NOTES TO PRO FORMA CONDENSED FINANCIAL STATEMENTS

(Unaudited)

- A. The pro forma condensed balance sheet has been prepared assuming the transaction was consummated on September 30, 2004. The pro forma condensed statement of income has been prepared assuming the transaction was consummated at the beginning of the period.
- B. The following pro forma adjustments have been applied to give effect to the transaction previously described in the Form 8-K and Form 8-K/A dated October 20, 2004 and October 21, 2004, respectively.

Balance Sheet:

- (1) Payment of \$421,000 in dividends by BankTrust of Florida to its parent, BancTrust Financial Group, Inc., representing amount of equity exceeding \$6,000,000 at date of closing per sale agreement.
- (2) Payment of \$7,500,000 in cash representing 100% of the total consideration in exchange for 100% of the equity of BankTrust of Florida.
- (3) Elimination of Investment in BankTrust and allocation of purchase price as follows:

The excess of purchase price over the fair value of net assets acquired amounting to \$1,500,000 has been allocated to intangibles and goodwill. Upon consummation of this transaction, portions of the excess of the purchase price over the fair value of net assets acquired may be allocated to specific assets based on the fair value of these assets on the day of acquisition.

Statement of Income:

- (4) Loss of interest on cash and due from banks used to fund the acquisition using an average rate of 1.00%.
 - (5) Tax effect of pro forma adjustment for reduction in interest income using a tax rate of 34%. No tax effect has been recorded for amortization of goodwill because the Company is acquiring the stock of BankTrust and will not be allowed any tax benefit for the amortization of intangibles.
- C. Based on the assumption that the excess purchase price over the fair value of the net assets acquired will be allocated entirely to goodwill which cannot be amortized, there will be no decrease in net income for each of the next five years unless it is determined that there has been an impairment of goodwill which will result in a decrease in net income.

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

NOTE 1. METHOD OF PRESENTATION

The accompanying unaudited financial statements, which are for interim periods, do not include all disclosures provided in the annual financial statements. These financial statements and the notes thereto should be read in conjunction with the annual financial statements and the notes thereto for the year ended December 31, 2003 included elsewhere in this Form 8-K.

In the opinion of the Bank, the accompanying unaudited financial statements contain all adjustments (which are of a normal recurring nature) necessary for a fair presentation of the financial statements. The results of operations for the nine months ended September 30, 2004 are not necessarily indicative of the results to be expected for the full year.

NOTE 2. PENDING MERGER

The parent company of the Bank has entered into a definitive merger agreement with Vision Bancshares, Inc., a multi-bank holding company with headquarters in Gulf Shores, Alabama, whereby Vision Bancshares, Inc. would acquire all of the outstanding common stock of the Bank in exchange for cash. The merger is subject to approval by certain regulatory authorities.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors

BankTrust of Florida (Formerly Wewahitchka State Bank)

Wewahitchka, Florida

We have audited the accompanying statements of financial condition of **BankTrust of Florida** for the periods ended December 31, 2003 and 2002, and the related statements of income, comprehensive income, stockholder's equity and cash flows for the periods then ended. These financial statements are the responsibility of the Bank's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of BankTrust of Florida as of December 31, 2003 and 2002, and the results of its operations and its cash flows for the year ended December 31, 2003 and the period from April 16, 2002 to December 31, 2002 (approximately nine months), in conformity with United States generally accepted accounting principles.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1. NATURE OF BUSINESS

BankTrust of Florida (the Bank) is a state bank chartered by the State of Florida's Office of Financial Regulation that serves as a depository of funds and as a lender of credit for homes and other goods and services through three branches in Gulf County, Florida. The Bank is a wholly-owned subsidiary of BancTrust Financial Group, Inc. (BancTrust).

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of the Bank follow United States generally accepted accounting principles. The following is a summary of the more significant accounting policies:

Use of Estimates

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The determination of the adequacy of the allowance for loan losses is based on estimates that are particularly susceptible to significant changes in the economic environment and market conditions. In connection with the determination of the estimated losses on loans, management obtains independent appraisals for significant collateral.

The Bank's loans are generally secured by specific items of collateral including real property, consumer assets and business assets. Although the Bank has a diversified loan portfolio, a substantial portion of its debtors' ability to honor their contracts is dependent on local economic conditions.

