HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED)

1. Description of Business and Basis of Presentation

Interim Financial Statements:

The information presented as of September 30, 2010 and for the three and nine month periods ended September 30, 2010 and 2009 are unaudited, and reflect all adjustments (consisting only of normal recurring adjustments) which Henry Bros. Electronics, Inc. and its Subsidiaries (the "Company" or "HBE") considers necessary for the fair presentation of the Company's financial position as of September 30, 2010, the results of its operations for the three and nine month periods ended September 30, 2010 and 2009, and cash flows and changes in stockholders' equity for the nine month period ended September 30, 2010. The Company's December 31, 2009 balance sheet information was derived from the audited consolidated financial statements for the year ended December 31, 2009, which are included as part of the Company's Annual Report on Form 10-K.

The condensed consolidated financial statements included herein have been prepared in accordance with U.S. generally accepted accounting principles and the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the Company's financial statements and notes thereto included in the Company's latest shareholders' annual report.

As of September 30, 2010, there have been no material changes to any of the significant accounting policies described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009.

Description of Business:

Henry Bros. Electronics, Inc. is an established player in the electronic physical security industry, specializing in integrated security systems, and emergency preparedness.

HBE provides products and services to customers in the public and private sectors. Customers include transit authorities, seaports, airports, universities, office-buildings, hospitals and airlines. Each of the Company's segments markets its products and services nationwide with an emphasis in Arizona, California, Colorado, Maryland, New Jersey, New York, Texas and Virginia.

The company operates through two primary operating segments:

1. Security Systems Integration
2. Specialty Product and Services

The Security Systems Integration business operates under the name Henry Bros. Electronics, Inc. and its approach to client service is core to all of its businesses. At the beginning of each new client relationship, HBE designates one member of its professional staff as the client service contact. This individual is the point person for communications between the client and HBE and often acts as the client's project manager for all of its security needs, which ensures that clients receive the best possible security solution to meet its needs. The Company derives a majority of its revenues from project installations and to a smaller extent, maintenance service revenue.

The Specialty Products and Services segment includes three separate businesses:

1. Evacuation planning
2. Mobile digital recording
3. Airorlite Communications

The Evacuation Planning business operates under the Diversified Security Solutions, Inc. name and works with managers of high-rise office buildings to analyze their specific facilities' needs with emergency preparedness plans. This division provides demonstrations, training and recommendations to clients; develops emergency plans and procedures; and communicates building strategy to the tenants to increase building community unity, awareness and confidence.

The Mobile Digital Recording business operates under the name Viscom Products, Inc. and has developed an integrated standard solution for the deployment of mobile digital recorders on municipal buses and trains.

The Airorlite Communications business provides specialized communications product design, development and engineering related to RF transmission.

## HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED) – (continued)

The table below shows the sales percentages by geographic location for the following periods:

	Nine months ended September 30,	
	2010	2009
New Jersey/New York	54%	50%
California	18%	18%
Texas	7%	5%
Arizona	5%	8%
Colorado	6%	11%
Virginia / Maryland	7%	8%
Integration segment	97%	100%
Specialty segment	4%	3%
Inter-segment	-1%	-3%
Total revenue	100%	100%

## 2. Summary of Significant Accounting Policies:

### Principles of Consolidation:

The condensed consolidated financial statements include the accounts of the Company. Acquisitions are recorded as of the purchase date, and are included in the consolidated financial statements from the date of acquisition. All material intercompany transactions have been eliminated in consolidation.

### Use of Estimates:

The preparation of financial statements, in conformity with generally accepted accounting principles in the United States, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities, at the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue and costs relating to security integration systems projects and service agreements are particularly affected by management's estimates. The contract sale price and estimated costs are based upon the facts and circumstances known at the time of the proposal. Estimates for the costs to complete the contract are periodically updated during the performance of the contract. Unpredictable events can occur during the performance of the contract that can increase the costs and reduce the estimated gross profit. Change orders to record additional costs may not be approved or can become subject to long negotiations with the customer and can result in concessions by the Company. Considerable judgments are made during the performance of the contract that affects the Company's revenue recognition and cost accruals that may have a significant impact on the results of operations reported by the Company.

### Fair Value of Financial Instruments:

The carrying amounts of the Company's financial instruments, which include cash equivalents, accounts receivable, accounts payable, accrued expenses, short and long-term debt, approximate their fair values as of September 30, 2010.

### Recently Issued Accounting Pronouncements:

In May 2009, the FASB issued guidance now codified as FASB ASC Topic 855, "Subsequent Events," which establishes general standards of accounting for, and disclosures of, events that occur after the balance sheet date but before financial statements are issued. This pronouncement is effective for interim or fiscal periods ending after June 15, 2009. The adoption of this pronouncement did not have a material impact on our consolidated financial position, results of operations or cash flows. However, the provisions of FASB ASC Topic 855 resulted in additional disclosures with respect to subsequent events. In February 2010, an update to accounting guidance was issued which eliminates the disclosure of the date through which subsequent events have been evaluated. This update was effective immediately. The adoption of this amendment did not have a significant effect on our financial statements.

## HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED) – (continued)

## 3. Earnings Per Share

The computation of basic earnings per share is based upon the weighted average number of shares of common stock outstanding during the period. When applicable, the computation of diluted earnings per share includes the dilutive effects of common stock equivalents, less the shares that may be repurchased with the funds received from their exercise and the effect of adding back unrecognized future stock compensation expense. Potentially dilutive common stock equivalents include shares issuable upon exercise of options. Contingent shares are excluded from basic earnings per share.

## 4. Stock Based Compensation

For the three months ended September 30, 2010 and 2009, the Company charged \$60,000 and \$73,500, respectively, to operations for stock based compensation expense. For the nine months ended September 30, 2010 and 2009, the Company charged \$192,500 and \$266,500, respectively, to operations for stock based compensation expense. A modification to a stock option, previously issued to an executive officer, extending the term for one year, resulted in an expense in the second quarter of 2009, equal to the net increase in the fair value of the modified stock option of \$49,000.

A summary of stock option activity for the nine months ended September 30, 2010 under the Company's various Stock Option Plans' follows:

	Number of Shares		Weighted Average Exercise Price	
	Outstanding	Exercisable	Outstanding	Exercisable
December 31, 2009 (audited)	997,799	628,866	\$ 4.96	\$ 5.17
Granted at market	113,000		3.86	
Exercised	-		-	
Forfeited or expired	(110,300)		7.01	
September 30, 2010 (unaudited)	1,000,499	626,232	\$ 4.61	\$ 4.72

Stock based compensation is being amortized over the vesting period of up to five years. The fair value of the Company's stock option awards was estimated assuming no expected dividends and the following weighted-average assumptions for the nine months ended September 30, 2010 follows:

Expected Life (years)	5.86
Expected volatility	50.6%
Risk-free interest rates	1.9%
Dividend yield	-
Weighted-average grant-date fair value	\$ 1.67

There were 113,000 options issued during the nine month period ending September 30, 2010.

## HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED) – (continued)

## 5. Costs and Billings on Uncompleted Contracts

Costs and billing on uncompleted contracts consisted of the following:

	September 30, 2010	December 31, 2009
Cost and estimated profit on uncompleted contracts	\$ 45,998,023	\$ 46,259,927
Billing on uncompleted contracts	39,729,657	41,824,268
	\$ 6,268,366	\$ 4,435,659

Included in accompanying Balance Sheets under the following captions:

	September 30, 2010	December 31, 2009
Cost and estimated profit in excess of billing	\$ 9,031,520	\$ 6,003,533
Billing in excess of cost and estimated profit	2,763,154	1,567,874
	\$ 6,268,366	\$ 4,435,659

## 6. Long-Term Debt

On June 30, 2005, the Company entered into a loan agreement (the “Loan Agreement”) with TD Bank, N.A. pursuant to which TD Bank extended a \$4 million two-year credit facility (the “Revolving Loan”), to the Company and refinanced \$1 million of existing indebtedness to TD Bank into a five year term loan (the “Term Loan”).

On October 6, 2008, the Company executed its fourth amendment to the Revolving Loan with TD Bank, increasing its line of credit from \$4 million to \$8 million. The Revolving Loan is subject to certain borrowing base limitations. On August 10, 2010 the term of the Revolving Loan was extended to June 30, 2012. Advances under the Revolving Loan may be used to finance working capital and acquisitions. Interest is paid monthly in arrears at TD Bank’s prime rate, subject to a minimum floor rate of 4.0% effective November 11, 2009 as part of the extension of the Revolving Loan. TD Bank has a first priority security interest on the Company’s accounts receivable and inventory.

The Company is required to maintain certain financial and reporting covenants and is restricted from paying dividends under the terms of the Loan Agreement.

Long-term debt included the following balances:

	September 30, 2010	December 31, 2009
Revolving line at the prime rate of interest, subject to a minimum floor rate of 4.0% effective November 11, 2009, expires June 30, 2012	\$ 5,060,898	\$ 4,335,898
Corporate insurance financed at 5.99% payable in monthly		

Edgar Filing: Henry Bros. Electronics, Inc. - Form 10-Q

installments thru September 01, 2010	-	194,665
Capitalized lease obligations due in monthly installments, with interest ranging from 6.4% to 12.7%	796,513	836,506
	5,857,411	5,367,069
Less: Current portion	(299,625)	(536,552)
	\$ 5,557,786	\$ 4,830,517

The weighted average interest rate on the Revolving Loan was 3.25% for the nine months ended September 30, 2010 and the year ended December 31, 2009.

## HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED) – (continued)

## 7. Income Taxes

The effective income tax rate for the three months and nine months ended September 30, 2010 was 39.4% and 43.5%, respectively. An effective tax rate of 44% was applied to the loss before tax for the three months and nine months ended September 30, 2009, which was offset by the effect of permanent differences which increased taxable income. Income tax expense for interim reporting is based on an annual effective income tax rate forecast, which includes estimates and assumptions that could change during the year. The differences between the effective income tax rate and the U.S. federal statutory rate of 34% principally result from state and local taxes, and differences between the book and tax treatment of certain items, such as incentive stock options.

