NOTE A -- BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Buckeye Technologies Inc. and its subsidiaries (the Company) have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended December 31, 2000 are not necessarily indicative of the results that may be expected for the year ended June 30, 2001. All significant intercompany accounts and transactions have been eliminated in consolidation. For further information and a listing of the Company's significant accounting policies, refer to the financial statements and notes thereto included in the Company's annual report on Form 10-K for the year ended June 30, 2000.

Certain amounts in the financial statements for the period ended December 31, 1999 have been reclassified to conform with the financial statements for the period ended December 31, 2000.

NOTE B - BUSINESS COMBINATION

On October 1, 1999, the Company acquired essentially all of the assets of Walkisoft, UPM-Kymmene's nonwovens business for \$29,501 in cash and \$83,963 (\$88,000 in notes payable, net of \$4,037 discount) in debt payable to UPM-Kymmene. The acquisition of Walkisoft added manufacturing facilities in Steinfurt, Germany and Gaston County, North Carolina, as well as engineering operations in Finland. On August 1, 2000, the Company acquired the cotton cellulose business of Fibra, S.A. (Fibra), located in Americana, Brazil for approximately \$36.5 million, including related acquisition costs. The acquisition has been funded using borrowings from the Company's bank credit facility. Both acquisitions were accounted for using the purchase method of

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 10-Q

accounting. The allocation of the purchase price for Fibra is preliminary as the Company is awaiting a final appraisal.

The consolidated operating results of Walkisoft and Fibra have been included in the consolidated statements of income from the dates of the acquisition. The following unaudited pro forma results of operations assume that the acquisitions occurred at the beginning of the periods presented.

Pro forma results of operations	Six Months Ended December 31	
	2000	1999

Net sales	\$355,342	\$358,504
Net income	28,812	26,417
Basic earnings per share	0.83	0.75
Diluted earnings per share	0.80	0.73

6

The pro forma financial information is presented for information purposes only and is not necessarily indicative of the operating results that would have occurred had the business combination been consummated as of the above dates, nor is it necessarily indicative of future operating results.

NOTE D -- COMPREHENSIVE INCOME

The components of comprehensive income consist of the following:

Net income.....	\$13,318	\$14,238	\$28,812

Comprehensive income.....	\$19,622	\$ 7,163	\$20,601
	=====	=====	=====

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 10-Q

The Company has increased its foreign assets through various acquisitions. The change in the foreign currency translation adjustment is primarily due to fluctuations in the exchange rate of the Euro and the US Dollar.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Net sales for the three months ended December 31, 2000 were \$175.8 million compared to \$183.7 million for the same period in the prior fiscal year, a decrease of \$7.9 million or 4.3%. Net sales for the six-month period ended December 31, 2000 were \$354.7 million compared to \$337.1 million for the same period in the prior fiscal year, an increase of \$17.6 million or 5.2%. The decrease for the three month period is mainly due to lower shipment volumes. The increase for the six month period is mainly due to the acquisition of Walkisoft.

Operating income for the three months ended December 31, 2000 was \$30.9 million compared to \$34.1 million for the same period in the prior fiscal year, a decrease of \$3.2 million or 9.4%. The decrease is due primarily to the increased cost of cotton fibers and start-up costs related to folding nonwovens materials. Operating income for the six months ended December 31, 2000 was \$65.8 million compared to \$64.1 million for the same period in the prior fiscal year, an increase of \$1.7 million or 2.7%. The increase is primarily due to higher prices on fluff pulp sales.

Net interest expense and amortization of debt costs were \$11.3 million for both the three months ended December 31, 2000 and the three months ended December 31, 1999. Net interest expense and amortization of debt costs were \$22.6 million for the six months ended December 31, 2000 compared to \$20.6 million for the same period of the prior fiscal year. This increase was primarily due to higher debt levels.

Other expenses for the quarter ended December 31, 2000 were \$0.4 million compared to \$1.2 million for the quarter ended December 31, 1999. Other expenses for the six months ended December 31, 2000 were \$0.6 million compared to \$2.3 million for the six months ended December 31, 1999. The decrease in both periods was due to higher gains from foreign currency transactions offsetting amortization of goodwill and intellectual properties.

The Company's effective tax rate of 30.8% for the three months ended December 31, 2000 is lower than the effective tax rate of 33.9% for the three months ended December 31, 1999 primarily due to a year-to-date adjustment for recently enacted lower tax rates in Germany.

Financial Condition

Cash Flow

Cash provided by operating activities for the six months ended December 31, 2000 was \$22.8 million. These funds were used, along with additional borrowings from the credit facility, to construct, purchase, modernize and upgrade production equipment and facilities, to repurchase stock and to make the first \$22 million note payment to UPM-Kymmene for the purchase of Walkisoft.

Edgar Filing: BUCKEYE TECHNOLOGIES INC - Form 10-Q

During the six months ended December 31, 2000, the Company repurchased 426,800 shares of common stock, pursuant to a 5,000,000 share repurchase plan. The total number of shares repurchased through this plan through December 31, 2000 is 4,666,800. On January 16, 2001, the Board of Directors authorized the repurchase of an additional one million shares of common stock to bring the total shares authorized to be repurchased to 6,000,000 shares.

8

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (cont'd)

Liquidity and Capital Resources

In May 2001, the borrowing availability on the Company's existing bank credit facility will be reduced by \$75 million. In anticipation of this reduction, the Company is currently working on having a new credit facility in place by early April 2001. With this new credit facility, the Company believes that its cash flow from operations, together with the borrowings available under this credit facility will be sufficient to fund capital expenditures (including the completion of the construction of the airlaid nonwovens machine at the Gaston County, North Carolina plant and environmental expenditures), meet operating expenses, fund authorized common stock repurchases, and service all debt requirements for the foreseeable future. At December 31, 2000, the Company had unused borrowing availability of approximately \$93 million on its bank credit facility. The Company has also announced the deferral of the second airlaid nonwoven machine at the facility in Cork, Ireland and now estimates capital expenditures for the fiscal year ending June 30, 2001 to total approximately \$155 million.