While management uses available information to recognize losses on loans, further reductions in the carrying amounts of loans may be necessary based on changes in local economic conditions. In addition, regulatory agencies, as an integral part of their examination process, periodically review the estimated losses on loans. Such agencies may require the Bank to recognize additional losses based on their judgments about information available to them at the time of their examination. Because of these factors, it is reasonably possible that the estimated losses on loans may change materially in the near term. However, the amount of the change that is reasonably possible cannot be estimated.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Securities

Debt securities are classified as held to maturity when the Bank has the positive intent and ability to hold the securities to maturity. Securities held to maturity are carried at amortized cost. The amortization of premiums and accretion of discounts are recognized in interest income using methods approximating the interest method over the period to maturity.

Debt securities not classified as held to maturity are classified as available for sale. The Bank has classified all debt securities as available for sale. Securities available for sale are carried at fair value with unrealized gains and losses reported in other comprehensive income. Realized gains (losses) on securities available for sale are included in income (expense) and, if applicable, are reported as a reclassification adjustment, net of tax, in other comprehensive income. Gains and losses on sales of securities are determined on the specific identification method.

Declines in the fair value of individual securities below their cost that are other than temporary result in write-downs of the individual securities to their fair value. The related write-downs are included in earnings as realized losses.

Loans

Loans are reported at their outstanding principal balances less the allowance for loan losses. Interest income is accrued on the outstanding principal balance.

Loan origination fees are recognized at the time the loan is placed on the books. Because these fees are not significant and the majority of loans have a maturity of one year or less, the results of operations are not materially different than the results that would be obtained by accounting for loan fees and cost in accordance with accounting principles generally accepted in the United States of America.

The accrual of interest on loans is discontinued when, in management's opinion, the borrower may be unable to meet payments as they become due, unless the loan is well-secured. All interest accrued but not collected for loans that are placed on nonaccrual or charged off is reversed against interest income, unless management believes that the accrued interest is recoverable through the liquidation of collateral. Interest income on nonaccrual loans is recognized on the cash-basis or cost-recovery method, until the loans are returned to accrual status. Loans are returned to accrual status when all the principal and interest amounts are brought current and future payments are reasonably assured.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Loans (Continued)

A loan is considered impaired when it is probable, based on current information and events, the Company will be unable to collect all principal and interest payments due in accordance with the contractual terms of the loan agreement. Impaired loans are measured by either the present value of expected future cash flows discounted at the loan's effective interest rate, the loan's obtainable market price, or the fair value of the collateral if the loan is collateral dependent. The amount of impairment, if any, and any subsequent changes are included in the allowance for loan losses. Interest on accruing impaired loans is recognized as long as such loans do not meet the criteria for nonaccrual status.

Allowance for Loan Losses

The allowance for loan losses is maintained at a level which, in management's judgment, is adequate to absorb credit losses inherent in the loan portfolio. The amount of the allowance is based on management's evaluation of the collectibility of the loan portfolio, including the nature of the portfolio, credit concentrations, trends in historical loss experience, specific impaired loans, economic conditions and other risks inherent in the portfolio. Allowances for impaired loans are generally determined based on collateral values or the present value of estimated cash flows. Although management uses available information to recognize losses on loans, because of uncertainties associated with local economic conditions, collateral values and future cash flows on impaired loans, it is reasonably possible that changes can occur in the allowance for loan losses. However, the amount of the change that is reasonably possible cannot be estimated. The allowance is increased by a provision for loan losses, which is charged to expense and reduced by charge-offs, net of recoveries. Changes in the allowance relating to impaired loans are charged or credited to the provision for loan losses.

Premises and Equipment

Land is carried at cost. Other premises and equipment are carried at cost net of accumulated depreciation. Depreciation is computed using the straight-line method based principally on the estimated useful lives of the assets ranging from three to forty years. Maintenance and repairs are expensed as incurred, while major additions and improvements are capitalized. Gains and losses on dispositions are included in current operations.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Foreclosed Assets and Other Real Estate

Collateral acquired through foreclosure or in settlement of loans are reported with other assets in the balance sheet. These assets are recorded at estimated fair value, less estimated selling costs, if this value is lower than the carrying value of the related loan or property asset. The initial reduction in the carrying amount of a loan to the fair value of the collateral received is charged to the reserve for possible loan losses. Subsequent valuation adjustments for foreclosed assets or surplus property are also included in current earnings, as are the revenues and expenses associated with managing these assets prior to sale.

