual basis at a rate of 20%.

We financed the acquisition of our Bakersfield property in part through an approximately \$1.6 million loan from Genesis Financial Group, Inc. We incurred this debt in January 2003 and it accrued interest on an annual basis at a rate of LIBOR plus 250 basis points (3.62% at December 31, 2003).

We owed approximately \$0.1 million under a \$0.2 million line of credit with Citizens First Savings Bank. We incurred the debt in September 2003 and it accrued interest at prime (4.00% at December 31, 2003).

Our current mortgage debt obligations are set forth below:

LENDER	COLLATERAL	BALANCE AS OF SEPTEMBER 30, 2004 (IN MILLIONS)
Operating Properties:		
LaSalle Bank/GEMSA	Charleston property	\$ 13.8
LaSalle Bank/GEMSA	Clarksburg property	8.2
Bank of America	Kingsport property	2.3
PNC Bank	Pittsburgh property	20.9
Wachovia Securities	Lenexa property	8.0
Total operating properties		53.2
Property held for sale:		
Nomura Credit/Wachovia Securities	Harahan property	3.1
Total		\$ 56.3

We financed the acquisition of our Charleston property in April 2003 through a \$14 million loan from LaSalle Bank, which matures on May 1, 2013. The unpaid principal balance of the note bears interest at a rate of 5.74% per annum. Monthly payments are amortized on a 30-year schedule, with a balloon payment due May 1, 2013.

We financed the acquisition of our Clarksburg property in April 2003 through an approximately \$8.3 million loan from LaSalle Bank, which matures on May 1, 2013. The unpaid principal balance of the note bears interest at a rate of 5.74% per annum. Monthly payments are amortized on a 30-year schedule, with a balloon payment due May 1, 2013.

We financed the acquisition of our Kingsport property in April 2003 through the assumption of the seller's first mortgage loan in the amount of \$2.3 million from Bank of America, which matures on April 1, 2010, and an unsecured loan issued by the seller in the amount of \$0.2 million,

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

which represents amounts due to the seller for the seller's escrow funds that remain on deposit with the first mortgage loan holder. The unpaid principal balance of the first mortgage loan bears interest at a rate of 8.23% per annum, with monthly payments being amortized on a 25-year schedule and has a balloon payment due April 1, 2010. During the third quarter of 2004, we repaid the seller loan in the amount of \$0.2 million.

We obtained financing related to the acquisition of our Pittsburgh property in July 2004 through a 21.0 million loan from PNC Bank, which matures on August 1, 2009. The unpaid principal balance of the note bears interest at a rate of 5.5% per annum. Monthly payments are amortized on a 26-year schedule, with a balloon payment due August 1, 2009.

We obtained financing related to the acquisition of our Lenexa property in July 2004 through an 8.0 million loan from Wachovia Securities, which matures on August 11, 2009. The unpaid principal balance of the note bears interest at a rate of 5.44% per annum. Monthly payments are amortized on a 27-year schedule, with a balloon payment due August 11, 2009.

We financed the acquisition of our Harahan property in December 2002 through a \$3.2 million loan from Nomura Credit, which matures on January 11, 2013. The unpaid principal balance of the note bears interest at a rate of 5.70% per annum. Monthly payments

are amortized on a 27-year schedule, with a balloon payment due January 11, 2013. This amount is included in liabilities related to property held for sale in our consolidated balance sheet. In connection with the sale of the Harahan property on October 13, 2004, this loan was assumed by the buyer.

In March 2004, we placed approximately \$17.4 million of operating cash into a restricted interest-bearing cash account to secure a letter of credit (face value also of \$17.4 million) in connection with a proposed property acquisition. The letter of credit was drawn upon in connection with the closing of the Parkersburg property acquisition in November 2004.

In April 2004, we entered into a \$50 million revolving credit facility led by First National Bank of Omaha. Outstanding amounts under this facility accrue interest at the floating prime rate, as published by the Wall Street Journal, which will not be lower than 4%. We paid a commitment fee equal to 0.50% of the total commitment and will pay an advance fee of 0.50% of each advance. All amounts provided pursuant to this facility will be due in May 2005. The facility contains customary restrictive covenants, including limitations on our ability to purchase properties under development or through unconsolidated affiliates. We are also required to maintain a minimum tangible net worth of not less than \$90 million, a total liabilities to tangible net worth ratio of no more than 4.0 to 1, and a minimum debt service coverage ratio of 1.2 to 1. We are not allowed to make distributions that exceed the greater of (i) such amount as is required to be distributed as a condition our continued status as a REIT, or (ii) \$0.25 per common share per quarter. The proceeds of this facility will be used for short-term acquisition financing for the purchase of federal government-leased properties that have a minimum remaining lease term of 10 years. This facility may also be used to provide deposits for purchase contracts or good faith deposits.

The mortgages on our properties contain customary restrictive covenants, including provisions that may limit the borrowing subsidiary's ability, without the prior consent of the lender, to incur additional indebtedness, further mortgage or transfer the applicable property, purchase or acquire additional property, discontinue insurance coverage, change the conduct of its business or make loans or advances to, enter into any transaction of merger or consolidation with, or acquire the business, assets or equity of, any third party.

Our long-term liquidity requirements consist primarily of funds to pay for property acquisitions, scheduled debt maturities, renovations, expansions and other non-recurring capital expenditures that need to be made periodically to our properties and the costs associated with acquisitions of properties that we pursue. Historically, we have satisfied our long-term liquidity requirements through various sources of capital, including our existing working capital, cash provided by operations, sales of equity securities, and long-term mortgage indebtedness. We intend to establish sinking fund reserves, based on independent third-party reports, for future capital expenditures.

Since we became self-managed in January 2004, we have increased cash expenditures for general and administrative expenses, including salaries, directors' and officers' insurance, rent, professional fees, public company expense, and other corporate level activity. We estimate that our annualized general and administrative cash expenses for our first full year of operations to be in the range of \$3.3 million to \$3.6 million (exclusive of any compensation expense from the issuance of stock grants, which is a non-cash item).

We believe that our existing cash will be sufficient to fund our operations for at least the next twelve months.

