Stockholders of record will receive a notice with instructions on how to access those documents over the internet and request a paper copy of our proxy materials, including this proxy statement, our 2013 Annual Report and a form of proxy card for voting. Stockholders whose shares are held in a brokerage account will receive this information and voting instructions from their broker.

Whether or not you plan to attend the Annual Meeting, it is important that you vote by promptly completing, dating, signing and returning your proxy card by mail or following the voting instructions provided by your broker. Stock into which each share of Series A Preferred Stock is currently convertible) and the holders of Common Stock and the Series A Preferred Stock vote together as a single class on all matters to be presented at the Annual Meeting, other than the Election of Preferred Director, as described below. Accordingly, holders of Common Stock and Series A Preferred Stock may cast an aggregate of 9,271,714 votes at the Annual Meeting. The holders of a majority of these 9,271,714 voting rights represented by shares of Common Stock and Series A Preferred Stock present in person or by proxy and entitled to vote, will constitute a quorum at the Annual Meeting.

PROPOSAL NO. 1

ELECTION OF DIRECTORS

The Company currently has seven directors, one of whom is elected solely by the holder of our Series A Preferred Stock. Director Arthur G. Dauber will retire at the conclusion of the Annual Meeting and will not be replaced at the Annual Meeting. Accordingly, five directors will be elected by the stockholders as of the Record Date at the Annual Meeting to hold office until the 2015 annual meeting and until their successors are elected and have qualified. Unless otherwise instructed, the proxy holders named in the enclosed proxy will vote the proxies received by them for the five nominees of the Board of Directors named below.

Each nominee of the Board of Directors has indicated that he is willing and able to serve as director if elected. If any nominee of the Board of Directors becomes unavailable for any reason before the election, proxies will be voted for the election of such substitute nominee or nominees, if any, as shall be designated by the Corporate Governance and Nominating Committee of the Board of Directors. The Corporate Governance and Nominating Committee has no reason to believe that any of the nominees will be unavailable to serve.

Vote Required

The five nominees who receive the highest number of affirmative votes of the shares present in person or represented by proxy and entitled to vote, a quorum being present, shall be elected as directors. Only votes cast FOR a nominee will be counted, except that the accompanying proxy will be voted FOR all nominees in the absence of instructions to the contrary. Broker non-votes and proxies marked withheld as to one or more nominees will have no effect on the election since only votes FOR a nominee are counted in order to determine the five nominees with the highest number of votes.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE ELECTION OF EACH OF THE NOMINEES NAMED BELOW.

Nominees of the Board of Directors

The following five nominees have been recommended for election by the Corporate Governance and Nominating Committee and are the nominees of the Board of Directors. Certain information about the nominees, including their experience, qualifications, attributes or skills that led the Corporate Governance and Nominating Committee and the Board to conclude that the nominees should continue to serve as directors of the Company is set forth below. All of the nominees are currently members of the Board of Directors and were elected by the stockholders at the 2013 Annual Meeting other than Edward L. Election of Preferred Director

On May 2, 2012 the Company completed a private placement of Series A Preferred Stock and Common Stock Purchase Warrants to JCH Crenshaw Holdings, LLC pursuant to a Securities Purchase Agreement dated April 13, 2012. Pursuant to such agreement, the Company agreed to increase the Board by one director and the holders of the Series A Preferred Stock, voting as a separate class, are entitled to elect one director (the Preferred Director). As required by the agreement, the Board appointed Casey Crenshaw as the Preferred Director as of May 2, 2012 and he was elected as the Preferred Director by the holder of the Series A Preferred Stock as of the date of the 2013 Annual Meeting. The holder of the Series A Preferred Stock has advised the Company that Casey Crenshaw will be elected by written consent as the Preferred Director for a term commencing on the date of the 2014 Annual Meeting and continuing until the next annual meeting of stockholders and until his successor has been duly elected and qualified. **Proxies for the Preferred Director are not being solicited.**

Casey Crenshaw, age 39, is currently serving as President and as a member of the Board of Directors of The Modern Group, Ltd, a privately owned diversified manufacturing, parts and distribution, rental/leasing and finance business. Mr. Crenshaw has held various positions with The Modern Group since 1997, including over 10 years as CFO. Mr. Crenshaw holds a BA in Finance from Texas A&M University. The Board believes that Mr. Crenshaw brings to the Board leadership perspective on the operation, management and financing of a successful diversified manufacturing and service company.

