WESTERN SIZZLIN CORPORATION

Notes to Consolidated Financial Statements

Six Months Ended June 30, 2005 and 2004

(Unaudited)

(1) General

The accompanying unaudited consolidated financial statements of Western Sizzlin Corporation, (the Company) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial reporting information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all material reclassifications and adjustments, consisting of normal recurring accruals, considered necessary for a fair presentation of the results of operations, financial position and cash flows for each period shown have been included. Operating results for interim periods are not necessarily indicative of the results for the full year because, among other things, the dining habits of the Company's customers cannot be certain. The unaudited consolidated financial statements and notes are presented as permitted by Form 10-Q and do not contain certain information included in the Company's annual consolidated financial statements and notes. For further information, refer to the consolidated financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2004.

(2) Stock Options

The Company applies the intrinsic-value-based method of accounting prescribed by Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations including FASB Interpretation No. 44, Accounting for Certain Transactions Involving Stock Compensation, an interpretation of APB Opinion No. 25, issued in March 2000, to account for its fixed-plan stock options. Under this method, compensation expense is recorded on the date of grant only if the current market price of the underlying stock exceeded the exercise price. Statement No. 123, Accounting for Stock-Based Compensation, established accounting and disclosure requirements using a fair-value-based method of accounting for stock-based employee compensation plans. As allowed by Statement No. 123, the Company has elected to continue to apply the intrinsic-value-based method of accounting described above, and has adopted only the disclosure requirements of Statement No. 123. Statement No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure, an amendment of SFAS No. 123, amends the disclosure requirements of Statement No. 123 to require prominent disclosures in both annual and interim financial statements about the method of accounting for stock-based compensation and the effect of the method on reported results. The following table illustrates the effect on net income if the fair-value-based method had been applied to all outstanding awards in each period:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2005	2004	2005	2004

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

fair-value based method for all outstanding
and unvested awards, net of tax

Pro forma	\$	217,473	\$	141,145	\$	150,892	\$	299,040
Basic and diluted net income per share:								
As reported	\$	0.02	\$	0.02	\$	0.01	\$	0.03
Pro forma	\$	0.02	\$	0.01	\$	0.01	\$	0.03

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement 123 (revised 2004), *Share-Based Payment* (Statement 123(R)). This Statement is a revision to Statement 123, *Accounting for Stock-Based Compensation*, and supersedes Opinion 25, *Accounting for Stock Issued to Employees*. Statement 123(R) requires the measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The cost will be recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render service. The Company will adopt Statement 123(R) on January 1, 2006, requiring compensation cost to be recognized as expense for the portion of outstanding unvested awards, based on the grant-date fair value of those awards calculated using the Black-Scholes option pricing model under Statement 123 for pro forma disclosures. Although management is currently evaluating the impact of Statement 123(R), the Company does not expect that the adoption of Statement 123(R) will have a material impact on the Company's financial position or future results of operations as it relates to options outstanding at June 30, 2005. However, Statement 123(R) will likely have a material impact on the Company's financial statements to the extent options are issued in the future.

(3) Goodwill and Other Intangible Assets

The Company conforms to the provisions of Statement of Financial Accounting Standards (SFAS) No. 142, *Goodwill and Other Intangible Assets*. Under SFAS No. 142, goodwill and intangible assets deemed to have indefinite lives are reviewed for impairment and written down and charged to results of operations when their carrying amount exceeds their estimated fair value. The Company is required to perform impairment tests each year, or between yearly tests in certain circumstances, for goodwill. There can be no assurance that future impairment tests will not result in a charge to earnings.

There were no changes in the net carrying amount of goodwill for the three and six-months ended June 30, 2005 and 2004.

Amortizing Intangible Assets

Franchise royalty contracts are amortized on a straight-line basis over fifteen years, the estimated average life of the franchise agreements. The Company assesses the recoverability of this intangible asset by determining whether the amortization of the franchise royalty contracts balance over their remaining life can be recovered through undiscounted future operating cash flows of the acquired operation. The amount of impairment, if any, is measured based on projected discounted future operating cash flows using a discount rate reflecting the Company's average cost of funds.

