NOTE 1 – DESCRIPTION OF BUSINESS AND BASIS OF PRESENTATION

About Griffon Corporation

Griffon Corporation (the "Company" or "Griffon") is a diversified management and holding company that conducts business through wholly-owned subsidiaries. Griffon oversees the operations of its subsidiaries, allocates resources among them and manages their capital structures. Griffon provides direction and assistance to its subsidiaries in connection with acquisition and growth opportunities as well as in connection with divestitures. In order to further diversify, Griffon also seeks out, evaluates and, when appropriate, will acquire additional businesses that offer potentially attractive returns on capital.

Headquartered in New York, N.Y., the Company was founded in 1959 and is incorporated in Delaware. Griffon is listed on the New York Stock Exchange and trades under the symbol GFF.

On June 4, 2018, Clopay Building Products Company, Inc. ("CBP") acquired CornellCookson, Inc. ("CornellCookson"), a leading US manufacturer and marketer of rolling steel door and grille products designed for commercial, industrial, institutional and retail use, for \$180,000, subject to certain post-closing adjustments and excluding the present value of net tax benefits under current tax law resulting from the transaction. The accounts, affected for preliminary adjustments to reflect fair market values assigned to assets purchased and liabilities assumed, and results of operations of CornellCookson, are included in the Company's consolidated financial statements from the date of acquisition of June 4, 2018. See Note 3, Acquisitions.

On November 16, 2017, Griffon announced it entered into a definitive agreement to sell Clopay Plastic Products Company, Inc. ("PPC") and on February 6, 2018, completed the sale to Berry Global, Inc. (NYSE:BERY) ("Berry") for \$475,000 in cash, subject to certain post-closing adjustments. As a result, Griffon classified the results of operations of the PPC business as discontinued operations in the Consolidated Statements of Operations for all periods presented and classified the related assets and liabilities associated with the discontinued operations in the consolidated balance sheets. All results and information presented exclude PPC unless otherwise noted. See Note 14, Discontinued Operations.

On October 2, 2017, Griffon acquired ClosetMaid LLC ("ClosetMaid") for approximately \$185,700, subject to certain post-closing adjustments and excluding the present value of net tax benefits under current tax law resulting from the transaction. ClosetMaid, founded in 1965, is a leading North American manufacturer and marketer of closet organization, home storage, and garage storage products, and sells to some of the largest home center retail chains, mass merchandisers, and direct-to-builder professional installers in North America. The accounts, affected for preliminary adjustments to reflect fair market values assigned to assets purchased and liabilities assumed, and results of operations of ClosetMaid are included in the Company's consolidated financial statements from the date of acquisition of October 2, 2017. See Note 3, Acquisitions.

Griffon currently conducts its operations through two reportable segments:

-

Home & Building Products (“HBP”) segment consists of three companies, The AMES Companies, Inc. (“AMES”), ClosetMaid and CBP:

- AMES, founded in 1774, is the leading U.S. manufacturer and a global provider of long-handled tools and landscaping products for homeowners and professionals.

- ClosetMaid, founded in 1965, is a leading North American manufacturer and marketer of closet organization, home storage, and garage storage products, and sells to some of the largest home center retail chains, mass merchandisers, and direct-to-builder professional installers.

- CBP, since 1964, is a leading manufacturer and marketer of residential and commercial garage doors and sells to professional dealers and some of the largest home center retail chains in North America and, under the CornellCookson brand, is a leading U.S. manufacturer and marketer of rolling steel door and grille products designed for commercial, industrial, institutional, and retail use.

Defense Electronics segment consists of Telephonics Corporation ("Telephonics"), founded in 1933, a globally recognized leading provider of highly sophisticated intelligence, surveillance and communications solutions for defense, aerospace and commercial customers.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, these financial statements do not include all the information and footnotes required by US GAAP for complete financial statements. As such, they should be read together with Griffon's Annual Report on Form 10-K for the year ended September 30, 2017, which provides a more complete explanation of Griffon's accounting policies, financial position, operating results, business properties and other matters. In the opinion of management, these financial statements reflect all adjustments considered necessary for a fair statement of interim results. Griffon's HBP operations are seasonal; for this and other reasons, the financial results of the Company for any interim period are not necessarily indicative of the results for the full year.

The condensed consolidated balance sheet information at September 30, 2017 was derived from the audited financial statements included in Griffon's Annual Report on Form 10-K for the year ended September 30, 2017.

The condensed consolidated financial statements include the accounts of Griffon and all subsidiaries. Intercompany accounts and transactions have been eliminated on consolidation.

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting periods. These estimates may be adjusted due to changes in economic, industry or customer financial conditions, as well as changes in technology or demand. Significant estimates include allowances for doubtful accounts receivable and returns, net realizable value of inventories, restructuring reserves, valuation of goodwill and intangible assets, percentage of completion method of accounting, pension assumptions, useful lives associated with depreciation and amortization of fixed and intangible assets, warranty reserves, sales incentive accruals, stock based compensation assumptions, income taxes and tax valuation reserves, environmental reserves, legal reserves, insurance reserves and the valuation of assets and liabilities of discontinued operations, acquisition assumptions used and the accompanying disclosures. These estimates are based on management's best knowledge of current events and actions Griffon may undertake in the future. Actual results may ultimately differ from these estimates.

Certain amounts in the prior year have been reclassified to conform to current year presentation.

NOTE 2 – FAIR VALUE MEASUREMENTS

The carrying values of cash and equivalents, accounts receivable, accounts and notes payable, and revolving credit and variable interest rate debt approximate fair value due to either the short-term nature of such instruments or the fact that the interest rate of the revolving credit and variable rate debt is based upon current market rates.

Applicable accounting guidance establishes a fair value hierarchy requiring the Company to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. A financial instrument's categorization within the hierarchy is based on the lowest level of input that is significant to the fair value measurement. The accounting guidance establishes three levels of inputs that may be used to measure fair value, as follows:

Level 1 inputs are measured and recorded at fair value based upon quoted prices in active markets for identical assets.

Level 2 inputs include inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of assets or liabilities.

Level 3 inputs are unobservable inputs in which little or no market data exists, therefore requiring an entity to develop its own assumptions.

The fair values of Griffon's 2022 senior notes approximated \$972,500 on June 30, 2018. Fair values were based upon quoted market prices (level 1 inputs).

On January 17, 2017, Griffon's 4% convertible subordinated notes settled for a total of \$173,855. The total settlement value for the convertible notes was based on the sum of the daily Volume Weighted Average Price multiplied by the conversion rate over a 40-day observation period (level 1 inputs). The settlement value was split between \$125,000 in cash and 1,954,993 shares, of common stock issued from treasury.

Insurance contracts with values of \$2,948 at June 30, 2018 are measured and recorded at fair value based upon quoted prices in active markets for similar assets (level 2 inputs) and are included in Prepaid and other current assets on the Consolidated Balance Sheets.

Items Measured at Fair Value on a Recurring Basis

At June 30, 2018, trading securities, measured at fair value based on quoted prices in active markets for similar assets (level 2 inputs), with a fair value of \$3,469 (\$3,086 cost basis), were included in Prepaid and other current assets on the Consolidated Balance Sheets. Realized and unrealized gains and losses on trading securities are included in Other income in the Consolidated Statements of Operations and Comprehensive Income (Loss).

In the normal course of business, Griffon's operations are exposed to the effects of changes in foreign currency exchange rates. To manage these risks, Griffon may enter into various derivative contracts such as foreign currency exchange contracts, including forwards and options. As of June 30, 2018, Griffon entered into several such contracts in order to lock into a foreign currency rate for planned settlements of trade and inter-company liabilities payable in US dollars.

At June 30, 2018, Griffon had \$8,500 of Australian dollar contracts at a weighted average rate of \$1.36 which qualified for hedge accounting (level 2 inputs). These hedges were all deemed effective as cash flow hedges with gains and losses related to changes in fair value deferred and recorded in Accumulated other comprehensive income (loss) ("AOCI") and Prepaid and other current assets, or Accrued liabilities, until settlement. Upon settlement, gains and losses are recognized in the Consolidated Statements of Operations and Comprehensive Income (Loss) in Cost of goods and services ("COGS"). AOCI included deferred gains of \$864 (\$612, net of tax) at June 30, 2018 and gains of \$207 and \$174 was recorded in COGS during the quarter and nine months ended June 30, 2018, respectively, for all settled contracts. All contracts expire in 30 to 88 days.

At June 30, 2018, Griffon had \$1,651 of Canadian dollar contracts at a weighted average rate of \$1.31. The contracts, which protect Canadian operations from currency fluctuations for US dollar based purchases, do not qualify for hedge accounting. For the quarter and nine months ended June 30, 2018, fair value losses and gains of \$11 and \$81, respectively, was recorded to Other liabilities and to Other income for the outstanding contracts, based on similar contract values (level 2 inputs). Realized losses and gains of \$31 and \$11, respectively, were recorded in Other income during the quarter and nine months ended June 30, 2018, respectively, for all settled contracts. All contracts expire in 30 to 88 days.

NOTE 3 – ACQUISITIONS

Griffon accounts for acquisitions under the acquisition method, in which assets acquired and liabilities assumed are recorded at fair value as of the date of acquisition using a method substantially similar to the goodwill impairment test methodology (level 3 inputs). The operating results of the acquired companies are included in Griffon's consolidated financial statements from the date of acquisition; in each instance, Griffon is in the process of finalizing the initial purchase price allocation.

On June 4, 2018, CBP completed the acquisition of CornellCookson, a leading US manufacturer and marketer of rolling steel door and grille products designed for commercial, industrial, institutional and retail use, for \$180,000, subject to certain post-closing adjustments and excluding the present value of net tax benefits under current tax law resulting from the transaction. The acquisition of CornellCookson substantially expanded CBP's non-residential product offerings, and added an established professional dealer network focused on rolling steel door and grille products for commercial, industrial, institutional and retail use. There is no other contingent consideration arrangement relative to the acquisition of CornellCookson.