Director Independence

The Board of Directors discussed and reviewed whether each nominee is independent within the Company's corporate governance guidelines which are consistent with the director independence standards established by the NASDAQ Stock Market. In determining independence, the Board reviews and seeks to determine whether directors have any material relationship with the Company, direct or indirect, which would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board reviews business, professional, charitable and familial relationships of the independent directors in determining independence. The Board determined that Peter Menikoff, Edward L. Kuntz, J. Hoke Peacock II, Casey Crenshaw and Neal M. Dikeman are independent. In determining the independence of Mr. Peacock, the Board considered that M&I utilized Mr. Peacock's law firm for matters which generated \$89,000 in fees and expenses to such firm in 2013. Such arrangement does not reflect on Mr. Peacock's independence under NASDAQ Stock Market listing standards.

Pertinent expertise, experience and achievement in education, career and community

Audit Committee's Pre-Approval Policies

The Audit Committee's policy is to pre-approve all audit services and all permitted non-audit services (including the fees and terms thereof) to be provided by the Company's independent registered public accounting firm; provided, however, pre-approval requirements for non-audit services are not required if all such services (1) do not aggregate to more than five percent of total revenues paid by the Company to its independent registered public accounting firm in the fiscal year when services are provided; (2) were not recognized as non-audit services at the time of the engagement; and (3) are promptly brought to the attention of the Audit Committee and approved prior to the completion of the audit by the Audit Committee.

The Audit Committee pre-approved all of the fees described above.

The Audit Committee has considered whether the provision of the above services other than audit services is compatible with maintaining auditor independence.

Vote Required

The affirmative vote of a majority of the shares of voting stock present at the Annual Meeting and voting on the proposal is required to ratify the selection of the Company's independent registered public accounting firm for 2014. Abstentions and broker non-votes have no effect on the vote on the proposal.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR PROPOSAL NO. 2, THE RATIFICATION OF THE SELECTION OF THE COMPANY'S INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2014.

PROPOSAL NO. 3

TO APPROVE AN INCREASE IN THE NUMBER OF SHARES AVAILABLE FOR ISSUANCE UNDER THE 2007 EMPLOYEE STOCK INCENTIVE PLAN

General

The Board of Directors is seeking approval of an amendment to the 2007 Employee Stock Incentive Plan (the Plan) to authorize an additional 600,000 shares of common stock for issuance under the Plan.

The Board of Directors believes that the Plan has proven to be an important long-term incentive that is critical to enable the Company to attract and retain qualified personnel and will encourage participants to focus on the long-term growth of stockholder value as well as promoting a closer identity of interest between participants and stockholders of the Company. For further information, see the Executive Compensation discussion contained in this Proxy Statement.

As of March 17, 2014 there were outstanding awards issued under the Plan covering 323,138 shares of common stock and 217,628 shares were available for future awards under the Plan, including shares which have become available as a result of termination of prior awards under the Plan. Upon approval of the amendment to the Plan an additional 600,000 shares will be available for awards under the Plan.

If the stockholders do not approve the amendment the Plan will be limited to the current 1,100,000 shares authorized and the Company will not be able to make the additional 600,000 shares available for issuance under the Plan.

The Plan, as originally approved by the stockholders on November 7, 2007, authorized the issuance of up to 300,000 shares. The stockholders approved an additional 500,000 for issuance under the Plan at the 2010 Annual Meeting and an additional 300,000 shares were approved for issuance under the Plan at the 2012 Annual Meeting.

Description of the 2007 Employee Stock Incentive Plan

The following is a description of the material features of the 2007 Employee Stock Incentive Plan, as amended.

Eligibility

Awards under the Plan may be granted to employees (including employees who may be directors and officers), independent contractors and consultants of the Company and its subsidiaries. Approximately 75% of our employees are eligible to participate in the Plan.

Shares Subject to the Plan

The Plan currently authorizes the issuance of up to 1,100,000 shares of the Company's common stock and will increase to 1,700,000 shares upon approval of the amendment at the Annual Meeting. In the event of certain changes in the Company's common stock such as recapitalization, reclassification, stock split, combination or exchange of shares, stock dividends or the like, appropriate adjustment will be made in the number and kind of shares available for issuance under the Plan and the purchase price, if any, per share. The closing price of our common stock on the NASDAQ Stock Market on March 4, 2014 was \$7.46 per share.

Administration

The Plan is administered by the Compensation Committee (the Committee) of the Board of Directors of the Company. The Committee has the full and exclusive power to construe, interpret and administer the Plan,

including, but not limited to, the authority to designate which eligible participants are to be granted awards and to determine the type of award and the number of shares to be subject thereto and the terms and conditions thereof, consistent with the terms of the Plan. The Committee is also authorized to adopt, amend and revoke rules relating to the administration of the Plan.