CASH DISTRIBUTION POLICY

We have elected to be treated as a REIT under the federal tax laws commencing as of our taxable year beginning January 1, 2003. To qualify as a REIT, we must, among other things, distribute at least 90% of our ordinary taxable income to our stockholders. We intend to comply with

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

these requirements and maintain our REIT status. As a REIT, we generally will not be subject to corporate federal income taxes on taxable income we distribute (in accordance with the federal tax laws and applicable regulations) to our stockholders. If we fail to qualify as a REIT in any taxable year, we will be subject to federal income taxes at regular corporate rates and may not be able to qualify as a REIT for four subsequent tax years. Even as a REIT, we may be subject to certain state and local taxes on our income and property and to federal income and excise taxes on our undistributed taxable income, i.e., taxable income not distributed in the amounts and in the time frames prescribed by the federal tax laws and applicable regulations thereunder.

We intend to pay to our stockholders, within the time periods prescribed by the federal tax laws (in our case by January 31 of the following year), all or substantially all of our annual taxable income, including gains from the sale of real estate and recognized gains on sale of securities. We will continue our policy of making sufficient cash distributions to stockholders in order for us maintain REIT status under the federal tax laws and to avoid corporate income and excise tax on undistributed income.

INFLATION

Our GSA leases generally contain provisions designed to mitigate the adverse impact of inflation. These provisions increase rental rates during the terms of the leases by indexed escalations based on the Consumer Price Index. This may reduce our exposure to increases in costs and operating expenses resulting from inflation. However, increases in property operating costs above the escalation amount would harm our cash flow and may harm our ability to pay dividends.

FUNDS FROM OPERATIONS

REIT analysts generally consider funds from operations or FFO an alternative measure of performance for an equity REIT. The National Association of Real Estate Investment Trusts, or NAREIT, defines funds from operations as net income, computed in accordance with accounting principles generally accepted in the United States (GAAP), excluding gains or losses from sales of properties, but including real estate related depreciation and amortization and after adjustments for unconsolidated partnerships and joint ventures. We believe that FFO is helpful to investors as one of several measures of the performance of an equity REIT. We further believe that by excluding the effect of depreciation, amortization and gains or losses from sales of real estate, all of which are based on historical costs, which may be of limited relevance in evaluating current performance, FFO can facilitate comparison of operating performance between periods and between other equity REITs. Investors should review FFO along with GAAP Net Income Available for Common Shares and cash flow from operating activities, investing activities and financing activities, when evaluating an equity REIT's operating performance. We compute FFO in accordance with standards established by NAREIT, which may not be comparable to FFO reported by other REITs that do not define the term in accordance with the current NAREIT definition or that interpret the current NAREIT definition differently than us. FFO does not represent cash generated from operating activities in accordance with GAAP, nor does it represent cash available to pay distributions and should not be considered as an alternative to net income, determined in accordance with GAAP, as an indication of our financial performance, or to cash flow from operating activities, determined in accordance with GAAP, as a measure of our liquidity, nor is it indicative of funds available to fund our cash needs, including our ability to make cash distributions.

The following table presents a reconciliation of GAAP to our funds from operations for the periods presented:

	THREE MONTHS ENDED SEPTEMBER 30,		NINE MONTHS ENDED SEPTEMBER 30,	
	2004	2003	2004	2003
Net loss	\$ (232,757)	\$ (179,680)	\$ (3,269,837)	\$ (339,181)
Adjustments to reconcile to funds from Operations:				
Real estate depreciation and amortization (a)	666,214	273,479	1,420,729	507,788
Funds from Operations	\$ 433,457	\$ 93,799	\$ (1,849,108)	\$ 168,607
Funds from Operations per common share	\$ 0.02	\$ 0.10	\$ (0.10)	\$ 0.21
Weighted average common shares outstanding	20,514,716	955,433	18,585,837	789,148

(a) Excludes depreciation of non-real estate assets of \$7,182 and \$1,125 for the three months ended September 30, 2004 and 2003, respectively, and \$16,261 and \$2,625 for the nine months ended September 30, 2004 and 2003, respectively.

RISK FACTORS

RISKS RELATED TO OUR BUSINESS AND PROPERTIES

WE COMMENCED OPERATIONS IN DECEMBER 2002. OUR MANAGEMENT ONLY RECENTLY JOINED US AND DOES NOT HAVE ANY EXPERIENCE OPERATING A REIT OR A PUBLIC COMPANY.

We commenced operations in December 2002. We are, therefore, subject to the risks associated with the operation of any new business. Further, our president and chief executive officer joined us in September 2003, our chief financial officer joined us in September 2003, our director of asset acquisition joined us in December 2003, our director of asset management joined us in December 2003, and the remainder of our management joined us in 2004. Our management does not have any experience operating a

REIT or a publicly-owned company. Consequently, you will be unable to fully evaluate our management's public company operational abilities. Given our recent organization and management experience, you should be especially cautious in drawing conclusions about our ability to execute our business plan.

THE PACE OF OUR PROPERTY ACQUISITIONS TO DATE HAS RESULTED IN CASH FLOW THAT IS INSUFFICIENT TO COVER DIVIDENDS AT THEIR CURRENT LEVEL.

We acquired one property for an amount of \$5.1 million in the first quarter of 2004, two properties for an aggregate amount of \$39.2 million in the second quarter of 2004 and two properties for an aggregate amount of \$25.2 in the third quarter of 2004. Net income from the properties we own has been significantly less than the dividends we have paid to date. In order to continue to pay dividends at their current level the Company will be required to use the equity capital we raised in the Offering which was completed in January 2004.

THE CLOSINGS OF OUR PROPERTY ACQUISITIONS ARE SUBJECT TO CONDITIONS THAT MAY PREVENT US FROM ACQUIRING SUCH PROPERTIES.

Our ability to complete acquisitions depends upon many factors, such as the negotiation of definitive purchase agreements, the satisfaction of due diligence, completion of construction, and satisfaction of customary closing conditions. Any inability to complete acquisitions within our anticipated time frames may harm our financial results and our ability to pay dividends.

OUR USE OF DEBT FINANCING COULD DECREASE OUR CASH FLOW AND EXPOSE US TO RISK OF DEFAULT UNDER OUR DEBT DOCUMENTS.

Our policy is to use debt to finance, on average, approximately 75% of the acquisition cost of the properties that we buy. As of September 30, 2004, we had approximately \$56.3 million of outstanding indebtedness.

