PART I FINANCIAL INFORMATION

**Item 1. *Financial Statements*
Introductory Comments**

The Consolidated Financial Statements included herein have been prepared by Kansas City Southern, without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). As used herein, KCS or the Company may refer to Kansas City Southern or, as the context requires, to one or more subsidiaries of Kansas City Southern. Certain information and footnote disclosures normally included in financial statements prepared in accordance with U.S. generally accepted accounting principles (U.S. GAAP) have been condensed or omitted, pursuant to such rules and regulations. The Company believes that the disclosures are adequate to enable a reasonable understanding of the information presented. The Consolidated Financial Statements and Management's Discussion and Analysis of Financial Condition and Results of Operations included in this Form 10-Q should be read in conjunction with the consolidated financial statements and the related notes, as well as Management's Discussion and Analysis of Financial Condition and Results of Operations, included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. Results for the three and six months ended June 30, 2010 are not necessarily indicative of the results expected for the full year ending December 31, 2010.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements****1. Accounting Policies, Interim Financial Statements and Basis of Presentation**

In the opinion of the management of KCS, the accompanying unaudited consolidated financial statements contain all adjustments necessary for a fair presentation of the results for interim periods. All adjustments made were of a normal and recurring nature. Certain information and footnote disclosure normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted. These consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009. The results of operations for the three and six months ended June 30, 2010 are not necessarily indicative of the results to be expected for the full year ending December 31, 2010. Certain prior year amounts have been reclassified to conform to the current year presentation.

During the first quarter of 2010, the Company elected to change its accounting policy for rail grinding costs from a capitalization method to a direct expense method. Previously, the Company capitalized rail grinding costs as an improvement to the rail. The Company believes it is preferable to expense these costs as incurred to eliminate the subjectivity in determining the period of benefit associated with rail grinding over which to depreciate the associated capitalized costs. The Company has reflected this change as a change in accounting principle from an accepted accounting principle to a preferable accounting principle in accordance with Accounting Standards Codification 250 Accounting for Changes and Error Corrections. Comparative financial statements for all periods have been adjusted to apply the change in accounting principle retrospectively.

The following line items in the consolidated statement of operations were affected by the change in accounting principle (*in millions, except per share amounts*):

	Three Months Ended June 30, 2009		
	As reported	As adjusted	Change
Compensation and benefits	\$ 79.1	\$ 79.0	\$ (0.1)
Purchased services	46.0	46.6	0.6
Depreciation and amortization	47.6	47.4	(0.2)
Income before income taxes and noncontrolling interest	8.9	8.6	(0.3)
Income tax expense	1.6	1.5	(0.1)
Net income	7.3	7.1	(0.2)
Diluted earnings per share	\$ 0.07	\$ 0.07	\$

	Six Months Ended June 30, 2009		
	As reported	As adjusted	Change
Compensation and benefits	\$ 157.1	\$ 157.0	(0.1)
Purchased services	90.5	92.2	\$ 1.7
Depreciation and amortization	94.7	94.3	(0.4)
Income before income taxes and noncontrolling interest	7.1	5.9	(1.2)
Income tax expense	2.0	1.6	(0.4)
Net income	5.1	4.3	(0.8)
Diluted loss per share	\$ (0.01)	\$ (0.02)	\$ (0.01)

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

The following line items in the consolidated balance sheet were affected by the change in accounting principle (*in millions*):

	December 31, 2009		
	As reported	As adjusted	Change
Property and equipment (including concession assets), net	\$ 4,747.2	\$ 4,722.4	\$ (24.8)
Deferred income tax liability	567.1	558.6	(8.5)
Other noncurrent liabilities and deferred credits	247.7	247.2	(0.5)
Retained earnings	1,394.6	1,378.8	(15.8)
Total equity	2,341.6	2,325.8	(15.8)

As of January 1, 2008, the cumulative effect of the change in accounting principle on property and equipment (including concession assets), deferred income tax liability, other noncurrent liabilities and deferred credits and retained earnings was (\$20.5) million, (\$7.3) million, (\$0.4) million and (\$12.8) million, respectively.

During the third quarter of 2009, the Company identified that changes in accounts payable and accrued liabilities related to capital spending had not been correctly presented in the Company's prior period consolidated cash flow statements. Changes in these accruals had previously been classified within cash flows from operating activities and should have been classified as capital expenditures within investing activities, in order to report capital expenditures on a cash basis rather than on an accrual basis. The accompanying consolidated cash flow statement for the six months ended June 30, 2010 presents capital expenditures on a cash basis. The accompanying consolidated cash flow statement for the six months ended June 30, 2009 has been revised to present capital expenditures on a cash basis. This revision did not impact the change in cash and cash equivalents as previously reported, however, net cash provided by operating activities, capital expenditures and cash used by investing activities increased by \$48.0 million for the six months ended June 30, 2009. This revision did not impact operating income or net income, working capital, or any earnings per share measures as previously reported.

The change in accounting principle and the revision related to the classification of capital expenditures on a cash basis rather than on an accrual basis did not have an impact on the change in cash and cash equivalents in the consolidated statement of cash flows; however, the following line items were affected by these adjustments (*in millions*):

	Six Months Ended June 30, 2009		
	As reported	As adjusted	Change
Net cash provided by operating activities	\$ 39.1	\$ 85.4	\$ 46.3
Net cash used for investing activities	(183.7)	(230.0)	(46.3)

2. Earnings (Loss) Per Share Data

Basic earnings (loss) per common share is computed by dividing income (loss) available to common stockholders by the weighted average number of common shares outstanding for the period. Nonvested stock awards granted to employees and officers are included in weighted average shares as they are earned for purposes of computing basic earnings (loss) per common share. Diluted earnings (loss) per share adjusts basic earnings (loss) per common share for the effects of potentially dilutive common shares, if the effect is not anti-dilutive. Potentially dilutive common shares include the dilutive effects of shares issuable upon the conversion of preferred stock to common stock and shares issuable under the Stock Option and Performance Award Plan.

The following table reconciles the weighted average shares used for the basic earnings (loss) per share computation to the shares used for the diluted earnings (loss) per share computation (*in thousands*):

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

	Three Months Ended June 30,		Six Months Ended June 30,	
	2010	2009	2010	2009
Basic shares	99,907	91,955	97,946	91,425
Effect of dilution	459	7,453	514	
Diluted shares	100,366	99,408	98,460	91,425

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

For the three and six months ended June 30, 2010, the Company excluded from the computation of dilutive shares the assumed conversion of preferred stock to 7,000,000 shares of common stock and approximately 205,000 stock options because the impact would have been anti-dilutive. For the three months ended June 30, 2009, approximately 72,000 stock options were excluded from the computation of diluted shares because the impact would have been anti-dilutive. For the six months ended June 30, 2009, the assumed conversion of preferred stock to 7,000,000 shares of common stock and approximately 545,000 stock options were excluded from the computation of diluted shares because the impact would have been anti-dilutive due to the loss reported in the period.

There are no reconciling items between net income (loss) available to common stockholders for purposes of basic earnings (loss) per share and net income (loss) available to common stockholders for purposes of diluted earnings (loss) per share.

3. Property and Equipment (including Concession Assets)

Property and equipment, including concession assets, and related accumulated depreciation and amortization are summarized below (*in millions*):

	June 30, 2010	December 31, 2009
Land	\$ 178.2	\$ 162.9
Concession land rights	137.6	137.6
Road property	4,789.2	4,644.4
Equipment	690.0	679.3
Technology and other	127.3	125.3
Construction in progress	117.4	165.6
Total property	6,039.7	5,915.1
Accumulated depreciation and amortization	1,250.1	1,192.7
Net property	\$ 4,789.6	\$ 4,722.4

Concession assets, net of accumulated amortization of \$280.6 million and \$259.4 million, totaled \$1,774.9 million and \$1,768.0 million at June 30, 2010 and December 31, 2009, respectively.

4. Fair Value Measurements

The Company's short term financial instruments include cash and cash equivalents, accounts receivable, and accounts payable. The carrying value of the short term financial instruments approximates the fair value due to their short term nature.

The fair value of the Company's debt is estimated using quoted market prices when available. When quoted market prices are not available, fair value is estimated based on current market interest rates for debt with similar maturities and credit quality. The fair value of the Company's debt was \$1,771.4 million and \$2,031.1 million at June 30, 2010 and December 31, 2009, respectively. The financial statement carrying value was \$1,700.0 million and \$1,980.0 million at June 30, 2010 and December 31, 2009, respectively.