		Gross carrying amount	As of June 30, 2005 Weighted average Amortization Period		Accumulated Amortization
Amortizing intangible assets:					
Franchise Royalty Contracts	\$	9,454,432	15.0 yrs.	\$	7,248,398

Aggregate amortization expense for amortizing intangible assets for the three and six-month periods ended June 30, 2005 was \$157,575 and \$315,149, respectively. Estimated amortization expense is \$630,300 per year through December 31, 2008.

(4) Earnings Per Share

Basic earnings per share excludes dilution and is computed by dividing income available to common stockholders by the weighted-average number of common shares outstanding for the period. Diluted earnings per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock that then shared in the earnings of the Company. Stock options

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

for 265,000 and 175,000 shares of common stock for the three and six month periods ended June 30, 2005 and 75,000 shares for the three and six month period ended June 30, 2004, respectively, were not included in computing diluted earnings because the effect of these options are anti-dilutive.

The following is a reconciliation of the numerators and denominators of the basic and diluted earnings per share computations for the periods indicated:

	Income (Numerator)	Weighted Average Shares (Denominator)	Earnings Per Share Amount
Three months ended June 30, 2005			
Net income - basic and diluted	\$ 242,025	11,888,571	\$.02
Three months ended June 30, 2004			
Net income basic and diluted	\$ 179,275	11,908,785	\$.02
Six months ended June 30, 2005			
Net income - basic and diluted	\$ 175,444	11,898,571	\$.01
Six months ended June 30, 2004			
Net income basic and diluted	\$ 341,177	11,908,678	\$.03

(5) Closed Store Expense

Closed store expense for the six months ended June 30, 2005 and 2004 was \$350,279 and \$0, respectively. In the three months ended March 31, 2005, the Company recorded closed store expenses of \$350,279, which included impairments of \$128,471 associated with the end of a subleased property due to a buyout of the lease and impairments related to the closing of a Company-operated restaurant of \$221,808. There was no additional closed store expense or impairments recorded in the three months ended June 30, 2005.

(6) Reportable Segments

The Company has defined two reportable segments: Company-operated restaurants and franchising and other. The Company-operated restaurant segment consists of the operations of all Company-operated restaurants and derives its revenues from restaurant operations. The franchising and other segment consists primarily of franchise sales and support activities and derives its revenues from sales of franchise and development rights and collection of royalties from franchisees.

Generally, the Company evaluates performance and allocates resources based on income from operations before income taxes. Capital costs are allocated to segments based upon predetermined rates or actual or estimated resource usage. Corporate and franchise support expenses of \$445,209 and \$864,934 for three and six months ended June 30, 2005 and \$597,131 and \$883,795 for the three and six months ended June 30, 2004, are allocated entirely to franchising and other and are not allocated to Company-operated restaurants. The accounting policies of the segments are the same as those described in the summary of significant accounting policies.

Reportable segments are business units that provide different products or services. Separate management of each segment is required because each business unit is subject to different operational issues and strategies. Through June 30, 2005, all revenues for each business segment were derived from business activities conducted with customers located in the United States. No single external customer accounted for 10% or more of the Company's consolidated revenues.

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

The following table summarizes reportable segment information:

	Three Months Ended June 30,		Six Months Ended June 30,

Total assets	\$ 15,596,844	\$ 17,191,770		

(7) Contingencies

As of June 30, 2005, the Company has accrued approximately \$145,000 related to the matters discussed below. In the case of all known contingencies, the Company accrues for an obligation, including estimated legal costs, when a loss is probable and the amount is reasonably estimable. As facts concerning contingencies become known to the Company, the Company reassesses its position with respect to accrued liabilities and other expenses. These estimates are subject to change as events evolve and as additional information becomes available during the litigation process.

FFCA

In January 2001, the Company executed a series of Master Lease Agreements (Agreements) relating to certain franchised properties formerly operated by other parties as Quincy s restaurants (Former Quincy s). Signed copies of these Agreements were required, pursuant to the terms of the document, to be executed by Franchise Financing Corporation of America, now known as General Electric Franchise Finance Corporation, (the Lessor), to be legally binding; however, no signed copies were ever returned to the Company. At the end of January 2002, there remained only 25 Former Quincy s operated by Company franchisees, the Lessor having taken back, in 2001 and 2002, other restaurants previously operated by Company franchisees. The Agreements, incomplete for a lack of signature by the Lessor, provided for rental payments from the Company to the Lessor. However, the cost of any rental payments was passed on to the franchisees operating the properties. During 2002 and 2003, nine of the remaining twenty-five properties were closed and the franchisees discontinued making payments to the Company. On May 15, 2003, the Company sent a letter to the Lessor, providing notice of the Company s termination of any tenancies at-will on any remaining Former Quincy s units effective May 31, 2003. No response has ever been received from Lessor.

