Edgar Filing: Ares Dynamic Credit Allocation Fund, Inc. - Form N-Q

Footnotes:

(a) Investment holdings in foreign currencies are converted to U.S. Dollars using period end spot rates. All investments are in United States enterprises unless otherwise noted.

(b) Interest rates on floating rate term loans adjust periodically based upon a predetermined schedule. Stated interest rate in this schedule represents the all-in rate at period end.

(c) This position or a portion of this position represents an unsettled loan purchase. The interest rate will be determined at the time of settlement and will be based upon the London-Interbank Offered Rate (LIBOR or L) or the applicable LIBOR floor plus a spread which was determined at the time of purchase.

- (d) Pay-In-Kind security (PIK), which may pay interest/dividends in additional par/shares.
- (e) Reported net of unfunded commitments, reduced by any upfront payments received if purchased at a discount, see Note 2.
- (f) Variable rate coupon, rate shown as of January 31, 2014.

As of January 31, 2014, the aggregate cost of securities for Federal income tax purposes was \$458,966,839.

Unrealized appreciation and depreciation on investments for Federal income tax purposes are as follows:

Gross unrealized appreciation	\$ 8,768,110
Gross unrealized depreciation	(2,368,760)
Net unrealized appreciation	\$ 6,399,350

Notes to Schedule of Investments

January 31, 2014 (UNAUDITED)

(1) Organization

Ares Dynamic Credit Allocation Fund, Inc. (the Fund) is a corporation incorporated under the laws of the State of Maryland and registered with the U.S. Securities and Exchange Commission (the SEC) under the Investment Company Act of 1940, as amended (the Investment Company Act), as a closed-end, non-diversified, management investment company, and intends to qualify to be treated as a Registered Investment Company (RIC). The Fund commenced operations on November 27, 2012. Ares Capital Management II LLC (the Adviser) serves as the investment adviser to the Fund. The Fund s common shares are listed on the New York Stock Exchange (the Exchange) and trade under the ticker symbol ARDC.

Investment Objective

ARDC s investment objective is to provide an attractive risk-adjusted level of total return, primarily through current income and, secondarily, through capital appreciation. The Fund seeks to achieve its investment objective by investing primarily in a broad, dynamically managed portfolio of (i) secured loans (Senior Loans) made primarily to companies whose debt is rated below investment grade, (ii) corporate bonds (Corporate Bonds) that are expected to be primarily high yield issues rated below investment grade, and (iii) debt securities (CLO Debt Securities) issued by entities commonly referred to, and referred to herein, as collateralized loan obligations (CLOS). The Adviser will dynamically allocate the Fund's portfolio among investments in the various targeted credit markets, to seek to manage interest rate and credit risk and the duration of the Fund's portfolio.

(2) Significant Accounting Policies

Investments Valuation

All investments in securities are recorded at their estimated fair value, as described in Note 3.

Revolving loan, bridge loan and delayed draw term loan agreements

For investment purposes, the Fund has entered into certain loan commitments which may include revolving loan, bridge loan, partially unfunded term loan and delayed draw term loan agreements (Unfunded loan commitments). Unfunded loan commitments purchased at a discount/premium may include cash received/paid for the amounts representing such discounts/premiums. Unfunded loan commitments are agreements to participate in the lending of up to a specified maximum amount for a specified period. As of January 31, 2014, the fair value of the loans disclosed in the Schedule of Investments does not include unfunded commitments, which total \$279,107.

Fair Value Measurements

The Fund follows the provisions of *Fair Value Measurements and Disclosures* under U.S. generally accepted accounting principles (U.S. GAAP), which among other matters, requires enhanced disclosures about investments that are measured and reported at fair value. This standard defines fair value and establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability used in measuring investments at fair value and expands disclosures about assets and liabilities measured at fair value. *Fair Value Measurements and Disclosures* defines fair value as the amount for which an investment could be sold in an orderly transaction between market participants at the measurement date in the principal or most advantageous market of the investment. The hierarchal disclosure framework establishes a three tier hierarchy to maximize the use of observable data and minimize the use of unobservable inputs. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk, for example, the risk inherent in a particular valuation technique.

Inputs may be observable or unobservable. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity s own assumptions about the assumptions market participants would use in pricing the asset or liability based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below.

Notes to Schedule of Investments (continued)

January 31, 2014 (UNAUDITED)

Level 1 unadjusted quoted prices in active markets for identical investments

• Level 2 other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)

• Level 3 significant unobservable inputs (including a single broker quote or the Fund s own assumptions in determining the fair value of investments)

The fair value of the Fund s investments are primarily estimated based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs. The Fund s custodian obtains prices from independent pricing services based on an authorized pricing matrix as approved by the Fund s Board of Directors. The Adviser has internal controls in place that support its reliance on information received from third-party pricing sources. For any securities, if market or dealer quotations are not readily available, or if the Adviser determines that a quotation of a security does not represent a fair value, then the security is valued at a fair value as determined in good faith by the Adviser and will be classified as Level 3. In such instances, the Adviser will use valuation techniques consistent with the market or income approach to measure fair value and will give consideration to all factors which might reasonably affect the fair value.