Assets and liabilities recognized at fair value are required to be classified into a three-level hierarchy. In general, fair values determined by Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and inputs other than quoted prices that are observable for the asset or liability. Level 3 inputs are unobservable inputs for the asset or liability, and include situations where there is little, if any, market activity for the asset or liability. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value in its entirety requires judgment and considers factors specific to the asset or liability.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

The following tables present the Company's liabilities measured at fair value on a recurring basis (*in millions*):

	Fair Value Measurements			Net Liabilities at Fair Value
	Level 1	Level 2	Level 3	
June 30, 2010				
Interest rate contracts	\$	\$ 2.3	\$	\$ 2.3
Fuel swap contracts		2.2		2.2
Net liabilities, at fair value	\$	\$ 4.5	\$	\$ 4.5
December 31, 2009				
Interest rate contracts	\$	\$ 4.9	\$	\$ 4.9
Net liabilities, at fair value	\$	\$ 4.9	\$	\$ 4.9

The Company determines the fair values of its derivative financial instrument positions based upon pricing models using inputs observed from actively quoted markets. Pricing models take into consideration the contract terms as well as other inputs, including forward interest rate curves.

5. Derivative Instruments

The Company does not engage in the trading of derivative financial instruments except where the Company's objective is to manage the variability of forecasted interest payments attributable to changes in interest rates or fuel price risk. In general, the Company enters into derivative transactions in limited situations based on management's assessment of current market conditions and perceived risks. However, management intends to respond to evolving business and market conditions and in doing so, may enter into such transactions more frequently as deemed appropriate.

Credit Risk. As a result of the use of derivative instruments, the Company is exposed to counterparty credit risk. The Company manages the counterparty credit risk by entering into contracts with large financial institutions with which the Company has an established banking relationship. As of June 30, 2010, the Company did not expect any losses as a result of default of its counterparties.

Interest Rate Swaps. During 2008, the Company entered into five forward starting interest rate swaps, which have been designated as cash flow hedges. The forward starting interest rate swaps effectively convert interest payments from variable rates to fixed rates. The swaps are highly effective and as a result there will be de minimus earnings impact associated with ineffectiveness of these hedges. The hedging instruments have an aggregate notional amount of \$250.0 million at an average fixed rate of 2.71%, with forward starting settlements indexed to the three-month LIBOR occurring every quarter, expiring September 2010 through March 2011.

Fuel Derivative Transactions. In the first quarter of 2010, the Company entered into fuel swap agreements, which have not been designated as hedging instruments. Gains and losses for derivatives which have not been designated as hedging instruments are recorded in fuel expense in the consolidated statement of operations. As of June 30, 2010, the Company has outstanding fuel swap agreements for 15.3 million gallons of diesel fuel purchases through the end of 2010 at an average swap price of \$2.24 per gallon.

In January 2009, the Company entered into fuel swap agreements, which had been designated as cash flow hedges. The effective portion of the gain or loss on the derivative instruments was reported as a component of other comprehensive income (loss) and reclassified into earnings in the same period or periods during which the hedged transaction affected earnings. Gains and losses on the derivative representing either hedge ineffectiveness or hedge components excluded from the assessment of the effectiveness were recognized in current earnings. During the second

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

quarter of 2009, it became probable that the hedged transactions would not occur as forecasted. Therefore, the hedging relationship was dedesignated on May 31, 2009 and hedge accounting was discontinued. Changes in the fair value of the derivative instrument after dedesignation were recorded in earnings.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

The following table presents the fair value of derivative instruments included in the consolidated balance sheet (*in millions*):

	Balance Sheet Location	Liability Derivatives	
		June 30, 2010	December 31, 2009
Derivatives designated as hedging instruments:			
Interest rate contracts	Accounts payable & accrued liabilities	\$ 2.3	\$ 3.2
Interest rate contracts	Other non-current liabilities & deferred credits		1.7
Total derivatives designated as hedging instruments			
		2.3	4.9
Derivatives not designated as hedging instruments:			
Fuel swap contracts	Accounts payable & accrued liabilities	2.2	
Total derivatives not designated as hedging instruments			
		2.2	
Total liability derivatives		\$ 4.5	\$ 4.9

The following table presents the amounts affecting the consolidated statement of operations for the three months ended June 30 (*in millions*):

Derivatives in Cash	Amount of Gain/(Loss) Recognized in OCI on Derivative (Effective Portion) 2010 2009		Location of Gain/(Loss) Reclassified from Accumulated OCI into Income (Effective Portion)	Amount of Gain/(Loss) Reclassified from Accumulated OCI into Income (Effective Portion) 2010 2009		Location of Gain/ (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)		Amount of Gain/(Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing) 2010 2009	
Interest rate contracts	\$ 0.1	\$ (0.5)	Interest expense	\$ (1.6)	\$ (0.9)	Interest expense	\$	\$

Total			\$ (2.9)	\$ 0.8

6. Acquisition

On March 3, 2010, the Company acquired an intermodal facility in Mexico. The aggregate purchase price for the intermodal facility was \$25.1 million, which was funded by existing cash. As a result of the final valuation completed in the second quarter of 2010, the Company recorded goodwill of \$2.6 million and identifiable intangible assets of \$2.0 million. The acquisition is not material to the Company's consolidated financial statements.

7. Common Stock Offering

On May 4, 2010, the Company completed a public offering of 5,769,230 shares of its common stock at a price of \$39 per share. The Company received net proceeds of approximately \$214.9 million after deducting offering expenses, underwriting discounts and commissions.

8. Long-Term Debt

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

On January 7, 2010, pursuant to an offer to purchase, Kansas City Southern de México, S.A. de C.V. (KCSM), a wholly-owned subsidiary of KCS, commenced a cash tender offer for a portion of its 9³/₈ % senior unsecured notes due May 1, 2012 (the 9³/₈% Senior Notes). On January 22, 2010, the Company purchased \$290.0 million of the tendered 9³/₈% Senior Notes in accordance with the terms and conditions of the tender offer set forth in the offer to purchase using the proceeds received from the issuance of \$300.0 million of KCSM 8.0% senior unsecured notes due February 1, 2018 (the KCSM 8.0% Senior Notes). Additionally, on February 1, 2010, KCSM repurchased \$6.3 million of the 9³/₈% Senior Notes. KCSM recorded debt retirement costs of \$14.9 million in the first quarter of 2010.

On January 22, 2010, KCSM issued the \$300.0 million KCSM 8.0% Senior Notes due February 1, 2018, which bear interest semiannually at a fixed annual rate of 8.0%. The KCSM 8.0% Senior Notes were issued at a discount to par value, resulting in a \$4.3 million discount and a yield to maturity of 8¹/₄%. KCSM used the net proceeds from the issuance of the KCSM 8.0% Senior Notes and cash on hand to purchase \$290.0 million in principal amount of the 9³/₈% Senior Notes tendered under an offer to purchase and pay all fees and expenses incurred in connection with the KCSM 8.0% Senior Notes offering and tender offer. The KCSM 8.0% Senior Notes are redeemable at KCSM's option, in whole or in part, on and after February 1, 2014, at the following redemption prices (expressed as percentages of principal amount) plus any accrued and unpaid interest: 2014 104.000%, 2015 102.000%, 2016 100.000%. In addition, KCSM may redeem up to 35% of the KCSM 8.0% Senior Notes any time prior to February 1, 2013 from the proceeds of the sale of capital stock in KCSM or KCS and are redeemable, in whole but not in part, at KCSM's option at their principal amount in the event of certain changes in the Mexican withholding tax rate.

Table of Contents

Kansas City Southern

Notes to Consolidated Financial Statements (Continued)

The KCSM 8.0% Senior Notes are denominated in dollars and are unsecured, unsubordinated obligations, rank *pari passu* in right of payment with KCSM's existing and future unsecured, unsubordinated obligations, and are senior in right of payment to KCSM's future subordinated indebtedness. In addition, the KCSM 8.0% Senior Notes include certain covenants which are customary for these types of debt instruments and borrowers with similar credit ratings. The KCSM 8.0% Senior Notes contain certain covenants that, among other things, prohibit or restrict KCSM from taking certain actions, including KCSM's ability to incur debt, pay dividends or make other distributions in respect of its stock, issue guarantees, enter into certain transaction with affiliates, make restricted payments, sell certain assets, create liens, engage in sale-leaseback transactions and engage in mergers, divestitures and consolidations. However, these limitations will be subject to a number of important qualifications and exceptions.