Awards Under the Plan

The Plan provides that the Committee may grant or issue stock options, stock appreciation rights, restricted stock, restricted units, performance shares, performance units and stock-based awards pursuant to a written agreement and may contain such terms as the Committee determines. Subject to the provisions of the Plan, the Committee has the sole and complete authority to determine the eligible employees, consultants and advisors for each award. All awards shall be subject to such terms, conditions and restrictions determined by the Compensation Committee and included in the award agreement. Such terms, conditions and restrictions may include provisions related to vesting of awards, and the effect of a participant's termination of employment and change of control of the Company on outstanding awards under the Plan. No participant may receive a grant covering more than 200,000 shares in any year.

Share Counting Rules

When the Committee grants an award under the Plan, the full number of shares subject to the award is charged against the number of shares that remain available for delivery pursuant to awards. After grant, the number of shares subject to any portion of an award that is canceled or that expires without having been settled in shares, or that is settled through the delivery of consideration other than shares, will be available for new awards. If shares are tendered or withheld to pay the exercise price of an award or to satisfy a tax withholding obligation, those tendered or withheld shares will be available for new awards.

Stock Options

Stock Options provide for the right to purchase shares of Company common stock at a specified price as determined by the Committee, provided that the exercise price per share of common stock option may not be less than 100% of the fair market value of a share as of the date the option is granted. Stock options granted under the Plan may be incentive stock options (ISOs) that are designed to comply with the provisions of Section 422 of the Internal Revenue Code (the Code) and will be subject to restrictions contained in the Code or nonqualified stock options (NQSOs). The maximum number of shares of Company common stock that may be issued upon the exercise of ISOs may not exceed the total number of shares available for grant under the Plan as set forth above under Shares Subject to the Plan . Stock options may be granted for a term specified by the Committee, provided that no option may be exercisable after ten years from the date of grant. The Committee may accelerate the exercisability of any option or portion thereof at any time. The Committee may provide in the option agreement that all or a part of the shares received by an optionee upon the exercise of a NQSO shall be restricted shares subject to any or all of the restrictions or conditions described below.

Exercise Price. The exercise price for each Option will be determined by the Committee, but will not be less than 100% of the fair market value of a share of common stock on the date of grant. If an ISO is granted to a ten percent stockholder of the Company (as defined in the Plan), the exercise price will be at least 110% of the fair market value of a share on the date of grant.

Exercise of Options. The Committee determines when Options become exercisable and in its discretion may accelerate the vesting of any outstanding Option or extend the term of a NQSO option set to expire prior to ten years from the date of issuance. The means of payment for shares issued upon exercise of an Option are specified in each option agreement. The Plan permits payment to be made by cash, check, wire transfer, other shares of Company common stock and Options issued under the Plan. All payment methods other than payment of cash, check and wire transfer will be subject to such restrictions as may be established by the Committee or applicable law or the rules of any applicable stock exchange. The participant must pay any required tax withholding in cash

at the time of exercise or the Company may make other arrangements for the payment of such withholding tax obligations, including withholding compensation otherwise due the participant or utilizing Company Stock due under the award.

Limits on Exercisability. No Option will be exercisable after the expiration of ten years from the date an Option is granted (five years with respect to an ISO held by an Optionee who is a ten percent stockholder of the Company). Options will be exercisable at such times as determined by the Committee. Unless otherwise specified at the time of grant of the Option, an Option will become exercisable as to one-third of the shares in the first year after grant, an additional one-third on the first anniversary of the date of grant and fully exercisable on the second anniversary of the date of grant. An option granted under the Plan will generally expire on the first to occur of: (i) conviction of a felony against the Company (ii) three (3) months after the date of a termination of employment or retention for any reason other than death or (ii) six (6) months after death of the optionee; provided that the Committee may specify in the document governing the option that an Option may be exercisable during a longer period. ISOs held by a participant under the Plan and any other plans of the Company may not become exercisable for the first time during any calendar year in excess of \$100,000.

Stock Appreciation Rights

A stock appreciation right may be granted by the Compensation Committee in its discretion. The grant price for each stock appreciation right shall be determined by the Compensation Committee and shall be specified in the Award agreement, but in no event shall the grant price be less than the fair market value of the shares of common stock of the company on the date the stock appreciation right is granted. The term of the stock appreciation right shall be determined by the Compensation Committee and specified in the Award agreement, which relates to the stock appreciation right. No stock appreciation right will be exercised after the tenth anniversary from the date of its grant. Stock appreciation rights may be exercised subject to the terms and conditions the Compensation Committee imposes. Upon the exercise of a Stock Appreciation Right the participant is entitled to receive Company common stock valued at the time of exercise in the amount of the difference between the grant price of the exercised stock appreciation right and the fair market value of the shares at the time the stock appreciation right is exercised.