Bank loans and corporate debts: The fair value of bank loans and corporate debt is estimated based on quoted market prices, forward foreign exchange rates, dealer quotations or alternative pricing sources supported by observable inputs and are generally classified within Level 2 or 3. The Adviser obtains prices from independent pricing services which generally utilize broker quotes and may use various other pricing techniques which take into account appropriate factors such as yield, quality, coupon rate, maturity, type of issue, trading characteristics and other data. If the pricing services are only able to obtain a single broker quote or utilize a pricing model the securities will be classified as Level 3. If the pricing services are unable to provide prices, the Adviser will attempt to obtain one or more broker quotes directly from a dealer and price such securities at the last bid price obtained; such securities are classified as Level 3.

Collateralized loan obligations: The fair value of collateralized loan obligations is estimated based on various valuation models of third party pricing services as well as internal models. The valuation models generally utilize discounted cash flows and take into consideration prepayment and loss assumptions, based on historical experience and projected performance, economic factors, the characteristics and condition of the underlying collateral, comparable yields for similar securities and recent trading activity. These securities are classified as Level 3.

The Adviser is responsible for all inputs and assumptions related to the pricing of securities. The Adviser has internal controls in place that support its reliance on information received from third-party pricing sources. As part of its internal controls, the Adviser obtains, reviews and tests information to corroborate prices received from third party pricing sources. For any securities, if market or dealer quotations are not readily available, or if the Adviser determines that a quotation of a security does not represent a fair value, then the security is valued at a fair value as determined in good faith by the Adviser and will be classified as Level 3. In such instances, the Adviser will use valuation techniques consistent with the market or income approach to measure fair value and will give consideration to all factors which might reasonably affect the fair value. The main inputs into the Adviser s valuation model for these Level 3 securities include earnings multiples (based on the historical earnings of the issuer) and discounted cash flows. The Adviser may also consider original transaction price, recent transactions in the same or similar instruments and completed third-party transactions in comparable instruments as well as other liquidity, credit and market risk factors. Models will be adjusted as deemed necessary by the Adviser.

Notes to Schedule of Investments (continued)

January 31, 2014 (UNAUDITED)

The following is a summary of the inputs used as of January 31, 2014, in valuing the Fund s investments carried at fair value:

	Level 1 - Quoted Prices (\$)	Level 2 - Other Significant Observable Inputs (\$)	Level 3 - Significant Unobservable Inputs (\$)	Total (\$)
Floating Rate Term Loans		154,650,029	19,114,616	173,764,645
Corporate Bonds		212,213,599		212,213,599
Collateralized Loan				
Obligations/Collateralized Debt Obligations			79,387,945	79,387,945
Total Investments		366,863,628	98,502,561	465,366,189

The following is a reconciliation of the Fund s investments in which significant unobservable inputs (Level 3) were used in determining fair value.

For the period ended January 31, 2014:

	Floating Rate Term Loans (\$)	Corporate Bonds (\$)	Collateralized Loan Obligations/ Collateralized Debt Obligations (\$)	Total (\$)
Balance as of 10/31/13	24,888,248	5,003,397	77,524,340	107,415,985
Purchases (a)	2,778,277			2,778,277
Sales (b)	(6,169,555)			(6,169,555)
Realized gain/ (loss) and net change in				
unrealized appreciation/(depreciation)	106,563	38,286	1,789,688	1,934,537
Accrued discounts/(premiums)	13,366	(10,861)	73,917	76,422
Transfers in to Level 3	6,921,128			6,921,128
Transfers out of Level 3	(9,423,411)	(5,030,822)		(14,454,233)
Balance as of 1/31/14	19,114,616		79,387,945	98,502,561
Net change in unrealized appreciation/(depreciation) from Investments				
held as of 1/31/14	105,250		1,789,687	1,894,937

(a) Purchases include paid-in-kind interest and securities received from restructure.

(b) Sales include principal redemptions.

Edgar Filing: Ares Dynamic Credit Allocation Fund, Inc. - Form N-Q

The valuation techniques used by the Adviser to measure fair value as of January 31, 2014 maximized the use of observable inputs and minimized the use of unobservable inputs. The valuation techniques and significant amounts of unobservable inputs used in the valuation of the Fund s Level 3 securities are outlined in the table below.

	Fair Value (\$)	Valuation Technique	Unobservable Inputs	Range
Assets			-	
Investments in securities				
Floating Rate Term Loans	19,114,616	Broker quotes and/or 3rd party pricing services	N/A	N/A
Collateralized Loan Obligation/Collateralized Debt				
Obligation	79,387,945	Broker quotes and/or 3rd party pricing services	N/A	N/A
Total Level 3 Investments	98,502,561			

There were no transfers between Level 1 and 2 during the period. It is the Fund s policy to recognize transfers into and out of all levels at the end of the reporting period.

ITEM 2. CONTROLS AND PROCEDURES.

(a) The registrant s principal executive officer and principal financial officer have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended) are effective at a reasonable level of assurance based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this report as required by Rule 30a-3(b) under the 1940 Act and Rule 13a-15(b) under the Securities Exchange Act of 1934, as amended.

(b) There were no significant changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act) that occurred during the registrant s last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant s internal control over financial reporting.

ITEM 3. EXHIBITS.

The following exhibits are attached to this Form N-Q:

EXHIBIT NO.DESCRIPTION OF EXHIBIT3 (a) (1)Certification of Principal Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 20023 (a) (2)Certification of Principal Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