Since we anticipate that our cash flow from operations will be insufficient to repay all of our indebtedness prior to maturity, we expect that we will have to repay debt through refinancings, sale of properties or sale of additional equity. If we are unable to refinance our indebtedness on acceptable terms, or at all, we might be forced to dispose of one or more of our properties on unfavorable terms, which might result in losses to us and which might adversely affect our cash available for distribution to our stockholders. If prevailing interest rates or other factors at the time of a refinancing result in higher interest rates on such refinancing, our interest expense would increase, which could seriously harm our operating results and financial condition and our ability to pay dividends.

Our debt and any increase in our debt may be detrimental to our business and financial results by:

requiring us to use a substantial portion of our cash flow from operations to pay interest, which reduces the amount available for the operation of our properties or the payment of dividends;

violating restrictive covenants in our loan documents, which would entitle the lenders to accelerate our debt obligations and foreclose on our properties;

placing us at a competitive disadvantage compared to our competitors that have less debt;

making us more vulnerable to economic and industry downturns and reducing our flexibility in responding to changing business and economic conditions;

requiring us to sell one or more properties, possibly on unfavorable terms; and

limiting our ability to borrow funds for operations or to finance acquisitions in the future or to refinance our indebtedness at maturity on terms as or more favorable than the terms of our original indebtedness.

OUR ABILITY TO OBTAIN DEBT FINANCING COULD BE IMPAIRED OR DELAYED DUE TO UNDERWRITING RESTRICTIONS APPLICABLE TO THE TYPE OF PROPERTIES WE ACQUIRE

Our policy is to obtain debt financing related to properties we buy. Because of the single tenant nature of the properties we acquire, mortgage underwriters take certain additional precautions intended to assure that the remaining mortgage balance is paid at the end of the loan term. Also, for mortgages which have an amortization schedule longer than the lease term, due to the high initial per square foot cost of the property being acquired, mortgage lenders consider the high per square foot remaining principal balance at the end of the mortgage term as a negative with regard to the potential approval of the loan.

BECAUSE OUR PRINCIPAL TENANT IS THE U.S. GOVERNMENT, OUR PROPERTIES MAY HAVE A HIGHER RISK OF TERRORIST ATTACK THAN SIMILAR PROPERTIES THAT ARE LEASED TO NON-GOVERNMENTAL TENANTS.

Because our principal tenant is the U.S. government, our properties may have a higher risk of terrorist attack than similar properties that are leased to non-governmental tenants. Terrorist attacks may negatively affect our operations and an investment in our common stock. We cannot assure you that there will not be further terrorist attacks against the United States or the United States government. Some of our properties could be considered high profile government buildings, which may make these properties more likely to be viewed as terrorist targets. These attacks or armed conflicts may directly impact the value of our properties through damage, destruction, loss or increased security costs. Certain losses resulting from these types of events are uninsurable and others would not be covered by our current terrorism insurance. Additional terrorism insurance may not be available at a reasonable price or at all.

WE DEPEND ON THE U.S. GOVERNMENT FOR MOST OF OUR REVENUES. ANY FAILURE BY THE U.S. GOVERNMENT TO PERFORM ITS OBLIGATIONS OR RENEW ITS LEASES UPON EXPIRATION MAY HARM OUR CASH FLOW AND ABILITY TO PAY DIVIDENDS.

Rent from the U.S. government represented 100% of our revenues from continuing operations for the nine months ended September 30, 2004 and for the year ended December 31, 2003. In addition, the U.S. government leased 100% of our total leased square feet of property not held for sale as of September 30, 2004. Any default by the U.S. government, or its failure to renew its leases with us upon their expiration, could cause interruptions in the receipt of lease revenue or result in vacancies, or both, which would reduce our revenue until the affected property is leased, and could decrease the ultimate value of the affected property upon sale. Further, failure on the part of a tenant to comply with the terms of a lease may give us the right to terminate the lease, repossess the applicable property and enforce the payment obligations under the lease; however, we would be required to find another tenant. We cannot assure you that we would be able to find another tenant without incurring substantial costs, or at all, or that, if another tenant were found, we would be able to enter into a new lease on favorable terms. Our leases with the U.S. government provide that the U.S. government may assign the lease and be relieved from all obligations under the lease, other than unpaid rent and other liabilities outstanding on the date of the assignment, subject to our prior written consent, which we may not unreasonably withhold. If this were to occur, it is unlikely that a successor tenant would have the same credit strength as the U.S. government.

AN INCREASE IN THE OPERATING COSTS OF OUR GOVERNMENT-LEASED PROPERTIES WOULD HARM OUR CASH FLOW AND ABILITY TO PAY DIVIDENDS.

Our objective is to acquire government-leased properties in which the tenant is wholly responsible for any increases in operating costs that apply to the property. However, this type of triple-net lease is not typical of the leases entered into through the GSA. Under present practice, most GSA leases cover increases in real estate taxes above a base amount. These GSA leases also increase that portion of the rent applicable to other operating expenses by an agreed upon percentage based upon the Consumer Price Index. To the extent operating costs other than real estate taxes increase at a rate greater than the specified percentage, our cash flow would be harmed and our ability to pay dividends may be harmed.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

IF WE ARE UNABLE TO LEASE PROPERTIES THAT ARE PARTIALLY OR COMPLETELY VACANT, WE MAY BE REQUIRED TO RECOGNIZE AN IMPAIRMENT LOSS WITH RESPECT TO THE CARRYING VALUES OF THESE PROPERTIES, WHICH MAY SERIOUSLY HARM OUR OPERATING RESULTS AND FINANCIAL CONDITION.

We intend to acquire properties that are fully leased to government entities. However, any of our properties may become partially or completely vacant in the future. If we are unable to lease these properties and generate sufficient cash flow to recover the carrying value of these properties, we may be required to recognize an impairment loss, which could seriously harm our operating results and financial condition.

RESTRICTIVE COVENANTS IN OUR LOAN DOCUMENTS MAY RESTRICT OUR OPERATING OR ACQUISITION ACTIVITIES, WHICH MAY HARM OUR FINANCIAL CONDITION AND OPERATING RESULTS.