Restricted Stock

Shares of common stock may be granted by the Compensation Committee to an eligible employee and made subject to restrictions on sale, pledge or other transfer by the employee for a certain period (the restricted period). All shares of restricted stock will be subject to such restrictions as the Compensation Committee may provide in an Award agreement with the participant, including provisions obligating the participant to forfeit or resell the shares to us in the event of termination of employment. Participant's rights with respect to such shares shall be subject to the restrictions provided in the Award agreement and the Plan.

Restricted Stock Units

A restricted stock unit represents the right to receive from us, on the respective scheduled vesting or payment date for such restricted stock unit, one share of common stock. An award of restricted stock units may be subject to forfeiture provisions and such other terms and conditions as the Compensation Committee may determine, subject to the provisions of the Plan.

Performance Shares and Performance Units

Shares of common stock may be granted by the Compensation Committee to an eligible employee and made subject to the achievement of pre-established performance goals for a specified period following the grant which, depending on the extent to which such performance criteria are met in such performance period, will determine, in the manner set forth in the Award Agreement, the value and/or number of each Performance Share or Performance Unit that will be paid to the Participant. The pre-established performance goals will be based on any

or a combination of the following business criteria applied to the Company as a whole, a Company division or a subsidiary: (i) the attainment of certain target levels of, or a specified percentage increase in, revenues, income before income taxes and extraordinary items, net income, earnings before income tax, earnings before interest, taxes, depreciation and amortization, or a combination of any or all of the foregoing; (ii) the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax profits including, without limitation, that attributable to continuing and/or other operations; (iii) the attainment of certain target levels of, or a specified increase in, operational cash flow; (iv) the achievement of a certain level of, reduction of, or other specified objectives with regard to limiting the level of increase in, all or a portion of, the Company's bank debt or other long-term or short-term public or private debt or other similar financial obligations of the Company, which may be calculated net of such cash balances and/or other offsets and adjustments as may be established by the Committee; (v) the attainment of a specified percentage increase in earnings per share or earnings per share from continuing operations; (vi) the attainment of certain target levels of, or a specified increase in return on capital employed or return on invested capital; (vii) the attainment of certain target levels of, or a percentage increase in, after-tax or pre-tax return on stockholders' equity; (viii) the attainment of certain target levels of, or a specified increase in, economic value added targets based on a cash flow return on investment formula; (ix) the attainment of certain target levels in the fair market value of the shares of the Company's common stock; (x) the growth in the value of an investment in the Company's common stock assuming the reinvestment of dividends; and (xi) reducing costs of the Company, as evidenced by meeting or reducing budgeted expenses established by the Company. For purposes of item (i) above, extraordinary items shall mean all items of gain, loss or expense for the fiscal year determined to be extraordinary or unusual in nature or infrequent in occurrence or related to a corporate transaction (including, without limitation, a disposition or acquisition) or related to a change in accounting principle.

Stock Awards

Each stock award under the Plan will contain provisions regarding (1) the number of shares subject to such stock award or a formula for determining such number, (2) the purchase price of the shares, if any, and the means of payment for the shares, (3) the performance criteria, if any, and level of achievement versus these criteria that will determine the number of shares granted, issued, retainable and vested, as applicable, (4) such terms and conditions on the grant, issuance, vesting and forfeiture of the shares, as applicable, as may be determined from time to time by the Committee, (5) restrictions on the transferability of the stock award, and (6) such further terms and conditions, in each case not inconsistent with the Plan, as may be determined from time to time by the Committee. Such awards may be granted or sold in respect of past services and other valid consideration, or in lieu of, or in addition to, any cash compensation due to such participant.

New Plan Benefits

No awards have been granted beyond those that are currently available under the Plan. The Company has agreed to issue future awards under the Plan as follows:

Pursuant to the Company's employment agreement with Charles M. Dauber, the Company has agreed to award him 80,000 Restricted Stock Units in 2015 which shall be subject to vesting based upon achievement of 2015 performance goals. Vested Restricted Stock Units convert to common stock on a one-to-one basis in four equal annual installments from the date of grant, subject to a continued employment obligation.

Pursuant to the Company's employment agreement with Andrew L. Puhala, the Company has agreed to award him 14,000 Restricted Stock Units annually of which 11,200 will have performance-based vesting and 2,800 will have only continued employment vesting requirements. Vested Restricted Stock Units convert to common stock on a one-to-one basis in four equal annual installments from the date of grant, subject to a continued employment obligation.

Based on the closing price of the Company's common stock on December 31, 2013 of \$9.98, the value of the 2015 future grant to Charles M. Dauber will be \$798,000 assuming all 80,000 RSU's will vest and convert to

80,000 shares of common stock. Based on the closing price of the Company's common stock on December 31, 2013 of \$9.98, the value of the annual future grant to Andrew L. Puhala will be \$140,000 assuming all 14,000 RSUs will vest and convert to 14,000 shares of common stock. All other future grants of awards, if any, that will be made to eligible participants are subject to the discretion of the Compensation Committee and, therefore, it is not possible to determine the awards under the Plan that will be received by our executive officers and other participants if the amendments to the Plan are approved by the stockholders.