On March 16, 2010, KCS and The Kansas City Southern Railway Company (KCSR), a wholly-owned subsidiary of KCS, entered into a Second Amendment (Amendment No. 2) to KCSR's Amended and Restated Credit Agreement dated April 28, 2006, as amended by Amendment No. 1 dated as of May 31, 2007 (the Existing Credit Agreement), which extends the maturity of the revolving credit facility of the Existing Credit Agreement from April 28, 2011 to April 28, 2013. In consideration for this change, the parties to the agreement agreed to increase the Applicable Margin (as defined in Amendment No. 2) in respect of the revolving and swing line credit facilities. In addition, Amendment No. 2 modified certain covenants of the Existing Credit Agreement to permit the incurrence of certain indebtedness and the creation of liens related to such indebtedness, as well as certain prepayments of existing unsecured debt. Amendment No. 2 also provides for certain conforming revisions to the definitions and other terms set forth in the Existing Credit Agreement. Except as amended and supplemented by Amendment No. 2, all terms of the Existing Credit Agreement remained in full force and effect. In the second quarter of 2010, the Company repaid the outstanding balance of \$40.0 million on the KCSR's \$125.0 million revolving credit facility.

On June 4, 2010, the Company used the proceeds from the common stock offering, together with other available cash, to redeem \$66.5 million principal amount of the 13.0% Senior Notes due 2013 issued by KCSR, \$70.0 million principal amount of the 12.5% Senior Notes due 2016 issued by KCSM and \$100.0 million principal amount of the 9³/₈% Senior Notes issued by KCSM, as well as pay \$19.7 million of call premiums and other expenses associated with such redemptions. In addition, the Company wrote-off \$12.8 million of unamortized debt issuance costs and original issue discounts associated with the redemption of the notes.

As the Company intends to purchase the remaining 9³/₈% Senior Notes issued by KCSM within the next twelve months, the outstanding principal amount of \$63.7 million has been classified as a current liability as of June 30, 2010.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)****9. Equity**

The following tables summarize the changes in equity (*in millions*):

10. Share-Based Compensation

Market Based Awards. On March 1, 2010, the Company granted approximately 191,000 stock options and 108,000 shares of nonvested stock (collectively, the Award) under the Kansas City Southern 2008 Stock Option and Performance Award Plan. The Award contains a market condition that accelerates the vesting in three tranches if the closing price of the Company's common stock is above \$38.95, \$42.85 or \$47.14 for a period of thirty consecutive trading days. If the target share prices are not met, the awards will vest in March 2013.

The fair value and service period of each Award is estimated on the date of grant using the Monte Carlo simulation model. The weighted average fair value of stock options and nonvested stock granted during March 2010 was \$15.96 and \$35.41, respectively, and the derived service period ranges from 1.1 to 3.0 years.

Stock Options. During the six months ended June 30, 2010, 725,315 stock options with an intrinsic value of \$18.2 million were exercised. Cash received from option exercises during the period was \$0.7 million.

Nonvested Stock. During the six months ended June 30, 2010, 334,571 shares vested and the fair value (at vest date) was \$11.5 million.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)****11. Commitments and Contingencies**

Concession Duty. Under KCSM's railroad concession from the Mexican government (the Concession), the Mexican government has the right to receive a payment from the Company equivalent to 0.5% of the gross revenue during the first 15 years of the Concession period and 1.25% of the gross revenue during the remaining years of the Concession period. For the three and six months ended June 30, 2010, the concession duty expense, which is recorded within operating expenses, amounted to \$1.1 million and \$2.1 million, compared to \$0.7 million and \$1.5 million for the same periods in 2009.

Litigation. The Company is a party to various legal proceedings and administrative actions, all of which, except as set forth below, are of an ordinary, routine nature and incidental to its operations. Included in these proceedings are various tort claims brought by current and former employees for job-related injuries and by third parties for injuries related to railroad operations. KCS aggressively defends these matters and has established liability reserves, which management believes are adequate to cover expected costs. Although it is not possible to predict the outcome of any legal proceeding, in the opinion of management, other than those proceedings described in detail below, such proceedings and actions should not, individually, or in the aggregate, have a material adverse effect on the Company's financial condition and liquidity. However, a material adverse outcome in one or more of these proceedings could have a material adverse impact on the results of operations in a particular quarter or fiscal year.

Environmental Liabilities. The Company's U.S. operations are subject to extensive federal, state and local environmental laws and regulations. The major U.S. environmental laws to which the Company is subject include, among others, the Federal Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, also known as the Superfund law), the Toxic Substances Control Act, the Federal Water Pollution Control Act, and the Hazardous Materials Transportation Act. CERCLA can impose joint and several liabilities for cleanup and investigation costs, without regard to fault or legality of the original conduct, on current and predecessor owners and operators of a site, as well as those who generate, or arrange for the disposal of, hazardous substances. The Company does not believe that compliance with the requirements imposed by the environmental legislation will impair its competitive capability or result in any material additional capital expenditures, operating or maintenance costs. The Company is, however, subject to environmental remediation costs as described below.

The Company's Mexico operations are subject to Mexican federal and state laws and regulations relating to the protection of the environment through the establishment of standards for water discharge, water supply, emissions, noise pollution, hazardous substances and transportation and handling of hazardous and solid waste. The Mexican government may bring administrative and criminal proceedings and impose economic sanctions against companies that violate environmental laws, and temporarily or even permanently close non-complying facilities.

The risk of incurring environmental liability is inherent in the railroad industry. As part of serving the petroleum and chemicals industry, the Company transports hazardous materials and has a professional team available to respond to and handle environmental issues that might occur in the transport of such materials. Additionally, the Company is a partner in the Responsible Care® program and, as a result, has initiated additional environmental, health and safety management system programs and has been certified by an outside professional auditing company in the American Chemistry Council's Responsible Care Management System®. The Company performs ongoing reviews and evaluations of the various environmental programs and issues within the Company's operations, and, as necessary, takes actions intended to limit the Company's exposure to potential liability.

The Company owns property that is, or has been, used for industrial purposes. Use of these properties may subject the Company to potentially material liabilities relating to the investigation and cleanup of contaminants, claims alleging personal injury, or property damage as the result of exposures to, or release of, hazardous substances. Although the Company is responsible for investigating and remediating contamination at several locations, based on currently available information, the Company does not expect any related liabilities, individually or collectively, to have a material impact on its financial position or cash flows. Should the Company become subject to more stringent cleanup requirements at these sites, discover additional contamination, or become subject to related personal or property damage claims, the Company could incur material costs in connection with these sites.

The Company records liabilities for remediation and restoration costs related to past activities when the Company's obligation is probable and the costs can be reasonably estimated. Costs of ongoing compliance activities to current operations are expensed as incurred. The Company's recorded liabilities for these issues represent its best estimates (on an undiscounted basis) of remediation and restoration costs that may be

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

required to comply with present laws and regulations. Although these costs cannot be predicted with certainty, management believes that the ultimate outcome of identified matters will not have a material adverse effect on the Company's consolidated financial position or cash flows.

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

Environmental remediation expense was \$1.9 million and \$3.5 million for the six months ended June 30, 2010 and 2009, respectively, and was included in casualties and insurance expense on the consolidated statements of operations. Additionally, as of June 30, 2010, KCS had a reserve for environmental remediation of \$4.7 million. This amount was derived from a range of reasonable estimates based upon the studies and site surveys described above and in accordance with the accounting guidance for the recognition of loss contingencies.