Following the May 15, 2003 termination of the tenancies at-will, the Company advised five franchisees who continued to operate former Quincy s units at that time to make any rent payments directly to FFCA. With regard to eleven other former Quincy s units, the Company became aware, on or about May 15, 2003, that the franchisees had elected to make their payments directly to FFCA and it is the Company s understanding that FFCA has accepted these payments. There can be no assurances that the franchisees have made their payments and will continue to make their lease payments in the future or that they even continue to operate these restaurants. The Company s estimate of the total payments that were made directly to the lessor for these sixteen franchisees, or former franchisees, is approximately \$2,854,000 through June 30, 2005. In addition, total payments due by the sixteen franchisees for the period July 1, 2005 through December 31, 2005 (the end of the lease term) would be approximately \$1,387,000.

While the Company disputes any liability for any of the following amounts, to the Company s knowledge, as of June 30, 2005 a total of approximately \$2,024,000 of rental payments had not been made by either the franchisees or by the Company with regard to the above-referenced nine closed properties. Rent for these nine properties, for the period of July 1, 2005 through December 31, 2005 (the end of the lease term), according to the payment schedule set out in the agreements, would approximate \$815,000.

In accordance with the Company s position, the Company has returned to FFCA any invoice for rent expense, or tax statement, received after May 15, 2003, with a cover letter explaining that the Company is not responsible for any such amounts. The Company intends to vigorously contest any potential claims asserted by General Electric Franchise Finance Corporation. While the Company has previously engaged in discussions with the Lessor of the properties to resolve any rental payments claimed by the Lessor under the Agreements, it is not possible at this time to determine the outcome of these discussions.

Lincoln, Nebraska Lease Claim

The Company was a guarantor of a lease agreement in Lincoln, Nebraska, with monthly rentals of approximately \$8,200. The lease agreement, which ran through February 2014, was assigned by the Company to a third party in March 1998 and subsequently by the third party to another party. When the assignees failed to make recent monthly rental, property tax and association payments on the premises, the landlord took possession of the premises, and on or about May 12, 2004, sold the premises to a third party intending to use the premises for its own purposes. The Company resolved the landlord s lawsuit filed in the District Court of Lancaster County, Nebraska and received a release from all claims in conjunction with this claim upon payment of \$50,000 on April 18, 2005.

MBM Claim

During 2003, the Company was notified of a claim by MBM Distributors (MBM) involving amounts alleged to be owed by the Company to MBM for product delivered on open account and inventory arising out of a distribution agreement. In December 2003; MBM filed suit in Federal District Court in North Carolina seeking damages of an amount in excess of \$800,000. The claim was settled during mediation on April 19, 2005 with the Company's payment of \$365,000.

Dickson, Tennessee Claim

In 1994, the Company entered into a lease agreement for a restaurant premise located in Dickson, Tennessee. The lease agreement has an original term of 15 years and requires monthly base rental payments of \$6,500 for the final five years of the lease term. The Company ceased operations of the premises as a restaurant in 1996 and subsequently subleased the property. The location has been vacant since September 2001. In June 2004, the Company advised the landlord that the Company was surrendering the property. The landlord is obligated to, and has advised the Company that he is attempting to find a replacement tenant.

On several occasions, the landlord has filed Complaints in the General Sessions Court of Dickson, Tennessee alleging default under the lease agreement and seeking collection of unpaid rent, real estate taxes and attorney's fees. The Company has advised the landlord that it has surrendered the premises, and has put the landlord on notice of the landlord's obligation to mitigate any damages. Following the landlord's initiation of collection actions in the General Sessions Court of Dickson County, Tennessee, the Company paid rent and related costs for the months of May, June, July, August, September, and October 2004, but continued to assert that it surrendered the property.