The effective income tax rate for the three months and nine months ended September 30, 2010 has not been impacted by any material discrete items. As of September 30, 2010 the Company has \$51,053 of unrecognized income tax benefits, all of which would impact the Company's effective tax rate if recognized. There have been no significant changes during the nine months ended September 30, 2010.

## 8. STOCKHOLDERS' EQUITY

In connection with the acquisition of all the capital stock of CIS Security Systems Corp. ("CIS") on October 2, 2006, the Company issued an aggregate of 20,000 shares of its common stock, valued at \$67,200. The Company issued an additional 60,000 shares during 2009, 2008 and 2007, and 15,000 shares during the first nine months of 2010 of its restricted common stock to CIS's selling shareholder after CIS met certain performance targets. The issuance of the shares of restricted stock in connection with the aforementioned acquisition was made in reliance upon the exemption provided in section 4(2) of the Securities Act of 1933, as amended. In addition, the selling shareholder achieved certain performance targets to earn an additional 5,000 shares of the Company's common stock, the shares and their value has been reflected in stockholder's equity as of September 30, 2010.

See Note 12 of these Condensed Consolidated Financial Statements included in this Quarterly Report for discussion of additional shares of common stock issued in connection with the acquisition of Professional Security Technologies LLC.

## 9. Segment Data

Selected information by business segment is presented in the following tables:

	For the nine months ended September 30,		For the three months ended September 30,	
	2010	2009	2010	2009
<b>Revenue</b>				
Integration	\$ 45,515,359	\$ 40,463,589	\$ 18,989,952	\$ 11,576,861

HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED) – (continued)

10. Contingent Liabilities

From time to time, the Company is subject to various claims with respect to matters arising out of the normal course of business. In management's opinion, none of these claims is likely to have a material effect on the Company's consolidated financial statements.

11. Related Party Transactions

Richard D. Rockwell, a member of the Board of Directors since November 2007, has been Owner and Chairman of Professional Security Technologies LLC, a full service security systems integrator since 1996. The Company had revenues from PST of \$241,167 and \$26,139 for the three months ended September 30, 2010 and 2009, respectively and had revenues from PST of \$304,315 and \$99,905 for the nine months ended September 30, 2010 and 2009, respectively. These revenues were principally related to the sale of equipment by the Company to PST. There were no outstanding accounts receivable from PST at September 30, 2010, but there was a balance of \$39,192 as of December 31, 2009.

12. Acquisition of Professional Security Technologies LLC

On September 2, 2010, the Company purchased certain assets of Professional Security Technologies LLC ("PST") consisting principally of a customer list of existing and targeted potential PST customers ("PST Customers") and PST's assignment of its rights under an existing dealer agreement with a national equipment supplier pursuant to which the Company will be authorized to sell Supplier's products ("Supplier Products"). PST is a New Jersey limited liability company owned by the Company's Chairman of the Board of Directors. In addition, the Company agreed to hire certain PST employees. The Company accounted for this transaction in accordance with the provisions within Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 805 – Business Combinations. The total consideration expected to be paid to PST for the assets was \$1,062,811, as follows:

1. Cash of \$80,811 paid at closing;
2. 150,000 shares of the Company's common stock, 75,000 of which will be delivered at closing. The remaining 75,000 shares will be held in escrow subject to delivery as described in point 4 below;
3. Payment of five (5%) percent of the net cash proceeds received by the Company, during the period commencing on July 1, 2010 and ending on December 31, 2012, in connection with (a) sales to PST customers (including sales of Supplier Products) and (b) sales of Supplier Products to the Company's other customers, and;
4. 75,000 shares of the Company's common stock when the aggregate revenue from the sales described above, during the period commencing on July 1, 2010 and ending on December 31, 2012, equal \$8,000,000; provided, however, such shares will be released, prior to reaching the revenue target, in the event there is a change in control of the Company prior to December 31, 2012.

On the acquisition date, the fair value of the contingent consideration payable to PST was determined to be \$682,344. At the end of each subsequent reporting period, the Company will record any changes in the fair value of the liability related to the contingent considerations as a charge to earnings.

The following table presents the allocation of the acquisition cost, to the assets acquired and liabilities assumed, based on their fair values at the date of acquisition:

Inventory	\$ 14,764
Property, plant and equipment	66,047
Customer relationships	130,000
Vendor agreement	60,000
Goodwill	792,000
Total assets acquired	\$ 1,062,811

Costs related to this acquisition were approximately \$23,847 and are reflected in the Company's Condensed consolidated statements of operations.

HENRY BROS. ELECTRONICS, INC AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
STATEMENTS (UNAUDITED) – (continued)

13. Subsequent Event

On October 5, 2010, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Kratos Defense & Security Solutions, Inc., a Delaware corporation ("Parent"), and Hammer Acquisition Inc., a Delaware corporation and a wholly owned subsidiary of Parent ("Merger Sub"). The Merger Agreement provides that, upon the terms and subject to the conditions set forth in the Merger Agreement, Merger Sub will be merged with and into the Company, with the Company continuing as the surviving corporation and a wholly-owned subsidiary of Parent (the "Merger").