Personal Injury Claim Reserves. The Company's personal injury claim reserve is based on semi-annual actuarial studies performed on an undiscounted basis. This reserve is based on personal injury claims filed and an estimate of claims incurred but not yet reported. Actual results may vary from estimates due to the number, type and severity of the injury, costs of medical treatments and uncertainties in litigation. Adjustments to the liability are reflected within operating expenses in the period in which changes to estimates are known. Personal injury claims in excess of self-insurance levels are insured up to certain coverage amounts, depending on the type of claim and year of occurrence. The personal injury claim reserve balance as of June 30, 2010 is based on an updated actuarial study of personal injury reserves for data through May 31, 2010 and review of the last month's experience. The activity in the reserve follows (*in millions*):

	Six Months Ended June 30,	
	2010	2009
Balance at beginning of year	\$ 86.9	\$ 90.7
Accruals, net (includes the impact of actuarial studies)	(2.5)	
Payments	(8.8)	(7.9)
Balance at end of period	\$ 75.6	\$ 82.8

Settlement Agreement. On February 9, 2010, (i) KCSM and (ii) *Ferrocarril Mexicano, S.A. de C.V.* (*Ferromex*), Ferrosur, S.A. de C.V. (*Ferrosur*), Minera México, S.A. de C.V., Infraestructura y Transportes Ferroviarios, S.A. de C.V., Infraestructura y Transportes México, S.A. de C.V., Líneas Ferroviarias de México, S.A. de C.V., Grupo Ferroviario Mexicano, S.A. de C.V., and Grupo México, S.A.B. de C.V. (jointly, the *Ferromex Parties*) entered into a Settlement Agreement (the *Settlement Agreement*).

Pursuant to the Settlement Agreement, the parties agreed to completely, definitively and irrevocably terminate (i) the private disputes, procedures and controversies among KCSM and the Ferromex Parties, in connection with the merger between Ferromex and Ferrosur, including KCSM's involvement in such procedures as an interested party; and (ii) the lawsuit filed against KCSM and the Mexican Government in connection with several disputes, procedures and controversies before judicial authorities with respect to the acquisition of the shares of Ferrocarril del Noreste, S.A. de C.V. (now KCSM) by Grupo Transportación Ferroviaria Mexicana, S.A. de C.V., in 1997 (the *Settlement Procedures*). The parties waived their rights to any future actions derived from or related to the Settlement Procedures. Further, the parties did not settle or agree to settle any disputes, controversies or procedures other than the Settlement Procedures.

Under the Settlement Agreement, Ferrosur agreed to grant KCSM certain trackage and switching rights within Veracruz, México, and switching rights in the Puebla-Tlaxcala zone. In a related agreement, the parties further agreed to amend the *Ferrocarril y Terminal del Valle de México, S.A. de C.V.* (*FTVM*) by-laws to, among other changes, grant certain veto and voting rights to KCSM at the shareholders' and the board of directors' levels.

The Settlement Agreement shall remain in effect until the term of the concession title of KCSM expires, unless the parties mutually agree to renew the Settlement Agreement beyond the expiration of KCSM's concession title. The Settlement Agreement may be terminated earlier upon delivery by KCSM of a notice to the Ferromex Parties indicating any breach by the Ferromex Parties of any of their respective obligations under the Settlement Agreement. Notwithstanding, the settlement and termination of the Settlement Procedures shall not be subject to rescission or termination.

The Settlement Agreement may be terminated, at KCSM's option, before its stipulated term if Ferromex is sold or if it transfers, directly or indirectly, its concession under its concession title. A change in control of KCSM or its affiliates, however, shall not be a cause for termination.

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

Likewise, the Settlement Agreement will terminate three years after Ferromex and Ferrosur cease to be under the common control of one person or group of persons acting jointly or in agreement to adopt coordinated resolutions (Common

Table of Contents

Kansas City Southern

Notes to Consolidated Financial Statements (Continued)

Control). Notwithstanding, if for any reason Ferromex and Ferrosur are under Common Control within five years after the Settlement Agreement is terminated due to Ferromex and Ferrosur ceasing to be under Common Control, the Settlement Agreement would automatically be reinstated.

In November 2005, Ferromex acquired control of and merged with Ferrosur creating Mexico's largest railway, though such merger has been previously rejected by Comisión Federal de Competencia (Mexican Antitrust Commission), (COFECO). If the COFECO does not authorize the merger of Ferromex and Ferrosur, the Settlement Agreement shall be terminated twelve months after the relevant resolution of the Governmental Authority is issued or when the unwinding is effective, whichever is later.

Trackage Rights Settlement Agreement with Ferromex. KCSM's operations are subject to certain trackage rights, switching rights, and interline services with Ferromex. KCSM and Ferromex entered into a Trackage Rights, Switching and Interline Settlement Agreement, dated February 9, 2010 (the Trackage Rights Agreement). Pursuant to the Trackage Rights Agreement, the parties terminated, in a definitive and irrevocable manner, all actions and procedures regarding: (a) rates applicable to trackage rights, switching and interlinear services from January 1, 2009 onward but not regarding the applicable rates before January 1, 2009 or the amounts owed by the parties to one another prior to the execution of the Trackage Rights Agreement; (b) the scope of certain trackage rights in Monterrey, Nuevo León, Guadalajara, Jalisco and Altamira, Tamaulipas, the Long Trackage Right, and Aguascalientes; and (c) court costs, as well as any other directly-related issue or dispute that arises from, is related in any manner directly or indirectly with, the terms and conditions and/or scope of such mandatory trackage and/or switching rights or that arises by reason of the definition of trackage rights (the Settlement Controversies). The parties waived their rights to any future actions derived from or related to the Settlement Controversies. Further, KCSM and Ferromex set the rates applicable for January 1, 2009 for each party for the use of the other party's trackage. The retroactive application of these rates to January 1, 2009 did not have a material impact on the results of operations.

Explicitly excluded from the scope and purpose of the Trackage Rights Agreement are all procedures, disputes, lawsuits, remedies, appeals and disagreements that were not expressly identified in the Trackage Rights Agreement, including without limitation, the disputes, claims and lawsuits that relate to the determination of rates for mandatory trackage and/or switching rights and for interconnection and/or terminal services, accrued prior to January 1, 2009, as well as the disputes among the parties regarding amounts payable to one another for trackage rights, interline services and switching services, that are currently being disputed by both parties at the Federal Court of Fiscal and Administrative Justice. Furthermore, the parties did not settle or agree to settle any other trackage and switching rights not specifically mentioned in the Trackage Rights Agreement.

The Trackage Rights Agreement shall remain in effect until the term of the concession title of Ferromex or the concession title of KCSM expire, unless the parties mutually agree to renew the Trackage Rights Agreement beyond the expiration of either party's concession title. The Trackage Rights Agreement may be terminated, at KCSM's option, before its stipulated term if Ferromex is sold or if it transfers, directly or indirectly, its concession under its concession title. A change in control of KCSM or its affiliates, however, shall not be a cause for termination.

Certain Disputes with Ferromex. KCSM's operations are subject to certain trackage rights, haulage rights, and interline services (the Services) with Ferromex. Other than the rates to be charged pursuant to the Trackage Rights Agreement, dated February 9, 2010, between KCSM and Ferromex, the rates payable for these Services have not been agreed upon by KCSM and Ferromex for the periods beginning in 1998 through December 31, 2008. If KCSM cannot reach an agreement with Ferromex for rates applicable for Services prior to January 1, 2009 which are not subject to the Trackage Rights Agreement, the Mexican *Secretaría de Comunicaciones y Transportes* (Ministry of Communications and Transportation or SCT) is entitled to set the rates in accordance with Mexican law and regulations. KCSM and Ferromex both initiated administrative proceedings seeking a determination by the SCT of the rates that KCSM and Ferromex should pay each other in connection with the Services. The SCT issued rulings in 2002 and 2008 setting the rates for the Services and both KCSM and Ferromex challenged these rulings.

In addition, KCSM is currently involved in judicial, civil and administrative proceedings and negotiations with Ferromex regarding the rates payable to each other for the Services for the periods prior to January 1, 2009. Although KCSM and Ferromex have challenged these matters based on different grounds and these cases continue to evolve, management believes the amounts recorded related to these matters are adequate and does not believe there will be a future material impact to the results of operations arising out of these disputes.

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

SCT Sanction Proceedings. In April 2006, the SCT initiated proceedings against KCSM, claiming that KCSM had failed to make certain minimum capital investments projected for 2004 and 2005 under its five-year business plan filed with the SCT prior to its April 2005 acquisition by KCS (collectively, the Capital Investment Proceedings). KCSM believes it made capital expenditures exceeding the required amounts. KCSM responded to the SCT by providing evidence in support of its investments and explaining why it believes sanctions are not appropriate. In May 2007, KCSM was served with an SCT resolution regarding the Capital

Table of Contents

Kansas City Southern

Notes to Consolidated Financial Statements (Continued)

Investment Proceeding for 2004, in which the SCT resolved to impose no sanction. In June 2007, KCSM was served with an SCT resolution regarding the Capital Investment Proceeding for 2005, in which the SCT determined that KCSM had indeed failed to make the minimum capital investments required for such year, and imposed a minimal fine. KCSM has filed an action in the Mexican Administrative and Fiscal Federal Court challenging this ruling. KCSM will have the right to challenge any adverse ruling.