CornellCookson's accounts, affected for preliminary adjustments to reflect fair market values assigned to assets purchased and liabilities assumed, and results of operations are included in the Company's consolidated financial statements from the date of acquisition. The Company has recorded a preliminary allocation of the purchase price to the Company's tangible and identifiable intangible assets acquired and liabilities assumed based on their fair market values (level 3 inputs) at the acquisition date. The excess of the purchase price over the fair value of the net tangible and intangible assets was recorded as goodwill and is deductible

for tax purposes. Goodwill recognized at the acquisition date represents the other intangible benefits that the Company will derive from the ownership of CornellCookson, however, such intangible benefits do not meet the criteria for recognition of separately identifiable intangible assets.

The calculation of the preliminary purchase price allocation, which is pending finalization of tax-related items and completion of the related final valuation, is as follows:

Accounts receivable ⁽¹⁾	\$30,400
Inventories	12,586
Property, plant and equipment	35,226

Intangible assets ⁽²⁾	36,000

Long-term liabilities	680
Total liabilities assumed	12,680
Total	\$185,707

⁽¹⁾ Includes \$30,818 of gross accounts receivable of which \$418 was not expected to be collected. The fair value of accounts receivable approximated book value acquired.

⁽²⁾As of June 30, 2018, the Company did not recognize an estimate of identifiable indefinite lived intangible assets apart from goodwill but preliminarily allocated \$36,000 to identifiable definite lived intangible assets and recognized amortization expense consistent with an estimated ten year life from the date of acquisition through June 30, 2018. The company expects to finalize the valuation of the acquired identifiable indefinite and definite lived intangible assets during the fourth quarter.

On February 13, 2018, AMES acquired Kelkay Limited ("Kelkay"), a leading United Kingdom manufacturer and distributor of decorative outdoor landscaping products sold to garden centers, retailers and grocers in the UK and Ireland for \$56,118 (GBP \$40,452), subject to contingent consideration of up to GBP 7,000. This acquisition broadened AMES' product offerings in the market and increased its in-country operational footprint. The purchase price was primarily allocated to fixed assets and land of GBP 8,241, tradenames of GBP 6,739 and accounts receivable and inventory of GBP 8,894.

On November 6, 2017, AMES acquired Harper Brush Works ("Harper"), a division of Horizon Global, for \$4,383, inclusive of post-closing adjustments. Harper is a leading U.S. manufacturer of cleaning products for professional, home, and industrial use. The acquisition expanded AMES' long-handled tool offering in North America to include brooms, brushes, and other cleaning tools and accessories. The purchase price was primarily allocated to intangible assets of \$2,300.

On October 2, 2017, Griffon Corporation completed the acquisition of ClosetMaid, a market leader of home storage and organization products, for approximately \$185,700, subject to certain post-closing adjustments and excluding the present value of net tax benefits under current tax law resulting from the transaction. The acquisition of ClosetMaid expanded Griffon's Home and Building Products segment into the highly complementary home storage and organization category with a leading brand and product portfolio.

ClosetMaid's accounts, affected for preliminary adjustments to reflect fair market values assigned to assets purchased and liabilities assumed, and results of operations, are included in the Company's consolidated financial statements from the date of acquisition. The Company has recorded a preliminary allocation of the purchase price to the

Company's tangible and identifiable intangible assets acquired and liabilities assumed based on their fair market values (level 3 inputs) at the acquisition date. The excess of the purchase price over the fair value of the net tangible and intangible assets was recorded as goodwill and is deductible for tax purposes. Goodwill recognized at the acquisition date represents the other intangible benefits that the Company will derive from the ownership of ClosetMaid, however, such intangible benefits do not meet the criteria for recognition of separately identifiable intangible assets.

The following unaudited proforma summary from continuing operations presents consolidated information as if the Company acquired ClosetMaid on October 1, 2016:

	Proforma For the three months ended June 30, 2017 (unaudited)	Proforma For the nine months ended June 30, 2017 (unaudited)
Revenue	\$ 433,625	\$ 1,322,110
Income from continuing operations	3,630	13,268

Griffon did not include any material, nonrecurring proforma adjustments directly attributable to the business combination in the proforma revenue and earnings. These proforma amounts have been compiled by adding the historical results from continuing operations of Griffon, restated for classifying the results of operations of the PPC business as a discontinued operation, to the historical results of ClosetMaid after applying Griffon's accounting policies and the following proforma adjustments:

- Additional depreciation and amortization that would have been charged assuming the preliminary fair value adjustments to property, plant, and equipment, and intangible assets had been applied from October 1, 2016.

- Elimination of intercompany interest income recorded on ClosetMaid's financial statements earned on an intercompany receivable due from ClosetMaid's former parent.

- Additional interest and related expenses from the add-on offering of \$275,000 for the aggregate principal amount of 5.25% senior notes due 2022 that Griffon used to acquire ClosetMaid.

- Removal of \$700 of restructuring costs from ClosetMaid's historical results for the nine months ended June 30, 2017.

- The consequential tax effects of the above adjustments using a 57.5% and 47.0% tax rate for the quarter and nine months ended June 30, 2017, respectively.

The calculation of the preliminary purchase price allocation, which is pending finalization of tax-related items and completion of the related final valuation, is as follows:

On May 10, 2017, Griffon entered into an engagement letter with Goldman Sachs & Co. LLC (“Goldman Sachs”) pursuant to which Goldman Sachs agreed to act as Griffon’s financial advisor in connection with the acquisition of ClosetMaid. Griffon subsequently paid a customary financial advisory fee to Goldman Sachs under the terms of this engagement letter following consummation of the acquisition.

On September 29, 2017, AMES Australia completed the acquisition of Tuscan Landscape Group Pty, Ltd. (“Tuscan Path”) for approximately \$18,000 (AUD 22,250). Tuscan Path is a leading Australian provider of pots, planters, pavers, decorative stone, and garden decor products, which broadened AMES’ outdoor living and lawn and garden business, and strengthened AMES’ industry leading position in Australia. The purchase price has been allocated to acquired assets and assumed liabilities and primarily consists of inventory, tooling and identifiable intangible assets, including trademarks, intellectual property and customer relationships. Hills, founded in 1946, is a market leader in the supply of clothesline, laundry and garden products. The Hills acquisition adds to AMES’ existing broad category of products and enhances our lawn and garden product offerings in Australia. The purchase price was primarily allocated to intangible assets of approximately AUD 6,400 with the remainder primarily inventory.

On February 14, 2016, AMES Australia acquired substantially all of the Intellectual Property (IP) assets of Australia-based Nylex Plastics Pty Ltd. (“Nylex”) for approximately \$1,744 (AUD 2,452). Through this acquisition, AMES and Griffon secured the ownership of the trademark “Nylex” for certain categories of AMES products, principally in the country of Australia. Previously, the Nylex name was licensed. The acquisition of the Nylex IP was contemplated as a post-closing activity following the Cyclone acquisition and supports AMES’ Australian watering products strategy. The purchase price was allocated to indefinite lived trademarks and is not deductible for income taxes.

During the three months ended June 30, 2018, SG&A included acquisition costs of \$3,598. During the nine months ended June 30, 2018, SG&A and Cost of goods and services included acquisition costs of \$6,097 and \$1,500, respectively. NOTE 7 – INCOME TAXES

On December 22, 2017, the "Tax Cuts and Jobs Act" ("TCJA") was signed into law, significantly impacting several sections of the Internal Revenue Code. ASC 740, Accounting for Income Taxes, requires companies to recognize the effect of tax law changes in the period of enactment even though the effective date for most provisions is for tax years beginning after December 31, 2017, or in the case of certain other provisions, January 1, 2018. Though certain key aspects of the TCJA are effective January 1, 2018 and have an immediate accounting effect, other significant provisions are not effective or may not result in accounting effects for September 30 fiscal year companies until October 1, 2018.

Given the significance of the TCJA, the SEC staff issued Staff Accounting Bulletin No. 118 (SAB 118), which allows registrants to record provisional amounts during a one year "measurement period". During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared or analyzed.

Among the significant changes to the U.S. Internal Revenue Code, the TCJA lowers the U.S. federal corporate income tax rate ("Federal Tax Rate") from 35% to 21% effective January 1, 2018. The Company will compute its income tax expense for the September 30, 2018 fiscal year using a blended Federal Tax Rate of 24.5%. The 21% Federal Tax Rate will apply to fiscal years ending September 30, 2019 and each year thereafter.

The Company has recorded provisional amounts for the effects of the TCJA where accounting is not complete, but a reasonable estimate has been determined. The company recorded a \$23,941 benefit on the revaluation of deferred tax liabilities as a provisional amount for the re-measurement of deferred tax assets and liabilities, as well as an amount for deductible executive compensation expense, both of which have been reflected in the tax benefit for the nine months ended June 30, 2018.

A reasonable estimate cannot yet be made and therefore taxes are reflected based on the law in effect prior to the enactment of the Tax Cuts and Jobs Act for the impact of the one-time mandatory repatriation transition tax on the net accumulated earnings and profits of a U.S. taxpayer's foreign subsidiaries, bonus depreciation expensing for qualified property placed in service after September 27, 2017 and the impact on state income taxes.

The provisional amounts incorporate assumptions made based upon the Company's current interpretation of the TCJA and may change as the Company receives additional clarification and implementation guidance.

In accordance with SAB 118 adjustments recorded to the provisional amounts will be reflected within the measurement period through the quarter ended December 31, 2018 and will be included in income from continuing operations and net income as an adjustment to tax expense.

During the quarter ended June 30, 2018, the Company recognized a tax provision of \$1,560 on income before taxes from continuing operations of \$9,002, compared to a tax provision of \$95 on Income before taxes from continuing operations of \$4,547, in the comparable prior year quarter. The current quarter results included acquisition costs of \$3,598 (\$2,320, net of tax), special dividend ESOP charges of \$3,220 (\$2,125, net of tax), secondary equity offering costs of \$1,205 (\$795, net of tax) and discrete and certain other tax benefits, net, of \$1,430. The prior year quarter included discrete and certain other tax benefits, net, of \$2,522. Excluding these items that affect comparability, the effective tax rates for the quarters ended June 30, 2018 and 2017 were 33.9% and 57.5%, respectively.