At the effective time of the Merger (the "Effective Time"), by virtue of the Merger and without any action on the part of the holders of any Shares, each outstanding Share (other than Shares owned by Parent, Merger Sub, or the Company's stockholders, if any, who have perfected statutory dissenters' rights under Delaware law) will be converted into the right to receive \$7.00 in cash, without interest. In addition, at the Effective Time all outstanding options to purchase the Company's common stock will be assumed by Parent and converted into options to purchase common stock of Parent (the "Assumed Options"). The number of shares of Parent common stock subject to each Assumed Option and the exercise price of each such option will be appropriately adjusted based on the exchange ratio, which shall be equal to 0.6552.

The completion of the Merger is subject to various customary conditions, including, among other things: (i) the adoption of the Merger Agreement by stockholders holding at least a majority of the outstanding common stock of the Company; (ii) subject to certain materiality exceptions, the accuracy of the representations and warranties made by each of Parent and the Company and the compliance by each of Parent and the Company with their respective obligations under the Merger Agreement and (iii) the absence of any pending or threatened legal proceedings challenging or seeking to restrain the consummation of the Merger. In addition, certain of the Company's shareholders and each member of the board of directors, who collectively held approximately 60% of the Company's issued and outstanding common stock as of October 5, 2010, have entered into voting agreements whereby they have agreed to vote all shares of the Company's common stock held by them in favor of the Merger, subject to termination of such agreements if the Merger Agreement is terminated.

The Merger Agreement contains customary representations, warranties and covenants, including covenants obligating the Company to continue to conduct its business and the business of its subsidiaries in the ordinary course, hold a meeting of its stockholders for the purpose of considering the approval and adoption of the Merger Agreement and to cooperate on seeking regulatory approvals and providing access to information regarding the Company and its subsidiaries. The Merger Agreement also contains a "go-shop" provision and a "no-shop" provision.

This transaction is a disposal of a business and until all conditions of the merger have been met, including shareholder's vote, the business should continue to be shown in the results from operations of the Company and not as assets held for disposal.

On November 3, 2010, a putative shareholder class action lawsuit was filed in the Superior Court of New Jersey, Bergen County, against the Company, its directors and Kratos Defense & Security Solutions, Inc. purportedly on behalf of holders of the Company's common stock. *Atoll Advisors v. James E. Henry, et al.*, alleges that the individual defendants breached their fiduciary duties owed to the Company's stockholders in an attempt to sell the Company to Hammer Acquisition Inc., a wholly-owned subsidiary of Kratos, and Kratos at an unfair price and

through an unfair and self serving process and by omitting material information in the preliminary proxy statement the Company filed with the Securities and Exchange Commission on October 25, 2010. The lawsuit further alleges that the Company and Kratos aided and abetted the Company's directors in their alleged breaches of fiduciary duty. The complaint seeks, among other relief, class certification, unspecified damages and plaintiff's costs, disbursements and reasonable attorneys' and experts' fees. The Company and the other defendants have not yet responded to the complaint. Based on the Company's review of the lawsuit, it believes that the claims are without merit and it intends to vigorously defend against them. Regardless of the merits or eventual outcome, the lawsuit may cause a diversion of the Company's management's time and attention and the expenditure of legal fees and expenses.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### OVERVIEW

Henry Bros. Electronics, Inc. is an established player in the electronic physical security industry, specializing in integrated security systems, and emergency preparedness.

HBE provides products and services to customers in the public and private sectors. Customers include transit authorities, seaports, airports, universities, office-buildings, hospitals and airlines. Each of the Company's segments markets its products and services nationwide with an emphasis in Arizona, California, Colorado, Maryland, New Jersey, New York, Texas and Virginia.

The company operates through two primary operating segments:

1. Security Systems Integration
2. Specialty Product and Services

The Security Systems Integration business operates under the name Henry Bros. Electronics, Inc. and its approach to client service is core to all of its businesses. At the beginning of each new client relationship, HBE designates one member of its professional staff as the client service contact. This individual is the point person for communications between the client and HBE and often acts as the client's project manager for all of its security needs, which ensures that clients receive the best possible security solution to meet its needs. The Company derives a majority of its revenues from project installations and to a smaller extent, maintenance service revenue.

The Specialty Products and Services segment includes three separate businesses:

1. Evacuation planning
2. Mobile digital recording
3. Airorlite Communications

The Evacuation Planning business operates under the Diversified Security Solutions, Inc. name and works with managers of high-rise office buildings to analyze their specific facilities' needs with emergency preparedness plans. This division provides demonstrations, training and recommendations to clients; develops emergency plans and procedures; and communicates building strategy to the tenants to increase building community unity, awareness and confidence.

The Mobile Digital Recording business operates under the name Viscom Products, Inc. and has developed an integrated standard solution for the deployment of mobile digital recorders on municipal buses and trains.

The Airorlite Communications business provides specialized communications product design, development and engineering related to RF transmission.

### Subsequent Event – Merger Agreement

On October 5, 2010, the Company entered into an Agreement and Plan of Merger (the "Merger Agreement") with Kratos Defense & Security Solutions, Inc., a Delaware corporation ("Parent"), and Hammer Acquisition Inc., a Delaware corporation and a wholly owned subsidiary of Parent ("Merger Sub"). The Merger Agreement provides that, upon the terms and subject to the conditions set forth in the Merger Agreement, Merger Sub will be merged with and into the Company, with the Company continuing as the surviving corporation and a wholly-owned subsidiary of Parent (the "Merger").