In May 2008, the SCT initiated a proceeding against KCSM at the request of a Mexican subsidiary of a large U.S. Auto Manufacturer (the Auto Manufacturer), alleging that KCSM impermissibly bundled international rail services and engaged in discriminatory pricing practices with respect to rail services provided by KCSM to the Auto Manufacturer. In March 2009, the SCT issued a decision determining that KCSM had engaged in the activities alleged, but imposed no sanction since this was the first time KCSM had engaged in such activities. On May 6, 2009, KCSM challenged the SCT's decision and the appeal is currently pending in the Administrative and Fiscal Federal Court.

On July 23, 2008, the SCT delivered notice to KCSM of new proceedings against KCSM, claiming, among other things, that KCSM refused to grant Ferromex access to certain trackage over which Ferromex alleges it has trackage rights on six different occasions and thus denied Ferromex the ability to provide service to the Auto Manufacturer at this location. On August 13, 2008, KCSM filed a response to the SCT. On July 15, 2010, the SCT resolved to consolidate these six sanctioning proceedings into a single proceeding, determining that the actions that motivated the underlying claims constitute a single occasion. Management believes that even if KCSM were to be found liable, a single sanction would be imposed and could be challenged in the Administrative and Fiscal Federal Court. A single sanction would more likely decrease the severity of any penalties levied against KCSM as a consequence thereof and makes it more likely that any unfavorable resolution will not have a material impact on KCSM's results of operations.

KCSM believes it has defenses to the imposition of sanctions for the foregoing proceedings and intends to vigorously contest these allegations. KCSM does not believe that these SCT proceedings will have a material adverse effect on its results of operations or financial condition. However, if KCSM is ultimately sanctioned by the SCT for generic sanctions on five occasions over the term of the Concession, KCSM could be subject to possible future SCT action seeking revocation of the Concession.

Disputes Relating to the Provision of Services to the Auto Manufacturer. KCSM is involved in several disputes related to providing services to the Auto Manufacturer. In March 2008, the Auto Manufacturer filed an arbitration suit against KCSM under a contract for services to the Auto Manufacturer's plants in Mexico, which, as amended, had a stated termination date of January 31, 2008. Among other claims, the Auto Manufacturer claimed that the contract was implicitly extended and continued in effect beyond its stated termination date. The Auto Manufacturer is seeking a declaration by the arbitrator that the rates being assessed by KCSM are discriminatory, even though the rates being charged are within the legal rate limits set by Mexican law for such freight transportation. The Auto Manufacturer has also filed counterclaims against KCSM related to other terms and conditions under the contract. KCSM claimed that the contract did in fact expire on its stated termination date, and that services rendered thereafter are thus subject to the general terms and conditions (including rates) applicable in the absence of a specific contract, pursuant to Mexican law. Accordingly, KCSM filed a counterclaim against the Auto Manufacturer to, among other things, recover the applicable rate difference between the rates under the contract and KCSM's rates. The arbitration was divided in two phases. On May 18, 2009, the arbitrator issued an award on the first phase of the arbitration proceeding ruling that the contract had terminated on May 8, 2008. As of the date of this filing, the second phase of the arbitration proceeding regarding the claim that the rates assessed by KCSM are discriminatory, and the other disputed issues, are in the evidentiary stage and have not been resolved. Management believes the final resolution of these claims will not have any material impact on KCSM's results of operations.

Third Party Contractual Agreements. In the normal course of business, the Company enters into various third party contractual agreements related to commercial arrangements and the use of other railroads or governmental entities' infrastructure needed for the operations of the business. The Company is involved or may become involved in certain disputes involving transportation rates, charges, and interpretations related to these agreements. While the outcome of these matters cannot be predicted with certainty, the Company does not believe, when finally resolved, that these disputes will have a material effect on its results of operations or financial condition. However, an unexpected adverse resolution could have a material effect on the results of operations in a particular quarter or fiscal year.

Income tax. Tax returns filed in the U.S. from 2004 through the current year and in Mexico from 2003 through the current year remain open to examination by the taxing authorities. The 2008 U.S. tax return and the 2003 through 2005 Mexico tax returns are currently under examination. The Company received an audit assessment for the year ended December 31, 2003, from Servicio de Administracion Tributaria (SAT), the Mexican equivalent of the Internal Revenue Service. The Company filed its response to this assessment on March 8, 2010. The Company

believes that it will resolve this audit in the ongoing negotiations or will prevail if

Table of Contents**Kansas City Southern****Notes to Consolidated Financial Statements (Continued)**

litigated. The Company believes that an adequate provision has been made for any adjustment (tax and interest) that will be due for all open years. However, an unexpected adverse resolution could have a material effect on the results of operations in a particular quarter or fiscal year.

Credit Risk. The Company continually monitors risks related to the economic changes and certain customer receivables concentrations. Significant changes in customer concentration or payment terms, deterioration of customer credit-worthiness or further weakening in economic trends could have a significant impact on the collectability of the Company's receivables and operating results. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. The Company has recorded reserves for uncollectability based on its best estimate at June 30, 2010.

12. Geographic Information

The Company strategically manages its rail operations as one reportable business segment over a single coordinated rail network that extends from the midwest and southeast portions of the United States south into Mexico and connects with other Class I railroads. Financial information reported at this level, such as revenues, operating income and cash flows from operations, is used by corporate management, including the Company's chief operating decision-maker, in evaluating overall financial and operational performance, market strategies, as well as the decisions to allocate capital resources.

The Company's strategic initiatives, which drive its operational direction, are developed and managed at the Company's headquarters and targets are communicated to its various regional activity centers. Corporate management is responsible for, among others, KCS's marketing strategy, the oversight of large cross-border customer accounts, overall planning and control of infrastructure and rolling stock, the allocation of capital resources based upon growth and capacity constraints over the coordinated network, and other functions such as financial planning, accounting, and treasury.

The role of each region is to manage the operational activities and monitor and control costs over the coordinated rail network. Such cost control is required to ensure that pre-established efficiency standards set at the corporate level are attained. The regional activity centers are responsible for executing the overall corporate strategy and operating plan established by corporate management as a coordinated system.

The following tables (*in millions*) provide information by geographic area in accordance with the accounting guidance on segment reporting:

13. Condensed Consolidating Financial Information

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

KCSR has outstanding \$275.0 million of 8.0% Senior Notes due 2015 and \$123.5 million of 13.0% Senior Notes due 2013, which are unsecured obligations of KCSR, which are also jointly and severally and fully and unconditionally guaranteed on an unsecured senior basis by KCS and certain wholly-owned domestic subsidiaries. As a result, the following accompanying condensed consolidating financial information (*in millions*) has been prepared and presented pursuant to SEC Regulation S-X Rule 3-10 Financial statements of guarantors and issuers of guaranteed securities registered or being registered. The 8.0% Senior Notes were registered by means of an amendment to KCS shelf registration statement filed and automatically effective as of May 23, 2008. The 13.0% Senior Notes were registered under KCS shelf registration statement filed and automatically effective as of November 21, 2008.

14. Subsequent Event

Rail service in northern Mexico has been disrupted by damage resulting from Hurricane Alex, which made landfall on June 30, 2010. The hurricane and resulting flooding continued into early July and caused significant track damage around the Monterrey and Saltillo areas as well as on the lines to Laredo and Matamoros. There have been multiple track related incidents due to the hurricane. The Company is currently in the repair and restoration process and continues to assess the related financial impact, including service interruption, on the Company's third quarter results. KCSM maintains insurance intended to cover events such as this. KCSM's property and casualty insurance program covers loss or damage to its own property and third party property over which it has custody and control, with a self-insured retention amount of \$10.0 million for flood related losses. KCSM also maintains liability insurance with a self-insured retention of \$1.0 million covering claims from third parties.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders

Kansas City Southern:

We have reviewed the accompanying consolidated balance sheet of Kansas City Southern and subsidiaries (the Company) as of June 30, 2010, and the related consolidated statements of operations for the three-month and six-month periods ended June 30, 2010 and 2009, and the related consolidated statement of cash flows for the six-month periods ended June 30, 2010 and 2009. These consolidated financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the consolidated financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the consolidated financial statements referred to above for them to be in conformity with U.S. generally accepted accounting principles.