During the nine months ended June 30, 2018, the Company recognized a tax benefit of \$22,107 on income before taxes from continuing operations of \$10,117, compared to a tax benefit of \$299 on Income before taxes from continuing operations of \$13,147 in the comparable prior year period. The nine month period ended June 30, 2018 included net tax benefits of \$24,080 primarily from the December 22, 2017 tax reform bill related to revaluation of deferred tax liabilities, \$7,597 (\$5,046 net of tax) of acquisition costs, \$3,220 (\$2,125 net of tax) special dividend ESOP charges, \$1,205 (\$795, net of tax) secondary equity offering costs and \$2,614 (\$248, net of tax) charges related to cost of life insurance benefits. The nine month period ended June 30, 2017 included discrete benefits of \$6,478 primarily from the adoption of Financial Accounting Standards Board guidance which requires the Company to recognize excess tax benefits from the vesting of equity awards within income tax expense. Excluding these items that affect comparability, the effective tax rates for the nine months ended June 30, 2018 and 2017 were 33.9% and 47.0%, respectively.

On October 2, 2017, in an unregistered offering through a private placement under Rule 144A, Griffon completed the add-on offering of \$275,000 principal amount of its 5.25% senior notes due 2022, at 101.00% of par, to Griffon's previously issued \$125,000 principal amount of its 5.25% senior notes due 2022, at 98.76% of par, completed on May 18, 2016 and \$600,000 5.25% senior notes due 2022, at par, completed on February 27, 2014 (a)(collectively the "Senior Notes"). As of June 30, 2018, outstanding Senior Notes due totaled \$1,000,000; interest is payable semi-annually on March 1 and September 1. The net proceeds of the \$275,000 add-on offering were used to acquire ClosetMaid with the remaining proceeds used to pay down outstanding loan borrowings under Griffon's revolving credit facility (the "Credit Agreement"). The net proceeds of the previously issued \$125,000 add-on offering were used to pay down outstanding revolving loan borrowings under the Credit Agreement.

The Senior Notes are senior unsecured obligations of Griffon guaranteed by certain domestic subsidiaries, and subject to certain covenants, limitations and restrictions. On February 5, 2018 and June 18, 2014, Griffon exchanged all of the \$275,000, \$125,000 and \$600,000 Senior Notes, respectively, for substantially identical Senior Notes registered under the Securities Act of 1933 via an exchange offer. The fair value of the Senior Notes approximated \$972,500 on June 30, 2018 based upon quoted market prices (level 1 inputs). In connection with the issuance and exchange of the \$275,000 senior notes, Griffon capitalized \$8,472 of underwriting fees and other expenses; Griffon capitalized \$3,016 of underwriting fees and other expenses in connection with the \$125,000 senior notes; and Griffon capitalized \$10,313 in connection with the previously issued \$600,000 senior notes. All capitalized fees will amortize over the term of the notes.

On March 22, 2016, Griffon amended the Credit Agreement to increase the credit facility from \$250,000 to \$350,000, extend its maturity date from March 13, 2020 to March 22, 2021 and modify certain other provisions of the facility. On October 2, 2017 and on May 31, 2018, Griffon amended the Credit Agreement in association with the ClosetMaid acquisition and the CornellCookson acquisition, respectively, to modify the net leverage covenant. The facility includes a letter of credit sub-facility with a limit of \$50,000 and a multi-currency sub-facility of \$50,000. The Credit Agreement provides for same day borrowings of base rate loans. Borrowings under the Credit Agreement may be repaid and re-borrowed at any time, subject to final maturity of the facility or the occurrence of an event of default under the Credit Agreement. Interest is payable on borrowings at either a LIBOR or base rate benchmark rate, in each case without a floor, plus an applicable margin, which adjusts based on financial performance. Current margins are 1.75% for base rate loans and 2.75% for LIBOR loans. The Credit Agreement has certain financial maintenance tests including a maximum total leverage ratio, a maximum senior secured (b) leverage ratio and a minimum interest coverage ratio, as well as customary affirmative and negative covenants and events of default. The negative covenants place limits on Griffon's ability to, among other things, incur indebtedness, incur liens, and make restricted payments and investments. Borrowings under the Credit Agreement are guaranteed by Griffon's material domestic subsidiaries and are secured, on a first priority basis, by substantially all domestic assets of the Company and the guarantors, and a pledge of not greater than 65% of the equity interest in Griffon's material, first-tier foreign subsidiaries (except that a lien on the assets of Griffon's material domestic subsidiaries securing a limited amount of the debt under the Credit Agreement relating to Griffon's Employee Stock Ownership Plan ("ESOP") ranks pari passu with the lien granted on such assets under the Credit Agreement; see footnote (e) below). At June 30, 2018, under the Credit Agreement, there were \$69,912 in outstanding borrowings; standby letters of credit were \$15,166; and \$264,922 was available, subject to certain loan covenants, for borrowing at that date.

On December 21, 2009, Griffon issued \$100,000 principal amount of 4% convertible subordinated notes due 2017 (the "2017 Notes"). On July 14, 2016, Griffon announced that it would settle, upon conversion, up to \$125,000 of the conversion value of the 2017 Notes in cash, with amounts in excess of \$125,000, if any, to be settled in shares of (c) Griffon common stock. On January 17, 2017, Griffon settled the convertible debt for \$173,855 with \$125,000 in cash, utilizing borrowings under the Credit Agreement, and \$48,858, or 1,954,993 shares, of common stock issued from treasury.

In September 2015 and March 2016, Griffon entered into mortgage loans in the amounts of \$32,280 and \$8,000, respectively. The mortgage loans were secured by four properties occupied by Griffon's subsidiaries. The loans (d) were due to mature in September 2025 and April 2018, respectively, were collateralized by the specific properties financed and were guaranteed by Griffon. The loans had an interest rate of LIBOR plus 1.50%. The loans were paid off during the quarter ended March 31, 2018.

In August 2016, Griffon's ESOP entered into an agreement that refinanced the existing ESOP loan into a new Term Loan in the amount of \$35,092 (the "Agreement"). The Agreement also provided for a Line Note with \$10,908 available to purchase shares of Griffon common stock in the open market. During 2017, Griffon's ESOP purchased (e) 621,875 shares of common stock for a total of \$10,908 or \$17.54 per share, under a borrowing line that has now been fully utilized. On June 30, 2017, the Term Loan and Line Note were combined into a single Term Loan. The Term Loan bears interest at LIBOR plus 2.50%. The Term Loan requires a quarterly principal payment of \$569 with a balloon payment due at maturity on March 22, 2020.

As a result of the special cash dividend of \$1.00 per share, paid on April 16, 2018, the outstanding balance of Term Loan was reduced by \$5,705. As of June 30, 2018, \$35,046, net of issuance costs, was outstanding under the Term Loan. The Term Loan is secured by shares purchased with the proceeds of the loan and with a lien on a specific amount of Griffon assets (which lien ranks pari passu with the lien granted on such assets under the Credit Agreement) and is guaranteed by Griffon.

Two Griffon subsidiaries have capital leases outstanding for real estate located in Troy, Ohio and Ocala, Florida. The leases mature in 2021 and 2022, respectively, and bear interest at fixed rates of approximately 5.0% and 8.0%, (f) respectively. The Troy, Ohio lease is secured by a mortgage on the real estate and is guaranteed by Griffon. The Ocala, Florida lease contains two five-year renewal options. At June 30, 2018, \$8,162 was outstanding, net of issuance costs.

(g) In November 2012, Garant G.P. ("Garant") entered into a CAD \$15,000 (\$11,282 as of June 30, 2018) revolving credit facility. The facility accrues interest at LIBOR (USD) or the Bankers Acceptance Rate (CDN) plus 1.3% per annum (3.63% LIBOR USD and 3.00% Bankers Acceptance Rate CDN as of June 30, 2018). The revolving facility matures in October 2019. Garant is required to maintain a certain minimum equity. At June 30, 2018, there were no borrowings under the revolving credit facility with CAD 15,000 (\$11,282 as of June 30, 2018) available for borrowing.

In July 2016, Griffon Australia Holdings Pty Ltd and its Australian subsidiaries ("Griffon Australia") entered into an AUD 30,000 term loan and an AUD 10,000 revolver. The term loan refinanced two existing term loans and the revolver replaced two existing lines. In December 2016, the amount available under the revolver was increased from AUD 10,000 to AUD 20,000 and, in March 2017, the term loan commitment was increased by AUD 5,000. In September 2017, the term commitment was further increased by AUD 15,000. The term loan requires quarterly principal payments of AUD 1,250 plus interest, with a balloon payment of AUD 37,125 due upon maturity in June 2019, and accrues interest at Bank Bill Swap Bid Rate "BBSY" plus 2.00% per annum (4.16% at June 30, 2018). As of June 30, 2018, the term loan had an outstanding balance of AUD 42,125 (\$30,953 as of June 30, 2018). The revolving facility matures in November 2018, but is renewable upon mutual agreement with the bank, and accrues interest at BBSY plus 2.0% per annum (3.93% at June 30, 2018). At June 30, 2018, there were no borrowings under the revolving credit facility with AUD 20,000 (\$14,696 as of June 30, 2018) available for borrowing. The revolver and the term loan are both secured by substantially all of the assets of Griffon Australia and its subsidiaries. Griffon guarantees the term loan. Griffon Australia is required to maintain a certain minimum equity level and is subject to a maximum leverage ratio and a minimum fixed charges cover ratio.

A UK subsidiary of Griffon maintains an invoice discounting arrangement secured by trade receivables. Interest is variable at 2.0% over the Sterling base rate (2.5% as of June 30, 2018). At June 30, 2018, there were no amounts outstanding under this facility.