At the effective time of the Merger (the "Effective Time"), by virtue of the Merger and without any action on the part of the holders of any Shares, each outstanding Share (other than Shares owned by Parent, Merger Sub, or the Company's stockholders, if any, who have perfected statutory dissenters' rights under Delaware law) will be converted into the right to receive \$7.00 in cash, without interest. In addition, at the Effective Time all outstanding options to purchase the Company's common stock will be assumed by Parent and converted into options to purchase common stock of Parent (the "Assumed Options"). The number of shares of Parent common stock subject to each Assumed Option and the exercise price of each such option will be appropriately adjusted based on the exchange ratio, which shall be equal to 0.6552.

The completion of the Merger is subject to various customary conditions, including, among other things: (i) the adoption of the Merger Agreement by stockholders holding at least a majority of the outstanding common stock of the Company; (ii) subject to certain materiality exceptions, the accuracy of the representations and warranties made by each of Parent and the Company and the compliance by each of Parent and the Company with their respective obligations under the Merger Agreement and (iii) the absence of any pending or threatened legal proceedings challenging or seeking to restrain the consummation of the Merger. In addition, certain of the Company's shareholders and each member of the board of directors, who collectively held approximately 60% of the Company's issued and outstanding common stock as of October 5, 2010, have entered into voting agreements whereby they have agreed to vote all shares of the Company's common stock held by them in favor of the Merger, subject to termination of such agreements if the Merger Agreement is terminated.

The Merger Agreement contains customary representations, warranties and covenants, including covenants obligating the Company to continue to conduct its business and the business of its subsidiaries in the ordinary course, hold a meeting of its stockholders for the purpose of considering the approval and adoption of the Merger Agreement and to cooperate on seeking regulatory approvals and providing access to information regarding the Company and its subsidiaries. The Merger Agreement also contains a "go-shop" provision and a "no-shop" provision.

This transaction is a disposal of a business and until all conditions of the merger have been met, including shareholder's vote, the business should continue to be shown in the results from operations of the Company and not as assets held for disposal.

On November 3, 2010, a putative shareholder class action lawsuit was filed in the Superior Court of New Jersey, Bergen County, against the Company, its directors and Kratos Defense & Security Solutions, Inc. purportedly on behalf of holders of the Company's common stock. *Atoll Advisors v. James E. Henry, et al.*, alleges that the individual defendants breached their fiduciary duties owed to the Company's stockholders in an attempt to sell the Company to Hammer Acquisition Inc., a wholly-owned subsidiary of Kratos, and Kratos at an unfair price and through an unfair and self serving process and by omitting material information in the preliminary proxy statement the Company filed with the Securities and Exchange Commission on October 25, 2010. The lawsuit further alleges that the Company and Kratos aided and abetted the Company's directors in their alleged breaches of fiduciary duty. The complaint seeks, among other relief, class certification, unspecified damages and plaintiff's costs, disbursements and reasonable attorneys' and experts' fees. The Company and the other defendants have not yet responded to the complaint. Based on the Company's review of the lawsuit, it believes that the claims are without merit and it intends to vigorously defend against them. Regardless of the merits or eventual outcome, the lawsuit may cause a diversion of the Company's management's time and attention and the expenditure of legal fees and expenses.

## OUR VISION AND STRATEGY

Our vision is to maintain our leadership position in security technology. We intend to do this in part by:

- Providing advice on product selection and system design;
- Examining and thoroughly testing each security product as it would be set up for use in our customers' facilities; and,
- Using only systems and components that are reliable and efficient to use.

In addition to growing the business organically, we are opportunistically open to the possibility of pursuing the strategic acquisition of synergistic integrators and specialty products and service companies. To finance our acquisitions, we have used a combination of internally generated cash, the sale of Company common stock and bank debt. We currently have an \$8 million revolving credit facility, subject to certain borrowing base limitations, with TD Bank. Borrowings under the revolving credit facility were \$5,060,898 at September 30, 2010. It is our expectation and intent to use cash and to incur additional debt as appropriate to finance future working capital and acquisitions. Additionally, to fund future acquisitions we would consider the issuance of subordinated debt, the sale of equity securities, or the sale of existing Company assets.

## TRENDS

There are several factors impacting operating margins, including levels of competition for a particular project and the size of the project. As a significant amount of our costs are relatively fixed, such as labor costs, increases or decreases in revenues can have a significant impact on operating margins. The Company continually monitors costs and pursues various cost control measures and sales initiatives to improve operating margins.

In February 2008, the Company entered into a subcontractor agreement with Global Security & Engineering Solutions, a division of L-3 Services, Inc. (the "L-3 Contract") pursuant to which L-3 would issue task orders under its Indefinite Quantity Firm Fixed Price Contract with the U.S. Marine Corp Systems Command to deliver a Tactical Video Capture System ("TVCS"). TVCS is used for real-time visualization and situational awareness while Marine units are conducting military operations in urban terrain training exercises. The performance period of the contract is three years. In the first nine months of 2010, the revenue recognized under this contract represented \$4.1 million, compared to \$4.8 million in the first nine months of 2009. There were outstanding task orders included in our backlog of approximately \$6.1 million at September 30, 2010. During the third quarter, we completed one site under the L-3 Contract and are close to completion on the second. The additional four sites that were scheduled to begin before the year-end are coming online slower than anticipated, but are now in progress. As a result, we project our 2010 revenue to come in at range of \$68 million - \$70 million, down from the previously disclosed range of \$70 million-\$75 million, with the operating margin continuing to be between 5% and 6%.