We have previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet of the Company as of December 31, 2009, and the related consolidated statements of income, changes in equity and comprehensive income, and cash flows for the year then ended (not presented herein); and in our report dated February 11, 2010, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of December 31, 2009 is fairly stated, in all material respects, in relation to the consolidated balance sheet from which it has been derived.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The discussion below, as well as other portions of this Form 10-Q, contain forward-looking statements that are not based upon historical information. Such forward-looking statements are based upon information currently available to management and management's perception thereof as of the date of this Form 10-Q. Readers can identify these forward-looking statements by the use of such verbs as expects, anticipates, believes or similar verbs or conjugations of such verbs. The actual results of operations of Kansas City Southern (KCS or the Company) could materially differ from those indicated in forward-looking statements. The differences could be caused by a number of factors or combination of factors including, but not limited to, those factors identified in Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations in the Company's Annual Report on Form 10-K for the year ended December 31, 2009, which is on file with the U.S. Securities and Exchange Commission (File No. 1-4717) incorporated by reference and in Part II Item 1A Risk Factors in the Form 10-K and any updates contained herein. Readers are strongly encouraged to consider these factors when evaluating forward-looking statements. Forward-looking statements contained in this Form 10-Q will not be updated.

This discussion is intended to clarify and focus on the Company's results of operations, certain changes in its financial position, liquidity, capital structure and business developments for the periods covered by the consolidated financial statements included under Item 1 of this Form 10-Q. This discussion should be read in conjunction with those consolidated financial statements and the related notes, and is qualified by reference to them.

Critical Accounting Policies and Estimates

The Company's discussion and analysis of its financial position and results of operations is based upon its consolidated financial statements. The preparation of these consolidated financial statements requires estimation and judgment that affect the reported amounts of revenue, expenses, assets, and liabilities. The Company bases its estimates on historical experience and on various other factors that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments about the accounting for assets and liabilities that are not readily apparent from other sources. If the estimates differ materially from actual results, the impact on the consolidated financial statements may be material. The Company's critical accounting policies are disclosed in the 2009 Annual Report on Form 10-K.

During the first quarter of 2010, the Company elected to change its accounting policy for rail grinding costs from a capitalization method to a direct expense method. Refer to Note 1, Accounting Policies, Interim Financial Statements and Basis of Presentation, for further details of this change in accounting policy. Comparative financial information for all prior periods has been adjusted to reflect the retroactive application of this change in accounting principle.

Overview

The Company is engaged in the freight rail transportation business, operating a coordinated rail network under one reportable business segment. The primary operating subsidiaries of the Company consist of the following: The Kansas City Southern Railway Company (KCSR), Kansas City Southern de México, S.A. de C.V. (KCSM), Meridian Speedway, LLC (MSLLC), and The Texas Mexican Railway Company (TexMex). The Company generates revenues and cash flows by providing customers with freight delivery services within its regions, and throughout North America through connections with other Class I rail carriers. Customers conduct business in a number of different industries, including electric-generating utilities, chemical and petroleum products, industrial and consumer products, agriculture and mineral products, automotive products and intermodal transportation. Appropriate eliminations and reclassifications have been recorded in deriving consolidated financial statements.

Rail service in northern Mexico has been disrupted by damage resulting from Hurricane Alex, which made landfall on June 30, 2010. The hurricane and resulting flooding continued into early July and caused significant track damage around the Monterrey and Saltillo areas as well as on the lines to Laredo and Matamoros. There have been multiple track related incidents due to the hurricane. The Company is currently in the repair and restoration process and continues to assess the related financial impact, including service interruption, on the Company's third quarter results. KCSM maintains insurance intended to cover events such as this. KCSM's property and casualty insurance program covers loss or damage to its own property and third party property over which it has custody and control, with a self-insured retention amount of \$10.0 million for flood related losses. KCSM also maintains liability insurance with a self-insured retention of \$1.0 million covering claims from third parties.

Table of Contents**Second Quarter Analysis**

The Company reported quarterly earnings of \$0.34 per diluted share on consolidated net income of \$37.4 million for the three months ended June 30, 2010, compared to quarterly earnings of \$0.07 per diluted share on consolidated net income of \$6.6 million for the same period in 2009. This earnings increase reflects a 35% increase in revenues during the three months ended June 30, 2010 as compared to the same period in 2009, driven primarily by the overall increase in carload/unit volumes resulting from the relative improvement in the economy, positive pricing impacts in certain commodity groups and increased fuel surcharge. Operating expenses increased 12% compared to the same period in 2009, primarily due to the overall increase in carload/unit volumes and higher fuel prices, partially offset by a decrease in casualties and insurance expense. In addition, the Company was able to leverage its cost control program initiated in 2009 as operating expenses as a percentage of revenues declined to 72.4% for the three months ended June 30, 2010 as compared to 87.4% for the same period in 2009.

Cash flows from operations increased to \$220.3 million as compared to \$85.4 million for the six month periods ended June 30, 2010 and 2009, respectively. The increase is primarily due to the overall increase in carload/unit volumes resulting from the relative improvement in the economy. Capital expenditures are a significant use of cash due to the capital intensive nature of railroad operations. Cash used for capital expenditures for the six months ended June 30, 2010 was \$120.9 million as compared to \$226.1 million for the same period in 2009. The decrease is primarily due to the completion of the Victoria-Rosenberg line in the second quarter of 2009.

Results of Operations

The following summarizes KCS' statements of operations (*in millions*):

	Three Months Ended		
	June 30,

Total revenues (i)	\$ 897.9	\$ 687.3	31%						
(i) Included in revenues: Fuel surcharge	\$ 74.4	\$ 30.2							

Freight revenues include both revenue for transportation services and fuel surcharges. For the three and six months ended June 30, 2010, revenues increased \$120.3 million and \$210.6 million compared to the same periods in 2009, primarily due to the overall increase in carload/unit volumes resulting from the relative improvement in the economy, positive pricing impacts and increased fuel surcharge. Revenue per carload/unit increased by 11% for the three and six months ended June 30, 2010, reflecting favorable commodity mix in addition to the factors discussed above. The effect of fluctuations in the value of the U.S. dollar against the value of the Mexican peso was not significant for either period.

KCS's fuel surcharge is a mechanism to adjust revenue based upon changing fuel prices. Fuel surcharges are calculated differently depending on the type of commodity transported. For most commodities, fuel surcharge is calculated using a fuel price from a prior time period that can be up to 60 days earlier. In a period of volatile fuel prices or changing customer business mix, changes in fuel expense and fuel surcharge may differ.

The following discussion provides an analysis of revenues by commodity group:

**Revenues by commodity
group for the three months
ended June 30, 2010**

Chemical and petroleum. Revenues increased \$14.2 million and \$32.3 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to increases in volume, fuel surcharge and pricing. Petroleum and plastics product volumes increased due to inventory replenishment and new petroleum business. Additionally, petroleum revenues increased in Mexico due to a government initiated oil export program, which resulted in record levels of oil production and storage. Revenues also increased in chemicals used to manufacture glass and paint as a result of the economic improvements in the automotive industry.

Table of Contents

Industrial and consumer products. Revenues increased \$25.9 million and \$43.7 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to increases in volume, fuel surcharge and price. Metals and scrap business growth was primarily due to growing demand for steel coil due to the rebound in the automotive industry and the strengthening economy. Paper products increased primarily due to a restocking of inventory to meet increased demand.

Agriculture and minerals. Revenues increased \$34.5 million and \$57.9 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, due to increases in pricing and volume. Grain revenue increased as a portion of the traffic lost to vessel in 2009 was converted back to rail in Mexico. Increased length of haul also drove year over year revenue increases. Food products showed continued strength primarily due to new business.

Coal. Revenue increased \$10.5 million and \$22.2 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to increases in pricing and fuel surcharge. Revenues to existing electric generation customers increased due to re-pricing of coal contracts and increased fuel surcharge, which was partially offset by lower unit coal volumes.

Intermodal. Revenues increased \$17.4 million and \$29.4 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to an increase in volume. Growth was driven by increased automotive parts traffic, conversion of cross border truck traffic to rail, trans-Pacific container volume, the emergence of cross border international cargo and improvement in the economy.