The Landlord has filed separate collection actions, again in the General Sessions Court in Dickson County, Tennessee, to collect rent from November 2004 through January 2005, attorney's fees and real estate taxes. The Company appealed these claims (as amended to include rent through June 2005, and related claims for attorneys' fees, taxes and certain maintenance and repair costs) to the Circuit Court of Dickson County, Tennessee, for trial de novo, and asserted a defense of failure to mitigate damages. On June 9, 2005, the Circuit Court granted the Landlord judgment against the Company in the total amount of \$90,986. The Company has further appealed to the Tennessee Court of Appeals. The Company intends to vigorously contest all claims asserted by the landlord.

Lawrenceville, Georgia Casualty

On July 11, 2004, the building, improvements, and contents located on real property owned by the Company in Lawrenceville, Georgia were completely destroyed by fire. As a result of this casualty, the Company terminated the lease of the tenant operating the restaurant on these premises. Insurance proceeds of \$591,000 were received in April 2005 and a gain on the casualty of \$220,351 has been recorded in other income in the accompanying consolidated statement of operations during the first quarter of 2005. The land is currently for sale and management does not anticipate any impairment on this property based on current estimates of fair value. In accordance with the note payable agreement related to the property, the insurance proceeds were remitted to the Company's lender on April 8, 2005. The Company has listed the real estate for sale and will remit any proceeds from a sale to the lender in partial or total satisfaction of the remaining indebtedness on the property. The Lender has indicated that it will accept any partial or total repayment of the loan from the proceeds of the real estate without the application of a prepayment penalty.

Chubb Claim

In November 2004, Chubb Insurance filed suit in the Circuit Court for the City of Roanoke against Western Sizzlin Stores of Virginia, Inc., seeking recovery of allegedly unpaid premiums in the amount of \$97,249. Western Sizzlin Stores of Virginia, Inc. has filed a grounds of defense and served discovery. Western Sizzlin Stores of Virginia, Inc. has never been billed by Chubb and has never had any direct contractual relations with them.

Other

The Company is involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of the management, the ultimate disposition of these matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

(8) Subsequent Event

Waldorf, MD Casualty

On or about July 19, 2005, a building, improvements, and contents, located upon real property leased by the Company for operation of a Company-owned Great American Buffet restaurant, at 3135 Crain Highway, Waldorf, Maryland, (the Premises) were totally destroyed by fire. The Company insured the Premises, including buildings and contents, against casualty, such as fire. The Company also has insured the Premises for the interruption of business income. The Company has initiated discussions with its landlord and insurance company regarding issues arising from the casualty loss. Revenues for the six months ended June 30, 2005 were \$1.1 million, with operating income of \$77,000 for the Waldorf, Maryland location.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The following discussion may include forward-looking statements including anticipated financial performance, business prospects, the future opening of Company-operated and franchised restaurants, anticipated capital expenditures, and other matters. All statements other than statements of historical fact are forward-looking statements. Section 27A of the Securities Act of 1933 (as amended) and Section 21E of the Securities Exchange Act of 1934 (as amended) provide safe harbors for forward-looking statements. In order to comply with the terms of these safe harbors, the Company notes that a variety of factors, individually or in the aggregate, could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forward-looking statements including, without limitation, the following: the ability of the Company or its franchises to obtain suitable locations for restaurant development; consumer spending trends and habits; competition in the restaurant segment with respect to price, service, location, food quality and personnel resources; weather conditions in the Company's operating regions; laws and government regulations; general business and economic conditions; availability of capital; success of operating initiatives and marketing and promotional efforts; and changes in accounting policies. In addition, the Company disclaims any intent or obligation to update those forward-looking statements.

The Company operated and franchised a total of 150 restaurants located in 21 states, including 6 Company-owned and 144 franchise restaurants as of June 30, 2005. The restaurants include a family steakhouse concept and a steak and buffet concept.

Results of Operations

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

Net income for the three and six months ended June 30, 2005 was \$242,025 and \$175,444 compared to net income of \$179,275 and \$341,177 for the three and six months ended June 30, 2004.

The following table sets forth for the periods presented the percentage relationship to total revenues of certain items included in the consolidated statements of income and certain restaurant data for the periods presented:

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

	Three Months Ended June 30,		Six Months Ended June 30,

Revenues

Company-operated restaurant revenues decreased \$208,878 (4.7%) to \$4.2 million for the three months ended June 30, 2005 as compared to \$4.4 million for the comparable three months ended June 30, 2004. Revenues for company-operated restaurants decreased \$439,512 (5.2%) to \$8.0 million for the six months ended June 30, 2005 as compared to \$8.4 million for the comparable six months ended June 30, 2004. The decreases are largely attributable to the closing of a Company-operated location in February, 2005, totaling approximately \$340,000 and \$520,000 in lost revenues over the three and six months ended June 30, 2005 over prior periods. Same store sales

for the three and six months ended June 30, 2005, experienced an overall increase of 2.6% and 0.51%, respectively.