In July 2018, the AMES Companies UK Ltd and its subsidiaries ("Ames UK") entered into a GBP 14,000 term loan, GBP 4,000 mortgage loan and GBP 5,000 revolver. The term loan and mortgage loan require quarterly principal payments of GBP 350 and GBP 83 plus interest, respectively, and have balloon payments due upon maturity, July 2023, of GBP 7,000 and GBP 2,333, respectively. The Term Loan and Mortgage Loans accrue interest at the GBP LIBOR Rate plus 2.25% and 1.8%, respectively (3.04% and 2.59%). The revolving facility matures in July 2019, but is renewable upon mutual agreement with the bank, and accrues interest at the Bank of England Base Rate plus 1.5% (2.0%). The revolver and the term loan are both secured by substantially all of the assets of Ames UK and its subsidiaries. Ames UK is subject to a maximum leverage ratio and a minimum fixed charges cover ratio. The invoice discounting arrangement was canceled and replaced by the above loan facilities.

(h) Other long-term debt consists primarily of a loan with the Pennsylvania Industrial Development Authority, with the balance consisting of capital leases.

At June 30, 2018, Griffon and its subsidiaries were in compliance with the terms and covenants of all credit and loan agreements.

NOTE 9 — SHAREHOLDERS' EQUITY

During 2018, the Company paid a quarterly cash dividend of \$0.07 per share in each quarter and a special cash dividend of \$1.00 paid in the third quarter, totaling \$1.21 per share for the nine months ended June 30, 2018. During 2017, the Company paid quarterly cash dividends of \$0.06 per share, totaling \$0.24 per share for the year. Dividends paid on shares in the ESOP were used to offset ESOP loan payments and recorded as a reduction of debt service payments and compensation expense. A dividend payable was established for the holders of restricted shares; such dividends will be released upon vesting of the underlying restricted shares.

On August 1, 2018, the Board of Directors declared a quarterly cash dividend of \$0.07 per share, payable on September 20, 2018 to shareholders of record as of the close of business on August 23, 2018.

Compensation expense for restricted stock is recognized ratably over the required service period based on the fair value of the grant, calculated as the number of shares granted multiplied by the stock price on the date of grant and, for performance shares, the likelihood of achieving the performance criteria. Compensation cost related to stock-based awards with graded vesting, generally over a period of three to four years, is recognized using the straight-line attribution method and recorded within SG&A expenses.

On January 29, 2016, shareholders approved the Griffon Corporation 2016 Equity Incentive Plan ("Incentive Plan") under which awards of performance shares, performance units, stock options, stock appreciation rights, restricted shares, restricted stock units, deferred shares and other stock-based awards may be granted. On January 31, 2018, shareholders approved Amendment No. 1 to the Incentive Plan pursuant to which, among other things, 1,000,000 shares were added to the Incentive Plan. Options granted under the Incentive Plan may be either "incentive stock options" or nonqualified stock options, generally expire ten years after the date of grant and are granted at an exercise price of not less than 100% of the fair market value at the date of grant. The maximum number of shares of common stock available for award under the Incentive Plan is 3,350,000 (600,000 of which may be issued as incentive stock options), plus (i) any shares reserved for issuance under the 2011 Equity Incentive Plan as of the effective date of the Incentive Plan, and (ii) any shares underlying awards outstanding on such effective date under the 2011 Incentive Plan that are canceled or forfeited. As of June 30, 2018, there were 1,200,755 shares available for grant.

All grants outstanding under former equity plans will continue under their terms; no additional awards will be granted under such plans.

During the first quarter of 2018, Griffon granted 1,008,756 shares of restricted stock and restricted stock units. This included 480,756 shares of restricted stock and restricted stock units, subject to certain performance conditions, with vesting periods of three years, with a total fair value of \$9,980, or a weighted average fair value of \$20.76 per share. This also included 528,000 shares of restricted stock granted to two senior executives with a vesting period of four years and a two year post-vesting holding period, subject to the achievement of certain absolute and relative performance conditions relating to the price of Griffon's common stock. So long as the minimum performance condition is attained, the amount of shares that can vest will range from 384,000 to 528,000. The total fair value of these restricted shares is approximately \$7,008, or a weighted average fair value of \$13.27. Also, during the second quarter, Griffon granted 250,170 shares with a vesting period of three years and a fair value of \$4,739, or a weighted average fair value of \$18.94 per share. During the third quarter of 2018, no grants were issued.

For the quarters ended June 30, 2018 and 2017, stock based compensation expense totaled \$2,452 and \$2,405, respectively. For the nine months ended June 30, 2018 and 2017, such expense totaled \$7,372 and \$7,200, respectively.

During the quarter and nine months ended June 30, 2018, 1,592 shares, with a market value of \$33 or \$20.85 per share, and 199,044 shares, with a market value of \$4,478 or \$22.50 per share, respectively, were withheld to settle employee taxes due to the vesting of restricted stock, and were added to treasury.

On December 21, 2009, Griffon issued \$100,000 principal amount of 4% convertible subordinated notes due 2017 (the "2017 Notes"). On July 14, 2016, Griffon announced that it would settle, upon conversion, up to \$125,000 of the conversion value of the 2017 Notes in cash, with amounts in excess of \$125,000, if any, to be settled in shares of Griffon common stock. On January 17, 2017, Griffon settled the convertible debt for \$173,855 with \$125,000 in cash, utilizing borrowing under the Credit Agreement, and \$48,858, or 1,954,993 shares of common stock issued from treasury.

On August 3, 2016, Griffon's Board of Directors authorized the repurchase of up to \$50,000 of Griffon's outstanding common stock. Under this share repurchase program, the Company may purchase shares in the open market, including pursuant to a 10b5-1 plan, or in privately negotiated transactions. During the quarter and nine months ended June 30, 2018, Griffon purchased 650,500 and 2,088,739 shares, respectively, of common stock under the August 2016 program, for a total of \$12,694 and \$41,110, respectively, or \$19.51 and \$19.68, respectively. As of June 30, 2018, \$8,327 remains under the August 3, 2016 Board authorization. On August 1, 2018, Griffon's Board of Directors authorized the repurchase of an additional \$50,000 of Griffon's outstanding common stock.

From August 2011 through June 30, 2018, Griffon repurchased 22,518,037 shares of its common stock, for a total of \$302,730 or \$13.44 per share. This included the repurchase of 18,073,593 shares on the open market under Griffon's Board of Directors authorized repurchase pr

ograms for a total of \$252,730 or \$13.98 per shares, as well as the December 10, 2013 repurchase of 4,444,444 shares from GS Direct for \$50,000, or \$11.25 per share.

On June 19, 2018, GS Direct completed an underwritten secondary offering to sell 5,583,375 shares of Griffon's common stock, inclusive of the underwriters' 30-day option to purchase additional shares. Following the closing of the offering, GS Direct no longer owns any shares of Griffon. GS Direct's initial 10,000,000 share investment was in 2008.

NOTE 10 – EARNINGS PER SHARE (EPS)

Basic EPS (and diluted EPS in periods when a loss exists) was calculated by dividing income available to common shareholders by the weighted average number of shares of common stock outstanding during the period. Diluted EPS was calculated by dividing income available to common shareholders by the weighted average number of shares of common stock outstanding plus additional common shares that were issued in connection with stock based compensation and upon the settlement of the 2017 convertible notes.

The following table is a reconciliation of the share amounts (in thousands) used in computing earnings per share:

	Three Months		Nine Months

On July 14, 2016, Griffon announced that it would settle, upon conversion, up to \$125,000 of the conversion value of the 2017 Notes in cash, with amounts in excess of \$125,000, if any, to be settled in shares of Griffon common stock. During the quarter ended March 31, 2017, Griffon settled the 2017 Notes for \$173,855 with \$125,000 in cash and 1,954,993 shares of common stock issued from treasury. Prior to settlement, Griffon had the intent and ability to settle the principal amount of the 2017 Notes in cash, and as such, the issuance of shares related to the principal amount of the 2017 Notes did not affect diluted shares.

NOTE 13 – RECENT ACCOUNTING PRONOUNCEMENTS

In March 2018, the FASB issued ASU 2018-05, Income Taxes Amendments to SEC Paragraphs Pursuant to the SEC SAB 118. This ASU provides guidance on income tax accounting implications under the Tax Reform Act. SAB 118 addressed the application of GAAP to situations when a registrant does not have the necessary information available, prepared and analyzed in reasonable detail to complete the accounting for certain income tax effects of the Tax Reform Act and allows companies to record provisional amounts during the re-measurement period not to exceed one year after the enactment date while the accounting impact remains under analysis. This guidance was effective immediately upon issuance. See Note 7 Income Taxes for further details.

Issued but not yet effective accounting pronouncements

In February 2018, the FASB issued guidance that allows companies to reclassify stranded tax effects resulting from the 2017 Tax Cuts and Jobs Act (the Tax Act), from accumulated other comprehensive income to retained earnings. This guidance is effective for all entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years, with early adoption permitted. The new standard is effective for the Company beginning in 2020, with early adoption permitted. We are currently evaluating the effects that the adoption of this guidance will have on our consolidated financial statements and the related disclosures.