Automotive. Revenues increased \$18.1 million and \$27.5 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to increases in volume and pricing. The volume increase was driven by strong year over year growth in North American automobile sales, a shift in production from the U.S. to Mexico and new cross border vehicle routings.

Operating Expenses

Operating expenses, as shown below (*in millions*), increased \$36.2 million and \$65.9 million for the three and six months ended June 30, 2010, when compared to the same periods in 2009, primarily due to fuel expense, compensation and benefit expense and the effect of fluctuations in the value of the U.S. dollar against the value of the Mexican peso for operating expenses denominated in Mexican pesos.

	Three Months Ended June 30,		Change	
	2010	2009	Dollars	Percent
Compensation and benefits	\$ 93.7	\$ 79.0	\$ 14.7	19%
Purchased services	48.0	46.6	1.4	3%
Fuel	69.1	40.2	28.9	72%
Equipment costs	41.3	41.2	0.1	
Depreciation and amortization	46.9	47.4	(0.5)	(1)%
Casualties and insurance	0.2	7.7	(7.5)	(97)%
Materials and other	35.2	36.1	(0.9)	(2)%
Total operating expenses	\$ 334.4	\$ 298.2	\$ 36.2	12%

Table of Contents

	Six Months Ended June 30,		Change	
	2010	2009	Dollars	Percent
Compensation and benefits	\$ 184.4	\$ 157.0	\$ 27.4	17%
Purchased services	92.9	92.2	0.7	1%
Fuel	129.9	83.5	46.4	56%
Equipment costs	80.0	80.3	(0.3)	
Depreciation and amortization	92.7	94.3	(1.6)	(2)%
Casualties and insurance	12.1	20.2	(8.1)	(40)%
Materials and other	70.5	69.1	1.4	2%
Total operating expenses	\$ 662.5	\$ 596.6	\$ 65.9	11%

Compensation and benefits. Compensation and benefits increased \$14.7 million and \$27.4 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to increased incentive compensation, including the Mexico statutory profit sharing expense, and annual salary rate increases. In addition, compensation and benefits increased in Mexico due to fluctuations in the value of the U.S. dollar against the value of the Mexican peso.

Purchased services. Purchased services increased \$1.4 million and \$0.7 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to volume-sensitive costs including joint facilities, security, and track and terminal services. These increases were partially offset by lower locomotive maintenance as a result of a newer locomotive fleet and having fewer locomotives covered by maintenance agreements as well as lower freight cars repairs.

Fuel. Fuel expense increased \$28.9 million and \$46.4 million for the three and six months ended June 30, 2010, compared with the same periods in 2009, primarily due to higher diesel fuel prices and consumption driven by increased carload/unit volumes, partially offset by increased fuel efficiency.

Equipment costs. Equipment costs for the three months ended June 30, 2010 were relatively flat compared with the same period in 2009. Equipment costs decreased \$0.3 million for the six months ended June 30, 2010 primarily due to lower freight car equipment lease expense, which was partially offset by the increase in the use of other railroads freight cars.

Depreciation and amortization. Depreciation and amortization expenses decreased \$0.5 million and \$1.6 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to extending the estimated useful lives of certain Mexican concession assets, which was effective as of October 1, 2009. In addition, depreciation expense decreased due to the impact of lower rates based on the depreciation study completed in third quarter 2009. These decreases were partially offset by an increase in depreciation expense due to a larger asset base. Depreciation and amortization expense on the asset base as of year-end 2009 will be lower on a quarterly basis by approximately \$2.6 million due to extending the estimated useful lives of certain Mexican concession assets and approximately \$1.0 million as a result of lower rates based on the depreciation study.

Casualties and insurance. Casualties and insurance expenses decreased \$7.5 million and \$8.1 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, due to a reduction in personal injury reserves based on the semi-annual actuarial study completed in the second quarter of 2010, reflecting favorable claims experience. In addition, casualties and insurance expenses decreased due to a third party reimbursement received related to a personal injury claim and higher clean-up costs recognized in 2009.

Materials and other. Materials and other expense decreased \$0.9 million for the three months ended June 30, 2010, compared to the same period in 2009, primarily due to a settlement of a legal dispute recorded in the second quarter of 2009. The decrease was partially offset by an increase in a legal reserve and higher employee expenses in the second quarter of 2010. Materials and other expense increased \$1.4 million for the six months ended June 30, 2010, compared to the same period in 2009, primarily due an increase in employee expenses.

Table of Contents

Non-Operating Income and Expenses

Equity in Net Earnings of Unconsolidated Affiliates. Equity in earnings from unconsolidated affiliates was \$4.6 million and \$11.0 million for the three and six month periods ended June 30, 2010, compared to \$2.0 million and \$3.0 million for the same periods in 2009. Significant components of this change are as follows:

Equity in earnings from the operations of Panama Canal Railway Company was \$2.9 million and \$4.8 million for the three and six month periods ended June 30, 2010, compared to \$0.3 million and \$0.6 million for the same periods in 2009. The increase is primarily due to an increase in container volume attributable to the improvement in the economy.

Equity in earnings of Southern Capital Corporation, LLC was \$0.9 million and \$5.2 million for the three and six month periods ended June 30, 2010, compared to \$1.1 million and \$2.2 million for the same periods in 2009. The increase is primarily due to the gain on sale of railcars and other equipment in the first quarter of 2010.

KCSM's equity in earnings of Ferrocarril y Terminal del Valle de México, S.A. de C.V. (FTVM) was \$0.8 million and \$1.0 million for the three and six month periods ended June 30, 2010, compared to \$0.6 million and \$0.2 million for the same periods in 2009. The increase is primarily due to a slight recovery in volumes.

Interest Expense. Interest expense decreased by \$3.5 million and \$0.9 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to lower debt balances and interest expense related to an unfavorable litigation outcome recorded in the second quarter of 2009.

Debt Retirement Costs. Debt retirement costs increased by \$32.5 million and \$41.5 million for the three and six months ended June 30, 2010, respectively. On June 4, 2010 the Company redeemed \$66.5 million principal amount of the 13.0% Senior Notes due 2013 issued by KCSR, \$70.0 million principal amount of the 12.5% Senior Notes due 2016 issued by KCSM and \$100.0 million principal amount of the 9³/₈% Senior Notes due 2012 issued by KCSM, and paid \$19.7 million of call premiums and other expenses associated with such redemptions. In addition, the Company wrote-off \$12.8 million of unamortized debt issuance costs and original issue discounts associated with the redemption of the notes. In the first quarter of 2010, KCSM purchased \$296.3 million of the 9³/₈% Senior Notes due May 1, 2012. The Company recorded debt retirement costs of \$14.9 million related to the call premium and the write-off of unamortized debt issuance costs. In January 2009, KCSR redeemed its 7¹/₂% Senior Notes due June 15, 2009 and expensed \$5.3 million for cash tender offer expenses and unamortized debt issuance costs. In addition, in March 2009, KCSM repaid all amounts outstanding under the 2007 KCSM Credit Agreement and upon termination, wrote-off \$0.6 million of unamortized debt issuance costs related to this debt.

Foreign Exchange. For the three and six months ended June 30, 2010 and 2009, the foreign exchange loss was \$1.4 million and a gain of \$1.2 million compared to a foreign exchange gain of \$6.0 million and \$0.9 million for the same periods in 2009, due to fluctuations in the value of the U.S. dollar versus the value of the Mexican peso.

Other Income, net. Other income, net decreased by \$1.9 million and \$2.9 million for the three and six months ended June 30, 2010, compared to the same periods in 2009, primarily due to gains on sale of land recognized in 2009.

Income Tax Expense. For the three and six months ended June 30, 2010, income tax expense was \$19.6 million and \$43.8 million as compared to \$1.5 million and \$1.6 million for the same periods in 2009. The effective income tax rate was 34.4% and 38.0% for the three and six months ended June 30, 2010, as compared to 17.4% and 27.1% for the same periods in 2009. The changes in income tax expense and the effective tax rate were primarily due to higher pre-tax income and foreign exchange rate fluctuations partially offset by a \$4.1 million tax benefit for the excess tax over book basis recognized for Mexican tax purposes from the sale of KCSM's 49% ownership interest in Mexrail, Inc. to Kansas City Southern on June 10, 2010.