The mortgages on our properties contain customary restrictive covenants, including provisions that may limit the borrowing subsidiary's ability, without the prior consent of the lender, to incur additional indebtedness, further mortgage or transfer the applicable property, purchase or acquire additional property, discontinue insurance coverage, change the conduct of its business or make loans or advances to, enter into any transaction of merger or consolidation with, or acquire the business, assets or equity of, any third party. In addition, our future lines of credit or loans may contain financial covenants, further restrictive covenants and other obligations. If we breach covenants or obligations in our debt agreements, the lender can generally declare a default and require us to repay the debt immediately and, if the debt is secured, can foreclose on the property securing the loan. In order to meet our debt service obligations, we may have to sell properties either potentially at a loss or at times that prohibit us from achieving attractive returns. Any failure to pay our indebtedness when due or failure to cure events of default could result in higher interest rates during the period of the loan default and could ultimately result in the loss of properties through foreclosure.

INCREASING COMPETITION FOR THE ACQUISITION OF GOVERNMENT-LEASED PROPERTIES MAY IMPEDE OUR ABILITY TO MAKE FUTURE ACQUISITIONS OR MAY INCREASE THE COST OF THESE ACQUISITIONS, WHICH COULD HARM OUR OPERATING RESULTS AND FINANCIAL CONDITION.

We compete with many other entities for the acquisition of government-leased properties. Our competitors include financial institutions, institutional pension funds, other REITs, other public and private real estate companies and private real estate investors. These competitors may prevent us from acquiring desirable properties or increase the price we must pay for our real estate investments. Our competitors may have greater resources than we do, and may be willing to pay more for similar property. In particular, larger REITs may enjoy significant competitive advantages that result from, among other things, a lower cost of capital and enhanced operating efficiencies. In addition, the number of entities and the amount of funds competing for government-leased properties may increase, resulting in increased demand and increased prices paid for these properties. If we are forced to pay higher prices for properties, our profitability may decrease, and our stockholders may experience a lower return on their investment. Increased competition for properties may also preclude us from acquiring those that would generate attractive returns to us.

WE MAY HAVE LIMITED TIME TO PERFORM DUE DILIGENCE ON MANY POTENTIAL PROPERTY ACQUISITIONS, WHICH COULD RESULT IN THE LOSS OF ACQUISITION OPPORTUNITIES.

When we enter into an agreement to acquire a property, we often have limited time to complete our due diligence prior to acquiring the property. Pursuant to Company policy, if we cannot complete our full due diligence review process within the time allotted, we will decline to proceed with an attempt to acquire the property. Accordingly, we may lose property acquisitions due to lack of sufficient time to complete the due diligence utilized under our system.

OUR CASH FLOW IS NOT ASSURED. WE MAY NOT PAY DIVIDENDS IN THE FUTURE.

We intend to distribute to our stockholders all or substantially all of our taxable REIT income each year in order to comply with the distribution requirements of the federal tax laws and to avoid federal income tax and the nondeductible excise tax. We have not established a minimum dividend payment level. Our ability to pay dividends may be adversely affected by the risks described in this report. All distributions will be made at the discretion of our board of directors and will depend on our earnings, our financial condition, maintenance of our REIT status and other factors that our board of directors may deem relevant from time to time. We cannot assure you that we will be able to pay dividends in the future.

Our ability to pay dividends is based on many factors, including:

our ability to make additional acquisitions;

our success in negotiating acceptable mortgage terms;

our success in negotiating acceptable lease terms;

our tenants' ability to perform under their leases; and

efficient management of our properties.

We also cannot assure you that the level of our dividends will increase over time or the receipt of rental revenue in connection with future acquisitions of properties will increase our cash available for distribution to stockholders. In the event of defaults or lease terminations by our tenants, rental payments could decrease or cease, which would result in a reduction in cash available for distribution to our stockholders. If our cash available for distributions generated by our assets is less than our expected dividend distributions, or if such cash available for distribution decreases in future periods from expected levels, our ability to make the expected distributions would be adversely affected. Any such failure to make expected distributions may result in a decrease in the market price of our stock.

OUR BOARD OF DIRECTORS MAY ALTER OUR INVESTMENT POLICIES AT ANY TIME WITHOUT STOCKHOLDER APPROVAL.

Our board of directors may alter our investment policies at any time without stockholder approval. Changes to these policies may adversely affect our financial performance.

WE HAVE INCURRED HISTORICAL LOSSES AND MAY INCUR FUTURE LOSSES.

We have had historical accounting losses of \$3.3 million for the nine months ended September 30, 2004 and \$0.4 million for the year ended December 31, 2003, and had an accumulated deficit of \$3.7 million as of September 30, 2004. We cannot assure you that we will not have similar losses in the future.

RISKS RELATED TO OUR ORGANIZATION AND STRUCTURE

WE DEPEND ON KEY PERSONNEL WITH LONG-STANDING BUSINESS RELATIONSHIPS, THE LOSS OF WHOM COULD THREATEN OUR ABILITY TO OPERATE OUR BUSINESS SUCCESSFULLY.

Our future success depends, to a significant extent, upon the continued services of Thomas D. Peschio, our president and chief executive officer, and of the other members of our management team. In particular, the relationships that Mr. Peschio and the other members of our management team have developed with existing and prospective developers of government-leased properties is critically important to the success of our business. Although we have an employment agreement with Mr. Peschio and other key executives, we cannot assure you that Mr. Peschio or the other executives will remain employed with us. We do not maintain key person life insurance on any of our officers. The loss of services of Mr. Peschio or other senior managers would harm our business and our prospects.

OUR BOARD OF DIRECTORS MAY AUTHORIZE THE ISSUANCE OF ADDITIONAL SHARES THAT MAY CAUSE DILUTION.

In connection with future equity offerings, the board of directors may authorize the issuance of additional shares of common stock. The issuance of additional shares could substantially dilute our existing stockholders.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

OUR BOARD OF DIRECTORS MAY AUTHORIZE THE ISSUANCE OF SHARES WITH DIFFERING DIVIDEND RIGHTS THAT COULD HARM OUR STOCKHOLDERS' RIGHT TO RECEIVE DIVIDENDS.

Our board of directors has the power to issue preferred stock or other securities that have distribution rights senior to that of the common stock. Any superior dividend rights could prevent us from paying dividends to the holders of our common stock.

OUR RIGHTS AND THE RIGHTS OF OUR STOCKHOLDERS TO TAKE ACTION AGAINST DIRECTORS AND OFFICERS ARE LIMITED.