Booked orders increased 57.2% to \$20,755,320 in the third quarter of 2010, as compared to \$13,199,733 in same quarter of 2009. Booked orders increased 69.7% to \$70,326,095 in the first nine months of 2010, as compared to \$41,441,455 in the first nine months of 2009.

The Company's backlog of \$51,410,584 at September 30, 2010 increased 116.4% from the September 30, 2009 backlog of \$23,753,469. The principal drivers of this increase were increased bookings in our New Jersey / New York, TVCS, California, Airorlite and Texas operations.

Three Months Ended September 30, 2010 compared to September 30, 2009

Three months ended September 30,

Edgar Filing: Henry Bros. Electronics, Inc. - Form 10-Q

	2010	2009	% change
Revenue	\$ 19,345,013	\$ 12,109,037	59.8%
Cost of revenue	13,608,160	9,086,980	49.8%
Gross profit	5,736,853	3,022,057	89.8%
Operating expenses:			
Selling, general & administrative expenses	3,947,944	3,452,480	14.4%
Merger and acquisition costs	539,846	-	
Operating profit (loss)	1,249,063	(430,423)	390.2%
Interest income	14,335	11,986	19.6%
Other income (expense)	(16)	13,481	-100.1%
Interest expense	(63,089)	(56,926)	10.8%
Income (loss) before income tax expense	1,200,293	(461,882)	359.9%
Income tax expense (benefit)	473,188	(104,500)	552.8%
Net income (loss)	\$ 727,105	\$ (357,382)	303.5%

Revenue - Revenue for the three months ended September 30, 2010 was \$19,345,013, representing an increase of \$7,235,976 or 59.8%, as compared to revenue of \$12,109,037 for the three months ended September 30, 2009. Our New Jersey/New York and California operations each experienced significant revenue increases in the third quarter of 2010 compared with the third quarter of 2009. Although the overall market continues to be very price competitive as a result of the slowly recovering U.S. economy, a significant amount of the New Jersey/New York increase in revenue in the third quarter of 2010 relates to revenue driven from the public sector transportation vertical market. The California integration operation benefited from a strong booking performance during the first half of 2010, which allowed us to enter the third quarter with an increased installation revenue backlog. In addition, revenues recognized under the L-3 Contract increased by \$1.3 million in the third quarter of 2010 compared to the same period in 2009. Currently, two sites are in progress and four additional sites are scheduled to begin in the fourth quarter of 2010 and the first quarter of 2011. Partially offsetting these increases were declines in our Colorado and Arizona operations.

Cost of Revenue and Gross Profit - Cost of revenue for the three months ended September 30, 2010 was \$13,608,160, as compared to \$9,086,980 for the three months ended September 30, 2009. Gross profit for the three months ended September 30, 2010 was \$5,736,853 as compared to gross profit of \$3,022,057 for the three months ended September 30, 2009. The gross profit margin for the three months ended September 30, 2010 was 29.7% as compared to 25.0% for the three months ended September 30, 2009. The increase in gross profit was directly related to the higher revenues discussed above. A significant driver of the gross profit as a percentage of revenue (“gross profit margin”) increase in the third quarter of 2010 compared to the third quarter of 2009 came from the restructuring of our California operations that began in 2009.

Selling, General and Administrative Expenses - Selling, general and administrative expense (“SG&A”) was \$3,947,944 —for the three months ended September 30, 2010 as compared to \$3,452,480 for the three months ended September 30, 2009. This increase of \$495,464 or 14.4% was mainly attributable to higher compensations costs resulting from higher commissions and performance incentive driven by the increased profitability of the Company.

Merger and Acquisition Costs -Included in merger and acquisition costs for the three months ended September 30, 2010 are \$515,999 of legal and professional fees related to the Merger discussed above (also see Note 13 of these Condensed Consolidated Financial Statements filed in this Quarterly Report), and \$23,847 of legal and professional fees related to the acquisition of Professional Security Technologies LLC (see Note 12 to the Condensed Consolidated Financial Statements included in this Quarterly Report).

Interest Income – Interest income for the three months ended September 30, 2010 was \$14,335 as compared to \$11,986 for the three months ended September 30, 2009. This increase was attributable to higher average cash balances during the three month period ended September 30, 2010 versus the same period in the prior year.

Interest Expense - Interest expense for the three months ended September 30, 2010 was \$63,089 as compared to \$56,926 for the three months ended September 30, 2009. The increase is due to the average outstanding revolving debt balance being \$1,491,031 higher in the three month period ended September 30, 2010 versus that in the three months ended September 30, 2009.