In May 2017, the FASB issued guidance to address the situation when a company modifies the terms of a stock compensation award previously granted to an employee. This guidance is effective, and should be applied prospectively, for fiscal years beginning after December 15, 2017. Early adoption is permitted as of the beginning of

an annual period. The new guidance is effective for

22

the Company beginning in 2019. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In March 2017, the FASB issued amendments to the Compensation - Retirement Benefits guidance which requires companies to retrospectively present the service cost component of net periodic benefit cost for pension and retiree medical plans along with other compensation costs in operating income and present the other components of net periodic benefit cost below operating income in the income statement. The guidance also allows only the service cost component of net periodic benefit cost to be eligible for capitalization within inventory or fixed assets on a prospective basis. This guidance is effective, and should be applied retroactively, for fiscal years beginning after December 15, 2017. Early adoption is permitted as of the beginning of an annual period. The new guidance is effective for the Company beginning in 2019. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In January 2017, the FASB issued guidance that simplifies how an entity is required to test goodwill for impairment by eliminating Step 2 from the goodwill impairment test. Step 2 measures a goodwill impairment loss by comparing the implied fair value of a reporting unit's goodwill with the carrying amount of that goodwill. This guidance is effective for annual periods beginning after December 15, 2019, including interim periods within those periods and will be effective for the Company beginning in 2020. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In January 2017, the FASB issued guidance that clarifies the definition of a business, which will impact many areas of accounting including acquisitions, disposals, goodwill, and consolidation. The new standard is intended to help companies and other organizations evaluate whether transactions should be accounted for as acquisitions (or disposals) of assets or businesses. This guidance is effective for annual periods beginning after December 15, 2017, including interim periods within those periods and will be effective for the Company beginning in 2019. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In August 2016, the FASB issued guidance on the Statement of Cash Flows Classification of certain cash receipts and cash payments (a consensus of the FASB Emerging Issues Task Force). This guidance addresses the following eight specific cash flow issues: Debt prepayment or debt extinguishment costs; settlement of zero-coupon debt instruments or other debt instruments with coupon interest rates that are insignificant in relation to the effective interest rate of the borrowing; contingent consideration payments made after a business combination; proceeds from the settlement of insurance claims; proceeds from the settlement of corporate-owned life insurance policies (including bank-owned life insurance policies); distributions received from equity method investees; beneficial interests in securitization transactions; and separately identifiable cash flows and application of the predominance principle. This guidance will be effective for the Company beginning in 2019. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In February 2016, the FASB issued guidance on lease accounting requiring lessees to recognize a right-of-use asset and a lease liability for long-term leases. The liability will be equal to the present value of lease payments. This guidance must be applied using a modified retrospective transition approach to all annual and interim periods presented and is effective for the Company beginning in 2020. We are currently evaluating the impact of the guidance on the Company's financial condition, results of operations and related disclosures.

In May 2014, the FASB issued an Accounting Standards Update related to new revenue recognition guidance that supersedes the existing revenue recognition guidance and most industry-specific guidance applicable to revenue recognition. According to the new guidance, an entity will apply a principles-based five step model to recognize revenue upon the transfer of promised goods or services to customers and in an amount that reflects the consideration

for which the entity expects to be entitled in exchange for those goods or services. Subsequently, the FASB has issued amendments to certain aspects of the guidance including the effective date. The Company will adopt this guidance using the modified retrospective method.

The Company commenced its assessment during the second half of fiscal 2016 and developed a project plan to assess the impact, including impacts to the Company's processes, controls, and financial statement disclosures. The Company is in the process of completing this project plan, in which the Company has surveyed its businesses, completed contract reviews, compared its historical accounting policies and practices to the new requirements, identified potential differences and provided trainings. The Company currently does not expect impacts at its Home and Building Products Segment. The Company does however expect impacts at its Defense Electronics Segment, but believes that those impacts will be immaterial to the Company's overall Financial Statements.

The Company has implemented all new accounting pronouncements that are in effect and that may impact its financial statements, and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

NOTE 14 – DISCONTINUED OPERATIONS

PPC

On November 16, 2017, Griffon announced it entered into a definitive agreement to sell PPC and on February 6, 2018, completed the sale to Berry for \$475,000 in cash, subject to certain post-closing adjustments. As a result, Griffon classified the results of operations of the PPC business as discontinued operations in the Consolidated Statements of Operations for all periods presented and classified the related assets and liabilities associated with the discontinued operations in the consolidated balance sheets. All results and information presented exclude PPC unless otherwise noted. PPC is a global leader in the development and production of embossed, laminated and printed specialty plastic films for hygienic, health-care and industrial products and sells to some of the world's largest consumer products companies. In connection with the sale of PPC, the Company recorded a gain of \$117,625 (\$86,357, net of tax) during the quarter ended June 30, 2018. Installation Services and Other Discontinued Activities

In 2008, as a result of the downturn in the residential housing market, Griffon exited substantially all operating activities of its Installation Services segment which sold, installed and serviced garage doors and openers, fireplaces, floor coverings, cabinetry and a range of related building products, primarily for the new residential housing market. In 2008, Griffon sold eleven units, closed one unit and merged two units into CBP. Griffon substantially concluded its remaining disposal activities in 2009.

Installation Services operating results have been reported as discontinued operations in the Consolidated Statements of Operations and Comprehensive Income (Loss) for all periods presented; Installation Services is excluded from segment reporting. There was no reported revenue in the quarters and nine months ended June 30, 2018 and 2017.

CBP also offers warranties against product defects for periods generally ranging from one to ten years, with limited lifetime warranties on certain door models. Typical warranties require CBP, ClosetMaid and Telephonics to repair or replace the defective products during the warranty period at no cost to the customer. At the time revenue is recognized, Griffon records a liability for warranty costs, estimated based on historical experience, and periodically assesses its warranty obligations and adjusts the liability as necessary. AMES offers an express limited warranty for a period of ninety days on all products from the date of original purchase unless otherwise stated on the product or packaging and subject to certain disclaimers and limitations.

NOTE 18 — COMMITMENTS AND CONTINGENCIES

Legal and environmental

Department of Environmental Conservation of New York State (“DEC”), with ISC Properties, Inc. Lightron Corporation (“Lightron”), a wholly-owned subsidiary of Griffon, once conducted operations at a location in Peekskill in the Town of Cortlandt, New York (the “Peekskill Site”) owned by ISC Properties, Inc. (“ISC”), a wholly-owned subsidiary of Griffon. ISC sold the Peekskill Site in November 1982.

Subsequently, ISC was advised by the DEC that random sampling at the Peekskill Site and in a creek near the Peekskill Site indicated concentrations of solvents and other chemicals common to Lightron's prior plating operations. ISC then entered into a consent order with the DEC in 1996 (the "Consent Order") to perform a remedial investigation and prepare a feasibility study. After completing the initial remedial investigation pursuant to the Consent Order, ISC was required by the DEC, and did accordingly conduct over the next several years, supplemental remedial investigations, including soil vapor investigations, under the Consent Order.

In April 2009, the DEC advised ISC's representatives that both the DEC and the New York State Department of Health had reviewed and accepted an August 2007 Remedial Investigation Report and an Additional Data Collection Summary Report dated January 30, 2009. With the acceptance of these reports, ISC completed the remedial investigation required under the Consent Order and was authorized, accordingly, by the DEC to conduct the Feasibility Study required by the Consent Order. Pursuant to the requirements of the Consent Order and its obligations thereunder, ISC, without acknowledging any responsibility to perform any remediation at the Site, submitted to the DEC in August 2009, a draft feasibility study which recommended for the soil, groundwater and sediment media, remediation alternatives having a current net capital cost value, in the aggregate, of approximately \$5,000. In February 2011, DEC advised ISC it has accepted and approved the feasibility study. Accordingly, ISC has no further obligations under the consent order.

Upon acceptance of the feasibility study, DEC issued a Proposed Remedial Action Plan ("PRAP") that sets forth the proposed remedy for the site. The PRAP accepted the recommendation contained in the feasibility study for remediation of the soil and groundwater media, but selected a different remediation alternative for the sediment medium. After receiving public comments on the PRAP, the DEC issued a Record of Decision ("ROD") in June 2011 that set forth the specific remedies selected and responded to public comments. The remedies selected by the DEC in the ROD are the same remedies as those set forth in the PRAP. At the time of adoption of the ROD, the approximate cost of the remedy proposed by DEC in the PRAP was approximately \$10,000.

It is now expected that DEC will enter into negotiations with potentially responsible parties to request they undertake performance of the remedies selected in the ROD, and if such parties do not agree to implement such remedies, then the State of New York may use State Superfund money to remediate the Peekskill site and seek recovery of costs from such parties. Griffon does not acknowledge any responsibility to perform any remediation at the Peekskill Site.

Improper Advertisement Claim involving Union Tools® Products. Beginning in December 2004, a customer of AMES had been named in various litigation matters relating to certain Union Tools products. The plaintiffs in those litigation matters asserted causes of action against the customer of AMES for improper advertisement to end consumers. The allegations suggested that advertisements led the consumers to believe that Union Tools' hand tools were wholly manufactured within boundaries of the United States. The complaints asserted various causes of action against the customer of AMES under federal and state law, including common law fraud. At some point, the customer may seek indemnity (including recovery of its legal fees and costs) against AMES for an unspecified amount. Presently, AMES cannot estimate the amount of loss, if any, if the customer were to seek legal recourse against AMES.

Union Fork and Hoe, Frankfort, NY site. The former Union Fork and Hoe property in Frankfort, NY was acquired by Ames in 2006 as part of a larger acquisition, and has historic site contamination involving chlorinated solvents, petroleum hydrocarbons and metals. AMES has entered into an Order on Consent with the New York State Department of Environmental Conservation. While the Order is without admission or finding of liability or acknowledgment that there has been a release of hazardous substances at the site, AMES is required to perform a remedial investigation of certain portions of the property and to recommend a remediation option. At the conclusion of the remediation phase to the satisfaction of the DEC, the DEC will issue a Certificate of Completion. AMES has performed significant investigative and remedial activities in the last few years under work plans approved by the DEC, and the DEC has approved the final remedial investigation and feasibility study reports. AMES' recommended

remedial option of excavation and offsite disposal of lead contaminated soils, capping of other areas of the site impacted by other metals and performing limited groundwater monitoring was accepted by the DEC in a Record of Decision issued March 1, 2018. Implementation of the selected remedial alternative is expected to be completed in 2019. AMES has a number of defenses to liability in this matter, including its rights under a previous Consent Judgment entered into between the DEC and a predecessor of AMES relating to the site.

US Government investigations and claims

In general, departments and agencies of the US Government have the authority to investigate various transactions and operations of Griffon, and the results of such investigations may lead to administrative, civil or criminal proceedings, the ultimate outcome of which could be fines, penalties, repayments or compensatory or treble damages. US Government regulations provide that certain findings against a contractor may lead to suspension or debarment from future US Government contracts or the loss of export privileges for a company or an operating division or subdivision. Suspension or debarment could have a material adverse effect on Telephonics because of its reliance on government contracts.