Maryland law provides that a director has no liability in that capacity if he or she performs his or her duties in good faith, in a manner he or she reasonably believes to be in our best interests and with the care that an ordinarily prudent person in a like position would use under similar circumstances. Our governing documents obligate us to indemnify our directors and officers for actions taken by them in those capacities to the extent permitted by Maryland law. Generally, Maryland law permits indemnification except in instances where the person seeking indemnification acted in bad faith or with active and deliberate dishonesty, or in instances where the person actually received an improper personal benefit in money, property or services or, in the case of a criminal proceeding, the person had reasonable cause to believe that his or her actions were unlawful. Additionally, we may be obligated to fund the defense

costs incurred by our directors and officers. In addition, our governing documents limit the liability of our directors and officers for money damages, except for liability resulting from:

actual receipt of an improper benefit or profit in money, property or services; or

a final judgment based upon a finding of active and deliberate dishonesty by the director, trustee or officer that was material to the - cause of action adjudicated.

As a result, we and our stockholders may have more limited rights against our directors and officers than might otherwise exist.

OUR OWNERSHIP LIMITATIONS MAY RESTRICT BUSINESS COMBINATION OPPORTUNITIES.

To qualify as a REIT under the federal tax laws, no more than 50% of our outstanding shares may be owned, directly or indirectly by five or fewer individuals (as defined in the federal tax laws to include certain entities) during the last half of each taxable year (other than our first REIT taxable year). To preserve our REIT status, our charter generally prohibits direct or indirect ownership by any person of more than 9.8% of the number or value of outstanding shares of any class of our securities, including our common stock. Generally, common stock owned by affiliated owners will be aggregated for purposes of the ownership limitation. Any transfer of our common stock that would disqualify our REIT status will be null and void, and the intended transferee will acquire no rights in such stock. The ownership limitation could have the effect of delaying, deterring or preventing a change in control or other transaction in which holders of common stock might receive a premium for their common stock over the then current market price or which such holders might believe to be otherwise in their best interest. Further, shares that are transferred in excess of the 9.8% ownership limit will be designated as excess shares subject to redemption. The ownership limitation provisions also may make our common stock an unsuitable investment vehicle for any person seeking to obtain, either alone or with others as a group, ownership of more than 9.8% of the number or value of outstanding shares of any class of our securities.

THE VOTING POWER OVER OUR SHARES IS CURRENTLY CONCENTRATED IN A RELATIVELY SMALL NUMBER OF UNRELATED INVESTMENT MANAGERS

While our shares are owned beneficially by numerous investors, many of these persons or entities are represented by investment managers. These investment managers may have been granted the right by their investor clients to vote our shares. As a consequence, we believe a relatively small number of investment managers could, if acting in concert, vote a majority of the Company's shares to achieve a common objective.

PROVISIONS OF OUR CHARTER DOCUMENTS COULD DETER A TAKEOVER, WHICH COULD INHIBIT OUR STOCKHOLDERS ABILITY TO RECEIVE AN ACQUISITION PREMIUM FOR THEIR SHARES.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Provisions of our charter and bylaws could make it more difficult for a third party to acquire us, even if doing so would be beneficial to our stockholders.

MARYLAND LAW MAY DISCOURAGE A THIRD PARTY FROM ACQUIRING US, WHICH COULD INHIBIT YOUR ABILITY TO RECEIVE AN ACQUISITION PREMIUM FOR YOUR SHARES.

Maryland law provides broad discretion to our board of directors with respect to its duties in considering a change in control of our company, including that our board is subject to no greater level of scrutiny in considering a change in control transaction than with respect to any other act by our board.

Maryland law restricts mergers and other business combinations between our company and an interested stockholder. An interested stockholder is defined as any person who is the beneficial owner of 10% or more of the voting power of our common stock and also includes any of our affiliates or associates that, at any time within the two year period prior to the date of a proposed merger or other business combination, was the beneficial owner of 10% or more of our voting power. A person is not an interested stockholder if, prior to the most recent time at which the person would otherwise have become an interested stockholder, our board of directors approved the transaction which otherwise would have resulted in the person becoming an interested stockholder. For a period of five years after the most recent acquisition of shares by an interested stockholder, we may not engage in any merger or other business combination with that interested stockholder or any affiliate of that interested stockholder. After the five year period, any merger or other business combination must be approved by our board of directors and by at least 80% of all the votes entitled to be cast by holders of outstanding voting stock and two-thirds of all the votes entitled to be cast by holders of outstanding voting stock

other than the interested stockholder or any affiliate or associate of the interested stockholder unless, among other things, the stockholders (other than the interested stockholder) receive a minimum price for their common stock and the consideration received by those stockholders is in cash or in the same form as previously paid by the interested stockholder for its common stock. These provisions of the business combination statute do not apply to business combinations that are approved or exempted by our board of directors prior to the time that the interested stockholder becomes an interested stockholder. However, the business combination statute could have the effect of discouraging offers from third parties to acquire us and increasing the difficulty of successfully completing this type of offer.

OUR CHIEF EXECUTIVE OFFICER AND CHIEF FINANCIAL OFFICER HAVE EMPLOYMENT AGREEMENTS THAT PROVIDE THEM WITH BENEFITS IN THE EVENT THEIR EMPLOYMENT IS TERMINATED, WHICH COULD PREVENT OR DETER A POTENTIAL ACQUIRER FROM PURSUING A CHANGE OF CONTROL OF OUR COMPANY.

We have entered into employment agreements with Thomas D. Peschio, our president and chief executive officer, and Nancy D. Olson, our treasurer and chief financial officer, which provide them with severance benefits if their employment ends due to a termination by us without cause. In the case of such termination, we would have to pay severance and the vesting of their restricted stock will accelerate. Mr. Peschio also has the right to terminate his employment agreement upon a change of control of our company. These agreements could prevent or deter a change of control of our company that might involve a premium price for our common stock or otherwise be in the best interests of our stockholders.

RISKS RELATED TO THE REAL ESTATE INDUSTRY

MORTGAGE DEBT OBLIGATIONS EXPOSE US TO INCREASED RISK OF PROPERTY LOSSES, WHICH COULD HARM OUR FINANCIAL CONDITION, CASH FLOW AND ABILITY TO SATISFY OUR OTHER DEBT OBLIGATIONS AND PAY DIVIDENDS.