Other real estate comprises properties acquired through a foreclosure proceeding or acceptance of a deed in lieu of foreclosure. These properties are initially carried at the lower of cost or fair market value based on appraised value at the date acquired. Loan losses arising from the acquisition of such properties are charged against the allowance for loan losses. Costs of improvements are capitalized, whereas costs relating to holding other real estate owned and subsequent adjustments to the value are expensed.

The carrying amount of other real estate owned at December 31, 2003 and 2002 was \$435,081 and \$514,800, respectively.

Income Taxes

Income taxes are provided for the tax effects of the transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to net operating loss carryforwards and differences between the basis of the allowance for loan losses, intangibles, securities and accumulated depreciation. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred tax assets and liabilities are reflected at income tax rates applicable to the period in which the deferred tax assets or liabilities are expected to be realized or settled. As changes in tax laws or rates are enacted, deferred tax assets and liabilities are adjusted through the provision for income taxes.

Earnings per Share

Basic and diluted earnings per common share are computed by dividing income available to stockholders by the weighted average number of common shares outstanding during the period. There were no common stock equivalents outstanding at December 31, 2003 and 2002.

Statements of Cash Flows

The Bank considers all cash and amounts due from depository institutions, interest-bearing deposits in other banks and federal funds sold to be cash equivalents for purposes of the statement of cash flows.

Due from Banks

The Bank maintains cash balances with several other financial institutions. Accounts at each institution are insured by the Federal Deposit Insurance Corporation up to \$100 thousand.

Intangible Assets

Goodwill is not amortized but is tested for impairment annually. Measurement of any impairment of such assets is based on the asset's fair value, with the resulting charge recorded as a loss. No impairment of goodwill was recorded during 2003 or 2002. Core deposit intangible assets are amortized over seven years using the straight-line method.

Recently Issued Accounting Standards

In November 2002, the FASB issued Interpretation No. 45, Guarantors' Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Other, an interpretation of FASB Statement No. 5, 57 and 107 and a rescission of FASB Interpretation No. 34. The interpretation elaborates on the disclosures to be made by a guarantor in its interim and annual financial statement about its

Edgar Filing: VISION BANCSHARES INC - Form 8-K/A

obligations under guarantees issued. It also clarifies that a guarantor is required to recognize, at inception of a guarantee, a liability for the fair value of the obligation undertaken in issuing a guarantee. The initial recognition and initial measurement provisions of the interpretation are applicable to guarantees issued or modified after December 31, 2002. The disclosure requirements in the interpretation are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of the interpretation did not have a material effect on the Bank's financial condition or results of operations.

Table of Contents**BANKTRUST OF FLORIDA****(Formerly Wewahitchka State Bank)****NOTES TO THE FINANCIAL STATEMENTS****NOTE 3. BUSINESS COMBINATION AND NEW BASIS OF ACCOUNTING**

On April 16, 2002, Gulf Coast Community Bancshares, Inc., the parent company of the Bank, was acquired by BancTrust. BancTrust acquired 100% of the outstanding stock, which was all voting stock, of the Bank. The acquisition was accounted for under the purchased method of accounting. Consequently, a new basis of accounting was established for the Bank as a result of recording the Bank's assets and liabilities at their fair value. After recording tangible assets at their fair value, the Bank recorded goodwill of \$1,799,000, none of which is deductible for income tax purposes, and a core deposit intangible asset of \$88,000 which is being amortized over the expected life of the asset.

Since a new basis of accounting was established upon acquisition by BancTrust, the Bank's financial statements for 2002 include only the results of operations for the period from April 16, 2002 to December 31, 2002, a period of approximately nine months.

In 2003, the FASB Emerging Issues Task Force released Issue 03-01, *The Meaning of Other-Than-Temporary Impairment and Its Application to Certain Investments*. The issue requires disclosure of certain information about other than temporary impairments in the market value of investment securities. The market value of investment securities is based on quoted market value and is significantly affected by the interest rate environment. All investment securities with an unrealized loss at December 31, 2003 have been in a continuous unrealized loss position for less than twelve months. These unrealized losses are considered temporary because of acceptable investment grades on each security and the repayment sources of principal and interest are government backed.

Securities with a carrying value of \$3,233 thousand were pledged at December 31, 2003 and securities with a carrying value of \$3,782 thousand were pledged at December 31, 2002 to secure public deposits and for other purposes required or permitted by law.