Franchise and other revenues decreased 1.8% to \$1.2 million for the three months ended June 30, 2005 as compared to \$1.2 million for the comparable three months ended June 30, 2004. Franchise and other revenues decreased 2.6% to \$2.4 million for the six months ended June 30, 2005 as compared to \$2.5 million for the six months ended June 30, 2004. The decreases are attributable to fewer franchised units in the system at June 30, 2005 as compared to June 30, 2004. Same store sales for the three and six months ended June 30, 2005, experienced an overall increase of 1.85% and 0.84%, respectively.

Costs and Expenses

Cost of Company-operated restaurants, consisting primarily of food, beverage, and employee costs decreased \$256,500 (8.4%) to \$2.8 million for the three months ended June 30, 2005 from \$3.0 million for the three months ended June 30, 2004. These costs for the three month periods decreased as a percentage of total revenues from 52.2% in 2004 to 51.0% in 2005. For the six month period ended June 30, 2005, cost of Company-operated restaurants decreased \$426,000 (7.4%) to \$5.3 million from \$5.8 million in 2004. These costs for the six month periods decreased as a percentage of total revenues from 52.8% in 2004 to 51.3% in 2005. The decrease in the costs were largely attributable to the closing of a Company-operated location in February 2005 and decreases in labor costs by monitoring staffing requirements more effectively.

Cost of franchise operations and other cost of operations were \$506,000 for the three months ended June 30, 2005 compared to \$527,000 in 2004, and were 9.3% as a percentage of total revenues for 2005 and 2004. Cost of franchise operations and other cost of operations were \$1.1 million for the six month periods ended June 30, 2005 and 2004, and were 10.5% and 10.0% as a percentage of total revenues, respectively. These costs are comparable year to year for the periods presented.

Restaurant operating expenses, which include utilities, insurance, maintenance, rent and other such costs of the Company-operated restaurants, decreased by \$67,000 (7.4%) for the three months ended March 31, 2005 versus the prior year's comparable period. These costs for the three month periods decreased as a percentage of total revenues from 17.6% in 2004 to 15.4% in 2005. For the six months ended June 30, 2005, restaurant operating expenses decreased by \$79,000 (4.3%) versus the prior year's comparable period. These costs for the six month periods were comparable as a percentage of total revenues at 16.8% in 2005 and 16.7% in 2004. The decreases are attributable to closing a Company-operated location in February 2005.

For the three months ended June 30, 2005 and 2004, general and administrative expenses were \$636,000 and \$548,000, respectively and as a percentage of total revenue were 11.7% and 8.0%, respectively. For the six months ended June 30, 2005 and 2004, general and administrative expenses were \$1.2 million and \$963,000, respectively, and as percentage of total revenues were 11.2% and 8.8%, respectively. The increase was primarily due to legal fees associated with litigation matters during 2005 and write off of leasehold improvements associated with closed stores.

Depreciation and amortization expense was \$37,000 (12.0%) less for the three months ended June 30, 2005 versus the three months ended June 30, 2004 and \$59,000 (9.6%) less for the comparable six month period then ended. The decreases were attributable to certain property and equipment becoming fully depreciated.

Closed store expenses were \$0 and \$350,000 for the three and six months ended June 30, 2005 and no closed store expense in 2004 for the comparable periods. The first quarter 2005 expenses included impairment of \$128,000 associated with the end of a subleased property due to a buyout of the lease and impairments related to the closing of a Company-operated restaurant of \$222,000 in February 2005.

Other Income (Expense)

Interest expense decreased \$30,000 and \$42,000 for the three and six months ended June 30, 2005 over the comparable periods in 2004 due to a lower average principal outstanding balance. Interest income fluctuates according to the levels of available cash balances. The Company employs a cash management system whereby available balances are invested on an overnight basis.

Other income increased \$13,000 and \$194,000 for the three and six months ended June 30, 2005 over the comparable periods in 2004 due largely to a gain of \$220,000 attributable to insurance proceeds received on the Lawrenceville, Georgia casualty recorded in the first quarter of 2005.