Our policy is to use debt to finance, on average, approximately 75% of the acquisition cost of the properties that we buy. Incurring mortgage debt increases our risk of property losses because defaults on indebtedness secured by properties may result in foreclosure actions initiated by lenders and ultimately our loss of the property securing any loans for which we are in default. For tax purposes, a foreclosure of any of our properties would be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. The outstanding balance of the debt secured by the mortgage could exceed our tax basis in the property. If this occurs, we would recognize taxable income on foreclosure, but would not receive any cash proceeds. As a result, we may be required to identify and utilize other sources of cash to pay our taxes, which may result in a decrease in cash available for distribution to our stockholders.

In addition, our default under any one of our mortgage debt obligations may increase the risk of our default on our other indebtedness. If this occurs, our financial condition, cash flow and ability to satisfy our other debt obligations or ability to pay dividends may be harmed.

ILLIQUIDITY OF REAL ESTATE INVESTMENTS COULD SIGNIFICANTLY IMPEDE OUR ABILITY TO RESPOND TO ADVERSE CHANGES IN THE PERFORMANCE OF OUR PROPERTIES AND HARM OUR FINANCIAL CONDITION.

Because real estate investments are relatively illiquid, our ability to promptly sell one or more properties in our portfolio in response to changing economic, financial and investment conditions is limited. The real estate market is affected by many factors that are beyond our control,

including:

adverse changes in national and local economic and market conditions;

changes in interest rates and in the availability, cost and terms of debt financing;

changes in governmental laws and regulations, fiscal policies and zoning ordinances and costs of compliance with laws and regulations, fiscal policies and ordinances;

the ongoing need for capital improvements, particularly in older structures;

changes in operating expenses; and

civil unrest, acts of war and natural disasters, including earthquakes and floods, which may result in uninsured and underinsured losses.

We cannot predict whether we will be able to sell any property for the price or on the terms set by us, or whether any price or other terms offered by a prospective purchaser would be acceptable to us. We also cannot predict the length of time needed to find a willing purchaser and to close the sale of a property. These factors and any others that would impede our ability to respond to adverse changes in the performance of our properties could harm our operating results and financial condition, as well as our ability to pay dividends to stockholders.

COMPLIANCE WITH ENVIRONMENTAL LAWS COULD MATERIALLY INCREASE OUR OPERATING EXPENSES.

Our properties may be subject to environmental liabilities. An owner of real property can face liability for environmental contamination created by the presence or discharge of hazardous substances on the property. We may face liability regardless of:

our knowledge of the contamination;

the timing of the contamination;

the cause of the contamination; or

the party responsible for the contamination of the property.

There may be environmental problems associated with our properties of which we are unaware. Some of our properties use, or may have used in the past, underground tanks for the storage of petroleum-based or waste products that could create a potential for release of hazardous substances. If environmental contamination exists on our properties, we could become subject to strict, joint and several liability for the contamination by virtue of our ownership interest.

The presence of hazardous substances on a property may adversely affect our ability to sell the property and we may incur substantial remediation costs. In addition, although we may require in our leases that tenants operate in compliance with all applicable laws and to indemnify us against any environmental liabilities arising from a tenant's activities on the property, we could nonetheless be subject to strict liability by virtue of our ownership interest, and we cannot be sure that our tenants would satisfy their indemnification obligations under the applicable sales agreement or lease. The discovery of environmental liabilities attached to our properties could harm our results of operations and financial condition and our ability to pay dividends to stockholders.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

OUR PROPERTIES MAY CONTAIN OR DEVELOP HARMFUL MOLD, WHICH COULD LEAD TO LIABILITY FOR ADVERSE HEALTH EFFECTS AND COSTS OF REMEDIATING THE PROBLEM.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Concern about indoor exposure to mold has been increasing as exposure to mold may cause a variety of adverse health effects and symptoms, including allergic or other reactions. As a result, the presence of significant mold at any of our properties could require us to undertake a costly remediation program to contain or remove the mold from the affected property. In addition, the presence of significant mold could expose us to liability from our tenants, employees of our tenants and others if property damage for health concerns arise.

COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT AND FIRE, SAFETY AND OTHER REGULATIONS MAY REQUIRE US TO MAKE UNEXPECTED EXPENDITURES THAT ADVERSELY IMPACT OUR ABILITY TO PAY DIVIDENDS.

Some or all of our properties may be required to comply with the Americans with Disabilities Act, or the ADA. The ADA has separate compliance requirements for public accommodations and commercial facilities, but generally requires that buildings be made accessible to people with disabilities. Compliance with the ADA requirements could require removal of access barriers and non-compliance could result in imposition of fines by the U.S. government or an award of damages to private litigants, or both. We will attempt to shift the cost of compliance with the ADA to our tenants whenever possible. However, if we are unable to negotiate lease terms to this effect, if required changes involve greater expenditures than anticipated, or if the changes must be made on a more accelerated basis than anticipated, we could be required to expend our own funds to comply with the provisions of the ADA, which

could adversely affect our results of operations and financial condition and our ability to make distributions to stockholders. In addition, we are required to operate our properties in compliance with fire and safety regulations, building codes and other land use regulations, as they may be adopted by governmental agencies and bodies and become applicable to our properties. We may be required to make substantial capital expenditures to comply with those requirements and these expenditures could harm our ability to pay dividends to our stockholders.

AN UNINSURED LOSS OR A LOSS THAT EXCEEDS THE INSURANCE POLICY LIMITS ON OUR PROPERTIES COULD SUBJECT US TO LOST CAPITAL OR REVENUE ON THOSE PROPERTIES.

Some of our properties may be covered by flood and earthquake insurance policies obtained by and paid for by the tenants as part of their risk management programs. Additionally, we have obtained blanket liability, flood and property damage insurance policies to protect us and our properties against loss should the indemnities and insurance policies provided by the tenants fail to restore the properties to their condition prior to a loss. All of these policies may involve substantial deductibles and certain exclusions. In certain areas, we may have to obtain earthquake insurance on specific properties as required by our lenders or by law. We have also obtained terrorism insurance on all of our GSA-leased properties, but this insurance is subject to exclusions for loss or damage caused by nuclear substances, pollutants, contaminants and biological and chemical weapons. Should a loss occur that is uninsured or in an amount exceeding the combined aggregate limits for the policies noted above, or in the event of a loss that is subject to a substantial deductible under an insurance policy, we could lose all or part of our capital invested in, and anticipated revenue from, one or more of the properties, which could harm our operations results and financial condition, as well as our ability to pay dividends to stockholders at historical levels or at all.