Amendment, Suspension and Termination

The Plan may be amended, suspended, or terminated at any time or from time to time by the Compensation Committee, provided that (i) no such amendment or modification may, without written consent of the participant, alter or impair any rights or obligations under any outstanding awards under the Plan; and (ii) no amendment will be effective unless approved by the affirmative vote of the holders of a majority of shares of the Company present, or represented, and entitled to vote at a meeting of stockholders of the Company duly held within twelve months of the date of adoption where such amendment will: (a) increase the total number of shares reserved for the issuance under the Plan; or (b) materially change the standards of eligibility under the Plan; (c) materially increase the benefits which may accrue to participants under the Plan; or (d) result in the adoption of a new plan or require the approval of the stockholders under any applicable tax, regulatory or stock market requirement.

Subject to the foregoing, the Compensation Committee may amend, extend, modify or terminate any outstanding award with the participant's written consent at any time prior to payment or exercise in any manner not inconsistent with the terms of the Plan.

Transfer Restrictions

Except as otherwise determined by the Compensation Committee, no award shall be assignable or transferable except by will or the laws of descent and distribution, and no right or interest of any participant shall be subject to any lien, obligation or liability of the participant.

Securities Law Compliance

In the event that the shares to be acquired pursuant to the Plan are not covered by a then current registration statement under the Securities Act of 1933 (the "Securities Act"), and is not otherwise exempt, such shares will be restricted against transfer to the extent required by the Securities Act and the Compensation Committee may require any participant to represent in writing an intention to invest, rather than distribute, the shares.

Miscellaneous Provisions

The adoption of the Plan will not affect any other compensation or incentive plans in effect for the Company or any subsidiary. Nothing in the Plan guarantees continued employment for any participating employee. The Company and its subsidiaries reserve the right to remove, terminate or discharge any employee at any time and for any reason.

Federal Income Tax Consequences of Stock Options

The following is a brief summary of certain of the federal income tax consequences of certain transactions under the Plan based on federal income tax laws in effect on the date hereof. This summary is not intended to be exhaustive and does not describe state, local or foreign tax consequences.

Tax Consequences to Participants

With respect to a non-qualified stock option (NQSO), in general: (i) no income will be recognized by an optionee at the time an NQSO is granted; (ii) at the time of exercise of an NQSO, ordinary income will be recognized by the optionee in an amount equal to the difference between the option price paid for the shares and

the fair market value of the shares if they are nonrestricted on the date of exercise; and (iii) at the time of sale of shares acquired pursuant to the exercise of an NQSO, any appreciation (or depreciation) in the value of the shares after the date of exercise will be treated as either short-term or long-term capital gain (or loss) depending on how long the shares have been held.

With respect to an incentive stock option (ISO), no income generally will be recognized by an optionee upon the grant or exercise of an ISO. However, any excess of the fair market value of the shares at the time of exercise over the option price will be subject to the alternative minimum tax. If no disposition of shares issued to an optionee is made within two years after the date of grant or within one year after the transfer of the shares to the optionee, then upon the sale of the shares any amount realized in excess of the option price will be taxed to the optionee as long-term capital gain and any loss sustained will be a long-term capital loss.

If shares acquired upon the exercise of an ISO are disposed of prior to the expiration of either holding period described above, the optionee generally will recognize ordinary income in the year of disposition in an amount equal to any excess of the fair market value of the shares at the time of exercise (or, if less, the amount realized on the disposition of the shares if a sale or exchange) over the option price paid for the shares. Any further gain (or loss) realized by the optionee generally will be taxed as short-term or long-term capital gain (or loss) depending on the holding period.

Stock Awards

Stock awards will generally be taxed as ordinary income when the participant receives the unrestricted right to the shares in the award. In the event the shares in the award are subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code, the participant will not recognize ordinary income at the time of grant of the award. Instead, the participant will recognize ordinary income on the dates when the stock is no longer subject to a substantial risk of forfeiture, or when the stock becomes transferable, if earlier. The participant's ordinary income is measured as the difference between the amount paid for the stock, if any, and the fair market value of the stock on the date the stock is no longer subject to forfeiture or becomes transferable. Upon a disposition of such shares by the participant, any difference between the sale price and the amount recognized as taxable income as provided above, is treated as long-term or short-term capital gain or loss, depending on the holding period.