Income tax expense is directly affected by the levels of pretax income. The Company's effective tax rate was 37.9% and 38.8% for the three and six months ended June 30, 2005 and 38.0% and 38.0% for the same periods in 2004.

Liquidity and Capital Resources

As is customary in the restaurant industry, the Company has historically operated with negative working capital. Historically, the Company has leased the majority of its restaurants and through a strategy of controlled growth has financed operations from operating cash flows, the utilization of the Company's line of credit and long-term debt provided by various lenders. The Company had a positive working capital of \$1.9 million and \$1.5 million at June 30, 2005 and December 31, 2004, respectively.

Cash flows provided by operating activities were \$440,000 in 2005 compared to \$1.5 million in 2004. During 2004, cash flows provided by operating activities were primarily due to net income of \$341,000 and depreciation and amortization of \$608,000, and an increase in accounts payable of \$344,000. During 2005, cash flows provided by operations were primarily due to net income of \$175,000 and depreciation and amortization of \$540,000, loss on sale/disposal of property and equipment \$360,000, offset by gain from fire casualty of \$220,000, increase in prepaid expenses of \$241,000 and decrease in accrued expenses of \$503,000. Net cash provided by investing activities of \$573,000 in 2005 and used in investing activities of \$127,000 in 2004, was primarily for capital expenditures related to property and equipment for both periods presented and proceeds of \$653,000 in 2005 from fire casualty. Net cash used in financing activities of \$923,000 in 2005 and \$261,000 in 2004 was for payments on long-term debt in 2005 and 2004. The increase in 2005 over 2004 was due to the receipt of insurance proceeds on the Lawrenceville, GA casualty which were fully remitted to the lender.

Management believes that the Company's short-term cash requirements will include possible settlements of certain legal proceedings, a capital contribution related to a planned joint venture for development of a buffet concept restaurant, and capital improvements to Company-operated restaurants of approximately \$1.2 million.

The Company utilizes its existing line of credit to provide short-term funding in addition to cash from operations. Management reviews available financing alternatives to provide cash for future expansion, restructure existing debt and additional available financing alternatives, and provide additional working capital; however, management believes existing financing and additional available financing alternatives will provide adequate funding for cash requirements.

CRITICAL ACCOUNTING POLICIES

Franchise Revenue

Initial franchise fees are recognized when all material services have been substantially performed by the Company and the restaurant has opened for business. Franchise royalties, which are based on a percentage of monthly sales, are recognized as income on the accrual basis. Costs associated with franchise operations are recognized on the accrual basis.

Accounts and Notes Receivable and Allowance for Doubtful Accounts

In connection with franchise fees charged to franchisees, the Company has accounts and notes receivable outstanding from our franchisees at any given time. The Company reviews outstanding accounts and notes receivable monthly and record allowances for doubtful accounts as deemed appropriate for certain individual franchisees. In determining the amount of allowance for doubtful accounts to be recorded, the Company considers the age of the receivable, the financial stability of the franchisee, discussions that may have been had with the franchisee and the Company's judgement as to the overall collectibility of the receivable from that franchisee.

Franchise Royalty Contracts

Franchise royalty contracts are amortized on a straight-line basis over fifteen years, the estimated average life of the franchise agreements. The Company assesses the recoverability of this intangible asset by determining whether the amortization of the franchise royalty contracts balance over their remaining life can be recovered through undiscounted future operating cash flows of the acquired operation. The amount of impairment, if any, is measured based on projected discounted future operating cash flows using a discount rate reflecting the Company's average cost of funds.

Goodwill

Goodwill represents the excess of purchase price over fair value of net assets of businesses acquired. Goodwill and intangible assets acquired in a purchase business combination and determined to have an indefinite useful life are not amortized, but instead tested for impairment at least annually.

OTHER

Impact of Inflation

The impact of inflation on the costs of food and beverage products, labor and real estate can affect the Company's operations. Over the past few years, inflation has had a lesser impact on the Company's operations due to the lower rates of inflation in the nation's economy and economic conditions in the Company's market areas.

Management believes the Company has historically been able to pass on increased costs through certain selected menu price increases and has offset increased costs by increased productivity and purchasing efficiencies, but there can be no assurance that the Company will be able to do so in the future. Management anticipates that the average cost of restaurant real estate leases and construction cost could increase in the future which could affect the Company's ability to expand. In addition, mandated health care or additional increases in the federal or state minimum wages could significantly increase the Company's costs of doing business.