TAX RISKS OF OUR BUSINESS AND STRUCTURE

AN INVESTMENT IN OUR COMMON STOCK HAS VARIOUS TAX RISKS THAT COULD AFFECT THE VALUE OF OUR STOCKHOLDERS' INVESTMENT, INCLUDING THE TREATMENT OF DISTRIBUTIONS IN EXCESS OF EARNINGS, THE TIMING OF DIVIDEND PAYMENTS, AND THE INABILITY TO APPLY PASSIVE LOSSES AGAINST DISTRIBUTIONS.

The effects of federal, state and local income tax law on an investment in our common stock are complex, including the treatment of distributions in excess of current and accumulated earnings and profits, to the extent that they exceed the adjusted basis of an investor's common stock, as long-term capital gain (or short-term capital gain if the shares have been held for less than one year), the treatment of any dividend declared by us in October, November or December of any year payable to a stockholder of record on a specific date in any such month as being paid by us and received by the stockholder on December 31 of such year, the treatment of any gain or loss realized upon a taxable disposition of shares by a stockholder who is not a dealer in securities as a long-term capital gain or loss if the shares have been held for more than one year, otherwise as short-term capital gain or loss, the treatment of distributions that we properly designate as capital gain dividends as taxable to stockholders as gains (to the extent that they do not exceed our actual net capital gain for the taxable year) from the sale or disposition of a capital asset held for greater than one year, and the failure to treat distributions we make and gain arising from the sale or exchange by a stockholder of shares of our stock as passive income, meaning stockholders generally will not be able to apply any passive losses against such income or gain.

FUTURE DISTRIBUTIONS MAY INCLUDE A SIGNIFICANT PORTION AS A RETURN OF CAPITAL. WHILE WE HAVE NOT BORROWED FOR THE SPECIFIC PURPOSE OF PAYING DISTRIBUTIONS IN THE PAST, OUR PRIOR BORROWINGS ALLOWED US TO PAY DISTRIBUTIONS FROM OUR CASH FLOW FROM OPERATIONS.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

Our distributions to date have exceeded the amount of our income as a REIT. Distributions in excess of our income will be treated as a return of capital to the extent of the stockholder's basis in our stock and the stockholder's basis in our stock will be reduced by such amount. To the extent distributions exceed a stockholder's basis in our stock, the stockholder will recognize capital gain, assuming the stock is held as a capital asset. All of our prior distributions consisted of a return of capital.

DISTRIBUTION REQUIREMENTS IMPOSED BY LAW LIMIT OUR FLEXIBILITY IN EXECUTING OUR BUSINESS PLAN.

As a REIT, we generally are required to distribute to our stockholders at least 90% of our taxable REIT income each year in order to maintain our status as a REIT for federal income tax purposes. Taxable REIT income is determined without regard to the deduction for dividends paid and by excluding net capital gains. We are also required to pay tax at regular corporate rates to the extent that we distribute less than 100% of our taxable income (including net capital gains) each year. In addition, we are required to pay 4% nondeductible excise tax on the amount, if any, by which certain distributions we pay with respect to any calendar year are less than

the sum of 85% of our ordinary income for that calendar year, 95% of our capital gain net income for the calendar year and any amount of our income that was not distributed in prior years.

We intend to distribute to our stockholders all or substantially all of our taxable REIT income each year in order to comply with the distribution requirements of the federal tax laws and to avoid federal income tax and the nondeductible excise tax. Differences in timing between the receipt of income and the payment of expenses in arriving at taxable REIT income and the effect of required debt amortization payments could require us to borrow funds on a short-term basis to meet the distribution requirements that are necessary to achieve the tax benefits associated with qualifying as a REIT.

WE MAY INCUR ADDITIONAL INDEBTEDNESS IN ORDER TO MEET OUR DISTRIBUTION REQUIREMENTS. WHILE WE HAVE NOT BORROWED FOR THE SPECIFIC PURPOSE OF PAYING DISTRIBUTIONS, OUR PRIOR BORROWINGS ALLOWED US TO PAY DISTRIBUTIONS FROM OUR CASH FLOW FROM OPERATIONS.

As a REIT, we are required to distribute at least 90% of our taxable REIT income, which limits the amount of cash we will have available for other business purposes, including amounts to fund our growth. It is possible that the differences between the time we actually receive revenue or pay expenses and the period we report those items for distribution purposes, and potentially insufficient cash, could result in our having to borrow funds on a short-term basis to meet the 90% distribution requirement. While we have not borrowed for the specific purpose of paying distributions, our prior borrowings allowed us to pay distributions from our operations. These borrowings may decrease cash available for distribution.

OUR DISPOSAL OF PROPERTIES MAY HAVE NEGATIVE IMPLICATIONS, INCLUDING UNFAVORABLE TAX CONSEQUENCES.

If we make a sale of a property directly, and it is deemed to be a sale of dealer property or inventory, the sale may be deemed to be a prohibited transaction under the provisions of the federal tax laws applicable to REITs, in which case our gain from the sale would be subject to a 100% penalty tax. If we believe that a sale of a property might be treated as a prohibited transaction, we will attempt to structure a sale through a taxable REIT subsidiary, in which case the gain from the sale would be subject to corporate income tax but not the 100% prohibited transaction tax. We cannot assure you, however, that the IRS would not assert successfully that sales of properties that we make directly, rather than through a taxable REIT subsidiary, were sales of dealer property or inventory, in which case the 100% penalty tax would apply.

IF WE FAIL TO REMAIN QUALIFIED AS A REIT, OUR DIVIDENDS WILL NOT BE DEDUCTIBLE BY US, AND OUR INCOME WILL BE SUBJECT TO TAXATION.

If we fail to remain qualified as a REIT, our dividends will not be deductible by us and we will be subject to a corporate level tax on our taxable income. This would substantially reduce our cash available to pay dividends and the yield on your investment. Incurring corporate income tax liability might cause us to borrow funds, liquidate some of our investments or take other steps which could negatively affect our operating results. If our REIT status is terminated because of our failure to meet a REIT qualification requirement or if we voluntarily revoke our election, we would be disqualified from electing treatment as a REIT for the four taxable years following the year in which REIT status is lost.

