Item 7.01 Regulation FD Disclosure.

The Blackstone Group L.P. (Blackstone) is posting on its website at ir.blackstone.com historical financial information that has been recast to reflect its determination that Distributable Earnings, and not Economic Income, is the measure that senior management uses to assess the performance of its business segments. This change is effective as of and for the three months ended December 31, 2018 with retrospective application to all prior periods presented. Distributable Earnings is intended to show the amount of net realized earnings without the effects of the consolidation of the Blackstone Funds and is used to assess performance and amounts available for distributions to Blackstone unitholders. Blackstone believes Distributable Earnings to be more useful to unitholders than Economic Income or Economic Net Income as a supplement to its results reported in accordance with U.S. GAAP because it better reflects the manner in which Blackstone makes operating decisions, allocates resources and determines its compensation of employees across all its business segments. The information posted at ir.blackstone.com also includes an update to the presentation of Blackstone s supplemental non-GAAP financial information.

The information included in this Current Report on Form 8-K is being furnished under Item 7.01, Regulation FD Disclosure of Form 8-K. As such, the information herein shall not be deemed to be filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of that Section, nor shall it be incorporated by reference into a filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such a filing.