Impact of Recently Issued Accounting Standards

In December 2004, the Financial Accounting Standards Board (FASB) issued Statement 123 (revised 2004), *Share-Based Payment* (Statement 123(R)). This Statement is a revision to Statement 123, *Accounting for Stock-Based Compensation*, and supersedes Opinion 25, *Accounting for Stock Issued to Employees*. Statement 123(R) requires the measurement of the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award. The cost will be recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render service. The Company will adopt Statement 123(R) on January 1, 2006, requiring compensation cost to be recognized as expense for the portion of outstanding unvested awards, based on the grant-date fair value of those awards calculated using the Black-Scholes option pricing model under Statement 123 for pro forma disclosures. Although management is currently evaluating the impact of Statement 123(R), the Company does not expect that the adoption of Statement 123(R) will have a material impact

on the Company's financial position or future results of operations as it relates to options outstanding at June 30, 2005. However, Statement 123(R) will likely have a material impact on the Company's financial statements to the extent options are issued in the future.

As of June 30, 2005, there were no other new accounting standards issued but not yet adopted by the Company, which are expected to be applicable to the Company's consolidated financial position, operating results or financial statement disclosures.

Item 3. Quantitative and Qualitative Disclosure about Market Risk

The Company does not engage in derivative financial instruments or derivative commodity instruments. As of June 30, 2005, the Company's financial instruments were not exposed to significant market risk due to foreign currency exchange risk. The Company is exposed to market risk related to interest rates, as well as increased prices in restaurant industry commodities such as beef.

The table below provides information about the Company's debt obligations that are sensitive to changes in interest rates. The table presents principal cash flows and related weighted average interest rates by expected maturity dates.

Debt obligations held for other than trading purposes at June 30, 2005 (dollars in thousands):

EXPECTED MATURITY DATE

EXPECTED MATURITY DATE

Edgar Filing: WESTERN SIZZLIN CORP - Form 10-Q

	2005	2006	2007	2008	2009	Thereafter	Total	Estimated Fair Value
Long-term debt								
Fixed Rate	\$ 688	\$ 450	\$ 333	\$ 285	\$ 180	\$ 678	\$ 2,614	\$ 2,708
Average Interest Rate	10.00%	9.95%	10.01%	10.07%	10.07%	10.07%	10.00%	

Item 4. Controls and Procedures

Senior management, including the Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of June 30, 2005. Based on this evaluation process, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed in reports filed and submitted under the Securities Exchange Act of 1934 (as amended) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Additionally, there have been no changes in the Company's internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonable likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

In addition to those proceedings discussed in Note 7 to the Company's consolidated financial statements included in Item 1, Part 1, the Company is involved in various other claims and legal actions arising in the ordinary course of business. In the opinion of the management, the ultimate disposition of these other matters will not have a material adverse effect on the Company's financial condition, results of operations or liquidity.

Two claims previously reported in the Company's filings were resolved during the three months ended June 30, 2005. The claim by MBM Distributors was settled during mediation on April 19, 2005 with the Company's payment of \$365,000. The Company also resolved the Lincoln, Nebraska lease agreement claim and received a full release for payment of \$50,000 on April 18, 2005.

Item 4. Submission of Matters to a Vote of Security Holders

At the Annual Meeting of the Stockholders held June 22, 2005, the following persons were elected to the Board of Directors:

Nominees	Shares voted for	Shares withheld
Paul C. Schorr, III	9,712,209	51,695
Thomas M. Hontzas	9,712,847	51,057
Stanley L. Bozeman, Jr.	9,424,324	339,580
Jesse M. Harrington, III	9,453,347	310,557
A. Jones Yorke	9,688,209	75,695
Roger D. Sack	9,688,209	75,695
Titus W. Greene	9,712,847	51,057
Pat Vezertzis	9,712,847	51,057
J. Alan Cowart	9,429,347	334,557

Also at the Annual Meeting, the 2005 Stock Option Plan received a majority of the shares present in person or by proxy and entitled to vote and has been declared as approved and adopted. The votes were as follows:

Shares for	5,740,868
Shares against	551,549
Shares withheld	159
Shares abstained	478
Non-votes	5,595,517