Edgar Filing: GOVERNMENT PROPERTIES TRUST INC - Form 10-Q

WE MAY BE SUBJECT TO FEDERAL INCOME TAX, STATE INCOME, FRANCHISE AND OTHER LOCAL TAXES THAT WOULD HARM OUR FINANCIAL CONDITION.

Even if we maintain our status as a REIT, we may become subject to federal income taxes. For example, if we have net income from a sale of dealer property or inventory, that income will be subject to a 100% penalty tax. In addition, we may not be able to pay sufficient distributions to avoid corporate income tax and the 4% excise tax on undistributed income.

We may also be subject to state and local taxes on our income or property, either directly or at the level of our operating entities through which we indirectly own our properties that would adversely affect our operating results. We cannot assure you that we will be able to maintain REIT status, or that it will be in our best interests to continue to do so.

WE MAY BE SUBJECT TO ADVERSE LEGISLATIVE OR REGULATORY TAX CHANGES THAT COULD REDUCE THE MARKET PRICE OF OUR COMMON STOCK.

The federal tax laws governing REITs and the administrative interpretations of those laws may be amended at any time. Any of those new laws or interpretations may take effect retroactively. On May 28, 2003, President Bush signed into law a tax bill that reduces the tax rate on both dividends and long-term capital gains for most non-corporate taxpayers to 15% until 2008. This reduced tax rate generally does not apply to ordinary REIT dividends, which will continue to be taxed at the higher tax rates applicable to ordinary income. This legislation could cause shares in non-REIT corporations to be a more attractive investment to individual investors than they had been, and could harm the market price of our common stock.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our future income, cash flows and fair values relevant to financial instruments depend upon prevailing market interest rates. Market risk refers to the risk of loss from adverse changes in market prices and interest rates.

Market Risk Related to Fixed-Rate Debt

As of September 30, 2004, our debt included fixed-rate mortgage notes with a carrying value of \$53.2 million (excluding \$3.1 million related to a property held for sale). Changes in market interest rates on our fixed-rate debt impacts the fair market value of the debt, but it has no impact on interest incurred or cash flow. The sensitivity analysis related to our fixed debt assumes an immediate 100 basis point move in interest rates from their actual September 30, 2004 levels, with all other variables held constant.

A 100 basis point increase in market interest rates would result in a decrease in the fair value of our fixed-rate debt by approximately \$2.8 million at September 30, 2004. A 100 basis point decrease in market interest rates would result in an increase in the fair market value of our fixed-rate debt by approximately \$3.0 million at September 30, 2004.

INTEREST RATE SENSITIVITY

The following table provides information about our financial instruments that are subject to interest rate sensitivity. The table presents our mortgage notes payable by expected maturity date and weighted average interest rate as of September 30, 2004.

INTEREST RATE SENSITIVITY

	2005	2006	2007	2008	2009	THEREAFTER	TOTAL
MORTGAGE NOTES							
PAYABLE (A):							
Fixed rate amount	\$ 818,445	\$ 867,097	\$ 918,676	\$ 965,159	\$ 27,263,478	\$ 22,359,592	\$ 53,192,447
Weighted-average interest rate	5.71%	5.71%	5.71%	5.72%	5.49%	5.97%	5.71%

(a) We have excluded \$3.1 million of mortgage debt related to the Harahan Property which was sold on October 13, 2004.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. Our management continues to review our internal controls and procedures and the effectiveness of those controls. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our CEO and CFO, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15(e) of the Securities Exchange Act of 1934. Based upon that evaluation, our CEO and CFO concluded that our disclosure controls and procedures are effective in timely alerting them to material information relating to us (including our consolidated subsidiaries) required to be included in our periodic SEC filings.

Changes in internal control over financial reporting. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect internal controls during the quarter ended September 30, 2004.

PART II - OTHER INFORMATION

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

We completed a registered public offering on January 26, 2004. The SEC declared the registration statement for this offering (Form S-11, file nos. 333-109565 and 333-112219) effective on January 26, 2004. We registered 19,320,000 shares of common stock, including 2,520,000 shares subject to the underwriters' over-allotment option, with an aggregate public offering price of \$193.2 million. The offering terminated upon its completion.

The initial public offering commenced on January 6, 2004 and we sold all of the shares that we registered for aggregate proceeds of \$193.2 million through an underwriting syndicate managed by Friedman, Billings, Ramsey & Co., Inc., BB&T Capital Markets, a Division of Scott & Stringfellow, Inc., and Flagstone Securities, LLC. Our expenses for the offering included approximately \$13.5 million for underwriting discounts and commissions, \$0.7 million for reimbursement of underwriter expenses, \$2.0 million for other expenses, for a total of \$16.2 million. All of these expenses were paid directly to the recipients and none were paid to any of our officers, directors, ten percent or greater stockholders, or affiliates.

After payment of the foregoing expenses, we received approximately \$177.0 million in net proceeds from the offering. As of November 15, 2004, we had used the proceeds as follows:

approximately \$5.0 million to repay outstanding indebtedness;

approximately \$76.1 million, net of related mortgages to complete acquisitions;

approximately \$2.0 million for general working capital purposes; and

approximately \$9.3 million for dividend payments.

The remainder of the net proceeds are temporarily invested in money market investments and will ultimately be used for acquisitions and working capital.

ITEM 6. EXHIBITS AND REPORTS ON FORM 8-K

(a) Exhibits:

- 31.1 Certification of Chief Executive Officer pursuant to SEC Rule 13a-14, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 31.2 Certification of Chief Financial Officer pursuant to SEC Rule 13a-14, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002
- 32.1 Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
- 32.2 Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

(b) Reports on Form 8-K:

On July 16, 2004, we filed a current report on Form 8-K/A to file pro forma financial information in connection with the acquisition of the Pittsburgh FBI and Lenexa FDA properties.

On August 17, 2004 we filed a current report on Form 8-K to furnish our earnings press release and Supplemental Operating and Financial Data package of financial results for the three months and six months ended June 30, 2004.

On September 15, 2004 we filed a current report on Form 8-K to report the acquisition of the Veteran Administration Outpatient Clinic in Baton Rouge, Louisiana.

On September 21, 2004 we filed a current report on Form 8-K to report the acquisition of the Hollings Judicial Center Annex in Charleston, South Carolina.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