General legal

Griffon is subject to various laws and regulations relating to the protection of the environment and is a party to legal proceedings arising in the ordinary course of business. Management believes, based on facts presently known to it, that the resolution of the matters above and such other matters will not have a material adverse effect on Griffon's consolidated financial position, results of operations or cash flows.

NOTE 19 — CONSOLIDATING GUARANTOR AND NON-GUARANTOR FINANCIAL INFORMATION

Griffon's Senior Notes are fully and unconditionally guaranteed, jointly and severally, on a senior secured basis by the domestic assets of Clopay Building Products Company, Inc., Telephonics Corporation, The AMES Companies, Inc., ATT Southern, Inc., Clopay Ames True Temper Holding Corp., ClosetMaid, LLC, CornellCookson, LLC and Cornell Real Estate Holdings, LLC, all of which are indirectly 100% owned by Griffon. In accordance with Rule 3-10 of Regulation S-X promulgated under the Securities Act of 1933, presented below are condensed consolidating financial information as of June 30, 2018 and September 30, 2017 and for the three and nine months ended June 30, 2018 and 2017. Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

BUSINESS OVERVIEW

Griffon Corporation (the "Company" or "Griffon") is a diversified management and holding company that conducts business through wholly-owned subsidiaries. Griffon oversees the operations of its subsidiaries, allocates resources among them and manages their capital structures. Griffon provides direction and assistance to its subsidiaries in connection with acquisition and growth opportunities as well as in connection with divestitures. In order to further diversify, Griffon also seeks out, evaluates and, when appropriate, will acquire additional businesses that offer potentially attractive returns on capital.

Headquartered in New York, N.Y., the Company was founded in 1959 and is incorporated in Delaware. Griffon is listed on the New York Stock Exchange and trades under the symbol GFF.

On June 4, 2018, Clopay Building Products Company, Inc. ("CBP") acquired CornellCookson, Inc. ("CornellCookson"), a leading US manufacturer and marketer of rolling steel door and grille products designed for commercial, industrial, institutional and retail use, for \$180,000, subject to certain post-closing adjustments. After taking into account the estimated present value of tax benefits under current tax law resulting from the transaction, the effective purchase price is approximately \$170,000. CornellCookson is expected to generate approximately \$200,000 in revenue in the first full year of operations. The accounts, affected for preliminary adjustments to reflect fair market values assigned to assets purchased and liabilities assumed, and results of operations of CornellCookson, are included in the Company's consolidated financial statements from the date of acquisition of June 4, 2018. See Note 3, Acquisitions.

On November 16, 2017, Griffon announced it entered into a definitive agreement to sell Clopay Plastic Products Company, Inc. ("PPC") and on February 6, 2018, completed the sale to Berry Global, Inc. (NYSE:BERY) ("Berry") for \$475,000 in cash, subject to certain post-closing adjustments. As a result, Griffon classified the results of operations of the PPC business as discontinued operations in the Consolidated Statements of Operations for all periods presented and classified the related assets and liabilities associated with the discontinued operations in the consolidated balance sheets. All results and information presented exclude PPC unless otherwise noted. See Note 14, Discontinued Operations.

On October 2, 2017, Griffon acquired ClosetMaid LLC ("ClosetMaid") for approximately \$185,700, inclusive of post-closing adjustments, or \$165,000 net of the estimated present value of tax benefits under the current tax law resulting from the transaction. ClosetMaid, founded in 1965, is a leading North American manufacturer and marketer of closet organization, home storage, and garage storage products, and sells to some of the largest home center retail chains, mass merchandisers, and direct-to-builder professional installers in North America. ClosetMaid is expected to generate approximately \$300,000 in revenue in the first twelve months after the acquisition. The accounts, affected for preliminary adjustments to reflect fair market values assigned to assets purchased and liabilities assumed, and results of operations of ClosetMaid are included in the Company's consolidated financial statements from the date of acquisition of October 2, 2017. See Note 3, Acquisitions.

Griffon currently conducts its operations through two reportable segments:

Defense Electronics segment consists of Telephonics Corporation ("Telephonics"), founded in 1933, a globally recognized leading provider of highly sophisticated intelligence, surveillance and communications solutions for defense, aerospace and commercial customers.

We are focused on acquiring, owning and operating businesses in a variety of industries. We are long-term investors that have substantial experience in a variety of industries. Our intent is to continue the growth of our existing segments and diversify further through investments and acquisitions.

As a result of the decline in the U.S. housing market, in May 2008, we announced the divestiture of our Installation Services business, which was consummated by September 2008. In September 2008, Griffon strengthened its balance sheet by raising \$248,600 in equity through a common stock rights offering and a related investment by GS Direct L.L.C., an affiliate of The Goldman Sachs Group, Inc. Since that time, Griffon has continued to refine and enhance the strategic direction and operating performance of its companies, while strengthening its balance sheet, increasing revenue and earnings through organic growth, cost containment and acquisitions, and returning capital to its shareholders through dividends and stock buybacks. On June 19, 2018, GS Direct completed an underwritten secondary offering to sell 5,583,375 shares of Griffon's common stock, inclusive of the underwriters' 30-day option to purchase additional shares. Following the closing of the offering, GS Direct no longer owns any shares of Griffon.

From October 2008 through May 10, 2017, Griffon's Employee Stock Ownership Plan ("ESOP") purchased 4,562,371 shares of Griffon's common stock, for a total of \$54,186 or \$11.88 per share. During the year ended September 30, 2017, Griffon's ESOP purchased 621,875 shares of common stock for a total of \$10,908 or \$17.54 per share. As of June 30, 2018, the ESOP holds 5,679,662 allocated and unallocated shares, or 12% of Griffon's outstanding shares, with a related loan balance of \$35,046, net of issuance costs.

On September 30, 2010, Griffon purchased AMES for \$542,000. Subsequently, Griffon acquired eight businesses complementary to AMES: the pots and planters business of Southern Sales & Marketing ("Southern Patio"), Northcote Pottery ("Northcote"), the Australian Garden and Tools division of Illinois Tool Works, Inc. ("Cyclone"), Hills Home Living ("Hills"), La Hacienda Limited ("La Hacienda"), Tuscan Landscape Group Ltd ("Tuscan Path"), Harper Brush Works ("Harper") and Kelkay Limited ("Kelkay").

On October 17, 2011, AMES acquired Southern Patio for approximately \$23,000. Southern Patio, a leading designer, manufacturer and marketer of landscape accessories, expanded AMES' product portfolio in the category.

On December 31, 2013, AMES acquired Northcote for approximately \$22,000. Northcote, founded in 1897 and a leading brand in the Australian outdoor planter and decor market, established AMES' presence in this product category in the Australian market.

On May 21, 2014, AMES Australia acquired Cyclone for approximately \$40,000. Cyclone offers a full range of quality garden and hand tool products sold under various leading brand names including Cyclone®, Nylex® and Trojan®, designed to meet the requirements of both the Do-it-Yourself and professional trade segments. The Cyclone acquisition substantially expanded AMES' product portfolio in Australia.

On December 30, 2016, AMES Australia acquired Hills for approximately \$6,051 (AUD 8,400). Hills, founded in 1946, is a market leader in the supply of clothesline, laundry and garden products. The Hills acquisition added to AMES' existing broad category of products and enhanced its lawn and garden product offerings in Australia.

On July 31, 2017 AMES acquired La Hacienda, a leading United Kingdom outdoor living brand of unique heating and garden decor products, for approximately \$10,610 (GBP 8,575). The acquisition of La Hacienda broadened AMES' global outdoor living and lawn and garden business and supported AMES' UK expansion strategy with an in-country

presence. La Hacienda is expected to generate approximately GBP 14,000 of revenue in the first twelve months after the acquisition.

On September 29, 2017, AMES Australia acquired Tuscan Path for approximately \$18,000 (AUD 22,250). Tuscan Path is a leading Australian provider of pots, planters, pavers, decorative stone, and garden decor products, which broadened AMES' outdoor living and lawn and garden business, and strengthened AMES' industry leading position in Australia. Tuscan Path is expected to generate approximately AUD 25,000 in revenue in the first twelve months after the acquisition.

On November 6, 2017, AMES acquired Harper, a division of Horizon Global, for approximately \$5,000. Harper is a leading U.S. manufacturer of cleaning products for professional, home, and industrial use. The acquisition expanded AMES' long-handled tool offering in North America to include brooms, brushes, and other cleaning tools and accessories. The acquisition is expected to contribute approximately \$10,000 in revenue in the first twelve months after the acquisition.

On February 13, 2018, AMES acquired Kelkay, a leading United Kingdom manufacturer and distributor of decorative outdoor landscaping products sold to garden centers, retailers and grocers in the UK and Ireland for approximately \$56,118 (GBP 40,452). This acquisition broadened AMES' product offerings in the market and increased its in-country operational footprint. Kelkay is expected to contribute approximately \$40,000 in revenue in the first twelve months after the acquisition.

In each of August 2011, May 2014, March 2015, July 2015 and August 2016, Griffon's Board of Directors authorized the repurchase of up to \$50,000 of Griffon's outstanding common stock. Under these programs, the Company may purchase shares in the open market, including pursuant to a 10b5-1 plan, or in privately negotiated transactions. At June 30, 2018, \$8,327 remains under the August 2016 Board authorization. On August 1, 2018, Griffon's Board of Directors authorized the repurchase of an additional \$50,000 of Griffon's outstanding common stock.

During 2014, Griffon issued \$600,000 of Senior Notes, the proceeds of which were primarily used to redeem \$550,000 of 7.125% senior notes due 2018. In May 2016, the Company completed an add-on offering of \$125,000 principal amount of Senior Notes, the proceeds of which were used to pay down outstanding revolving loan borrowings under the Credit Agreement. On October 2, 2017, Griffon completed an add-on offering of \$275,000 aggregate principal amount of Senior Notes, the proceeds of which were used to purchase ClosetMaid and to pay down outstanding revolving loan borrowings under the Credit Agreement.