The participant may accelerate his or her recognition of ordinary income, if any, and begin his or her capital gains holding period by timely filing (i.e., within thirty days of the award) an election pursuant to Section 83(b) of the Code. In such event, the ordinary income recognized, if any, is measured as the difference between the amount paid for the stock, if any, and the fair market value of the stock on the date of award, and the capital gain holding period commences on such date. The ordinary income recognized by an employee will be subject to tax withholding by the Company.

Payment of Withholding Taxes

We may withhold from any stock issuances under the Plan, or collect as a condition of payment, any taxes required by law to be withheld. With the Compensation Committee's approval a participant may be allowed to satisfy his or her withholding tax obligation by electing to deliver currently owned shares of common stock or to have us withhold, from the shares the participant would otherwise receive, shares of common stock, in each case having a value equal to the minimum amount required to be withheld.

Tax Consequences to the Company

To the extent that a participant recognizes ordinary income in the circumstances described above, the Company or the subsidiary for which the participant performs services will be entitled to a corresponding deduction provided that, among other things, the income meets the tests of reasonableness, is an ordinary and necessary business expense, is not an excess parachute payment under the Code and is not disallowed by Section 162(m) of the Code.

Abstentions and broker non-votes will have no effect since only shares voting on the proposal will be counted.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

The primary objectives of our executive compensation program are to:

enable the Company to recruit, retain and motivate skilled and knowledgeable executives;

ensure that executive compensation is aligned with our corporate strategies and business objectives;

promote the achievement of key strategic and financial performance measures by linking incentive compensation to the achievement of measurable corporate and individual performance goals; and

align executives' incentives with the creation of stockholder value.

To achieve these objectives, we expect to maintain our executive compensation at levels which are competitive with those of other companies with which we compete for executive talent. In addition, all our named executive officers will have an annual bonus compensation program providing a cash bonus for achieving corporate and individual goals. We provide our senior executive officers with compensation in the form of equity awards that vest over time in amounts related to achieving specific corporate financial goals, which we believe will help to retain our executives and align their interests with those of our stockholders by allowing the executives to participate in the longer term success of our Company as reflected in stock price appreciation.

Elements of Our Executive Compensation Program

The following elements comprise compensation currently paid to our executive officers:

Base salary. We fix the chief executive officer's base compensation and review his recommendations regarding the base compensation of the executive officers to provide assurance that we are able to hire and retain individuals in a competitive environment and rewards satisfactory individual performance and a satisfactory level of contribution to our overall business goals. At least annually, the Compensation Committee evaluates the base salaries for our executives, together with other components of compensation, and considers adjustments based on an assessment of each executive's performance, competitive compensation trends and their review and consideration of compensation surveys and other information provided by our human resources department or from independent sources. We expect our CEO, as manager of our other senior executives, to keep the Compensation Committee advised as to how our senior executives are performing.

Executive Performance Bonus Program. The performance bonus element of the cash compensation of our executive officers is based upon achievement of Company and individual performance goals recommended by our CEO and approved by our Compensation Committee. The 2013 performance bonus compensation program for our senior executives provides for cash bonus targets ranging from approximately 15% to 50% of base salary. Our CEO is primarily responsible for recommending to the Board of Directors the Company financial objectives and individual performance goals of our senior executives. Targeted Company financial performance must be achieved at the 70% to 75% level for that component of the bonus to be earned and must be achieved at the 100% level for the full bonus related to Company financial performance to be earned. Some of each officer's individual performance goals and objectives may require a subjective evaluation and judgment with respect to achievement of these goals. Company performance targets make up approximately 75% of total bonus with individual goals encompassing the remainder. The Company financial performance element of each executive's bonus is designated in a business area where the executive contributes and may include such performance metrics as earnings of the entire Company or one or more business segments. The Compensation Committee will also recognize exceptional performance in excess of targeted goals by granting bonus awards in excess of targeted amounts.

Our CEO reviews each senior executive's performance against Company and individual performance goals set for that executive during the previous year. Based on this assessment, the CEO will then recommend to the Compensation Committee what percentage of each executive's target bonus the executive should receive. The Compensation Committee, without the CEO's participation, evaluates the CEO's performance to determine the CEO's bonus by reviewing the CEO's success in achieving the Company and personal performance goals established by the committee in the prior year.

Equity Incentives. Our equity incentive program is the primary vehicle for offering long-term incentives to our employees, including our executive officers. Executives are eligible to receive grants of stock options, restricted stock awards, restricted stock unit awards, stock appreciation rights and other stock-based equity awards at the discretion of the Compensation Committee. Our 2007 Employee Stock Incentive Plan authorizes the issuance of up to 1,100,000 shares of our common stock. In 2012 and 2013 certain executives were awarded performance-based restricted stock units. Some of these awards were subject to achievement of performance targets in the year of grant and continued employment to become fully vested, and some of such awards required only continued employment to become fully vested. The Compensation Committee will also recognize exceptional performance in excess of targeted goals by granting equity awards in excess of targeted amounts.