Tax Expense – The Company recognized income tax expense for the three months ended September 30, 2010 of \$473,188, based upon income before income taxes of \$1,200,293, compared with an income tax benefit of \$104,500 for the three months ended September 30, 2009, based upon a loss before income taxes of \$461,882. Income tax expense for interim reporting is based on an annual effective income tax rate forecast, which includes estimates and assumptions that could change during the year. The differences between the effective income tax rate and the U.S. federal statutory rate of 34% principally result from state and local taxes, and differences between the book and tax treatment of certain items, such as incentive stock options. The effective income tax rate for the three months ended September 30, 2010 was 39.4%, compared to a tax benefit at an effective income tax rate of 22.6% for the three

months ended September 30, 2009.

Net Income - As a result of the above noted factors our net income was \$727,105 for the three months ended September 30, 2010, compared to a net loss of \$357,382 for the three months ended September 30, 2009. This resulted in diluted income per share of \$0.12 on weighted average diluted common shares outstanding of 6,179,659 for the three months ended September 30, 2010, as compared to diluted loss per share of \$0.06 on weighted average diluted common shares outstanding of 5,877,798 for the three month period ended September 30, 2009.

Edgar Filing: Henry Bros. Electronics, Inc. - Form 10-Q

Nine Months Ended September 30, 2010 compared to September 30, 2009

	Nine months ended September 30,		% change
	2010	2009	
Revenue	\$ 46,937,305	\$ 41,389,229	13.4%
Cost of revenue	33,502,994	30,255,049	10.7%
Gross profit	13,434,311	11,134,180	20.7%
Operating expenses:			
Selling, general & administrative expenses	10,710,057	11,015,124	-2.8%
Merger and acquisition costs	539,846	-	
Operating profit (loss)	2,184,408	119,056	1734.8%
Interest income	70,668	21,023	236.1%
Other income (expense)	4,449	29,274	-84.8%
Interest expense	(174,874)	(222,333)	-21.3%
Income (loss) before income tax expense	2,084,651	(52,980)	4034.8%
Income tax expense (benefit)	906,355	83,027	991.6%
Net income (loss)	\$ 1,178,296	\$ (136,007)	966.3%

Revenue - Revenue for the nine months ended September 30, 2010 was \$46,937,305, representing an increase of \$5,548,076 or 13.4%, as compared to revenue of \$41,389,229 for the nine months ended September 30, 2009. While our New Jersey/New York, California, Texas and Airorlite operations each experienced significant revenue increases in the first nine months of 2010 compared with the first nine months of 2009, the overall market continues to be very price competitive as a result of the slowly recovering U.S. economy, which contributed to revenue declines in our Colorado, Arizona and Mid-Atlantic operations. The wind down of a large project in our Colorado operation in 2009 that did not repeat in 2010 was a significant contributor to the decline in that operation. The L-3 Contract generated \$0.7 million lower revenue in the first nine months of 2010 compared to the same period in 2009. Revenues under the L-3 Contract slowed in 2010 due to the government adopting the Unified Facilities Criteria (“UFC”) in the first quarter of 2010. The UFC called for enhancing existing installation drawing packages prior to construction approval. Currently, two sites are in progress and four additional sites are scheduled to begin in the fourth quarter of 2010 and the first quarter of 2011.

Cost of Revenue and Gross Profit - Cost of revenue for the nine months ended September 30, 2010 was \$33,502,994, as compared to \$30,255,049 for the nine months ended September 30, 2009. Gross profit for the nine months ended September 30, 2010 was \$13,434,311 as compared to gross profit of \$11,134,180 for the nine months ended September 30, 2009. The gross profit margin for the nine months ended September 30, 2010 was 28.6% as compared to 26.9% for the nine months ended September 30, 2009. The increase in gross profit was directly related to the higher revenues discussed above. A significant driver of the gross profit as a percentage of revenue (“gross profit margin”) increase in the third quarter of 2010 compared to the third quarter of 2009 came from the restructuring of our California operations that began in 2009, as well as from higher gross profit margins from our Airorlite operations.

Selling, General and Administrative Expenses - Selling, general and administrative expense was \$10,710,057 --for the nine months ended September 30, 2010 as compared to \$11,015,124 for the nine months ended September 30, 2009. This decrease of \$305,067 or 2.8% was mainly attributable to lower personnel costs, (partially offset by higher commissions and performance incentive costs driven by the increased profitability of the Company), lower facility and insurance costs and overall cost containment.

Merger and Acquisition Costs -Included in merger and acquisition costs for the nine months ended September 30, 2010 are \$515,999 of legal and professional fees related to the Merger discussed above (also see Note 13 of these Condensed Consolidated Financial Statements filed in this Quarterly Report), and \$23,847 of legal and professional

fees related to the acquisition of Professional Security Technologies LLC (see Note 12 to the Condensed Consolidated Financial Statements included in this Quarterly Report).

Interest Income – Interest income for the nine months ended September 30, 2010 was \$70,668 as compared to \$21,023 for the nine months ended September 30, 2009. This increase was attributable to interest earned on an income tax refund and higher average cash balances during the nine month period ended September 30, 2010 versus the same period in the prior year.

Interest Expense - Interest expense for the nine months ended September 30, 2010 was \$174,874 as compared to \$222,333 for the nine months ended September 30, 2009. The decrease is due to the average outstanding revolving debt balance being \$1,723,912 lower in the nine month period ended September 30, 2010 versus that in the nine months ended September 30, 2009.