The acquisition of CornellCookson substantially expanded CBP's non-residential product offerings, and added an established professional dealer network focused on rolling steel door and grille products for commercial, industrial, institutional and retail use.

OVERVIEW

Revenue for the quarter ended June 30, 2018 was \$516,550 compared to \$358,114 in the prior year quarter, an increase of approximately 44%, primarily driven by increased revenue at Home & Building Products from both recent acquisitions and organic growth, partially offset by decreased revenue at Telephonics. Income from continuing operations was \$7,442 or \$0.18 per share, compared to \$4,452 or \$0.10 per share, in the prior year quarter. The quarter results from continuing operations included the following:

- Acquisition costs of \$3,598 (\$2,320, net of tax, or \$0.06 per share);
- Special dividend ESOP charges of \$3,220 (\$2,125, net tax, or \$0.05);
- Secondary equity offering costs of \$1,205 (\$795, net tax, or \$0.02); and
- Discrete and certain other tax benefits, net, of \$1,430 or \$0.03 per share.

The prior year quarter included discrete and certain other tax provisions, net, of \$2,522 or \$0.06 per share, primarily related to discrete tax benefits from the federal domestic production activities deduction.

Excluding these items from the respective quarterly results, Income from continuing operations would have been \$11,252 or \$0.27 per share in the current quarter compared to \$1,930 or \$0.04 per share in the prior year quarter.

Revenue for the nine months ended June 30, 2018 was \$1,432,413 compared to \$1,094,198 in the prior year period, an increase of 31%, primarily driven by increased revenue at Home & Building Products from both recent acquisitions and organic growth, partially offset by decreased revenue at Telephonics. Income from continuing operations was \$32,224 or \$0.76 per share, compared to \$13,446 or \$0.31 per share, in the prior year period. The year-to-date results from continuing operations included the following:

- Acquisition costs of \$7,597 (\$5,046, net of tax, or \$0.12 per share);
- Special dividend ESOP charges of \$3,220 (\$2,125, net tax, or \$0.05);
- Secondary equity offering costs of \$1,205 (\$795, net tax, or \$0.02);
- Cost of life insurance benefit of \$2,614 (\$248, net tax, or \$0.01); and
- Discrete and certain other tax benefits, net, of \$24,080 or \$0.56 per share, primarily from the revaluation of deferred tax liabilities related to the December 22, 2017 tax reform bill.

The prior year included net tax benefits of \$6,478 or \$0.15 per share, primarily related to discrete benefits for the adoption of recent Financial Accounting Standards Board guidance, which requires the Company to recognize excess tax benefits from the vesting of equity awards within income tax expense and benefits related to the federal domestic production activities deduction.

Excluding these items from the respective periods, Income from continuing operations would have been \$16,358 or \$0.38 per share in the current year period ended June 30, 2018 compared to \$6,968 or \$0.16 per share in the comparable prior year period.

For the nine months ended June 30, 2018 and 2017, Other income (expense) primarily consisted of \$(236) and \$(556), respectively, of net currency exchange losses in connection with the translation of receivables and payables denominated in currencies other than the functional currencies of Griffon and its subsidiaries, as well as \$1,365 and \$210, respectively, of net investment income.

Provision for income taxes

On December 22, 2017, the “Tax Cuts and Jobs Act” (“TCJA”) was signed into law, significantly impacting several sections of the Internal Revenue Code. ASC 740, Accounting for Income Taxes, requires companies to recognize the effect of tax law changes in the period of enactment even though the effective date for most provisions is for tax years beginning after December 31, 2017, or in the case of certain other provisions, January 1, 2018. Though certain key aspects of the TCJA are effective January 1, 2018 and have an immediate accounting effect, other significant provisions are not effective or may not result in accounting effects for September 30 fiscal year companies until October 1, 2018.

Given the significance of the TCJA, the SEC staff issued Staff Accounting Bulletin No. 118 (SAB 118), which allows registrants to record provisional amounts during a one year “measurement period”. During the measurement period, impacts of the law are expected to be recorded at the time a reasonable estimate for all or a portion of the effects can be made, and provisional amounts can be recognized and adjusted as information becomes available, prepared or analyzed.

Among the significant changes to the U.S. Internal Revenue Code, the TCJA lowers the U.S. federal corporate income tax rate (“Federal Tax Rate”) from 35% to 21% effective January 1, 2018. The Company will compute its income tax expense for the September 30, 2018 fiscal year using a blended Federal Tax Rate of 24.5%. The 21% Federal Tax Rate will apply to fiscal years ending September 30, 2019 and each year thereafter.

The Company has recorded provisional amounts for the effects of the TCJA where accounting is not complete but a reasonable estimate has been determined. The company recorded a \$23,941 benefit on the revaluation of deferred tax liabilities as a provisional amount for the re-measurement of deferred tax assets and liabilities, as well as an amount for deductible executive compensation expense, both of which have been reflected in the tax benefit for the quarter ended December 31, 2017.

A reasonable estimate cannot yet be made and therefore taxes are reflected based on the law in effect prior to the enactment of the TCJA for the impact of the one-time mandatory repatriation transition tax on the net accumulated earnings and profits of a U.S. taxpayer’s foreign subsidiaries, bonus depreciation expensing for qualified property placed in service after September 27, 2017 and the impact on state income taxes.

The provisional amounts incorporate assumptions made based upon the Company's current interpretation of the TCJA and may change as the Company receives additional clarification and implementation guidance.

In accordance with SAB 118 adjustments recorded to the provisional amounts will be reflected within the measurement period through the quarter ended December 31, 2018 and will be included in income from continuing operations and net income as an adjustment to tax expense.

During the quarter ended June 30, 2018, the Company recognized a tax provision of \$1,560 on income before taxes from continuing operations of \$9,002, compared to a tax provision of \$95 on Income before taxes from continuing operations of \$4,547, in the comparable prior year quarter. The current quarter results included acquisition costs of \$3,598 (\$2,320, net of tax), special dividend ESOP charges of \$3,220 (\$2,125, net of tax), secondary equity offering costs of \$1,205 (\$795, net of tax) and discrete and certain other tax provisions, net, of \$1,430. The prior year quarter included discrete and certain other tax benefits, net, of \$2,522. Excluding these items that affect comparability, the effective tax rates for the quarters ended June 30, 2018 and 2017 were 33.9% and 57.5%, respectively.

Table of Contents

During the nine months ended June 30, 2018, the Company recognized a tax benefit of \$22,107 on income before taxes from continuing operations of \$10,117, compared to a tax benefit of \$299 on Income before taxes from continuing operations of \$13,147 in the comparable prior year period. The nine month period ended June 30, 2018 included net tax benefits of \$24,080 primarily from the December 22, 2017 tax reform bill related to revaluation of deferred tax liabilities, \$7,597 (\$5,046 net of tax) of acquisition costs, \$3,220 (\$2,125 net of tax) special dividend ESOP charges, \$1,205 (\$795, net of tax) secondary equity offering costs and \$2,614 (\$248, net of tax) charges related to cost of life insurance benefits. The nine month period ended June 30, 2017 included discrete benefits of \$6,478 primarily from the adoption of Financial Accounting Standards Board guidance which requires the Company to recognize excess tax benefits from the vesting of equity awards within income tax expense. LIQUIDITY AND CAPITAL RESOURCES

Management assesses Griffon's liquidity in terms of its ability to generate cash to fund its operating, investing and financing activities. Significant factors affecting liquidity are: cash flows from operating activities, capital expenditures, acquisitions, dispositions, bank lines of credit and the ability to attract long-term capital under satisfactory terms. Griffon believes it has sufficient liquidity available to invest in its existing businesses and execute strategic acquisitions, while managing its capital structure on both a short-term and long-term basis.

The following table is derived from the Condensed Consolidated Statements of Cash Flows:

Payments related to Telephonics revenue are received in accordance with the terms of development and production subcontracts; certain of such receipts are progress or performance based payments. With respect to HBP, there have been no material adverse impacts on payment for sales.

A small number of customers account for, and are expected to continue to account for, a substantial portion of Griffon's consolidated revenue from continuing operations. For the nine months ended June 30, 2018:

• The United States Government and its agencies, through either prime or subcontractor relationships, represented 10% of Griffon's consolidated revenue and 62% of Telephonics' revenue.

• The Home Depot represented 20% of Griffon's consolidated revenue and 24% of HBP's revenue.

No other customer exceeded 10% of consolidated revenue. Future operating results will continue to substantially depend on the success of Griffon's largest customers and our ongoing relationships with them. Orders from these customers are subject to change and may fluctuate materially. The loss of all or a portion of volume from any one of these customers could have a material adverse impact on Griffon's liquidity and operations.

On October 2, 2017, in an unregistered offering through a private placement under Rule 144A, Griffon completed the add-on offering of \$275,000 principal amount of its 5.25% senior notes due 2022, at 101.00% of par, to Griffon's previously issued \$125,000 principal amount of its 5.25% senior notes due 2022, at 98.76% of par, completed on May

18, 2016 and \$600,000 5.25% senior notes due 2022, at par, completed on February 27, 2014 (collectively the “Senior Notes”). As of June 30, 2018, outstanding Senior Notes due totaled \$1,000,000; interest is payable semi-annually on March 1 and September 1. The net proceeds of the \$275,000 add-on offering were used, among other things, to acquire ClosetMaid with the remaining proceeds used to pay down outstanding loan borrowings under Griffon's Credit Agreement. The net proceeds of the previously issued \$125,000 add-on offering were used to pay down outstanding revolving loan borrowings under Griffon's Credit Agreement.

The Senior Notes are senior unsecured obligations of Griffon guaranteed by certain domestic subsidiaries, and subject to certain covenants, limitations and restrictions. On February 5, 2018, July 20, 2016 and June 18, 2014, Griffon exchanged all of the \$275,000, \$125,000 and \$600,000 Senior Notes, respectively, for substantially identical Senior Notes registered under the Securities Act of 1933 via an exchange offer. The fair value of the Senior Notes approximated \$972,500 on June 30, 2018 based upon quoted

market prices (level 1 inputs). In connection with the issuance and exchange of the \$275,000 senior notes, Griffon capitalized \$8,472 of underwriting fees and other expenses; Griffon capitalized \$3,016 of underwriting fees and other expenses in connection with the \$125,000 senior notes; and Griffon capitalized \$10,313 in connection with the previously issued \$600,000 senior notes. All capitalized fees will amortize over the term of the notes.