We believe equity awards provide our executive officers with an incentive to focus on our long-term performance, create an ownership culture among our management team and our employees, and align the interests of our executive officers with those of our stockholders. In addition, the vesting feature of our equity awards is designed to further our objective of executive retention by providing an incentive to our executive officers to remain employed with us during the vesting period. We believe the long-term performance of our business is improved through the grant of stock-based awards so that the interests of our executive officers are aligned with the creation of value for our stockholders. In determining the size of equity grants to our executive officers, our compensation committee will consider our overall performance, the applicable executive officer's performance, the achievement of certain strategic initiatives, the amount of equity previously awarded to the executive officer, and the vesting of such awards, as well as their own business judgment and experiences. The Compensation Committee may also make the receipt of equity incentives subject to the achievement of specific objective Company financial goals and/or continued employment.

Grants of equity awards, including those to our named executive officers, are required to be approved by our Compensation Committee. We may grant equity awards to executive officers upon their initial hire and in connection with a promotion. In addition, grants of equity awards may be made from time to time in the discretion of our Compensation Committee and our Board of Directors consistent with our incentive compensation program objectives.

Other Compensation. Each of our executive officers is eligible to participate in our employee benefits programs on the same terms as non-executive employees, including our 401(k), medical, dental and vision care plans. In addition, employees, including executive officers, participate in our life and accidental death and dismemberment insurance policies, long-term and short-term disability plans, employee assistance program, and standard Company holidays.

Tax Considerations. Section 162(m) of the Internal Revenue Code generally disallows a tax deduction for compensation in excess of \$1.0 million paid to our chief executive officer and our four other most highly paid executive officers. Qualifying performance-based compensation is not subject to the deduction limitation if specified requirements are met. We generally intend to structure the performance-based portion of our executive compensation, when feasible, to comply with exemptions in Section 162(m) so that the compensation remains tax deductible to us. Our compensation committee and our board of directors may, in their judgment, authorize compensation payments that do not comply with the exemptions in Section 162(m) when it believes such payments are appropriate to attract and retain executive talent. To date we have made no compensation payments which did not comply with exemptions in Section 162(m).

Risk Considerations. The Compensation Committee considers whether the Company's compensation policies and practices for both executives and other employees encourage unnecessary or excessive risk taking. Base salaries are not believed to encourage excessive risk taking. The Company's Executive Performance Bonus Programs does focus on achievement of annual Company and/or individual performance goals, but both the Company and individual goals are considered appropriate for achievement without unnecessary and excess risk taking.

CEO Compensation. In connection with the CEO transition plan the Company entered into an employment agreement with Charles M. Dauber for his services as President and CEO of the Company. The Compensation Committee utilized an independent compensation consultant to assist it in setting Mr. Dauber's salary. Such consultant has provided no other services to the Company or the Compensation Committee. The Compensation Committee believes the compensation package for Mr. Dauber is reasonable based upon Mr. Dauber's experience, duties and responsibilities and the contributions made and expected to be made by him to the Company.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the foregoing Compensation Discussion and Analysis. Based upon this review and discussion, the Compensation Committee recommended to the Board of Directors that such Compensation Discussion and Analysis be included in the Proxy Statement for the Company's 2014 Annual Meeting of Stockholders.

Respectfully submitted,

Casey Crenshaw (Chairman)
Peter Menikoff

Employment agreements with executive officers

With the approval of the Compensation Committee, the Company has entered into employment agreements with three of its executive officers. These employment agreements are intended to provide each executive with job security for the term of the agreement by specifying the reasons pursuant to which their employment may be terminated by the Company and provide them with certain compensation and benefits upon termination of employment or a change in control of the Company. These employment agreements also protect the Company's interests following termination of employment by prohibiting the executives from engaging directly or indirectly in competition with the Company, from soliciting any employees, or from disclosing confidential Company information.