Table of Contents**BANKTRUST OF FLORIDA****(Formerly Wewahitchka State Bank)****NOTES TO THE FINANCIAL STATEMENTS****NOTE 11. REGULATORY CAPITAL**

The Bank is subject to various regulatory capital requirements administered by the state and federal banking agencies. Failure to meet minimum capital requirements can initiate certain mandatory, and possible additional discretionary, actions by regulators that, if taken, could have a direct material effect on the financial statements. Under capital adequacy guidelines and the regulatory framework for prompt corrective action, the Bank must meet specific capital guidelines that involve quantitative measures of the Bank's assets, liabilities and certain off-balance-sheet items as calculated under regulatory accounting practices. The Bank's capital amounts and classification are also subject to qualitative judgments by the regulators about components, risk weightings and other factors.

Quantitative measures established by regulation to ensure capital adequacy require the Bank to maintain minimum amounts and ratios (set forth in the table below) of total and Tier 1 capital (as defined in the regulations) to risk-weighted assets (as defined) and of Tier 1 capital (as defined) to average assets (as defined). Management believes, as of December 31, 2003 and 2002, that the Bank met all capital adequacy requirements to which it is subject.

As of December 31, 2003, the most recent notification from the Federal Deposit Insurance Corporation categorized the Bank as well capitalized under the regulatory framework for prompt corrective action. To be categorized as well capitalized, the Bank must maintain minimum total risk-based, Tier 1 risk-based and Tier 1 leverage ratios as set forth in the following table. There are no conditions or events since that notification that management believes have changed the Bank's categories.

Table of Contents**BANKTRUST OF FLORIDA****(Formerly Wewahitchka State Bank)****NOTES TO THE FINANCIAL STATEMENTS****NOTE 12. EMPLOYEE BENEFITS PLANS**

The Bank participates in an employee savings and profit sharing plan, sponsored by BancTrust, under Section 401(k) of the Internal Revenue Code that covers substantially all fulltime employees. Subject to certain employment and vesting requirements, all BancTrust personnel are permitted to participate in the plan. An eligible employee may defer up to 10% of his or her pay into the plan. The employer makes a matching contribution as follows: \$1.00 for every \$1.00 on the first 2%, \$0.75 per \$1.00 on the next 2% and \$0.50 per \$1.00 on the next 2%. BancTrust may also, at its discretion, contribute to the plan an amount based on BancTrust's level of profitability each year. The Bank made total contributions of \$51 thousand and \$20 thousand during 2003 and 2002, respectively.

Bank employees are also covered by a pension plan sponsored by BancTrust. The pension plan maintained by BancTrust generally provides for a monthly benefit commencing at age 65 equal to 1% of the employees average monthly base compensation during the highest five consecutive calendar years out of the 10 calendar years preceding retirement, multiplied by years of credited service, not to exceed 40 years. The Bank made total contributions of \$27 thousand to this plan during 2003. There were not contributions made to this plan by the Bank during 2002.

NOTE 13. OFF-BALANCE-SHEET FINANCIAL INSTRUMENTS

In the normal course of business, the Bank has outstanding commitments and contingent liabilities, such as commitments to extend credit and standby letters of credit, which are not included in the accompanying financial statements. They involve, to varying degrees, elements of credit risk and an interest rate risk in excess of the amount recognized in the balance sheets. The majority of all commitments to extend credit and standby letters of credit are variable rate instruments.

The Bank's exposure to credit loss in the event of nonperformance by the other party to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contractual or notional amount of those instruments. The Bank uses the same credit policies in making such commitments as it does for instruments that are included in the balance sheet. A summary of the Bank's commitments is as follows:

	December 31,	
	2003	2002
Commitments to extend credit	\$ 4,350,000	\$ 515,000
Financial standby letters of credit	128,000	33,000
	\$ 4,478,000	\$ 548,000

NOTE 13. OFF-BALANCE-SHEET FINANCIAL INSTRUMENTS (Continued)

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration date or other termination clauses and may require payment of a fee. Since some commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank upon extension of credit, is based on management's credit evaluation. Collateral held varies but may include accounts receivable, inventory, property and equipment and income-producing commercial properties.

Standby letters of credit are conditional commitments issued by the Bank to guarantee the performance of a customer to a third party. Standby letters of credit generally have fixed expiration dates or other termination clauses and may require payment of a fee. The credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank's policy for obtaining collateral, and the nature of such collateral, is essentially the same as that involved in making commitments to extend credit.