On March 22, 2016, Griffon amended the Credit Agreement to increase the credit facility from \$250,000 to \$350,000, extend its maturity from March 13, 2020 to March 22, 2021, and modify certain other provisions of the facility. On October 2, 2017 and on May 31, 2018, Griffon amended the Credit Agreement in association with the ClosetMaid acquisition and the CornellCookson acquisition, respectively, to modify the net leverage covenant. The facility includes a letter of credit sub-facility with a limit of \$50,000 and a multi-currency sub-facility of \$50,000. The Credit Agreement provides for same day borrowings of base rate loans. Borrowings under the Credit Agreement may be repaid and re-borrowed at any time, subject to final maturity of the facility or the occurrence of an event of default under the Credit Agreement. Interest is payable on borrowings at either a LIBOR or base rate benchmark rate, in each case without a floor, plus an applicable margin, which adjusts based on financial performance. Current margins are 1.75% for base rate loans and 2.75% for LIBOR loans. The Credit Agreement has certain financial maintenance tests including a maximum total leverage ratio, a maximum senior secured leverage ratio and a minimum interest coverage ratio, as well as customary affirmative and negative covenants and events of default. The negative covenants place limits on Griffon's ability to, among other things, incur indebtedness, incur liens, and make restricted payments and investments. Borrowings under the Credit Agreement are guaranteed by Griffon's material domestic subsidiaries and are secured, on a first priority basis, by substantially all domestic assets of the Company and the guarantors, and a pledge of not greater than 65% of the equity interest in Griffon's material, first-tier foreign subsidiaries (except that a lien on the assets of Griffon's material domestic subsidiaries securing a limited amount of the debt under the Credit Agreement relating to Griffon's Employee Stock Ownership Plan ("ESOP") ranks pari passu with the lien granted on such assets under the Credit Agreement). At June 30, 2018, there were \$69,912 in outstanding borrowings and standby letters of credit were \$15,166 under the Credit Agreement; \$264,922 was available, subject to certain loan covenants, for borrowing at that date.

On January 17, 2017, Griffon settled the convertible debt for \$173,855 with \$125,000 in cash, utilizing borrowings under the Credit Agreement, and \$48,858, or 1,954,993 shares of common stock issued from treasury.

The loans had an interest rate of LIBOR plus 1.50%. The loans were paid off during the quarter ended March 31, 2018.

In August 2016, Griffon's ESOP entered into an agreement that refinanced the existing ESOP loan into a new Term Loan in the amount of \$35,092 (the "Agreement"). During 2017, Griffon's ESOP purchased 621,875 shares of common stock for a total of \$10,908 or \$17.54 per share, under a borrowing line that has now been fully utilized. On June 30, 2017, the Term Loan and Line Note were combined into a single Term Loan. The Term Loan bears interest at LIBOR plus 2.50%. The Term Loan requires a quarterly principal payment of \$569 with a balloon payment due at maturity on March 22, 2020. As of June 30, 2018, \$35,046, net of issuance costs, was outstanding under the Term Loan. The Term Loan is secured by shares purchased with the proceeds of the loan and with a lien on a specific amount of Griffon assets (which lien ranks pari passu with the lien granted on such assets

under the Credit Agreement) and is guaranteed by Griffon.

The leases both mature in 2022, and bear interest at a fixed rates of approximately 5.0% and 8.0%, respectively. CRITICAL ACCOUNTING POLICIES

The preparation of Griffon's consolidated financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the use of estimates, assumptions, judgments and subjective interpretations of accounting principles that have an impact on assets, liabilities, revenue and expenses. These estimates can also affect supplemental information contained in public disclosures of Griffon, including information regarding contingencies, risk and its financial condition. These estimates, assumptions and judgments are evaluated on an ongoing basis and based on historical experience, current conditions and various other assumptions, and form the basis for estimating the carrying values of assets and liabilities, as well as identifying and assessing the accounting treatment for commitments and contingencies. Actual results may materially differ from these estimates. There have been no changes in Griffon's critical accounting policies from September 30, 2017.

Griffon's significant accounting policies and procedures are explained in the Management Discussion and Analysis section in the Annual Report on Form 10-K for the year ended September 30, 2017. In the selection of the critical accounting policies, the objective is to properly reflect the financial position and results of operations for each reporting period in a consistent manner that can be understood by the reader of the financial statements. Griffon considers an estimate to be critical if it is subjective and if changes in the estimate using different assumptions would result in a material impact on the financial position or results of operations of Griffon.

RECENT ACCOUNTING PRONOUNCEMENTS

The FASB issues, from time to time, new financial accounting standards, staff positions and emerging issues task force consensus. See the Notes to Condensed Consolidated Financial Statements for a discussion of these matters.

Such statements relate to, among other things, income (loss), earnings, cash flows, revenue, changes in operations, operating improvements, industries in which Griffon Corporation (the "Company" or "Griffon") operates and the United States and global economies. Statements in this Form 10-Q that are not historical are hereby identified as "forward-looking statements" and may be indicated by words or phrases such as "anticipates," "supports," "plans," "projects," "expects," "believes," "should," "would," "hope," "forecast," "management is of the opinion," "may," "will," "estimates," "intends," "explores," "opportunities," the neg these expressions, use of the future tense and similar words or phrases. Such forward-looking statements are subject to inherent risks and uncertainties that could cause actual results to differ materially from those expressed in any forward-looking statements. These risks and uncertainties include, among others: current economic conditions and uncertainties in the housing, credit and capital markets; Griffon's ability to achieve expected savings from cost control, restructuring, integration and disposal initiatives; the ability to identify and successfully consummate and integrate value-adding acquisition opportunities; increasing competition and pricing pressures in the markets served by Griffon's operating companies; the ability of Griffon's operating companies to expand into new geographic and product markets and to anticipate and meet customer demands for new products and product enhancements and innovations; reduced military spending by the government on projects for which Griffon's Telephonics Corporation supplies products, including as a result of defense budget cuts or other government actions; the ability of the federal government to fund

and conduct its operations; increases in the cost of raw materials such as resin, wood and steel; changes in customer demand or loss of a material customer at one of Griffon's operating companies; the potential impact of seasonal variations and uncertain weather patterns on certain of Griffon's businesses; political events that could impact the worldwide economy; a downgrade in Griffon's credit ratings; changes in international economic conditions including interest rate and currency exchange fluctuations; the reliance by certain of Griffon's businesses on particular third party suppliers and manufacturers to meet customer demands; the relative mix of products and services offered by Griffon's businesses, which impacts margins and operating efficiencies; short-term capacity constraints or prolonged excess capacity; unforeseen developments in contingencies, such as litigation, regulatory and environmental matters; unfavorable results of government agency contract audits of Telephonics Corporation; Griffon's ability to adequately protect and maintain the validity of patent and other intellectual property rights; the cyclical nature of the businesses of certain of Griffon's operating companies; and possible terrorist threats and actions and their impact on the global economy. Additional important factors that could cause the statements made in this Quarterly Report on Form 10-Q or the actual results of operations or financial condition of Griffon to differ are discussed under the caption "Item 1A. Risk Factors" and "Special Notes Regarding Forward-Looking Statements" in

Table of Contents

Griffon's Annual Report on Form 10-K for the year ended September 30, 2017. Readers are cautioned not to place undue reliance on these forward-looking statements. These forward-looking statements speak only as of the date made. Griffon undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.

Item 3 - Quantitative and Qualitative Disclosure About Market Risk

Griffon's business' activities necessitates the management of various financial and market risks, including those related to changes in interest rates, foreign currency rates and commodity prices.

Interest Rates

Griffon's exposure to market risk for changes in interest rates relates primarily to variable interest rate debt and investments in cash and equivalents.

The Credit Agreement and certain other of Griffon's credit facilities have a LIBOR-based variable interest rate. Due to the current and expected level of borrowings under these facilities, a 100 basis point change in LIBOR would not have a material impact on Griffon's results of operations or liquidity.

Foreign Exchange

Griffon conducts business in various non-US countries, primarily in Canada, Australia, United Kingdom, Mexico and China; therefore, changes in the value of the currencies of these countries affect Griffon's financial position and cash flows when translated into US Dollars. Griffon has generally accepted the exposure to exchange rate movements relative to its non-US operations. Griffon may, from time to time, hedge its currency risk exposures. A change of 10% or less in the value of all applicable foreign currencies would not have a material effect on Griffon's financial position and cash flows.

Item 4 - Controls and Procedures

Under the supervision and with the participation of Griffon's Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), Griffon's disclosure controls and procedures, as defined by Exchange Act Rule 13a-15(e) and 15d-15(e), were evaluated as of the end of the period covered by this report. Based on that evaluation, Griffon's CEO and CFO concluded that Griffon's disclosure controls and procedures were effective at the reasonable assurance level.

Griffon is continuing to integrate CornellCookson and ClosetMaid into its existing control procedures. Such integration may lead Griffon to modify certain controls for future period, but Griffon does not expect changes, if any, to significantly affect its internal control over financial reporting

During the period covered by this report, there were no changes in Griffon's internal control over financial reporting which materially affected, or are reasonably likely to materially affect, Griffon's internal control over financial reporting.

Limitations on the Effectiveness of Controls

Griffon believes that a control system, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the control system are met, and no evaluation of controls can provide absolute assurance that all controls issues and instances of fraud, if any, within a company have been detected. Griffon's disclosure controls and procedures, as defined by Exchange Act Rule 13a-15(e) and 15d-15(e), are designed to provide reasonable assurance

of achieving their objectives.

The risks described in Griffon's Annual Report on Form 10-K are not the only risks facing Griffon.