Liquidity and Capital Resources

Overview

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

During the first half of 2010, the Company continued to improve its financial strength and flexibility by reducing leverage, lowering interest payments, adjusting debt maturities, and improving liquidity. The Company raised \$214.9 million from an equity offering, and used these proceeds and cash on hand to repay \$236.5 million in senior unsecured debt. The Company also used operating cash flows to pay back \$40.0 million drawn under the KCSR revolving credit facility. Earlier in 2010, the Company completed a debt refinancing which extended debt maturities and reduced future interest expense. These actions have improved KCS' debt capitalization ratio (total debt as a percentage of total debt plus total equity) to 39.4% at June 30, 2010 compared to 46.0% at December 31, 2009. In addition, the Company improved future liquidity by extending the maturity of KCSR's \$125.0 million revolving credit facility from April 2011 to April 2013. On June 30, 2010, total available liquidity (the unrestricted cash balance plus revolving credit facility availability) was approximately \$209.3 million.

KCS' primary uses of cash are to support operations; maintain and improve its railroad; pay debt service and preferred stock dividends; acquire new and maintain existing locomotives, rolling stock and other equipment; and meet other obligations. KCS' cash

Table of Contents

flow from operations has historically been sufficient to fund operations, maintenance capital expenditures and debt service. External sources of cash (principally bank debt, public and private debt, preferred stock and leases) have been used to refinance existing indebtedness and to fund acquisitions, new investments and equipment additions.

The Company believes, based on current expectations, that cash and other liquid assets, operating cash flows, access to debt and equity capital markets, and other available financing resources will be sufficient to fund anticipated operating, capital and debt service requirements and other commitments in the foreseeable future. In the second quarter of 2010, the Company repaid the outstanding balance of \$40.0 million on the KCSR's \$125.0 million revolving credit facility.

KCS's primary sources of liquidity are cash flows generated from operations, borrowings under its revolving credit facility and access to debt and equity capital markets. Although KCS has had adequate access to the capital markets, as a non-investment grade company, the financial terms under which funding is obtained often contain restrictive covenants. The covenants constrain financial flexibility by restricting or prohibiting certain actions, including the ability to incur additional debt for any purpose other than refinancing existing debt, create or suffer to exist additional liens, make prepayments of particular debt, pay dividends on common stock, make investments, engage in transactions with stockholders and affiliates, issue capital stock, sell certain assets, and engage in mergers and consolidations or in sale leaseback transactions. These restrictions, however, are subject to a number of qualifications and exceptions that provide the Company with varying levels of additional borrowing capacity. The Company was in compliance with all of its debt covenants as of June 30, 2010.

KCS's operating results and financing alternatives can be unexpectedly impacted by various factors, some of which are outside of its control. For example, if KCS was to experience a reduction in revenues or a substantial increase in operating costs or other liabilities, its earnings could be significantly reduced, increasing the risk of non-compliance with debt covenants. Additionally, the Company is subject to economic factors surrounding debt and equity capital markets and its ability to obtain financing under reasonable terms is subject to market conditions. Volatility in capital markets and the tightening of market liquidity could impact KCS's access to capital. Further, KCS's cost of debt can be impacted by independent rating agencies, which assign debt ratings based on certain factors including credit measurements such as interest coverage and leverage ratios, liquidity and competitive position.

On June 21, 2010, Standard & Poor's Rating Services (S&P) raised the long-term corporate rating of KCS to BB- from B and removed the company from CreditWatch with positive implications where it was placed on April 28, 2010. In conjunction with this ratings upgrade, S&P raised the ratings on KCS's senior secured debt to BB+ from BB-, senior unsecured debt to BB- from B+ and preferred stock to B- from CCC. S&P also raised the rating on Southern Capital Corporation, LLC's equipment trust certificates to BBB- from BB+. S&P maintains a stable outlook for the Company. On June 18, 2010 Moody's Investors Service (Moody's) affirmed the corporate family and other ratings for both KCS and KCSM and raised its outlook to positive from stable for all issuers.

Cash Flow Information

Summary cash flow data follows (*in millions*):

	Six Months Ended June 30,	
	2010	2009
Cash flows provided by (used for):		
Operating activities	\$ 220.3	\$ 85.4
Investing activities	(145.4)	(230.0)
Financing activities	(108.1)	(23.0)
Net decrease in cash and cash equivalents	(33.2)	(167.6)
Cash and cash equivalents beginning of year	117.5	229.9
Cash and cash equivalents end of period	\$ 84.3	\$ 62.3

Cash flows from operating activities increased \$134.9 million for the six month period ended June 30, 2010, compared to the same period in 2009, primarily as a result of increased net income from higher carload/unit volumes due to the relative improvement in the economy. Net

Edgar Filing: KANSAS CITY SOUTHERN - Form 10-Q

investing cash outflows decreased \$84.6 million primarily due to the completion of the Victoria-Rosenberg line in the second quarter of 2009. The decrease was partially offset by the acquisition of an intermodal facility in the first quarter of 2010. Additional information regarding capital expenditures is provided below. Financing cash outflows increased \$85.1 million primarily due to debt reduction and refinancing activities and associated debt costs payments partially offset by proceeds from a common stock offering. During the six months ended June 30, 2010, the Company repaid \$589.0 million of outstanding debt and paid \$40.4 million in debt costs. During the same period, the Company received proceeds of \$295.7 million from the issuance of the KCSM 8.0% Senior Notes and \$214.9 from a common stock offering.

Table of Contents**Capital Expenditures**

KCS has funded, and expects to continue to fund capital expenditures with funds from operating cash flows, equipment leases, and debt and equity financing.

The following table summarizes capital expenditures by type for the consolidated operations for the six months ended June 30, 2010 and 2009, respectively (*in millions*).

	Six Months Ended June 30,	
	2010	2009
Roadway capital program	\$ 98.4	\$ 81.1
Equipment	5.4	3.7
Capacity	0.9	77.7
Information technology	7.3	4.3
Other	9.3	11.3
Total capital expenditures (accrual basis)	121.3	178.1
Change in capital accruals	(0.4)	48.0
Total cash capital expenditures	\$ 120.9	\$ 226.1

For the six months ended June 30, 2009, approximately 43% of total capital expenditures were related to the Victoria-Rosenberg line, which was completed in the second quarter of 2009.

Other Matters

Employee and Labor Relations. KCSM union employees are covered by one labor agreement, which was signed on June 23, 1997, between KCSM and the *Sindicato de Trabajadores Ferrocarrileros de la República Mexicana* (Mexican Railroad Union), for a term of 50 years, for the purpose of regulating the relationship between the parties and improving conditions for the union employees. Approximately 80% of KCSM employees are covered by this labor agreement. The compensation terms under this labor agreement are subject to renegotiation on an annual basis and all other terms are subject to negotiation every two years. Compensation terms and all other benefits, except for the retirement benefit, covering the period from July 1, 2009 through June 30, 2010, were finalized between KCSM and the union during the second quarter of 2010. As of the date of this filing, the negotiations with the union regarding the retirement benefit continue to be discussed. The anticipated resolutions of these negotiations are not expected to have a material impact to the consolidated financial statements. The union labor negotiation with the Mexican Railroad Union has not historically resulted in any strike, boycott, or other disruption in KCSM's business operations.

Approximately 80% of KCSR employees are covered by collective bargaining agreements. KCSR participates in industry-wide bargaining as a member of the National Carriers' Conference Committee. Long-term settlement agreements were reached during 2007 and 2008 covering all of KCSR's unionized work force through January 1, 2010. A negotiating process for new, major collective bargaining agreements covering substantially all of KCSR's union employees has been underway since the bargaining round was initiated in November of 2009. The agreements reached in 2007 and 2008 continue in effect until new agreements are reached. Contract negotiations with the various unions generally take place over an extended period of time and have not historically resulted in any strike, boycott, or other disruption in the Company's business operations. The Company does not believe the expected settlements will have a material impact on the consolidated financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There was no material change during the quarter from the information set forth in Part II, Item 7A. Quantitative and Qualitative Disclosure about Market Risk in the Annual Report on Form 10-K for the year ended December 31, 2009.

Item 4. Controls and Procedures

(a) Disclosure Controls and Procedures

As of the end of the period for which this Quarterly Report on Form 10-Q is filed, the Company's Chief Executive Officer and Chief Financial Officer have each reviewed and evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act). Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have each concluded that the Company's current disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There have not been any changes in the Company's internal control over financial reporting that occurred during the second quarter of 2010 that have materially affected, or are reasonably likely to materially affect, the Company's internal controls over financial reporting.

Item 4T. Controls and Procedures

Not applicable.