Charles M. Dauber has an employment agreement with the Company which provides for his employment to December 31, 2015 at an annual salary of \$325,000 for the year ending December 31, 2014 and \$350,000 for the year ending December 31, 2015, a \$1,000 per month automobile allowance and participation in the other benefit programs available to the Company's executives. Mr. Dauber is also entitled to an expected annual performance-based bonus of \$150,000 for 2014 and \$175,000 for 2015 which is dependent upon the Company meeting its annual budget and operating plan objectives and which may be greater if performance is above operating plan objectives at the discretion of the Board of Directors. The agreement provides for a grant of 80,000 performance-based restricted stock units in 2014 and 2015. All vested restricted stock units for 2014 and 2015 will convert to common stock over a four-year period from grant date in accordance with the Company's Employee Stock Incentive Plan. The agreement provides for a restricted stock unit grant for 2013 of 80,000 with performance-based vesting. The vested restricted stock grant for 2013 will convert to common stock fully after one year. In the event Mr. Dauber's employment terminates other than for cause or resignation, his base salary and medical plan participation will continue monthly for up to twelve months or commencement of other employment, whichever occurs earlier. In the event Mr. Dauber's employment terminates after a change of control of the Company he will be entitled to payment of two year's salary and expected bonus, vesting of any unvested equity options and payment of COBRA health insurance premiums for eighteen (18) months after his employment ends.

Arthur G. Dauber has an employment agreement with the Company which provides for his employment to December 31, 2015 at an annual salary of \$130,000 for 2014 and 2015. Mr. Dauber will be a part time employee, and manage the Company's international joint ventures. Mr. Dauber will receive a bonus of 1% of the of the amount reported by the Company on its consolidated statement of operations on the line styled Equity In Income of Joint Ventures with respect to the Company's joint ventures known as MIEFE, BOMAY and AAG for each year. Mr. Dauber will receive an automobile allowance of \$600 per month, health and life insurance benefits not to exceed a cost to the Company of \$600 per month plus the cost of his annual physical examinations. Mr. Dauber's spouse may accompany him, at Company expense, on business trips outside the United States. In the event Mr. Dauber's employment terminates other than for cause or resignation, his base salary and medical plan participation will continue monthly for up to twelve months or commencement of other employment, whichever occurs earlier. In the event Mr. Dauber's employment terminates after a change of control of the Company he will be entitled to payment of salary and payment of health insurance premiums for up to twelve months or commencement of other employment, whichever occurs earlier.

Andrew L. Puhala entered into an employment letter agreement upon commencement of his employment in January 2013 which specifies his compensation but does not establish any fixed term of employment. It provides for an annual salary at the rate of \$200,000 with a performance based target bonus of \$60,000. Mr. Puhala is

entitled to receive an annual award of 15,000 restricted stock units of which 12,000 will have performance-based vesting and 3,000 restricted stock units will have only continued employment vesting requirements. The vested restricted stock units convert into common stock on a one-to-one basis in four equal annual installments from the original grant date, subject to a continuing employment requirement. In the event Mr. Puhala's employment is terminated for other than cause or disability, or in the event there is a change of control/acquisition resulting in his termination, a substantial reduction of his responsibilities, or necessitating commuting outside of the Greater Houston area, i.e., excessive travel distance, he will receive a severance package equal to up to six (6) months of his then current base salary and reimbursement of COBRA medical insurance costs, if elected, for his family for up to six (6) months. The severance will be paid out on a monthly basis and will cease upon commencement of other employment.

Our other named executive officers are at will employees and are eligible to receive employee benefits generally available to all employees of the subsidiary by which they are employed and other benefits approved by the Compensation Committee.

In February 2014, the Compensation Committee of the Board of Directors established 2014 salary and target bonus applicable to our executive officers as follows:

Named Executive	2014 Base Salary(\$)	2014 Target Bonus(\$)
Arthur G. Dauber	130,000	28,000(a)
Charles M. Dauber	325,000	150,000
Neal T. Hare	200,000	100,000
James J. Steffek	200,000	100,000
Andrew L. Puhala	200,000	60,000

(a) Estimated based on 2013 performance.

Actual bonus amounts payable to each executive will be based on the achievement of 2014 Company and individual performance goals established for each executive. Targeted performance must be achieved at the 70% to 75% level for that component of the bonus to be earned and must be achieved at the 100% level for the full bonus to be earned. Some of each executive's individual goals may require a subjective evaluation and judgment with respect to achievement of these goals. Company performance targets make up approximately 75% of total bonus with individual goals encompassing the remainder.

In connection with the 2014 salary and target bonus established our executive officers, the following were awarded restricted stock units under the 2007 Employee Stock Incentive Plan. Each restricted stock unit is issued one share of common stock upon conversion to common stock:

Named Executive	Restricted Stock Units
Charles M. Dauber	80,000
Andrew L. Puhala	14,000

Vesting of all of Mr. Dauber's 2014 restricted stock unit award and 12,000 of Mr. Puhala's restricted stock unit award is subject to vesting based on achievement of the 2014 Company and individual performance goals established for each executive. Vesting of 3,000 of the restricted stock units granted to Mr. Puhala are subject to only continuing employment. The vested restricted stock units convert into common stock on a one-to-one basis in four equal annual installments from the date of grant and are subject to a continuing employment obligation through the date of conversion.