Tax Expense – The Company recognized income tax expense for the nine months ended September 30, 2010 of \$906,355, based upon income before income taxes of \$2,084,651, compared with income tax expense of \$83,027 for the nine months ended September 30, 2009, based upon a loss before income taxes of \$52,980. Income tax expense for interim reporting is based on an annual effective income tax rate forecast, which includes estimates and assumptions that could change during the year. The differences between the effective income tax rate and the U.S. federal statutory rate of 34% principally result from state and local taxes, and differences between the book and tax treatment of certain items, such as incentive stock options. The effective income tax rate for the nine months ended September 30, 2010 was 43.5%.

Net Income - As a result of the above noted factors, our net income was \$1,178,296 for the nine months ended September 30, 2010, compared to a net loss of \$136,007 for the nine months ended September 30, 2009. This resulted in diluted income per share of \$0.19 on weighted average diluted common shares outstanding of 6,124,694 for the nine months ended September 30, 2010, as compared to diluted loss per share of \$0.02 on weighted average diluted common shares outstanding of 5,859,400 for the nine month period ended September 30, 2009.

### Liquidity and Capital Resources

As of September 30, 2010, we had cash and cash equivalents of \$1,973,337. Our net current assets were \$16,294,895 at September 30, 2010 versus \$13,748,867 at December 31, 2009. Total debt at September 30, 2010 was \$5,857,411 compared to the December 31, 2009 balance of \$5,367,069.

Cash used in operating activities was \$1,032,909 during the nine months ended September 30, 2010. This use of cash was principally driven from an increase in working capital requirements to support the higher revenue in the quarter. The most significant use of cash resulted from an increase in accounts receivable of \$6,109,603, a net increase in costs in excess of billings and estimated profits of \$1,832,707, as well as an increase in retainage receivable and inventory of \$588,036 and \$568,134, respectively. Partially offsetting these uses of cash was an increase in accounts payable and accrued expenses of \$3,378,417 and \$998,489, respectively.

Cash used in investing activities was \$204,346, comprised of \$86,035 for the purchase of property and equipment and \$118,311 of acquisition payments.

Cash provided by financing activities was \$293,546, which represents the net borrowing under the revolving line of credit with TD Bank of \$725,000, partially offset by repayment of other debt and payments of equipment financing.

Borrowings under the revolving credit facility were \$5,060,898 at September 30, 2010 and were \$4,335,898 at December 31, 2009. On October 6, 2008, the Company executed an amendment to its revolving credit agreement with TD Bank, increasing its line of credit from \$4 million to \$8 million. On August 10, 2010 the term of the revolving credit agreement was extended to September 30, 2012. As part of this extension, interest will continue be paid monthly in arrears at TD Bank's prime rate, however, interest will now be subject to a minimum floor rate of 4.0%. The Company is required to maintain certain financial and reporting covenants and restrictions on dividend payments under the terms of the Loan Agreement with TB Bank, N.A. (See Note 6 to the Condensed Consolidated Financial Statements included in this Quarterly Report.)

### Critical Accounting Policies and Estimates

Disclosure of the Company's significant accounting policies is included in Note 1 to the consolidated financial statements of the Company's Annual Report on Form 10-K for year ended December 31, 2009. Some of these policies require management to make estimates and assumptions that may affect the reported amounts in the Company's

financial statements.

#### Forward Looking Statements

When used in this discussion, the words "believes", "anticipates", "contemplated", "expects", or similar expressions are intended to identify forward looking statements. Such statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. Those risks and uncertainties include changes in interest rates, the ability to control costs and expenses, significant variations in recognized revenue due to customer caused delays in installations, cancellations of contracts by our customers, and general economic conditions which could cause actual results to differ materially from historical earnings and those presently anticipated or projected. The Company undertakes no obligation to publicly release the results of any revisions to those forward looking statements that may be made to reflect events or circumstances after this date or to reflect the occurrence of unanticipated events.

---

### Item 3. Quantitative and Qualitative Disclosures about Market Risk

We have one revolving credit facility for which the interest rate on outstanding borrowings is variable and is based upon the prime rate of interest, subject to a minimum floor rate of 4.0%. At September 30, 2010, there was \$5,060,898 outstanding under this credit facility.

Our business is impacted by the health of the U.S economy. Current economic conditions have caused a decline in business spending which has adversely affected our business and financial performance and our operating results. Accordingly, our business and financial performance has been adversely affected by current economic conditions, and any future deterioration of economic conditions, could cause a further reduction in the availability of credit in the capital markets to our customers.

### Item 4. Controls and Procedures

#### (a) Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer, Chief Operating Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of September 30, 2010. Based on such evaluation, such officers have concluded that, as of September 30, 2010, the Company's disclosure controls and procedures are effective.

#### (b) Changes in Internal Control Over Financial Reporting

During the three months ended September 30, 2010, management did not identify any changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

## Part II - Other Information

### Item 1. Legal Proceedings

We know of no material litigation or proceeding, pending or threatened, to which we are or may become a party.

### Item 6. Exhibits