At December 31, 2003, the carrying amount of liabilities related to the Bank's obligation to perform under financial standby letter of credits was insignificant. The Bank has not been required to perform on any financial standby letter of credit, and the Bank has not incurred any losses on financial standby letters of credit for the year ended December 31, 2003.

NOTE 14. FAIR VALUE OF FINANCIAL INSTRUMENTS

SFAS No. 107, *Disclosure About Fair Value of Financial Instruments*, requires disclosure of fair value information about financial instruments, whether or not recognized in the statement of condition, for which it is practicable to estimate that value. In cases where quoted market prices are not available, fair values are based on estimates using present value or other valuation techniques. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. In that regard, the derived fair value estimates cannot be substantiated by comparison to independent markets and, in many cases, could not be realized in immediate settlement of the instrument. The use of different market assumptions and/or estimation methodologies may have a material effect on the estimated fair value amounts. Also, the fair value estimates presented herein are based on pertinent information available to Management as of December 31, 2003 and 2002. Such amounts have not been comprehensively revalued for purposes of these financial statements since those dates and, therefore, current estimates of fair value may differ significantly for the amounts presented.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 14. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The following methods and assumptions were used by the Bank in estimating its fair values disclosures for financial instruments:

Securities Available for Sale Fair value for securities available for sale are primarily based on quoted market prices. If a quoted market price is not available, fair value is estimated using market prices for similar securities.

Loans For equity lines and other loans with short-term or variable rate characteristics, the carrying value reduced by an estimate for credit losses inherent in the portfolio is a reasonable estimate of fair value. The fair value of all other loans is estimated by discounting their future cash flows using interest rates currently being offered for loans with similar terms, reduced by an estimate of credit losses inherent in the portfolio. The discount rates used are commensurate with the interest rate and prepayment risks involved for the various types of loans.

Deposits The fair value disclosed for demand deposits (i.e., interest and non-interest bearing demand, savings and money market savings) is, as required by SFAS 107, equal to the amounts payable on demand at the reporting date (i.e. their carrying amounts). Fair values for certificates of deposits are estimated using a discounted cash flow calculation that applies interest rates currently being offered on certificates of deposits to a schedule of aggregated monthly maturities.

Commitments to Extend Credit and Standby Letters of Credit The value of these unrecognized financial instruments is estimated based on the fee income associated with the commitments which, in the absence of credit exposure, is considered to approximate their settlement value. As no significant credit exposure exists and because such fee income is not material to the Bank's financial statements at December 31, 2003 and 2002, the fair value of these commitments is not presented.

Table of Contents**BANKTRUST OF FLORIDA****(Formerly Wewahitchka State Bank)****NOTES TO THE FINANCIAL STATEMENTS****NOTE 14. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)**

Many of the Bank's assets and liabilities are short-term financial instruments whose carrying amounts reported in the statement of condition approximate fair value. These items include cash and due from banks, interest-bearing bank balances, federal funds sold and accrued interest receivable and payable balances. The carrying amount and estimated fair values of the Bank's financial instruments are as follows:

	December 31,			
	2003		2002

Financial liabilities:				
Deposits	\$ 37,452,812	\$ 38,579,806	\$ 37,959,143	\$ 38,180,144
Accrued interest payable	25,010	25,010	32,571	32,571
	\$ 37,477,822	\$ 38,604,816	\$ 37,991,714	\$ 38,212,715

SFAS No. 107 excludes certain financial instruments and all non-financial instruments from its disclosure requirements. The disclosures also do not include certain intangible assets such as deposit base intangibles and goodwill. Accordingly, the aggregate fair value amounts presented do not represent the underlying value of the Bank.

NOTE 16. SUBSEQUENT EVENTS

On October 15, 2004, Vision Bancshares, Inc. (the Company), a bank holding company headquartered in Gulf Shores, Alabama, acquired all the voting stock of the Bank and changed the Bank's name to Vision Bank. This acquisition has been accounted for under the purchase method of accounting. As a result of the purchase, the Bank recorded additional goodwill of \$980 thousand and an additional core deposit intangible asset of \$520 thousand. Subsequent to the acquisition, the Company merged Vision Bank, FSB, its wholly owned federal savings bank, located in Panama City, Florida with and into Vision Bank (Florida). The Bank will continue to operate as a state banking corporation organized under the laws of the State of Florida.
